Meet The Tigers

David Crockett

The following is the first in a series of articles introducing the individual members of the 1958 McLean High School football squad.

David King "Freight Train" Crockett, 17, a 155 pound left halfback, is one of the mainstay veterans on the 1958 Tiger squad. With four previous seasons of grid experience, Crockett is proving this year to be one of the most powerful running backs in the area, gaining the nicknames of "Freight Train." He played two years of Junior High football and is now in his third year of high school. Only a junior this year, Crockett has one remaining season of eligibility with the Tiger squad. He has earned two previous awards as a football letterman with McLean, ranking last year as an all-district back.

Versatile in athletics, Crockett has proved himself a very able trackster, having placed third in the 100 and 200 yard dashes, the 440-yard relay and the broad jump in district competition.

In other extra-curricular activities, Crockett is a member of the FFA Club, and is also considered one of the top cowboys in the area. In school awards he

Melvin Butrum

was elected class favorite of his freshman class, and is now serving as president of the junior class and treasurer for the FFA.

With the prospect of another season with Coach Riley's team, Crockett can be ranked as one of the truly great athletes of McLean High School.

He is the son of Mr. and Mrs. Emory Crockett.

Melvin Dean Butrum, 17, is serving this year as a starter for the McLean Tigers in the center position. One of the team's veterans, Butrum has five previous years of grid experience. He played with the Junior High Cubs from 1953 through 1954 and has since been with the varsity team.

At 145 pounds, Butrum has earned one previous letter with the Tiger team, and is one of the seniors serving with this year's eleven. In an exceptionally light line, Butrum is credited with being one of the top offensive men in the Tiger forward wall.

In other activities, Butrum has participated in basketball and is also a member of the band and the Future Teachers Club.

He is the son of Mr. and Mrs. Harold D. Butrum.

TEACHERS HONORED AT LIONS CLUB LADIES NIGHT BANQUET

McLean's Lions Club held its regular Ladies Night banquet Tuesday night in the basement of the McLean Methodist Church, honoring the teachers of 1958.

With all the teachers, principals and superintendent as guests, a total of 96 persons attended the banquet.

Providing the program, the Milliron Trio sang several numbers for the group.

Special awards for the evening were made to Miss Martha Cardwell, Lions sweetheart for 1958, and to Mrs. W. C. Simpson, wife of the 1958 club president.

Other special guests for the evening were the wives of all Lions Club members. The meal was served by ladies of the Methodist church.

Cubs Wreck Wheeler JH

The McLean Junior High Cubs opened the 1958 season in a big way Thursday night as they rolled by the Wheeler JH, 38-0.

Joel Meacham provided the bulk of the offensive power for the cubs, accounting for two touchdowns and one two-point conversion.

Other scorers for McLean were Donnie Woods, with two touchdowns; Tommy Herron with one touchdown and one two-point conversion; and James Farris with two two-point conversions. The team was successful in four of five tries for the conversion points.

Coached by Bill Adams, the young squad looked exceptionally good for its first game. John Evans, defensive tackle, was singled out for an outstanding game in the line for the Cub.

Next game will be tonight at Clarendon for the first conference battle.

John Adams, second president of the U. S. once volunteered to fight with the Marines during a sea engagement in 1778.

Baptist Circles Meet Tuesday

Mrs. Oba Kunkel was hostess to the Hancock circle meeting in the Baptist church parlor Tuesday morning.

Mrs. Bunia Kunkel led the opening prayer and Mrs. Jane Simpson brought the lesson on mission study.

Present were Mesdames T. A. Langham, Leo Gibson, Lonnie Day, R. L. McDonald, Jim Stevens and those named above.

The Rowden circle met Tuesday afternoon with Miss Marjorie Fowler as hostess.

The lesson was a Bible study led by Mrs. George Colebank. A report was made of some new and used clothing which was given to a needy family.

The hostess served spiced tea and cookies to Mesdames Bill Pettit, L. F. Giesler, Homer Abbott, W. N. Pharis, O. L. Tibbets, Gordon Billingslea, Luther Petty and Colebank.

ATTEND LIONS MEET

Jim Hathaway, John Haynes and Boyd Meador represented the McLean Lions Club at the zone meeting in Shamrock Sunday afternoon. Other clubs represented were Memphis, Hedley, Sannorwood, Pleasant Valley and Shamrock.

The first Navy "SeaBee" Battalion went into battle Sept. 1, 1942, when they were landed on the beachhead at Guadalcanal in the Solomon Islands.

On Sept. 2, 1945, the Japan-World War II ended. The formal surrender of Japan was signed aboard the U. S. Navy's USS Missouri in Tokyo Bay. At anchor in Japan's main seaport was the victorious U. S. Fleet.

Charity Circle Meets Wednesday

The Charity Circle of the Methodist WSCS met Wednesday morning, with Mrs. Kirby conducting the business.

Mrs. Chas. Carpenter brought the devotional on "Bearing others burdens," using Galatians 6.

Mrs. Day presented to the society the work of the World Federation of M. F. Women.

Those present were Jane Day, Grace Carpenter, Carrie Kirby, Ellen Wilson, Alice Wilson, Eva Peabody, Bessie Hess, Lena Pettit, Nora Sparks and Lurah Rhodes.

The meeting closed with the WSCS benediction.

McLean Band to Participate in Amarillo Parade

The McLean high school band, under Director Bruce Cook, will travel to Amarillo Monday to participate in the annual parade beginning the Tri-State Fair. Monday will be a holiday for McLean school students.

Cook stated that the band would leave McLean Monday morning at 8:15, as the parade will get underway at 10.

Following the parade the group is scheduled to have lunch at Dowell's and will spend the afternoon at the fair grounds.

McLean Reserve

Given Superior On Inspection

McLeans Army Reserve Unit received a superior rating in a recent inspection of equipment, it was reported this week.

In the letter received by the unit concerning their rating on the inspection, it was stated that the main category of equipment on hand was small arms. The shop operation and supply for the unit is supported by TCSO in Amarillo. There were no major items of engineer or chemical equipment.

The rating given the McLean group is the highest that can be given on an inspection.

Cubs Will Open District Grid Play Tonight

McLean's junior high Cubs will travel to Clarendon tonight for their first district game of the 1958 season. Last Thursday the Cubs defeated the Wheeler junior high, 32-0.

The game in Clarendon is scheduled to begin at 7:00. The Cubs are coached by Bill Adams.

Competing in the district this season with McLean will be LeFors, Canadian, Memphis and Clarendon.

On Sept. 13, 1847, U. S. Marines stormed through the "Halls of Montezuma" on their way to Mexico City.

ADULT EDUCATION COURSE NOW BEING HELD IN HIGH SCHOOL

McLean's first adult education and more interest is shown in other classes, they will be added in the future.

Attending the typing class now are Harlene Smith, Grace Glenn, LaVerne Hutchison, Ruth Lowary, Fay Wiggins, Mrs. Miro Pakan, Mildred Grigsby, Louise McDonald, Bonnie Bidwell, Annie Herndon, Cleo Heasley, Cliffe Heasley, Anita West, Lavern Carter, Doris Locke, Erma Heister, Dorris Windom, Hazel Smith and Nadine Hill.

Melton stated that the interest shown in the course indicated that the program would be very successful. The course will run 18 weeks, with classes held each Monday from 7 to 9 p. m.

If the first course is successful

First School Holiday to Be Sept. 22

McLean's first school holiday will be September 22, it was announced this week.

The News previously reported in a school schedule that the holiday would be on the 15th, but this was incorrect.

The holiday will be held for the Tri-State Fair in Amarillo, in which the McLean band will participate.

Mrs. Guyton's

Brother Is Killed

M. T. Tenison, brother of Mrs. Raymond Guyton, was accidentally shot and killed last Sunday while hunting.

Mr. Tenison was born at Dozier and graduated from high school at Samnorwood. He was a teacher in the Dos Palos, Calif., school, where he had taught for the past eight years.

Mr. and Mrs. Guyton and son, Jerry, and Mrs. F. L. Guyton attended the funeral services.

Man Killed in Auto Accident Near Lela

Jack Brown, 26, of Shamrock died at 5 a. m. Monday as the result of an automobile accident occurring at 1:45 a. m. Sunday two miles west of Lela on Highway 66.

State Patrolman R. C. Parker reported that Brown, going east, lost control of his car on the curve near Lela. The vehicle, a 1949 Oldsmobile, turned over and rolled into the west-bound lane of the highway.

There were no other persons in the car with Brown and no other cars were involved in the accident.

Construction In Local Church Now Starting

The present building of the Church of Christ, Fourth and Clarendon, was completed in 1948 with an auditorium and balcony that will seat 400, and six classrooms. Although the seating capacity of the auditorium is still adequate, the number of classrooms has long been too few in number.

Construction is beginning this week on a new classroom section which will provide nine additional classrooms, an office and a supply room. Construction will match the present brick veneer building, and will join the building on the north, going east for 60 feet, and will form a U shape by coming back south for 77 feet. Additional rest rooms and equipment room will also be in this new section which will be completely air conditioned with refrigerated air. Plans also include some remodeling to the present building with refrigerated air also being installed in this building. Modern furnishings and equipment is planned for the classrooms. Total additional floor space will be 3,700 square feet.

Construction is being done by the Paden Construction Co. of Cleburne, who specialize in constructing buildings for the churches of Christ all over the nation. They have some 40 to 50 under construction most of the time, and have been engaged in this work for the past several years. Actual construction cost of the new section is to be about \$30,000 with furnishings, landscaping, etc., to be extra.

REVELLE

with the boys

Camp Pendleton, Calif.—Marine Pvt. Troy M. Smith, son of Mr. and Mrs. Floyd Smith of McLean, was scheduled to graduate Sept. 16 from an intensive four-week infantry training course.

During this period Marines live primarily in the field and take part in bivouacs, marches and muscle building exercises.

This training, followed by two weeks leave, completes the basic Marine Corps training. Graduates are then assigned to specialist schools or a permanent duty assignment.

Gerald Hugg is visiting his mother, Mrs. Opal Hugg. Gerald is with the Marines and has been in Hawaii for two years.

1st Lt. Melvin E. Callahan, Co. 337th Engr. Det., McLean, announced this week that SP-4 Gordon A. Ruthardt, Route 1, Groom, who was recently released from active duty with the regular army, has been assigned to 337th Engr. Det., McLean, a local United States Army Reserve Unit.

SP-4 Ruthardt's assignment in the unit will be electrician.

Groom Next Foe; Wheeler Down 33-0

McLean's Tiger griders will try to make it three straight victories for the 1958 season tomorrow night as they go against the Groom Tigers there at 8 p. m.

Coach Jack Riley's charges defeated Shamrock 32-20 and Wheeler 33-0 in their two opening clashes.

Guided by Weldon "Doc" Bates, the Tigers of Groom were pre-poled to head the 9-B circuit, and are defending district champions.

In the line, the Groomsmen average 164 pounds per man, compared to 152 pounds per man for McLean. Both backfields average 150 pounds per man.

Regarding experience, the Groom squad will have eight seniors, two juniors and one freshman.

IN HOME OPENER

Last week the Tigers had little trouble as they waltzed past the Mustangs of Wheeler in their home opener before a capacity crowd at Duncan Field.

After a scoreless first period, the Tigers exploded one minute deep in the second stanza as they pushed to the Wheeler 14 and End Frank Worsham ran a double reverse around left end for the first score. David Crockett plunged off tackle for the two extra points.

Two minutes later, the Tigers gained their second TD as Crockett romped 67 yards around right end. Quarterback Jim Rice then booted for the single-point conversion.

With one minute left before halftime, Crockett tallied his second TD as he circled right end for 15 yards. The PAT try failed on a run for two, and McLean held a steady 21-0 intermission advantage.

Wheeler held the Tigers without a score in the third quarter, but in the fourth Rice widened the Tigers' gap with a keeper around left end, good for 35 yards and a TD. His boot for the extra point was low.

With less than a minute remaining in the game, Fullback Billy Crockett eluded the Tigers' scoring, taking a screen pass from Rice, and scoring from 15 yards out. The PAT on another running try failed, and McLean led 33-0.

One touchdown by McLean Halfback Jerry Biggers, who galloped 45 yards, was nullified by a Tiger offside infraction.

Score by Quarters:

Wheeler 0 0 0 0—0

McLean 0 21 0 12—33

TV Watching and Gracious Dining Combine

BY EDNA MILES

In some homes, television habits rule the roost, especially at dinnertime. In fact, some children are more familiar with TV trays, or off-the-floor eating, than with a dining table. And many adults are the same.

You can halt the rush from dining room to living room or den and return to a more gracious routine, especially if your home has an L-shaped living room which you also use for dining. Decorator C. Eugene Stephenson suggests that you set your TV on the buffet so it is viewable from both living and dining area.

When you set the table, remember to keep a flower arrangement low and candelabra or other decorative items at the end of the table. Comfortable chairs keep both the family or guests happy during their eating-viewing.

And to keep you, the hostess, happy serve a chafing dish meal so you don't hop up and down from the table.

This mother solves the problem of eating and viewing television with a clever dining-room setting.

P.T.A. Sets Membership Month

They'll Knock On Igloo Doors In Newest State

When more than eleven million P.T.A. members open their annual Membership Enrollment month this October, they will be urged to "knock on every door" to find new members interested in advancing the welfare of children.

Some of those doors may open to the oldest dwellings in the Western hemisphere—stone igloo homes in Alaska, scheduled soon to become the nation's 49th state.

Here, as throughout the U.S., the National Congress of Parents and Teachers will seek to add some half-million new "parents, teachers or friends of children" to what is already the nation's largest voluntary service organization.

Mrs. James C. Parker, of Grand Rapids, Mich., president of the National Congress, cites "the dynamic potential of Alaska, our newest state," as "comparable to the spirit which has enabled Parent-Teacher associations to contribute so much to the welfare of children."

The variety and scope of P.T.A. activities in the 61-year history of the National Congress are reflected today, Mrs. Parker noted, in the everyday life of Alaskans which ranges in spirit from the quite sophisticated to the "truly frontier."

Alaska's Congress of Parents and Teachers, which became part of the national organization in 1957, today faces problems which can be compared, Mrs. Parker pointed out, with those recorded over the years in tiny American communities or in its largest cities. For it is a land where...

—School youngsters may ride for miles in a dog sled to a crowded, poorly-heated quonset hut, or walk across the street to a modern, several story building.

—Where accountant, school

"Home is the child's first school," explains Mrs. James C. Parker, president of the National Congress of Parents and Teachers, whether it's in Point Barrow, Alaska, or the continental U.S. Here, Chicago school children examine picture of Eskimo family standing under strips of caribou meat outside their far north home. In proclaiming October as P.T.A. Membership Enrollment month, Mrs. Parker points out that development of P.T.A.'s in Alaska, soon to become the nation's 49th state, parallels the organization's pioneering days in this country.

teachers and government workers regularly make trips "back in the bush" to hunt and fish for food for their families—and store it in modern freezers.

—Where the airplane is the accepted means of travel between cities, but where the number of sled dogs is increasing.

—Where teachers in schools with large Eskimo or Indian populations must teach a second language—English—to many of their charges, while other schools, especially those on U.S. army bases, maintain typically American libraries, theaters and bowling alleys as part of their recreation program.

Aims of the National Congress membership month will apply

equally well in this dynamic new state, Mrs. Parker pointed out, as in its member organizations throughout the continental United States, in Hawaii and on American military bases in Europe.

"For the primary purpose of the P.T.A.," she explained, "is to safeguard children, to build for the future in such a way that in every community the lights of home may always shine out."

In designating October as the period for membership enrollment, she called upon "every parent-teacher member to knock, once more on the door, and at the heart, of every American, so that all of us, working together, may make America the best possible home for all our children."

A former "cure" for cancer required the swallowing of roasted insects. Of course, today, we know this remedy was foolish. Though we're still looking for the cause of cancer, medical science has made tremendous strides in its detection and treatment. Ask your physician about them. And remember, whenever you're not feeling up to par, it's good sense to visit your doctor. Then, if medication is necessary, see us for reliable prescription service.

FIELD DAY FOR THUGS

Congress finally turned thumbs down on enacting any labor reform legislation until the next session. A Republican-Southern Democrat coalition was responsible for the outcome, after the many defects of the Kennedy-lives bill had been glaringly exposed. But no affirmative action was taken to protect the country against the gangster elements which have infiltrated major unions. In the words of Newsweek magazine: "The ugly picture of terrorism and hoodlumism . . . was steadily growing darker . . . In many cities, it looked as if the thugs in labor were having everything their way. It was an explosive situation, one that decent people, sooner or later, would have to do something about."

President Eisenhower said the Kennedy-lives bill fell far short of recommendations he submitted to Congress January 23.

It is a sad commentary on representative government when the best efforts of its lawmakers appear unequal to protecting the most elementary rights of private citizens.

"It is much better to sit tight than to attempt to drive in that condition."—Commerce.

"Prosperity is only an instrument to be used, not a deity to be worshipped."—Calvin Coolidge.

A FUNDAMENTAL PRINCIPLE

Paying one's way is an old and honored American custom—one in which we have long taken fully justified pride.

It simply means that we pay for what we get—whether it be a suit of clothes, a car, a meal in a restaurant, or anything else. We expect to pay the cost of providing the service or the commodity in question, plus a reasonable profit for the provider. We don't expect other people to pay a part of it for us—and we don't expect to pay a part of the price of the things other people buy.

This fundamental principle governs the vast majority of all commercial transactions, large and small. But there are exceptions—exceptions which many people don't know exist. They are found in commercial undertakings of the government.

An example is the parcel post service of the Post Office Department. It is a purely commercial business—without the "public enlightenment and educational factors" that attend other post office functions. It is directly competitive with private, taxpaying carriers of parcels and small freight shipments. Yet those who patronize parcel post do not pay the whole bill. The service has commonly been operated on a deficit basis ever since it was started in 1913. So all the taxpayers must bear a part of the cost of carrying on the service whether or not they ever use it.

Compelling arguments can be made against government entering any commercial business in competition with its own citizens and taxpayers. At the very least, when government does go into business, it should charge rates that fairly and honestly cover the cost.

WHAT HAPPENS TO A \$10 BILL

Chain-Store Age tells what happens to a \$10 bill a housewife spends when she goes grocery shopping in a typical chain store. The breakdown covers 50 classifications of varying importance—beverages, vegetables, pet foods, bakery goods, soap and cleansers, and so on and so on.

All in all, \$7.94 out of that \$10 bill goes to the manufacturers and farmers who provide the goods the chains are selling. Then \$1.77 goes to pay for the store, the help and the overhead. Taxes take 15 cents.

A little simple arithmetic shows that a mere 14 cents is now left. This is the profit—the amount the owners are able to keep. It comes out to just 1.4 cents on the dollar.

This is mass distribution at work. It is based on a principle that many thought unsound and doomed to failure when it was first tried, but is proven today—that stores can make a satisfactory total profit by selling

The Cod War

a huge amount of goods at extremely small unit profits. Mass distribution, of course, isn't limited to foods. It is found in all other important fields of chain retailing, and the principle is identical in all cases. Stores, which must deal with style trends, seasonal merchandise, slower moving inventories and other such problems, earn a larger percentage per sale. But, generally speaking, it is limited to a few cents on the consumer dollar. You can't blame retail profits for the high cost of living.

Congressman Rogers Reports—

TO THE PEOPLE

CHINESE: NATIONALISTS VS REDS

The long smoldering Chinese problems appears to be bursting into open flame. If such is the case, and if the Red Chinese do take over the offshore islands of Quemoy, Matsu, etc. and mount a strong invasion effort against the Pescadores and Formosa, it could prove most embarrassing to the present Administration. It will be remembered that one of the first pronouncements of the Eisenhower Administration was a "dynamic new foreign policy," which included the unleashing of Chiang Kai-shek. It was openly indicated and insinuated, if not clearly stated, that such a policy would permit Chiang Kai-shek to invade China and recover it from the Reds. As most people know, this was nothing short of political claptrap. There was just about the same amount of slack in the leash before it was unsnapped from Chiang's neck as after. No one was naive enough to believe that the Nationalist Chinese had the forces or the equipment to invade the continent. In order for them to have secured a beachhead, U. S. forces larger than the Nationalist forces would have been required. However, as a gesture to somewhat support the unleashing theory, Chiang Kai-shek reluctantly increased the number of his forces on Quemoy, Matsu and other islands immediately off the shore of the continent. He did this with reluctance because he realized the very small chance of retaining these islands should the Red Chinese decide to overrun them. They are so close to the shore it would be almost impossible to prevent invasion. And it is entirely possible that the same policy would be followed concerning Quemoy and the Matsus as was followed in evacuating the Tachens. The Secretary of State, John Foster Dulles, has come in or some criticism in some of the metropolitan dailies as the arch-

itect of the policy forcing Chiang Kai-shek to increase the forces on these offshore islands. The United States has been placed in a rather embarrassing situation insofar as Oriental philosophy is concerned. The loss of face that could be suffered by the free world would far outweigh the military importance of these islands, should the Communists decide to take them.

It might be pointed out that it is generally conceded the Chinese Communists do have the equipment and the men to overrun these offshore islands without too much difficulty when they decide to do so. This is not startling news, because the Chinese Communists could very easily mount a force of over a million men to do this job, if they thought it was of sufficient importance.

However, there is much doubt as to whether or not a decision has been made by the Reds on this question. Many feel that the Communists would much prefer to have the issue than the islands. This theory is supported by the general proposition or principle which has been pursued by the Communists for so long. That is to maintain a constant state of conflict and confusion, which they have done very successfully since World War II. These offshore islands are so located, that it is very easy for the Communists to keep the conflict going with very little chance of suffering any losses of manpower, equipment or material. They furnish a perfect opportunity for the continued agitation that has seen the Berlin Airlift, Korea, Budapest, the Near East crisis, the many vetoes in the U. N., and the other acts of international peace sabotage that has been the policy of the Kremlin for so long. You can expect a continuation of this pattern, because of the primary objectives of Communism is to keep the free world off balance. The

TROUBLE IN THE EAST—Newsmag shows the area where Nationalist and Communist Chinese are lobbing shells at one another in an action that some fear may develop into World War III. The tiny offshore island of Quemoy is heavily garrisoned by the Nationalists for prestige purposes and to blockade Red China's important port of Amoy. The United States has "definitely" decided to help the Nationalists in the event the Reds try to invade the islands. The Communists have spent three years building up forces on the nearby mainland.

continuity of the Communist world allows them to conduct such operations over vast areas of the earth's surface without requiring them to cross over enemy territory or international waters in order to maintain such activities. It occurs to me that those forming our foreign policy should take a long look at this general Communist policy unless we want to be prepared to run our legs off putting out brush fires.

Bible Comment: Joseph Wished Only to Forgive His Brothers

Among the great figures that stand out in history is Joseph. We first see him as a gentle and rather naive lad, somewhat in danger of being spoiled by the favoritism of his father.

He is well-intentioned, guileless and unaware of the great hatred that his brothers have for him which so quickly changes the easy circumstances of his life. But when tragedy strikes him, Joseph shows the spirit that is in him. He is not crushed by misfortune and is shown himself capable of standing trial.

He is honest and industrious and earns himself a position of honor and trust. Then comes the crucial time in which not only his personal honor but also his position are endangered. Here, again, he stands the test, though it means prison and degradation.

Elevation and greater honor than before follows. Due to his foresight, there is plentiful food in Egypt while surrounding countries starve. Joseph is able to keep his father and family alive.

Later, Joseph has his brothers entirely in his power, able to inflict any punishment on them he chooses. But all along he has no purpose other than that of forgiving.

It was permissible to take the unique way he did of bringing home to his brothers their own sin and the fullness of his forgiveness.

He was fasting them, too. There was another brother at home, the apple of Jacob's eye. Would the brothers be jealous of him? Did they hate him. Would they try to sacrifice him?

Their attitude entirely changes in the grand climax to one of the greatest stories in all literature.

ATTEND CHURCH EACH SUNDAY

IN A GOLDFISH BOWL

By Gerald L. Hill

Pastor, First Presbyterian Church

Matthew and Mark swim placidly around in a goldfish bowl. They don't require much care. Although prominently displayed, they are just ornamental. Some friends cared for them while I was on vacation, and two weeks after I returned, I went to get them. They haven't made much difference in my life.

Friends say, "Oh, I see you have some goldfish." I reply, "Yes, their names are Matthew and Mark." We laugh and then let it go at that, and go on to talk of other things.

But, it occurs that Matthew and Mark have been cared for like their namesakes.

How often it is that a Bible occupies a place of prominence in our homes, displayed for all to see, but still in a goldfish bowl. It has become ornamental. It doesn't seem to require much attention.

A minister made a call at a parishioner's home, and having inadvertently left his Bible behind, he asked if he could use theirs, for the reading of a devotional and a prayer. The lady of the house went to a trunk, searched hurriedly in it, and triumphantly came up with a Bible tied in a pink ribbon.

If Matthew and Mark remain in a goldfish bowl of our own design, is it any wonder that our faith makes so little difference in our lives?

Our faith is centered around the Bible, and God speaks to us through Holy Scripture. Did ever men need any more these words,

"Lord, I believe, help Thou my unbelief," or this saying of the Master, "He who has seen me has seen the Father."

For your sakes, take Matthew and Mark out of a goldfish bowl!

"Oh dear! I just mailed some letters with old-fashioned stamps! Am I in real trouble with the government?!"

TAX MAN TEX SEZ:

than his proper tax.

During the past few weeks thousands of boys and girls again took up the battle with books here in Texas. So many learned men have come up with so many good ideas about what the boys and girls should learn in this era of space travel and rock 'n roll sputniks that it is sort of dangerous to even mention the word education. However, it's pretty safe to predict that the thousands of high school and college students who study the income tax course will get a chance to use what they have learned. The sputniks may keep on rockin' 'n rollin' or they may get sacked, but unfortunately, not only this generation but the next one will be working on this tax business. Maybe Junior can learn enough to prepare correct tax returns and pay no more

GRAY COUNTY SOIL CONSERVATION NEWS

By James Smathers

Farmers can now sign up under the conservation reserve portion of the soil bank program. Farmers have until Sept. 26, 1958, to sign up for this program. A farmer may sign a contract to take some portion of his cultivated land, or all of it in some cases, out of production and seed it to some kind of permanent grass. This contract is for a five or ten year period. There is no grazing allowed on this land as a farmer draws an annual pay-

ment for taking the land out of production. This is an excellent opportunity to get some land established back in grass or to give some cropland a needed rest and rotation until it is needed at a later date.

For further information on this program, contact one of your local agricultural agencies.

With the good rains and good season during the first part of this year there are some good native grasses that have made good seed. Some native grasses are ready for harvest now. Farmers and ranchers need to look around to see if they have any good patches of native grasses that seed could be harvested from. The sideoats grama has made very good seed and some cooperators within the Gray County Soil Conservation District

have made plans to harvest the seed.

Grass seed prices are high and there is a good demand for the seed. Sideoats grama may yield 50 to 60 pounds of good seed. At a dollar a pound there are some good returns to be picked up from good patches of grass.

Blue grama is also another grass that is ready for seed harvest. Some of the bluestems will be ready before too long.

If you think there is a possibility of any seed harvest, contact your local Soil Conservation Service technicians in the courthouse at Pampa. There are a number of farmers with combines who can harvest grass seed. Also a number of seed dealers are available who will harvest and buy the seed.

STRICTLY FRESH

There's nothing quite like a brisk wash-up with water from the pump on a nippy fall morning, for which we're very glad.

Smile: as frustrated as a commuter trying to board a bus while carrying one of those playtime hoops so popular these days.

The Social Security amendments of 1958 will provide increased monthly payments to about 13,400 people in the Panhandle, beginning with the checks which are due early in February, 1959, according to John R. Sanderson, social security district manager in Amarillo. The amount of the increase will be about 7%, although the increase in some checks will be slightly more than 7% and it will be slightly less than 7% in some others.

People who are already getting social security payments do not need to apply for the increase. It will be automatically added to the checks for January, which will be mailed out early in February.

Under other changes made by the new law, social security benefits will become payable to a number of people not previously eligible for payments. They must, however, apply to their social security offices before payments can start. Among the groups now eligible because of

the amendments are:

Dependents of people who are 50 or over who are now getting disability insurance benefits (children under 1 or disabled; a wife of any age who has a child in her care who is entitled to benefits; a wife 62 or over; or a dependent husband 65 or over).

Disabled people 50 or over who could not qualify for benefits under the old law because they did not have as much as 1 1/2 years of work in the three years before they were disabled. (A total of at least five years of work under the law is still required.)

Dependent parents who are or daughter died after 1939 and who could not qualify for benefits under the old law because the son or daughter left a widow, widower, or child.

Adopted children whose adoptive parent began receiving retirement benefits less than three years after the adoption. (In many cases this provision will also make possible payments to the mother of the adopted child.)

A person receiving benefits who marries another person also receiving benefits can continue to receive monthly checks, or can

become eligible as a dependent of the new husband or wife without waiting three years.

Some people in situations similar to those mentioned above may have applied for benefits in the past and been notified that they did not qualify for payments. These people should get in touch with their social security district offices promptly about filing new applications, Sanderson noted.

Disabled workers whose social security disability benefits were reduced or were not payable because they received workmen's

compensation or other federal disability payments will begin to receive the full amount of their social security disability payments. (These people do not have to file applications. Their social security checks will be started automatically with checks mailed out early in September.)

Beginning January 1, 1959, the social security tax rate for employees and employers will be 2 1/2% each. The rate for self-employed people will be 3%. These rates are scheduled to increase every three years until they reach 4 1/2% for employees and employers and 6% for self-employed people in 1969.

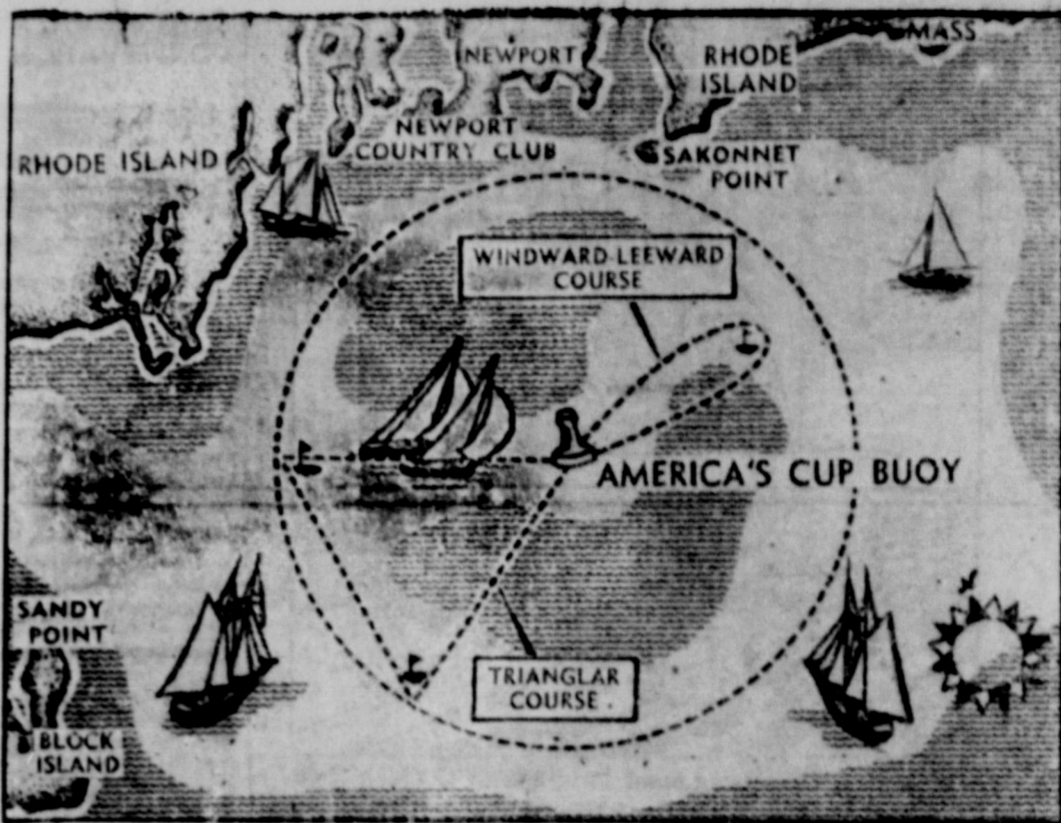

Starting with 1959 the first \$400 of earnings in a year will be taxed for social security and will count toward social security benefits.

The Amarillo social security district office is at Room 324, New Post Office Building. It is open from Monday through Friday, 8:30 a. m. to 4:30 p. m.

Mr. Sanderson emphasized that it is not necessary for people already receiving monthly payments to apply for the automatic increase. It will be added to the January checks, which will be delivered early in February.

"Inquiries about the automatic increase will slow down our effort to start payments promptly to the people who can now get payments for the first time," he said.

Veterans Information

Q—Before I can get a Certificate of Eligibility for a GI home loan I understand I will need to show my discharge from the army, which I can't seem to find. Will a certified true copy I had made do just as well?

A—Yes. A certified true copy of your discharge is acceptable to VA as evidence of your military service. Send or bring it, with your application, to the VA regional office in the area where the house you are planning to buy is located.

Q—How soon after I start school this fall, under the Korean GI bill, will I get my first VA school allowance?

A—The waiting period is approximately two months. By law, VA is not permitted to mail you a check until it has received proof that you have completed the month of school for which you are to be paid. In addition, VA is allowed 20 days after that to get your first check in the mail. So count on approximately two months wait for your first VA allowance check. After that checks will arrive regularly for each month of certified school attendance.

Q—I'm a disabled veteran of the Korea fighting, taking vocational rehabilitation training, and I have a dental condition that has been bothering me lately. My disability is service-connected, but I don't know whether my dental condition is or not. Can I get outpatient dental treatment from the VA?

A—You would be eligible for outpatient treatment in the circumstances you describe. The law states that disabled veterans of World War II and the Korea conflict receiving training under the Vocational Rehabilitation Act, and who need dental treatments in order to prevent interruption of their training, may apply for the treatment as needed.
