

# PLAIN TALK

By BILL PERKINS

This week is certainly a bad time in McLean for those who try to stick with a diet.

The sophomore class is having a waffle supper tonight at the school cafeteria. Tomorrow night the Builders class of the Methodist church is having a chili supper, and at noon Saturday the junior class is having a spaghetti dinner. They all sound good to us.

Members of the McLean Lions Club are working each night now helping put the finishing touches on the building that will house the new brasserie factory. Mr. Fraser and some of his associates will visit in McLean next Wednesday and Thursday and it won't be long until the equipment begins to arrive. Production will probably begin in three or four months.

Joe Crockett is home on a ten-day leave from the Marine Corps in California. He tells us that it was plenty rough when he first went in and that he had rather have been anywhere than there, but after boot training things got a lot better and he really likes it now. He is stationed at San Diego.

One of our readers, Bill Stubbs, has been doing some checking up and has sent us these facts:

"Did you know...  
That the present interest rate being paid by the Eisenhower administration is about 10 times as much as the government ever paid on 90-day loans even during World War II? Within the past 10 days the treasury borrowed 2 1/2 billion at 3.024%. This is costing you and me, the taxpayers, 1.2 billions more each year in taxes than it did at the end of 1952.

"That this extra interest expense for supporting bankers profits amounts to more every year than farm price supports cost for the full 20 years of the Democratic administration?

"That most cost-of-living components have gone up more since Eisenhower took office than in any other peacetime period?"

"That farm prices have been cut 18% since Eisenhower took office and that the parity-ratio index is 82%?"

"That the three largest banks in New York have just published their third quarter report showing from 19 to 27% increase in NET earnings over the same period last year?"

"That the pretty new 1957 car you would like to buy is up as much as 7% over last year and that there will be a lot fewer manufactured than last year?"

"That this is what Vice President Nixon said September 1, 1953: 'Let's recognize right now that the decision to go into Korea was right because the Communists had to be stopped.' You know what they are saying now.

"Now can any of you remember (regardless of your age) a Republican administration that hasn't worked for the interest of big business against the rest of the economy?"

"These are just a few facts that you should consider when you go to the polls November 6. Think seriously and then vote for your own party, the Democrats, all the way.

BILL STUBBS."

## Methodists Plan Preaching Mission

REV. JACK RILEY  
Local Pastor

A preaching mission is planned at the McLean Methodist Church November 4 through 11. Rev. Jack Riley, pastor of the local church, has announced.

Dr. Hubert H. Bratcher will be the visiting preacher for the meeting.

Services will be held daily at 7:30 a. m. and 7:00 p. m.

Rev. Riley has extended an invitation for everyone in the McLean area to worship with the Methodist church during this series of inspirational meetings.

## 'Milk for Millions' Is Hallowe'en Plan By McLean Youths

The Methodist Youth Fellowship of the McLean Methodist Church is planning a constructive Hallowe'en here this year and are urging all other young people in McLean to participate.

In asking the help of other young people, members of the MYF made the following statement:

"Attention! All young people.

"How would you like to think that you could do something to help someone who is less fortunate than yourself instead of doing something destructive this Hallowe'en? You can, and have a lot of fun doing it. Wednesday, October 31, if all the young people will meet at the Methodist church we can all go out together 'trick or treating,' but the thing we will trick or treat for will be money to send to CROP, meaning Christian Rural Overseas Program.

"For every pound of dry milk we can buy to send overseas the government will match it with 20 more pounds.

"Now don't forget, from 6:30 to 8:30 we will trick or treat for CROP and then come back to the Methodist church for a party. Tell all your friends about our Hallowe'en fun and milk for millions drive on October 31. Sure hope you will be there. Special arm bands will be provided for those who will trick or treat for CROP."

## State Motor Vehicle Inspection Program Lagging in Texas

Texas motorists are exercising the old American custom of putting off until tomorrow what ought to be done today and Col. Homer Garrison, Jr., director of the Texas Department of Public Safety, has expressed some concern that the practice is responsible for considerable lagging in the state's motor vehicle inspection program.

The first month of the new inspection period ended on October 15 and Garrison noted that only 4% of the registered vehicles have been inspected. The period runs through April 15, 1957.

"The inspection period embraces a full seven months," Garrison said, "and that means that a minimum of 14% of the cars must be checked each month in order to avoid unnecessary rushes on the inspection stations in the final weeks of the period."

Meanwhile, George W. Busby, DPS motor vehicle inspection division chief, reported that a total of 3,663,000 cars were inspected during the year which ended last September 14. Of these, slightly more than 1 1/2 million, or 43%, needed some adjustment or repair before meeting the approved standards. Average cost for such services was 88 cents.

The most common defect found by the state's more than 4,200 licensed inspection stations during the year was in 29% of the cars which needed headlights adjusted or repaired. Busby announced.

He said that the second most frequent mechanical deficiency was the 10% of cars which required adjustment or repairs of foot brakes.

Mr. and Mrs. J. B. Kibler of Oklahoma City and Mrs. W. F. Harlan and granddaughter of Skellytown visited Mrs. J. W. Kibler over the week-end.

## VILLAGE

## GOSSIP (More or Less)

The sophomore class of McLean High School is sponsoring a pancake supper Thursday, October 25, in the grade school cafeteria. It will be held from 5 to 7 p. m. and will be 50 cents per plate.

The freshman class will hold a bake sale at the McLean Hardware Saturday, October 29, from 9 a. m. through 4 p. m.

Ten Town will be held Friday night immediately following the football game.

Mrs. Capitola Lowe was not present Saturday when her name was called at the Appreciation Day activity, so the money was carried over until next Saturday.

## Owner Still Looking For Spare Tire Left at City Dump

If you found a pickup wheel, tire and tube at the city dump ground recently, it wasn't left there on purpose and Peb Everett would like to get it back.

Last week Peb was having some trash hauled to the city dump and when the boy doing the hauling started to unload the pickup he took the spare tire out of the truck and put it on the ground where it would be out of the way.

When it was discovered that the spare was left at the dump ground it was no longer there. If anyone found the spare, Peb would sure like to know about it since he never intended for it to be left at the dump grounds in the first place.

## NEW BOSS

Mr. and Mrs. Earl W. Johnson of Borger are the parents of a 6 pound, 7 1/2 ounce girl born Sunday, October 21, in the Groom hospital. She has been named Judith Ann.

Grandparents are Mr. and Mrs. Roy Johnson of Perryton and Mr. and Mrs. Jimmie Hill of Alanreed.

## McLean Folks To Honor Fraser and Associates

### Memphis Cyclone

### TO PLAY HERE FRIDAY

The Memphis Cyclone will strike at Duncan Field here tomorrow night at 7:30 when they meet Coach Hap Rogers' McLean Tigers.

The Cyclone had an open date last week and the encounter here Friday night will be the first conference game for Memphis.

Memphis played Price College of Amarillo two weeks ago and edged out a 14 to 13 victory.

McLean lost its first conference game last week when the Clarendon Bronchos piled up a 27-6 victory.

The Cyclone record for the season is 3 wins, 2 losses and 1 game tied.

One hundred and fifty persons are expected to be present at an appreciation dinner honoring Calvin Fraser, owner of the new brasserie manufacturing plant to be located in McLean, and top executives of Sears, Roebuck and Co. when the affair begins at 7:00 o'clock next Wednesday evening at the American Legion Hall.

In this way, the people of McLean hope to convey a truly western welcome to Mr. Fraser and his associates.

Mr. Fraser has announced that Edward H. Hellstedt of Chicago will be here to look over the McLean location of the new manufacturing plant. Mr. Hellstedt, who will be accompanied by his wife, Ruth, is a top executive with Sears and has been with the company for 26 years. He is in charge of all buying of ladies' apparel sold by the firm.

Mr. Hellstedt will bring with him Max Stein, who is in charge of the brasserie buying department of Sears, and Mike Mumma, merchandising manager from Dallas.

Mr. Fraser's wife, Marie, will accompany her husband to McLean and be present for the appreciation dinner.

Bob Izzard of the Amarillo Daily News and Globe-Times and news director of KGNC radio and television, will be on hand to extend a welcome on behalf of the entire Golden Spread.

Mr. Fraser and his associates are expected to arrive in McLean about 4:00 o'clock Wednesday afternoon. Immediately following their arrival they will be conducted on a tour of the city and then will inspect the building that will house the new factory.

One hundred and fifty tickets to the dinner will be sold to businessmen and other residents of McLean and their wives on a first come, first served basis. The tickets will go on sale at Brown's Rexall Drug Friday morning at 10:00 o'clock.

The building that will house Mr. Fraser's McLean factory has undergone extensive renovations during the last two months, preparing it for the arrival of the manufacturing equipment.

The plant will have about 12,500 square feet of floor space and has been arranged for the convenience and comfort of the personnel. The interior has been painted in pastel colors of Mr. Fraser's choice and re-wiring is planned to give a maximum of light for all employees.

Mr. Fraser said that he expects to have the McLean plant in operation by January or February and that an initial staff of 60 employees is anticipated.

### David Crockett Scores Only TD

### AGAINST CLARENDON FRIDAY

David Crockett, 145-pound Tiger freshman, made the longest and most exciting run of the evening and the only scoring run for the McLean team when he raced 47 yards to paydirt here Friday night, when Clarendon's Bronchos were on the high end of a 27-6 score.

The Bronchos went to work early in play and held a 13-0 lead at the end of the first quarter. Fullback Jerry Behrens scored from a 28-yard run for the first tally and Halfback Richard Vallance brought in the second score of the first period, from the two yard line.

Robert Mills, Broncho halfback, and Quarterback John Payne accounted for the other Clarendon scores.

Miss Martha Jo McCurley, senior student, was crowned football queen during half-time activities. E. W. Riley, Tiger captain, placed the traditional kiss upon the new queen while Band Director Bruce Cook and the Tiger band played the background music.

### Prizes Are Offered In Local Children Photograph Contest

The time is almost here for the opening of this newspaper's big Child Photograph Contest, and we're urging all of our readers to have their children ready for the big day.

Winston B. Lucas of Irving will be in McLean on Saturday, November 3, from 10 a. m. to 5 p. m., at the McLean News office for the purpose of taking pictures in this vicinity.

In addition to having their pictures printed in this newspaper, the children will be competing for \$18.20 in prizes, which are being offered for the three best photographs made during the day.

The photographs will be made absolutely free of charge, and there is no charge for their publication in The McLean News. Proofs will be shown and from these you may select the picture of your child which you would like to appear in this newspaper. If you wish extra photographs, they may be purchased, but no purchase is necessary in order to have your child's picture printed in this newspaper, or in order to compete for the prizes. It is entirely up to you, whether you buy pictures or not.

There is no age limit on the contest, and every child's photograph in this section is wanted so that they may all appear in The McLean News. However, it is necessary that all pictures be of uniform size, so they must be made by Winston B. Lucas on Saturday, November 3.

Don't wait until little Mary gets married or baby brother is elected to some political office to see their pictures in the paper—make plans now to have these photographs made on Saturday, November 3. Tell your friends and neighbors—the more, the merrier.

Mrs. A. C. D'Spain and daughter, Latrice, of Briscoe visited in the Sherman Crockett home Saturday.

### Alanreed P-TA Has Regular Meeting; Carnival Saturday

The Alanreed P-TA met for its regular monthly meeting October 15 at 7:30 p. m. The program was enjoyed by everyone present.

Movies were shown for the enjoyment of the children who accompanied their parents.

Plans were completed for the annual fall carnival in the Alanreed gym on Saturday, October 27, beginning at 7:30 p. m.

The P-TA urges everyone to attend the carnival and they promise fun and games for all.

### Legionnaires Set Meet in Childress Saturday and Sunday

Childress, October 22—Legionnaires and Auxiliary members from the Eighteenth Congressional District will assemble here on Saturday and Sunday, October 27 and 28, for their annual fall convention of the American Legion, Tom R. Preston, commander of Cox-Furr Post No. 65, announced today.

Commander Preston stated that his committees have been busily engaged planning an interesting schedule for the visiting delegates from the time of their arrival until their departure on Sunday afternoon.

Among the distinguished visitors to the convention hall will be Hilton Lambert of Snyder, department vice commander; Mrs. Virginia Bailey of Alpine, department vice president of the Auxiliary; Edward Dow Stevens of Borger, 18th district commander; and Mrs. Ira Ott of Hereford, 18th district president of the Auxiliary.

The joint session of the American Legion and Auxiliary will be held Sunday morning, which will be followed by a luncheon at noon. Sunday afternoon the groups will go into separate business sessions. The American Legion will be presided over by Commander Stevens and the Auxiliary by Mrs. Ott.

Among subjects to come before the business session of the Legion will be the annual membership and post activity campaign and the veterans land amendment, to be voted on at the general election on November 6.

Grasshoppers cannot jump unless the temperature is at least 62 degrees Fahrenheit.

### Methodist Group Sponsoring Chili Supper Tomorrow

## SPEAKING & CARDS

### TOPSY TURVY

Here's another simple card trick that doesn't require any special dexterity on your part but which is guaranteed to please and puzzle your friends.

You may not have noticed it but certain cards in the deck have more pips (suit signs) pointing in one way than the other. For example (see illustration), this is true of the 9 of Hearts, the 3 of Spades, and the 5 of Clubs. The only suit in which it does not apply is Diamonds, so you will not be able to use any Diamonds in this trick. Picture cards are no good either.

Take out a number of cards with an unbalanced number of pips. Arrange these cards as in the illustration so that the unbalanced pip patterns all run in the same direction. A moment's study of the illustration will make this clear.

Holding these cards as a working deck (arranged as described), fan them out face down and ask someone to draw a card. Tell him to

look at it closely and fix it in his mind. While he is busy doing this, close up the deck quickly and turn it around so that the direction of the pips has been reversed. With practice, you can do this without being seen.

Now ask your subject to return his card to the deck. Fan out the cards again and hold them up so that he can slip it back himself. Shuffle the deck, inviting him to stop you at any time.

Look through the deck and you will be able to spot his card without much trouble. It will be the only one whose pip pattern runs in the opposite direction from the others. (See the 3 of spades in Fig. 2 in the illustration.)

Nine times out of ten, you'll find that your subject will return his card so that its pip pattern is in the same direction it was when he drew it. This, of course, enables you to work the trick successfully.

However, if he should happen to turn it around before placing it back in the deck, pass the failure off with a witty comment and try again.

Topsy-Turvy is one of ten easy-to-do card tricks fully described and diagrammed in the booklet, "Take a Card." You may obtain a copy of this booklet by sending ten cents for mailing and handling to Dept. TT, Playing Cards, 429 Lexington Avenue, New York 17, N. Y.

## 4-H's Aim for 1956 National Club Congress

FOR the 35th consecutive year the nation's top 4-H youth are setting their sights high to reach their goal and the National 4-H Club Congress in Chicago, Nov. 25-29, where they will be honored and rewarded for outstanding accomplishment.

More than 1300 boys and girls representing over two million 4-H Club members from 48 states, Alaska, Hawaii, and Puerto Rico will attend the Congress. In addition to an all-expense trip, these state, sectional and national winners will receive other rewards culminating several years of diligent 4-H project work.

"While the annual value of products resulting from 4-H members' projects amounts to an estimated \$115,000,000, this gain is probably the least of the benefits arising from 4-H Club experience," said Guy L. Noble, director of the National Committee on Boys and Girls Club Work.

"The greater and more lasting benefits are the personal satisfactions derived from real achievement such as making friends, practicing democratic procedures through organized 4-H Club work, and developing spiritual values from day-to-day living with 4-H ideals," he stated.

Immediate rewards for the Congress-bound 4-H'ers will be 212 college scholarships worth \$87,000; U. S. savings bonds valued at \$11,250; special cash awards totaling \$15,700. Many will be presented with engraved watches and other handsome gifts. All will be entertained at gala breakfasts, luncheons, and dinners.

In the overall National 4-H Award Programs a total of nearly \$360,000 is expended annually to recognize boys and girls who have excelled in "improving family and community living."

These award programs are made possible through the combined efforts of the National Committee on Boys and Girls

Club Work, the Cooperative Extension Service, civic spirited individuals, business firms and foundations.

Those providing 4-H awards and support this year are: the President of the United States, Mrs. Charles E. Walgren, Thos. E. Wilson, Edward Foss Wilson.

WHICH IS THE YEAR-ROUND PARTY?

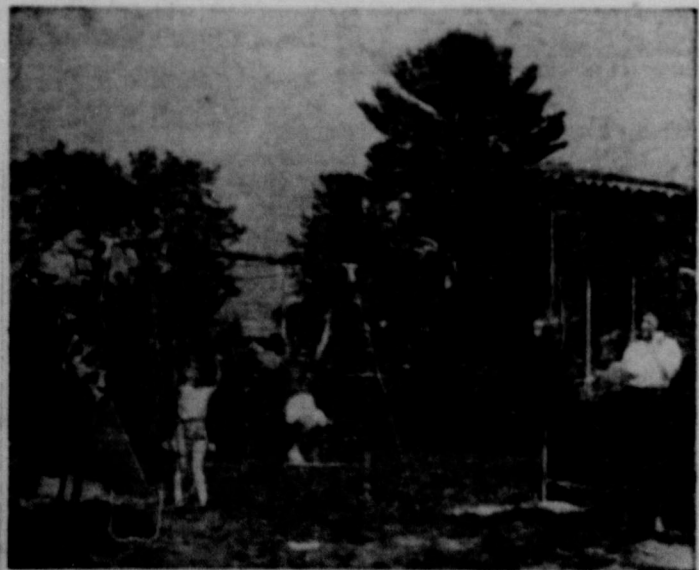

The national election this year reminds us of a football game between a team of hard-working plodders and a team composed of one flashy quarterback and ten other guys who had rather ride his shirrtail than accomplish anything on their own hook.

If there were such a game, who do you suppose would score the most points? We'd put our faith in the plodders—the Democratic Donkeys. Their quarterback has the advantage of playing for a team that derives its skills from every walk of life and strata of society, and which can be counted on to come through in the clutch.

We believe Adlai Stevenson has the qualities of leadership that will make him a great President. Moreover, his aid and counsel comes from the party that truly represents all of the people of these United States. And regardless of what some would lead you to believe, Texas has a loud and effective voice in the Democratic party. It would take a double dose of gullibility to believe that our voice is louder in the Republican party, which is represented in Texas only by a few would-be political bosses who are more interested in patronage than they are in building a two-party state.

Texas' prestige in Congress is unsurpassed by any other state. Our strength in party councils certainly shows no signs of lessening. On November 6 we will elect a strong slate of Democratic Congressmen along with our state, district, county and precinct officers—virtually all of them Democrats. Doesn't it make good sense to also elect a Democratic President and Vice President?

By giving our votes to the Republican party we are disfranchising ourselves and our state. The Republicans come to see us every four years; the Democrats are on the job for us the year round.

SKY-WATCHING and looking after the children have been combined in this Ground Observer Corps post at Mechanic Falls, Me., by installing a children's playground. This innovation solves the problem of mothers who complain that they cannot do their part in Operation Skywatch because there is no one to look after their children while on duty. Roast Pig Dinner

One of the most delightful social events of the present season was that given by Mrs. S. B. Fast to a party of ladies at the hospitable Fast home north of town on last Thursday.

Those who composed the party were Mesdames W. R. Patterson, E. D. Langley, C. C. Cooper, W. T. Wilson, M. Hodges, G. W. Williams, C. A. Watkins, W. A. Hedrick and Miss Haynes. The ladies went out early in the morning and spent the day, enjoying at the noon hour a delicious roast pig dinner.

There was no formal program of entertainment, but the day was most pleasantly spent in the enjoyment of social intercourse and the pursuit of needle work.

ELECTRIC RANGE AND WATER HEATER.  
FIT INTO ANY PLAN...

the modern way!

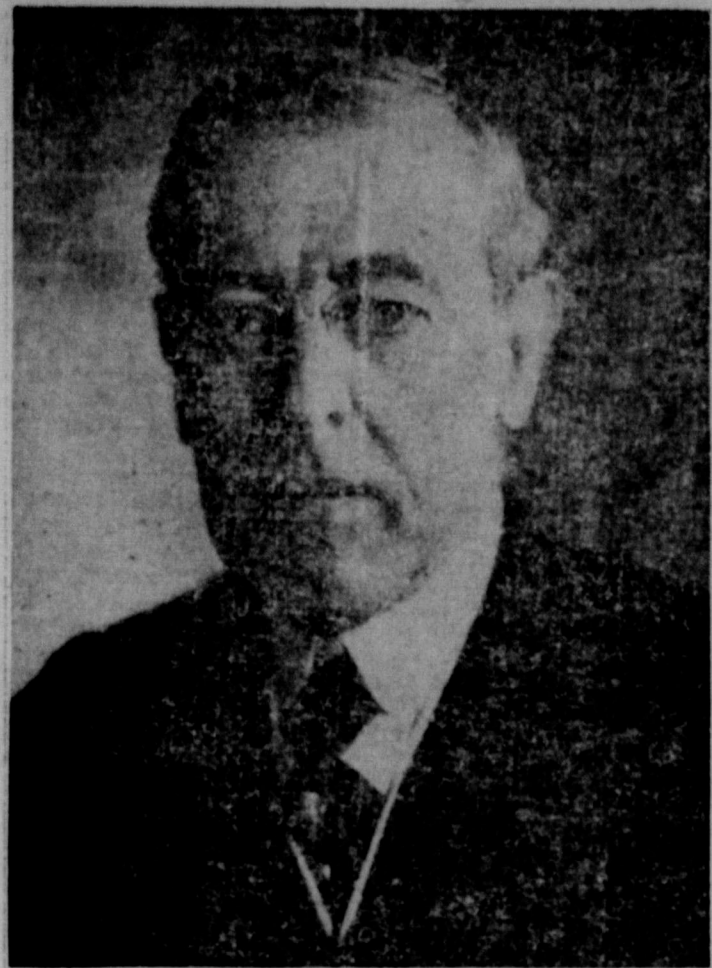

It's 1956... start now to live better electrically. See your Reddy Kilowatt Electric Appliance Dealer

Plan your home around electric living. You can start with a built-in electric range which consists of the electric surface units and the electric oven, or, if you prefer, you can choose the popular "stand-up" electric range. Either way you'll find that electric cooking blends into the decorative scheme of the modern home. Electric appliances are modern to use; best of all they even LOOK modern. The electric water heater can be a part of the kitchen cabinet line giving you more table top work space and a silhouette which marks your kitchen as up-to-date. And, remember, an electric range and water heater require no vents or flues. They are perfectly safe, too. Yes, electric cooking and electric water heating fit into any plan whether you're building new or remodeling. You CAN live better electrically.

The year 1956 marks the 100th anniversary of the birth of Woodrow Wilson, 28th President of the United States and prime mover of the League of Nations.

## Woodrow Wilson Centennial Observed In U. S. And Abroad

This year is the 100th anniversary of the birth of Woodrow Wilson, father of the League of Nations and its successor United Nations, and his Centennial is being celebrated in virtually every nation of the free world, although when he died 32 years ago he was widely regarded as an impractical visionary.

But in the third of a century since his death, his own country and free people all over the world have come to recognize that Wilson's dream of peace through international cooperation was not an impractical ideal and they are joining this year in memorial ceremonies that girdle the globe.

The surge of recognition began when the Congress established a Wilson Centennial Commission to arrange appropriate observances of the 28th President's centenary. President Eisenhower followed with a Proclamation calling upon all Americans to participate. Since then more than 600 memorial programs in this and other countries have focussed attention on Wilson's contributions to the development of democratic government in the United States and enduring peace for the world.

"Today, with the Centennial Year only half over, Wilson is being spoken of with Washington and Lincoln as among the greatest of all American leaders. President Eisenhower, unable personally to participate in a Wilson program at Staunton, Virginia, sent an Assistant Secretary of State who proclaimed:

"... Wilson's approach to world problems was, in a fundamental sense, to shape the character of our response to such problems for as long as we can see ahead..."

Tributes have come from statesmen as geographically widely scattered as Sir Anthony Eden of Britain, General Carlos P. Romulo of the Philippines, Sir Leslie Munro of New Zealand, C. K. Wellington Koo of China and William V. S. Tubman of Liberia.

The mayors of more than 50 United States cities have appointed Wilson Centennial Committees to arrange local observances. The Governors of 23 States and territories have called upon their people to join in the Centennial.

Official representatives of 36 nations in every quarter of the globe joined in a pilgrimage to Wilson's birthplace in April. More than 10,000 individuals journeyed to his home in two weeks to view an outdoor drama based on his life in July.

Born in Staunton, Virginia in 1856, Wilson was the son of a Presbyterian minister and gave great emphasis to religious philosophy in his career. Wilson was a scholar who studied at Davidson College, N. C., Johns Hopkins and Princeton, and the author of outstanding works in the fields of government and political science. He was an edu-

cator who taught at Bryn Mawr, Wesleyan and at Princeton where, as President of American and higher education. Although he did not practice law, he was an attorney who studied law at the University of Virginia and became an authority on congressional government.

Before he became a public official himself, he was successful in achieving adoption of the shorter ballot for elections. In office, he turned out a corrupt political machine in New Jersey. He appointed the first Secretary of Labor, established a Federal conciliation service for labor disputes, regulated railroad and merchant marine employment conditions and outlawed child labor.

He extended Federal credit to farmers for the first time in our history and initiated the first program of Federal aid to highway construction. He established the Federal Reserve System which is the core of our banking structure. He brought the Federal Power Commission into being to conserve the nation's water resources. Under his administration women's suffrage was adopted. His greatest achievements, of course, were his successful prosecution of what was then the largest war in history, the writing of the Versailles Peace Treaty based on the Fourteen Points he deemed necessary for world order, and the creation of the League of Nations to preserve world peace.

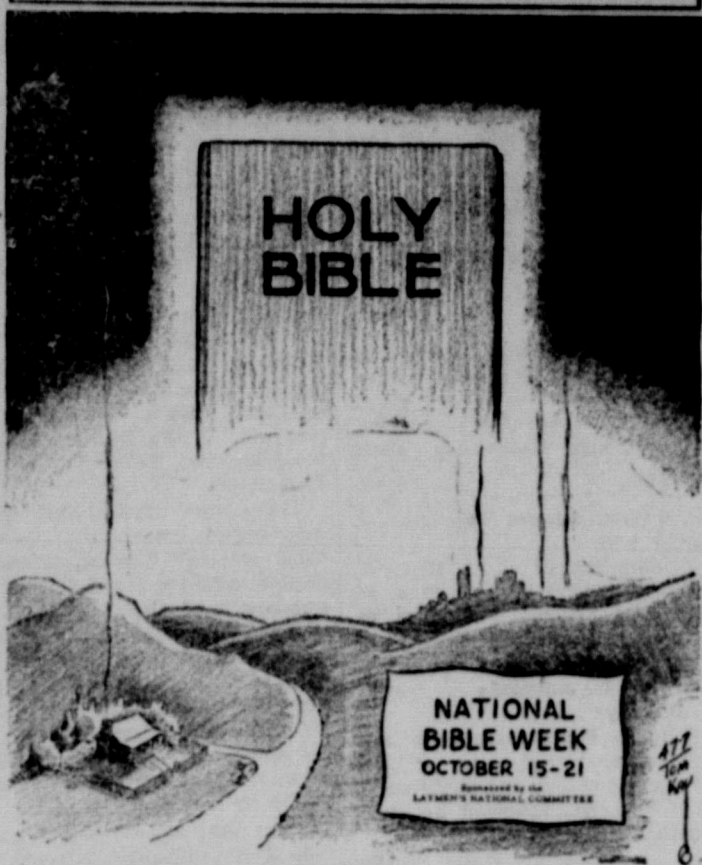

He returned to the United States after the peace conference to rally American support for the League but failed, suffering fatal illness as a consequence of his effort. He finished out his term in the White House but when he died the world returned to "normalcy." His warnings of the need for international cooperation for peace were all but forgotten.

During this year, more than 150 universities and colleges in the United States and many abroad have arranged special lecture series, seminars, institutes and library exhibits for the study of the principles of government administration and international relations enunciated by Wilson. Nearly a dozen full-length books on Wilson or containing selections from his voluminous writings are being published this year.

The Congress has named the newest bridge across the Potomac after Wilson. The Wilson Birthplace Foundation in his home town of Staunton is raising \$500,000 to restore the house in which he was born. His bust is being placed in America's Hall of Fame at New York University. The American President Lines' ship "Woodrow Wilson" is making a Wilson Centennial Cruise to Pacific ports where special celebrations will be held.

High schools and elementary schools are devoting renewed attention to Wilson in their courses. Organizations all over the country are showing "Spokesmen for Tomorrow," a new film produced by the Woodrow Wilson Foundation entirely from specially processed newsreel and other materials of his time.

## THE AMERICAN WAY

The Bible - Timeless and Eternal

## Congressman Rogers Reports— TO THE PEOPLE

### THE AUTOMOBILE

Few people realized at the turn of the century what was in store for the American people in the way of transportation. The advent of the automobile meant little to the skeptics who were set in their ways and refused to even consider the possibility of a self-propelled buggy replacing, or even so much as seriously threatening, the horse and wagon. However, the short span of approximately 50 years has provided results in the automotive field far beyond the fondest dreams of the motor vehicle's most ardent advocates. The history of this great industry would be too lengthy and complex to undertake in the short space of this newsletter. Therefore, we must deal in what is happening today in this great business. It is anticipated that this country will soon have over 60 million cars on its highways. This means a car for every two and one-half persons in the United States. If this many cars averaged out price-wise at \$1,000 each, it would mean that American people would have invested in motor vehicles alone over 60 billions of dollars, or about one-fifth of the national debt which has now climbed to where it is approaching 280 billions of dollars. That means that Americans are travelers and that this country is on wheels. It also means that fuel necessary to propel these wheels must be obtained from some source. There are many other incidental and related businesses, but the leaders in the business field are the manufacturers and the furnishers of fuel. This is pointed up by a compilation of statistics that appeared in the March 31, 1956, issue of Business Week, a highly respected national publication. These statistics listed the 25 largest money making corporations for 1955, but did not include financial and banking firms. The list was headed by an automobile manufacturer, General Motors, with a net profit of 1 billion, 189 million, 477 thousands of dollars. Next in line was a fuel producer, Standard Oil of New Jersey, with a profit of 717 millions of dollars. The Telephone Company was next with 664 million, followed by Ford Motor Company with 437 million. The DuPont Company was just below Ford, showing a net of 431 1/2 million. An interesting item is the fact that 31% of the DuPont earnings came from dividends on General Motors stock holdings, according to this report. Also pointed out is the fact that GM's earnings exceed the combined total of the last 14 companies on the list.

More than half of the corporations listed are directly connected

with motor vehicles and their operation. Chrysler Corporation was not in the top half but was just below. It was listed as No. 18 and showed a net of \$100 million.

The list included the big three in automobiles, GM, Ford and Chrysler. Nine oil companies, 3 steel companies, 1 aluminum company, 1 electric, 1 telephone, 1 copper, 1 nickel, 1 paper, 1 kodak, 1 mail order, 1 carbon company and the DuPont Company which could probably take a general classification of chemical.

Of the 25 companies listed, 24 showed a marked gain over 1954 profits. The only company not showing an increase was Shell

Oil. This due to the fact that that the 1955 net profits did not include non-recurring profits. Six of the companies showed gains of more than 50%. Chrysler led in this division, showing a gain of 440.4%. GM was also the No. 1 money maker in 1954, with earnings of some \$800 million. It showed an increase of 47.6% for 1955.

The total earnings of the 25 companies exceed 6 1/2 billions of dollars.

There is a dark side to the picture, however, that will get darker as more vehicles move on the highways. The death toll is now approaching 40,000 each year, the maimed and injured are numbered close to a million. Property loss and damage run into the millions.

America must stay on wheels, but it cannot continue to pay this tragic price. Much progress is being made in research and development of better cars, better highways and better traffic rules and regulations, but the number one key to a measurable reduction in the casualty rate is the driver of each motor vehicle. Application of the Golden Rule would do wonders.

The Rock of Gibraltar is about 250 feet taller than the Empire State Building.

## Doleful Senators Due Shock When Ike Wins, Fears Doc

One of the strongest Eisenhower men in our town is Doc Brown. Doc says he just can't put up with Stevenson's socialized medicine program; there are a lot of other things he doesn't like about Adlai, but that one is enough for him, he says. Doc is a pretty outspoken cuss, but he's a good doctor. At least, he's the best one in town, being the only one, and our people always call him when they get sick whether they like his politics or not.

The other day several of us were standing around in front of the post office, talking politics—some Eisenhower men and some for Stevenson—when Doc walked up looking glum. One of the Stevenson men said: "Hey, Doc, what's the trouble, did Ike just call you in some bad news?"

Doc Brown said no, he hadn't heard from Ike this week, but he was worried.

"Not about Ike, you understand," he told the Stevenson fellow. "Ike has got it made. Even the Stevenson people are beginning to admit that. Poor old Adlai isn't going to get any farther in this race than he could throw Kefauver's coonskin cap with the tail cut off."

"The ones I am worried about are these out-of-state senators who are coming down here to Texas to tell us how to vote. I sure feel sorry for those boys. It must be tough to face life with their attitude."

"To hear them tell it, this country is in a terrible shape. All the farmers are starving, all

the businessmen are going broke, and all the working people are just barely making enough to keep body and soul together. The only reason some little country doesn't step in and whip us tomorrow is that they know they can just wait a few days and the United States will fold up of its own accord. That's what I understand from listening to the visiting senators.

"Of course, they know how to correct the situation overnight. Elect Adlai, and let him abolish the draft and do away with the H-bomb, and let Estes establish the Atlantic Union which he has made speeches about all over the country, and everything will be all right."

"These things are too important, of course, for these senators to waste time telling us Texans why they voted against the Texas tidelands bill."

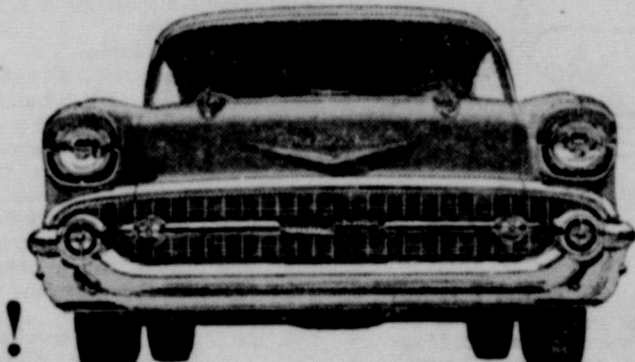

"As a medical man, I am worried about the great shock these senators are going to get, after the election is over and Ike is re-elected and this country keeps on being peaceful, prosperous and progressive. It's liable to put them all in bed."

And Doc Brown walked on off, shaking his head. Of course, the Stevenson man caught on that Doc was hurrahing him, and he didn't like it much, but he'll still have to call him the next time one of the kids gets the croup, because like I said he's the only doctor in town.

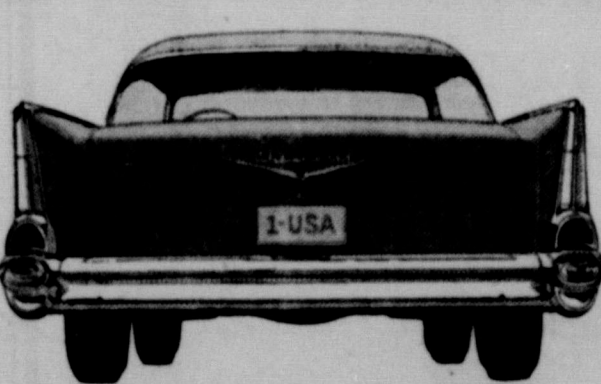

Yours Truly,

Doc Brown

A perfect case of mixed emotions. Dad is delighted to see Junior so interested in his homework but at the same time is irritated that he won't be able to enjoy a game of Cribbage with Mother. A popular two-handed game for more than three centuries, Cribbage makes little demand on the

memory but emphasizes judgment and discernment. Peculiar to the game is the familiar Cribbage board whose wooden pegs are used for scoring points.

**CITATION BY PUBLICATION**  
THE STATE OF TEXAS  
TO: Plastic Coating Corporation, V. P. Ryder, Garland Newsom and Felix A. West, GREETING:  
You are commanded to appear by filing a written answer to the plaintiff's petition at or before 10 o'clock a. m. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 28 day of November, A. D. 1956, at or before 10 o'clock a. m., before the Honorable District Court of Gray County, at the Court House in Pampa, Texas.  
Said plaintiff's petition was filed on the 10th day of October, 1956.  
The file number of said suit being No. 11,823.  
The names of the parties in said suit are: John A. McNeil as Plaintiff, and Plastic Coating Corporation, V. P. Ryder, Garland Newsom and Felix A. West as Defendants.  
The nature of said suit being substantially as follows, to-wit: That plaintiff was in possession of lots numbers 5 and 6 of block number 3 of the Finley Banks addition on July 1, 1948, and upon such date the defendants entered into possession and dispossessed the plaintiff and withheld the possession from him, to his damage in the sum of \$250.00 attorney fee and \$30.00 court costs. Plaintiff serves notice upon all parties that an abstract of title was filed at the time of filing the case, and that same will be relied upon to prove title. Plaintiff alleges that the residence of the defendants are all unknown to the plaintiff, and his petition is endorsed "This suit is as well to try the title as for damages." Plaintiff prays for damages in the sum of \$280.00 and costs, and for judgment of title and possession and such other relief as he is entitled to either in law or equity, as shown by plaintiff's original petition file herein which is referred to and made a part hereof as fully as if set out in words and figures in full herein.  
Issued this the 10th day of October, 1956.  
Given under my hand and seal of said Court, at office in Pampa, Texas, this the 10th day of October, A. D. 1956.  
HELEN SPRINKLE,  
District Clerk, District Court,  
Gray County, Texas.

**THE STATE OF TEXAS**  
To any Sheriff or Constable within the State of Texas—GREETING:  
You are hereby commanded to cause to be published once each week for four consecutive weeks, the first publication to be at least twenty-eight days before the return day thereof, in a newspaper printed in Gray County, Texas, the accompanying citation, of which the herein below following is a true copy.  
**CITATION BY PUBLICATION**  
THE STATE OF TEXAS  
TO: JACKSON L. HINDS, Defendant—Greeting:  
YOU ARE HEREBY COMMANDED to appear before the Honorable 31st District Court of Gray County at the Courthouse thereof, in Pampa, Texas, by filing a written answer at or before 10 o'clock a. m. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 3rd day of December, A. D. 1956, to Plaintiff's Petition filed in said court on the 12th day of October, A. D. 1956, in this cause, numbered 11,828 on the docket of said court and styled Maude Susannah Hinds, Plaintiff, vs. Jackson L. Hinds, Defendant. A brief statement of this suit is follows, to-wit: (A Suit for Di-

voice) as is more fully shown by Plaintiff's Petition on file in this suit.  
If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.  
The officer executing this writ shall promptly serve the same according to law, and the mandates hereof, and make due return as the law directs.  
Issued and given under my hand and the seal of said court at Pampa, Texas, this the 19th day of October, A. D. 1956.  
Attest: HELEN SPRINKLE, Clerk, 31st District Court, Gray County, Texas  
(SEAL) 43-4c

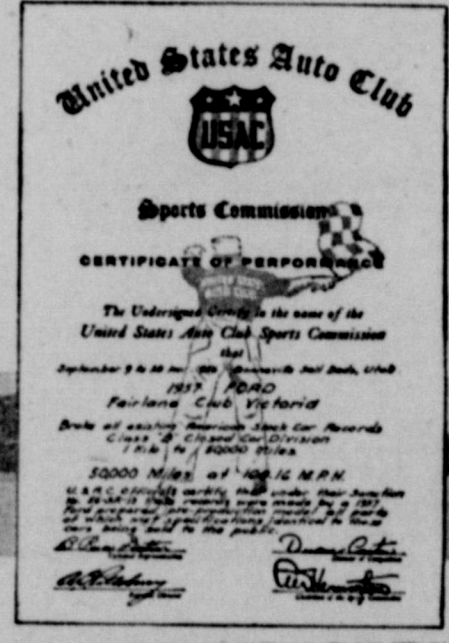

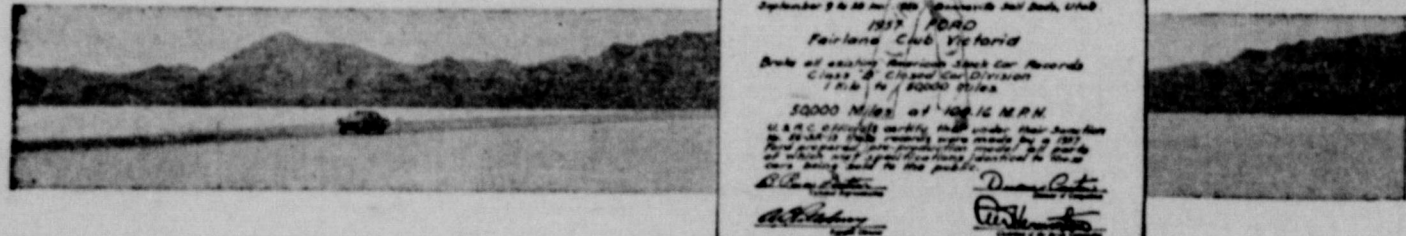

When the highest section of steel is placed on a large building during construction, the American flag is displayed.

On answering his doorbell a man found an old friend and a large dog standing on his porch.  
"Come in, come in," he said.  
His friend came in and sat down, while the dog put the man's cat to flight, knocked over a bridge lamp and several vases, and finally made himself comfortable in the best chair.  
When the guest rose to leave, the host said with a bit of sarcasm in his voice, "Aren't you forgetting your dog?"  
"Dog? I have no dog," replied the guest. "I thought he was yours."  
Two mosquitos were retreating on Robinson Crusoe's arm. "I'm leaving now," said one. "I'll meet you on Friday."

Never before in history has anything built by man traveled so far in so short a time —by land or sea!

## An announcement of decisive importance to anyone about to buy a new automobile

The most exhaustive endurance test ever given an automobile has just been completed by two stock '57 Fords—identical in every respect with cars now being offered by Ford Dealers.

Under the supervision of the United States Auto Club and the Federation Internationale de Automobile, each of these two '57 Fords traveled 50,000 miles in less than 20 days. Ford No. 1 averaged 108.16 mph for the entire run . . . Ford No. 2, over 107 mph. These averages include time for all pit stops.

In all, the '57 Ford smashed 459 national and international records.

This test was run on the Bonneville Salt Flats in Utah . . . it was the longest left turn in history.

A car, like a man, is known by its deeds, not words.

That is why, we at Ford, despite our confidence in our '57 cars, let their deeds of accomplishment speak for themselves.

Therefore, we engaged an independent engineering organization to test our '57 cars more thoroughly than any other cars have ever been tested before—in this country or abroad.

We provided them with '57 Fords—cars identical with those now offered by Ford Dealers. The rest we left up to them.

Here is what they did:

They took these cars to the Salt Flats at Bonneville, Utah.

Here, twelve of the world's greatest drivers took over.

In relays they drove these cars night and day for a distance greater than twice around the world . . . a distance equal to 5 years of normal driving.

Not in all history has a man-built machine traveled so far in so short a time—by land or sea!

But this was not a test of speed—but of endurance of the "Inner Ford." A trial to take the measure of Thunderbird V-8 block V-8 power without qualification of any kind. A test of running gear—of brakes, of materials in body and chassis. Of steering and roadability, yes, and comfort, too!

A test, indeed, such as no other cars have ever undergone, let alone successfully concluded.

Surely they have told you, in decisive terms, that they are worth more when you buy . . . and when you sell!

Your Ford Dealer will gladly place at your disposal the new kind of Ford that means a new kind of value for your car-buying dollar—the greatest the world has ever seen.

**14 Former Boys Ranchers Enter College This Fall**

Fourteen former Boys Ranchers, the largest group in the 17-year history of Americas first Boys Ranch, are attending 10 different colleges and universities this fall.

Four are attending West Texas State College at Canyon and two are enrolled in Texas Tech. Other schools attended by one student each from Boys Ranch are Arlington State College, Amarillo College, Hardin-Simmons University, Louisiana State University, University of Kansas, University of Oklahoma, and McNeese State College at Lake Charles, La.

Some of the boys have won scholarships and all of them are working part time to meet expenses. If necessary, the students may draw on the Boys Ranch educational fund.

McLEAN, TEXAS

Texas Press Association By Vern Sanford

Gov. Allan Shivers again is heading the ranks of Texans for Ike. After killing a 1,000-pound bear in Alaska, the governor came home gunning for Adlai Stevenson.

Shivers is to make three out-of-state speeches for Eisenhower this week. He said he is ready to make more "any time, any place."

He criticized scheduled appearances in Texas of out-of-state U. S. senators who voted against the tidelands bill.

In reply Sen. Lyndon Johnson said that the governor was "being discourteous and insulting" to visitors to Texas. "The tidelands issue," he said, "is dead as Allan Shivers."

**Special Election Dangles**  
 Campaigners for Price Daniel's U. S. Senate seat are in for more tortuous waiting.

Governor Shivers has said he will have no announcement on calling an election until after November 6. A special senate election he added, "has no place being mixed up with a presidential election."

**Cotton Referendum Set**  
 Texas cotton farmers will vote December 11 on whether to extend federal marketing quotas to the 1957 crop.

Two-thirds approval of farmers voting nationwide is required to put quotas into effect. Continuation of wheat quotas has already been voted.

USDA also announced that each Texas county's 1957 cotton acreage allotment will be within at least one per cent of its 1956 level. This decision apparently was aimed at quelling a prolonged rivalry between East and West Texas counties for increased acreage.

Total Texas cotton acreage for 1957 is to be 7,413,333 acres, slightly higher than 1956.

**Election Invalidated**  
 Local election held in an area less than a justice precinct are illegal, say the courts.

Texas Supreme Court has upheld a Civil Appeals Court decision to this effect. As a result, a section of Austin considered "dry" since 1955, is now legally "wet."

Local option elections, said the appellate court, can be held only county-wide, city-wide or in an entire justice precinct.

**State Growth Forseen**  
 Texas' need for state office space will be tripled by 1980.

So say planning consultants for the state building program. They estimate that Austin alone will have some 11,500 state employees 24 years hence. Statewide the total is set at 24,000 to 30,000.

Planners say the 200,933 square feet of floor space in the capitol should be augmented to make a total of 1,270,000 square feet. To accomplish this, four new office buildings would be built. Capitol grounds would be extended north six blocks to 19th Street.

"Broad estimate" of the cost:

\$87,000,000.

Another recommendation in the recently completed capitol area master plan is to sell or abandon four older state-owned buildings dotted over Austin.

**Gas Test Case Set**  
 Whether the state should refund some \$4,000,000 in natural gas taxes will be considered by the Third Court of Civil Appeals on February 6.

District court ruled for the gas company in the test case. An issue is whether some 30 companies that paid taxes, without protest, can get their money back.

Companies which paid under protest were repaid shortly after the law was declared unconstitutional.

**Alcoholics Increase**  
 A sharp rise in alcoholism among Texans during 1956 is indicated.

Twice as many patients have been admitted to alcoholic wards this year as last, reports the State Hospital Board.

Total number of alcoholics in the state is estimated at 155,100. This is almost twice the 1940 estimate of 83,304, and represents about 3% of total population.

**Farm Income Up**  
 Texas cash farm income for 1956 is running slightly higher than 1955, despite the drought.

But, according to the University of Texas Bureau of Business Research, the figures reflect desperation, not prosperity.

High income, it is explained, comes from sale of production materials, such as breeding stock. Specialists compare it to the situation of a factory which keeps income up by selling its machinery.

Total through August was \$927,000,000, compared to \$925,000,000 a year ago.

**School Trustees Confer**

Texas school board members talked all around their integration problems, finally settled on a resolution urging each district to approach the question with "dignity."

Only one dissenting vote was heard among the some 200 attending the Texas Association of School Boards convention in Austin.

One speaker declared integration should be handled strictly on a local basis. Another deplored that school boards have been made

the "goats" in the controversy.

**Short Snorts**

Number of Texas factories increased 25% from 1947 to 1953, according to the Department of Commerce. Value of manufactures rose to \$1,780,600,000, or 103%. It put Texas industrial growth well ahead of the nation as a whole.

Children in 17 Texas counties will seek funds for Christian Rural Overseas Program instead of candy on Halloween night. Last year the state's youngsters brought in \$39,000 from holidays rounds.

Texas schools received nearly \$84,000,000 in federal funds last year, according to the U. S. Office of Education. Texas' share was the second largest in the nation.

A \$5,000,000 pecan harvest this fall is expected to boost the sagging fortunes of Texas farmers and ranchers. This year's crop is estimated at 5,000 pounds, 34% less than last year, but still considered a "good" harvest.

Texas has 487 more citizens leaving the armed forces than entering so far in 1956. Entries total 33,014, separations 33,501, says State Selective Service headquarters.

Of those entering 28,203 enlisted voluntarily, 4,811 were drafted. Payments to Texas farmers under the 1956 soil bank program have hit \$7,852,242, says the U. S. Department of Agriculture.

**WILL THERE BE ENOUGH TEACHERS?**

15,000 teachers will be needed to teach the additional 350,000 boys and girls coming into Texas Public Schools within 5 years

**You CAN HELP**

solve this problem by endorsing a teacher retirement program particularly designed to

**ATTRACT and HOLD well qualified teachers**

• In addition, more than 28,000 other teachers will be needed to replace those now leaving our classrooms at the rate of 5,000 to 7,000 a year
