FINAL 'HORSE' MEETING SET FOR FRIDAY

A meeting of all persons interested in the possible purchase of stock in the proposed toy factory will be held Friday night at 7:30 in the grade school cafeteria to determine definitely whether or not the plans for securing the factory will go on.

The meeting last Friday night was not sufficiently attended to make any definite proposals or plans, and if the meeting tomorrow night shows no more attendance, the idea of the factory will be abandoned.

The committee securing the report on the factory gave its information last week, but the small group decided that nothing should be done until a larger assembly could be on hand. It was also decided that if another meeting was not well attended, it could be assumed that public opinion favored the abandonment of the project.

As of last week's report, the committee concluded its work and was dissolved. However, if enough persons attend tomorrow night, the report of the committee will again be given for consideration.

EX REUNION PLANS PUSHED

Sept. 4 and 5 will be big days for ex-students of McLean High. According to Ex-Student Association President Sammy Haynes, plans are progressing for one of the best homecomings ever.

The homecoming will get underway Friday with a pep rally prior to the Shamrock-McLean grid opener. After the game a get-together will be held in the grade school cafeteria with free coffee and doughnuts.

Then on Saturday the exes will enjoy a barbecue, class meetings, general session, band concert and dance.

Those planning to attend should make reservations. A blank for this purpose can be found on the inside pages of The News this week.

Members of class committees should pick up and mail form letters to members of their class. These letters are available at the Southwestern Public Service office.

This will help in planning how many will attend the affair.

McLean School Faculty Now Complete; Opening Is Aug. 31

With the hiring this week of Bill Neely of Tulia to teach freshman and sophomore English, the McLean school faculty is now complete, says Freeman Melton Jr., superintendent.

Neely, a graduate of West Texas State with a B. A. in English, taught the past year at Boys Ranch. He is married and has two children, ages one and two.

Registration will begin Tuesday, Aug. 25, and school will open Aug. 31. The seniors will register Aug. 25, the juniors on Aug. 26, the sophomores on Aug. 27, and the freshmen on Aug. 28. A general assembly will be held Monday Aug. 31, in the Municipal Building at 9 a. m. The public is cordially invited. At this assembly the high school band will hold a short concert and the faculty will be introduced.

After the general assembly the elementary students will register in the elementary building and the high school students will report to the high school.

Other new teachers include the high school math instructor, J. M. Perryman of East Texas State; Mrs. Lee Musick, junior and senior English teacher from Stratford; Mrs. Ruth Morris of McLean, teaching sixth, seventh and eighth grade math; R. L. Cline, junior high coach, from Weatherford, Okla.; Jim Boyd, band director, from Snyder; Jim Weatherford, vocational agriculture teacher from Sam Houston State; head football coach, Clifford Bradshaw from Matador; and Miss Virginia DaBerry of Shamrock, home economics.

Former head football coach Jack Riley will be junior high principal this year.

Meeting Held Of McLean Housing Auth.

A meeting of McLean Housing Authority was held today at 1 p. m., with a representative concerning the final action before letting bids for the construction of the housing units.

A total of 12 units will be built in McLean with the completion date set for early in 1960.

More information will be released later in regard to bids, construction, etc.

Tigers Hit Grid Pace

McLean's 1959 gridders finish their first week of workout tomorrow, with a possible scrimmage on tap Friday night for the first action of the year.

After the first few practices, new Head Coach Clifford Bradshaw said he believed they would be ready for the season opener against Shamrock here Sept. 4.

A total of 36 players turned out for the workouts which will represent for McLean one of the largest squads to be fielded in the past few seasons.

After last year's loss through graduation most of the McLean team will be inexperienced, but weight will be fair and depth a little more than average.

Coach Bradshaw also stated that all McLean people are invited and welcome to attend any of the practices and see the boys in action.

At the time of the printing of the paper, no definite word was available concerning the scrimmage Friday night.

RESERVE SEAT GRID TICKETS ON SALE MON.

Reserve seat tickets for the '59 Tiger football season will be on sale beginning next Monday, Supt. Freeman Melton Jr. announced this week.

Season tickets for the five grid clashes to be played in McLean may be purchased for \$5-\$1 per game in other words. This is the same price as general admission tickets will be at the gate.

Fans who had reserved seat tickets last year will have the option of purchasing the same seats provided they act by Friday, Aug. 28. After that date it's a first-come-first-served proposition.

Tickets may be purchased at Brown's Rexall Drug beginning next Monday, Aug. 24.

The five home games—all are night games—will be Shamrock, Sept. 4; Groom, Sept. 18; Canadian, Oct. 2; Memphis, Oct. 23; and Lefors, Nov. 6.

The first two will begin at 8 p. m. and the last three at 7:30 p. m.

Mr. and Mrs. Oscar Alexander of Albuquerque, N. M., spent one day last week with his mother, Mrs. J. P. Alexander.

Leslie Barnhill of Amarillo is spending this week with her grandparents, Mr. and Mrs. Raymond Glass.

Mr. and Mrs. Jewel Meacham and Nancy and Mrs. Charlie Vineyard and children visited relatives in Turkey Sunday.

Mr. and Mrs. Dale Glass and Maridale visited with relatives in Boger during the week end.

Wind Blows; Lions Do Too

The wind blew gusty Tuesday noon and the Lions met again—which was rather fitting.

After the preliminaries and eating Lion Tiger Coach Christian got up and horsed around a little and then turned it over to Lion Tiger Coach Bradshaw, who like Grantland Rice, said it wasn't so much whether you won or lost but how you played the game.

Said he was going to stress teamwork with emphasis on blocking. He asked that the Lions try to encourage any boy not playing ball now, to come on out. Said they had a better chance of staying in one piece on the football field than dragging the streets.

Boss Lion Melton took over and dismissed.

Acting Tailtwister Lion Jesse Leonard was derelict in duty and some Lions got away with not wearing their pins.

Time Set for JH Gridders to Get Equipment

All junior high boys planning to play football this year will pick up their equipment Friday and Saturday, it was announced this week.

Pickup time on Friday will be from 8 to 9 a. m. and 4 to 5 p. m. On Saturday they may call for equipment only from 8 to 9 a. m.

Practice for the junior high gridders will begin on Monday. All boys interested are urged to check out equipment so that the full squad may be together next week.

McLEAN ALL-STAR TEAMS WHIP LEFORS 2 STRAIGHT IN SERIES

The McLean Little Leagueers wound up the season last Thursday in grand style.

Both the boys and girls teams aced the Lefors kids in the All-Star series last week by taking two straight games in the 2-out-of-3 game affair.

The boys routed their Lefors neighbors last Thursday by a score of 18-6, while the McLean girls won their game 15-9. In the first games last Tuesday week the McLean boys won 15-9 while the local girls came out on the long end of a 16-14 score.

Jan Bailey was the winning pitcher in both the girls games and Jim Parrish pitched during the boys wins.

McCabe swung the big bat for the McLean boys by hitting a hot 9 for 10 in the two games. He got 5 for 5 in the first and 4 for 5 in the second. Home runs in Thursday's game were by McCabe Parrish and Freddy Smith.

The McLean All-Stars were coached by Harvey Taylor, Sam Haynes, Don Blair and Johnny Haynes.

For the girls' Thursday night Sarah Coleman hit 3 for 3 and home runs were made by Phyllis Bench, Anders and Bailey.

The girls were coached by Mrs. Harvey Taylor, Mrs. Arthur Dwyer and Mrs. R. H. Parrish. Coach Darril Christian who directed the summer Little League

Baptist Brotherhood To Meet at Quail August 27

The North Park Baptist Brotherhood will meet with the Quail Baptist Church Thursday, Aug. 27, at 8 p. m.

The theme for the program will be "Church Unity." The speaker will be J. B. Lavelle.

Mrs. Ted Loneino and sons of Dallas are spending this week in the H. A. Longino and C. B. Peabody homes.

Mr. and Mrs. Frank Rodgers and daughter, Chris, have returned home after spending the summer in Chama, Colo.

New Pastor at Pentecostal Church

Miss Lois Daniels from Lubbock is the new pastor of the Pentecostal Holiness Church in McLean. She moved here this week with her parents.

Rev. G. W. Roachelle, pastor for the past year, has moved to Amarillo.

Mr. and Mrs. Jack Grigsby and children, James, Susan and Jack W., of Fort Worth are visiting Mr. and Mrs. A. L. Grigsby. Mr. Grigsby and children will stay two weeks.

'Mr. Ed' To Leave McLean After 35 Years Work

(EDITOR'S NOTE: The following feature should not be construed as a political story particularly in connection with last spring's mayor race. The News maintained complete impartiality in the race. We count both Mayor John Haynes and Ed Lander as close friends. Since Mr. Lander is retiring and leaving McLean we think it only appropriate to recount his worthy contribution to the community.)

By bill neal
"I'm just one of those one-mattress Okies," claims McLean's Oklahoma-reared ex-mayor. "Like the fellow said, you can always tell a prosperous Okie—he's got two mattresses tied on top of his car."

As soon as the Rock Island Railroad—Ed Lander's employer for 47 years now—sends a station agent and telegrapher down here to take his place, he's going to take that mattress and his wife and head for that good fishing country in Arkansas. Fort Smith, Ark., will be his retirement headquarters.

"Of course, I'm coming back pretty often," the railroader promised. "McLean's the best little town in the Panhandle."

And if that's true, then Ed, who has spent half of his life or 31 years on the city council, can take credit for a good portion of it.

Coming from his native Oklahoma to McLean in 1924, Lander was first on the council in 1928. For the last eight years, ending this spring, he has served as mayor.

Over at Brown's Drug, where most of the city's business is transacted over coffee anyway, the spry little fellow with the cocked hat, the ready smile and a lot of quiet common sense will be conspicuously missing.

That he will be missed was evidenced last week when about 90 men got together for a special appreciation dinner for the ex-mayor. It was Lander, they'll tell you, who was largely respons-

ible for bringing McLean's prospering garment factory here three years ago.

McLean, in 1924 when Lander arrived, was a town of around 1,200 people and the city's assets were valued at \$65,000. Today, after the depression, a war, and a slump in the droughty fifties, the city numbers about 2,100 with assets of \$600,000.

"City politics has been more valuable to me than any other thing I have undertaken," Lander says. "You learn a lot about a lot of things—politics, finances, but mostly about people."

"And I'll tell you another thing. In all the years I was on the council I never saw any evidence of any city official being crooked."

Little towns in the Panhandle, says Lander, have the best outlook of any in Texas. "Back east of Wichita Falls, the big towns are eating up the little ones. But out

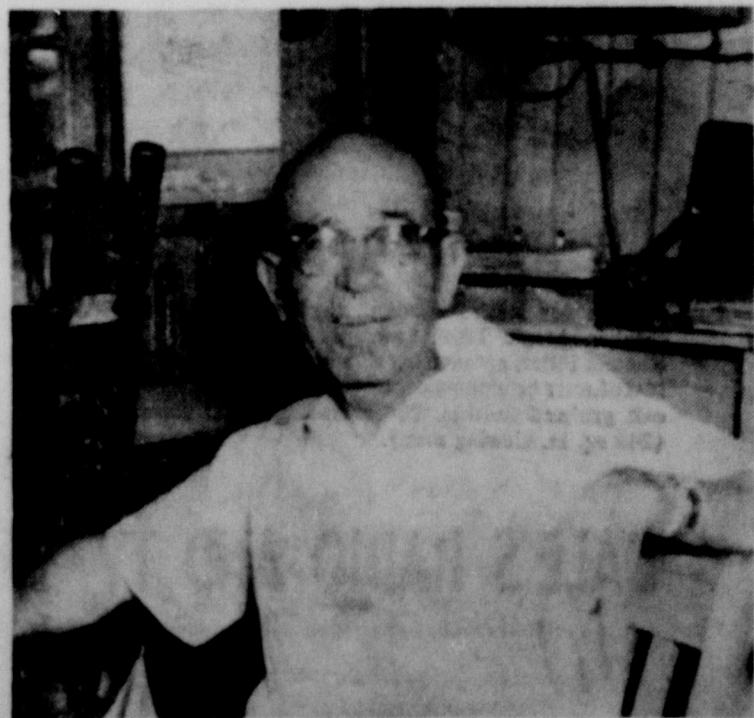

here where towns are spaced better, the population is increasing. It's the garden spot of Texas."

Looking back over 31 years of city politics, "Mr. Ed" likes to recall some of the colorful political battles.

"The big one, of course, was back about 1930 when the county seat was being moved from Lefors. Pampa and McLean were vying for it. Well, sir, Pampa got the most votes—but it sure was a good fight."

Then one of the most ticklish debates was back in 1928 when the town was experiencing a small boom. The prairie pipeline was coming through. The big issue was whether or not the city should finance a band. The school district was having financial troubles and couldn't afford one, but most of the younger people thought no self-respecting town should be without a band. "They

Area Observations

Douglas Meador in Matador Tribune: An old cow trail has become a weeded-over furrow in the pass between two small clay hills. The dust of forgotten herds has settled; the clatter of hoof and horn is gone. From the side of the largest hill an oil pump crane, as an awesome and mighty humming bird, dips its head to suck nectar from the hidden flower of the earth. Half a hundred other cranes are nodding on the hills and in the small valleys. The sage is fresh and green, and tall needle grass bows to the breeze. Muddy water rip-

ples in holes across the valley floor but the fragrance has gone from the prairie. The greasy air bears the scent of escaping gas and the sound of tireless motors turning the mills of a changing world.

Cecil Waggoner in Claude News: Paul Butler would be doing the country a favor if he stuck his old gray head in an atomic furnace. He and his "liberal" band are destined to destroy the Democratic party and socialize the country along with it.

When you see old cronies like Butler, ex-candidate Stevenson, ex-Governor Harriman, ex-President Truman, California National Committeeman Paul Ziffren, Mrs. Eleanor Roosevelt, Gov. "Soapy" Williams and their clan getting their heads together for the good of the country, you had best beware.

Their idea of "good for the country" is social legislation, bigger spending programs via your tax dollar, more left winged freedoms for Red Herring, centralized government via Washington control of states, schools and political sub-divisions, not to mention an array of give-aways in the scientific field.

I sincerely hope the Democrats awaken before they reach that "point of no return." If an ultra-liberal group captures the party they can count me out. In fact, they may count us all out.

Ernest Joiner in Ralls Banner: President Eisenhower and the Congress went to great length to insure Vice President Nixon a cool reception in Moscow. While Nixon was telling the Russian people he was there to have a frank discussion "to help us to know and understand one another better," his boss was proclaiming a national "Captive Nations Week" in the United States. Americans were urged to conduct ceremonies in memory of nations "made captive by the imperialistic and aggressive policies of Soviet Communism." It's always the best policy, of course, to antagonize people before you get down to the business of trying to help and understand each other. The only other measure which could have contributed to a better understanding between two unreconcil-

able characters as Nixon and Khrushchev would have been the shooting down of a few Russian Mig's by U. S. forces the precise moment Nixon arrived. It would have made Khrushchev much more friendly. I've got nothing against a "Captive Nations Week." People who have stood up under National Donut Week, National Corncrib Week and National Leave-Me-Along Week can take anything. But wouldn't it have been more diplomatic, and contributed more toward friendly discussion in Moscow, had Ike waited until Nixon's return to twist the bear's tail? The Russian talks will get nowhere and much of the responsibility for it lies with the president and a Congress that seldom knows what is going on in the first place. It has become an American axiom that western diplomats cannot penetrate the Russian mind. I suggest that the Russian mind cannot conceive of the elected head of a nation coming to Moscow for friendly talks at the moment his boss does the one thing best calculated to thwart any friendly discussion. By the way, how did you observe this "Captive Nations Week." July 19-25, that was so damned urgent it couldn't wait until August?

P. I. Colvig in the Lake City Graphic: Did you hear about the two old drunks that were sitting at a table staring mournfully into their drinks? One of them, cupping his hands together as if they contained something, asked his companion, "What have I got in my hands?" His companion thought seriously: "The high school building?" "Nope." "A stack of hay bales?" "Nope, but you're getting close." "A horse?" The first drunk opened his hands a little and peeped in, then he looked up eagerly and asked: "What color?"

Bascom Nelson in Castro County News: During harvest seasons in the past there have been many unhappy thoughts directed at railroad companies for not having more cars available for shipping wheat and other grains out of the county.

Gigantic piles of wheat and grain sorghums have been seen in the past nestled outside against concrete elevators awaiting transportation to major terminals.

One reason for this yearly routine came out recently with the introduction of Senate Bill 1789 which would increase the amount of rent one railroad can charge another for the use of its boxcars.

What has the rental price New York Central pays for a Fort

BY 'NOBLE EXPERIMENT'

State of Connecticut has embarked on what we like to call "The Noble Experiment"—and it might work in a place like Connecticut.

The "Noble Experiment" is the abolition of county government, a tradition that most modern-day students of government would as soon do without, it seems.

Connecticut, following in the footsteps of Rhode Island, scrapped county lines and has made the whole one big happy family. County officials have until November 30, 1960, to clean out their desks and wind whatever business they might have.

Connecticut appears to have in store for itself a large central government operated out of Haven for all residents of the state. Proponents of the plan say most of the county employees will be transferred to state payroll.

As we said before, the plan might work in Connecticut. It's one of the smallest states in the Union. But that, there doesn't appear to be any sort of rivalry or other distinguishing factors between counties in the northern states, as there is in Texas.

We think, however, Connecticut Governor Abraham Ribicoff's blanket statement condemning county governments is a little far-fetched for states as large as Texas, Florida, and others.

Gov. Ribicoff, according to the wire services, said:

"County government has outlived its usefulness. The functions it now performs can be done more efficiently and economically by concentration of the work in the agencies better suited to do it by professional training and experience. Through the years it has developed overtones of political patronage that are not needed to the concept of good government."

Modern-day students of government cheered these statements, and quite a few county officials in every county shuddered.

Now we'll be the first to admit that there are many reforms needed in the county form of government. Some of these reforms are being advocated now, and we think they deserve the study and consideration of every Texan. One such reform that comes to mind is a proposal that counties be allowed to hire a county manager such as cities now have. Such a manager would keep the county from being the "headless monster" it now sometimes seems to be.

But to abolish the county form of government in Texas would be a mistake. In the first place, it appears that some state agency would have to be organized to take its place. Texas is a vast state and we would hate to think of some board in Austin having to pass on whether or not Randall County can do this or that, without having some official body close to the problem to recommend it. Any agency the state would set up could only duplicate the work now being done by the officials of the office.

Another thing which worries us about the centralization of government is this: How can the people be sure they are going to get what they want? With a central government, the people get what is due them and the things that are just and correct. But we string along with the people. If what they want is not what is due them and is not just and correct, then they don't deserve it. A third thing which pops into mind is the legislation which would have to be passed by the state senators and representatives. Wonder how they could pass strictly local legislation without meeting day and night for a year if they couldn't pass legislation affecting the entire state in seven months of meeting day and night?

Washer* DISHWATER HANDS

Lovely hands, aren't they? So different from dishwater hands. When you wash dishes by hand — they should be in 150" water for two minutes — think what that does to your hands — even with gloves on. You end all this with an electric dishwasher — it takes the hot water in stride inside the cabinet. Your hands will be smoother, softer, lovelier. Manicures will last longer, too. Don't have dishwater hands — have lovely dishwasher hands.

ATTENTION! HUSBANDS

Woodall Family Reunion
Sixty-six relatives and friends met Saturday and Sunday near the home of Mr. and Mrs. Norman Woodall of DeLeon for a reunion. Members of the immediate family who attended were Mr. and Mrs. Paul Middleton and children of Kellerville. Mr. and Mrs. Mace Shuart of Vega, Mr. and Mrs. T. B. Laminack of Amarillo, Mr.

and Mrs. Stanley Woodall of Levelland, Mr. and Mrs. Melvin Woodall of Sundown, Mr. and Mrs. John Woodall of Sundown, and Mr. and Mrs. Fountain Woodall of Gorman.

Two sisters were unable to attend. They are Mrs. C. G. Kampe of San Antonio and Mrs. Cyrus Everton of Eastland.

An "educational bridge" between East and West is what a special educational center in Hawaii could be, says Sen. Lyndon B. Johnson (D-Tex.) The Senate Democratic leader has introduced legislation that would provide for establishment of such a facility.

That humming noise you hear at times is probably from the five million appliances such as washers and driers that Americans bought for their homes during 1958.

Today's typewriters are too quiet for one maestro. Hollywood composer-conductor Leith Stevens had to hunt up an old machine to use in connection with an orchestration requiring the staccato sound of a typewriter, for a recent concert.

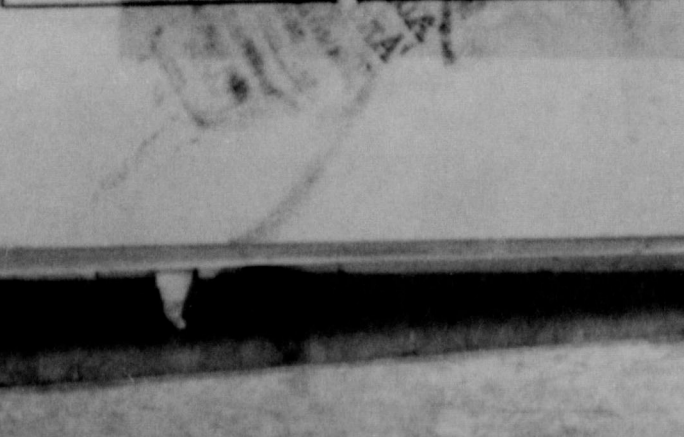

It all depends upon the point of view. One old-timer said to the other: "Gosh, Bill, don't you wish we were barefoot boys again?"

"Not me," replied Bill. "I work on a turkey farm."

TROPICAL PINEAPPLE PIE

3 Tablesp. butter or margarine
1 1/2 cups coconut
9-oz. can crushed pineapple (do not drain)
1 cup water
1 Tablesp. lemon juice
1/2 cup sugar
1/4 teaspoon salt
2 eggs, separated
1 pkg. lemon gelatin
1/2 cup FET instant (in dry form)

Melt butter in 10-in. skillet. Add coconut and mix well with fork. Cook over medium heat, stirring often, until coconut is golden brown. Set aside 2 tablespoons of mixture to decorate pie. Press rest firmly on bottom and sides of 9-in. pie pan. In 1 1/2-qt. saucepan mix pineapple, 1/2 cup water, lemon juice, sugar, salt and egg yolks. Cook and stir over medium heat until mixture reaches full, all-over boil. Take off heat. Stir in gelatin until dissolved. Chill until very thick, but not set. Put egg whites, 1/2 cup water and FET instant into 1-qt. bowl. Beat with rotary hand beater, or with electric mixer at high speed, until stiff. Fold into chilled pineapple mixture. Let stand a few minutes, until mixture starts to set. Put into coconut shell. Decorate top with set-aside coconut. Chill until firm, about 2 hrs., before serving.

Who'll pay that new tax?

Okay, so the Texas Legislature finally
passed a \$185 million tax bill. But what
does that mean to us when it's broken down?
Well, smokers, car buyers, corporations
and gas producers will pay the lion's share
of the \$185,773,800 in new taxes approved
Thursday by the legislature.

The biggest single item in the new revenue
schedule is the three-cent boost in the cigar-
ette tax. It will yield an estimated \$64,458,-
000 in a two-year period.

The following are provisions of the new
tax bill which the Senate and House passed
and sent to Gov. Price Daniel.

Cigarettes, raised from five cents to eight
cents per pack; producing \$64,458,000.

Corporation franchise taxes, increased
75 cents of \$3 per \$1,000 taxable capital
for one year, and boosted 50 cents perman-
ently to \$2.75, yielding \$2,500,000.

No Snuff Tax
—Motor vehicle sales tax, increased from
1.1% to 1.5% to produce \$15,500,000.

—Tobacco products including cigars but
not snuff, to raise \$14,500,000.

—Severance beneficiary tax on natural gas
of 1.5%, yielding \$15,600,000.

—Air conditioners, 3% retail sales tax,
\$7,575,000.

—Liquor tax increased from \$1.40 to \$1.68
per gallon and wine increased 20% per gal-
lon, \$6,334,800.

—Precious and semi-precious stones, furs
and precious metals, 3% tax on sales of \$25
and over, \$5,000,000.

Some Taxes Repealed
—Utilities rates boosted 20% except on
telephone and telegraph, \$3,100,000.

—Boats and motors, 1.5% retail sales tax,
\$2,800,000.

—Special fuels, better enforcement, \$300,-
000.

—Theater admissions reduced, at a re-
venue loss of \$90,000.

—Repeal of various taxes including those
on prizes and awards.

Accordin' To The Judge

(Editor's Note: Since we are
informed many times on state
local laws, particularly traf-
fic laws which have a definite
bearing on our every-day lives,
justice of the Peace C. H. Day
has written the article below on
some of these laws pertinent to
our situation here in McLean.
We will write other articles from
time to time on different traffic
laws.)

NO RACING OR CONTEST OR SPEED

No race or contest for speed
between motor vehicles of any
kind shall be held upon any
public highway. Any person vio-
lating this article shall be fined
not exceeding ONE HUNDRED
DOLLARS.

WHO MAY NOT BE LICENSED

The Department shall not issue
any license hereunder:

1. To any person, as operator,
who is under the age of 16 years,
except that the Department may
issue a license to such person if
14 years of age or older where,

in the opinion of the Department,

(1) there appears an emergency
sufficient to justify the issuance
of such license, and such license
shall be issued only for the period
of time as such emergency ex-
ists; (2) it appears that the failure
or refusal to issue such license
to any such person will work an
unusual economical hardship on
the family or the applicant for
the license; (3) it appears that a
license should be granted to the
applicant because of the sickness
or ill health of members of the
family of the applicant; (4) the
failure to issue such license would
be detrimental to the general
welfare of the applicant or his
or her family; or (5) it appears
that the applicant has completed
and passed the State Department
of Education approved standard
drivers training course, which
course must also be approved by
the Department of Public Safety;
and the application for such clause
(5) shall include a certificate by
the superintendent of the school

that said drivers training course
is part of the regular curriculum,
and that the applicant has passed
this course. A license shall not
be issued to any applicant who
has not passed the examination
required in section 10 of this act.
The Department shall carry out
the duties required of it by the
provisions of this act in any
manner that will expedite the
performance of such duties, and
in a manner that will provide the
greatest convenience for the pub-
lic. In no event shall an operators
license of any class be issued to
any person less than 14 years of
age.

Any person who has been re-
fused a drivers license under the
terms of this paragraph may ap-
peal to the county court in the
county in which he is a resident,
where the matter shall be tried
before a jury.

MUFFLERS PREVENTION OF NOISE

(A) Every vehicle shall at all
times be equipped with a muffler
in good working order and in
constant operation to prevent ex-
cessive or unusual noise and an-
noying smoke, and no person shall
use a muffler cut-out, by-pass
or similar device upon a motor
vehicle on a highway.

Stay on the Track With Tape Dispenser

BY EDNA MILES

Every housewife uses cel-
lophane tape around the
house daily for a dozen seal-
ing and patching jobs. She
uses it for frozen food pack-
ages, for mending books,
magazines and recipe cards.
She uses it for protecting
labels on medicine bottles,
for sealing perfume bottles,
for mending plastic.

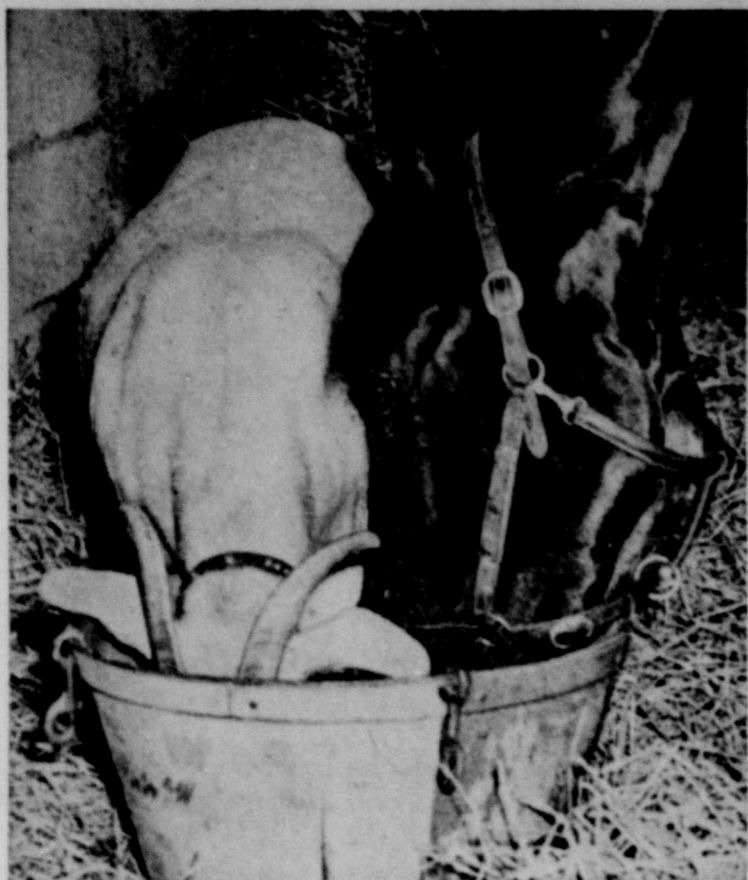

And in the process, she has
often broken one or more finger-
nails trying to restart a strip that
slid back on the roll. But that's
all over now. One well-known
firm has placed on the market a
tape dispenser that prevents the
tape ever slipping off.

This dispenser is made of light-
weight, sturdy plastic which,
when it's folded shut, completely
protects the tape and prevents it
from drying out. The dispenser
keeps the tape always on the
track, ready for use.

It comes in an extra-large size
so that you needn't run out of
tape in the middle of a mending
job. And whether you need just
one strip or 20, it gives you fresh
tape for each job.

Bible Comment:

Bible Has Many References About Our Relationships

The Bible has a great deal to say about living with friends and foes. To live with friends would not seem to present any problem, though there is an art of friendship which is not always cultivated or which may be one-sided only.

Friendship depends upon mutual confidence and regard.

To live with enemies, real or imagined, is not so easy. If no real dangers are involved, there may be upsetting disquiet and disturbances of mind. But if you had been a Jew in Hitler's Germany, or if you were a Roman Catholic or Protestant in today's Communist China, there would be nothing imaginary about your enemies, or the dangers confronting you.

There are many references to enemies in both the Old and the New Testaments. Over 300 enemies are listed from Genesis to Revelation. Many of these enemies undoubtedly were of the same sort that have beset others in later times.

The unyielding attitude of those whose religion enforces an implacable attitude toward "enemies" undoubtedly makes one-sided concession. The great hope seems to be that world sentiment may bring more tolerant and placable action to bear.

It is possible that much of the Biblical counsel concerning enemies as more personal than national or communal reference.

"Agree with thine adversary quickly," or "A soft answer turneth away wrath" may be wise counsels for daily living and peace of mind.

Abraham Lincoln remains a conspicuous example of the strength in action of a man immersed in what the Bible has to say about getting on with enemies.

GOD BLESS AMERICA

By J. R. Lawson

Pastor Kellerville Baptist Church

Blessed is the nation whose God is the Lord; and the people whom He hath chosen for His own inheritance. The history of America has been wrapped around with the blessings of God. I believe that we can humbly say that God seems to have a peculiar love for this new land. From the day that she was founded down to this good day, His blessings have been upon America. Surely every true American is proud and grateful to be an American.

"Breathes there a man with soul so dead—who never to himself has said: 'This is my own, my native land!'"

America was founded as a Christian nation. Our forefathers founded our nation upon the Christian religion, and America will live so long as the Lord is our God. They left a land where they were persecuted to find a land where they were free to worship God. When the pilgrims landed at Plymouth Rock, they knelt down upon the shore and thanked God for giving them this new country. The Church of Jesus Christ was at the center of every new settlement in this new land.

Do you recall the picture of Washington at Valley Forge? His little army was almost starving and freezing to death. Everything that they held dear was at stake. They were fighting against seemingly insurmountable odds—but out in the snow George Washington was down upon his knees praying. "That is the spirit that built America. She was founded on God, and if she is to live, she must keep building on that firm foundation.

God has given us wonderful natural resources. God has given us bountiful natural beauty. God has given us good government. God has given us freedom of speech and press. God has given us religious freedom. God has given us separation of church and state. God has given us a country where everyone has a chance. Let's keep God in our great country.

God bless America, land that we love,
Stand beside her and guide her
Thru the night with a light from above,
From the mountains to the prairies,
To the oceans white with foam,
God bless America, my home, sweet home.

With old songs still topping the hit lists it seems as if the music industry is spending most of its days searching for folk songs hundreds of years old, and its nights writing new ones, hundreds of years old.

Two LP's you will enjoy for years to come are "The Best of the Weavers," and Rod McKuen's "Anywhere I Wander" (Both Decca).

And for fine singles with the folksy sound there are "The Battle of the Little Big Horn" by Porter Wagoner, and "Sailor Man" by Johnny and Jack on RCA; "John Wesley Hardin" by Jimmie Skinner on Mercury;

"Poor Ellen Smith" and "The Devil and the Farmer" by Cecil Surratt and Smitty Smith on King; "The Ballad of Baby Doe" by Jimmy Newman on MGM and "Custer's Last Stand" by Rose Maddox on Capitol.

You barbershop fans are in for a treat with the LP, "Barbershop Harmony" by the Mills Brothers, a fine collection of old favorites (Decca). And for those romantic songs of the South Seas, "Trade Wind Islands" by Haunani on Capitol and "Hello Hawaii" by Bing Crosby. The Andrew Sisters, and others on

Decca, are wonderful albums to dream by.

With the popularity of Adult Western and the Lawrence Welk TV shows it was inevitable they would combine in an album, and the result, "Lawrence Welk-TV Western Theme Songs," makes pleasant listening (Decca).

If you have been longing to hear some of the old sacred songs you remember from childhood, you will find several of them in a beautifully sung album, "Bound for the Kingdom" by Webb Pierce and the Anita Kerr Singers (Decca).

For hit country tunes, popular Ferlin Huskey has a fine collection of some of the older hit smashes in "Born to Lose" (Capitol); and the Queen of Country Music, Kitty Wells, sings many of her top numbers in "After Dark" (Decca).

FINE SINGLES are "A Song of New Love" and "Half Breed" (Marvin Rainwater, MGM); "Dancing Shoes" (Rusty and Doug, Hickory); "Running Bear" (Johnny Preston, Mercury); "Country Girl" (Faron Young, Capitol); "Don't Tell Me Your Troubles" (Don Gibson, RCA); "You Are My Sunshine" (Jimmie Davis, Decca); "Into My Arms Again" (George Jones, Mercury); "Under Your Spell Again" (Buck Owens, Capitol); "I'm Beginning to Forget You" (Jim Reeves, RCA); "You'll Never Know" (Osborne Bros., MGM); "Trying to Forget You" (James O'Gwynn, Mercury); "Pure Love" (Sonny James, Capitol) and "Third Party at the Table" (Connie Hill, Mercury).

We can't say we're in love with money; mainly, because we've had so little chance to get acquainted.

The boss doesn't object to the principle of giving a raise; it's the thought of losing the interest

on the principle that drives him wild.

If you remember when the dollar was worth a dollar in purchasing power, you've been fooling a lot of people about your age.

Friend says his girl isn't a gold digger. She takes the stuff only after he's done the excavating.

We never quarrel about money at our house. It's the lack of it that causes all the hurrah.

smoothest ride!

One of the 7 big bests Chevrolet gives you over any other car in its field

Anyone who's ever taken a Chevy over a choppy country road can tell you how lightly Chevrolet's Full Coil suspension handles rough going—and coil springs never squeak, never need grease! Try this velvet way of going for yourself. Once you do, you'll find your own way of saying what MOTOR TREND magazine puts this way: "... the smoothest, most quiet, softest riding car in its price class." But the happiest part of it all is that this Full Coil ride is just one of seven big bests—all documented by published opinions of experts and on-the-record facts and figures.

BEST ROOM—Official dimensions reported to A.M.A.* show that Chevrolet sedans offer more front seat head room than all but one of the high-priced cars—more front seat hip room (by up to 5.9 inches) than the "other two" of

the leading low-priced three.

BEST ENGINE—Chevrolet engines have long won expert praise from virtually every automobile magazine, and, just recently, Chevrolet received the NASCAR† Outstanding Achievement award for "the creation and continuing development of America's most efficient V-type engines."

BEST ECONOMY—A pair of Chevrolet sixes with Powerglide won their class in this year's Mobilgas Economy Run, topping every other full-sized car. And the winning mileage was a whopping 22.38 m.p.g.

BEST BRAKES—Chevy's bonded-lining brakes are the biggest in their field, built for up to 60% longer life. In a direct competition conducted by NASCAR, Chevy out-stopped both of the other leading

low-priced cars in a test of repeated stops from highway speeds.

BEST STYLE—It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE magazine, "a new high in daring styling."

BEST TRADE-IN—Any N.A.D.A.‡ Guide Book can give you the figures on Chevy's extra value. You'll find that Chevrolet used car prices last year averaged up to \$128 higher than comparable models of the "other two." Your Chevrolet dealer will be happy to tell you about a whole host of other advantages besides these seven. Why not drop by his showroom?

McLEAN'S INTEREST PLEASES FRASER

(Editor's Note: The following letter was written by Cal Fraser, owner of Marie Foundations, to Mayor John Haynes. The letter came as a result of the public meeting recently held here to discuss how the community could help the factory.)

Gardena, Calif.
August 11, 1959
Mr. John Haynes, Mayor
McLean, Texas

I want to put into writing my sincere thanks and appreciation for the wonderful way in which you and the other men have been cooperating with me. I refer to

your town meeting, your plan for subscriptions for a building, the buses, and the many other things. You have certainly done everything possible for us. You have asked me what you could do. You never give me the chance—it's already done.

I know rumors are prevalent in McLean. I have never paid attention to them, and do not intend to. However, there are some things which I should perhaps state my position. There is nothing which I need conceal, just as there is nothing for you to conceal.

Lander

(Continued from page 1)
had meetings and debates, but finally they decided in favor of a band. Three mills per taxable dollar was set aside and to this day the city subsidizes the school band. Last year we paid \$3,024 on it.

It was one of the best bands in the Panhandle, too, according to Lander.

"But the first thing you've got to learn about city politics is to live with the 'knockers.' There's a small per cent in every town that are against anything if it means spending money. Nowadays if a little town wants to grow they've got to pull industry in and get those payrolls—even if it means spending a little of the

city's money. The competition in landing new industry is mighty keen."

"But why," he was asked, "do you want to leave after all these years?"

"I've got to get down there with all those fishing holes. But like I said, I'm coming back to McLean pretty often. You can bet on that!"

Mrs. Truman Spain and daughter, Sharon, of Ardmore, Okla., are visiting their mother and grandmother, Mrs. Frank King.

Mrs. Kenneth Hohstadt and children, Linda, Dianna and Dennis, of Denver, Colo., spent the last two weeks with her parents, Mr. and Mrs. Raymond Glass.

Mr. and Mrs. Wayne Bailey of Tulsa, Okla., Mr. and Mrs. John-

In the first place I have never,

in the past or present, given any consideration to the thought of moving our factory out of McLean. One day we may have to expand. At that time I would certainly hope that this expansion be in McLean. The only deterrent would be the lack of labor supply, and you fellows are already working on that. And when the time for expansion comes and should McLean, in my estimation, be unable to supply sufficient labor, then I would consult with you and we could jointly think it through, before I would make any move to locate elsewhere. In any event I would still maintain my factory in McLean.

I realize the city did spend some money initially in repairing the building plus later roof repairs. Also some to start the nursery. However, the thought was that this was a city nursery rather than exclusively ours. Also the city did spend money on the buses. There may be other costs to the city which are unknown to me.

As far as the nursery is concerned, we have been subsidizing it for many months and will con-

It was never my intention that we should cost McLean any money. There were tax concessions made, but this cost the city nothing. In buying the building I paid the price asked with strings attached by the city that I must operate the factory three years before I could obtain title. I assume I paid what the building cost the city.

time to do so. I want it for the benefit of my employees. I want no further help from the city there. In fact I tried to repay the city's initial cost.

As far as previous repairs on the building, buses and perhaps other items, these were done of the city's own volition. Whether they are good or bad is for the people of McLean to decide. I was not a party to it.

If, however, the people of McLean should feel that the city has expended money on our behalf which should not have been done, then I would want the city to give me a bill for such expenditures. Briefly I am trying to point out that we want to be an asset to the entire city of McLean, and in no way a liability. I ask for no concessions which will cost McLean any money.

I am extremely pleased with

your efforts to do all you can to keep the factory operating at a high level. I am happy that the citizens apparently support you in such thinking. I want no concessions you would not give to any other comparable industry coming to McLean. I want your people to be as happy with me as I am with them.

I am always ready to give an honest answer to any question any citizen might have. They
