State Capital News

Sen. Ralph Yarborough, State Land Commissioner Sadler were upset victims of the May 2 Democratic Primary. Lloyd Bentsen and State Representative Robert L. (Bob) Armstrong, one of political action now to the general election. Bentsen faces Republican candidate George Bush, Preston Smith, unopposed Democratic primary, is tied with GOP Paul Eggers and Eggers won nominally easily over Robert Morris and Martin in the Republican primary.

SECURITY PRECAUTIONS
Fighter security measures were ordered for the historic Capitol—always wide open to visitors—in the wake of a recent anti-war demonstration last week.

82-year-old etched glass windows were smashed when a mob of obscenity shouting youths dashed through the rotunda. A gas grenade was tossed into the demonstrators' back and the building and onto the grounds of Texas campus. Police within the next two days the Capitol was evacuated of telephone bomb threats. Equipped Department of Safety officers took up positions inside or patrolled the grounds as demonstrations continued on the UT campus.

Preston Smith said demonstrators and disrespect may force security, though the cause has been the scene of many disturbed peaceful demonstrations in the past.

INTEGRATION POLICY APPROVED
The Board of Education approved the policy that contributions of ethnic and racial groups be taught.

and also proclaimed that future books must be free of racial bias and that life texts will present evolution as a theory rather than a fact.

capita state aid to local districts was increased from \$40 to \$117.65 per student for current school year. Board authorized application for \$1.8 million in federal anti-poverty aid to help train 900 migrant workers for city jobs, approved million special vocational programs for poor students and lowered the Texas Education Agency to seek a \$50,000 federal grant to continue technical assistance to school districts with school districts with segregation and other ethnic problems.

POINTS
State Comptroller can write checks by which Texas Tech University works can be temporarily exchanged with other universities and museums.

LEASING HOME ASK RAISE
Leasing home operators, facing their face financial problems, want authority to levy a monthly supplemental charge on welfare patients in addition to the state allocation. The state seeks a six percent increase in state payments for patients requiring skilled care or a charge of \$381 a month. State in other categories would include families pay the supplemental charge.

Meanwhile, State Board of Public Welfare, which took the best under study, heard new family assistance legislation backed by the president of the state. The bill would cost Texas \$57 million a year more than present programs.

FARE
State Board of Public Welfare announced that only 12 counties are not decided on a course of action on the Dallas federal order that 90 Texas counties must begin food-aid programs for the poor.

Another 31 counties had refused to operate food programs, the State Department of Public Welfare planned to operate commodity programs at federal expense in Arkansas, Baylor, Bowie, Clay, Collin, Comal, Coryell, Deaf Smith, Don Edwards, Ellis, Fort Gillespie, Gray, Grayson, Jack, Johnson, Kaufman, Lamar, Randall, Refugio, Rockwall, Rusk, Uvalde, Wheeler, Wise and Wood counties.

WATER RIGHTS HEARING
Texas Water Rights Commission will present for consideration its proposed rules, regulations and procedures for administering the state water rights adjudication law in a public hearing in Austin at 10 a.m., June 4.

Also to be considered are proposed rules to govern the operation of Amistad Reservoir near Del Rio.

Commission wants persons planning to comment on its proposals to file written statements before May 30, setting forth their reasons and any other pertinent information.

Copies of the rules may be obtained in advance by writing the W.R.C., Austin 78711.

SHORT SNORTS
Texas Animal Health Commission reversed its policy and reversed its policy and voted to inspect sprayed heifers imported from Mexico.

Lubbock received a \$218,971 child development grant and \$71,894 for migrant rural education demonstration project.

Official Memorandum
PRESTON SMITH
Governor of Texas
AUSTIN, TEXAS

GREETINGS:
The practice of veterinary medicine is a fast growing profession in Texas and the nation. Today's veterinarian is found in one of almost thirty special interest fields including general practice, large and small animal medicine, research, teaching, public health, regulatory affairs, laboratory animal medicine, zoo medicine and military service.

The more than 1900 veterinarians licensed in Texas have the responsibility of health care and disease protection of the state's \$12 billion livestock and meat industry and the medical care of the millions of pet animals that mean so much to our citizens of all ages.

Texas has the nation's largest college of veterinary medicine having recently completed a \$4 million expansion program that allows curricula to graduate more than 125 new veterinarians each year, almost 10% of the nation's new doctors of veterinary medicine.

Saturday, May 16, 1970, the general public is invited to observe Veterinary Medicine Week by visiting the new veterinary medical complex on the campus of Texas A&M University to view the facilities, observe medical and surgical procedures as well as the exhibits in many areas of veterinary medicine.

THEREFORE, I, as Governor of Texas, do hereby designate the week of May 10-16, 1970, as VETERINARY MEDICINE WEEK in Texas.

In official recognition whereof I hereby affix my signature this 5th day of May, 1970
Preston Smith
Governor of Texas

Gray County ASCS Report
Gray county producers are reminded that wheat acres for harvest must be reported to the ASCS office by May 15 in order for the farm to receive payment and price support under the 1970 program. Any barley planted must be reported by that date too. At the present time only about one-fourth the producers have made this report.

Some producers had reported wheat before the tornado that destroyed our office on April 18. All these reports were completely destroyed. We have no way of knowing which producers had made the report so we urge everyone to come back and report again unless they reported in the last week. The Gray County ASCS office is located at 1425 Alcock on the Borger highway west. Ample parking space is available on west side of the building and in front of the building.

E. T. Duncan, 77 Long Time Resident Is Buried Tuesday

Funeral services for Ernest Thornton Duncan, 77, of McLean, who died about 7:50 p.m. Sunday in Highland General Hospital in Pampa, were held at 3 p.m. Tuesday in the First United Methodist Church.

Drowning Claims 47 This Year

Texas waters have claimed 47 lives since the first of the year, and the outdoor recreation season has just barely begun, according to the Texas Parks and Wildlife Department.

The Department says the warm weather during the past month has brought a flood of drownings reports. Most of the recent drownings occurred while the victims were engaging in some form of outdoor recreation such as swimming, boating or fishing.

Seventeen of the drownings were the result of boating accidents, and three of these victims were in violation of the law which requires that a Coast Guard approved life jacket be on board for each person in the boat.

Swimming accidents accounted for eight drownings. Perhaps the most tragic of the drownings were those of young children who wandered away from their parents just long enough to drown in some innocuous looking body of water. Several children under six years old have died this year near their home in swimming pools or canals.

Department officials say most of the drownings could have been prevented by following some simple rules: keep a tight rein on small children around water; obey the Water Safety Act which was designed to save lives of boaters; and when swimming, know your abilities and your limitations.

The Stubblefield's To Have Open House

Mr. and Mrs. Earl Stubblefield invite their friends and neighbors to an open house of their new home at the corner of 6th and Waldron from 3 to 5 p.m. on Sunday, May 17th.

Land Bank Reduces Interest Billing Rate On Loans

J. E. Gunn, Manager of the Federal Land Bank Association of Pampa, received word today that the Federal Land Bank of Houston has reduced the interest billing rate loans to 8 1/2%.

The variable rate loan plan which was introduced by the Houston Bank last July, lets the interest rate "float" over the variations in the money market.

In large measure, therefore, the rate in any specific year will reflect the changes in the price which the bank must pay for the money it makes available for farm mortgage loans.

"Recent improvements in the money market have made this reduction possible," Mr. Gunn stated.

The Federal Land Bank of Houston makes long term real estate loans on farm and ranch lands throughout Texas. On January 1 of this year, the Bank had slightly over one-half billion dollars in volume of loans outstanding. The local association makes and services loans in Gray, Roberts and Hemphill Counties. Members of the local board of directors are: W. B. Jackson, Paul Bowers, J. L. Andrews, Wayne Maddox and Virgil Brock.

Vernon Kennedy, Judu and Tina Williams, Mr. and Mrs. Milton Billingsley of Amarillo were callers Thursday night with Mr. and Mrs. Luther Petty.

STRENGTH FOR THESE DAYS

McLean School Band To Present A Spring Concert

The annual spring concert by the McLean schools bands will be presented Thursday night, May 14, at 8:30 p.m., in the gymnasium. Admission is free.

The program will include various types of music and will feature the fifth grade band, the junior high school band, and the high school band.

The public is cordially invited and urged to attend.

Rules To Follow In Tornado Season

The sky grows dark and threatening, and off in the distance a dull roar can be heard as a funnel could dip from the sky.

A tornado has formed and three tons damage to life and property.

That sort of scene, occurred 127 times in Texas during 1969. The tornado continues to be Texas' top weather worry.

Tornadoes can occur at anytime of the year, but they occur most frequently in Texas between March and October. During May of last year 65 tornadoes were reported in the state.

The damage from the 1969 storms amounted to \$2,341,750 and there were three deaths in Texas.

The U. S. Weather Bureau, State Civil Defense and Disaster Relief, and the Texas Department of Public Safety have prepared a list of rules to follow in case of a tornado disaster.

To know the rules may mean the difference between life and death.

1. The safest place to be during a tornado is in a cave or a storm cellar. When time permits go to a storm cellar, cave, or underground excavation which should be kept fit for use, meaning free from water, gas or debris, and preferably equipped with a pick and shovel.

2. If you are in open country, move at right angles to the tornado's path. Remember that tornadoes move ahead at about 25 to 40 miles per hour as a general rule. If there is no time to escape, lie flat in the nearest depression such as a ditch or ravine to avoid injury from objects being hurled through the air.

3. If you are in a city or town, seek inside shelter, preferably along the inside walls on the lower floors of a steel reinforced building. Stay away from windows.

4. If you are at home in a frame house, the southwest corner of the lowest floor (preferably a basement) offers greater safety. People living in brick or stone houses should find other shelter, such as a storm cellar or the southwest basement corner of a frame house.

Coffee To Be Held For Two Candidates

A coffee will be held Friday morning at 10:00 a.m. in the American Nat'l Bank Hospitality Room, honoring Max Sherman, candidate for State Senator & Phil Cates, candidate for State Representative.

Everyone is invited and urged to attend this coffee and visit with these young candidates.

Public Invited To Reception Honoring Bob Price May 22

There will be a reception held at the McLean Country Club for Representative Bob Price immediately after Graduation, May 22.

A special invitation is extended to the Senior Class and their parents. It is hoped that many people will take this opportunity to express their appreciation to Congressman Price for being the speaker for graduation.

Girl Scouts To Register For Camp

All girls wishing to attend a session of Girl Scout Day Camp planned for this summer should be getting ready to register soon. Registration in McLean will be May 15th.

Girl scouts of all ages are eligible to attend these camps, and even non-Girl Scouts may apply. Their registration will be accepted after May 15th. Interested parents should contact the Neighborhood Chairman Mrs. Don Bradley for further information. Registration forms are found in the camp booklet, and these must be accompanied by a fee of \$4 for Girl Scouts and \$5 for non-Girl Scouts.

Stamps books (completely full) will be accepted as part or full payment. Gunn Bros., and Gold Bond (Frontier) Stamp books are worth \$2.50 each, while books of S&H Green Stamps are worth \$2. These fees help to cover the cost of transportation, insurance, cookouts and the expenses in connection with program supplies.

The Day Camp session for McLean will be June 15-19. Mrs. Ran Henry of Shamrock will be the director. This year's rendezvous will be Camp Mel Davis located near Lefors.

In the past Day Camping has proved to be very successful and popular. For many girls this is the only opportunity to go camping in the summer. For five full days they can enjoy outdoor living, learning camping skills and other crafts, enjoying cookouts, games and singing.

turning back into the path of a tornado.

Even though a warning is issued, the chances of a tornado striking one's home or location are slight. As a rule, tornadoes cover such small areas that relatively a few places in a warned area are directly affected. You should be familiar with the safety precautions, however, in case a tornado does approach.

7. Keep tuned to your radio or television station for the latest information when tornado warnings have been issued. Do not call the Weather Bureau, except to report a tornado, as your call may tie up telephone lines urgently needed to receive special reports, or to relay messages to radio stations for broadcast to thousands in the critical area.

There is sometimes confusion over terms used in the reporting of tornadoes by the weather bureau.

McLean Cub Scouts To Have Circus

A circus is coming to McLean Saturday, May 16 at the local rodeo arena. The circus is being put on by the McLean Cub Scouts.

Clowns, acrobats and everything that goes along with a circus will be on hand to entertain everyone present.

A small admission charge will be charged with all proceeds going into the cub scout fund.

Farm To Market Road In Gray Co. Approved For 1970

The Texas Highway Commission today approved development of 4.6 miles of farm to market road in Gray County as part of the 1970 Texas Farm to Market Road Program.

District Engineer, Charles W. Smith of the Texas Highway Department, said the estimated cost of the work is \$40,000,00.

The proposed farm to market road extends from U. S. 66 to Main Street in McLean, south and east to a proposed farm to market road in Donley County. The Highway Department will assume maintenance on the existing paved road which extends from U. S. 66 in McLean to a point 1 mile north of the Donley County line. The remaining 1.0 mile will be constructed as a complete paved farm to market road.

The work will be under the supervision of Mr. T. R. Kelley, Senior Resident Engineer at Pampa.

Work authorized in this county is part of 543.1 miles of "Texas Farm and Ranch to Market Roads" earmarked for development in the new program.

The program includes 144 projects in 109 counties. Estimated total cost of the program is \$22 million.

New construction totals 377.6 miles, with an estimated cost of \$18.2 million.

The remaining \$3.8 million represents additional financing on 165.6 miles of previously designated roads.

The additional new mileage brings the designated Farm and Ranch to Market network in Texas to 39.8 thousand miles. This is 1 1/2 times the combined total of all State-maintained highways in the six New England states.

Originally planned to help "get the farmer out of the mud," the network has enhanced the social and economic well-being of millions of rural Texans.

In the new program, 77 percent -- 235 miles -- of the new mileage is used by school buses. Sixty-seven percent -- 207 miles -- is included in rural mail routes.

But the system has not benefited just the rural resident. Many Farm and Ranch to Market Roads provide access to recreational areas for urban and rural residents alike.

The FM system also includes some of the most scenic travelways in Texas. One-third of the total mileage of the 10 Texas Trails is over roads in the FM-RM system.

Many industries are served by roads in the Farm to Market network. This system has been credited with opening up new areas for industrial growth, facilitating movement of raw materials, employees and finished products.

Visiting with Mrs. George Colebank over the weekend were Mr. and Mrs. John Cooper of Tucuman, N.M., Mr. and Mrs. Wayne Woods and children of Oklahoma City, Mr. and Mrs. Benny Cooper and children of Canyon.

NOTICE

There will be a coffee Friday morning at 10:00 A.M. in the American National Bank Hospitality Room honoring Max Sherman, candidate for State Senator and Phil Cates, candidate for State Representative. You are invited and urged to attend and meet both of these young men.

Culture Club Have Annual Breakfast

The meeting was called to order by the president, Loree Barker. Following business discussion a devotional on "Living ones Christianity more than going through the motion," was given. Roll call was answered by helpful hints.

There were 12 members present with Loree Barker and Luci Goldston receiving birthday gifts from their secret pal and Mrs. Goldston received the hostess gifts. Refreshments were served by the hostess.

The next meeting will be with Bea Lester on May 19. Danny Brown, son of Mr. & Mrs. Joe Brown of McLean was in the to-mo at Lubbock, was not injured but just shook up & is now at his parents home.

The Centennial Culture Club's annual breakfast was held in the home of Mrs. Brent Chapman on May 8.

Motif of spring and spring flowers was emphasized in the decorations and throughout the house.

Those attending were Bea Lester, Marie Baker, Grace Carpenter, Loree Barker, Edith Florey, Iona Glass, Flora Humphries, Myrt McCoy, Dot McEachem, Oma Abbott, and Fiddle Stubbs.

This will be the clubs last meeting until September.

In 1964, a manufacturer of women's apparel needed about 3.2 square yards of cotton fabric to make a skirt. In 1968, he used only 1.9 square yards of fabric for a skirt. Dr. Graham Hard, Extension clothing specialist, notes that the current word on lowering the hemlines will directly affect the cotton textile industry and the man-made fiber manufacturers.

LETTER TO THE EDITOR
Can't do without our McLean News. It's next to a letter from home. Each week we look forward to its arrival and search its page for any available news. The enjoyable years lived in McLean shall ever remain as pleasant memories indeed.

Magnificent tapestries, sometimes taking years to complete, decorated the walls of many homes and churches in the Middle Ages. Woven with richly colored strands of silk and wool, they often pictured scenes from the Bible. To create a beautiful tapestry required patience... skill... devotion.

Today each of us weaves a tapestry — the fabric of our lives. We sit at a loom, wondering whether the pattern of our lives will be of bright rose, green or golden threads, or whether the events will show as somber, dark colors.

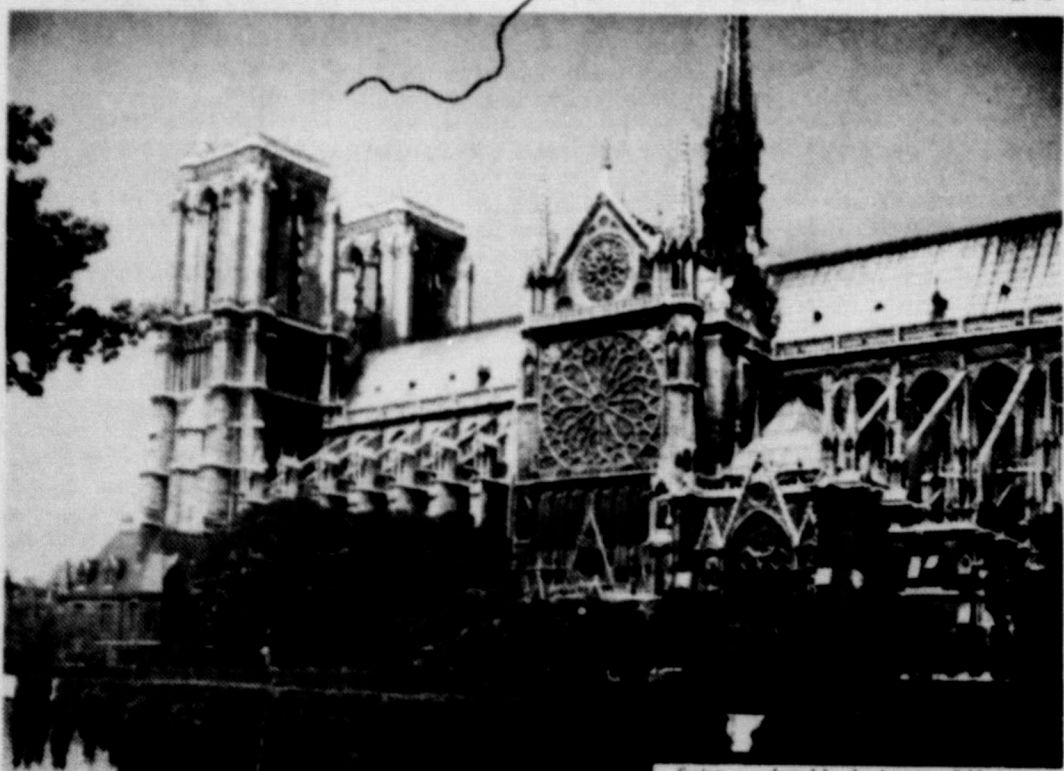

A weaver in the Middle Ages worked on the reverse side of his tapestry. By looking up at a mirror, he could see how the entire design looked on the right side.

When we look up to God in worship, we can see with clarity the pattern of our lives. Attend the church of your choice for perspective on your life's tapestry.

LETTERS TO THE EDITOR
 As most of the parents in McLean know, one of our Senior girls was seriously injured Thursday night on the traditional hay ride. She could have been killed. Her classmates thought she was. No one was at fault, no one blamed.
 I wonder--will something like this or worse have to happen to our young people before the parents, sponsors, junior and senior classes will stop going to Pampa for their banquet and prom? Several years I have thought how foolish this is. Last year's junior class parents tried to help the class out of this vicious circle... to no avail. The juniors and seniors are out that night for a good time and throw caution and good judgement to the wind. The last two years I have had the privilege to go to the prom. Such a waste of money, for such a few of the classes to enjoy. Some don't care to dance, some are not allowed to dance and some had rather get their kicks elsewhere. Now that we have a nice building here at home and a business man that is more than glad to cater a banquet for the school... I wonder why it can't be used. After a banquet here at home there could be music for those who wish to dance and games for those who prefer other recreation. At dawn early light the parents could serve breakfast and a good time could be had by everyone at much less expense and danger to all. I know this is the tradition at several schools in this area.
 I won't have a junior or senior class again for a few years but I would enjoy working with parents and classes that feel as I do. I wonder... do you?
 Davie Gipson
 P.S. I am proud of our Seniors. They were all at the hospital and could not be persuaded to leave until they saw for themselves that Cindy would be all right. We have a good group of young people, lets help them stay alive.

FOOD MARKET REPORT
 Watermelons are showing up in retail stores but the prices remain relatively high, reports Gwendolyn Clyatt on this week's food market.
 Mrs. Clyatt is an Extension specialist in consumer marketing information at Texas A&M University.
 Pricewise, grapefruit, oranges, pineapples, apples, strawberries and avocados are good fruit choices, she says.
 Carrots and head lettuce are economical vegetable choices. Cabbage, cooking greens, dry yellow onions, radishes and green onions also are good.
 Many markets are featuring fryers this week. Turkey prices are generally steady though some specials are available on 1-14 pound birds.
 Typical of spring, large grade A eggs are better value by weight. Prices on both the medium and large sizes have edged up a couple pennies this week, but eggs remain an excellent protein value, Mrs. Clyatt notes.
 Beef prices are about the same as the past few weeks. Beef chuck roasts, round and sirloin steaks, short ribs, ground beef and beef brisket are among the best values.
 Shoppers this week will find lower egg prices, lower pork prices and an abundance of fresh fruits and vegetables in the grocery store.
 Most economically priced produce are apples, oranges, grapefruit, strawberries, cantaloupes, celery, cabbage, carrots, potatoes, asparagus, dry yellow onions, green onions, turnips and mustard green, according to Extension Consumer Marketing Specialists Gwendolyn Clyatt.
 Longest sausage ever recorded measured 2,000 feet in length and weighed 840 lbs.

The challenge of being the only.
 As any wise husband knows, no woman likes to be taken for granted. It's the little things that count, like remembering anniversaries, or bringing home flowers for no particular reason.
 Like the wise husband we try not to take you our customer, for granted Being the only phone company in town, we make a special effort to be courteous, kind, considerate, and understanding.
 The fact that we are the only phone company in town is a challenge. The challenge is "not to act like it."
