

Caramel-Chocolate Cookie Treat

The dessert problem is more than half solved when you've a batch of homemade cookies at hand, to team up with a fruit in season, with ice cream or with a combination of the two. Both caramel and chocolate chips are used in these chewy drop cookies, with coconut and cereal adding flavor and texture.

- Caramel-Chocolate-Coconut Chews**
- 1/2 cup chocolate chips
 - 1/2 cup caramel chips
 - 2-1/4 cups corn flakes (well packed but not crushed)
 - 1/2 cup flaked coconut
 - 1/2 cup sugar
 - 2 eggs, well beaten
 - 1 teaspoon vanilla

Combine chocolate chips, caramel chips, cereal, coconut, and sugar. Mix well. Then add eggs and vanilla and mix well. Let stand 5 minutes. Drop by teaspoonful onto greased and floured baking sheet. Bake in moderate oven (350°F.) 10 to 12 minutes. Remove from baking sheet immediately. (If cookies begin to stick, hold baking sheet over direct heat for a few seconds.) Makes about 3 dozen cookies.

Positive about being negative

Occasionally a customer for some medication he's read about. And we must refuse him. The reason is that the particular medicine must be taken under a physician's supervision and is available only on prescription. This is a safeguard to your health. As your pharmacist, we suggest you see a physician if you feel you need potent medication. We'll be happy to fill his prescription. Till then, perhaps our greatest service is saying "No."

Welcomes You

JESUS IS DIVINE

Jesus was more than mere man. He was the divine son of God, and the scriptures everywhere point to the fact.

In John 1:1 and John 1:14 we read, "In the beginning was the Word, and the Word was with God, and the Word was God. . . . And the Word was made flesh, and dwelt among us, (and we beheld his glory, the glory as of the only begotten of the Father), full of grace and truth."

He was born of the virgin Mary (Isa. 7:14, Matt. 1:23). He was human as well as being divine. "But when the fulness of the time was come, God sent forth his Son, made of a woman, made under the law, To redeem them that were under the law, that we might receive the adoption of sons." Gal. 4:4-5. All the scriptures attest unto this fact.

When Jesus was born the angel Gabriel said, "—that holy thing which shall be born of thee shall be called the Son of God." Luke 1:35

Simon Peter who was closely associated with Christ while here on earth said, "—Thou art the Christ, the Son of the living God." Matt. 16:16

The enemies of Jesus said, "—Truly this man was the Son of God." Mark 15:39

The devils said, "—What have we to do with thee, Jesus, thou Son of God." Matt. 8:29

God himself said, "—This is my beloved Son, in whom I am well pleased." Matt. 3:17

Since Christ is God's only begotten son He has become THE authority in all religious matters, and God speaks to us today through Him. Heb. 1:1-2. Man does not have the authority to change anything the Son has spoken, and He has revealed unto us His complete will in the Bible. 2 Tim. 3:16-17; 2 Peter 1:3

Those who reject God's word reject Christ, and those who fail to submit unto His authority have no part in Him.

CHEVROLET

OUT WHERE THE COUNTRY CAN TEAR A TRUCK TO PIECES—

Chevy middleweights get 1/3 more work done in a day!

Where they used to deliver 2,300 gallons of liquefied petroleum gas in other trucks, Petrolane Gas Service of Long Beach, California, can now deliver 3,500 gallons a day! That's 7 days a week usually, over back trails and up into high rock country with maximum GVW loads. And with Chevy's Torsion-Spring Ride pacing every foot of the way! "You don't get any more jolting on washboard roads than you do in a passenger car, or any sideway on curves," says driver Bernie Stone. "I used to take some rough roads at from 5 to 8 miles an hour. Now I can go 30 over them." Petrolane has over 200 Chevrolets hauling for them.

If you think we're excited about Chevy's independent front suspension, you ought to talk to the truck owners who are profiting by it. They'll tell you Chevy's torsion-spring design is the hottest thing to hit the industry since trucks began. Drive one—that's the proof, short and sweet.

Editorials

SURVIVORS TAKE NOTE

This spring an advertisement in the form of an obituary notice was placed in the Neillsville, Wisc., Clark County Press by the local Independent Businessmen's Association. Reading in part as follows, it make its point in an unforgettable way: "Representatives, Congressmen, Senators and Assemblymen, take note: Obituary. Another faithful federal income taxpayer passed away. Granton Feed Mill bought by co-op. Purchase of the W. J. Spry & Sons Feed Mill in Granton by the Farmers Union Co-operative was announced this week. . . . Survivors—the ever decreasing family of income taxpaying business places."

Since the federal income tax takes up to 52% of the income earned by corporate enterprise, it becomes self-evident that a business operation which does not pay this tax has an unassailable advantage where it comes into competition with one which does pay the tax. The REA co-ops have this advantage in competition with the privately-owned electric companies which operate in rural areas.

In the agricultural field it is little wonder that co-operatives which started out as small communal purchasing and marketing organizations have been so successful. But the co-operative idea has spread to such diverse activities as manufacturing, baking, insurance, utilities, oil production, refining, mining, and even radio stations.

Special advantage and privilege is never easily relinquished and the proposal that cooperative business enterprise should carry its fair share of the federal tax burden, will be bitterly fought—yet there can be no other logical answer. In the meanwhile, it is well to remember that each time another private enterprise taxpayer bites the dust the taxpayers who are left have that much bigger load to carry.

DEATH OF A FREE PRESS

One thing dictators can't stand is a free press. Cuba has provided the world with another tragic example of that truism.

One by one the newspapers which were in any way critical of the Castro government have been silenced. The latest to suffer this fate was the distinguished Presna Libre. Because of an effort to publish an editorial in which it said that the Castro revolution was employing "the strategy of Goebbels and dialectic tactics of communism," it was taken over by its workers, who are members of a government-controlled union. Its directors took refuge in a foreign embassy.

William H. Cowles, president of the Inter-American Press, states: "The confiscation of Presna Libre by the workers of that newspaper means that Fidel Castro has crushed or seized all Cuban newspapers opposed to his policies or critical of the increasing communist influence on his regime."

The last effective voice of protest has been stilled in Cuba.

A MATTER OF URGENCY

In this ever-changing and unpredictable world, one of the United States' urgent needs is a world-wide airlift of the greatest possible strength and dependability. The matter is so important that a special House Subcommittee was created to hold hearings and make studies.

One difficult aspect of the problem has been MATS—the Military Air Transport Service. MATS, over the years, has been providing more and more routine airline type service—at the expense of its efficiency as a

NEEDS HELP

Dramatic proof of the need for aid for Chilean earthquake victims is evidenced by this Puerto Montt orphan—his only belongings heaped in a string bag—shown waiting a mercy plane trip to a refugee reception center in Santiago.

Nations throughout the world are responding to appeals for help. President Eisenhower appointed American Red Cross President, General Alfred M. Gruenther, as coordinator of U. S. voluntary relief efforts. Numerous religious and welfare organizations are engaged in the massive relief project. The Red Cross, which is conducting a nationwide fund appeal, made an initial allocation of \$175,000 and provided \$250,000 worth of donated medical and other supplies.

military agency, and to the detriment of the private U. S. flag international airlines. A study made of MATS, ordered and approved by the President, proposes a reduction in this type of service, and increased use of the commercial air carriers as they obtain modern cargo aircraft.

Now the four scheduled U. S. international airlines have presented a program to the Department of Defense which envisions a partnership between them and MATS that would meet the full requirements of the nation—its defense and commerce—in peace and war. It has three basic provisions. One, peacetime defense traffic would be moved at reduced rates. Two, the airline capacity, personnel and facilities used in this traffic would be constantly available to the Department of Defense for use in any emergency. Three, the agreement would remain in effect indefinitely, subject to a two-year termination notice.

The point is that MATS and the flag airlines have differing functions and needs. Each adds to the total national airlift capacity. Properly understood, the cargo deficiency is an over-all one—and the need is to get new, modern, higher-performance, lower-cost cargo aircraft in being most expeditiously.

The new program would meet this vital objective—and it should be put into effect in the briefest possible period of time.

A bargain is said to be something which you don't need at a price so cheap that you can't afford not to buy it. Of course there are sometimes real bargains to be had, and if we are fortunate enough to find one, then well and good.

But it does always pay us to take a good second look at anything that sounds too cheap. In other words, as the old saying advised: "It's better to look a gift horse in the mouth."

One of the best policies to follow, and one that will almost never fail is to be sure that you know the one who is offering you the bargain. If he is a home-town, well established business man, then you are safe; except possibly for an isolated case. The person in the selling business in one place year after year has almost certainly got to treat you right.

One thing that sort of boils our blood is to hear that some person, usually an old couple with little money, has been sold a good sounding but bad paying-off hospital insurance policy. Feeling insecure they are so many times a perfect set-up for this type sharkster, which we think rates among the lowest forms of crooks.

We talked to a person the other day who had taken out one of these fancy sounding policies. In fact, it sounded so good that he had dropped a good average one to take it. Pretty soon he had to go to the hospital and showed to have a more or less lingering type trouble. The company paid that bill but right off canceled him out. In order to get back into his original company he had to be restricted on that ailment.

Know your salesman, take a good look at the bargains. Better still, let your favorite hospital look it over before you pay for it. Our old folks deserve the best.

If the speaker is ignorant of his subject before he tackles it, you can just about bet your bottom dollar that he and his audience will still be befuddled when it is over.

A friend of mine was telling about a speaker whom he had heard recently. He gave his subject read his text, and admitted that he knew nothing about it. . . .

For almost an hour he proceeded to try and prove his point; not his text, not his subject, but the fact that he knew nothing about the subject.

Not long ago we heard a speaker say that when he knew what he was going to say, he could preach a sermon in 30 minutes, but when he didn't, then it would most always take an hour.

Another preacher uses this little prayer often: "Lord, fill my mind with worthwhile stuff . . . and nudge me hard when I've said enough."

It is not alwas the loudest sermon that is heard the best.

A loaded truck makes less noise than an empty one.

A good speech is like a pie. We need two crusts, the introduction and then a good ending. Also, like a good pie, we need something juicy in between.

I always feel sorry for the speaker when he has trouble getting started, sorry for the audience when he has trouble getting stopped.

On a trip to New York, a woman was struggling with some heavy suitcases when a young sailor offered to help. Her gloves hid her two-month old wedding ring, and he was quite attentive. When they reached the bus stop, she told him she was married. He look at her for a moment and then grinned.

"Well, ma'am," he returned in a Texas drawl, "there may be a 'No Trespassin' sign on that pasture—but the scenery sure is nice!"

If you want to enjoy the scenery on that trip you plan to take, better drop by and let us check your car and fill 'er up with that good Chevron gas.

Down Memory Lane IT HAPPENED HERE

40 Years Ago—

Taken from the Files of The McLean News, 1920
Moody Tackitt
Newspaper editors seldom find it necessary to write up their own weddings. This seems to be because most of them marry before they go into business for themselves, and also for the reason that editors do not marry often, and when they do the majority of them stay married. But this week it happens to be the News editor's good fortune to have to write up the wedding. He tried to get the local and society editress to tell you about it, but she refuses.

Until last Saturday afternoon "she" was Miss Bernice Tackitt, who is well known to most McLean folks, having taught in the public school last year. She is the daughter of Mr. and Mrs. J. W. Tackitt of Denton, and is a niece of Mrs. T. N. Childress and Mrs. C. T. Tipton of McLean. Just why this excellent young woman considered the News man a desirable person for a life partner puzzles The News as much as it does you, gentle readers, and we give up any attempt to explain it as a hopeless job.

The ceremony took place at the home of the bride's parents, in the presence of the immediate family and a few relatives and friends of the bride. Rev. J. L. Morris, pastor of the First Methodist Church, officiated.
Cesar-Turner
On Monday morning, at the home of the county judge in Canyon, Mr. Cesar of Detroit, Mich., and Miss Clara Turner of McLean were united in marriage.

Miss Clara is the daughter of Mr. and Mrs. J. Lee Turner of this city, and is well known to McLean people, having lived here for a number of years.

These young people will make their home in Detroit. The News extends heartfelt congratulations.
Kachelhoffer May Make Test for Oil

I. X. Kachelhoffer of Joliet, Ill., who has been here for several days looking after land interests, announces that a test for oil will likely be made on his property east of town some time this year by Knox Oil Co., which he organized for the purpose.

There will no doubt be other tests drilled in this vicinity some time this year, as landholders in different directions from town are

blocking up, and looking for somebody to make a drilling contract.
Groom Wins from McLean
One of the best games of baseball played on the local grounds was the contest between McLean and Groom on Friday of last week, in which Groom defeated McLean by a score of 5 to 4. This is the first game the local team has played this season against a line-up that is rated as being formidable.

Ross Biggers pitched a good game, allowing only four hits. S. Bowen did some mighty good work as catcher. Rice, who succeeded in getting one hit during the recent game with Heald, went to bat in the first inning and made a home run, bringing in a score ahead of himself.
Local fans are highly pleased with the showing our team is making to have started so late in the season.

** I BELIEVE—LORD HELP OTHERS TO BELIEVE

By Jesse Leonard, Pastor First Baptist Church

A skeptical young man was the only passenger on a bus. A minister got on at a stop. The young skeptic decided to have some fun, so he went and sat in the seat behind him and said, "Do you believe the Bible is true?" "Yes, sir, I do." "Do you believe the story about Jonah being swallowed by a whale and after three days being vomited alive?" "Yes, sir, I believe it. When I get to heaven I am going to ask Jonah all about his experience." "But suppose Jonah isn't in heaven, what then?" "In that case, I shall let you ask him."

I believe in the Bible for the following reasons:

1. The comfort it gives troubled souls.
2. The influence it has had on man, nation, and community.
3. The unity it has. Forty men wrote this book as they were moved by the Holy Spirit. These men were of various vocation and locale. It was approximately fourteen hundred years in its composition.
4. The relationship to men of importance.

The satisfaction and peace I find in it for myself. "Search the Scriptures" and then "Be ye doers of the word and not hearers only."

Young Persons Starting Work Should Get S. S.

Happy days are here again! The youngsters have bolted from the door for the last time at the sound of the bell—the vacation bell. Amarillo Social Security district manager, Hal Geldon, said this week, "Hundreds of young men

and ladies all over the Panhandle have already made contacts with prospective employers for summer vacation work. Hundreds more will do so before the summer is over."

Geldon pointed out that many of these youngsters will be working for the very first time. He cautioned each of them to contact their local post office to obtain an

application for a social security card. "It is important," he said, "that these young men and women show the social security card to the new employer immediately upon getting the job. This will help insure the accuracy of their social security insurance accounts and will mean full payments to them and their families in the future."

Homemaking Class Makes Pampa Visit

Wednesday, June 8, marked an exciting day for the summer homemaking students of McLean High School. They were guests of the Pampa College of Hairdressing and Beauty Culture. All 19 girls and four sponsors received free hairdos, facials and manicures. Three of the students received free per-manents.

The girls were served refreshments and given a guided tour of the school. The girls and their sponsors expressed thanks to the school and Mrs. Gladys Davies for the courtesies shown them.

Quotable Quotes

LYNDON JOHNSON: Premier Khrushchev did not intend for the summit to be a success when he went there, and he used the U-2 incident to break it up and now, unless we are very careful, he will use it to try to divide our country.
