City, School Election Filing Periods Open

APRIL VOTING IS SLATED IN McLEAN

Filing for positions on the McLean city commission and board of education is now open, with elections scheduled for early April.

Three posts are to be filled on the city commission—mayor and two aldermen and two school trustees are to be elected.

The city voting will be held on Monday, April 1, while the school balloting will be on Saturday, April 6.

Filing of candidates for both elections will be at city hall.

Deadline for filing of city candidates was set for March 2 in a special meeting of the city commission last Friday.

Filing for school trustee ends on March 7.

30 Days Before
Regulations require that the filing periods end 30 days before the election.

City officials are elected to two-year terms, and school trustees serve three years.

School board members whose terms expire this spring are Sammy Haynes and Leslie Darsney. Positions to be filled in the city election are those held by Mayor John C. Haynes, Alderman Boyd Meador and the late Alderman Ruel Smith.

Ercy Cubine will serve as judge for the city election, and officials in the school election will be Mr. and Mrs. Homer Abbott and Mrs. E. L. Price.

Bucket Brigade Re-Set for Saturday

March of Dimes Collections Rise

Collections for the annual March of Dimes in McLean had grown to about \$510 Wednesday, with the Bucket Brigade scheduled Saturday expected to add a considerable amount to this total.

The Bucket Brigade each year is one of the best single fund-raising projects for the MOD.

Through much of the day Saturday, members of the Lions Club will carry buckets along U.S. Highway 66 through downtown McLean to give travelers and local residents an opportunity to contribute.

The Bucket Brigade was scheduled for last Saturday, but cold weather forced the postponement for a week.

Watch the Weather
Charles Cousins, city MOD chairman, said Wednesday the event definitely would be held, unless severe weather again hits this area. Lions have been given their assignments for the brigade, with each to work one hour during the day.

Contributions to the Mothers March staged last week have climbed to \$326.74, and there is a possibility of even more.

The marching mothers left envelopes at residences where no one was at home, in order for contributions to be sent in.

Sponsored by P-TA
The Mothers March was sponsored by the McLean P-TA, with Mrs. Harold Fabian, president of the organization, serving as chairman.

Mayor John C. Haynes is chairman of the Bucket Brigade.

The Coffee Days being held at various places over the city also are raising funds for the March of Dimes. The Coffee Day last Friday at city hall brought in \$26.

Cousins said none of the other places where Coffee Days were held have turned in their proceeds, but these should help increase the amount of contributions.

WIND TOPPLES MOTEL WALLS

McLean and the entire Texas Panhandle were put back into the deepfreeze for the third time this year Tuesday night, and thermometer here dived to an even zero.

Still, it wasn't as cold as in the two previous cold waves, when the mercury skidded to as low as minus-7 degrees.

Weathermen predicted that the temperature would drop even lower Wednesday night, with some warning due today.

The low reading for the past week here came Saturday morning, when the official thermometer maintained by the City of McLean showed a minus-3 degree.

The cold front moved in Tuesday on stiff winds, which caused some damage in McLean.

Two-Weeks Delay
The north walls of five new units under construction at the Dixie Motel were blown down by the winds. Frank Going, owner of the motel, said there was no bracing on the walls, and a "puff of wind" toppled them over.

As a result, his plans to have the new units open for use may be set back a couple of weeks. Still, Going feels the project can be completed in April.

Some snow flurries also accompanied the cold weather but there wasn't enough moisture to measure. So the total moisture to date in 1963 still stands at .01 inch.

Last year was almost as dry by this date, with only .29 inch recorded.

A total of \$620 has been donated to the McLean volunteer fire department to be used toward the purchase of the new truck put into use recently.

Fire Chief Boyd Meador said Wednesday the department wishes to thank all who have donated to the new truck.

He reported that about \$2,000 is still owed on the truck, but added: "We will get it paid for this year, if contributions keep coming in."

Contributions to date include: B. T. Watt, \$25; John B. Rice, \$25; Brent Chapman, \$15; Kid McCoy, \$25; Hugh Grogan, \$25; Olen Davis, \$25; Charles Cousins, \$10; Mrs. Nida Green, \$10; Harvey Hudgins, \$50; Southwestern Bell Telephone Co., \$20; M. T. TIGERS LOSE TWO GAMES

The McLean Tigers couldn't get their offense to working the past week, and as a result lost two important District 2-A battles.

Tuesday night, the Bengals were cold as the weather as they fell 45-36 to the Memphis Cyclone.

Last Friday, a surprisingly tough group of Lefors Pirates clipped the local District 2-A defending champions 47-43.

The Tigerettes were idle Tuesday, since Memphis doesn't have a girls team, but they managed a 42-28 victory over the Lefors Pirateettes last Friday.

Play Here Friday
Next outings for the two local squads will be Friday night, when they entertain Canadian in a pair of district games. The Tigerettes start the evening at 6:30.

On Tuesday of next week the McLean teams travel to Wellington.

Derrith Welch was held to only 15 points in Memphis Tuesday by the rangy host cagers. He still was high-point man of the game.

Eddy Windom of McLean was second high with 13. Don Woods hit eight.

Memphis led 11-7, 25-15 and 32-21 at the quarter marks.

In a B-team game, George Green paced McLean with 13 points, but Memphis still managed a 27-26 win.

Welch Hits 29
Against Lefors on Friday Welch dropped 29 points through the hoop, despite close guarding by the Pirates. Woods had seven, Windom five and Ronnie Hunt two. (See TIGERS, Page 5)

Band Boosters To Meet on Monday

The McLean Band Boosters Club will meet at 7:30 p.m. Monday in the band hall, according to Director Jim Boyd.

Boyd said that it is especially important for all high school band mothers to attend the meeting.

Boy Scouts Are Collecting Papers

The McLean Boy Scout troop needs 1½ tons of newspapers to sell in its fund-raising effort, according to leaders of the group.

Residents were asked to save their newspapers for the Scouts. Persons having papers they desire to contribute to the drive were asked to contact Ellison Motor Co. or bring them by Ellison's.

The papers will be picked up, if residents desire.

Just Between Us *by JBU*

Don't you ever think Our Town—and its most talked-about industry—isn't just plain famous throughout the Panhandle, and off the High Plains as well.

Especially are we McLeanties well known among the Panhandle bankers and others who keep their eyes on the area's economy.

While attending the savings bond planning meeting at the Amarillo Club Tuesday night, we had the opportunity to visit with a number of these bankers.

And, without exception, each of them wanted to talk about Marie Foundations. Naturally, we were pleased to discuss this favorite subject of most.

—JBU—
But we didn't didn't get to talk nearly as much about McLean as we wanted to. We would have loved to tell them more about our city, and the fact that we have no intention of stopping with one industry.

Our Town has much to offer about any kind of plant looking for a home.

One item always examined by industry is the financial condition—and, of course, the tax rate—of a city or town.

There especially does McLean shine.

Even we were shocked at the fine condition of the city and school district.

The bonded indebtedness of each is approximately \$85,000. As of last report, the city had some \$21,000 in its interest and sinking fund, plus \$17,000 more in government bonds drawing interest. The \$17,000 will be used to retire the city bonds.

Then, too, there are the many fine churches, transportation facilities, large number of paved

Cotton Allotment Release Deadline Set for March 4

March 4 is the deadline for Gray County farmers to release their 1963 cotton allotments or to request that released cotton be re-appropriated to their farms.

Miss Evelyn Mason, county Agricultural Stabilization and Conservation Service office manager, reported this week that the March 4 date is much earlier than the deadline for this same action last year.

"If you will not plant your cotton allotment this year, please check with us on releasing it," Miss Mason asked area farmers.

"If you do not plant 75 per cent of the allotment (unless your farm is in the soil bank) or release it, you will lose some of your cotton allotment for next year. The county will also lose cotton history, if your allotment is not released or planted."

Notices showing base acreage for corn, barley and grain sorghum and the payment rates for these crops are to be mailed to county farmers "very soon," Miss Mason said.

Feb. 1-March 22

The date for signing up in these programs will be from Feb. 1 through March 22.

Further details on the programs will be provided as soon as the ASCS office receives the information.

Miss Mason said farmers will have a base on each commodity that was planted on their farms in 1960-61, but they can divert from the total base and plant one crop instead of the other as they wish.

"Final dates to remember," listed by Miss Mason, include:

Jan. 31—To place any 1962 commodity in CCC loan.

Feb. 15—To request a "new grower" cotton allotment.

March 4—To release 1963 cotton allotment; to request additional cotton for a farm.

May 1—To destroy excess wheat acreage.

Merchant Marine Open to Applicants

Congressman Walter Rogers of Pampa announced today that Jan. 31 has been set as the deadline for accepting nominations of candidates for the U.S. Merchant Marine Academy.

Rogers is entitled by law to nominate 10 qualified applicants from the 28-county area of the 18th Congressional District.

He announced he will receive applications for nominations up to the Jan. 31 deadline.

The Merchant Marine Academy, one of the five federal academies, trains young men for careers as officers in the nation's Merchant Marine. Its four-year college program leads to a BS degree, a U.S. Coast Guard license as a third officer or third assistant engineer in the Merchant Marine, and a commission in the Naval Reserve.

Successful nominees will attend the academy beginning with the school year opening this fall.

Congressman Rogers said prospective applicants seeking more detailed information about the program of the Merchant Marine should contact his office or write to the academy's training representative, Maritime Administration, P. O. Box 32948, New Orleans, La.

Class Meetings Are Completed

Parents of McLean High School freshmen met Tuesday night with Jerry Day, guidance counselor, to discuss the results of psychological tests the students took in October.

It was the third such meeting held during recent months for this purpose. Meetings for the parents of sophomore and junior students were held earlier.

Day said he felt the results of the meetings were satisfactory. Any parent who was unable to attend the meetings is invited to contact Day for an appointment to discuss the test results.

Jo Wood of Denton visited her parents, Mr. and Mrs. R. T. Wood, during the weekend.

WASHINGTON AND
"SMALL BUSINESS"
 By C. WILSON HARDER

In a recent poll conducted by the National Federation of Independent Business, 76% of the nation's independent business and professional people voted in favor of cutting off all foreign aid to countries that do business with communists.

Probably one of the great centers of the forthcoming Congress will be the groundswell of indignation over the mollycoddling of communism as evidenced by the results of the ballot quoted above.

In the last session of Congress, there was started a strong revolt against State Dept. domination which has long been a factor in U.S. public affairs.

For one thing, a major cut in foreign aid appropriations was made. For another thing, restrictions were placed on the type of aid that could be given to foreign nations. All of this met with strong opposition from the State Dept.

And now, throughout the land, there is a grass root uprising of sentiment quite contrary to State Dept. wishes.

Rather loosely organized, but apparently effective groups, nonetheless, are carrying on a boycott movement against the sales of goods made in communist nations.

The State Dept. attitude is that the people should not interfere in these matters, but let the State Dept. look after the people's interests.

But there seems to be a great reluctance to accept this doctrine. Somehow the American people have gained the impression it was only a mighty public outcry that forced the action which prevented Cuba from having the means of waging an atomic attack.

And even though this situation was only a few days away from becoming a reality, the State Dept. had done nothing to head off the danger.

Whether the people are right or wrong on this matter, they have apparently taken a position.

And this attitude will perhaps be the most powerful force at work in the forthcoming new session of Congress.

Congress is showing more and more an inclination to listen to grass roots opinions, despite partisan affiliations or connections.

This Congressional inclination augurs well.

It would seem apparent that so long as the people continue to take an active interest in what is going on in Washington, there will again be a government of the people. It may be ironic, but it also may well turn out in the long run that Castro unwittingly did more to restore democracy to the United States than any recent figure in history.

STATE CAPITAL
Highlights
AND Sidelights
 by Vern Sanford
 TEXAS PRESS ASSOCIATION

AUSTIN—(Special)—Serving as governor of Texas should be a snap for John Connally.

Any man who can wage a rigorous, 12-month campaign for governor, such as he has done, reorganize the state government, plan and participate in all the ceremonies he has been through since his election and inauguration, and assume all the allied responsibilities related thereto . . . should find the task of being governor a cinch.

It seemed like half of Texas was in Austin to see the first mass turnover in state government since Jimmy Allred took over from "Ma" Ferguson in 1935.

Man of the hour was, of course, John Connally! Bus loads of people, both from his old hometown of Floresville and his latest hometown of Fort Worth, came to Austin for the festivities that surrounded his inauguration as governor.

Most of them were here by inauguration eve when nearly 5,000 people packed Austin's Municipal Auditorium for the Democrats' "Victory Dinner," rated as the biggest seated dinner in the state's history. It was sponsored by the State Democrat Executive Committee. At \$25 a plate, it netted the party \$100,000 and put it on its feet, well-behaved.

Gov. Connally recommended that the Legislature quickly determine whether the screwworm eradication program is in trouble. Result was a hurriedly called hearing, attended by about 30 legislators and as many livestock producers and animal health officials.

Eradication supporters told legislators that the program reduced screwworms by 70 to 90 per cent its very first year, but the \$5,000,000 spent to date will be wasted unless the job is finished. It is viewed as a three-year program.

Three-fifths of the money spent so far has come from federal funds, and two-fifths from the livestock producers.

The \$12,000,000 program is a true, matching one: Uncle Sam will continue his payments toward the \$6,000,000 he promised, so long as the producers and the state combined are matching his payments.

So far, the state has paid nothing into the program. But the Texas Animal Health Commission has urged an immediate appropriation of \$1,400,000.

Gov. Connally has stated that he would ask for such an emergency appropriation if the Legislature learns that the program is in danger.

SMALL-TOWN BOOST PROPOS- ED—U.S. Congressman Wright Patman's worry that an "overwhelming percentage of the smaller towns and rural areas of East Texas are going downhill" is shared by at least two legislators.

Reps. Joe Cannon of Mexia and H. G. Wells of Tulla spread their concern over economic ills in East Texas to rural areas all over the state. And they have come up with a scheme to boost the morale and economy of rural counties.

Under their plan, counties with less than 45,000 population would receive a two per cent refund of the sales taxes collected by them. This money would go to county judges, who in turn would distribute it to city councils to be used to advertise for new industries and offer incentives to industry.

Wells estimated that 200 counties would be eligible to receive a sales rebate, and that \$1,000,000 would be distributed the first year.

Main object, Wells said, would be to save counties which recently had some prosperous small towns but which have suffered from an exodus of citizens who have moved to metropolitan areas.

New Arrivals

Mr. and Mrs. Joe Van Zandt of Austin are the parents of a girl, Jana Beth, born Jan. 3. She weighed 7 lbs., 5 oz.

Mrs. Van Zandt will be remembered in McLean as the former Betty Dickinson.

The baby's grandparents are Mr. and Mrs. J. P. Dickinson of Sayre, Okla., and Mr. and Mrs. C. J. Van Zandt of Whetler.

The Van Zandts have one other daughter, Diane Lynn.

Mr. and Mrs. Frank Rodgers and Mrs. Cecil Randall and son, Joe, went to Amarillo Monday and returned Cecil Randall home from the Veterans Hospital, where he had been a patient for two weeks.

TELEPHONE TALK
 by George Newberry, Manager

AND NOW IT'S 1963

Do you ever get the feeling the years are going by faster than they used to? Seems as if I'd hardly become acquainted with 1962 when 1963 came barging in.

Personally, I'll miss 1962. It was a good year, but I know in time I'll get to know 1963 and like it just as well. A new year, like a pair of new shoes, takes some getting used to.

LOOKING BACK

In the telephone business, there's not much time for looking back. There's too much ahead.

Still, I'd like to tell you a few highlights of 1962 as I saw them from my job with Southwestern Bell.

The most spectacular telephone news in 1962 was—you guessed it—Telstar, the world's first active communications satellite. If ever there was a doubt about which nation leads the world in modern communications—Telstar settled the issue with a bang.

Not all telephone progress in 1962 was so dramatic. Many unspectacular—but vitally important—advances were made in providing you with better service.

For example, we worked hard on stormproofing the long distance network by placing more telephone cables underground and using more microwave radio relay. This helps us beat the weather by providing insurance against breaks, leaks and other malfunctions.

Another project was our cable "pressurization" program. Dry air is pumped through telephone cables and helps keep moisture out if a cable develops a leak. Also, the reduced pressure helps us spot the trouble and fix it—usually before it affects your service.

Another big improvement in 1962 was the addition of many tiny voice amplifiers to our telephone lines. These "voice boosters" put new pep in your phone. Whether you telephone across town, across the state, or across the nation, your voice comes through clear and strong.

In McLean, telephone progress was made in 1962 with the addition of eight more telephones here. This means you can now reach more people with your telephone—making your service more valuable to you than ever.

ONE LAST THOUGHT . . .

Our never-ending goal is to improve your telephone service and make it more valuable to you. And a happy 1963 to you from all of us at Southwestern Bell!

Call by number. It's twice as fast.

Equal Rights

Senate constitutional amendments committee set public hearing for 7 p.m., Jan. 30, on a proposal to give women equal legal rights. Proposed constitutional amendment was submitted by Sens. W. T. Moore of Bryan and Bill Patman of Ganado.

VOTE AGE TARGET—Rep. V. E. "Red" Berry of San Antonio wants the minimum voting age in Texas lowered to 18 years.

Berry has filed a bill which would propose a constitutional amendment allowing the Legislature to make the change. Present law requires voters to be 21 years of age.

COST-CUTTING BILL—A bill to create a commission to study ways to cut costs of Texas' government is on file in the House of Representatives.

Rep. R. H. Cory of Victoria said his bill would create a "little Hoover" commission composed of 12 members. Three members would come from the House, three from the Senate, and six would be appointed by Gov. Connally, who also has recommended formation of the commission.

Cory said his bill has been passed by the House on five different occasions but never passed the Senate.

STOCKMEN RAISING FUNDS—Texas Livestock Auction Association is sponsoring a drive to help raise the \$1,000,000 still needed to meet the Southwest Animal Health Research Foundation's \$3,000,000 to stamp out the screwworm.

Texas' screwworm eradication program will come to a halt in March unless the million is raised.

Little Hazel, five years old, came home from a friend's party with a long face. Her mother, noting her distress, asked what was the matter.

"Some of the others took home nice prizes," she complained. "Why didn't I get something?" "The others won the games," Mother explained. "But don't I get something for appearing on the program?" Hazel asked.

Everything piles up handsomely in a Chevy II including savings

Imagine a low-loading wagon roomy enough to handle most anything you can heft—and still trim enough to slip into cramped parking spots. We imagined it, built it and called it Chevy II. Made it as dependable as a wagon can get. And made it so it'll keep piling up savings over the years. Those show up in the way

this one goes and goes on a gallon. They grow with brakes that adjust themselves. An exhaust system that lasts longer. And a Delcotron generator that keeps battery reserve power up. Want to hear more? How about a low price, natty interiors, Body by Fisher craftsmanship—and a talk with your Chevrolet dealer soon!

NEWS from YOUR COUNTY AGRICULTURAL AGENT

TEXAS A & M COLLEGE EXTENSION SERVICE

By FOSTER WHALEY
FARMERS TAX GUIDES
 We had only six copies left to leave at the American National Bank. Elmo Whaley reports the following picked up these Farmers Tax Guides, 1963 edition:
 J. L. Andrews, Ross Collie, E. T. Duncan, Elmer Immel, W. E. Rainwater and Everett L. Watson.
 We are placing an additional supply at the bank again this week. We ordered an additional 50 copies and have received them. This will make a total of 150 tax guides distributed.
DATES TO REMEMBER
 Jan. 31—Employers must file Form 943 for Social Security taxes on wages paid during 1962 for agricultural labor and pay tax due.
 Also last day to give employees a statement of wages paid and Social Security tax withheld during 1962.
 Feb. 15—Final filing date for farmers, if you did not file an estimate by Jan. 15.

SOIL TESTING
 Mrs. James Noel was by our office on Monday asking for information on fertilizing a hay meadow. We recommended the taking of a soil sample and sending it to our soils laboratory down at Lubbock.
 She picked up the necessary cartons and information sheets to be sent with the sample. Cost of this service is a very nominal \$2 per sample submitted. We would recommend it.

MEMPHIS COTTON CLASSING OFFICE
 Cotton is still king in this area. According to the Memphis cotton classing office, a total of 200,482 bales of cotton have been classed for the 1962-63 fall-winter season. They are 98 per cent complete. At \$150 per bale, this is about \$31 million worth of cotton. Thirty-one million dollars add much to the economy of any area, regardless of the source of its origin.

 The family of Mrs. M. J. Williams

Farming and ranching are still the most potent force on the economy of Texas and the nation. In 1930, about 40 per cent of the population of Texas lived on the farms and ranches. Today, about 10 per cent live on the farms and ranches.
 What has happened to the other 30 per cent? They are working in jobs related to agriculture, either supplying the farmers in the long list of increasing technical needs or they are processing the farmers and ranchers products.
 The 30 per cent are engaged in what we call Agri-Business, a field that has sprung up since 1930. Therefore, we still have about the same percentage of people engaged in agriculture, even though they have moved to the cities and towns.

 Phillips 66 Service includes much more than just filling your gas tank. For example, the attendant cleans, not only your windshield, but all your windows. He checks the tires, radiator, and battery. Even brushes out inside your car. It's all part of our "Hospitality on the Highway".
 Drive in at stations where you see the Phillips 66 Shield. You'll be treated right, and so will your car!

Mrs. Brown Hostess To Pioneer Club

On Jan. 19, the Pioneer Study Club met in the home of Mrs. Morris Brown. Mrs. R. T. Ayers, as hostess, served refreshments of ambrosia salad, wafers, cheese, banana nut cake and coffee.

Mrs. Brown gave an interesting report on "This Is My Life." This book is an intimate, behind-the-scenes autobiography of Eleanor Roosevelt, who lived to become one of the greatest figures of her generation. The many wonderful qualities and accomplishments of Mrs. Roosevelt were pointed out to show this truly is "A Woman's World."

Club members present to hear this report were Mesdames Sinclair Armstrong, R. T. Ayers, Jim Boyd, Wilson Boyd, Morris Brown, S. A. Cousins, Erey Cubine, Dale Glass, Jim Hathaway, Guy Hester, Creed Lamb, Jack Riley, Alice Short Smith, Bob Stubbfield, Lee Welch, Ted Raines, Jerry Day and W. E. Bogan.
