governor's committee has set up with proposals to withdraw state money from segregated school districts and to create a fair employment commission and department of housing.

reaching recommendations in other areas were offered to the 50-member Governor's Committee on Human Relations. He also urged that a permanent commission with increased power be set up in the civil rights area.

sub-committee panel was there are 36 Texas school districts which have at least one all-Negro school. State finance about 80 percent school operations.

Abner McCall, president Baylor University, Waco, led unsuccessful fight to defeat recommended cut-off of "punish children", not desirable officials, McCall the remedy for segregated schools lies in federal courts.

recommendations of the committee, when finally drafted will go to the Legislature, many obviously will face a reception. Among the proposals were these:

Adoption of state housing building codes;

Open housing legislation and aid on low-cost housing;

Review of school textbooks eliminate those which are racially or historically biased.

Free lunches in school for state minimum wage law with federal scales (now \$10 an hour);

Strengthened vocational-technical education;

Establishment of a civil service mechanism;

Review of methods of juror more rigorous selection and new procedures for officers;

Study of more human crowd control methods, prompt punishment for police brutality and enhanced community relations programs for police and doctors.

VOTERS UNDER 21?
Secretary of State Martin Dies indicates there could be as many as 395,000 voters under 21 added to Texas registration if the federal 18-year-old act stands.

State's chief election officer of the Bureau of Census and density of Texas studies existing there are approximately 594,000 Texans who are 18 and under 21. About 10 percent of eligible voters of ages now register and in 1970 elections about 75 percent of those registered actually vote.

Supreme Court will rule on the constitutionality of the new act before January 1, its effective date. He said he hopes ruling will be created for states. In event the statute ruled unconstitutional after Ober, tax assessors would be to go back and remove the added names of 18 to 20-year-olds.

CITIES SPEAK
U.S. District Judge Jack Ross in Austin held that a suit libel and slander brought by the Richmond State School superintendent against state health-mental retardation officials posed no substantial federal question.

State has appealed to the U.S. Court of Appeals in New Orleans June 12 ruling by Federal Judge Reynaldo Garza at Nashville taking jurisdiction Platoro Inc, suit claiming it recovered from Padre and shipwreck.

U.S. Supreme Court set arguments for July 22 on whether irregularly schedules tourist buses need state permits operate outside city limits.

AG OPINIONS
Coordinating Board, Texas College and University System has no statutory authority to fix enrollment limits for public colleges and universities, Attorney General Martin has held.

In other recent opinions, Martin concluded that:

*Texas Department of Corrections is authorized to make application for a permit to conduct a barber school and receive a license on meeting rules.

*Sheriff of Harris County is authorized to seize goats running at large in the county and impound them at fee.

APPOINTMENTS
Raul Tijerina Jr. of Brownsville and Dr. Joe W. May of Edinburg were named to Pan American College, Edinburg, Board of Regents by Gov. Preston Smith.

Governor reappointed Gilbert Gresham of Centerville and Dr. Jess Boyd Heath of Madisonville to the Trinity River Authority Board of Directors; Dr. John T. King of Austin of the Governor's Committee on Aging and named Jack H. Drake of Weslaco to the Good Neighbor Commission of Texas.

PATROLMEN STAY
Governor Smith concurred in the Department of Public Safety's recommendation that High Way Patrolmen Jerry Byrd and Kenneth Stafford be retained on duty in the Mathis area.

Mathis City Council had asked that the patrolmen be removed for beating prisoners. San Patricio County grand jury later found the officers guilty of no wrong and handed them commendation for "Excellent work."

Smith produced a thick file of eyewitness affidavits stating the officers were trying to restore peace and that the prisoner who was "slapped" was struggling and cursing.

Mathis Mayor Winston Bott took strong exception to the finding and said he would appeal to federal agencies for investigation.

McLean Resident's Sister Is Buried In Amarillo

Funeral services for Miss Kate E. Wilson, 78, of Amarillo, were held Monday at 2 p.m. in the Blackburn Shaw Memorial Chapel, Amarillo.

Dr. J.W. Bowen, Pastor of the Polk Street Methodist Church, officiated. Burial was in the Llano Cemetery, Amarillo.

Miss Wilson died late Friday in Colorado Springs, Colo. She had taught school in Amarillo for 35 years and was head of the math department of Amarillo High School for four years before her retirement. Miss Wilson was the sister of Homer Wilson of McLean.

She was a member of the Retired Teachers Association, the University Women's Club, the League of Women Voters and the Wesleyan Service Guild. She was a member of Polk St. Methodist Church.

Survivors other than her brother Homer are, three sisters Mrs. W. H. Quattlebaum and Miss Mannie Wilson of Amarillo, and Mrs. Georgia Wolfe, of Pampa.

Museum Open House Big Success

Open House at the museum was a great success. Nearly 100 guests signed the registry and all were complimentary of what they saw.

Music on the Claxtonola was given by Gay Simpson, Kathy Raines, and Annie Reeves.

Organ music played by Mrs. John Dwyer and Mrs. Lattie Lochridge of Iowa Park, while Jan Coleman played the piano. It is planned to have another Open House on the fourth Sunday in August. It you missed this one, come in August.

Parachute Meet Planned On Behalf Of Girlstown

An invitational parachute meet is being planned for July 18-19 at Perry Lefors Field in Pampa, in behalf of Girlstown USA, of Borger, Texas. This two-day meet is being sponsored by friends of Girlstown in cooperation with various civic organizations throughout a four-state area.

Sky-diving clubs from as far away as Orange, Massachusetts, and Colorado Springs, Colorado, have been invited to participate in this event, and more than one hundred sky-divers are expected to be present. A total of \$1000.00 in prize money and twenty-six trophies will be awarded in the two-day meet.

Two objectives will be served by this activity: one, to acquaint more people in the Texas, New Mexico, Oklahoma and Kansas area with the work being done; now is the time for all good men accomplished at Girlstown in Borger, and, secondly, to offer any financial assistance to be gained from the meet to further the work at Girlstown.

On September 23, 1967, at the request of several civic groups and individuals in the Borger area, the Board of Directors of Girlstown, USA, accepted the donation of 26 acres and one dormitory that would accommodate six girls situated four miles east of Borger on Highway 152. The building was remodeled and six girls were moved from Whiteface to the Borger Extension. In 1969, a larger building was donated to the Borger Extension by the Amarillo Jaycees, and it was moved on the property and completely remodeled. This building was opened to eight more girls October 1, 1969. This makes a population totaling fourteen girls, two sets of houseparents, and the director.

The philosophy of Girlstown is a success. Kindness, love, harmony--all these things provide an environment for unwanted.

MCLEAN GROUP ON THE BANKS OF THE THAMES RIVER WITH THE HOUSES OF PARLIAMENT IN THE BACKGROUND

LOOKIN' BACK

by Vera Featherston Bark

This week I have asked Mike Haynes, journalism major on Texas Tech and 1969 graduate of McLean High School, to write my column. He is lookin' back over his recent trip to Europe. Below is his story and I think a good one:

TRIP TO EUROPE

June 5-25 1970

Europe! It's a place that people dream of visiting, a place where countless battles have been fought, where so many works of literature and art have been created, where thousands of cathedrals and castles have been built. All of these things seem so remote, as if they belong only in history books or on movie screens. Yet for three weeks, 12 people from McLean, Texas, with some 30 other travelers from the Texas Panhandle, drove in a bus for 3000 miles through 10 countries, often standing in the same spots where such men as Martin Luther, Winston Churchill, Napoleon, and Julius Caesar made their contributions to mankind.

People from McLean making the trip were Mrs. Mary Tom Riley, Mrs. Billie Mae Cash, Dick Back, Gary Ellison, David Haynes, Jenny Haynes, Mike Haynes, Thacker Haynes, Joel McCarty, Stephanie Riley and Ted Simmons. Also in the McLean group were Margie Chastain Harvey Julian and Mrs. Helen Lette of Lefors, Vickie Welch of Kress, Dina Nichols of Canyon, and Sharon Barnes of Dumas. About 150 other Texans mostly students, toured Europe in four other buses. The tour was conducted by Wholesale Tours International.

The entire Texas group left Dallas on the night of June 5, arriving in London after a 10-hour flight. From that moment until the June 25th return, life was a hectic cycle. Breakfast (which usually consisted of hard bread and coffee) in the hotel came at 7-8 a.m. Then there was the matter making sure all luggage was on the bus. About 50% of the time, there were no porter, meaning the boys on the tour had to carry suitcases. Then came the long ride on the bus, with dinner stop, and the arrival in the next city just in time for supper. This was after our guide had stopped to ask directions had stopped to ask directions had stopped to ask directions.

London was a cleaner city than I had expected. This is largely because of the many parks and gardens in the city. Hyde Park and Regent's Park spread out for acres, giving London a less crowded look. Of course, this is not true of the whole city. Probably the most impressive sight of London is Westminster Abby. Almost any famous Englishman a person can think of is buried there. Our group walked over the graves of Charles Dickens, Charles Darwin, and countless others.

We certainly couldn't have left London without witnessing the changing of the guard at Buckingham Palace, and we did see the spectacle, although the crowd made it difficult.

We saw so many things in Europe, it is difficult to remember them all. The White Cliffs of Dover were clearly seen on our return from France to England. The canals of Venice, the mountains of Innsbruck, Austria, the lakes of Lucerne and Geneva, Switzerland, the view of the English countryside from our plane windows, the cathedral in Worms, Germany, where Martin Luther was tried, all were fantastic.

At the end of our 3-week tour, we had visited ten countries: England, France, Switzerland, Italy, Vatican City, Austria, Liechtenstein (62 square miles), Germany, the Netherlands, and Belgium.

But visiting these places was only half the fun. The other half was making new friends and living with them for three weeks, helping out when someone didn't have enough francs or shillings joking about our guide's accent, and just talking about things back in the U.S.A. The trip was a great success, and much of the credit for it must be given to our sponsors: Mrs. Riley, Mrs. Greenwood and Coach Anthony of Spearman, and Mrs. Kay Cash of Dallas.

Now that we're back, people may ask, "How does it feel to see all the places you've only read about before?" Each person who went has his own answer. All that I can say is that it makes the great men and places of history seem more real. It is a little easier for me to visualize Leonardo da Vinci as a real person when I can stand in the same places he stood. And I feel a little more like this is one world when I see that Paris, Rome, and London, are all just places where people live, and they are all built on plain old ground made of dirt just like the dirt that blows around here in West Texas.

But no matter how much closer the great achievements of the world seem after actually seeing them, there is still that distant feeling, a feeling of awe that these great things were done by human beings. With all our modern technology, we have nothing to compare to the creations of these men.

However great the art and history of Europe, everything is not perfect in other areas. Although in most of the places we visited, living conditions were modest compared to the average Texas home. Only the rich have the luxuries we consider commonplace. And although people in the countries we passed through have a certain amount of freedom, it was evident that nothing yet can surpass U.S. democracy. I would guess that most Americans would say of Europe, "It's a great place to visit, but I wouldn't want to live there."

When someone is thinking about going on a trip, they often

rides most mornings. The most popular entertainment spots were the discotheques in Florence, Heidelberg, and London.

When we were in a city for more than one day, a local guide took us on a tour of the city. In Paris, we had a day to see the Eiffel Tower, the Louvre, the Arch of Triumph, Notre Dame Cathedral, and the many beautiful statues of the city. An evening boat ride on the Seine was outstanding, with Notre Dame and Eiffel Tower looking very impressive at night.

The tour of Geneva was exciting as well as educational. We saw a great monument to the leaders of the Reformation, the headquarters of the old League of Nations, and the main offices of several other international organizations (such as the Red Cross). But the members of our tour group will probably remember Geneva for another reason.

Our busdriver, a Dutchman, turned onto an old street which was too narrow for easy passage. When he stopped to survey the situation, he left the bus in a position which blocked the view of an Englishman who was trying to draw a church on the opposite side of the street. The Englishman became very irate, and would have come to blows with our busdriver if one of our sponsors had not separated them.

Once this crisis was over, we proceeded up the street until we came to a narrow turn. Several cars on each side of the street prevented us from making the turn in the bus, so some of the boys filed out to move them. Of course, this was easier than it may sound because of the small size of most European cars. After moving the cars and some tricky maneuvering by our busdriver, we made the turn, only to find another. We had to repeat the process several times before we could find a wider street.

Rome was less exciting, but very productive historically. Our group walked in the Colosseum, stood among ruins at the Forum, and visited the Vatican, home of the Pope. The Sistine Chapel, painted by Michelangelo, was unbelievable. Most of our group rode the bus a short distance from Rome and swam in the Mediterranean Sea. Parts of Rome were beautiful, but Rome and other cities of Italy seem dirtier than other places in Europe. The cleanest country and the one with the most beautiful countryside was Switzerland. The Alps were breathtaking, and the mountain air was very refreshing after being in large cities. Many members of the tour group chose Geneva as the prettiest place in Europe.

Another scenic country was Germany, along the Rhine River. We took a boat ride a few miles on the Rhine, and the castles perched on hilltops on each side gave a fairy tale atmosphere to the area.

London was a cleaner city than I had expected. This is largely because of the many parks and gardens in the city. Hyde Park and Regent's Park spread out for acres, giving London a less crowded look. Of course, this is not true of the whole city. Probably the most

ask a person who has been there for advice on where to stay, what to buy, etc. The only advice I will give is that if you ever have any chance to visit Europe, by all means, do it!

Every person should see Europe. One of the best ways of understanding ourselves is to see how others live. No matter what doubts you may have, if you go to Europe, you won't regret it.

Medicare Approval In Jeopardy

The McLean Hospital was informed recently that unless they acquired three more registered nurses before September 1, 1970, it would lose its "Medicare Approval". This means if this should happen people entitled to medicare in-patient hospital benefits could no longer receive these benefits in this hospital. This decision is the result of the Social Security Administration deciding to enforce the statutory requirements of Medicare regulations. In the past they have been lenient. Around the clock nursing care by L.V.N.'s administration is no longer acceptable. The hospital administration has made all efforts to acquire the necessary personnel to maintain a facility to accommodate the people of this community and is continually doing so, but has had little success. Now it must call on help from the community to unite all efforts to solve the problem. In doing so each citizen should ask himself "what does the McLean Hospital mean to me and my community?"

Everyone should check their long list of acquaintances and try to recall someone who is a registered nurse. Try to think of jobs that can be offered to the husband of a registered nurse. Consider training registered nurses through scholarships. Write your congressman Bob Price, 507 Cannon, House Office Building, Washington, D.C.

It is believed if everyone puts forth a sincere effort we can solve our immediate need and keep our hospital.

Jerry Tucker from Shamrock, will be holding services each Tuesday evening at 7:30 in the McLean Nazarene Church.

Dorothy Clawson is a patient at St. Anthony's Hospital at Amarillo this week for surgery.

Texas Dept. Of Safety Advises To Take Caution July 4th

Colonel Wilson E. Speir, director of the Texas Department of Public Safety, today cautioned motorists that traffic accidents during the Independence Day period from 6p.m. Thursday July 2, to midnight Sunday, July 5 may claim as many as 46 lives in Texas.

"I am urging all Texans to adopt the 'Drive Friendly' theme during this holiday and to avoid unsafe practices which contribute to accidents," Speir said.

The DPS director listed the chief factors contributing to traffic crashes as speed too fast for conditions, driving while drinking, and driving on the wrong side of the road, often as the result of fatigue.

Speir said all available Highway Patrolmen will be on duty during the holiday period, augmented by uniformed officers from other DPS services. Also, the DPS will conduct its "Operation Motorcicle" program of tabulating and announcing traffic accidents three times daily, in an effort to bring about increased awareness of the added dangers of holiday travel.

In addition to Department of Safety efforts, trained truck and bus industry safety men will take to the roads to participate in a unique Holiday Road Patrol.

Some 45 to 50 road patrol cars manned by experienced members of the Texas Council of Safety Supervisors will be on the highways to aid motorists in trouble. The program is sponsored by the Texas Motor Transportation Association, a statewide organization representing the motor carrier industry.

Junior Chamber of Commerce organizations in many parts of the state will operate rest stops for motorists along heavily traveled highways.

News media, business, and trade groups are also participating in the traffic safety program and the DPS director lauded their contributions.

"We especially appreciate the close cooperation of newspapers, the broadcast industry and the outdoor advertising companies in helping focus public attention on safe driving," Speir added.

Past experience and the present trend of traffic deaths indicate that 46 persons will lose their lives in traffic accidents during the 78-hour period of the July 4 weekend, announced Major C.W. Bell of the Texas Department of Public Safety for this area.

Major Bell stated the "Operation Motorcicle," a special emphasis program designed to focus attention on the added dangers of holiday travel, will be placed in effect from 6:00 p.m. Thursday, July 2, 1970, to midnight Sunday, July 5, 1970.

All deaths resulting from traffic accidents will be tabulated by the Texas Department of Public Safety through out the period, and the totals will be announced daily as a means of keeping safety uppermost in the minds of the motoring public.

"It is a known fact that July 4 traffic is more hazardous due to crowded conditions of the highways. Add driver misbehavior, misjudgment, negligence and the drinking of intoxicating beverages while driving is like a giant exploding fire cracker," Bell said.

A week-end visitor of Mr. & Mrs. Luther Petty was their son, Francis L. Petty of Midland.

Rural Accident Reduction Safety Week Goal

Governor Preston Smith and the Texas Safety Association have issued a call to Texas farm and ranch families to step-up their efforts to make agricultural enterprises safer.

Governor Smith, issuing a proclamation designating July 19-25, as Texas Farm and Ranch Safety Week, urged all farm and ranch families to become more safety conscious.

The Governor, in his proclamation, called attention to the fact that farm and ranch accidents in Texas continue to increase, despite a decline in the rural population and advances in agricultural technology.

"We must renew our efforts to prevent accidents among our rural residents as they go about the hazardous task of producing the commodities needed by the entire population," said Smith.

He also urges rural families in Texas "to take advantage of modern technology designed to remove many of the hazards in agricultural enterprises."

Farm and ranch families, should develop fire protection plans for their homes. He said such protection plans should include planning of fire escape routes, correcting inadequate electrical wiring, and the installing of fire extinguishers in building, on motor vehicles, tractors, and other self-propelled equipment.

During 1968 33 persons were killed in tractor accidents, and of those 33, eighteen were the result of tractor turnovers," he said.

Accidents involving firearms were also singled out as a major cause of farm and ranch deaths during 1968. 49 persons were killed in accidental shootings. Only sixteen deaths were the result of hunting accidents.

The Texas Safety Association also listed a number of other positive measures farm and ranch workers and families could take to make their lives more comfortable and accident free.

1. Keep all guards and shields in place when operating machinery and power tools of any kind.
2. Be prepared for emergencies such as fire, flood, blizzard, windstorm, sudden illness and injury.
3. Wear gloves and recommended protective clothing and chemical respirators when applying pesticides.
4. Keep pesticides in a suitable storage area, inaccessible to children and animals.
5. Protect small children and others by covering tank openings, and fencing dangerous areas such as manure lagoons and farm ponds. Have life-saving flotation devices available at all ponds.
6. Check electrical wiring and make sure you are using the proper size fuses.
7. Spare your hands on rough jobs with heavy-duty gloves. Wear rubber gloves when handling farm chemicals, petroleum products and other solvents. Use good hand lotions to prevent any chapping.
8. Observe state law and equip all your farm machinery that has occasion to be moved on the highway with the Slow Moving Vehicle emblem.

Mrs. Sue Herndon Is Honored With Bridal Shower

Mrs. Durward Herndon of McLean, former Miss Sue Phillips, daughter of Mr. and Mrs. Carl R. Phillips of the Heald Community was honored by a miscellaneous shower of Friday, June 12, from 7p.m. to 9 p.m. at the Hospitality Room of the American Nat'l Bank in McLean.

Hostesses were Mmes. Troy Corbin, Autry Lankford, A. E. Carpenter, O.O. Tate, O.Z. Tindall, C. F. Keen, W. P. Flowers, Cicero Turpen, Miss Betty McDonald, Lewis McDonald, K. S. Rippey, Jerald Tate and Ott Moore.

A theme of orange, gold and olive green was accentuated in decorations. The table was laid with a cloth of gold lace and centered with a floral arrangement carrying out these colors. Appointments were in milk glass and silver.

Hostesses alternated at the punch bowl. The honor guest was the recipient of many useful and attractive gifts which were on display.

'Tail-gating' Dangerous

"Tail-gating" can set off a violent chain reaction that nobody wants, reminds the Texas Safety Association.

At least one car length for each 10 miles per hour of speed is recommended and TSA says a driver will need every inch of that space to avoid trouble.

Visiting the F. M. Earles of Magic City and the J. S. Ryan's of McLean this week, was Mr. and Mrs. Robert L. Oakley

Mr. and Mrs. Orville Branson and Jerry of Oklahoma City visited the E. M. Bailey home over the weekend.

Denise Bailey returned back to her home at Amarillo after spending the weekend with her parents, Mr. and Mrs. E.M. Bailey.

LOOKING FOR GOD

Some say you find God just as well in a garden, in the woods, on a golf course as in a church — that God is everywhere. Be honest about it.

Are you not more apt to think of weeds, or mosquitoes, or your shot than you are of God? And after all, you have made outing to seek pleasure.

But when you go to church, it is with the specific intention worshipping. Here you engage in prayer, praise and thanksgiving. Here you mingle with people who are seeking God and come to feel His presence. In the quiet beauty of a church you find few outside distractions, and you know that this place is dedicated to the service of God.

For peace and happiness which comes from really feeling His presence, worship in the house of the Lord this Sunday — make it a regular practice.
