## Just Between Us

We hadn't planned to take up the subject of politics again right away in JBU... especially after having the riot act read to us over last week's column.

Two of our most faithful subscribers (they always fuss about it, but eventually pay up) charged at us like a pair of angry bulls after reading remarks printed here. Bryan McPherson brought along postcards (Dewey Pennington and Herbert Guill) when he came bursting into the office Friday morning, demanding that we cancel his subscription.

It was only a short time later that Skinny Johnston caught us peacefully sipping a cup of coffee at the McLean Cafe.

Bryan was in an uproar because we had the audacity to suggest that voters should cast their ballots for anything but a Democrat. He finally agreed to stay on the subscription list, if we would black out in his copy of the News anything we say about Pres... er... Sen. Barry Goldwater in the future.

We do have a few remarks to make about our candidate for Chief Executive, but we'll dutifully follow the terms of our compromise with Bryan.

And now to fulfill Skinny's wishes...

A favorite subject might be the flowers in the Johnston yard. They are beautiful, especially for the first year at a new home.

But we would imagine that Maggie deserves quite a bit of the credit, too. At least when we look south from our house we see that green-thumbed "better half" of the Johnston family out in the flower beds about as often as not.

Skinny sort of has it in for us anyway, we believe. We had raved as much about U-3 bermudagrass, he decided to give it a try and planted down something like \$4.50 a pound for the seed.

Now he's cussin' and fussin' because he has to mow the fast-growing grass twice a week, and it's almost a full-time job keeping the determined runners out of the flower beds.

Oh, well, you can't win 'em all.

After a couple of trips to Big D in the past few weeks, it's easy to understand why the Dallasites and other big city folks are on the push-rush all the time.

They must spend a big part of their waking hours waiting for the left turn arrows on the traffic lights.

McLean lost a fine family during the past few days, when the Lee Weathers moved to Kress.

During the four years they were here, Lee, Roberta, Derrith and Vicki made many friends and had just about settled down for a long stay... when the opportunity for advancement presented itself.

In his chosen profession as school administrator, Lee felt he should take the promotions as they come. Kress has a rapidly growing school system, and when the board of education there beckoned he thought the opportunity was too good to turn down.

We hope he's right, and at the same time wish him the best of luck.

Pass for a moment during the holiday Saturday and give some thought to the real meaning of the Fourth of July... and call the observance by its true name—

**BOUND FOR EUROPE:** Two McLean youths are in this group of 4-H Club members shown boarding a plane at Dallas' Love Field as they leave on the first leg of a 21-day trip to northern Europe. They are among 25 Texas 4-H'ers who are making the tour to learn about foreign agriculture and tell the story of American agriculture. The group is being accompanied by Marshall E. Rouch, assistant

state 4-H Club leader. Pictured here are (left to right) Left line—Stephen Boyd Maddox, Pampa; Joe Lyn Magee, McLean; Jake Hess, McLean; Bruce Gossett, Dumas; Richard Lee Kiker, Allison; Mary Edlin, Channing; Maura McAndrews, Hereford. ## WORKSHOP IS THIS MONTH FOR THE FFA

SW Public Service Sponsors Event In Amarillo July 7-9

More than 100 Future Farmers of America and vocational agriculture teachers will attend the second annual FFA Electric Workshop, sponsored by the Southwestern Public Service Co. at the Episcopal Church Conference Center in Amarillo on July 7, 8 and 9.

McLean representatives at the workshop will be Eddy Finley and Gary Hester. Nelson Christie, vocational agriculture teacher here, will be one of the adult leaders.

There will be five courses of instruction offered at the workshop, and the student selected as outstanding in each course will be awarded a trip to the National FFA convention at Kansas City.

Each boy who completes the conference successfully will receive a farm electrification medal from Southwestern Public Service Co. The courses of instruction to be offered are farm wiring, electric controls, farm motors, electric heat and lighting.

**Outstanding Instruction**  
The course instructors include W. E. McCune, professor of agricultural engineering at Texas A and M University, who will teach controls; Bob Jaska, Texas Education Agency, College Station, instructor for the farm wiring section; Kenneth Owen, Lubbock, and Joe Luscombe, Amarillo, lighting instructors; Jamie Gage, Guyton, heating course, and Royce Kelly, Lubbock, and Wayne Jennings, Roswell, N. M., will instruct the motor section.

Owen, Luscombe, Kelly, Jennings and Gage are all associated with Southwestern Public Service Co. The program for the FFA Electric Workshop, which was the first to be held in the nation at its inaugural session last year, was coordinated by Walter Labay of Plainville, area supervisor for vocational agriculture, and Sam Thomas, agricultural development manager for Southwestern Public Service.

## Holiday for Most

# Independence Day Will Be Saturday

Independence Day will be celebrated all across America for the 188th time Saturday, and residents of McLean are due to join in the observance.

No special programs are scheduled here to mark the occasion, but most residents will take a holiday for the traditional Fourth of July celebration.

Almost every business and office in the city will be closed all day. However, city hall is to be open as usual Saturday morning, with employees taking a holiday a couple of days later.

The city hall will be closed all day Monday, July 6.

As usual on such holidays, there will be no window service at the McLean Post Office.

Acting Postmaster Frank Simpson said Wednesday that otherwise mail will be handled as usual during the day. Incoming mail will be placed in the boxes, and outgoing mail will be sent on its way.

Many McLean youngsters got the jump on the holiday early in the week and started shooting fireworks. City officials cautioned them to be extremely careful with the fireworks.

Celebrants were also reminded that there is a city ordinance prohibiting the shooting of fireworks inside the city limits.

Persons traveling on the highways during the holiday period were advised by the Texas Department of Public Safety to drive with special care.

The department estimates that 32 persons will meet death in traffic accidents during the period from 12:01 a.m. Friday until midnight Sunday.

## Autograph Party Is Held for Mrs. Back

In Wichita Falls

Mrs. Vera Featherston Back was honored at an autograph party Saturday at Lovelace Book Store in Wichita Falls to introduce her new book, Feathers.

She was accompanied by Wichita Falls by her daughter, Mrs. Mabel Rives, and granddaughter, Di Ann, of Idaho Falls, Ida.

It was the first book store party held for Mrs. Back since the publication of her book last spring.

Several former residents of McLean attended the event, including Mrs. Phil Myers, the former Shirley Johnston; Mr. and Mrs. John Leitner and daughter, Susan, of Burkburnett; and Mrs. Lottie Lochridge of Iowa Park.

## Earlier in Aspermont

Also present was a well known author, Ann Spence Davis, who wrote "Wishes Are Horses" and other children's publications.

The preceding weekend, an autograph party was held for Mrs. Back during the Old Settlers Reunion at her hometown of Aspermont.

Mrs. Back will review her book at a meeting of the Old Timers Club Friday at Lovett Memorial Library in Pampa.

All residents of the Panhandle area for 50 years or more are invited to the club meeting, which begins at noon with a covered-dish luncheon.

## 491 SIGN UP FOR PROGRAM

A total of 491 Gray County farmers have signed up to participate in the 1964 wheat program, according to Miss Evelyn Mason, manager of the Agricultural Stabilization and Conservation Service in Pampa.

Payment for diversion and certificates will be made together, Miss Mason reported, and it probably will be this fall when payments are made.

The starting loan rate for wheat is \$1.28 per bushel. There is a premium for wheat high in protein and sedimentation and for heavy wheat.

Miss Mason said that if the wheat is stored in an elevator, warehouse charges will be deducted.

## Allotments in July

The 1965 wheat allotment is expected to be mailed to farmers in July, the ASCS office manager said.

Normal yields for the 1965 program will be based on the production for the five-year period of 1959 through 1963.

Producers wishing to prove their production will need to use this five-year period. Those having already proved the yield in the past would need to prove the 1963 year to be averaged with that evidence already presented to the ASCS.

Appeals should be filed within 15 days from the date the producer receives his notice of normal yield and payment rate.

The ASCS office in Pampa will be closed Friday for the weekend observance of Independence Day.

## HEAT DOESN'T STOP JUBILEE

Hot weather failed to slow the ever-popular Derby Town Jubilee Saturday night, and a host of entertainers were on hand to perform.

Fans were taken to the high school auditorium to make the audience more comfortable for the show.

J. L. Parr of McLean won the door prize, a wall plaque donated by McLean Hardware and Furniture.

The McLean Junior Chamber of Commerce will present another Jubilee Saturday night, July 11, starting at 8 p.m. in the auditorium. Admission is 75 cents for adults and 35 cents for children.

**Blanket for Prize**  
Marzell's Fabrics and Fashions will furnish the door prize, a thermal blanket.

Appearing on last Saturday's Jubilee were:

The Tackett Family of Skellytown; the Rhythm Makers, Erick, Okla.; Eddy, Keith and Doug, Pampa; Becky Durning, Skellytown; Shirley and Alice West, Groom; Dave Rogers and the Panhandle Ramblers, Amarillo; Bill Henley, Shamrock; the Chevelles, the Flies, E. J. Endsley, M. K. Marshall, Craig Cunningham, George Terry, Buck Hewley, Bob Stubblefield, Conald Cunningham and Joe Crockett, all of McLean.

## May Bond Sales Total \$17,650

Sale of Series E and H savings bonds during May totaled \$17,650 in Gray County, according to George B. Cree Jr. of Pampa, county bond committee chairman.

This brings cumulative sales for the year to \$138,503, representing 21.9 per cent of the county goal of \$630,000.

Savings bonds sales in Texas for the first five months of 1964 totaled \$63,926,046, amounting to 42.6 per cent of the state's goal of \$150 million.

## Shamrock Couple To Conduct Revival At Assembly of God

Revival services will begin Sunday at the McLean Assembly of God Church, Rev. L. R. Green, pastor, announced Wednesday.

Preaching for the meeting will be Rev. Franklin A. Burns, evangelist from Shamrock.

Special music also is to be presented at each service by Rev. and Mrs. Burns.

Rev. Green said services are planned at 7:30 p.m. each day through the following Sunday.

The public is invited to attend.

## Woods Reports For Duty With the Army

David Woods, son of Mr. and Mrs. June Woods of McLean, reported Wednesday to Fort Sam Houston near San Antonio to begin a two-year tour of duty with the Army.

His wife and young daughter, Rhonda, accompanied him to San Antonio. Mrs. Woods is the former Fern Grimley, daughter of Mr. and Mrs. Wallace Grimley.

Woods, who holds a second lieutenant's commission, will attend a four-week officer orientation school at Fort Sam Houston before receiving his duty assignment.

He was graduated in January from Texas A and M University with a degree in veterinary medicine, and has been associated with a veterinary clinic in Clovis, N. M., since that time.

## WILSON RITES HELD FRIDAY

Last rites for John E. Wilson, 51, were held Friday in the Shamrock First Christian Church.

Rev. C. B. Melton, pastor of the Shamrock First Methodist Church, officiated and was assisted by Eugene Henderson, minister of the Church of Christ.

Interment was in Shamrock Cemetery.

Mr. Wilson, whose parents are Mr. and Mrs. Roy Wilson of McLean, died at 7:10 a.m. Thursday in Shamrock General Hospital after a brief illness.

A resident of Shamrock since 1946, he was a car dealer there.

He was born on Aug. 7, 1912, in Carendon and served in the Coast Guard during World War II. He was a member of the First Christian Church.

In addition to his parents, Mr. Wilson is survived by his wife, Polly, and two sisters, Mrs. R. H. Dennis, Midland, and Mrs. Lige Travin, Pampa.

## School Board Will File on Delinquents

The McLean board of education has adopted a policy of filing suits on all taxes as soon as they become delinquent, effective July 1.

Members of the board passed a resolution to this effect at a recent meeting.

The resolution instructs the tax collector to file the suits as soon as any school tax becomes delinquent.

## Durham Challenges Packer in England

Dr. Ralph Durham of Texas Tech, who spoke to the McLean Lions Club recently on trends in the livestock industry, has quite a bet going with a large meat packing firm in Great Britain.

Dr. Durham, head of Tech's animal husbandry department, criticized England's heavy hogs during a visit there last year.

An "insulted" packer bet Durham \$25 that the United States didn't have better hogs.

Durham accepted the bet and last month shipped a 240-pound frozen carcass from the Tech herd to England. The British packer will select his best hog and bone both out to settle the bet.

The pig Dr. Durham sent to England weighed 240 pounds at slaughter, probed 0.7 inch of back-

fat and was 32.75 inches long. She was sired by a boar that was a graduate of a testing station in Iowa, where Durham played a large part in starting the state's first testing station when he was at Iowa State University several years ago.

According to Durham, other pigs sired by this boar have cut well, one yielding 64 per cent lean cuts of its carcass and 34.7 pounds of closely trimmed ham at live weight of 200 pounds.

A littermate of the pig shipped to England is owned by John M. Haynes of McLean.

The registered Hampshire, Star Lad, is now located at the Triangle Ranch 11 miles north of McLean. Haynes purchased the boar from

## SGT. CRAIG IS TOP NON-COM

Alanreed Soldier Wins AF Honor

FORT WORTH—(Special) Senior Master Sergeant Billy J. Craig, son of Mrs. S. T. Greenwood of Alanreed, has been named "Outstanding Non-commissioned Officer of the Year" at Carswell Air Force Base here.

He is now qualified for special competition leading to the Strategic Air Command (SAC) top NCO honors and selection of a command representative to the Air Force Association convention in Washington, D. C., in September.

Sgt. Craig, an aircraft maintenance superintendent, was chosen for the honor in recognition of his outstanding service as chief of an Air Force team assigned to a special B-58 Hustler modification program.

**Constant Alert**  
His unit helps SAC keep the nation's intercontinental missiles and jet bombers on constant alert.

The sergeant, who is a veteran of 17 years service, is a graduate of Alanreed High School.

Sgt. Craig's wife, Louise, is the daughter of Mr. and Mrs. Howard Lincecum of 107 S. Crockett, Cameron, Texas.

## Jackie Don Bailey Boise City Coach

Jackie Don Bailey, son of Mr. and Mrs. Jack Bailey of McLean, has been named junior high coach at Boise City, Okla., for the 1964-65 school term.

Bailey, a graduate of Panhandle A and M College, was a teacher in the Boise City school system the past term.

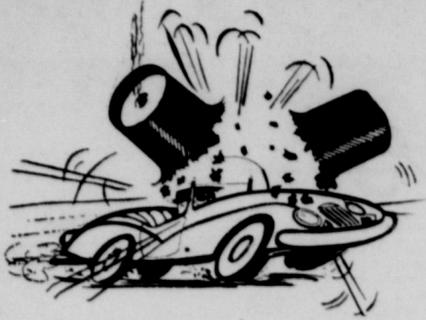

He and his wife, the former Jo Carolyn Wood, daughter of Mr. and Mrs. R. T. Wood of McLean, are currently enrolled for the summer term at Southwestern State College in Weatherford, Okla.

Bailey is working toward his master's degree and Mrs. Bailey is nearing completion of her studies for a bachelor's degree.

**BANG:** The Texas Department of Public Safety appeals to all drivers to mark this Fourth of July weekend as a time to review their driving habits in light of the fact that traffic accidents are at an all-time high. Serious accidents are more frequent in holiday periods, and it is estimated that 32 persons will be killed in traffic from Friday, July 3, through Sunday, July 5. This doesn't have to happen. Tragedy can be averted by not taking chances and by driving in accordance with laws of safety.

## 'OPERATION MOTORCIDE' WILL BEGIN AT THURSDAY MIDNIGHT

While the drivers of Texas are making plans for Fourth of July trips, the Texas Department of Public Safety is getting ready for "Operation Motorcide," a three-day vigil of tabulating all traffic deaths in the state.

Maj. Harry Hutchison, regional commander of this area for the DPS, reported today the state is approaching the mid-point in the year amid definite indications that traffic deaths will hit an all-time high again in 1964.

"If we continue to take lives at the present rate, 1964 will become the most deadly year in Texas history for traffic fatalities," he said.

### Four McLean Girls Participate in 4-H County Dress Revue

Four girls represented the McLean 4-H Club in the County Dress Revue in Pampa last Friday.

Judy Saunders entered a blue and white striped cotton shift. This was Judy's first revue to enter. She received a blue ribbon.

Toni Willoughby modeled a blue and white cotton shift with ruffled sleeves, belted in at the waistline with a white belt. Her dress scored a red ribbon.

Debra McClellan's moss green suit's cloth shift received a blue ribbon. Debra accessorized her shift with yellow and orange leather roll belts and flats to match.

Marsha Hunt looked cool in her tangerine and white cotton sundress. The small checks were broken with woven tangerine flowers that formed a stripe. She received a blue ribbon.

There were 47 girls to model in the dress revue at Lovett Memorial Library. The Gray County Home Demonstration Council honored the girls with a tea following the revue.

The tea table was decorated with white styrofoam four-leaf clovers with green "4-H" in the center of the leaf. Honey-suckle was used at the base of the clover leaves. Lime punch, white sugar cookies and green-white mints served as the refreshments.

Mrs. Marvin Holman, local home economist and future teacher of home economics at Miami High School, was narrator and described the girls' costumes.

"Motorcides" at this time are over 150 more than at the same time last year, and considering the trend of increased accidents and casualties, there is every reason to expect that traffic deaths will exceed the previous all-time high in Texas of 2,729 in 1963.

"Only 271 more deaths in 1964 than in 1963 will make a total of 3,000 lives lost on our streets and highways in one year, an increase for the year of 10 per cent over 1963," Hutchison said.

Deaths in traffic this year have consistently been in excess of 15 per cent over 1963, an indication that the 3,000 mark will be surpassed.

Hutchison said that "Operation Motorcide" will be placed in effect from 12:01 p.m. Friday, July 3, and continue through 11:59 p.m. Sunday, July 5.

In order to focus attention upon the added dangers of holiday travel when traffic is at a peak and as an integral part of the operation, which calls for maximum enforcement, additional personnel from the DPS will augment the regular Highway Patrol force.

These patrolmen have been instructed to be extra alert for and direct their enforcement efforts toward those violations that are most often factors in traffic accidents. In addition every effort will be made to remove drinking drivers from the highway.

"Since police traffic supervision cannot cover the entire street and highway system in the state every minute of the day, the big hope for safe driving and accident prevention rests with the individual motorist," Hutchison concluded.

### Fishing Improvement Made at McClellan

Reducing an over-supply of crappie in Lake McClellan near here was one of several highlights of a Panhandle restoration program described in the July issue of Texas Game and Fish Magazine.

The block of 28 Panhandle counties became the wildlife proving ground for the program now embracing all of the state.

According to the Texas Parks and Wildlife Department, the sprawling Panhandle area itself naturally benefitted from the pioneering projects, based on modern management techniques.

The reduction of the crappie population in Lake McClellan, located some 16 miles west of McLean, was a successful effort to avoid a stunting trend.

Mrs. Vina Meier of Amarillo visited her sisters, Mrs. Forrest Switzer and Miss Eunice Stratton, Saturday night and Sunday.

(Continued from Page 1)

Independence Day. Now more than ever before we Americans need to cherish our independence . . . our freedoms . . . our wonderful way of life. And we need to become more alert to the forces at work now trying to destroy the very freedoms that made our nation the bulwark of democracy.

Too long have we been complacent and taken those freedoms for granted, until the time appears not too far off when they will be no more.

At every opportunity we should express our fears to those whose job it is to protect our freedom—the people's elected representatives who make up the United States Congress.

People of the 18th district are fortunate to have a man like Walter Rogers of Pampa as their congressman. Never can it be said that he is a "yes" man for the Democratic administration.

As the federal government reaches ever farther out to grab at more power, Rep. Rogers is becoming more alarmed, as indicated by his column this week and in the past.

He often strikes out at bureaucrats, who seem to be taking more and more of the powers which actually belong to the Congress. Of course, most of this authority being exercised by the various government agencies was voted by Congress itself at times when such action appeared necessary.

Now, though, Rep. Rogers feels it is time these acts were voided and the House and Senate re-gained those powers . . . before the voice of the people can be heard no more.

Perhaps he will be able to alert others of his fellow legislators to danger before it is too late.

We admire Rogers, too, for his stand against the civil rights bill. He explained that ALL American citizens are guaranteed their rights by the Constitution and Bill of Rights, and no such bill is necessary.

He did not oppose the civil rights measure because he doesn't like the Negro. He is against it on constitutional grounds, because he feels the bill will take away an awfully big slice of our basic freedoms.

And while we're on the subject of civil rights, don't swallow everything you hear and read about the sorry state of affairs in Mississippi.

That state isn't nearly as bad as the so-called "news analysts" would have you believe. These news people write their stories usually in an office in Washington, D. C., New York or some other northern city.

They can't possibly know the conditions in Mississippi without staying there for a time.

Mrs. Vera Featherston Back gets a bit shaken, as most people do, when her name is misspelled. Newspapers often want to print her name as "Black."

So she got a little riled recently and wrote the editor of one: "Get the 'I' out of my name!"

We thought for a time the contractor was going to dig to China in preparing the foundation for McLean's new hospital. Apparently they have stopped short of this, however.

Work is progressing on the structure, and we should see the building begin to take shape before long.

Also on the way toward completion is the new Church of Christ parsonage being erected just north of the church sanctuary on North Clarendon.

Bryan McPherson tells us he plans to build an attractive duplex soon for rental purposes. This should help to relieve the housing shortage.

Mr. and Mrs. Joe Reeves and children of Abernathy visited during the weekend with his parents, Mr. and Mrs. Boyd Reeves.

### July 4 Celebration Slated at Clarendon

CLARENDON—(Special)—The annual celebration held in Clarendon July 2, 3, 4 promises to be one of the best ever this year, and the people of the surrounding area are extended a warm invitation to come and take part in the festivities.

The first performance of the rodeo gets underway the night of July 2, followed by a performance the night of July 3 and two performances July 4. Also included in the many activities will be a free barbecue on moon July 1, a western parade, Old Fiddlers Contest, Old Settlers Reunion and dances nightly.

Art Orth and his Country Gentlemen of Pampa will provide music nightly for dances to be held at the rodeo grounds during the celebration.

The Outdoor Entertainment Association has added a new section of bleachers at the rodeo grounds as well as a new dance floor. Dances will also be held at the Legion Hall down town with music by Emmett Allen and the Sunset Ramblers.

Mrs. Tom Tröstle visited recently with her parents, Mr. and Mrs. Hamby of Quanah.

Mrs. Charlie Vineyard and children visited several days last week with Mrs. J. W. Mechem of Turkey.

## PERENNIAL BROOM WEED

Clifford Allison is having the same trouble with a weed that many other people are talking about as well. It is perennial broom weed.

Last year we had Garlyn Hoffman, range specialist, in the county and had him look at several patches of these weeds. He said they were on the increase over a wide area of Texas. They are doing research at several of the exit stations on how to control them.

He recommended one pound of 2,4-D per acre in a high volume of water (8-10 gallons per acre). He also recommended putting in a small amount of detergent such as Cheer (one pound per 50 gallons of water). He warned against expecting a very good kill.

I have tried this recommendation out personally. I reduced the stand of weeds and apparently the weeds that were left are less vigorous. I estimate a good one-half of them are still present.

A number of people have asked me about this problem. So I thought you would be interested. It's my understanding that Clyde Magee and Truitt Johnson, commercial spray applicators, are to spray Clifford's weeds.

## HESS ON EUROPEAN TRIP

Joe Magee and Jakey Hess are flying all over Europe this week seeing the sights on the 4-41 people-

to-people program. Stephen Maddox from the Grandview community in Gray County is another Gray County 4-41 boy on the trip.

I told the boys before they left I didn't have the names and addresses of any girls in Europe but I did have a few names of some of their mamas. Note to Jack Shelton: Please send my McLean News to my office address this week instead of 805 N. Wells. Sometimes my wife reads this copy.

## CATTLE PRICES

It is good to see some optimism in the cattle market again.

As one veteran market analyst put it, no one seems to know why the fat market has taken such a sharp turn upward.

In my opinion, weather is 80 per cent responsible for the very favorable price rise. It will continue to be the predominant factor throughout the rest of this year. The recent rains covered a very wide area.

Prices had reached the point before the rain came that many 700 to 800 pound grass steers were going directly to the slaughter house. This is the reason that meat imports went off sharply. Prices got to a point that foreign beef importers could not make any money after paying shipping charges and a three cents per pound import duty.

These steers and other grass fat cattle are now being bid on by the same people that were selling a week before the rains.

## Letter to the Editor

Mr. Jack M. Shelton

McLean News

McLean, Texas

Dear Mr. Shelton:

The UPI reported on June 21 that Texas editors and publishers, meeting in Houston, passed a resolution expressing "united admiration and support of Lyndon B. Johnson." The appropriateness of resolving "united admiration and support" by the journalism fraternity, I shall leave to your professional ethics. On the wisdom of such endorsement I shall have to comment.

On Jan. 15, 1963, President Johnson said, "We are going to take all the money that we think is unnecessarily being spent and take it from the 'haves' and give it to the 'have-nots' that need it so much." Years ago, Karl Marx stated the communist law, "From each according to his ability to each according to his need." Surely if I (a dentist) can see the parallel of these statements, the good newspaper editors and publishers of Texas can also see they amount to almost identical statements.

I trust that you, sir, and other members of the Texas Press Association are not so taken by state loyalty to the president from Texas as to disregard your responsibility to your profession and the public. Let us have some objectivity in reporting of the news.

Sincerely,  
John G. Whinery, D. D. S.  
Editor's Note: We're happy to point out that the editor and publisher of the McLean News wasn't among those adopting such a resolution.)

**WALTER ROGERS REPORTS**

**OF SMOKING AND HEALTH**  
 Once again we are confronted  
 with this question: Should not the  
 Congress, composed of the people's  
 elected representatives, make the  
 decisions when sweeping, substan-  
 tial government regulation seems to  
 be called for in the public interest?  
 This week, the House Committee  
 on Interstate and Foreign Com-  
 merce, of which I am a member,  
 began hearings into the relation-  
 ship between smoking and health.  
 The hearings were called to de-  
 termine whether any action by the  
 Congress was needed in the interest  
 of safeguarding public health—and  
 if such action was found to be  
 needed, what approach would be  
 most desirable.

On the third day of the hearing,  
 the Federal Trade Commission an-  
 nounced that it would impose new  
 regulations on cigaret manufacturers.  
 As of Jan. 1, 1965, under the  
 FTC ruling, packages of cigarets  
 will have to bear a warning label  
 that cigarets are hazardous to  
 health and may cause death.  
 A similar warning must be con-  
 tained, under the FTC order, in  
 all cigaret advertising beginning  
 July 1, 1965. If the warning  
 label on cigaret packages seems  
 to be serving the purpose of alert-  
 ing the public to smoking hazards,  
 the FTC will consider requests to  
 abandon the rule as it applies to  
 advertising.

Thus, while the wheels of leg-  
 islative process were beginning  
 to turn toward seeking a solution  
 to the problem, the FTC took it  
 upon itself to settle the matter.

WASHINGTON AND  
**"SMALL BUSINESS"**  
 By C. WILSON HARDER

A great deal of attention is  
 being focused on the plans for a  
 so-called war on poverty.  
 Yet so far, there really has  
 not been developed by those  
 who think big on the public  
 payroll any reasonable guide  
 as to just what constitutes  
 poverty. . . .

Neither have any rea-  
 sonable an-  
 swers been  
 given as to  
 why some  
 people al-  
 ways seem to  
 be afflicted  
 with poverty. . . .

Now, as is  
 well known, C. W. Harder  
 and widely acknowledged by all  
 except by some of these public  
 people paid "big thinkers" many  
 people are afflicted with poverty  
 due to lack of opportunity. . . .

And of course it would  
 be heinous heresy for some of  
 them to point out that a Big  
 Labor monopoly of jobs and  
 apprenticeships have barred  
 employment to many, or that  
 concentration of economic power  
 into fewer hands with the  
 resulting automation has cre-  
 ated the lack of opportunity  
 which leads to poverty. Neither  
 would it be polite for them to  
 point out that big government  
 farm programs have driven  
 many family farms out of busi-  
 ness, and so on, et al, et al. . . .

But what about the people  
 afflicted with poverty because  
 they fail to fit in with any so-  
 cial order. As every small town  
 resident knows, there are al-  
 ways people who just cannot  
 be responsible. . . .

There are those who become  
 addicted to drugs, there are  
 the "winos," there are those  
 who are debilitated by disease.

**NEWS OF CONSERVATION**

R. L. Pugh is developing a con-  
 servation plan on his ranch south  
 of Pampa. He plans to construct  
 several dams to control water ero-  
 sion and distribute livestock grazing.  
 Pugh will also defer pastures regu-  
 larly to improve range condition  
 and native grass vigor.

Next year he plans to control  
 sagebrush to reduce competition so  
 the grass will have a chance to  
 grow.

Irrigation—Rex. McAnelly plans  
 to do approximately 70 acres of  
 land leveling on Moody Farms east  
 of Pampa.

Joe Gordon plans to do 60 acres  
 of land leveling on his farm south  
 of Pampa.

Eakin Brothers are installing  
 929 feet of irrigation pipeline on  
 their farm southwest of Pampa.  
 Irrigation pipeline will conserve  
 water by reducing evaporation and  
 seepage. Pipelines in conjunction  
 with land leveling will also dis-  
 tribute irrigation water more ef-  
 fectively.

Terraces—Standard terraces and  
 diversion terraces are beneficial in  
 conserving moisture and reducing  
 water erosion.

Landowners and operators have  
 two alternatives to use in control-  
 ling water erosion. Terraces can  
 be installed to utilize rainfall and  
 prevent eroded areas; or these  
 areas can be seeded to native grass.  
 Cost-share assistance is available  
 for this type of work.

Contact your local Soil Conserva-  
 tion Service office for further in-  
 formation.

T. D. Anderwald is in the process  
 of springing 51 acres to Midland  
 bermudagrass on his place south  
 of Kingsmill.

Bill Crisp has springed 20 acres  
 to Midland on his farm south of  
 Alanreed.

Others who plan to spring Midland  
 are Drew Ward, D. W. Swain and  
 Elmer Balch.

Clyde Magee has planted about  
 250 acres of cropland to a sorghum  
 cover. Clyde will sow grass in this  
 dead sorghum cover next spring.

Leslie Darsey reports that his  
 farm ponds worked real good dur-  
 ing the recent heavy rains. The  
 pipe drop he had in his erosion  
 control dam operated for two days  
 following the rains.

The pipe drop keeps the spillway  
 from working and releases most  
 of the water through the dam at a  
 slow rate.

Jane Woods and Willie Harris  
 sprayed brush on their farms in  
 the McLean area. Contour line  
 was run for S. K. Rouse who farms  
 northeast of Groom.

A diversion terrace was staked  
 for Glenn Studebaker on his place  
 north of Alanreed. Glenn has done  
 an outstanding job on controlling  
 erosion on this place with a series  
 of dams and diversions.  
**Pointers for Proper Grazing**  
 1. Stock on the basis of avail-  
 able forage instead of so many  
 acres per cow.  
 2. Check the grass crop rather  
 than livestock condition. Animals  
 can live on poor vegetation for  
 sometime before they look bad.  
 3. Provide a forage reserve of  
 cured grass for winter grazing, as  
 well as hay, silage and concentra-  
 ted feed.  
 4. Allow for drought years. They  
 are just as normal as wet years.  
 If you are stocked on basis of the  
 wet years, you will be short of  
 grass more than 50 per cent of  
 the time.  
 5. Check sign for range improve-  
 ment or deterioration.  
 6. Remember that pounds of  
 production rather than number of  
 head count at the market.
