## Disney On Parade Features Snow White To Meet Monday and Seven Dwarfs

Established as part of the Disney realm of classic tales "Snow White and the seven Dwarfs" receives an entirely new treatment in "Disney On Parade," opening on Tuesday, Oct. 3 at the Amarillo Coliseum, for 8 performances. The first feature-length cartoon ever to be produced, "Snow White" made theatrical history in 1937 and was seen by 20 million people during just its first three months of release.

"Disney On Parade" in an all-new and different edition of this record-setting all family arena show, will highlight the magical tale about a beautiful princess and seven delightful little diamond miners in a lavish production number.

"Disney On Parade" is presented by Nawal productions, a partnership of NBC films, Inc. and Walt Disney productions.

Almost 100 Disney characters will appear together in the most original 2 1/2 hour musical arena show ever conceived.

Sequences from Disney's "Snow White" have been adapted for presentation in "Disney On Parade" on a massive storybook screen which introduces each storyline before "coming to life" on the arena stage. The combination of the art of magic, choreography, motion pictures, sound effects, music and special lighting techniques adds up to history-making theatre as a totally new entertainment medium.

In addition to "Snow White and the Seven Dwarfs," the lavish new show will include production numbers from "Fantasia," "Pinocchio," "Small World," as well as a host of familiar Disney characters such as Goofy, Mickey Mouse and Donald Duck.

## Mother's, Inc. To Meet Monday

## Drowning Statistics Compiled By Agency

If you are between 16 and 20 years old, your chances of drowning are higher than they would be in any other age group, according to statistics compiled by the Texas Parks and Wildlife Department.

The Department's Water Safety Education Section studied the water-oriented deaths between Sept. 1, 1970 and Aug. 31, 1971, and determined that the 16-20 years-of-age category was the most dangerous.

The next-most-dangerous age group was 0-5 years of age.

Generally, the older a person gets, the less prone he is, either from experience or susceptibility, to drowning.

Not surprisingly, the spring and summer months produce the most drownings. However, more persons drowned in September than Aug.

The more populous counties, of course, had more victims and more accidents within county lines than the less populated counties.

L. L. Rogers of Amarillo visited friends in Alanreed and McLean on Tuesday. Mr. Rogers is a former resident of McLean.

**She Cares About Their Eating**

(Editor's Note: The follow-  
 ing article appeared recent-  
 ly in the Evening Star and  
 Daily News at Washington  
 D.C. about a former resid-  
 ent, Joellene Vannoy.)

Everybody knows that soli-  
 tary old people often make  
 do with rolls and coffee at  
 mealtime, or even forget  
 to eat entirely. It's Joellene  
 Vannoy's job to do some-  
 thing about it.

On behalf of the D.C.  
 Health Department, this tire-  
 less and artful nutritionist  
 with the Texas accent visits  
 geriatric clinics in public  
 housing projects. She gives  
 short talks and demonstra-  
 tions, explaining how the  
 right food can help control  
 the ills the years bring. She  
 shows how to plan a balanced  
 diet around low-cost foods,  
 and how to work with food  
 stamps. She discusses indi-  
 vidual diet problems on a  
 person-to-person basis.

"What did you have to eat  
 yesterday?"

She writes it all down  
 and then relates it to what  
 she has learned from the  
 doctor and social worker  
 about the patient's medical  
 history and family situation.  
 She's the one who pulls the

The latest news heard from  
 the Earthmans in Florida is  
 that he is at the Boyds and

threads together into a pat-  
 tern of action at the super-  
 market and kitchen level.

A country girl, Miss Van-  
 noy has been helping people  
 cook and eat right ever

since she got her home econ-  
 omics degree from Texas  
 Tech a few decades ago.  
 First she was a food and nu-  
 trition specialist for the De-  
 partment of Agriculture's ex-  
 tension service, working  
 near where she grew up in  
 the Texas Panhandle.

Her career has taken her  
 into 56 countries on five  
 continents. Her 12 years of  
 working overseas were part of  
 the post-World War II rehab-  
 ilitation effort in which so  
 many public and private  
 organizations pooled resour-  
 ces to fight hunger.

Whenever possible, Joellene  
 Vannoy and the people  
 working with her, tried to  
 stay inside the cultural con-  
 tent of the country where  
 they found themselves, using  
 local foods and giving their  
 clients the kind of meals they  
 were used to.

To put her message across,  
 Joellene Vannoy used every  
 possible means of communica-  
 tion. She developed easy  
 recipes and in demonstrations  
 at schools and markets showed  
 how to use them. She appear-  
 ed on TV and spoke on the  
 radio, in Spanish as well as  
 English where the situation  
 called for it.

The knowledge and the  
 communications skills are  
 finely known now. The mis-  
 sionary spirit still burns  
 brightly. If the old people  
 in the D.C. housing projects  
 don't eat well, it won't be  
 Joellene Vannoy's fault.

# STATE CAPITAL Highlights AND Sidelights

by Bill Boykin

TEXAS PRESS ASSOCIATION

The special session of the Legislature got off to a bumpy start last week with Gov. Preston Smith's proposals facing tough criticism.

Critics of the governor's competitive insurance rating bill charged it repeals some of the best provisions of the Texas insurance code.

Sen. Oscar Mauzy of Dallas and others insisted on a state-set ceiling if competitive rating is passed. Senate sponsor, Sen. Mike McKool of Dallas, indicated he would go along with that.

The governor's budgetary control bill met a mixed reaction in its first committee test. Proponents said it would help put "fiscal responsibility" in state government, but opponents claimed it would make the governor a fiscal "czar." The latter were particularly critical of a provision that would let the governor alter agency budget when he found "evidence that the expenditure is not necessary."

Smith assured another lively appointments hassle in the Senate when he nominated his secretary of state, Bob Bullock, to the state Board of Insurance.

Gov. Ben Barnes denied reports that he was trying to line up votes to block Bullock's confirmation by the Senate.

Bullock's name was sent up as a replacement for Smith's longtime friend, Larry Teaver, who was rejected for Insurance Board membership last July by unfriendly senators.

**PARTIES HOLD CONVENTIONS**

Harmony prevailed at both Democratic and Republican conventions, although there was enough controversy at both to make them interesting.

Democratic gubernatorial nominee Dolph Briscoe got his choice for State party chairman (Calvin Guest of Bryan) and was allowed to write the platform about the way he wanted it. In return, he agreed to accept a liberal, Sen. Barbara Jordan, as State Democratic Executive Committee chairman. Sen. Joe Bernal of San Antonio and Mrs. Billie Carr of Houston (liberals and George McGovern backers) and Hall Timanus of Houston (a George Wallace supporter at the June convention) were named to new Democratic National Committee posts. Briscoe may, or may not, have control of SDEC. Some counts evaluated the break-down 26-26 liberals and conservatives with 10 moderates as the balance of power.

Republicans had little to squabble about. They wrote their own state platform and re-elected Dr. George Willeford and Mrs. Malcolm Milburn of Austin as state chairman and vice-chairman.

AG OPINIONS

County clerks are not authorized to issue marriage licenses to two persons of the same sex, Atty. Gen. Crawford Martin held in a recent opinion.

In other new opinions, Martin concluded:

A Texas water corporation and public utility has the right to lay its pipes along the right-of-way of county roads, subject to conditions fixed by law.

A sheriff's food bill for feeding prisoners (submitted to county commissioners) must show the name of each prisoner and each item of expense incurred on the individual accounts.

ANIMAL DISEASE FIGHT FUNDS CLEARED

Texas will receive a \$120,414 federal grant to fight animal diseases. Money will supplement Texas animal health commission's eradication programs aimed at screwworms, scabies and fever ticks.

This year Texas is suffering its worst fever tick outbreak since 1941, according to Commission Executive Director Dr. H. Q. Sibley. Parts of Jim Wells, McMullen, Duval, Live Oak, Kent, Nueces, Leon and Dimmit and counties are under tick quarantine.

Governor Smith also noted Texas is facing its worst screwworm epidemic since 1961, and scabies has struck in several areas.

ENROLLMENT GROWING

Texas college and universities are still climbing, though not as fast as in the early 1960's.

About 454,000 students enrolled in public and private, junior and senior colleges by September 14. This compares with about 438,000 at the same time last year. The Coordinating Board, Texas College and University System concludes there will be about a three and a half per cent increase in enrollments this fall over 1971.

Enrollment in all segments of higher education last year was more than 475,000, and projections by the Board point to about 493,000 this year. While senior college enrollments are up less than one per cent, the communities colleges have an increase of more than 11 per cent in their student bodies.

SUPERPORT AID PROMISED

Dolph Briscoe promised top priority efforts to secure a deep-water superport for Texas.

Briscoe said it is vital to the economy to get a port capable of handling ships with drafts of up to 100 and 120 feet. He said the state is "blessed with having several desirable locations."

Texas industrialists are offered exhibit space on the Queen Elizabeth 2 for a floating trade fair to North Africa, the Middle East and Europe. in 1974.

DOWN MEMORY LANE

10 YEARS AGO

No one apparently was in a position to challenge Roy Billingsley in the race to produce the first bale of cotton here this year.

Slowed but far from stopped by penalties, the McLean Tigers grabbed their first victory of the season last Friday by downing the Groom Tigers 19-8.

Army second Lt. Don H. Brinson, 24, whose wife, Dorothy, lives in McLean, has completed the eight-week officer orientation course at the Infantry School, Fort Benning.

Alan Keen is king and Marilyn McLroy queen of the McLean Tiger Band.

20 YEARS AGO

Sale of the McLean Zero Lockers to Albert Williams of Shamrock was announced this week by A.B. McPherson and Everett Watson, who bought the plant the past summer from John Cooper.

Mr. and Mrs. Bill Matthews are the parents of a girl, born September 21. The baby weighed 8 pounds.

# TOUCHDOWN

TOUCHDOWN . . . we all know the thrill that lifts us to our feet when OUR team scores. We cheer, we sing and shout.

It takes teamwork to put a man over that goal line. The whole team must work together to move that ball down the field . . . "the right way." The guards and tackles must hold the line. The ends must be "on target" to receive passes. The quarterback must know his plays and execute them with speed and skill.

Likewise, in the game of life we need wisdom and strength beyond our individual endeavor. It is essential to receive inspiration and help in order to achieve successfully our goals in life. Your church can provide that faith which leads to everlasting victory.
