VOLUME 70

McLEAN, GRAY COUNTY, TEXAS - THURSDAY, SEPTEMBER 6, 1973

NUMBER 36

## S. Eva Marrs General Services Monday

General services for Mrs. Leuwina Marrs, 88, who died at 1:50 p.m. Saturday at McLean Hospital after a long illness, were held at 2 p.m. Monday in the First Methodist Church. Rev. Robert Brown, pastor, officiated. Burial was in Brock Cemetery by Lamb Funeral Home.

Mrs. Marrs was born in Fayetteville, Ark., in 1884. She moved to Wheeler County in 1920. She married Robert Drew in Montague County in 1902. Mrs. Marrs was a Presbyterian.

## Man W. R. Lowe Died In Miss.

William R. Lowe, 67, of Mr. and Mrs. William R. Lowe, Rt. 1, Antlers, Miss., has been assigned to the Air Force basic training. He is spending his six weeks at the Training Command's Land AF, Tex., he studied the Air Force mission and customs and received special instruction in human relations. Mr. Lowe has been assigned to the Technical Training Center at Keesler for special training in communications-electronics systems. Mr. Lowe attended (Tex.) High School. Mrs. Janet, is the daughter of Mr. and Mrs. Thomas of McLean.

## Course Begin Monday

TSTI Bookkeeping course will start Monday, September 10 at 6:30 p.m. at the high school. Anyone interested in taking the course is asked to be there.

## Blood Assoc. Meet Thursday

McLean Area Ambulance Association will have a meeting on Thursday, September 6 at the fire hall. This is an important meeting and members are urged to attend.

NEWS OFFICE WILL BE CLOSED ON FRIDAY UNTIL 10 A.M.

Lynn Wood flew to Monday to attend holi-

## Adult Homemaking Classes To Begin At Amarillo College

New classes in adult homemaking will begin at Amarillo College Sept. 10, according to Mrs. Barbara Truitt, coordinator-instructor in adult homemaking.

Classes will be held for men and women at the AC School of Vocational Arts, 6222 W. 9th, Room 103, Building C.

Instruction will begin with basic bishop sewing starting Sept. 10 from 9-11 a.m., and ending Oct. 29. A second class will start Sept. 12 from 1-3 p.m. and ending Oct. 31. It is an eight-week course.

An eight-week course in tailoring men's suits will begin Sept. 11 and end Oct. 30. Classes will meet from 9-11 a.m.

Beginning Sept. 13 and ending Nov. 1 will be household sewing from 9-11 a.m. This eight-week course will include sewing bedspreads, tablecloths, decorator pillows, curtains, etc.

An upholstery workshop will be conducted for 10 weeks beginning Sept. 14 from 8:30-11:30 a.m. An evening class in upholstery workshop will be offered Sept. 11 to Nov. 13 from 7-10 p.m. Both classes will have a limited enrollment.

Those wishing to obtain additional information may telephone Mrs. Truitt at Amarillo College School of Vocational Arts.

## School Pictures To Be Taken Sept. 18

School pictures will be made Tuesday, September 18 in McLean High School Auditorium. Pictures of pre-schoolers will be made between 8:00 and 8:45 p.m. Individual pictures of grade 1-11 will begin at 9:00. Senior pictures will be taken 6:30 to 8:30 p.m.

Those wishing to buy pictures must pay the fee at the time the pictures are made. Seniors are required to make a deposit on their pictures.

**New Arrivals**  
Mr. and Mrs. David Trew announce the birth of a daughter born Tuesday, Sept. 4 in the Groom Hospital. She weighed 9 pounds and 1 ounce and was named Janice Kay. Her grandparents are Mr. and Mrs. Delbert Trew of McLean and Mr. and Mrs. Bill Deutschendorf of Perryton. Great grandparents are Mr. and Mrs. J. T. Trew of Alameda.

## McLean Library To Receive Benefits

Four more area libraries became eligible Sept. 1 for special benefits and services by qualifying for membership in the Texas Panhandle Library System: Canyon Public Library Lovett Memorial Library at McLean, Shamrock Public Library, and Swisher County Library at Tulia.

Addition of these four, all in the category of Size III (under 25,000 pop.) brings total membership to 16, including the Amarillo library, major resource center. TPLS is part of the Texas Library System directed by the State Library, Austin, and funded by the State. There are 10 area systems.

Each of the 10 areas works out its own plans through an area council. Benefits to TPLS members are:

Purchasing books at a substantial discount through the MRC library, reciprocal borrowing privileges, when specifically approved by a library's local governing board, permitting individual users of one library to borrow from another without going through interlibrary loan procedures.

Using the system's slide/sound production for program to promote library services (now in preparation.)

Assistance with supplies, stationery, postage for all programs, interlibrary loan network connection with all 10 major resource libraries in the state and with many major university libraries. Help at workshops for librarians and board members on solving problems of smaller libraries and improving services to the public.

To qualify as a size III community library, minimum requirements are: book collections of 10,000 volumes, per capita tax support of \$1.00, one paid staff member, open 30 hours per week if 10,000-25,000 pop. or 20 hours if under 10,000.

In addition the library must receive at least 50% of its current operating budget from tax support, make required reports to the State Library and its local governing authority, and present evidence of legal establishment.

## Spaghetti Supper To Be Held

The Mother's, Inc. will hold a spaghetti supper this coming Friday night before the football game at the school cafeteria. Serving time will be 5:30 p.m. to 7:30 p.m.

Adults will be served for \$1.50 and students for \$1.

Visiting Mr. and Mrs. Cicero Turpen during the holidays were her mother Mrs. L. R. Foster of Lella Lake, her sister Mrs. Jacque Edwards Amarillo and Mrs. and Mrs. Jack Penick of Pasadena, Texas.

## Gov. Briscoe Sets Sept. 2-9 As Special Education Week

September 2nd through 9th has been designated by the governor of Texas as Career-Oriented Education. A special color cast "Work is Child's Play" will be shown the night of Sept. 7 over Amarillo KGNC at 7:30 to 8:00 P.M.

"Work is Child's Play," was filmed on campuses in six school districts around the state and in community locations in Arlington, Dallas, Fort Worth, and Houston. The program stresses the personal side of Career Education, examining the concept from the student's point of view. The special also portrays the various approaches to Career Education at different grade levels; awareness in elementary grades, exploration at junior high level, and skill training in high school situations.

## ROTC Available To A.C. Students

Amarillo College students will be offered Army Reserve Officer Training for the first time this fall.

According to Dr. R. Eugene Byrd, dean of the College of students will be able to substitute ROTC classes for required physical education or health.

Students completing the two years of ROTC courses will be eligible to compete for advanced scholarships the same as ROTC students at four-year institutions.

Courses to be offered include marksmanship, map reading and military history.

The program is being offered under an agreement with West Texas State University.

Lt. Col. John O. Childs, professor of military science at WTSU, said his staff will offer AC students a curriculum identical to the first two years of WTSU's ROTC program.

## 57% Saving Bonds Goal Reached

Series E and H United States Savings Bond sales in Gray county during the month of July totaled \$28,453, according to County Bond Chairman George B. Cree. Sales for the seven-month period were \$256,477 for 57% of the 1973 goal of \$450,000.

Sales in Texas during the month amounted to \$17,185,499, while sales for the seven month period totaled \$137,169,781 with 63% of the yearly goal of \$216.6 million goal achieved.

"The smallest package you'll ever see is a man wrapped up in himself."— J. D. Eldridge, Overton County (Tenn.) News.

## Learning Difficulties Instruction To Be Available in McLean

Special instruction is now available to children with learning difficulties in the McLean school system.

The teachers, Mrs. Naomi Ashcraft, serving 1st through 6th graders and Miss Barbara Lokker, 7th through 12th were appointed to serve in McLean by the Eastern Panhandle Co-operative organization. The EPCO was created under the Texas special Education Program and involves 18 smaller school districts in the eastern panhandle.

Shamrock is the fiscal agency center for the program, but all phases of instruction are conducted in each school.

Recommendations as to the need of students is made by their teachers followed by an evaluative test made through the program. Parents permission must be secured before a child can be given attention in according with rules of the Texas Education Control Board.

Inquiries should be directed to grade school principal, Bill Adams or high school principal, Lloyd Hunt.

## Intrastate Calls Receive Increase

Southwestern Bell today announced an adjustment of telephone rates for long distance calls within Texas which will produce an after-tax revenue gain of less than \$12 million (\$23 million before taxes) to the company. This amounts to a little less than 2% of the company's total operating revenues in Texas.

T. O. Gravitt, vice president for Southwestern Bell operations in Texas, said the new rate schedule will increase the cost of most three-minute intrastate calls from a few cents to a dime. The change is effective September 24. Rates for local service and charges for long distance calls for other states will not be affected.

One Plus calls within Texas, which constitute about three-fourths of the calls, will still generally be lower than the average for 41 other states offering a One Plus rate. The other states do not have a One Plus rate schedule. On calls requiring an operator, Texas rates generally compare favorably with other states, with some states higher and some lower.

"The increase on long distance rates in Texas is needed to partially offset sharp increases in the cost of doing business," Gravitt said. He cited that telephone wages for 1973 will be \$110 million higher than in 1971, and taxes for the year will be \$40 million more than two years ago when the last intrastate rate adjustment was made.

The largest portion of the increase will be on One Plus calls, but this type of call still be considerably cheaper

## Tigers To Meet Shamrock Irish In Opening Game

McLean Black and Gold and Perryton both scored one touch down during last Saturday's scrimmage. McLean B did not score but held Perryton counterpart to one score.

The pigskin was carried for the Tigers from the Perryton 35 yard line by Skeet Lowery for a touch down.

Each team ran 40 plays under progressive scrimmage rules whereby the defending team takes possession of the ball where it rests after three unsuccessful offensive efforts for a 10 yard first down.

Perryton, class AAA has been rated number seven in the state by football magazine.

There will be no Tiger "B" team play due to lack of participation. Varsity subs have been playing as a second team in scrimmage games to gain experience.

McLean will host the Shamrock Irish this Friday night as the traditional opener of the Tiger football season. Game time is 8:00 p.m.

than operator handled calls. For example, at the new rates, a One Plus call from Dallas to Houston will be only 93¢ for three minutes during the day. A station-to-station call requiring an operator will be \$1.15, and a person-to-person call \$2.05. A similar San Antonio to Waco One Plus call will cost 82¢, while a station-to-station call will be \$1 and a person-to-person call \$1.75.

"We truly dislike having to increase rates; however, we too have become the victims of inflation -- not the cause of it," Gravitt said.

Bailey Reunion  
Held At Dumas

The nine children and fam-  
ily of the late Mr. and Mrs.  
J. Bailey of Pampa held  
reunion in the home of  
Loris Bailey at Dumas on  
Friday, Sept. 2.

Those attending were: Mr.  
and Mrs. James Allen Bailey  
of Houston, Mr. and Mrs. Roy  
Bailey, Kevin and Rhonda,  
Mary Haines, Jessie Rus-  
sell, The Tim Schusters, all  
of Amarillo; Mr. and Mrs.  
Bailey of San Berardino,  
California; Mr. and Mrs. L.G.  
Bailey and family of Pampa,  
Texas; and Mrs. E. M. Bailey  
of McLean, Mr. and Mrs.  
John Bailey and Pam of Bor-  
land, Mr. and Mrs. Ray Bailey,  
Donna and David of Stinnet,  
Texas; and Mrs. Carl Bailey,  
and Greg of Fort Worth.

During this week in the  
home of Mr. and Mrs. H. E.  
Mahan are their daughter and  
nephew, Gwen Stewart,  
a student of Denver, Colo.  
Gwen has enrolled in the first  
year in McLean schools and  
will be living here during  
winter. Also visiting them  
were their daughter and son in  
law, the Leon Williamsons of  
Great Falls, Montana.

Seniors Have  
Meeting Aug. 31

By Kathy Bailey  
The senior class at McLean  
High held their first meeting  
of the school year on Friday,  
August 31 to elect officers for  
the 1973-74 school year.  
Officers elected were: presi-  
dent, Gary Griffin; vice presi-  
dent, Mark Simmons; secre-  
tary D'Ann Phillips; treasurer,  
Cherylan Holmes; reporter,  
Kathy Bailey; parliamentarian,  
David Pender.  
The class discussed ACT  
test which the seniors can take  
They will be given at Sham-  
rock, Amarillo and Clarendon  
on October 20, Dec. 8,  
Feb. 23, April 27, and June  
15.

Game Wardens  
Use Aircraft

Game wardens are finding  
out how effective aircraft can  
be in helping them with  
their job.  
During the past few months,  
four Texas Parks and Wildlife  
Department planes have been  
used to catch outlaw shrimper  
and spotlights and to detect  
a pipeline leak.  
Illegal shrimpers operating  
during the 45-day closed sea-  
son June 1 through July 15  
decided to run for it when  
game wardens detected them  
and gave chase. The shrimper  
almost eluded officers  
when they ducked among 50  
Russian grain ships anchored  
in the Gulf and waiting to  
get into the Houston Ship Ter-  
minal.

News From  
ALAN REED

By Mrs. P. M. Gibson  
On Saturday night, Sept. 8  
there will be an old fashioned  
ice cream and cake supper at  
the Alanreed school at 8 o'-  
clock. Everyone is invited.  
Filling the pulpit Sunday at  
First Baptist in Alanreed was  
Mitchell Phillips of Pampa.  
The Joe Leonards were back  
in church Sunday.  
The Paul Averitts visited  
her parents the Olen Stapps.

Visiting the P. M. Gibsons  
was their daughters and son-  
in laws, Mr. and Mrs. Henry  
Gray and Mr. and Mrs. Don  
Bednorz of Amarillo.  
Mr. and Mrs. H. C. Mc-  
Mahan of Lubbock visited his  
sister's family, Mr. and Mrs.  
Laverne Goldston Sunday.  
Lucy Goldston visited her  
brother, John McMahan at  
Clarendon last week.  
Visiting the Goldstons are  
Mr. and Mrs. Fred Goldstons  
and girls of Lubbock. The  
Goldstons are looking for Dr.  
and Mrs. Bill Goldston this  
week from Florida.

Visiting his mother, Mrs.  
Faye Oakley and sister, Mrs.  
Opal Stapp this weekend was  
Joy Oakley of Pampa.  
On Sunday Mr. and Mrs.  
Olen Stapp, Mr. and Mrs.

But a department aircraft  
was able to fly over the ships  
and get the names off the  
bows of the boats, thereby  
helping game wardens make  
their cases.  
In another part of the stat  
a department pilot was able  
to find four spotlighters in one  
night and direct a game war-  
den to the right location.  
Department pilots will go  
to work in North Central Tex-  
as when dove season begins,  
finding road hunters and lo-  
cating concentrations of  
hunters so that game wardens  
can check on them.  
In the Valley, during the  
white-winged dove season,  
aircraft will be used to count  
automobiles and find hunters  
for the game wardens.

Airplanes will also be used  
in tracking prairie chickens  
equipped with radio transmit-  
ters.  
And an airplane in Aransas  
County prevented an oil spill  
from becoming a big problem  
when the pilot spotted the oil  
and traced its source to a bro-  
ken pipeline. By following  
the pipeline, he was able to  
determine the owner and have  
the oil cut off before major  
damage occurred.

Paul Averitt and children and  
Mrs. Faye Oakley visited in  
Tulia and did some sightsee-  
ing.

MR. and MRS. JOHN MICHAEL HAYNES  
Kay Layne and John Michael Haynes  
Are United In Garden Ceremony

Miss Beverly Kay Layne  
became the bride of Mr. John  
Michael Haynes at an 8:30  
p.m. wedding Friday evening,  
August 3.  
Kay is the daughter of Mr.  
and Mrs. William Bryan Layne  
of McLean. He is the son of  
Mr. and Mrs. John Morse  
Haynes, also of McLean.

The garden ceremony was  
performed by Mr. James Lus-  
by of Pampa at the residence  
of Mrs. Gladys Smith of Mc-  
Lean. The couple was united  
in a surrounding of marigolds,  
snap dragons, periwinkles,  
and chrysanthemums, which  
they cultivated during the  
summer. A large audience  
sat in folding chairs in the  
flowered yard.

Mrs. Harold Fabian, pian-  
ist for the wedding, played  
specially-selected background  
music for a half hour before  
the ceremony. Mr. Jerry Jan-  
sa sang "The Twelfth of Nev-  
er" and "Colour My World."  
After the processional, he  
sang "Wedding Song." The  
couple repeated the tradition-  
al vows in a double-ring cere-  
mony.

Behind the couple stood a  
tall white arch, covered with  
ivy and flowers. Two white  
doves were perched on top of  
the arch. On each side of  
the arch was an ivy-covered  
candelabra.

A white love seat rested  
behind the outdoor altar.  
Hanging potted plants deco-  
rated the porch area where the  
ceremony took place.

On each side of the aisle  
on which the bride entered  
were white globe-candles con-  
nected by white ribbon and  
bows. A white bow decorated  
the gate through which the  
wedding procession walked.

Given in marriage by her  
parents, the bride was attired  
in a formal-length gown hand-  
made by her mother. The  
wedding dress consisted of mi-  
ra mist and lace over bridal  
satin, with a modified waist-  
line and fitted sleeves to a-  
bove the elbow. The sleeves  
then puffed to the small fitted  
cuff at the wrist.

The gown's bodice and  
sleeve-tops were covered with  
seed pearls. The lace top  
was connected to the full cir-  
cle skirt by a small white vel-  
vet band bordered on each  
side with a string of pearls.  
The bride wore a three-tiered  
chapel-length veil of illusion  
which fell from a crown of  
small white flowers. The two  
top tiers were covered by  
small white flowers and seed  
pearls. The bottom tier was  
bordered with lace.

She carried a circle bou-  
quet of cattleya orchids, bor-  
dered by white net and lace.  
Long white satin streamers  
adorned with greenery fell  
from the bouquet.

For "something old," the  
bride wore her mother's en-  
gagement ring and carried a  
98-year-old green and white  
lace handkerchief which was  
carried by the groom's mother  
at her wedding. "Something

new" was a pair of pearl ear-  
rings, a gift from the bride-  
groom. She carried the hand-  
kerchief and wore the veil for  
"something borrowed." She  
wore a blue garter for "some-  
thing blue." A penny was  
carried in her right shoe.

Before the ceremony, the  
bride presented her mother a  
long-stemmed red rose. As  
the couple left the altar, she  
presented a similar rose to  
the bridegroom's mother.

Mrs. Jenny Evans of Lub-  
bock was matron of honor.  
Bridesmaids were Sheri Hay-  
nes, sister of the groom, and  
Gina Layne, sister of the  
bride. Their dresses were of  
sheer green net printed with  
tiny blue, pink and yellow  
flowers, over satin. The for-  
mal length gowns were styled  
with empire waistlines and  
bell sleeves. The waistlines  
were accented with green  
velvet ribbon. All wore  
green garden hats with match-  
ing ribbon and bows. The  
flowergirl was Stacie Smith,  
cousin of the groom. Her  
dress was identical to those  
of the bridesmaids. She wore  
green roses in her hair and  
carried a white satin basket  
of rose petals.

Donnie Smith, cousin of  
the groom, served as ring-  
bearer. He wore a black tux-  
edo, green shirt, and bow tie,  
and carried a white satin pil-  
low bearing the bride's ring.

Serving as best man was  
David Haynes, brother of the  
groom. Groomsmen were  
Morse Haynes and Sammy  
Don Haynes, also brothers of  
the groom. They also wore  
black tuxedos, green shirts,  
and bow ties. Ushers were  
Thacker Haynes, cousin of  
the groom and Ricky Evans.

The groom was attired in  
an off-white suit with green  
shirt and black bow tie match-  
ing those of the groomsmen.  
The bride's mother wore an  
olive green floor-length for-  
mal gown styled with a wide  
band at the empire waist.  
The waistline, neck and bot-  
tom of the gown were accen-  
ted with gold braid.

The groom's mother also  
wore a floor-length formal  
gown, which had a white bod-  
ice and a yellow skirt. At  
the fitted waistline was a  
small, yellow belt.

Both mothers wore white  
accessories and corsages of  
white carnations on gold back-  
grounds.

The reception took place at  
the opposite edge of the yard  
from the ceremony site. The  
bride's table was situated in  
front of white latticework,  
built by the bride's father.  
The latticework was entwined  
with greenery. The white  
satin cloth which covered the  
table was decorated with  
white wedding bells and doves.  
A silver centerpiece bearing  
four white candles and a bou-  
quet of white chrysanthemums  
adorned the table.

The three-tiered bride's  
cake featured green and white

roses and doves. It was top-  
ped by three white wedding  
bells.

The bridegroom's table,  
also backed by latticework,  
was covered with a brown  
cloth and was decorated with  
gold serving ware and chry-  
santhemums. A double-lay-  
ered German chocolate cake  
was served from the table.

Serving at the bride's table  
were Regina Lamb, Mich-  
elle Parker, and Gail Terry.

Assisting at the groom's  
table were Dick Back, Lana  
Duniven, Mark Simmons  
and Becky Adams.

Kathy Raines registered  
guests. Susan Sebeth Sim-  
mons and Terri Lusby distri-  
buted rice bags which had  
green and white bows.

Mike and Kay took a honey-  
moon trip to Colorado Springs  
Colorado, and reside in Lub-  
bock at 3002 4th St., Apt.  
201 (79415).

The bride is a 1973 gradua-  
te of McLean High School  
and is a freshman music ed-  
ucation major at Texas Tech  
University. The bridegroom  
is a 1969 graduate of MHS  
and a 1973 graduate of Texas  
Tech. He received a B.A.  
degree in journalism and is  
employed at the Lubbock  
Avalanche-Journal as a copy  
editor.

Pre-nuptial events includ-  
ed a bridesmaid's luncheon  
at the home of Mrs. Sam  
A. Haynes, aunt of the groom,  
which was co-hosted by  
her and Mrs. Carey Don  
Smith, also an aunt of the  
groom.

The bride was honored with  
a bridal shower July 10 at the  
home of Mrs. Bill Smith of  
Pampa. She also was honor-  
ed with a miscellaneous  
shower at the McLean First  
United Methodist Church par-  
lor on July 27.

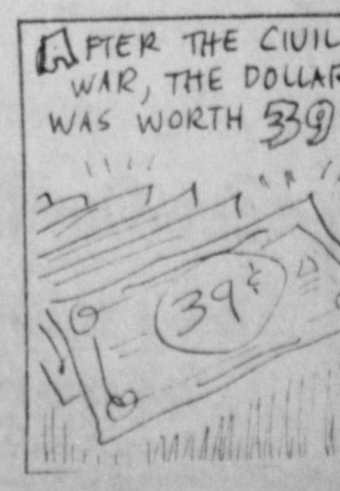

Out-of-town guests who  
signed the bride's book were:  
Mrs. Thelma Layne, Humble;  
Mr. and Mrs. Lamor Norris,

Band Boosters To  
Serve Pie-Coffee

The McLean Band Boosters'  
will serve pie and coffee im-  
mediately following the  
Shamrock-McLean football  
game Friday night.

Everyone is invited to the  
school cafeteria to participate  
in the fund raising project for  
the band. Several projects will  
be undertaken throughout  
the year to raise money for  
the spring trip.

Homemade pie with coffee  
will be served for 50¢ and  
refreshments for children will  
be available.

FREE AND UNMOLESTED

It is sometime in the future. It could be as much as 50  
years from now, or it could be less than ten. You are huddled  
with a small group, having a meeting in a secret place so the  
authorities will not find out. Heads are bowed and someone is  
whispering a prayer. You are at a worship service. Earlier,  
you had sung a few hymns softly, so no one outside could hear.  
Several prayers had been uttered, you had partaken of the  
Lord's Supper....served the unleavened bread out of a kitchen  
dish, and the juice of the grape from a coffee cup. You had  
gathered one by one so no one would suspect that a worship  
service was taking place and inform those charged with keep-  
ing the law! ...You can remember when everyone sang, prayed  
and taught without fear. You remember men praying, "We thank  
Thee, Father, that we live in this free country where we can  
worship together without fear of molestation."

HOW DID THIS SAD SITUATION COME ABOUT? Well, it happened  
sometime ago when this country was still free--when people  
began to take for granted their freedom--morals began to de-  
cline, modesty disappeared; nobody protested evil, whatever  
its form, People began losing interest in spiritual things;  
most concern for their souls, and the souls of others. They  
were doing exactly as their fleshly desires dictated.....  
then one day it happened. There were no riots. No bombs  
fell. There were no shots fired. Because everybody was doing  
this thing", soldiers in strange uniforms simply marched in.  
RELIGION HAD BECOME A JOKE---THEN THERE WAS A LAW AGAINST IT!

CHURCH OF CHRIST

Fourth and Clarendon  
McLEAN, TEXAS

# STATE CAPITAL Highlights AND Sidelights

by Bill Boykin  
TEXAS PRESS ASSOCIATION

Next big political campaign shaping up is for legislative pay raises and annual legislative sessions on the November 6 election ballot.

Top four elected Texas officials launched the campaign with the cooperation of 35 citizens' organizations.

Gov. Dolph Briscoe, Atty. Gen. John Hill, Lt. Gov. Bill Hobby and House Speaker Price Daniel Jr. are united in support of Constitutional Amendment One.

The amendment would raise legislative pay from \$4,800 a year (plus expenses) to \$15,000 a year (plus \$18 a day during sessions).

It would also provide for regular legislative sessions of 180 days during odd-numbered years and of 60 days, mainly for budgeting matters, during even-numbered years.

Austin attorney Will Davis was selected chairman of the organizational support group with Phil Strickland of Dallas as vice chairman.

An executive committee headed by Davis and Strickland will work with the 35 cooperating trade, civic and professional associations in the campaign. (Texas Press Association is among the organizations.)

"This is a must thing," said Attorney General Hill. "It is a necessity that we pay the right amount for an honest day's work in a very high calling."

"Annual sessions in this day and time are essential for an efficient, responsible, intelligent and accountable legislative branch to properly function," said Daniel.

The statewide support organization will coordinate fund-raising and publicity activities for the campaign.

Legislators have been paid \$4,800 a year since 1960.

Voters defeated proposals for pay raises in 1965, 1968, 1969, and 1972.

They also rejected annual sessions of the legislature in 1969.

**COMMISSIONER RESIGNS** -- Byron Tunnell resigned his position as a member of the Texas Railroad Commission and was immediately replaced by Mack Wallace of Athens.

On September 15, Tunnell 47, will become vice-president of Tenneco of Houston in the company's governmental affairs department.

Wallace, 43, a former district attorney, has been serving as executive director of Governor Briscoe's Criminal Justice Council and as legal

advisor to the governor. Briscoe appointed him two days after Tunnell's resignation.

Tunnell was appointed to the powerful, three-member oil, gas and transportation regulatory agency by former Gov. John Connally in 1965, succeeding Ernest O. Thompson. He was re-elected to a six-year term in 1972.

**VENDING RECORDS BLOCKED** -- Vending industry leaders blocked House Speaker Price Daniel Jr.'s effort to make public records of a 1968 legislative investigation of the industry.

Raymond B. Williams and Burnie H. Williams in their lawsuit contended release of the investigative record held by the Department of Public Safety in a confidential file would cause "possible abuse" through circulation of "ill-based stories." Their case was set for hearing September 6.

Meanwhile, a former Austin vending machine operator claimed he made cash payoffs to a state representative, a state judge and an ex-state senator. Daniel said he is considering a new House subcommittee investigation of the coin-operated amusement machine industry.

**TELEPHONE SAVINGS CLAIMED** -- Legislative Budget Board approved a new telephone system for state agencies which reportedly will save a million dollars a year.

The system, pushed by Governor Briscoe, would link all state agencies over Texas and provide a toll-free long distance service nationwide. An installation charge of \$170,000, plus \$350,000 a month is required for the TEX-AN communications network.

LBB advised Briscoe to be cautious he is not buying more out-of-state service than necessary. One member, Rep. W.S. Heatly of Paducah, said the telephone company should be required to improve service to ordinary citizens before the state purchases TEX-AN. Present state telephone service now costs about \$431,201 a month for long distance and WATS lines.

**AG OPINIONS** -- With some exceptions, Welfare Department records on child care facility licensing are public, Attorney General Hill held, although identity of persons covered by social and health records would remain confidential.

In other recent opinions, Hill concluded:

\* Fees assessed adult probationers can be used for juvenile probation at discretion of

judges, although they should be used primarily for a adult' probation purposes.

\* No member of the 63rd Legislature would be eligible to paid appointment to the office of House administrator having resigned from the legislature to accept it. But Rep. James D. Cole of Greenville took the job without salary.

\* County commissioners can hold bond elections for buildings and acquiring books for library purposes.

**APPOINTMENTS** -- Lorenzo D. Cole of Houston is first execu-

tive director of the Governor's Office of Equal Employment Opportunity.

W. J. (Bill) Harding of Austin has been designated chief clerk of the State Board of Insurance effective September 1.

Governor Briscoe appointed Kaufman County Attorney Harold D. Hollingsworth criminal district attorney for the county.

He appointed James Arnold acting director of the Office of Traffic Safety.

District Judge Herman Jones of Austin will head a special

fact-finding committee to inspect conditions at Austin State School.

Joe G. Moore Jr., director of the Office of Research at the University of Texas Lyndon B. Johnson School of Public Affairs, became program director of the National Commission on Water Quality September 1.

Sen. Lloyd Doggett of Austin was named by Lt. Gov. Bill Hobby to the State Legislative Library Board.

Raymond L. Prewett is head of the governor's Divi-

sion of Rural Community Affairs.

**800,000 NEW ADULTS** -- Texas picked up about 800,000 new adults overnight August 27 when a law took effect granting majority rights to 18-to-20-year-olds.

Under the new law, the young Texans can buy alcoholic beverages, enter contracts, get married without their parents' consent, and serve on juries, among other things.

A total of 249 acts of the 63rd Legislature took effect last week. Among them

## DOWN MEMORY LANE

**10 YEARS AGO**  
McLean school enrollment increased by three since registration, bringing to 466 the number of students now attending classes here.

In a double ring ceremony performed in the First Baptist Church at 8 p. m. on Aug. 23, Miss Jo Carolyn Wood became the bride of Jack, D. Bailey. Mr. and Mrs. Brad Hunt announce the birth of a son, Leslie Ray, on Aug. 13 in Highland General Hospital in Pampa. The baby weighed 7 lbs. 11 ozs. at birth.

**20 YEARS AGO**  
Mr. and Mrs. T. A. Mas-says celebrated their golden wedding anniversary Sunday, August 30.

Mr. and Mrs. Frank Kennedy of Quail are the parents of a boy born August 26. He weighed 8 pounds, 8 ounces and has been named Frank Elijah Jr.

**30 YEARS AGO**  
Miss Sally Jo Alexander and T/Sgt. Paul Powers were married last week in Kansas, Born Sept. 2 to Mr. and Mrs. Edwin Howard, a boy.

The North Fork Baptist Association opened its thirtieth annual session at the First Baptist Church of McLean this morning.

Born July 30 to Sgt. and Mrs. Arthur Lee Howard of Great Falls, Mont., a girl.

**40 YEARS AGO**  
Mrs. Merle Grigsby entertained Monday afternoon with a party in honor of the 6th birthday of her son, Dean.

Miss Verla Hiber and Mr. Ernest Jones were Married Wednesday night at the Baptist pastor's home, Rev. Cecil G. Goff officiating.

**50 YEARS AGO**  
On Thursday of last week Mrs. B. N. Henry entertained a number of girls from five until seven o'clock p. m. in honor of the thirteenth birthday of little Miss Joellene Van noy.

The fine rains we have been having this week make the prospect for a bumper crop of feed in this community the best for several years.

A number of Alanreed business men have organized a company and are building a cotton gin at this place.

**60 YEARS AGO**  
Quite a string of cattle were shipped from this point on last Saturday afternoon to the Kansas City market.

Neville Hearn has gone to Clarendon where he will attend the 1913-14 term of the Clarendon College.

J. D. Back reports a very disastrous hail storm in his community during the shower Monday afternoon.

**Altus Lake Scene For Smith Reunion**

A Smith reunion was held at Altus Lake the 2nd of Sept. Those attending were Steve Gibbs, Mr. and Mrs. Sam Blake, Mr. and Mrs. Rickey Prather, Mr. and Mrs. Clemon Smith and son, Mr. and Mrs. Clenton Smith and children of Gainesville; Miss Margie Sicking of Lindsey; Eldridge Atchley of Groom; Marvin Atchley of Childress; Mr. and Mrs. Delbert Dutton and boys of Altus, Okla.

Mr. and Mrs. H. C. Rogers of Lovington, N. M.; Mr. and Mrs. Bill Morhenweiser and children, Mr. and Mrs. Roney Dow of Dumas; From McLean were Mr. and Mrs. Raymond Smith, Mr. and Mrs. Cecil Nicholass, Mrs. Ruby Tibbetts Mrs. Leroy Griffin.

**Parallel Terraces Good Practice**

The use of parallel terraces on dryland cropland has proven to be an excellent soil and water conservation practice according to Jim Roach, Conservation Technician, with the Soil Conservation Service in Pampa. The use of parallel terraces could have prevented much of the valuable top soil loss that resulted in the heavy rains we had last spring and summer, said Roach.

Soil erosion is most obvious on rolling land, but erosion also takes place on flat land, in the form of sheet erosion, which is harder to see at times. When valuable top soil is being washed away by heavy rain fall, the valuable moisture is lost, too.

Without terraces to control the runoff of water, it leaves without having time to penetrate into the soil and is gone. Roach stated, parallel terraces are laid out and constructed in a manner that the interval between the terraces have been leveled to some extent depending on how steep the land is where the terraces are built. The interval between the terraces can vary between 40' and 200', depending on the type of farming operation and the slope of the land. When the terraces are built, they are built from the lower side. This gives a leveling effect and will let the rain water spread over the entire interval in most cases. Also, parallel terraces will eliminate most point rows and can be adapted to all kinds of farming operations, according to Roach. They are also adapted to all types of soils.

For more information on parallel terraces, contact your local Soil Conservation Service office.

**F. H. A. Install 1973-74 Officers**

Officers were installed at the first meeting of the FHA Monday, Aug. 27. The officers were president, Cherylann Holmes; 1st vice president, Kinnette Hambricht; 2nd vice president, Betty Holmes; 3rd vice president, Becky Wilson; 4th vice president, D'Ann Phillips; 5th vice president, Halcyon Back; secretary, Laura Cox; treasurer, Diann Miller; Historian, Judy Rhoten.

Projects planned for the coming year are Secret Grandmothers, Booth at the Halloween Carnival, School Spirit Day and Caroling party.

"Whenever there is a crisis of some kind, the only way Congress can figure to solve it is to either levy a new tax or appropriate umteen million (or billion) dollars."—Bill Epler, Brewery Gulch, Bisbee (Ariz.) Gazette.

## HEALD NEWS

### Sophomores Elect 1973-74 Officers

By Roger Bowling  
The sophomore class held their first meeting Friday, August 31 and elected officers for the 1973-74 school year. Officers elected are president, Morse Haynes; vice president, Todd Darsey; secretary-treasurer, Betty Holmes; sergeant at arms, Marty Duni-ven; reporter, Roger Bowling; student council, Mark Caldwell and Halcyon Back. The class sponsors are Coach Nitcholas, Coach Stewart and Mrs. Baxter. Class dues and different money making projects for the end of school party and junior senior banquet were discussed.

### Get In Shape For Hunting Season

You say your lease is all sewn up, your gun is oiled, your camping equipment is in top shape and you are sitting on your hands waiting for the hunting season to start? Maybe you shouldn't be sitting, suggest Texas Parks and Wildlife Department officials. Instead, walking and maybe even a little jogging would be better for your heart. According to the American Heart Association, 50 percent of all deaths in Texas are from cardiovascular diseases, heart attacks being the single greatest killer. Hunters, especially those with sedentary jobs, are prime candidates to become one of these statistics. Part of every year's hunting preparations should also include a program geared at preparing the body for the rigorous days ahead.

### Leaves Are Food Factory For Grass

Grasses make food for growth in the "food factory" in its leaves. It uses food stored in the roots to make new growth in the spring and when recovering from grazing pressure, states Rodney Hyatt, Soil Conservationist. Therefore, continuous close removal of leaves weakens plants. This means less chance to survive adverse weather in summer and winter months. A good rule of thumb to follow in maintaining vigorous grasslands, is to remove no more than 50% by weight each year of the grass most readily eaten by livestock. The development and survival of plants are influenced by grazing in many ways, reports Hyatt. Growth and reproduction of plants are limited and sometimes prevented by grazing. According to Hyatt, livestock have food preferences similar to humans. Therefore competition between different plants for essential nutrients is greatly influenced by selective use from livestock. Consequently, the more palatable grasses can become overgrazed before other plants are significantly grazed.

Here are some tips from the American Heart Association which should help a few more hunters get safely home from their trip:  
--Arrange to see your doctor before your trip. Discuss your plans with him and take his advice.  
--Dress sensibly. Consider the climate both day and night. If you hunt at an altitude higher than where you live, start a few days early to get acclimated. Get adequate rest before the hunt starts. Don't hunt when exhausted. Plan your day of hunting and rest often.  
--Know the approximate distance to be covered. Know the location of the nearest phone, doctor or emergency center.  
--If you are already a heart patient, be sure one member of your party knows about your condition and the medicines you take. Never hunt alone.  
--When you bag a heavy deer, get help in taking the animal out of the woods. The checkup a few months before the hunt is most important. If your doctor okays it, start a training program to get yourself in shape.

"Keep up the competitive spirit—when competition steps out monopoly moves in."—Mrs. Gary Hiott, The Pickens (S.C.) Sentinel.

ued over a long period, the better forage grasses will die out; allowing less desirable plants to take their place. Plants surviving heavy grazing are usually the least productive. Continued over-grazing also reduces the amount of residue left on the land, allowing increased runoff of rainfall, increases evaporation and increased soil erosion.

### Injury Before Birth

Motorists who negligently knock down pedestrians would naturally expect to be held legally liable for the consequences. But suppose the pedestrian is an expectant mother. And suppose, as a result of the accident her baby is born with some sort of defect. Could the motorist be held liable also for the injury to the child? Traditionally the law refused to grant damages for prenatal injuries. Courts reasoned that until the actual moment of birth, the child was merely a part of its mother, with no independent existence on which to base a claim.

But in recent years the law's viewpoint has changed sharply. Today, almost everywhere, a child is entitled to collect damages for a prenatal injury that was inflicted negligently—at least, if it occurred during the later months of pregnancy. As one court put it: "A child has a legal right to begin life with a sound mind and body." Of course it is still necessary in establishing the child's claim, to prove there was a causal connection between the accident and the disability. Consider this case: A baby was born with a deformed foot after his mother had been hurt in an auto collision. But medical experts said there was no reliable way of tracing the deformity to the accident. Accordingly, a court ruled that there were no grounds for holding the other motorist liable. Assuming that the child does have a legitimate claim, would it make any difference if the mother herself was partly to blame for the accident? That question arose in another auto case, in which the mother's own bad driving—as well as the other motorist's—had contributed to the collision. But a court decided that the mother's negligence should not block her child's claim against the other motorist. The court thought it would be unfair, after giving the child a legal right, to take that right away because of somebody else's error.

Because young feet are soft and pliable, children can force their feet into shoes that are several sizes too small.

WANTED Cesspool and Ceptic tank cleaning and pumping. C. L. Castell, 665-1039, Pampa, Texas 36-4p

## LOST & FOUND

STRAYED or stolen from my place. Hereford cow with C Brand on left hip. Could have black baldy calf. Reward. Ed Cadra, Shamrock, Texas. 35-2c

## CARD OF THANKS

CARD OF THANKS We take this means of expressing our deep and heartfelt gratitude for the many kindnesses and beautiful floral expressions of sympathy during the illness and death of our beloved mother, Mrs. C. A. Myatt. The Family of Mrs. C. A. Myatt

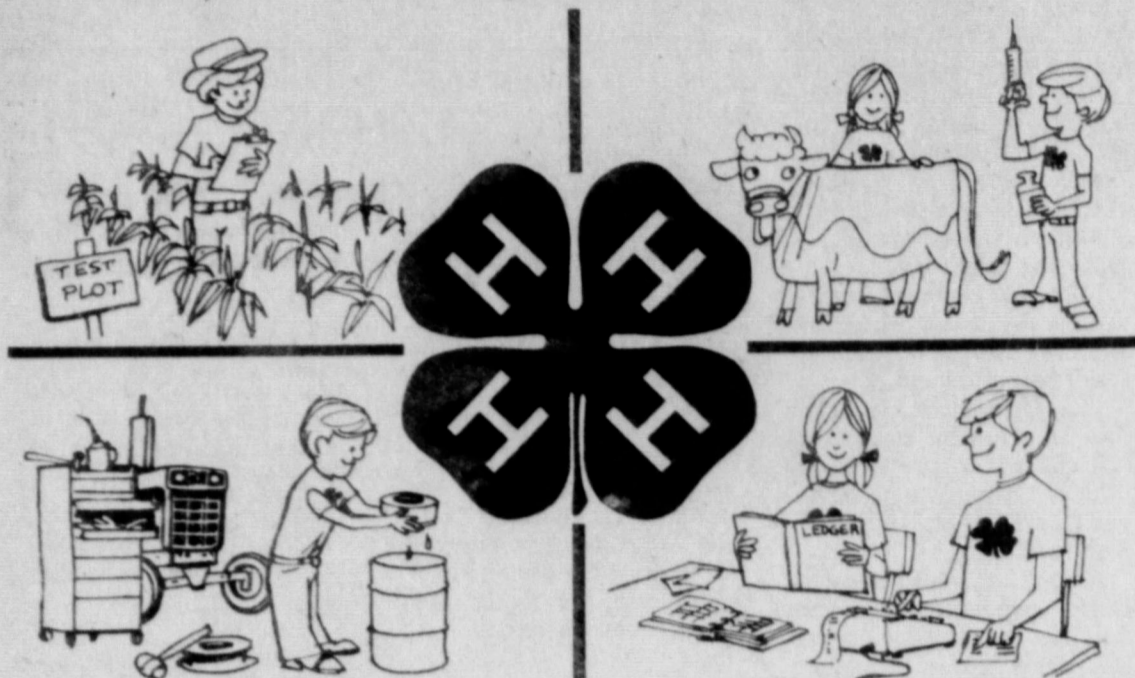

## FLEA MARKET Sept. 15 Coronado Center Pampa, Texas

Will Have another Flea Market Sale Saturday, September 15th. Load up your Odd's and Ends around the house and bring them to the Coronado Center in Pampa, Texas and take advantage of the Large Crowd to expose your goods.

To reserve space, just write to Coronado Center, Box 1552, Pampa, Texas 79065, or call Jim Stallings, 669-7401.

Church Groups Welcome.

## 4-H's Aid U.S. Agriculture in Many Ways

Young people are getting practical experience while making an active contribution to America's new glamour industry, agriculture. They are the million participants in the national 4-H agricultural program, sponsored by International Harvester Company.

With expanding agricultural experts, technology and more favorable prices, many 4-H'ers look favorably at careers in farming, agribusiness and other agriculturally related careers.

Supervised by the Cooperative Extension Service, the program encourages 4-H'ers to become more involved in all areas of agriculture, farm operations and management, food processing, product marketing and disease control.

Livestock and crop production, conservation, opera-

tion of farm tractors and small engines, veterinary science, entomology and commodity marketing are some of the activities undertaken by youths in the 4-H agricultural program.

Encouraging these young producers to continue their work in agriculture is the International Harvester Company, donor of awards in the program. Recognition includes four medals of honor for county winners and an expense-paid trip to National 4-H Congress in Chicago, Nov. 25-29, for an outstanding member in each state.

During the national 4-H event, six national \$1,000 scholarship winners are announced.

Tim Ahearn, of Paxton, Mass., a 1972 national winner in the 4-H agricultural

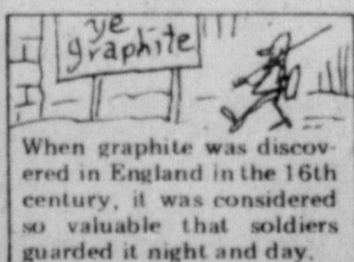

program believes that his "future lies in agriculture". Active in dairy production, field crops projects and learning how to safely and efficiently operate farm machinery, young Ahearn has chosen a career in agricultural mechanics because of his 4-H experiences.

A career as a veterinarian awaits another 1972 national winner. David Palmer, of Clyde, N.C., works with his family's dairy herd and poultry flocks and through better feed methods he was able to increase the family's dairy production. His interest in animals led him toward a career in veterinary medicine.

For information about opportunities in agriculture and the national 4-H agricultural program contact the county extension office.

When graphite was discovered in England in the 16th century, it was considered so valuable that soldiers guarded it night and day.

### Overpowering Boat Not Illegal But Is A Hazard

There is no such thing as an engine too big for a boat—at least far as the federal law is concerned.

But the man who puts a 100-horsepower engine on a 14-foot john boat is asking for trouble safety-wise.

Texas Parks and Wildlife Department water safety officials say there is some confusion among boat owners about the recommended size of the engine stated on the boat's capacity plate.

Although these capacity plates have been required by federal law on all monohull outboard boats under 20 feet long since Nov. 1, 1972, the information on the plates are just recommendations and do not have the force of federal law behind them.

However, say water safety officials, there are some practical reasons to abide by the maximum horsepower recommendations.

First of all, there is the safety aspect. The recommendations are based by the manufacturer on the size and construction of the boat, and exceeding them could be perilous.

Also, there may be a question of legal liability to passengers in case of an accident. It is still not clear what recourse passengers have toward a boat owner who overpowers his boat.

And while Texas and the U.S. Coast Guard do not regard overpowering illegal, there are states which do.

However, say Parks and Wildlife Department officials, if an officer observes negligent or unsafe operation of a boat, and upon boarding finds that the stated capacity has been exceeded, he will issue a notice of violation for the illegal act and will note on the citation that the stated capacity was exceeded and by how much.

### Freshman Meet

By William Mercer, Reporter  
On Friday, August 31, the high school freshmen elected their class officers, student council members and discussed class parties and other class activities for the 1973-74 school year. Freshman initiation was discussed.

Class officers elected were president, Peggy Van Huss; vice president, Dave Jefferson; secretary, Rose Helen Dwyer; treasurer, Cindy Sherrod; reporter, William Mercer. The Student council representatives are Billy Bob Terry and Cynthia Morris.

### ITCHING LIKE MAD?

Get this doctor's formula! Zemo speedily stops torment of externally caused itching... of eczema, minor skin irritations, non-poisonous insect bites. Desensitizes nerve endings. Kills millions of surface germs. "De-itch" skin with Zemo—Liquid or Ointment.

A weekly public service feature from the Texas State Department of Health

## Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

Mention a case of childhood poisoning and one generally thinks of a host of potentially lethal household substances which the child could have imbibed, not knowing the dangers involved.

But officials at the State Health Department are quick to emphasize that the dangers of poisoning are not restricted to items within the home. Potential sources of poison thrive in backyards and gardens all across Texas. The little known sources of these poisons -- common, garden-variety plants.

Most plants are harmless. Many are poisonous under certain conditions. A few are poisonous under nearly all conditions. More than 700 species of plants in the United States are known to have caused death of illness. Each year, about 12,000 children in this country chew or swallow potentially poisonous plants.

The poisonous nature of a plant is caused by the presence of one or more kinds of substances. There are some substances which are themselves toxic to animals; an alkaloid, for example, is the toxic principle in poison hemlock. Other substances are initially harmless but may decompose to form toxic products soon after being eaten -- an example is glucoside, a sugar produced in wild cherry which changes to form the highly toxic prussic acid.

Some substances are formed by the action of micro-organisms on plants; a fungi on moldy hay forms decomposition products, some of which may be toxic. Still other substances are absorbed directly from the soil and stored in harmful quantities in the tissues of certain plants: selenium, for example, may be found in some species of locoweeds, or potassium nitrate may be present in oats.

To the average person, the term "poisonous plant" suggests one that poisons upon contact, causing a mild or severe dermatitis or skin irritation. Texas certainly has its fair share of the plants known to be capable of causing such irritations, say State Health Department officials. Possibly the most familiar are the leaves, bark, and fruit of poison ivy and poison oak.

But did you know that hairy leaves and stems of parsnip and lady slippers, the milky juice of spurge, and the leaves of the cultivated primrose are also causes of dermatitis? Lily bulbs and stalks, stinging nettles, and vanilla beans likewise have toxic qualities, and are capable of producing severe skin irritations.

Most poisonous plants are harmful only when they are

eaten. In the case of nitrate-containing plants, the nitrate content is reduced to the toxic substance. This substance then enters the blood stream and changes the red pigment of the blood in such a way that it is incapable of transporting oxygen to body tissues. The result is suffocation.

Poisonous mushrooms, mostly toadstools, cause more than 100 fatalities in this country each year. Daffodil bulbs, larkspur seeds, lily of the valley flowers, and jasmine berries are all harmful if eaten. So, too, are the leaves of the poinsettia and the oleander bush, and all parts of butternut, rhododendrons, and laurels. In some plants, only particular parts are toxic. A classic example is the rhubarb which has a perfectly edible stalk, but contains a deadly poison in the leaf.

Contact poisoning can be prevented best by learning to recognize the plants and avoiding them. Of course, it is always prudent to wear protective clothing such as leggings and gloves when venturing into areas where poison plants are known to flourish.

If you are exposed to a poisonous plant, immediately wash the contact area with laundry soap and water to remove toxic resins.

Measures can also be taken to prevent the accidental eating of plants. Keep children away from plants and teach them not to chew plant stems or to put plant parts, such as berries or bulbs, in their mouth.

If your child does eat a plant, and you are uncertain whether it is poisonous, immediately call a doctor. He,
