MCLEAN, GRAY COUNTY, TEXAS - THURSDAY, JUNE 12, 1975

NUMBER 24

Pampa Dr. Speaks To Gray County Heart Association

At the recent meeting of the Gray County Division of the American Heart Association, Dr. R. M. Bellamy, Pampa surgeon, spoke on Angina Pectoris, a syndrome characterized by the constricting condition of the coronary arteries causing the lack of adequate blood supply to the heart muscle, per se.

Only in recent medical history has this condition been readily diagnosed. Earlier, persons who died suddenly following perhaps a large meal were diagnosed as having acute indigestion. These cases now are known victims of Angina Pectoris. Angina Pectoris is brought on by stress, stress from physical exertion, stress from emotional upset, stress from over-eating, stress from smoking and psychological stress. Dreams can actually cause stress in the heart by causing the coronary arteries to constrict and result in the death of a person during sleep.

Treatment by various known medications is available. Nitroglycerin tablets when placed under the tongue cause an immediate dilation of the coronary arteries allowing the much needed blood supply to reach the ventricles. (The lower chambers of the heart which have the heavier job of pumping the blood for circulation, thereby resulting in the wall of the right ventricle being thicker and requiring a healthy coronary artery to meet the demands.)

A medication in a cream base containing nitroglycerin is available for application to the skin surface of the thoracic (chest) cavity. This method of treatment allows a slower but yet a continuous absorption of the medication resulting in the dilation of the coronary arteries.

Dr. Bellamy summed up the discussion by saying preventive measures were the

(Continued on Page 8)

Former Resident Is Electrocuted

Services were pending at press time for 38 year old Everett Eldridge of Lefors, a former resident of McLean, who was electrocuted Wednesday when he attempted to plug in a clothes dryer at his home.

Eldridge was dead on arrival shortly after 5 p.m. at Highland General Hospital in Pampa.

Services will be announced by Carmichael-Whitley Funeral Directors at Pampa.

Surviving are the widow; two sons, Randy and Tony, both of the home; the parents, Mr. and Mrs. William Eldridge of Sayre, Okla.; a brother, Leon of Pampa; and a sister, Mrs. Carol Ann Channing.

ROBERT GREGG

Gospel Meetings To Begin June 16

A series of gospel meetings will be held at the Church of Christ beginning Monday, June 16 and will go through June 22nd. The meeting will begin each evening at 8 p.m. and at 10 a.m. and 6 p.m. on Sunday.

The speaker in this series of meetings will be Mr. Robert Gregg of Lawton, Okla., who has been preaching for over twenty years.

Any questions on any Biblical matter will be welcomed and will be answered.

Everyone is welcome to attend.

Karon Hunt on WTSU Honor Roll

Mrs. Karon Stewart Hunt of Canyon, was listed on the Dean's Honor Roll at West Texas State University at Canyon for the Spring semester, with a grade point average of 2.25. West Texas has a 3.0 grading system.

Mrs. Hunt, who is a major in secretarial studies will be moving to Dallas later in the month with her husband John.

Gray Co. Reaches 40% Bond Goal

Mr. Floyd F. Watson, county chairman for the Savings Bonds program in Gray County, reported sales of Series E and H United States Savings Bonds in the amount of \$44,848 for April 1975. Sales for the first four months of the year totaled \$187,003 which represents 40% of their assigned dollar goal.

Sales in Texas during the month amounted to \$20,376, month amounted to \$20,376-490 while sales for the four-month period totaled \$82,368,654 with 35% of the yearly sales goal of \$234.3 million achieved.

A \$2.7 million tax reduction bill (dealing mainly with exemptions) passed the Legislature.

Salvation Army Drive Underway

The McLean Salvation Army Service Unit initiated a two week fund raising campaign with a breakfast for workers at the McLean Cafe, Friday, June 6th. According to Jay Thompson, chairman of the effort, the McLean unit is financially exhausted and that requests in several instances had been turned away. The volunteers plan a door to door campaign and suggest that donations be made at American National Bank or by mail. McLean had its last drive two years ago.

The Salvation Army demonstrated recently their capability in response to the Lefors disaster. The Corp from Pampa with help from Amarillo and Lubbock Corps spent 250 hours working, they served 2,500 sandwiches, 3,500 hot meals, 800 soft drinks, 1000 cups of coffee, donuts, cookies, and soup. They also provided over a ton of clothing, shoes, furniture and household items. Its distribution was made possible by the donations of community through service units such as McLean's.

Locally, the organization meets needs of persons passing through McLean who have some emergency or need special aid. Those presently serving on the McLean Unit committee are Jay Thompson-chairman, Boyd Meador-vice chairman Rev. Herman Bell-treasurer, Mrs. Mary Dwyer, S. A. Cousins, R. C. Parker, J. W. Meacham, and Lloyd Hunt. With your help they can help.

LETTER TO EDITOR

Something I would like to say about the work of the Salvation Army. When my husband was in the V. A. Hospital in Amarillo, the Salvation Army gave each patient in the hospital money and such articles as shaving lotion, razors, deodorants, tooth brushes and toothpaste. At Christmas they also gave fruit and candy. They were very thoughtful and considerate of the patients. I urge each person to give generously to the forth coming drive.

Dorothy Beck

Local Students On Dean's List

Gregory McBee Fabian and Roderic Harold Fabian, sons of Dr. and Mrs. H. F. Fabian of McLean, have been named to the Spring, Dean's List at McMurry College in Abilene.

Roderic is a 1972 graduate of McLean High School and is majoring in Chemistry.

Gregory is a 1973 graduate of McLean High School and is also majoring in Chemistry.

Audie Stewart Funeral Services Held Wednesday

Funeral services for Mrs. Audie M. Stewart, 72, who died Monday at McLean Hospital, were held at 2 p.m. Wednesday in First Baptist Church, Rev. Dan Beltz pastor of Locust Grove Baptist Church, officiated.

Burial was in Hillcrest Cemetery under the direction of Lamb Funeral Home. Born in Paris, Tex., she moved to McLean from Donley county in 1922. She was a member of the First Baptist Church, the Fidelity Sunday School Class and the Young At Heart Club.

She is survived by two sons Truitt and Eddie Mac, both of McLean; one daughter, Mrs. Billie Marie Barron of LaMarque; three sisters, Mrs. Cpal Blackwell of Amarillo, Mrs. Ruby Stanley of Amarillo, and Mrs. Verlin McCracken of Pampa; three brothers, Bryan McPherson of McLean, Winifred McPherson of Amarillo and Virgil McPherson of Hedley; 10 grandchildren and eight great grandchildren.

Tri-State Rodeo Finals At Dumas

Three local youths, Greg Henley, Dale Steel, and Delinda Howard, will participate in the Tri-State High School Rodeo Finals in Dumas this weekend. The finals are held each year to determine the best cowboys and cowgirls in each event in the Tri-State area. To qualify for entry in the rodeo you must be ranked in the top 15, rank being determined by your season total of points.

Delinda Howard is sitting first in Tri-State standings while Dale and Greg are placed 7th and 8th.

The team roping duo, Dale and Greg, competing in their first year of experience, picked up their latest winnings in the McLean and White Deer rodeos with second-place buckles and a McLean Rodeo time of 12.4 seconds.

Winners of the Finals competition will receive buckles and \$500 saddles.

Senior Citizens To Meet Friday Night

The Senior Citizens Young at Heart Club met Friday night, June 6 with 26 present.

Everyone had an enjoyable time. The next meeting will be Friday, June 13.

Mr. and Mrs. O. R. Blankenship have returned home after visiting in Gainesville, Florida with Dr. and Mrs. Bohannon and daughter, Renee.

McClellan Bridge Is Being Repaired

The bridge, on State Highway 273 across McClellan Creek in Gray county, is barricaded at its south end stopping traffic from McLean and at its north side halting cars from Lefors.

The structure was damaged May 28 by raging water of usually placid and dusty McClellan Creek that churned downstream from overflowing Lake McClellan following a nighttime rainstorm. Flash flood warnings, a rare occurrence in this part of the country, were issued for portions of the Panhandle during the storms.

Repair work began June 7 on the bridge and will take a few weeks to complete.

The bridge damage was discovered early the next morning when the rains were subsiding by Gordon S. Taylor of Pampa, Gray County maintenance foreman for the Texas Highway Department.

Engineers say the boiling water scoured soil away from bridge piling and forced the foundation to give away some. The impairment occurred only to supporting concrete piers under the east central portion of the bridge.

The concrete deck and metal guard rail of that portion of the bridge at first dropped about five inches. The section did not plunge much farther, but Highway Department engineers realized the bridge was not at full strength and closed it to motor vehicles.

General traffic on this portion of State 273 (more than 600 vehicles daily) is being detoured onto Farm to Market Road 291 at Alanreed, about seven miles west of McLean. Heavy loads are being routed onto State Highway 70 farther westward about 15 miles.

What will be done to the bridge that has spanned McClellan Creek for 27 years? Some additional piling will be driven into the creel bed on the outside of the east and west ends of the damaged bridge supports. That weakened portion will be jacked up. Steel beams supported by the new bridge pilings will be secured to and beneath the existing concrete cap. Shims-tapered metal pieces used to fill in space between things-will be used to help level the deck. This will cost an estimated \$10,000.

The mending work will restore the bridge to full strength. Funding for the work will most likely come from a natural disaster emergency relief account.

Visiting this week with Mr. W. G. Pearson and other relatives were his daughters Helen and family

Baseball Teams Play Shamrock

The Cubs took a pair of games from Shamrock teams Thursday night.

The Cubs and Senators played first with the Cubs coming out on top by a score of 15-3. Players were pitcher-Eric Stokes, catcher Robert Swaner, 1st base-Andy Eck, 2nd base-Steven McAnear, 3rd base-Kevin McDowell, short stop-Randall Wynn, left field-Quint Finney, center field-Craig Morris, right field-Elson Rice.

The Cubs and Giants paired off for the second game with the Cubs winning by 15-8. Players for the Cubs were: pitcher-Quint Finney, catcher-Ray Mac Blaylock, 1st base-Eddie Brooks, 2nd base-Mark Tate, 3rd base-Mike Estes, short stop-Darryl Myers, left field-Mitch Reynolds, center field-Robert McDonald, right field-Bill Billingsley, sub pitcher-Andy Eck and Robert Swaner.

Friday night the Tigers beat the Orioles 11-2. Players for the Tigers were: pitcher-Dudley Reynolds, catcher-Mike Butolph, 1st base-Brad Melton, 2nd base-Tommy Eck, 3rd base-Dennis Butolph, S.S.-Randy Suggs, left field-Rodney Teel, center field-Mark Morris, right field-Kevin Meacham, Subs-Stewart Ryan.

Thursday night the Tigen will play in McLean at 7:30 p.m.

Saturday the Cubs will play at Shamrock at 6 p.m.

McLean Homecoming Set For June 20-21

The McLean Homecoming Association has set June 20 and 21st as their Homecoming celebration. A big two day slate of activities has been planned.

On Friday, June 20 the activities will begin with the rodeo, which will begin at 8:30 p.m., followed by a get together at the country club beginning at 8 p.m.

On Saturday registration will begin at 10 a.m. and continue until noon at the high school. A Bar-be-que lunch will be served at the country club.

The general business meeting will be held at 2 p.m. at the country club. Class meetings, which will be posted, will begin at 2:30 p.m.

A dance will begin at 9 p.m. Saturday night at the country club.

Governor Briscoe has requested disaster area designation for seven more counties due to drought or storms.

from El Paso, daughter Mary Payne and Donna Pearson and families from Lubbock.

Cherrie Billingsley FBLA Members To Attend Convention

Cherrie Billingsley, Halcyon Back and Mrs. Jan Branson of McLean High School Chapter of the Future Business Leaders of America will leave on June 11 for Miami Beach, Florida to attend the twenty-fourth annual FBLA National Leadership conference. FBLA is the national student organization for high school students who plan to enter careers in business or business education. The national organization has chartered over 500 chapters in the United States and has membership of over 1,000 students. Approximately 2,300 high school members and advisors from over the United States are expected at this year's conference. The major business of the meeting is the election of national officers for the 1975-76 school year and a series of competitive events between chapters and bet-

HALCYON BACK

ween state delegations. Events include public speaking, typing, accounting, a spelling relay, parliamentary procedure demonstrations, and the selection of a Mr. and Miss Future Business Leader. Awards for national winners will be presented at a formal Awards banquet on June 21. The McLean girls will participate in discussion groups, business meetings and general sessions. Miss Back will enter the scrap book in the national contest as it placed first at the state convention. Miss Billingsley, who was elected to serve as State FBLA secretary will be a part of the Texas State FBLA officer delegation.

Some people say that a lion will not attack a true prince.

Market Report

Meat prices are rising again above last week's levels. With the upward trend in prices affecting beef, pork and poultry, the only apparent specials this week are occasional good buys on turkey and forequarter beef cuts, such as chuck roasts and steaks getting special attention in some markets, along with ground beef, liver and stew meats.

At pork counters, good values may be found on ham portions, smoked picnics, frankfurters and liver," the consumer marketing information specialist added.

"More chicken is bought in the summertime, so specials on this product are few. Mrs. Clyatt, with the Texas Agricultural Extension Service, the Texas A&M University System, also reported varying egg prices. She advised consumers to compare prices and sizes before buying.

Medium-size eggs are providing cost appealing buys.

At produce counters, items in good supply at most economical prices include orange bananas, strawberries and pineapples.

Also cantaloupe, honeydew melons, avocados, and lemons--along with cabbage, cucumbers, red and russet potatoes, radishes and green onions.

Peaches are available on some produce counters, but prices are high.

CONSUMER WATCHWORD
A can of chili and beans costs more than a can of beans and chili. If a label says chili and beans, it means the can contains more chili than beans--and chili is generally higher in price than beans.

Whatever the dominant ingredient of such a product, it must be listed first.

Sorority Plans Walk-A-Thon

The Beta Sigma Phi Sorority have organized a local chapter and met on Tuesday.

The sorority is planning a Walk-A-Thon on June 29th. Proceeds from the walk will be donated to a worthy cause. Walkers will walk to the 7 mile bridge north of the city. Anyone needing more information may call Mary Lou Glass.

Officers are president-Evelyn Chamberlain, vice president-Shirley Stokes, Extension Chairman-Sonia Heasley, recording secretary Loyce Parker, corresponding secretary-Jeannie Smith, treasurer-Mary Lou Glass.

Members are Naomi Ashcraft, Nancy Billingsley, Linda McDonald, Martha Mears, Michelle Quibodeaux, Wanda Reynolds, Linda Smith, Betty Thockmorton, and sponsor Wanda Lamb.

DELINDA HOWARD

Delinda Howard Is Outstanding Steer Rider

Top rodeo fans across the Tri State area recognize Delinda Howard as being an outstanding steer rider. Delinda has certainly lived up to their expectations. She now is sitting first in Tri-State High School Rodeo Association standings as they go into the finals this weekend at Dumas.

Adding another 12 points to make her season total 74 14/15 by claiming first place buckles at both the White Deer and Clayton, N.M. rodeos two weekends ago, Delinda has outdistanced all other contestants in her field by over 13 points. Delinda, the 17 year old daughter of Mr. and Mrs. J. F. Howard of El Paso Camp, has racked up a total of 17 buckles in only two years of rodeoing experience 12 of which she won this year.

A three year member of

the McLean High School Rodeo Club, Delinda served this past year as the club secretary. Miss Howard runs a busy schedule as she is an active participant in basketball, track, and various other high school activities during the school year.

Delinda expresses her enthusiasm for the coming year and regrets that it "will go by all too fast."

The local cowgirl will pose tough competition for the championship prize of a buckle and \$500 saddle.

H. S. Rodeo Winners Named

Winners of the saddles given at the High School Rodeo held recently in McLean were All-Around Cowboy, Monte Cluck of Gruver and All-Around Cowgirl, Koell Primrose of Tucumcari, N.M.. Winners of the boys trophies was Muleshoe and the girls trophies was a tie between Tucumcari and Gruver.

Sportsmanship awards were given to Mayry Lee Adams of Claude and Kelly Freeman of Whitewater.

Winners of the first place buckles were Lea Sage of Gruver, Koell Primrose of Tucumcari, Shonda Johnson of Wheeler, Debra Magness of Happy, Debbie Jones of Claude, Greg Tollison of McLean, Micky Parsons of Dumas, Sherman Parsley of Muleshoe, Monte Cluck of Gruver, Mike Flores of Stratford, and Bill Blasengame of Hereford.

Winners of the second place buckles were Nanelle McCloy of Gruver, Mary Shipp of Clarendon, Lori Primrose of Tucumcari, Valerie Tipps of Happy, Lea Sage of Gruver, Dusty Johnson of Shamrock, Rocky Jines of Perryton, Mike Flores of Stratford, Eddy Mardis of Muleshoe, Monte Cluck of Gruver and Greg Henley and Dale Steel of McLean.

Winners of third place buckles were Micky Parson of Dumas, Monte Cluck of Gruver, Dan Ellis of Muleshoe, Dusty Johnson of Shamrock, Kelly Taylor of Lubbock, Lori Primrose of Tucumcari, Leslie Cash of Tascosa, Debbie Jones of Claude, Lee Ann Williams of Farwell, Koell Primrose.

The Egyptians believed that red jasper could make young girls beautiful and graceful.

Arts -Crafts Show To Be Held Soon

The Arts and Crafts Show sponsored by the Pioneer Study Club to be held in the museum building next door to the McLean Cafe, is asking all people interested in displaying their painting or other articles to bring them Friday morning, June 20.

Members on the committees are art- Bonnie Fabian, Katy Graham, Evelyn Stubblefield and Avis Meixner; Crafts-Clara Mae Hupp, Jan Johnson and Lucille Jones; Historical- Alice Short Smith, Shirley Stokes and Mary Dwyer; Surprise Corner-Vera Back; Flower Arrangement-Leona Sitter and Wanda Lamb; Needlework-Ruth Magee, Judy Orrick and Nancy Billingsley; Painted China-Mary Lou Glass; Crafts of Long Ago-Margaret Coleman, and Paralee Coleman; Herbs, Relishes, Bread-making-Mary Emma Wood and Molly McDowell.

The Swap-a-Hobi Club will have a display of hobbies. Other painting will be displayed at the "Young At Heart Club Building.

Larry Yawn of Austin is new president of the 160,500-member Texas State Teachers Association.

A SOLEMN CHARGE; "PREACH THE WORD", OBEYED

charge thee therefore before God, and the Lord Jesus Christ who shall judge the living and the dead at his appearing and his kingdom; PREACH THE WORD; be instant in season, out of season; reprove, rebuke, exhort with long suffering and doctrine. At the time will come when they will not endure sound doctrine; but after their own lusts shall they heap to themselves teachers, having itching ears; and they shall turn away their ears from the truth, and shall be turned unto fables." (2 Tim. 4:1-4).

ROBERT GREGG

Lawton, Oklahoma everyone to hear the GOSPEL OF CHRIST proclaimed in its fulness with nothing added or subtracted, in love and simplicity, in a series of gospel meetings June 16th through 22nd. Services will be at 8:00 p.m. Monday through Saturday and at 10:00 a.m. and 6:00 p.m. on Sunday. The speaker in this series of meetings will be Robert Gregg of Lawton, Oklahoma. He has been preaching the unsearchable riches of Christ (Eph. 3:8) for over twenty years. If "plain Bible preaching" appeals to you, don't miss one of these services for a "thus saith the Lord" will be said for everything taught. God's plea is our plea. "Come now, and let us reason together, saith the LORD: though your sins be as scarlet, they shall be white as snow; though they be red like crimson, they shall be as wool" (Isa. 1:18). Any question or questions you may have on any Biblical matter will be welcomed and a scriptural answer given.

STATE CAPITAL
Highlights
AND Sidelights
 by Lyndell Williams
 TEXAS PRESS ASSOCIATION

AUSTIN — A threatened slowdown of some doctors in major cities in protest to rising medical malpractice insurance costs was eased with signing of two new legislative acts.

Texas Medical Association's House of Delegates went on record against the work stoppage and said the short-term laws should be given a chance to work.

Gov. Dolph Briscoe urged immediate start of a study of the overall problem by a blue-ribbon panel of 18.

Former University of Texas Law School Dean W. Page Keeton was designated chairman of the Medical Professional Liability Study Commission established by one of the new acts.

The bill would also create a pool or joint underwriting association to issue policies up to \$300,000.

Another would authorize the State Board of Insurance to set malpractice liability rates and cut the statute of limitation on filing of suits to two years.

Both acts will expire in 1977. A bill pushed by doctors and hospitals to place a \$500,000 limit on claims in malpractice actions failed to clear the House of Representatives.

The Commission will re-

port its findings and long range recommendations by Dec. 1, 1976.

Legislature Closes

Texas has a new \$654 million public school finance act and authorization for a Public Utilities Commission to regulate telephone rates and services and to control other utilities (except gas) in rural areas.

Cities may elect to come under the Commission after two years with utilities other than telephones. Gas will be regulated by the state Railroad Commission.

Both the school finance and utilities acts were among the last major pieces of legislation approved by the 64th Legislature which ended its session at midnight June 2.

A record \$12.1 billion appropriations bill passed by lawmakers on final night of

NONE MORE VALUABLE

the session has been certified by Comptroller Bob Bullock as within anticipated income. Briscoe has until June 22 to decide which of the legislature's acts he will sign and which he will veto.

Hearing Recessed

A Railroad Commission hearing on phasing out natural gas as a boiler fuel has been recessed for 30 days after three days of testimony and opening statements.

Some spokesmen said converting plants to other fuels would be extremely costly.

Others urged that any phase-out should be "orderly" and with attention to what effect the changeover might have on rising consumer rates.

Courts Speak

The State Supreme Court suspended the Southwestern Bell \$45 million intrastate long-distance rate increase and set a hearing June 18 on the attorney general's suit to block the increase.

The Supreme Court will hear arguments in a McAllen city and school district appeal from lower court rulings that a nursing home operated as a public charity is exempt from property taxes. The local officials disputed the home is a true charity.

The Court of Criminal Appeals reversed the life sentence given a Dallas man in a murder case due to an inadequate definition of circumstantial evidence by the trial judge.

An Austin district court jury sentenced Robert Kleasen to death in the butcher-murder of a young Mormon missionary.

AG Opinions

Public school teachers with contracts for the following school year cannot collect special unemployment assistance benefits, after all, on signing of the new school finance bill, Atty. Gen. John Hill held. Before passage of the bill, with its prohibition on the benefits, Hill had held the teachers eligible.

In other recent opinions, Hill concluded: The House speaker can set reasonable and expeditious procedures for release of information concerning representatives' records.

College faculty members are entitled to information and recommendations in their personnel files on tenure and performance evaluations.

A missing page out of a budget received by the com-

A. C. To Offer Driving Course

Defensive driving, a course intended to save a driver his money as well as his neck, will be offered by Amarillo College June 14.

The one-day Community Service program, to be instructed by Walter Eubanks, chairman of public safety education at AC, will be held on the West Campus from 8 a.m. to 5 p.m.

Persons satisfactorily completing the course will receive a 10 per cent discount for three years on auto liability, collision and medical payment coverages written by insurance companies who are rate-regulated by the State Board of Insurance.

Those interested may register before June 14 in the registrar's office at either the Washington Street or West campus Administration Buildings. Either office may be called for more information.

ptroller does not prevent its being certified where meaning is clear.

A Dallas college district must obtain a permit from the Antiquities Committee for demolition of three historic buildings, regardless of destruction contracts.

Assistant county purchasing agents are subject to the county civil service act, but adult probation officers and assistant county auditors are not.

Project Approved

A \$93.1 million federal aid program for urban transportation systems won Texas Highway Commission approval last week.

The program includes 272 miles of street and highway improvements, hike and bike trails and bus purchase for Houston. Local officials picked projects for inclusion.

More than 300 jobs will be provided by the program in 128 metropolitan areas.

The Highway Commission also approved a \$2.7 million federal expenditure for 131 safety projects on county roads.

Comptroller Bob Bullock was picked as vice chairman of the Multistate Tax Commission executive committee. Bullock said he hopes to strengthen coordination in tax administration on large firms.

Jack Warren of Tyler resigned as state Republican chairman. A June 29 meeting of the GOP executive committee will name his successor.

The State Democratic rules sub-committee met here June 7 to consider new delegate selection rules.

The Legislature's scorecard: 3,375 bills introduced 761 passed — plus constitutional revision resolutions and four other proposed constitutional amendments.

Highway Dept. Accept Bids On Interstate 40

The Texas Highway Department received bids on a Highway construction project in Gray and Donley counties, which is a part of the Nation-wide Interstate System. The limits of this contract, which is a portion of Interstate 40, is from one mile west of Alanreed to East of Jericho. This project is the first stage of a three stage construction project on this location. The project will consist of only grading and structures and the completion will be performed in subsequent stages.

The Dahlstrom Corporation from Dallas, was awarded the contract as low bidder at \$3,227,417.74. Construction engineering will be handled by the Pampa office of the Texas Highway Department, under the supervision of Mr. T. R. Kelley, supervising resident engineer.

A pre-construction meeting was held at the Texas Highway Department office in Pampa on June 4. Construction details, safety, progress schedules and various aspects of the project were discussed. Officials of the Texas Highway Department and the Dahlstrom Corporation stated this construction would begin in the immediate future, as soon as all the preliminary work is completed, and completion would be in the early part of 1976.

Mr. Kelley stated that traffic would be routed through the project during the entire construction, and motorists passing through are requested to be extremely careful and be alert for special detours, barricades and warnings which will be prominently displayed day and night. Every report will be made to promote safety and minimize inconveniences to the traveling public. The cooperation of everyone traveling in this area is sincerely requested.

Morse Haynes Goes To Boys State

William Morse Haynes is attending the thirty-fifth annual American Legion Boys State sponsored by the Department of Texas and held on the Campus of the University of Texas, which got underway Wednesday as 900 high school boys from all parts of Texas, and two from Mexico, James W. White, Department Commander, announced.

Boys State helps to develop civic leadership and pride in American citizenship. This program arouses a keen interest in the detailed study of our government. These civic workshops stress the importance of maintaining our form of government and bring better understanding of our national traditions and beliefs to the more than 28,000 young men who are participating this year.

In Boys State The American Legion provides the type of program where the young citizen has the opportunity to learn for himself that his government is just what he makes it. The boy learns to do by doing.

Highlight of Boys State will be a trip to the Capitol on Tuesday morning where each elected Boys State Official will be given an opportunity to serve in his respective office for a day.

Haynes is the son of Mr. and Mrs. John M. Haynes.

Buy Beef For Father's Day

Sure to Satisfy

There's no doubting it, Beef on Father's Day is sure to bring a smile to Dad's face. And, with Father's Day, June 15, just around the corner, alert shoppers should be taking advantage now of the many beef specials at the meat counter.

This advice is passed along by the McLean Cowbelle. "Beef has always been on top of the list when it comes to man-pleasing meals throughout the year. So can there be a better way to satisfy Dad on his special day?" For the 22nd year, the American National Cowbelle and the Beef Industry Council of the Meat Board are urging American families to honor Dad on his day with beef.

And there just couldn't be a better time to buy beef. Large supplies of beef are now available and prices are attractive. As in 1974 beef is turning out to be the inflation fighter at the checkout counter.

"Beef for Father's Day has become an American food tradition. And no wonder. Beef is America's favorite food. Always available. Always a cut for every budget. Always different. Always sure to satisfy Dad and the whole family.

The American National Cowbelle and the Beef Industry Council advise shoppers to keep an eye out for the colorful displays that will guide them to their favorite store's Beef For Father's Day specials.

Visitors in the home of Ruby Hill last week were Mrs. Ruby Dunlap of Riverside, California, Mr. and Mrs. Buddy Hill of Gentry, Ark., R. C. Hill of Amarillo and also a host of friends and relatives.

Mr. and Mrs. John R. Bible and Karie of Ft. Worth are visiting this week in the homes of Jake Bible, James Barker and Jim Barker.

A weekly public service feature from the Texas State Department of Health

Accent on Health

J.E. PEAVY, M.D., Commissioner of Health

You don't have to let mosquitoes take a bite out of your summer fun if you will take a few preventive measures in advance.

This is the word from your Texas State Department of Health, which has long experience in this field.

Bountiful--and--frequent--spring rains throughout most of Texas have left the state ripe for mosquito infestations in practically all areas. Perhaps you've already seen and felt evidence of a mosquito hatch in your own yards, or in a camping or picnic area.

It only takes a little standing water and some adult mosquitoes to bring on the pain, discomfort, aggravation and sometimes disease from the pesky insects.

Water in which to pass their early life stages is a necessity for mosquitoes. Adult flying mosquitoes frequently rest in grass, shrubbery or other foliage but they don't develop there. In walking through such areas you can run into a swarm of them, leading you to believe they hatch out there.

Some mosquitoes lay their eggs in standing water where they hatch in a day or two. Other mosquitoes lay their eggs in old tires, tin cans, or other water-holding containers in which they may remain unhatched for weeks or months until they are covered with water.

With both types of mosquitoes, the wigglers or larvae grow quickly and turn into tumblers or pupae. Soon the skin of the tumbler splits open and out climbs another hungry mosquito--looking for you as its victim.

In addition to being pests, says the State Health Department's Vector Control Division, mosquitoes can spread disease. Such diseases as encephalitis, yellow fever, dengue fever and malaria are common diseases spread by the flying insect. They are major health problems in other parts of the

8. Fill holes in trees with sand or mortar, or drain or spray them as required.

9. Stock ornamental ponds with mosquito-eating fish.

10. Clean and drain evaporate coolers frequently.

These tips will help you prevent mosquitoes from reproducing. Your health department may have a summer spraying program to rid infested areas of the insects. You can keep your window screens in good repair, screen fireplaces and other openings and also kill all mosquitoes inside your residence with peeper insecticides.

What if you're going into areas where mosquitoes may be prevalent? There are several repellants on the market which can be used on exposed areas of your skin to drive the insects away. Used on clothing, they may also protect you

from chiggers and ticks. The State Health Department wants you to have a safe, happy summer and reminds you that now is the time to prepare for it when mosquitoes are concerned.

If you have the trees but the neighbor gets the leaves help him to clean them up.

Dear Friends,
I would like to say Thank You for all the kindness and expression of friendship you gave me these last two years!

I have appreciated each thing you have done. It is a blessing to have friends and I will cherish many of the friends and memories I have left in McLean.
And a special thanks to all the great students, which I will certainly miss!
Norma Reed

We would like to express our appreciation and gratitude to a wonderful community. The many thoughtful kindnesses extended during the recent illness and death of Leamon Andrews made our loss easier to bear. We are even more grateful for the things that were done in his lifetime. He loved McLean and it's people and you gave him many happy years. May God bless each and everyone of you.

Leamon Andrews

Farmers Can Report Damage

A tornado has caused severe damage in the south area of the county. Farms suffering severe damage may be eligible for assistance under the Emergency Conservation Measures Program administered by the county Agricultural Stabilization and Conservation Service (ASCS) if the damage:

1. Is unusual in character and is not the type which would recur frequently.
2. Materially affects the productive capacity of the farmland.
3. If not treated will impair or endanger the land.
4. Will be so costly to correct that the farmer cannot do it without Federal assistance and is truly an emergency condition for the farmer. That is, it is so severe that the farmer cannot correct it using his normal labor supply and farm equipment that is normal for the area and his other resources are such that assistance is required to

John C. White, Commissioner

It's Dairy Month... Pecan Prospects... Crops Continue to Progress.

This is Dairy Month in Texas. Now is the time to enjoy an extra glass of milk every day; dairymen hope you enjoy an extra glass of milk every day of the year.

Texas is in the top 10 in dairy states in the nation. Texas ranks ninth in total milk production, and it also ranks ninth in milk cows that have calved. The dairy industry is an integral part of the Texas agricultural economy. Milk production in 1974 totaled more than three billion pounds. Most of the state's dairy production is in the eastern half. Hopkins County is the state's leading county in milk production. Other counties in the top 10 include Erath, Wise, Johnson, Grimes, Comanche, Cooke, Franklin, Archer, and Wood.

The top 10 counties in milk cows that have calved are Hopkins, Erath, Wise, Grimes, Johnson, Comanche, Cooke, McLennan, Wood, and Franklin.

Dairy producers through the years have consistently taken the lead in producing a top quality product. They have also been leaders in developing marketing programs.

As is the case with all agricultural producers, dairymen are caught in a cost-price squeeze. They have watched their costs of production skyrocket while the price they have received has not kept pace.

As a result, dairymen are continuing to search for new ways to cut costs of production and to increase efficiency. However, most dairymen are now doing about all that can be done in those areas.

Meanwhile, you can help the dairy industry as well as helping yourself to better health by drinking an extra glass of milk every day this month, and every day throughout the rest of the year.

TENT CATERPILLAR, walnut caterpillar, or webworms are causing damage to pecan trees and other trees in many parts of central and south central Texas. But in spite of this and recent wet weather, the pecan crop continues to make progress.

A survey was made recently of the pecan producing areas in West Texas by the Texas Crop and Livestock Reporting Service. Pecan trees in commercial orchards in that area total 401,900. Commercial orchards included in the survey each had 20 trees or more.

The 401,900 trees are on 7,520 acres in 19 West Texas counties. This represents an average of 53.4 trees per acre.

Growers intend to plant about 1,250 trees during the rest of this year. Virtually all West Texas pecan trees are under some type of irrigation.

Counties involved in the survey are Andrews, Brewster, Crane, Culberson, Ector, El Paso, Glasscock, Hudspeth, Jeff Davis, Loving, Martin, Midland, Pecos, Presidio, Reeves, Terrell, Upton, Ward, and Winkler.

WHILE COTTON AND SORGHUM planting for the state is nearing completion, harvest of wheat and oats is well underway. Rains have delayed harvest to some extent. Harvest thus far is only about half that compared to a year ago for wheat. Oat harvest is less than a fourth completed; a year ago about half that crop had been harvested. Flax harvest is complete.

Rice planting is finished; soybean planting has passed the halfway mark; peanut planting is also more than 50 per cent complete.

restore the land.

A farmer qualifying for ECM assistance may receive up to 80 percent of the cost for performing the following types of measures:

1. Removing debris from farmland.
2. Grading, shaping or re-leveling severely damaged farmland.
3. Restoring permanent fences.
4. Restoring conservation structures and other similar installations.

ADVANCE REGISTRATION EASES ENROLLMENT HASSLE
College students who are confused and frustrated by fall semester registration may wish to take advantage of advance registration at Amarillo College, beginning June 9 and running through August 15.

New students will report to the registrar's office in the Washington Street Administration Building for admission clearance. A complete listing of the courses offered by the College is available.

CATTLE PRICES
 In the face of a growing shortage of choice beef out of the feed lots we still have a lot of forecasters predicting gloom for the cattle industry for 1975. They base this prediction on the fact that grass cattle will ruin on market. Most of this gloomy forecast is based solely on the big increase of numbers of cattle destined to come on the market this year.

Recently I looked at figures that showed a 70,000 head increase of numbers killed last week, over a year earlier figures, but the total pounds of beef produced was little more than a year earlier. This is the point a lot of forecasters are missing. Much of this pessimistic data comes from Gov. figures. It seems that many reports this information with a bit of satisfaction.

Last week I visited with a packer buyer for a major packing company. I asked him if he thought we might see a slight drop in cattle prices in August as we begin to slaughter cattle that went into the feed lot in March and April. His reply was that he earlier had thought there would be a drop but he has now changed his mind. He pointed out the fact that a lot of these cattle placed on feed in March were being slaughtered with less than 100 days on them. Every feed lot in one country is current. There is no over fed cattle. Last year at this time about three-fourths of all cattle slaughtered came out of the feed lot. Today less than fifty percent of the cattle killed comes out of the feed lot. Numbers in the Panhandle feed lots have dropped to less than one-half of a year ago. Total cattle on feed in U. S. is less than 60 percent of a

It took two years to work off the excess of cattle in feed lots.

In my opinion its going to take several months to crank up the feeding industry again. I do think you will soon see some downward market pressure from excessive numbers of grass cattle. The small packers to the east will not be able to set the price like they did last year. They will have some competition from feeders that are now coming out of the feed lots making handsome profits. The cow-calf people will still be in the cellar this fall.

FIRE FIRE FIRE

The 1975 cars should not be driven into a freshly harvested or partially harvested wheat field. Why? Most older model cars presented some fire hazards because of the muffler and exhaust system.

The catalytic converter on 75 models is an almost sure shot to start a fire. The inside temperature reaches over 1200 degrees F. on a catalytic converter. For this reason these devices are mounted lower and away from the lower part of the car so the heat will dissipate and not heat the interior of the car. The outside temperature of this device will quickly ignite a fire hazardous material in nothing flat.

Even with this warning we

Mrs. Carl Phillips returned home Tuesday from the

are going to see some good Panhandle wheat crops go up in smoke because this information will never reach five percent of the wheat owners in the Panhandle.

HARVEST

Wheat harvest is just around the corner. Even with severe hail in some parts of the county, we should still make a much better than average crop. We believe both irrigated and dry land wheat would average twenty bushels even with the loss by hail.

Due to a very dry early 1974, many acres that would have been planted to dryland milo in 1974 was later summer fallowed. Last fall this additional acreage was sown to wheat and added to our normal seeded wheat acreage. In my opinion our present wheat acres exceeds 110,000 acres, should we harvest twenty bushels per acre and assume a value of three dollars per bushel. This would bring in close to seven million dollars to Gray County. Any industry that brings in seven million dollars of money imported from Russia, China and the organization or petroleum exporting countries has many beneficial affects. In twelve more months we could bring in another seven million. The nice thing is the fact ours is a non-depletable resource if farmed wisely. This creation of new wealth comes from rain, wealth comes from rainfall, sunshine and our good Pullman Clay loans.

One exception to this is our irrigated wheat which does deplete the underground water level. However, the acreage of irrigated wheat is less than twenty per cent of the total acreage.

Even though this will add a lot of dollars to the county, it does not mean the farmers are getting rich.

Nora Martin of Wagner, Okla. is visiting her sister, Mrs. W. H. Miller this week.

HEART ASSOCIATION
