P. College Registration Set

Registration for the 1976-77 fall semester at Frank Phillips College, "The Fastest Growing College in West Texas", has been scheduled for August 25 and 26. Classes will begin on Monday, August 30, at 8 a.m.

Evening school students are those who are taking night classes only. All evening students are urged to register on the evening of August 25 or 26 between 6:30 and 7:30 p.m. Those evening students who find it impossible to register at those times should register at the appropriate time during the day as governed by the last name initial.

Day students or combination day and evening students, full-time or part-time, are to register with their alphabetical groupings, and will not be allowed to register on the evening of August 25.

All persons who fail to register at the prescribed time and date as indicated on the schedule above should report to the registrar's office in the Administration Building as soon as possible to start registration procedures.

The last date to register is September 10.

No person will be admitted to a Monday-Wednesday - Friday class after September 13, or to a Tuesday-Thursday class after September 14, without written permission from the Academic Dean.

Academic college transfer programs offer more than 50 major fields of study, including pre-medicine, pre-law, engineering, agriculture, art, speech, and psychology.

Vocational - Technical programs of one or two year certification or associate degree status include animal health technology, welding, cosmetology, and engineering technology, as well as secretarial sciences.

Veterans benefits are approved, and all financial aid inquiries are welcomed. Work-study programs, scholarships, and loans are available to eligible students, and the campus has two student-designed dormitories.

Further information may be obtained by contacting the Director of Admissions, Frank Phillips College, P.O. Box 111, Borger, Texas 79007, or by calling the college.

It is harder to command than obey." Nietzsche

Co. 4-H Fair Set For August 14

The Gray County 4-H Fair will be held August 14 in Pampa and any 4-H member is eligible to exhibit, not having more than one entry in each class. All articles entered must be the work of the exhibitor, and must be completely finished and done since August, 1975 except in livestock showmanship.

In classes where there is only one exhibitor, and no competition, the judges shall award premiums in accordance with merits of the exhibitor. Each entry must be labeled with the name of the exhibitor, club, entry class and name of the product. Ribbons will be awarded in the first five places.

A 4-H Bake Show will be held in conjunction with the fair. There will also be special categories and awards for senior citizens 60 years of age and older.

All entries are due from 2:30 until 4:30 p.m. on Friday, August 13 except baked goods and animals. They are due by 9:30 a.m. on Saturday, August 14.

Public viewing of the exhibits will be from 1 to 4 p.m. on Aug. 14.

Saturday, Aug. 14 at 4 p.m. the awards program will be held. Champions of all divisions will be announced. Grand champion and reserve champion awards will be given to the two 4-H participants who receive the highest total points on the point system.

The McLean 4-H would welcome any new members. To be eligible a boy or girl must be nine years of age and not over 19. All new members are asked to join by September 30. There are many different projects a boy or girl can be involved with.

Jack Higtower Plans Covered Dish Luncheon

Congressman Jack Higtower is planning a Panhandle-wide covered dish picnic. Everyone is invited to bring a dish and visit with him. The picnic will be held Saturday, August 21, 4:00 p.m. Ellwood Park, Amarillo. Iced tea and coffee will be furnished.

Congressman Higtower is looking forward to seeing you!

Mr. and Mrs. E. M. Bailey visited in the Curtis Southerland home at Wellington on Sunday.

William (Bill) Morris Buried Monday

Graveside services for William Walter (Bill) Morris, 56, of McLean were held at 3 p.m. Monday in the Hillcrest Cemetery, with Rev. Z. A. Myers of the McLean Assembly of God Church officiating. Burial was by Lamb Funeral Home.

Mr. Morris was a native of Mobeetie. He was found dead in his home Thursday.

He is survived by his brother, Val of McAllen, and three sisters, Mrs. Mildred Ross of Mission, Mrs. Julia May Lane of Beaumont, and Mrs. Georgianna Gipson of Seagoville.

Jonnie Ruth Howard Wins Art Sweepstake

Jonnie Ruth Howard of Stinett, who had entered 12 paintings in the Phillips Free Fair of 1976, won 4 firsts, 7 seconds, and 1 third. She was sweepstakes winner in Adult Art Division, having most points (27) for ribbons won. The Fair was sponsored by the Phillips Lions Club and was held July 27 through 24th.

Mrs. Howard, the daughter of Mrs. Ruth Boles of McLean, entered last year and won 4 first, 3 second and "Outstanding Work of Art" award.

Eddy Finley Receive Award

Eddy Finley, son of Mr. and Mrs. Jess Finley of Alanreed, was recognized for outstanding service to vocational agriculture and the Future Farmers of America, and was presented an Honorary State Farmer Degree by the Texas Association of Future Farmers of America last week in Fort Worth, at the Vocational Agriculture Teachers Association State Conference.

Finley was also elected Vice-chairman of the VATA Area I Association. He is currently teaching at Tascosa High School where the Tascosa FFA received the Superior Rating by the National FFA Foundation.

Mrs. Arthur Moore and Mrs. Bob Clifford and Cathy of Quinland attended a bridal shower honoring Earletta Alexander, bride-elect of Richard Moore, at White Deer, Sunday, August 1.

A. C. To Have Electronics Dept.

The 1976 fall semester will mark the beginning of a new Electronics Broadcast Engineering program at Amarillo College. This new two-year program is designed to prepare the technician for a career in the broadcast industry. Students completing this program shall be capable of installing, repairing, and maintaining electronic equipment used to record to transmit radio and television programs. The Associate in Applied Science Degree will be awarded for the successful completion of the program.

This new program will allow Electronics students at Amarillo College to choose from five two-year degree programs. Programs are also offered in Electronics Engineering Technology, Electronics Computer Technology, Biomedical Electronics Technology, and Electronics Technology.

Those who plan to enroll in any of these Electronics Programs should begin the registration procedure now. Classes will start August 30. For further information, contact Dr. A. F. Adkins, Chairman, Department of Electronics, Amarillo College.

McLean to Have Jubilee Aug. 21

A Derby Town Jubilee, featuring gospel music, will be held Saturday, August 21 at 7:30 p.m. in the McLean School auditorium.

The jubilee, which will be sponsored by Christ's Ambassadors, will feature gospel instead of the usual country and western style music. The same admission will be charged.

TEXAS TOPS IN CATTLE SLAUGHTER---In 1975 Texas became the top state in the number of cattle slaughtered, according to a livestock marketing specialist for the Texas Agricultural Extension Service. The information is based on cattle slaughter at the 82 federally inspected slaughtering plants in the state. Twenty-eight of these plants slaughtered more than 50,000 head each and accounted for 11 per cent of the total federally inspected cattle slaughter. Following Texas in the number of cattle slaughtered in federally inspected plants are Nebraska and Iowa.

Tigers to Play Scrimmage Aug. 20

The McLean Tiger fans will be able to see the Tigers in action for the first time for the 1976-77 season of Friday, August 20 at a scrimmage game with River Road. The game will be played in McLean beginning at 6:15 p.m.

Everyone is invited to come out and watch them play.

McLean Station Closed by Bullock

Comptroller Bob Bullock said that agents from his Amarillo District Office have seized a tractor-trailer truck and sealed the pumps at a McLean service station as a first step in an effort to shut down illicit "drip gas" operations in the Panhandle.

Bullock said the truck, valued at \$5,000, and its 4,850-gallon load of drip gas, valued at \$2,000, will be held pending an audit for motor fuel tax liability.

If the taxes are not paid the truck and its load will be auctioned off, he said.

The Comptroller explained that Panhandle oil field operators have been plagued by thefts of "drip gas", which is rough fuel that condenses naturally into collection containers in the oil field. Much of the stolen drip gas finds its way into service station pumps, he said.

"If it's mixed with regular gasoline, you might not notice," Bullock said. "But if it's sold straight, it causes engines to knock badly. All we have to do then is follow the line of complaining motorists."

He said the truck's operator was charged with transporting motor fuel without a manifest and without a motor fuels permit. The service station pumps were sealed after the owner could not prove taxes had been paid on their contents, he added.

Bullock said his office is cooperating with Gray County authorities in connection with any criminal charges that may be filed.

Blood Pressure Clinic Friday

A blood pressure clinic will be held Friday, August 13th from 1 to 4 p.m. Everyone is welcome to come and have your blood pressure checked.

McLean School Classes To Begin Wednesday, Aug.

The McLean School will begin classes at 8:45 Wednesday, August 18th for this school term according to Homer Jefferson, school superintendent.

Students will register on Monday, August 16. The first thru fifth grades will register 9 to 12 a.m. and sixth thru eighth grades will register 1 to 3 p.m.

At the high school the seniors will enroll first instead of the freshmen as it stated in last week's paper, according to Jay Smith high school principal. Seniors will enroll 9 a.m. to 10:30 a.m. the juniors 10:30 a.m. to 12:00 p.m., the sophomores 1 p.m. to 2:30 p.m. and the freshmen at 2:30 p.m. to 4 p.m.

The school buses will run their regular schedule on the 18th and the school cafeteria will be open.

Swimming Pool To Close Tuesday

The country club swimming pool will be open next Monday, August 16. The swimming pool will close on Tuesday, August 17 for this summer.

If you have left towel or clothes at the pool please pick them up before Tuesday.

Roderic Fabian To Receive B. A. From McMurry

Roderic Harold Fabian, son of Dr. and Mrs. H. F. Fabian of McLean, is a candidate for graduation at McMurry College in Abilene, Texas.

He is due to receive a B.A. degree in Chemistry at commencement exercises at 8:00 p.m. on Friday, August 13, in the Radford Memorial Student Life Center on the McMurry Campus. He will graduate Summa Cum Laude.

Dr. Jarrett E. Williams, pathologist at Hendrick Memorial Hospital in Abilene will deliver the commencement address.

Rod is a 1972 graduate of McLean High School. His minor is Biggley.

NEWS OFFICE TO BE CLOSED FRIDAY
The McLean News Office will be closed all day Friday, August 13.

BRIGHTEN UP YOUR MORNING--Breakfast doesn't have to be a dull meal. The Texas Department of Agriculture home economist suggests serving Cinnamon Surprise Buns. The "surprise" is that the marshmallow in the center of the bun melts during baking, leaving a hollow bun coated with cinnamon-flavored syrup. Scrambled eggs, chilled watermelon-cantaloupe salad and tall glasses of ice-cold milk round out the meal.

Texas Department of Agriculture - John C. White, Commissioner

CINNAMON SURPRISE BUNS

- | | |
|----------------------------|------------------------|
| 1 pkg. dry yeast | 2 eggs, beaten |
| 1/2 cup warm water | 1/2 tsp. vanilla |
| 1 cup milk, scalded | 24 large marshmallows |
| 1/4 cup sugar | 1/2 cup chopped pecans |
| 1/4 cup butter | 1/4 cup melted butter |
| 1 tsp. salt | 1/2 cup sugar |
| 3-4 cups all-purpose flour | 1-1/2 tsp. cinnamon |

Dissolve yeast in warm water. Add milk, 1/4 cup sugar, butter, salt, eggs, vanilla and 1-1/2 cups flour. Mix well. Add enough of remaining flour to make a soft dough. Turn out onto floured surface and knead about five minutes. Place dough in oiled bowl; cover and let rise until double in bulk, about one hour. Punch down dough; place on floured surface and roll out 1/4-inch thick. Cut into 4-inch circles. Combine 1/2 cup sugar, cinnamon and pecans. Dip marshmallows into 1/4 cup melted butter, then into sugar mixture. Place marshmallow in center of each circle of dough. Wrap dough around marshmallow, pinching together securely at bottom. Dip top of roll into butter and then into sugar mixture. Place in greased muffin tins, cover and let rise until doubled. Bake at 350 degrees for 20 minutes or until lightly browned. The marshmallow will melt, leaving the center of the bun hollow and coated with syrup. Yield: approximately 24 buns.

For additional wheat recipes send a postcard request to Commissioner John C. White, Texas Department of Agriculture, P.O. Box 12847, Austin, Texas 78711.

Amarillo College Orientation Monday

College life will be previewed by all first-year Amarillo College students during orientation sessions which begin Aug. 16 on the Washington Street campus.

Orientation will continue through Aug. 20, with a final session scheduled for Aug. 27.

Each weekday session will open at 8:30 a.m. in the Concert Hall/Theater, said Fred Dodson, director of the AC Testing and Counseling Center.

Students will view a slide presentation which shows college facilities, student activities, and academic and vocational programs.

A tour of the campus, rap session, and coke break, led by Counseling Center staff members and sophomore students at AC, will be a part of each orientation program.

Lunch will be provided at no charge to students attending the

sessions. "The afternoon will be open for individual counseling appointments," said Dodson. "Any students wishing to participate in orientation who did not receive an appointment card should call the Testing and Counseling Center."

Market Report

Turkey supplies are plentiful with periodic special price features in Texas grocery stores, making this a good choice for variety in summer meals, Mrs. Gwendolyn Clyatt, says.

Fewer red meat specials exist and those available are scattered. Generally, featured items are chuck roasts and steaks, round, sirloin and T-bone steaks.

A few markets are highlighting corned beef and beef liver for lower cost-per-serving budget menus.

Mrs. Clyatt is consumer marketing information specialist.

Mrs. Clyatt is consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

At vegetable counters, cabbage, carrots, corn, cucumbers, dry onions and soft shell squash continue to have reasonable prices. Moderate price tags are on purple hull and cream peas, okra, broccoli, and eggplant.

Watermelons are offered at attractive prices in some stores. The popular Pecos cantaloupe are available at moderate prices--quantity is good.

Other fruits in season now are peaches, nectarines, cherries, grapes, plums and pears. Also worthy of consideration are bananas and oranges.

Reports indicate that fresh Bartlett pears will be in heavy supply during August, as a result of much larger crops in the Pacific coast states.

An grocery counters are offering more features on staple items--such as peanut butter, nonfat dry milk and canned fruits.

CONSUMER WATCHWORD: Tests show that frozen bread with the ordinary commercial wrap will keep its freshness up to six months. And for homemade bread, use moisture-vapor proof material as a wrapping.

McLean 4-H Girls Win Model Award At Co. 4-H Fair

The Gray County 4-H Dress Review was held August 2 at the First Christian Church Fellowship Hall in Pampa.

Thirty-two models entered the dress review. Each model made their costume for their 4-H sewing project. In the Junior I Division from McLean Anna Jean Lamb, daughter of Mr. and Mrs. Creed Lamb modeled a caftan. Deborah Hutchinson, daughter of Mr. Bill Hutchinson modeled a 3 piece double knit pantsuit. Roxie Littlefield, daughter of Mr. and Mrs. Lloyd Littlefield, modeled a pair of double knit western pants. Stacie Smith, daughter of Mr.

and Mrs. Carey Don Smith, modeled a 2 piece double knit pantsuit.

Teresa Woods, daughter of Mr. and Mrs. David Woods, modeled a cotton print jumper. Teresa won the Best Model Award for the Junior I Division. In the Junior II Division from McLean was Rhonda Woods, daughter of Mr. and Mrs. David Woods. She modeled a cotton wrap around skirt and knit top. Rhonda won the Best Model Award in the Junior II Division.

Following the style show a tea was held for the 4-H members and their guests. Guests attending from McLean were Linda Littlefield, Wanda Lamb, Sophia Hutchinson, Cheryl Smith, Gladys Smith, Vera Back, Mary and Fern Woods.

Wilson-Kesterson News Exchanged

Donna Lynn Wilson and Thomas Ray Kesterson were married recently at the Chapel of Trinity United Methodist Church in Amarillo. The Rev. Mark Riley officiated. The bride is the daughter of Mrs. Barbara Addux of Salinas, California and the late Billy Wilson. The bridegroom is the son of Mr. and Mrs. A. G. Kesterson of McLean. Dorothy Beck, grandmother of the bride served as matron of honor. The groom's brother, Keith Darsey, brother-in-law of the groom, was best man. The bride is employed by Walsh Frozen Foods and her husband is employed by Plains Machinery. They are at home at 44 Sunrise #33, Amarillo. Mr. and Mrs. Bill Herrington of 3618 Carson, aunt of the bride, hosted a reception following the wedding. Those attending were Mr. and Mrs. Jim Seaman and Chase, Mr. and Mrs. A. G. Kesterson, Mr. and Mrs. Bill Drummond, Mr. and Mrs. Mike Darsey, Mrs. Dorothy

Gov. Proclaims Sept. 25 as State Hunting and Fishing Day

September 25 has been set aside by Governor Dolph Briscoe as "Texas Hunting and Fishing Day" in recognition of the contributions state outdoorsmen make to conservation. In his proclamation, Governor Briscoe cited Texas hunters and fishermen for their support of game restoration and law enforcement through the purchase of hunting and fishing licenses. "... game animals such as deer, quail and turkeys now exist in greater numbers than ever during this century and ... millions of acres of freshwater lakes now contain great populations of both native as well as introduced varieties of fishes," stated the Governor's proclamation. Briscoe urged all citizens to "join with hunters-anglers-conservationists in renewing our appreciation for and dedication to proper use of natural resources now and for future generations."

The IRS ought to be glad Americans have what it takes. Beck, Leslie, Laura and Lisa Herron and the host and hostess.

Library to have "End of Summer" Party Friday

The "End of Summer" party sponsored by Lovett Memorial Library, will be held Friday, Aug. 13, in the library. Time is set for 3:00-4:00 p.m. At this time, Texas Reading Club Certificates will be presented to the young people who have read the required number of books (10) to qualify for one of these certificates. The summer reading program has been sponsored in McLean this year by Lovett Memorial Library in cooperation with the Texas State Library. Readers who have earned a reading certificate before August 10, are: Melanie Billingsley, Jamie, Jill, and Chad Chambers, Candi Carpenter, Shawn Crockett, Maria and Andy Eck, Terri, Angie, and John Glass, Martin Gately, Vera, Faye, and Debra Green, Debbie Hutchison, Russell Littlefield, Doyle Lee, Jeff and Tammy Mounce, Wendy and Kevin McDowell, Damon and Garth McElroy, Colleen Orrick, Christie Patton, Allen and Bob Patman, Robin Rohde, Donnie Smith, Robert Swanner, Bryan Smitherman, Mary and Ford Smith, Judy Stewart and Randall Wynn.

Plain Speaking

Baloney: something that is often disguised as food for thought.
Tomorrow: the greatest labor-saving device ever invented.

MRS. JAMES NASH II, Formerly Norma Reed

Norma Reed and James Nash II Are Married In Pampa Ceremony

Miss Norma Jean Reed, of Pampa, daughter of D. C. Reed of Pampa, became the bride of James Carrol Nash, II, of Leona recently at the Church of Christ in Pampa. Mr. Lanier Stevens of Madisonville conducted the ceremony before an altar, with decorations of white gladiola and spiral candles. For her wedding, the bride wore a white organdy heirloom dress

trimmed with illusion, eyelet organdy and needlepoint lace. The traditional accessories were something old, handkerchief the groom's mother had carried, something new, Bible given by the groom, something borrowed, wedding dress of Mrs. Charles Wendt; something blue, a garter.

Mrs. Robert Burns, of Pampa served as matron of honor, whose dress was made of gingham checks in a rainbow of colors.

The bridesmaids were Helen Reed, sister of the bride from Hereford, Mrs. Randy Matson, College Station, Miss Marcia Bay of Bryan, Miss Linda Ivie from Madisonville and Miss Janet Griffith of Oklahoma City, Oklahoma.

Their dresses were made of pastel colored gingham checks with eyelet pinafores and they carried nosegays of daisies and mums.

The flower girls were Miss Jessica Matson, College Station and Miss Misty Reed, niece of the bride from Pampa. The candlelighters were Miss Belinda Burns of Pampa and Miss Holly Wendt of Mangum, Oklahoma.

Ringbearers were Jim Matson of College Station and Mark Reed, nephew of the bride from

Richardson. The ushers were Mike Nash, son of the groom and Don Burns.

The groom's attendants were Bob Martin, best man of Quanah, groomsmen were Howard Reed, brother of the bride from Richardson, Jess Reed, twin brother of the bride from Pampa, Keith Swim from Big Spring, Whit Hagaman of Madisonville and Randy Matson of College Station.

The music was sung by Mickey Lee, Robin Lee, Carl Collier and Bill Cox and Debbie Patrick was soloist.

The bride has a BS degree from Oklahoma Christian College, elementary degree from Texas A&M University and was a former teacher of the Madisonville and McLean Independent School Districts. The groom has a BS degree from Texas A&M University in agriculture economics.

The reception was held in the fellowship hall of the Church of Christ and serving were Mmes. Bill Box, W. A. York, Ott Shewmaker, Claude Edwards, and Judy Eppison, and Miss Jackie Crabtree.

The bride's table was covered with a white tablecloth and the threeter wedding cake with spring flower decorations, yellow candles with bridesmaid's flowers.

The couple are making their home at Route 1, Leona, Texas, after the honeymoon trip to the Rocky Mountains.

Highway Film Is Available

A 15-minute documentary film on the Texas highway funding crisis, "Texas Highways in Trouble," is now available locally for group meetings.

The film is sponsored by the Texas Good Roads/Transportation Association through cooperation of the Texas Aggregates and Concrete Association.

The purpose of the 16 mm, color film with sound is to inform the people of Texas on a major problem that threatens their mobility, safety and economic security.

In order to schedule the film, the following people may be contacted:

--Ed A. Timmons, State Department of Highways and Public Transportation, P.O. Box 2708, Amarillo, Texas 79105, area code 806, 355-5671

--Jim Eubanks or Barney Wiegand, Amarillo Chamber of Commerce, Amarillo Building, Amarillo, Texas 79101, area code 806, 374-5238

--Dayton Blaine, West Texas Equipment Company, P.O. Box 4237,

Tie a small knot at the end of each shoelace after lacing a child's shoe. The child won't be able to lose his laces.

WE ARE IN THE MIDST OF A FAMINE

"Behold the days are coming, declares the Lord, when I will send a famine on the land, not a famine for bread or thirst for water, but rather for hearing the words of the Lord." (Amos 8:11) Amos was sent by God from Tekoa in Judah to prophesy to the people of the Northern Kingdom in the eighth century B.C. But when we consider the conditions today, it seems that the condition which he foretold was spoken concerning our own time. It is likely that there has never been a nation that had more to eat, drink and wear than ours. Yet there has likely never been a nation that has made less effort to hear the words of the Lord!

This is not a new problem. Isaiah said in the 8th century B.C. concerning Judah: "Write it on a tablet before them and inscribe it on a scroll, that it may serve in the time to come as a witness forever, for this is a rebellious people, FALSE SONS, sons WHO REFUSE TO LISTEN TO THE INSTRUCTION OF THE LORD; who say to the seers, 'You must not see visions'; and to the prophets, 'You must not prophesy to what is right, speak to us pleasant words, prophesy illusion.'" (Isa. 30:1-10) Jesus found the same condition among the Jews of his time. "For the heart of this people has become dull, and with their ears they scarcely hear, and they have closed their eyes; lest they should see with eyes and hear with their ears, and understand with their hearts and turn again, and I should heal them." (Matt. 13:15) The Holy Spirit through Paul, warns us to expect the same in our time. "For the time will come when they will not endure sound doctrine; but wanting to have their ears tickled, they will accumulate for themselves teachers in accordance to their own desires; and will turn away their ears from the truth, and will turn aside to myths." (2 Tim. 4:3-4)

How soon will God write, concerning this generation as He did of Israel: "My people are destroyed for lack of knowledge. Because you have rejected knowledge, I also will reject you from being my priest. Since you have forgotten the law of your God, I also will forget your children." (Hosea 4:6)

All we need to stop this famine if minds that are willing to listen and receive knowledge of the Words of the Lord."

Restrictions Placed on Aquatic Plants

A list of 12 aquatic plants has been placed in a restricted category by the Texas Parks and Wildlife Department and reports of one of these noxious plants being sold in northwest Texas has prompted a search by P&WD wardens in the Lubbock, Abilene, and Big Spring area.

The proclamation applies to the importation, sale, transport and release of the following: floating plants; Giant Duckweed, Salvinia, Water Fern, Water Hyacinth (Spanish hyacinth), and Water Lettuce, submerged plants; Florida Elodea, Brazilian Elodea, Aquatic Blixia, African Elodea, and Eurasian Milfoil, two rooted or emergent plants; Alligator Weed and Rooted Water Hyacinth.

These listed noxious aquatic plants thrive in water, marshes or swamps and are harmful or potentially harmful to human life; may impede navigation; or

may diminish the quality of water-oriented recreational areas of the state," said Lou Guerra, noxious vegetation coordinator.

"Three of these plants and their seeds have the potential to cover over 150,000 acres of water in a three-year period," Guerra continued.

The growth of these aquatic plants such as hydrilla on Texas lakes furnishes habitat for disease-carrying mosquitoes and poses a threat to swimmers in their vicinity.

Other southern coastal states have put restrictions on these spreading plants from Louisiana to Florida.

Control of the plants on large bodies of water by chemical means is very expensive and serves as a deterrent rather than a cure. More than 4,796 acre of water hyacinths have been eradicated in Texas from six watersheds by maintenance programs and treatment of seed plants since 1974.

The only natural control is freezing temperatures or winter-kill in north Texas, but this has no effect on the plant's seeds. The plants will die down during the winter months and in the spring, new sprouts will appear.

The only permit issued by the P&WD for these aquatics is for scientific study in a controlled environment subject to review and approval by the P&WD.

Owners of any of the listed plants are asked to contact the P&WD for proper disposal. Do not release or flush these plants down the drain or into the sewer system. Several cities on the coast have already initiated programs to rid water and sewer systems clogged by the noxious plants.

The penalty provided by law for violations of this proclamation for the importation, sale, transport or release of noxious plants without a permit issued by the P&WD is a fine of not less than \$50 nor more than \$200 upon conviction.

Both store managers and homeowners having aquatic plants or contemplating the purchase of aquatic plants should first make sure of the species of the plant and also check aquatics already on hand.

For more information about these noxious aquatic plants, call Abilene (915) 673-3333, Amarillo (806) 355-9246 or Lubbock (806) 744-0213.

For safety, all bathroom light fixtures should be installed with wires concealed in the wall and turned on by safety switches located on the wall away from the fixture itself.

Do you know your Blood Pressure?

Thousands of Americans are suffering from Hypertension—high blood pressure—yet, they do not know it.

Hypertension kills. If not spotted, it can lead to strokes, damage to kidneys, and to the brain. But now, with the Home Blood Pressure Monitoring Kit, you can check your blood pressure at home. Quick and accurate, the Kit includes an American Heart Association booklet, recording forms, and an illustrated instruction booklet.

To order the Kit, fill out the form below and send it, along with \$19.99 plus \$1.59 handling and postage to:

Cardio Supply Company
Box 114 Cooper Station
New York, New York 10003

Keep tabs on your blood pressure, it's important.

Hint #1
How to cube
Jell-O

Dissolve gelatin in boiling water, add cold water, pour into shallow pan and chill 4 hours. Dip knife in warm water and cut into cubes. Dip pan in warm water and invert onto wax paper. For more tips send \$1.00 to: The New Joys of Jell-O® Recipe Book, Post Office Box 3168, Kankakee, Illinois 60901.

Jell-O is a registered trademark of General Foods Corporation. ©1976 General Foods Corporation

For the past several months, public health officials have been planning for, and talking about, the influenza immunization program that will be carried out this Fall. However, there's another kind of immunization that shouldn't be forgotten, according to the Texas Department of Health Resources.

Dr. Jerome Greenberg, Deputy Director of Preventable Disease Services, TDHR, points out that "Every child whether in school or not, needs immunization against polio, diphtheria, tetanus, whooping cough, measles, and rubella."

All children who attend school must have the full series of immunizations against these six diseases before school begins. The Texas School Immunization Law forbids the schools to enroll a child who has not completed the immunizations.

The immunizations are available from your family physician. In addition, most local and regional public health agencies have well-established clinics conducted on a regular basis.

Children should begin to receive their immunizations at the age of two months, in most cases. A series of separate vaccinations is necessary for each of the six childhood communicable diseases. If for any reason a child doesn't begin the series as early as two months, however, they can be started at any age.

Dr. Greenberg says that the schools are doing a good job of enforcing the state immunization law. "We are very proud of the school immunization levels achieved in Texas," he says, "and I think it's time to recognize the good work done by school administrators and the Texas Education Agency in assisting us. There are very few school districts that do not do well."

Across the state, school authorities report that 95 to 97 percent of their pupils have been fully immunized. Because of these levels of protection, the rates of potentially serious childhood communicable diseases have dropped dramatically in recent

News From ALAN REED

Visiting the P. M. Gibsons Friday night was the D. D. Pattons of Los Alamos, N. M. The Gibsons and Pattons attend-

years. For example, polio, once an annual scourge in many parts of Texas, now is extremely rare: no more than one or two cases each year, and in some years none at all.

Health officials warn that parents should not wait too long to start their children's immunizations, since clinics become increasingly crowded as the opening of the school year approaches. The impending flu immunization campaign also will disrupt the usual clinic schedules.

Children will not be able to obtain the usual immunizations at the same time they receive their flu shot, Dr. Greenberg says. "There are a couple of vaccines that are not recommended for administration at the same time as the flu (vaccine)," he says. Furthermore, "The flu immunization effort is going to be so large that there simply will not be an opportunity at these big clinics to cope with a variety of other vaccines at the same time. So children, to get the flu vaccine, will need to go to a different clinic at a different time."

ed the annual Gibson family reunion on Saturday and Sunday, August 7 and 8.

Mrs. David Frizzel of Lockney spent the weekend with her parents, the Bill Crisps and returned her children home after they spent the week at the Crisps.

Donald Patton of New Mexico is spending two weeks with his grandparents, the P. M. Gibsons.

Miss Cynthia Price of Odessa moved to Alanreed Saturday. She will be a new teacher in Alanreed School.

Virginia Dalton of McLean and Lena Carter visited in Pampa Sunday with F. B. Carter and Brad Dalton.

Visiting Polly Harrison last week were Mrs. Jeanie Cummings and Brandon of Amarillo. Brandon remained for a longer stay as well as three of Polly's grandchildren from El Paso.

Mr. and Mrs. W. H. Davis were in Miami last week to visit Mr. Davis' sister, Nettie.

Visiting the J. A. Hills Monday were Mr. and Mrs. Clyde Patterson of Blanchard, Oklahoma.

Visiting the J. A. Hills on Sunday were Mr. and Mrs. Sonny Morris and Larry of Pampa.

Containers galvanized with zinc should not be used for cooking acidic foods. Toxic concentrations of zinc salts may form.

Amarillo College Advance Registration

Students will be able to advance register for the fall semester, which begins August 30, now until August 13.

This registration is open to all students, including new students who wish to avoid the hassle of regular registration.

Currently enrolled students wishing to register for fall need to report to their academic advisers for scheduling of classes. Students whose academic advisers are not on campus at this time should report to the Testing and Counseling Center located in Ordway Hall on the Washington Street campus.

New students first should report to the registrar's office for admission clearance, then to the Testing and Counseling Center for assignment of academic adviser and scheduling of classes.

Tuition and fees may be paid by all pre-registered students until Aug. 18 in the business office, located in the Administration Building. If payment has not been made by that time, students will have to report to regular registration, said J. Fred Balderston, registrar.

Parking permits and parking rules and regulations will be available to students in the business office as tuition and fees are paid. Parking permits for the fall semester also will be valid for the spring semester.

IVAN L. MILES

The Gray County assistant administrator, Ivan L. Miles of McLean General Hospital, has been nominated to the American Academy of Medical Administrators.

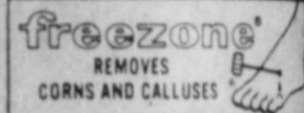

Miles graduated from Hereford High School in 1941 and immediately began a course in medical technology at Northwest Texas Hospital in Amarillo. Since his graduation from lab school, he has worked in many hospitals throughout the west and southwest. After 33 years of laboratory service, he decided to enter medical administration and attended Trinity University at San Antonio.

Students unable to take advantage of advance registration will be able to enroll Aug. 25 and 26

At the onset of adolescence, a male generally experiences an increase in fatty tissue which makes him appear obese. This added fat serves an important function as his body frame enlarges, by providing the extra energy required for the growth spurt. Debby Johnson, family life education specialist with the Texas Agricultural Extension Service, The Texas A&M University System, explains.

When microwave cooking, rotate the dish when you notice that one part of the food is cooking faster than the rest. Rotate it so the least cooked part will be in the area of the oven previously occupied by the portion that was cooking fastest, advises Lynn Bourland, family resource management specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Freezone is for corns that hurt. Absolutely painless. No dangerous cutting, no ugly pads or plasters. In days, Freezone eases the hurt... safely helps ease off the corn. Drop on Freezone—take off corn.

First Application Relieves
Itchy Skin Rash
 Also Helps Promote Healing
 Medicated Zemo quickly relieves
 itching, irritated skin. Then
 Zemo helps nature heal and clear
 red, scaly skin rashes externally
 caused. For fast relief, get Zemo
 Ointment or Liquid.

Helps Shrink
Swelling Of
Hemorrhoidal
Tissues
 caused by inflammation

Doctors have found a medication
 that in many cases gives prompt,
 temporary relief from pain and
 burning itch in hemorrhoidal
 tissues. Then it actually helps
 shrink swelling of these tissues
 caused by inflammation.
 The answer is Preparation H®.
 No prescription is needed for
 Preparation H. Ointment or
 suppositories.

NEWS
 *** County ***
Agricultural Agents
 Texas A. & M. College
 Extension Service

The screwworm fly
 continues to spread ac-
 ross the Panhandle area.
 At last report, I know of
 confirmed cases in the
 following Panhandle
 counties: Armstrong,
 Collingsworth, Dallam,
 Hansford, and Randall.
 Cattle operators need to
 once again be on the look
 out for screwworm in-
 festations in their cat-
 tle. It has been a long
 time since cattlemen in
 this area had to inspect
 cattle frequently and be
 on the look out for
 "wormies" that like to
 hide out until it was too
 late to save them.

As a result of this
 spreading screwworm
 infestation, new federal
 regulations have been
 issued that affect all
 livestock leaving Texas.
 All livestock leaving
 Texas must be inspected
 by state or federal ani-
 mal health officials or
 accredited veterinarians
 and be certified free of
 screwworms before
 shipment. Additionally,
 all animals shipped from
 Texas into southeastern
 states are now required
 to be dipped or sprayed,
 even if found to be free
 of screwworms.

If you need some pre-
 paid mailing kits for sus-
 pected screwworm sam-
 ples, come by the County
 Extension Office.

We all know how de-
 pressed beef prices have
 been. According to
 USDA, the commercial
 production of red meat
 for the first six months
 of 1976 was up 5 per
 cent above 1975 level of
 production. Components
 of this increase showed
 beef up 10 percent; veal,
 up 10 percent; pork, down
 5 percent; lamb and mut-
 ton, down 11 percent.
 Commercial meat pro-
 duction includes slaugh-
 ter in Federally inspec-
 ted and other plants, but
 excludes animals
 slaughtered on farms.
 This helps account for
 some of the lower-pri-
 ced beef. We still have a
 lot of beef around and
 have just got to eat our
 way out of this contin-
 ued oversupply of beef.
 Cattle numbers have
 started to decline but
 have a long way to go
 before all facets of the
 beef industry get back
 on a profitable basis.

Last Friday, Dr. Carl
 Patrick, area Extension
 entomologist, toured se-
 veral sorghum and corn
 fields in the Gray County
 area. Greenbug infesta-
 tions in sorghum were
 spotty. Some fields in-
 spected had economica-
 ly damaging numbers of
 greenbugs, while other

fields had lower levels
 of infestations that did
 not currently merit con-
 trol measures.

Evidence of a lot of
 beneficial insects were
 noted. Parasitic wasp
 activity seems to be in-
 creasing and should rap-
 idly reduce greenbug
 numbers in sorghum
 fields.

The recent rains have
 helped the mite situa-
 tion on corn and sor-
 ghum but with the return
 of hot, dry, windy condi-
 tions, fields need to be
 checked frequently for
 build-up of harmful in-
 sects. A few-corn fields
 have had build-up of
 armyworms that are eat-
 ing a lot of foliage. The
 armyworms seem to
 prefer fields that have a
 lot of watergrass. If ar-
 myworms are allowed to
 reach a large size, they
 are next to impossible to
 kill with insecticides.
 Just keep a close watch
 and give me a call if
 you need assistance with
 an insect problem.

Around gardens,
 squash bugs continue to
 be a problem. Thorough
 coverage of vines and
 undersides of leaves with
 Sevin should give con-
 trol. Also Mexican bean
 beetles are infesting se-
 veral bean patches. Here
 again a good spray cov-
 erage of Sevin or Mala-
 thion should bring the
 bean beetles under con-
 trol.

As I drive around town,
 I see several trees in-
 fested with bagworms.
 Malathion is one of the
 better chemicals to con-
 trol bagworms. If you
 wait until the worms get
 too big, you may have to
 rely on the hand pick
 method of control.

Always remember to
 read the label and fol-
 low directions and pre-
 cautions when using any
 insecticide.

This week-end the
 Gray County 4-H Senior
 Citizens Fair will be held
 at the Clyde Carruth
 Livestock Pavilion. If
 you want to see what the
 youngsters and oldsters
 have been doing, come on
 out Saturday and see all
 of the items on display.
 Saturday evening the
 zone 3 election for the
 Gray County Soil Con-
 servation District Board
 of Supervisors will be
 held at 7:00 p.m. in the
 Lefors City Hall.

 problems, get Sergeant's Sure
 Shot® Capsules, Puppy Capsules
 or Tapeworm Medicine.

Panhandle Waterfowl
Production Drops

Lack of the rain the
 Texas Panhandle is cut-
 ting into production of
 waterfowl which use area
 playa lakes as nesting,
 habitat.

Texas Parks and Wild-
 life Department person-
 nel making their annual
 waterfowl production
 survey in the Panhandle
 estimate the number of
 juvenile ducks to have
 decreased by some 74
 percent over 1975, but
 with an increase in the
 venile ducks to have
 decreased by some 74
 percent over 1975, but
 with an increase in the
 number of mature ducks.

However, P&WD water-
 fowl biologist Max Tra-
 week said the increase,
 in adults could be due
 in part to the fact that
 hens without young spend
 more time on open water
 and thus are easier to
 count than hens with
 ducklings which are
 more secretive in their
 habits.

The same number of
 playa lakes exist on sur-
 vey lines this year, but
 total size of the lakes is
 reduced from 1,073 sur-
 face acres of water in
 1975 to 544 acres in
 1976.

This is the third year
 of a five-year survey of
 Panhandle counties to
 assist biologists in det-
 ermining effects of rain-
 fall, farming and hunt-
 ing pressure on water-
 fowl.

To assist the produc-
 tion survey, a banding
 operation is completed
 each winter by P&WD
 biologists in the Panhan-
 dle. Each band has a
 number and address for
 the finder to notify the
 proper agency.

The Panhandle has
 numerous resident teal
 and mallards, many of
 which are bagged each
 fall by Texas hunters.

F. C. C. Class To
Be offered at C. C.

An eight week course
 will be taught evenings
 from 6-10 p.m. at Clar-
 endon College for those
 needing or desiring to
