THURSDAY, AUG. 14, 1958

"GEORGE" CAN'T DO IT

At his first press conference in five weeks, President Eisenhower predicted, in answer to a question about his plans to curb inflation. that unless management and labor held profits and wages in check, "the American consumer is going to rebel . . in a big way and there will be real trouble and we will get something that we don't want." Government, whose job is "to keep down expenses", is equally concerned, he said.

Most Americans, we think, were under the impression that there had been something of a rebellion in recent months - even by those who were seeking higher wages at the same time - and that we have had in the recession, "something that we dont want."; However, perhaps shoppers have not yet rebelled "in a big way" maybe we haven't yet seen any "real trouble", and most of us realize that a full-blown depression is something we want even less than what we have had.

But we fail to see where Government is making reasonable effort to check a headlong decline in the worth of our folding money. Gov-

ernment has continued its long dis-credited policy of massive fargesse On the contrary, Government for the existing situation and the OZONA STOCKMAN ernment has continued its long dis- paying business credited policy of massive targosse On the contrary, Government for the existing situation and the themselves without support after Ruidoso, N threat to our economic future, it

or that phone call! Way be recess away, most of the time, when your telephone rings? Why not have it within reach - always - by having additional phones in asveral convenient places?

fou can have a handy phone very happily ocated in your bathroom—your bedroom—your litchen.

surely your convenience and step-saving is worth the pennice-a-day coat! Call our Business office now and tell us where you'd like those onderful additional phones.

SO YOU'RE IN the midst of a hot, slow moving summer and nothing much is happening? If you want action, just look toward Washington.

With the end of the session figured to be not more than three weeks off at this writing - and possibly only a week off - the an nual year-end legislative jam is being broken up by fast action.

In one day this week: The House, needing a two-thirds vote to suspend the rules and pass a farm bill, could not get the required majority (the vote: 210 to 186, with Republicans voting generally against, Democrats for) and farm legislation for this session appears to be dead.

Conferees of the House and Senate accepted a \$39.6 billion appropriations bill for Defense funds, an all-time high and some \$5 billion higher than last year, with new accent on preparing for "small wars," ie. the Mideast crisis.

The House voted, 286 to 108, to raise the National Debt Limit to an all-time peak of \$288 billion, at the request of President Eisenhow-

The Senate passed, for the third time in nine-years, a bill to give "home rule" to voteless District of Columbia residents, but the House is expected — as usual — not to act on the measure, therefore dooming it.

The House voted passage of a bill to require disclosures of facts relating to pension and welfare funds of labor and management.

Teamster leader Jimmy Hoffa, before the Senate Rackets Investigating Subcommittee, denied knowing anything of a reported \$17,500 bribe given the Teamsters by Detroit laundrymen; could not explain some \$60,000 he said he won betting on horse races.

known as the "New England fabricator," wrote Members of Congress what he said are the full contempt of Congress by the Log- and Senate.

lead us to "real trouble."

LONGHORN CAVERN QUEEN Mary Ann Ward of Austin, Texas receives her crown from Texas State Parks Board Chairman Maurice Turner of Huntsville at the "Queen's Throne" in Texas Longhorn Cavern near Burnet, Texas. The crowning highlighted the Silver Anniversary Celebration of the Longhorn Cavern State Park.

FRIGIDAIRE

FROST-PROOF FOOD KEEPING -

In the Flowing-Cold Refrigerator...

Flowing Cold means super-fast, more uniform chilling for all your fresh foods no matter where you store them - in the refrigerator esction or on the door - regardless of outside temperatures.

And Flowing Cold means no more frost! Here's how it works:

Fresh warm air enters the refrigerator section every time you open the door — and is drawn by a fan up and over the hidden Refrig-e-Plate that cools it and removes the excess moisture after which it comes back in at the top as Flowing Cold.

Best of all, the moisture removed is evaporated automatically there's nothing you have to do!

In the Frost-Proof Freezer...

Completely new and revolutionary — completely different from so-called "automatic" defrosting systems. Frigidaire patented Frost-Proof Freezing actually whisks away heat and moisture before frost

Proof-Proof Cold enters at the top, rear, easing and removing moisture from the entire freezer. Then this warmer, moist air is drawn out of the freezer across sub-zero freezing plate underneath and completely separate from the freezer, where the air is rechilled, ging warm air into dry, sub-zoro frost-Proof Cold

And the moisture, of course, evaporates automatically. Frost never accumulates on freezer walls or on food. No more chipping, scraping at a stubborn ice crust. No more melting frost, no more pans to spill?

Decrease In Demand Cited As Reason For Lower Prices For Wool

College Station- Why are wool prices so low?

This question is foremost in the minds of many wool producers, for there are about three percent prices received in March, 1958, were 21 percent lower than in and ranches, and ranges are in good March, 1957, and in June, 1958, condition. prices were 32 percent below June of 1957.

prices mainly has been caused by verage less than in 1957-58. But in the United States and in the program still exists, and mill acsonally adjusted rate of mill used the recent inventory liquidation wool in the U. S. was 35 percent and the fact that wool prices are lower than a year earlier and 45 lower. Too, if the mid-East situapercent lower than when the de- tion should become more serious,

In January and February, 1958, ces will rise. McHaney says the total quantity of fiber (including wool) used by SON TO WRIGHTS the wool textile industry in the spinning of yarn, other than carpet, was down 24 percent. This decline are the parents of a son born Monwas mostly in wool. The use of day at the Crockett County Hospiman-made fiber by the wool in- tal. dustry was down only five percent.

During the early part of 1958, McHaney points out that cuttings ing his cousin, Mark White, at for men were 23 percent below Rancho Blanco. those for the same period in 1957, and 24 percent less than in 1956. wool than in suits containing less 2034. than 50 percent wool. Cuttings of most women's outerwear garments also declined early in 1958. Too, typewriters at the Stockman.

McHaney predicts that wool production in the U.S. will be slightly more in 1958 than 1957 because more sheep and lambs on farms

He says it now appears that prices received during the 1958-John G. McHaney, extension e- 59 marketing year (April, 1958 conomist, says the lower level of to March 31, 1959) will likely aa decrease in the demand for wool he points out that the incentive world. In January, 1958, the sea- tivity could pick up because of cline began the summer of 1956. chances are wool demand and pri-
