Sutton On Telegram's All-State Team

Ingham Gets Honorable Mention For State Tackle

Sutton, Ozona High's versatile senior halfback, who led his team to the District 8A championship, only to lose by a two-point margin to Plains in the regional final, was selected on the Fort Worth Telegram's 1A All-State team as announced in last week's issue of the paper.

Sutton-Telegram's team, announced by sports writer John Ingham, listed two players from Ozona: Sutton and White Deer, who was named to the bi-district championship team.

Ingham's hard charging center and tackle, B. B. Ingham, III, earned honorable mention for a spot on the mythical team.

The Fort Worth paper's all-A team is led by Springs' Perry Carpenter, who averaged 13 yards per carry and Hopkins, Mart's tough guard, made the squad for the second year. The ends are Jeff White Deer and Mickey Talco; tackles are Billy Ralls and Jerry Turner; guards, Tony Merka and Jerry Hopkins of center is O. C. Haley of quarterback, Johnny Lovelace; halfbacks, Bobby Sutton and Herschell Powell; fullback, Perry Carpenter.

Carpenter is surrounded by experienced and powerful teammates in backfield," Morrison wrote in his team.

Johnny Lovelace of Farwell, edged out Merkel's Manley and Lefor's Tommy Johnson for the quarterback slot, has the impressive figures to support his claim.

The 6-2, 190-pound senior gained 89 yards on 89 carries, completed 28 of 60 passes for 593 yards and 15 touchdowns, and led all the kicking chores.

The halfbacks had some tough competition, for there were many excellent candidates. Those who made the team are White Deer's Herrell Powell, 5-11, 180-pound, and Sutton, 5-9, 164 of Ozona, who led the team in scoring with 112 points, including 16 touchdowns, and carried 201 times for 1,445 yards, an 8.2 average.

Powell passed but twice during regular season but you can't judge with his success — both for touchdowns, covering 79 yards.

Sutton, who also doubles as a back on the spread formation, was a four-year starter for the Texas outfit. He closed out his career with 144 points and 1,000 yards rushing this fall; completed 59 of 160 passes for 1,661 yards and 12 scores, and caught 20 passes for four touchdowns and 87 yards.

During four years at Ozona, he scored 422 points and rushed for an excess of 4,000 yards."

Greater Victories March of Dimes To Be Launched Jan. 2

Expanded Research Program of Foundation Merits Support

Launching an expanded attack on behalf of a whole new group of physically underprivileged persons in this community and throughout the country, the "Greater Victories" March of Dimes will get under way Friday, Jan. 2, in Crockett County, Mrs. Brock Jones, county campaign director, announced today.

The drive will continue throughout the month of January with the traditional Mothers' March climaxed the 1959 campaign, the local leader said.

"In 1959," she said, "the March of Dimes must meet the big challenge of the three faces of crippling — polio, arthritis and birth defects. Just as the National Foundation came up with the Salk vaccine, so too we hope to move ahead toward greater victories in arthritis and birth defects.

"Polio remains one of our targets because there are many victims of that disease still needing help. Polio patients in our county who need assistance will continue to receive it from the March of Dimes. In addition, we are planning new programs providing assistance to young arthritis patients and to children born with defects of the central nervous system. Direct financial assistance to such children through the age of 18 plus aid to all polio patients who need it will bring new hope to many youngsters in this country."

Sikes Leads Lions By Rocksprings In Pre-Holiday Final

Strong Edwards Clan Downed 44-42 In Thriller

By Ernie Boyd

The Ozona Lions rode a hot shooting streak by David Sikes and a powerful defense to a 44 to 42 win over the strong Rocksprings Angoras in a thrilling contest in Ozona Monday night.

The win ended the Lions pre-Christmas play and gave the Lions a 5 won and 1 lost mark in pre-holiday play.

For Rocksprings the loss was just the second of the season and this one did not go easily either for the winners or the losers.

The Angoras jumped into the scoring column first when Charles Bierschwale sank a free throw with just 15 seconds elapsed in the first period but shortly afterward David Sikes tied it up with a free throw and the Lions matched points with the visitors the balance of the quarter with the score standing 8 all at the buzzer.

Ozona went into a pressing defense in the second period and opened up a five point lead which dropped off to three just as the half ended.

Jim Williams turned in his best game of the year as did several other of the Lions including Diz Reeves who played both for Johnny Cooper and Bobby Sutton during the contest.

David Sikes took high point honors with 19 points and was followed by Bruz Smart of Rocksprings with 12.

Last Friday the Lions made it two out of three with the McCamey Badgers as they stood off a late Badger rally to win 41 to 37.

The Lions and Badgers traded punches on a pretty even basis until the third quarter when the Lions pulled into a 12 point lead on the shooting of Johnny Jones and David Sikes along with some timely points by Bobby Sutton and Diz Reeves. But the Lions slacked off in the final period and at one point the Badgers narrowed the Ozona lead to a slim 37 to 38 margin before a free throw by Jones and a field goal by Sikes just at the buzzer opened up the margin.

David Sikes and Johnny Jones led the Lions attack with 12 and 11 points.

The Ozona B team added two wins to its record by walloping the McCamey B team 62 to 30 and the Rocksprings B by a 46 to 24 margin.

In the McCamey game Coach Pete Hickman emptied the bench early and two platooned the out-gunned McCamey crew. Wayne Spearman and Roy Killingsworth led the Ozona attack even though neither of the two played as much as half of the contest. Spearman counted 11 and Killingsworth 12 points but 10 boys broke into the scoring for Ozona.

The Ozona B, led by a 22 point production by Wayne Spearman, won a handy 46 to 24 decision over Rocksprings Monday night to bring their pre-holiday record to gain a 4 won and 2 lost record. None of the Ozona losses were to B teams.

Winter Makes Official Entry With Warmup & Outlook For Moisture

The official advent of winter Monday was in sharp contrast to the free samples handed out in this area a couple of weeks in advance of the official date.

After nearly a week of frigid weather in which the temperature sagged to an unofficial reported low of 11 degrees, the warm up began last week and continued into this holiday week. A shift of winds to the south brought some promise of a buildup of moisture and a possible triggering of needed moisture. Light rain at this time with moderate temperatures would be welcomed by ranchmen. The hard freezes and continuing dry weather has sapped moisture from the top of the ground and retarded growth of winter weeds, although subsoil moisture is still adequate.

House Numbering Project Of Lions Club Set For Jan.

House-To-House Canvass To Be Made Supplying Numbers Free

The Ozona Lions Club approved a plan last week to finish printing of a city directory and number the houses in Ozona as a follow up to last year's erection of street signs.

The club approved a board of directors suggestion that the Lions Club donate the house numbers and put them up as rapidly as possible after the first of the year.

The plan to give the numbers away came after it became apparent that enough advertising could be obtained in the directory to make its printing pay for itself.

Originally the plan had called for a door to door campaign to sell the numbers and give the directory to each buyer of a number, but the other plan was adopted so that the club would be able to take a direct hand in putting the numbers up.

Club directors felt that many house owners would allow the numbers to be put up where they might not do the job themselves. Numbers will not be given to house holders who do not want them.

Even though nothing of the sort has been discussed or in so far as the Lions club is concerned is even contemplated it might be noted that in case of city delivery of mail, houses must be numbered to be considered for mail delivery.

The Club felt that the erection of street signs had done much for Ozona, particularly from the standpoint of people not acquainted with the town being able to locate homes and the addition of correctly numbered housing will greatly improve the situation.

The numbers the Club plans to give away are of high grade non-rust material that will make attractive additions to any house regardless of size or quality.

Teams of Lion Club members plan to canvass the town with numbers starting in January, and hope to have the project finished by February.

The speed and quality of the program will be largely determined by the people of Ozona themselves and the wholehearted cooperation of each citizen is earnestly sought so that the project can be finished both quickly and with best overall results for the community.

Ozona Girl Cagers Swamp Big Lake 52-26

The Ozona girls basketball team rode roughshod over the Big Lake girls in Big Lake Monday night as they downed the Owlets 52 to 26.

Freshman Beverly Alford personally outscored Big Lake as she hit for 28 points and was joined by Janie Lara's 13 and Diane Phillips 11.

Big Lake's losing effort was led by Carolyn Bucknell who scored 14 points.

The win gave Ozona a 3 won and 4 lost pre-holiday record, far better than had been expected.

The Ozona team jumped into a quick commanding lead and were never in any trouble during the contest as the consistent Ozona attack maintained a wide margin from the first period on.

The Big Lake B team won a low scoring but tight ball game from the Ozona B as they captured a 14 to 13 win over the Ozona reserves.

Lou Ann Dale led the Big Lake team with 11 of their 14 points while the late starting Ozona team had Molly Sue Richardson with 7 points as its top point getter.

WEIRD BUT NOT WONDERFUL

If there is some confusion in the ranks of US taxpayers who have been hoping that the Administration talk of cutting Government spending and balancing the next budget might be taken seriously, their public servants should not be surprised.

There will, after all, be some cutting. The first serious evidence of it is seen in the Defense Department's order taking the Navy Regulus II and several other "air-breathing" missiles out of production. Work is also to be stopped on two of the atomic submarines— for which Regulus II was to provide a spectacular weapon.

This 1,400-mile-an-hour missile with a 1,200 mile range, and which is said to have demonstrated pinpoint accuracy in test firings from submarines and from moving platforms on shore, has an inertial guidance system which keeps it correcting its course until it homes on the target. Designed to carry either conventional or atomic warheads, Regulus II was about to join the fleet.

In addition to Regulus II (and the Air Force Rascal and Goose which have already been dropped), it is expected that production of the Matador and Snark (Air Force) will end with the completion of present contracts. The Air Force Mace may also go by the board.

Concurrently with these developments came the news that our new National Aeronautics and Space Administration is now planning a whole family of new rockets, which, according to Administrator T. Keith Glennan, "should satisfy the nation's requirements

for the next five years." This agency also announced it would spend \$200 million in the development of a million-pound-thrust rocket engine. The purpose of all this is to advance space exploration so that men can fly around 'way up where there isn't any atmosphere — and presumably within the next few years.

Such decisions as the foregoing do not seem to coincide either with economy or with keeping our powder dry (which would seem to be a good idea in the face of the sabre-rattling we hear from Russia and East Germany). Furthermore, it is our guess that the bewildered citizens mentioned above are wondering why we cut defense before even paring foreign aid, and why there is no word of large-scale civilian "reductions-in-force."

We are convinced the budget can be balanced . . . but in some doubt that it will be. And it shouldn't be done by cutting defense and adding on somewhere else.

HIGHLIGHTS AND SIDELIGHTS From State Capitol

By Vern Sanford
Texas Press Association

Austin, Texas — There's the Iron Curtain, the Bamboo Curtain and what might be called the "oak-leaf Curtain" — those heavy oak doors in the State Capitol and elsewhere that sometimes swing shut when public officials are transacting public business.

Several newspaper organizations are forging a battering ram with which they'll make a run at the "Oak-leaf Curtain" during the next legislative session.

Three measures designed to prevent concealment of public information will be offered. Briefly, here's what the bills would do:

No. 1. Make open to the public at all times all official meetings of all city councils, commissioners courts, legislative committees and state boards, commissions and agencies. Any officials found in violation would be liable to a \$100 to \$1,000 fine and removal from office, and the action taken in secret would be invalid.

No. 2. Make any official who prevents or refuses to permit inspection of a public record liable to a \$100 to \$500 fine and removal from office.

(Neither of the above measures would apply to any meeting or record not open to the public under present laws.)

No. 3. Make any person who takes and carries a public record "with intent to destroy, suppress,

alter or conceal" liable to a three to seven-year prison sentence.

All three measures are being sponsored by the Associated Press Managing Editors Association, and have been endorsed by the Texas Association of Sigma Delta Chi, a professional newsmen's organization.

All the bills, said Ed Wisbamer of Abilene, APME's freedom of information chairman, are based on the premise "that the public is entitled to know what goes on in the government divisions which levy and spend taxes and whose decisions affect the lives of the people."

Or, from another viewpoint, if it's truly "government of the people, by the people and for the people," there's seldom need to hide it from the people.

Budget Blues — Texas General Revenue Fund, like many a personal account, is going to be badly in arrears by the first of the year. Deficit is expected to be about \$40,000,000 by the time the Legislature meets Jan. 13.

General Revenue began the fiscal year in September with about \$13,000,000 on hand. In the months since expenses have consumed this and put the state in the hole at the rate of about \$13,000,000 a month.

State employees have been able to continue cashing their checks only because banks agreed to hold them until the State Treasury gets money to make them good.

First headache facing the lawmakers will be finding money to pay their own salaries, secretaries, expenses, etc. Possibilities are deficit financing or borrowing from special funds.

Mr. & Mrs. Homer Good

At Christmas time... it is natural that we should think of our reasons for celebrating Christ's birth. One is that HE helps us to find peace of mind, surely one of the greatest blessings of this life.

I have long observed people who have the gift of inner peace, and have asked their secret.

Most often their answer is a reference to Christ's words, "Peace I leave with you. My peace I give unto you... let not your heart be troubled."

We find quiet peace in the fellowship of loved ones. Beautiful music brings peace to troubled minds and hearts. So does the beauty of nature, dew sparkling in the grass at dawn, or the silvery moon shining on rippling water at night.

But this peace which the world gives passes away, while the peace that HE gives abides forever.

300 Boys Have Benefitted By Ranch Program

300 boys have benefited during the past year at Boys' Ranch of West Texas, located near Tankersville. According to Charles J. Hill, public relations chairman of the ranch, a record high number of boys are now participating in the educational program on the ranch. A well rounded program is being operated for this use. In 1957, 11 years ago to serve as boys. Boys' Ranch of West Texas is one method for West Texas to take care of their own boys. The boys live a normal life making ranch hands the boys live a normal life. Under close supervision, but not severe supervision, they group up in mind amid the rustic surroundings of hard work, hard play, and respect for those with whom they live.

county West Texas area is served by the Ranch as it operates. At some time in the history it has served boys in 44 counties. Presently, boys are being served from 44 counties. Lowell Littleton, county agent, says that boys in West Texas are currently on the Board of Directors. The Ranch of West Texas is a self-reliant type of operation. Emphasis is placed on living with a special attention given to the individual needs of each boy. The total program planned around the citizenship phase of the operation. The program gives the boys an opportunity to participate in government, disciplinary, and even some planning development of the Ranch. An experience they would normally have.

The Ranch's sole income is from the boys. Last year's cash budget was \$10,000. With this, the ranch maintains its standards, and while maintaining its charter limit of 450 boys, it is anticipated that a larger budget is needed next year. It is noted that the money must come from direct donations many of which are annual contributions in cash and clothing, and some cases livestock and other items.

TAX-MAN SAM SEZ

If you own or operate a farm you will probably want to get and read the "Farmer's Tax Guide," Publication 225. This is a free booklet that tells farmers in a dirt farmer's language how to prepare their farm tax return. Preparing a farm return on Form 1040-F and on Form 1040 is a complex business. It is probably the most important piece of paper work the average farmer has to do every year. Knowing how to prepare your tax return for a farm can save money as well as trouble. All of the County Agents and the Internal Revenue Service offices have this free booklet. Go by and get your copy and then study it carefully.
