Miss Wanda Carden Awarded Music Degree At Trinity University

Miss Wanda Carden, a graduate of Ozona High School, was awarded a Bachelor of Music degree (cum laude) in public school music with concentration in piano, by Trinity University, San Antonio, at graduation exercises held in the Sunken Gardens Theatre at Brackenridge Park Monday evening, June 1.

Miss Carden, daughter of Col. and Mrs. Henry H. Carden of San Antonio, has been an outstanding student in the music department at Trinity and has been an instructor in the secondary department. She is a member of Alpha Chi, a national honor society, and of Scho-Lea, an honorary service and scholarship organization for senior women. She has been a member of the University choir and was part time accompanist for the choir under the direction of Dr. Barnes.

Miss Carden did her practice teaching at Jefferson High School in San Antonio under the direction of Dr. Janie B. Silver, head of the music department at Jefferson High School.

Miss Carden is the granddaughter of Mrs. Ralph Watson and the niece of Miss Wanda Watson of Ozona. Mrs. Watson and Miss Watson attended the Monday evening commencement exercises.

A. D. Bledsoe's Become Grandparents Twice In Less Than Two Months

Grandparents twice so far this year are Mr. and Mrs. A. D. Bledsoe of Mereta, former Ozonans, now in the grocery business at Mereta. Latest addition is a daughter born May 30 in San Angelo to Mr. and Mrs. Kenneth Bledsoe. Named Laura Christine, the baby weighed 8 pounds 1 ounce. Grandparents are Mr. and Mrs. A. D. Bledsoe and Mr. and Mrs. Jack Lowe of San Angelo. Great grandparents are L. V. Hall and Mrs. A. I. Bledsoe, both of San Angelo.

On March 19, A-2C and Mrs. Gene Bledsoe of Lincoln, Neb., became the parents of a son, William Gene Bledsoe, Jr. Airman Bledsoe is scheduled to bring his family to Texas late this month and give the grandparents a first look at the baby. He is on his way to Hawaii where he will be stationed the next three years.

These late developments in the Bledsoe family came in a letter received by the Stockman from Mrs. Bledsoe in which she added, "We miss all our friends in Ozona and send them our best wishes. Come to see us."

Ozona Boy Treated At Gonzales Foundation

Gonzales — Carlos Dominguez of Ozona, Texas, was admitted to the Texas Rehabilitation Center, Gonzales Warm Springs Foundation, May 25, 1959. He is the son of Juvenal Dominguez.

The Texas Rehabilitation Center is the Southwest's largest facility for comprehensive treatment of the physically handicapped. The Center is a non-profit, non-sectarian hospital which assures needed care to disabled citizens.

With the incidence of polio reduced by the Salk vaccine, more than two-thirds of the Center's patients have handicaps resulting from non-polio diseases and accidents, such as spinal cord injuries, strokes, arthritis, cerebral palsy, muscular dystrophy, and arteriosclerosis. Crockett County patients have received more than 321 days of treatment at the Center.

The reduction in polio patients brought a corresponding reduction in the Center's income. There is no National Foundation to pay for non-polio patients. Nevertheless, the Center still accepts any Texan deemed medically improvable regardless of ability to pay.

The net result, however, is that the Center is more dependent on contributions than ever. A long-range fund-raising program is underway. The continued operation of the Center depends on how well Texans respond to this appeal for help.

Rankin Withdrawal Leaves Baseball Program In Doubt

High Schoolers Play Practice Game With Radar Base Team

By Ernie Boyd

Play in the summer high school league seemed uncertain this week following notice from Rankin that they would be unable to field a team this season.

The league, which was to have been composed of only four teams, may continue as a three-team league but the loss of Rankin would greatly reduce the amount of play each team would have as well as making it impossible for a full slate of play at any time.

The withdrawal of Rankin caused cancellation of the Ozona team's first league game, which was to have been with Rankin Tuesday night.

The Lions had suffered the loss of one of its star players Sunday when Bobby Sutton left for Odessa where he will be employed by a construction firm for the remaining part of the summer prior to the all-star football game in Fort Worth Aug. 7th.

In a practice game played last Friday night, the Ozona Radar station, bolstered by the pitching of Charles Harrison, staged a last inning rally to down the high school team 6 to 3.

The Lions, behind the pitching of Diz Reeves and Bobby Sutton, finished the regulation seven-inning leading 3 to 2 but Coach Brooks Dozier wanted to give each of his pitchers four innings and Sutton tired in the eighth as the Air Force staged a four-run uprising.

Bobby Sutton led the Lions at the bat as he collected three for three. Billy Bob Holden got a run-producing blow in the second and Donald McCaleb got hold of several pitches collecting one hit and getting robbed of another when a ball, routed for the outfield, hit a base runner.

The game was viewed by a large enthusiastic crowd, a good part of which was made up of base personnel and their families.

(We hesitated to report this game because we had no score book and did not have the names of any of the Air Force players.)

Coach Dozier started the following lineup but played all of the players suited out for the game without giving any consideration to his chances of winning or losing.

Dizzy Reeves started on the mound and then upon leaving in the fifth took over third base from Bobby Sutton who finished up on the hill.

Billy Bob Holden handled the catching chore with McCaleb at first, Muggins Good at second, Jim Freeman at short, and with Killingsworth, Deeny Holden and Bill Semmler in the outfield.

Mrs. Helen Bowens, Former Ozona Teacher In Negro School, Dies

Mrs. Helen Faye Bowens, 33, for five years teacher in the Lockett Negro schools in Ozona, from 1953 to 1958, died at 11.10 p. m. last Thursday at her home here.

Mrs. Bowens had taught the past school year in Lamesa, where her husband, Rev. Hampton Bowens, was a Baptist minister.

Funeral services were held from the New Mountain Baptist Church in Ore City, Texas, Sunday afternoon at 2:30, with the Rev. V. J. Johnson, pastor officiating. Burial was in New Mountain cemetery.

Mrs. Bowens was born in Dallas and attended public schools in New Mountain and Valley View, Texas. She received her B. A. degree from Bishop College at Marshall, Texas, and did graduate work at the University of Texas and Texas Southern University.

Surviving are the husband, two sons, one daughter, her mother and two brothers.

240 Children Occupied In Methodist & Baptist Church Schools Here

The Baptist and Methodist Churches in Ozona were in the midst of their annual vacation Bible schools this week with some 240 Ozona children and about 45 teachers involved in the annual church school project.

The Baptist with some 175 children and 32 teachers had Marshall Ku, a Chinese student from Formosa, speak to them Tuesday and school director Sam Ligon expressed satisfaction with the way the school was going.

The Methodists had 60 children and 12 teachers in their school Wednesday morning with Mrs. Brock Jones serving as school director.

Parents in general were also pleased with the program since it took the children out of the house and gave them something worthwhile to do, even though it does require getting up a little earlier for a few.

Graduation exercises for the two schools will be held either late this week or next week according to plans now being carried out.

Hoffman Bros. Final Well In Half Field

The Half field of Crockett County was extended one location north with completion of Hoffman Bros., San Angelo No. 6-C C. W. Meadows, 10 miles northeast of Sheffield, for a daily flowing potential of 99 barrels of 34 gravity oil, no water, with gas-oil ratio of 200-1.

Production was natural through a 1/4-inch choke and perforations between 2,064-2,102 feet.

Location is 2,310 feet from the south and 990 feet from the east lines of 33-GG-HE&WT.

2nd Annual Junior Rodeo In Ozona Set For July 24 and 25

Lions Club Sponsored Event Being Planned To Outstrip First

The second annual Lions Club Junior Rodeo has been set for Ozona July 24th and 25th, according to announcement made this week.

A parade will be staged on Friday afternoon, July 24, to get the show started with Lion officials expressing the hope that the second show would be an improvement over the successful first, with even larger crowds expected.

Vic Montgomery will be the general chairman of the show again this year with Oscar Kost secretary.

Competition in two classes will be held with the senior group ranging in age from 15 to 17 and juniors below 15 years of age.

A few changes made this year will include the ousting of bronco riding, and the exclusion of juniors from competing in senior events, along with money division being made on the basis of day money and average rather than the method used last year.

Events included this year will be hair pulling and pole bending for juniors, and bull riding, calf roping and goat roping for seniors. Barrel racing for girls will include both junior and senior events but entries must qualify for the event by age.

An additional attraction in this year's show will be the crowning of a rodeo queen who will be named Saturday night, July 25. The queen named will serve in that capacity for the following year since no queen was named last year.

Entry fees will be \$5.00 per event with trophies being awarded to the best all-round, senior and junior sportsmanship, and for best average.

Boys and girls interested in entering this year's show can get entry blanks by writing Oscar Kost or making inquiry at the Ozona Saddle shop.

Violent Thunderstorm Dumps Nearly 2 Inches Of Rainfall In Ozona

Accompanied by an almost continuous flash of lightning and occasional window-shaking thunder claps but minus wind and hail, a violent thunderstorm dumped nearly two inches of rain on Ozona last night.

With a bad-weather warning broadcast by TV and radio for this area, residents held a collective breath while the violence was in progress and a big sigh of relief when it was over and no damaging hailstorm or wind had occurred. Reports were unavailable this morning as to the extent of rainfall in outlying parts of the county.

Ozona Student Attends National H. E. Meetings N. Y. Welfare Work

Miss Sarah Hicks, a junior in the University of Texas, where she has been on the dean's list for the past year, daughter of Mr. and Mrs. Lindsey Hicks of Ozona, is home for a few days vacation before going to Madison, Wis., where she will be a delegate from the University chapter of Omicron Nu, national Home Economics honor society at the society's national convalesce June 16 through the 20th. Miss Hicks is president of the University chapter.

Immediately following the Madison convalesce, Miss Hicks will attend the national H. E. convention to be held in Milwaukee, Wis.

For the balance of the summer, she plans to further work in her major by taking part, at the invitation of the New York Welfare Association, in the Association's summer program in child development work, provided her attendance at the Wisconsin meetings does not overlap too far into development of the New York project.

Ozona Sprayers Still Tops In Service League Of Bowling Association

Ozona Sprayer's teenage whizzes continue to dominate the Service League of the Ozona Bowling Association as they won three additional points last Monday night at Miller Lanes. Led by Van Miller's 159-448, the young Sprayers broke out of last week's tie for first with the Flying W Ranch and jumped into a two game lead. Their victims for the week were the Ozona National Bank. The Bankers top scorer was Sam Ligon with 162-395.

The highlight of the evening, however, was the individual performance put on by John Redden, local veterinarian, who found alleys 3 and 4 to his liking and shot a torrid 235-638 high game and series for a new league and city high. Redden's team, L. D. Kirby Humble, lost despite the veteran bowler's masterful shooting 3 games to one to the up and coming Woody Mason Ford crew. The Mason group has won 10 of their last 12 decisions and have vaulted into second place tie in the league with the Flying W Ranch. Roy Killingsworth's 179-481 topped Masons.

Sutton's Chevron kегlers shot the Ranchers out of a first place tie into a second place tie by winning 3 points to one over the Flying W boys. Allie Lock's 209-594 was not enough to carry the Ranchers through. Lock's score, incidentally, though overshadowed by Redden's performance, was a feat in itself and this series puts him second high in the league for the year. Sutton's group was led by Welton Cockrell's fine 214-515.

Leo's Station placed Ozona Butane further in the cellar with a 3-1 victory and were topped by Jack Gillit's 201-469 score. The "Gassers" top bowler was Glenn Cox with a 151-393.

Standings:

	W	L	Pct.	Gbl

Civilian Group Is Given Tour Of Ozona Radar Base

Vast Defense Network Tie-In Revealed In Guided Tour

Members of the Ozona Rotary Club and their guests were entertained by personnel at the 732nd AC&WS, the Air Force radar base east of Ozona Tuesday noon and were treated to a conducted tour of the base and a lucid explanation by its officers of the functions being performed by this unit, one in a vast network of defense looking and listening posts, set up jointly by the U. S. and Canadian governments surrounding the North American continent.

The civilian guests enjoyed a fine luncheon in the base mess hall, prepared and served by personnel. Following the luncheon Rotary President Bill Cooper expressed the club's thanks for the Air Force invitation and took occasion to express on behalf of Ozona an invitation to the men stationed at the base to feel they are a part of Ozona.

Acting Base Commander Lt. Samuel M. Lee responded and expressed appreciation on behalf of his men of the friendly attitude of the townspeople and their efforts to make the service men feel at home.

Now fully activated, the base's operations building is restricted but the day's civilian guests were given an opportunity to see the radar scopes at work, to observe the presence of aircraft in the air in the vicinity and the round-the-clock operations which plot, observe and identify all such craft and transmit information to network centers.

Lt. Dennis Starling, operations officer at the base, explained the defense network with an illustrated lecture using slides projected in the base recreation hall.

"It is an expensive operation," Lt. Starling said, "but if we can convince the Russians that it will not be healthy for them to cast the first stone, it will be worth what it costs."

Other officers assisting in conducting the guests and explaining the base's functions were Lt. Jim Coatsworth, supply officer, and Lt. Brad Crockett, personnel officer.

Instantaneous transmission of information to Colorado Springs, Colo., headquarters of the North American Air Defense Command from this and other units in the defense network and the strategic placement of fighter plane bases which can be "scrambled" aloft within seconds after an unidentified craft is spotted gives Americans the comforting feeling that their defenders are keeping constant watch with the finest scientific instruments available and manned by competent personnel.

Turner Finals Fourth Shannon Well For 11.7 Barrels Daily Flow

Fred Turner, Jr., of Midland completed the No. 1-AA Shannon 3/4-mile west of his No. 6-BB Shannon, recently completed third producer in the Noelke, Southeast (lower Queen) field of Crockett County, seven miles southeast of Iraan.

It was finalized for a daily flowing potential of 11.73 barrels of 31 gravity oil, no water, through a 3/4-inch choke and open hole between 1,620 feet, where 5 1/2-inch casing is seated, and 1,629 feet, the plugged back depth. Total depth is 2,207 feet. Gas-oil ratio is 425-1.

Top of pay was picked at 1,629 feet on ground elevation of 2,538 feet.

Tubing pressure was 120 pounds; with packer on casing.

The No. 6-BB Shannon was finalized May 26 for a calculated daily flowing potential of 2,343.18 barrels of 31.5 gravity oil, no water, through two-inch open tubing and open hole between 1,645-1,662 feet.

THURSDAY, JUNE 4, 1959

CONGRESS MUST GUIDE COURT

In its historic decision setting aside the conviction of Communist Steve Nelson in the Pennsylvania courts — as well as in order, including the desegregation ruling — the Supreme Court has indicated a trend toward a monolithic, Federalized nation and away from the original concept of the United States of America.

In the Nelson case, it was the Court's position that the Smith Act pre-empted state laws on subversion, and that, in passing the Smith Act it was the intention of Congress that the Federal courts should take over in this area. However ridiculous it may seem to a layman that a statesman and patriot of the caliber of Virginia's Rep. Howard W. Smith intended by his legislation to weaken the nation's defenses against Communism, the High Court, after all, considers intent on a strictly legalistic basis.

Plainly it is time — while our states still have some prerogatives — for Congress to provide the Justices with firm guidance. To this end, Rep. Smith has introduced a bill in the House (H.R.3), and Sen. John J. McClellan an identical bill in the Senate (S.3) stating that when Congress intends to cancel state law with a Federal law, the new legislation must say so. If Congress does not clearly say that the new Federal law pre-empts state laws on the subject,

the Court cannot assume that it does.

No business presently before the Congress is more vital to the preservation of the states and the strength of the nation than the "3's" in the House and Senate. They are the business not only of our lawmakers, but of every citizen who is concerned over the preservation of his country in the highly successful pattern established for it by the founding fathers. And when we say "every citizen," we include the President whose special and sworn duty it is to keep the United States on its traditional track. Thus we hope that our Chief Executive will join his fellow citizens in urging upon the Congress the speedy passage of this desperately needed law to end encroachment-by-confusion on the fundamental prerogatives of the states.

ON MAY 27th, the day named by Khrushchev six months in advance for the take-over of the Berlin corridor by East Germans and the departure of Allied occupation forces from West Berlin, traffic moved without interference, nothing happened. The event for which this day will be remembered was the burial of John Foster Dulles in Arlington National Cemetery. And, among all the spoken tributes, none was more eloquent than the silence from the Kremlin.

Many, including the President have called Mr. Dulles the greatest Secretary of State the nation has ever had. Whether or not History confirms this, he was certainly the bravest — both in public and private life. His example will be difficult to follow.

MOR-KOOL EVAPORATIVE COOLERS advertisement with image of the product and instructions for use.

THERE WAS TALK early this year that Congress would break the spending requirements requested by President Eisenhower in his \$77.6 billion budget.

Actions thus far simply have not borne the contention out. The House this week trimmed more money from the President's requests, slashing \$30 million from a bill funding the Justice Department, State Department and U. S. Information Agency.

A week earlier, the House took \$128.5 million from the President's request for 20-odd Federal Executive agencies. Thus far, in every one of the appropriation bills that have been presented to the House, the members have voted less money than President Eisenhower asked for. Occasionally, the Congress allocated more funds for a specific purpose than the Chief Executive had requested, but reductions in other areas were larger than the additional grants, and the result in the House thus far has been an overall reduction.

More of the same could be brewing, as the House Foreign Affairs Committee has just voted to reduce the Administration's foreign aid bill by \$266 million before sending it to the floor, where it is certain to be the target of even more attempted cuts.

IN ADDITION, the House Appropriations Committee has trimmed about \$400 million from the Defense Department Appropriations Bill for 1960.

The Committee is careful to point out that it increased the funds in some fields, reduced them in others; and feels the changes made will increase the overall deterrent power of U. S. military forces over the next few years. The changes were made after four months of detailed hearings, minute examinations, and top secret testimony from high Pentagon brass in all services.

Included in the committee action was an additional \$200 million for Army procurement to advance the Nike-Zeus — the Army's anti-ICBM missile. At the same time, the committee slashed the Air Force Bomarc missile requests by \$126.7 million, saying it had no assurance the Air Force missile would work, and pointing out that it is not exceptional. Thus the Army has won round one in its dispute with the Air

Force as concerns the Nike system vs. the Bomarc, which the Air Force had claimed as superior. LEGISLATIVE ROUNDUP — The House has approved a four-year extension of the Defense Reorganization Act, under which the government may undertake to recover excess profits in defense contracts of more than \$1 million. House Small Business Subcommit-

tee says the government saved \$750,000 after the panel interceded with the Navy to urge that small business firms be given a chance to participate in competitive bids for purchase of radar systems. Economics Professor Robert Eisner told a joint congressional committee it is desirable to keep the economy close to full employment, even though that will

tend to pull up production. Mr. and Mrs. A. C. they will enjoy a vacation with a niece, Mrs. and family. Mrs. former Alva Smith, the late Mr. and Mrs. of Ozona.

Fall in love with your car again

Remember how proud you were of your new car when you saw it in the showroom? We'd like to do all we can to keep that car as close to new as possible.

We know that next to your home, it's your biggest investment and therefore deserves the best care in the world. To us this means more than just keeping it supplied with top-quality gasoline and oil. It means extra service—the

kind of service that makes your car a pleasure to drive while you own it, makes it worth more when you trade it in.

Making friends with your car is our business. And making that friendship pay off for you is our job in America's competitive and prosperous oil industry. So why don't you bring your car in today — and find out for yourself that we mean all we say!

CHEVY BESTS

Independent experts and official facts and figures prove Chevrolet's ahead of its field in seven big ways.

BEST BRAKES... In direct competitive tests of repeated stops from highway speeds, conducted by NAC-CAR*, Chevy out-stopped both the other leading low-priced cars—and why not: Chevy brakes are far larger, built with bonded linings for up to 60% longer life. BEST TRADE-IN... Check the figures in any N.A.D.A. Guide Book. You'll find that Chevy used car prices last year averaged up to \$125 higher than comparable models of the "other two." BEST STYLE... Popular Science magazine says it

up: "The fact is, in its price class the Chevy establishes a new high in daring styling..." It's the only car of the leading low-priced three that's unmistakably modern in every line. BEST ECONOMY... No doubt about this: two Chevrolet Buicks won their class in the famous Michigan Economy Run, got the best mileage of any full-size car. BEST SOUND... Official dimensions reported to A.S.A. make this clear. For example, Chevy front seat hip room is up to 4.5 inches wider than comparable cars. BEST

ENGINE... Every motor magazine has given Chevy's standard and Corvair V6's untested praise. As Sports Car Illustrated puts it: "Indeed, this device is easily the most wonderfully responsive engine available today at any price." BEST RIDE... You'll be able to tell this yourself, instantly. But Motor Trend magazine expresses it this way: "... the smoothest, most quiet, softest riding car in its price class."

Make sure you get the most for your money—see your local authorized Chevrolet dealer!

ing, buying, remodeling or re-
pairing a home.

L. B. Horton, Sr., president of
First Savings and Loan Associa-
tion, has guided this institution
from its humble beginning seven
years ago to a phenomenal growth
of nearly \$10,000,000 in assets to-
day.

The loan service offered by the
First Savings and Loan, who are
located in the Continental Fidelity
Building in San Angelo, is avail-
able to everyone . . . inquire with-
out obligation. Their officers and

directors all West Texans, have al-
ways been interested in the growth
of Ozons.

Straight To The Point

A Summary of Vacation News From The Teenage Set
By Sally Baggett

Practically all the exes have returned with the exception of a few and they are expected soon.

Believe it or not, Camille Adams cut her hair almost short. It looks nice, Camille.

Feel like taking a cool dip? Well, the pool is open again. They even have a good looking life (?) guard Joe McMullan.

Say! I told you all to get busy in a SAFE way. B. B. Ingham didn't busy up safely because he sprained his ankle, but he must not be hurting too bad because he uses it all the time.

Bobby Sutton left us for Odessa. Better pay or better play, Bobby. Sandra Whitaker had her tonsils out. I'll bet she talked the whole time. She was going strong afterwards.

Say, Bill Meinecke, who was that blonde headed girl you were with a week ago Tuesday? Better watch out.

Barbara Barbee is happy again. Jim has returned from Colorado. He is trying to make us believe he had a snowball fight while he was there. Maybe so?

Seen around — correction — inside the school lately are Susie Chandler, Barbara B., Susan Brown, June Bunker, and I. You guessed, the Annual. Jerry was developing pictures for some relatives but all his pictures were swiped. There are five girls who each have a new picture of Jerry. You can make some more Jerry.

Susan Brown is here from Austin. She is visiting me. Pierce Miller, Bill M. and Ronnie Beall are making good use of the river. Sunday afternoon they went fishing. From what I hear it was more of a water fight than anything else.

Peggy Harvick is riding pretty in a new blue and white Pontiac.

It's really the family's but Peg drives the most! Speaking of Peg she is looking for someone to keep her pet for her while she is in Gainesville. Any volunteers? (Better think twice — it's a baby

June 10 Big Day For Texas 4-H Clubbers At Annual A&M Roundup

COLLEGE STATION. — One of Texas' best known roundups will be held at Texas A&M College on June 9 and 10. It is the State 4-H Roundup and an estimated 2,000 4-H members, adult leaders, county extension agents and others interested in this great youth organization will attend.

The big day will be June 10 when state winners in 25 judging and team demonstration contests will be named. Those participating in the contests have won that opportunity by first being county winners and then by taking first or second place in their respective districts. Several of the state winners will have the opportu-

ity of representing Texas in national contests later in the year.

The first assembly, scheduled for the evening of June 9, will feature an address by Dr. Kenneth McFarland, educational consultant and lecturer for General Motors, Topeka, Kansas.

No roundup is complete without its chuckwagon and barbecue and the 4-H one is no exception. Everything is in readiness for the Texas 4-H Club Recognition Committee's Chuckwagon Barbecue scheduled as the opening feature of the second evening's program. A general assembly will follow the barbecue.

Members of the Recognition Committee will be presented by Chairman H. E. Burgess of College Station and President M. T. Harrington, Texas A&M College. Students will address the statewide

4-H gathering in the evening with 4-H members who will be presented in charge of both programs.

Willie Patten, Mrs. Joe Sellers and others from San Antonio and El Paso will be present for Camp Stewart, Texas.

VALUE-RATE the ROCKET

The man who knows value goes Olds!

More and more medium-priced car buyers who want the most for their money are joining the swing to Olds.

Why? Because they figure up all the extra quality features and conveniences Olds has as standard equipment. They carefully consider the economy of the Rocket Engine... the low-cost maintenance of an Olds... its higher resale value. But most of all they ask themselves,

"Is this the kind of car my family and I will be proud to own... one that will give us the full measure of fun and comfort we want... is this the car whose style will stay in style?"

The overwhelming "yes" can be found in the booming sales success of the '59 Oldsmobile. See your Oldsmobile dealer today... Value-Rate the Rocket!

SIGN AND RETURN YOUR

TAX

RENDITION BLANKS

AT ONCE

If you have not yet signed and returned your property tax rendition blank to the county tax assessor, better do so at once.

Failure to sign and return the blank will increase your taxes because you will lose the \$3,000 homestead exemption for state taxes.

A few Crockett County property owners have not yet returned the blanks and this reminder is an effort to help you avoid the penalty of such neglect.

Midland Operator To Drill Shallow Wildcat In West Crockett Co.

R. E. Sutton, Midland, will drill an 1,800-foot rotary wildcat in Crockett county, 6 1/2 miles southeast of Iraan and 1 1/2 miles north and slightly east of the Mil- lard (Queen sand) field. It is the No. 1 Half Estate.

Location, on a 160-acre lease, is 330 feet from the north and west lines of 63-1-1&GN.

It is also 3 1/4 miles west and slightly south of the Noelke, south- east multipay Queen area.

HIGHLIGHTS AND SIDELIGHTS From State Capitol

By Vern Sanford Texas Press Association

Austin, Tex.—Whether and how the state's tax problem is met now depends largely on the Senate.

House members, apparently eager to "get the monkey off their backs," passed out most of the program recommended by Gov. Price Daniel.

Biggest milestone was House passage by a 71-to-56 majority of the governor's "package bill." As finally passed, it would raise a- bout \$150,000,000 in two years — only about \$10,000,000 short of the governor's goal.

Included in the package would be an increased levy on natural gas, a new franchise tax on inter- state corporations and bigger tax- es on tobacco, liquor, automobiles, utilities, etc.

Some members bitterly criti- cised the bill as dangerous to Tex- as' industrial future and a product of the labor-liberal lobby. But most seemed to agree that it is "the only way to avoid a general sales tax or income tax."

STITCH AND CUT TEAM — Ten lawmakers, five from the House, five from the Senate — have the difficult task of making one package out of the different spending bills passed by the two houses.

Sen. William S. Fly of Victoria and Rep. Bill Healy of Paducah head the group. House-passed ap- propriation bill is more than \$20,- 000,000 larger than the Senate's. Conference committee's task will be to cut off a little here, tack a little on there until an acceptable compromise is reached.

In past sessions, this piecing to- gether process has taken several weeks. Even on a day-and-night schedule, this committee will be hard pressed to finish its job be- fore the present session ends in mid-June.

ELECTION CHANGES URGED — Study leading toward a com- plete revision of the Texas Elec- tion Code is the goal of a House- passed resolution.

Rep. Harold Parish of Taft is sponsor.

If passed by the Senate, the re- solution would provide for a 15- member committee to draft re- commendations for the 1961 legis- lative session.

Making up the study panel would be three House members, three Senators, the attorney gen- eral the manager of the Texas E- lection Bureau, three persons named by the governor and four persons named by the national committee members of the Repub- lican and Democratic parties.

FARM TO MARKET ROAD CHANGE — State's pressing mon- ey shortage may bring about a

change in the favored budget po- sition farm - market roads have had for the past ten years.

Since the Colson - Briscoe Act was passed in 1949, the General Revenue Fund has been automati- cally nicked \$15,000,000 a year for F-M roads. Goal was to build 35,000 miles of all-weather rural roads.

Rep. Richard Slack of Pecos has introduced a bill to take F-M road spending out of the State Highway funds rather than from General Revenue. It would not cut farm road spending, but would reduce the money available to the High-

way Department for state high- ways.

Sen. Neville Colson, Navasota, co-author of the 1949 act, opposes any alteration in the program. Even though more than 29,000 miles have been paved, she said there are still school bus and mail routes that are not "out of the

mud."

Notes From The County Agent's Office
By Pete W. Jacoby

Livestock producers of the southwest should be interested in a recent U. S. Department announcement which said that coordinated field studies of the screwworm have been organized by Mexico and the United States. The joint effort is part of the Mexican-U. S. program of cooperation discussed by the presidents of the two countries in their meeting in Acapulco, Mexico, last February.

Personnel assigned by USDA's Agricultural Research Service are working with Mexico and the states of Texas, Louisiana, New Mexico, Arizona and California to learn more about the habits of the screwworm fly and to determine if the method of combatting the screwworm, now being used in the southeastern states, can be applied in Mexico and the southwest.

This method involves use of radioactive cobalt to make laboratory reared screwworm male flies sterile. When sterile male flies are released in large numbers over infested areas they mate with the native female flies and thereby prevent them from producing fertile eggs. The program in the southeast has been under way for about a year and has resulted in less than 100 cases where normally thousands of cases are reported each month in warm weather.

The survey will serve to determine where the screwworm over winters in the southwest and Mexico and how terrain and climate

or other natural factors affect the habits of the fly. Too, information on the numbers and kinds of animals attacked and the relative abundance of infestations during each season will be obtained.

The information will be correlated with topography and climate to reveal any pattern of the fly's habits that will make it susceptible to the sterile fly method. Until such information is available, no reliable evaluation of the new method for use in the southwest can be made.

A limited number of U. S. Department of Agriculture Progress Report No. 2, titled Atoms vs. the Screwworm, are available for distribution from the county agents office if anyone is interested in reading about the work carried on in the southeastern states last year by the USDA.

The chiggers in your lawn and the ticks that your pets bring into the yard need to be tolerated no longer, says Extension Entomologist James H. Hawkins. Most homeowners have at least one of these problems at some time during the year. Both pests create a problem in recreational areas, especially where wild animals are present to serve as hosts for the ticks, he said.

One application of a practical and safe insecticidal control is now available for use in controlling them. For ticks use 10 percent DDT, 10 percent chlordane or 2 percent dieldrin dust at the rate of 20 to 25 pounds, or 20 percent toxaphene dust at the rate of 10 to 15 pounds per acre where veg-

etation is sparse. Increase the dosage in heavy vegetation. If sprays are used, follow manufacturers directions for mixing. Apply at the rate of 15 to 25 gallons per acre to lawns and 50 gallons per acre to heavy vegetation, the entomologist said.

For chiggers apply dusts or sprays of chlordane, toxaphene or lindane to grass and ground litter where chiggers are present. An emulsion spray usually gives the best results. Follow manufacturer's directions for mixing sprays.

For small areas, use a compressed air or knapsack sprayer and apply 2 1/2 to 3 quarts per 1,000 square feet. If dusts are used, apply 5 percent chlordane at 40 to 50 pounds per acre or 20 percent toxaphene at 10 to 15 pounds per acre.

Summer months mean that you will be restocking the food freezer with plentiful fruits, vegetables and other foods.

You may need to freshen the inside of your freezer, and make sure there are no off-odors before adding more packages.

Here are some suggestions offered by extension home management specialists for freshening the freezer:

First, try washing interior surfaces of the freezer with plenty of soap and water. Then go over them with a cloth wrung from clean water. Wipe dry. If this does not dispel odor, wash the freezer with soda water, using 1 teaspoon baking soda to each quart of warm water. If odor persists try vinegar, using about one-half cup

to two quarts of water, or try household ammonia in the same proportions.

If none of these suggestions prove effective, don't give up. Try using heat to remove odor. To do this, place a toaster or small electric heater inside the freezer. Then use an electric fan a couple of hours to blow the air out.

Activated charcoal, put into the warm freezer, will absorb odors released by the heat. This can be secured at a drug store. Or a commercial, wick-type air freshener can be put into the warm freezer for the same purpose.

After the odor has been removed, again wash the inside surfaces of the freezer with soda water. Activated charcoal left in for a while will pick up any left-over odor.

OUR LADY OF PERPETUAL HELP CHURCH

The Feast of Corpus Christi (Body of Christ) was celebrated by the parishioners on Thursday evening May 25th. The ceremonies included Holy Mass followed by outdoor Procession on the spacious lawns. Benediction with the Blessed Sacrament took place at altars erected and decorated by the ladies Societies of the Parish.

Memorial Day services to honor the local war dead took place on Saturday morning. Father Conall celebrated the Holy Sacrifice of the Mass followed by Libera. All seven of the Ozona men who sacrificed their lives in World War II

were members of Our Lady of Perpetual Help parish. Their graves give silent tribute to the courage and patriotism of the local Latin-Americans. Those honored were: Manuel and Pablo Diaz (same family), Francisco Cardenas, Miguel Pena, Jr., Gonzalo Perez, Arturo Ramirez and Ismael Najar. Of the seven, five are buried in Ozona, one in Del Rio and one on the Island of Guam.

The new public address system donated and installed by members of the local USAF Radar Station is just what the church need. The parishioners are grateful to all who made it possible.
