Wool Referendum Voters To Be In Ozons Here Friday

Sheepmen May Vote On Promotion Plan Any Time In Sept.

Sheep producers may begin voting anytime on and after September 1 and anytime during the month of September on the question of whether or not they favor the continuation of government incentive payment checks to finance the help program of advertising and promotion to encourage the use of wool and lambs.

The referendum which will decide the fate of the grower-aided promotion program will be held from the local ASC office and from ASC offices in all producing counties on Friday, August 28.

Sheep owners will be asked to vote "yes" or "no" on the question of continuing the deduction from the next three years under the act of the act approved by Congress. The national referendum is under the direction of the United States Department of Agriculture and the Secretary of Agriculture is authorized under the act to enter into an agreement with the American Sheep Producers Council, a grower-aided organization, for a continuation of the promotion program provided the volume of production represented in the referendum indicates their approval.

Sheepmen will be marked and registered either in person or by mail, at the local ASC office anytime during the month of September, before September 30 to be eligible to vote in the referendum.

Approved by the referendum, the three-year agreement will be entered into by the Secretary of Agriculture and the Sheep Producers Council to continue the deduction of 1 cent a pound for wool from incentive payments under the National Wool Act.

Approval must be secured by at least two-thirds of the voters in each county. The production of such products, the sheep producers are convinced that unless production is maintained, the wool industry will be in a state of decline. The sheep industry is a vital fiber of the economy and the duty of the government is to encourage production of this vital fiber.

TEACHER INITIATED EDUCATION FRATERNITY

WILDCAT

McCaughy, Oklahoma, will drill the No. 1 well in the 2,500-foot deep wildcat, 35 miles west of Ozona.

you'll not huff and puff this sheep's house in!

TS&GRA Head Urges Sheepmen To Support Program Of Self Help By Voting Yes To Continuation of Wool & Lamb Promotion

Sheepmen of Texas are being urged by Lance Sears, Sweetwater, president of the Texas Sheep and Goat Raisers' Assn., to vote "yes" in the September referendum on wool and lamb promotion.

In a letter mailed today to practically every wool producer in Texas, Sears stated the TS&GRA "feels" that (1) the American sheepman must promote the product he raises — lamb and wool — if he is to stay in business; (2) a voluntary method of industry financing will not work as it has been tried many times; (3) the present method of financing through the deduction of one cent per pound from the incentive payments is a fair and democratic way; and (4) the promotion organization — the grower-controlled American Sheep Producers Council Inc., is doing a good job.

Sears also takes issue with the active opposition of the American and Texas Farm Bureau organizations in regard to the referendum, which will take place during the entire month of September. These general farm organizations are urging the sheepman to vote "no."

Farm Bureau leaders say the present method of financing promotion work of the ASPC is a compulsory check-off and that they are against it in principle. Sears' letter stated that "this association has worked with the Farm Bureau on many occasions on matters affecting farmers and ranchmen. It is a good organization, but, his letter said, "it is entirely out of its rights and prerogatives in telling a commodity group such as ours how to run its business."

In regard to the Farm Bureau's check-off charge, Sears said the one cent deduction "is a tax on sheepmen, voted on themselves by a two-third majority, for the good of the industry."

Summer Showers Bring Light To Heavy Rains Over Crockett Area

Summer showers, ranging in volume from light showers to upwards of three inches, rained around over portions of Crockett county the past week-end. Thunderstorms fell in the Ozona area Saturday and Sunday afternoons, bringing more than a half inch of moisture to Ozona and dumping heavier falls over scattered sections of the county, in all directions but general over none.

Brazil Missionary Speaks At Baptist Series Next Week

Rev. Grayson Tennison To Be Here For Twice Daily Services

Many of us will not have the opportunity to travel into the remote areas of other countries, but Ozonans next week will have the privilege of hearing a man who has done so.

He is the Rev. Grayson Tennison, a Southern Baptist Missionary to Brazil, who will speak twice daily in a series of services at the First Baptist Church here beginning next Sunday, Aug. 30, and continuing through September 6, according to announcement this week by the pastor, Rev. Harry Trulove.

Rev. Tennison will be beginning his eleventh year with the Mission Board as he returns late this year to his field of service in Brazil. He has had many interesting and rewarding experiences come from his work in Brazil. One such as related by the local pastor from a previous visit of the Tensons to Ozona.

The Tensons were feeling at low point because of an apparent lack of progress in their work. At the close of a service one evening, an elderly native came to the front to inquire about the "man Jesus." His village, some 100 miles away, had sent him to inquire about the religious services that were being held in the area. The man had walked, ridden by oxcart and other primitive modes of transportation to reach his destination. As a result of his visit, a new work was started and other people found the peace that passes all understanding, Rev. Tennison said.

Services during the series here will be held during the lunch hour from 12-30 to 1 p. m. and again each evening beginning at 8 p. m. A cordial invitation is extended to the entire community to hear the experiences of Mr. Tennison in the foreign mission field.

First Scrimmage Shows Lions Need For Polishing Up

Coaches Seek To Bolster Weak Positions After Workout

By Ernie Boyd

Coaches Fred Hickman and Sonny Cleere started looking around for a few new faces Wednesday morning following the Tuesday afternoon scrimmage with Lakeview which found the Lions doing fairly well in places but not well enough to suit their bosses.

No injuries were sustained in the two hour scrimmage and at least two Lions who have been hobbled by injuries for the past few days were able to take part in the practice session.

Coach Hickman told the boys following the session that a good bit of hard work remained to be done and that he was pleased with some and disappointed with others following the afternoon's action.

In the contest itself Lakeview managed to score one TD on a long run up the middle and then intercepted a pass for a score while the Lions launched three seventy-yard sustained drives that might have all scored under game conditions.

The Lions' untested line, which was getting its first work as a unit this season, looked pretty good but the absence of Diz Reeves and Billy Bob Holden at the key line-backer spots was most noticeable.

Lion Coaches will probably be looking for someone to fill these slots, along with trying to get a little more seasoning into their green replacements.

The Lions had a few more lettermen this year than they would normally have had since many boys lettered last year on the strength of a lot of playing time registered against such teams as Coahoma, Big Lake, Menard and others who failed to give the Lions much competition.

B. B. Ingham, who has been out with a twisted knee, and Jim Freeman, who has been out with an ailing back, both saw extensive service Tuesday without ill effects, much to the relief of the Lion followers. Muggins Good, who is counted upon for a good deal of service this year, is still out as the result of being thrown from a donkey before practice session began. An ugly cut on Good's back has been slow healing and may keep him sidelined for sometime to come.

The Lion squad went down to 30 Wednesday when one Lion senior turned in his uniform rather than accept a position change. Coach Hickman expressed regret that the lad who has been a promising prospect had decided to quit.

Local Pastor Attends National Convocation Of Methodist Youths

Rev. Morris M. Bratton, pastor of Ozona Methodist Church, and Mrs. Bratton are at Purdue University this week attending the National Methodist Youth Convocation.

Several thousand Methodist young people from all over the United States are attending the Convocation. Approximately 60 young people from the Southwest Texas Conference were expected to attend.

In the absence of Rev. Bratton, the pulpit at the local church will be filled next Sunday, August 30, at 11 a. m. by the Rev. L. U. Spellman. Rev. Spellman served once as District Superintendent of this San Angelo District and is well known to many Ozonans. He has made an outstanding contribution to Methodism in the Southwest. At present, Rev. Spellman is retired and is living at Kerrville, Texas.

The Brattons will be returning to Ozona August 31.

Mr. and Mrs. J. M. Baggett are spending the week in Ruidoso, N. M.

Snake Hunting Wreck Victims Were Driving Stolen Volkswagon

Two Vermont youths who figured in a two-car highway crash west of Ozona several weeks ago because they stopped to see a Texas rattlesnake, were driving a stolen car, a Volkswagon bus model, Deputy Sheriff Levon Parker found on inquiry to Vermont authorities after becoming suspicious of the actions of one of the youths.

One of the youths—16-year-old Wallace Warren of Burlington, Vt., was in critical condition in the Crockett county Hospital for a time after the accident but had recovered sufficiently to be released a day before the arrest of his companion, Carmi Richard Rushlow, 18 also of Burlington, by Deputy Parker. He was on his way to Vermont by bus when information on the stolen Volkswagon was secured here.

Because he could not produce title papers nor give satisfactory information about insurance on the car, Rushlow had been unable to get his damaged Volkswagon repaired here. When he attempted to sell the vehicle at the Ozona Air Force Station, security officers there called the sheriff's office and the investigation followed.

The Volkswagon had been stolen July 20 from Alexander Smith in Burlington. FBI Agent Ed Dorris of San Angelo questioned young Rushlow and secured a statement admitting the theft. Rushlow was turned over to Federal authorities who were to file charges of transporting a stolen motor vehicle across state lines. Burlington authorities indicated they planned to pick up the other youth on his arrival there.

The two youths were driving west on Highway 290 west of Ozona when they spotted a rattlesnake beside the road. They stopped, turned around and went back to the spot and when they attempted a U turn on the highway they were struck by a pick-up driven by Buford Andrews of Pecos, employed with a seismograph crew.

Mr. and Mrs. James Nettleton returned recently from a vacation trip through the northwest and into Canada. The Nettletons, who formerly operated the Modern Way Grocery here, plan to take over their ranch south of Ozona October 1 and will live on the ranch.

Nationally Known Football Official Banquet Speaker

Shorty Lawson Slated To Speak At Booster Club Banquet Tues.

By Ernie Boyd

Shorty Lawson, nationally known football and basketball official, will be the principal speaker next Tuesday night at the annual Ozona Lions Booster Club banquet to be held in the little gym at Ozona High School. The annual affair honors members of the Ozona High School football squad, their dads and coaches.

Lawson began his career as an official in this area and for a time was one of the officials in the Ozona Invitational basketball tournament before moving up to the small college circles and then into the Southwest Conference where he became known and used widely throughout the central part of the United States.

All men in Ozona are invited to attend the meeting and airmen at the local radar site are extended a particular welcome according to booster President Jake Mullins who got the membership drive off to a good start Tuesday afternoon.

Boosters not contacted between now and meeting time are urged to come without membership cards since they will be made available to those wanting them at the meeting.

In addition to the speaker for the night, boosters will meet the coaches and players on the 1959 squad and hear a few comments from the Lion bosses.

The meeting will come on the second day of one-a-day workouts for the Lions and will be a few days prior to the season opener for the Lions and will be a few in McCamey.

The Lion Booster Club is made up of Ozona men interested in athletics and promoting a good sports program in Ozona. The meeting will be the third annual sponsored by the Boosters but will be a continuation of a program started a number of years ago by the now defunct Crockett County Sheriff's Posse.

Mr. and Mrs. Geo. Montgomery Honored On 50th Wedding Anniversary Monday

Mr. and Mrs. George Montgomery of Ozona were honored Monday evening, August 24, on their fiftieth wedding anniversary at a family supper in the garden of the Beecher Montgomery home.

Honoring the couple were their three sons, Vic Montgomery, Beecher Montgomery, Tom Ed Montgomery, all of Ozona, and their two daughters Mrs. John Shepperd of San Angelo, and Mrs. Alfred Studt of Westpoint, Conn. Only members of the immediate family were present for the celebration.

George William Montgomery and Anna Camille Thodberg were married August 24, 1909, in Comanche, Texas, in a pretty home wedding. A priceless souvenir of that wedding, an original clipping of the account of the wedding as it appeared in the Comanche Chief of fifty years ago, was pilfered by a member of the family and made available to The Stockman for reproduction on the occasion of the golden anniversary of the event.

Written with the editorial flourish of the journalistic style of the time, the original account of the wedding, under the heading "United In Marriage — Beautiful Wedding of Popular Couple — An Impressive Ceremony — Immediately Repair to Home Several Miles South of Town" in successive banks, was as follows:

"In an attractive environment and amid well wishes of friends, Tuesday evening at 8 o'clock, Mr. George Montgomery and Miss Camille Thodberg were united in marriage at the home of the bride's parents, Mr. and Mrs. V. H. Thod-

berg. It was a pretty wedding, the beauty enhanced by the tasteful decorations and emphasized by the youthfulness of the bride and her charms. In the various rooms asparagus ferns, blooming vincas and white roses symbolized the endurance of love, the delicate sentiments of the occasion and the purity and holiness of the wedded state.

"Preliminary to the sacred ceremony, Miss Mary Harris sang in impressive style and with engaging melody two songs, "Sweetheart" and "There Let Me Rest," following which she rendered soulfully the always thrilling wedding march of Mendelssohn. It was the signal for the appearance of little Evelyn Thodberg, as charming as a fairy, who loosed a white ribbon that was the fragile bar across the doorway, and after she had folded it deliberately, Mr. Frank Everidge and Miss Rita Harris, attendants, Mr. and Mrs. Thodberg, Mrs. Kittle, sister of the groom, and Victor Thodberg, entered and stood before an arch of ferns and roses and pendant white bells.

"Then, the cynosure of all eyes, the select parties, the happy pair, soon to be united, came gracefully into the room and occupied a position by the arch and the emblematic bells, and quickly the minister, Rev. C. H. Buchanan, solemnly and impressively, pronounced them man and wife.

"The bride was attired in a pongee coat suit and a large black picture hat with elegant plume. They received many pretty and costly presents. After receiving (Continued on Last Page)

PRAYERS, NOT CHEERS

Nikita Khrushchev's 12 day itinerary in the US appears already to have been worked out in considerable detail — with official Washington taking the brunt of it and the only other cities to be infected being New York, Pittsburgh, Los Angeles and San Francisco. The Soviets themselves have turned down more elaborate and extensive inspection of the nation for the fairly obvious reason that they do not wish to be obligated to show President Eisenhower very much of the "people's paradise."

And yet, there are those who hope that mighty public protest against the visit may still cause its "indefinite postponement," plus vague reports from behind the Iron Curtain that Red forces are opposed to the exchange of visits and may persuade Khrush to stay home.

More realistic, perhaps, is the thinking and planning of Admiral Ben Moreell, USN (Ret), who, as chairman of Americans for Constitutional Action, is urging that the blight of the Khrushchev visit be offset by prayer.

In a letter to church men, Admiral Moreell reported that he had invited members of 19 patriotic organizations representing ten million Americans to discuss with them "an appropriate posture" regarding the Khrushchev visit.

"There was general agreement," he wrote, "that . . . since we are a people whose trust is in God, . . . the moral implications of the visit far outweigh all the others."

"The question arises then whether, by inviting this visitor to our shores, we give implied moral sanction to his past record and . . . whether, by our action, we endorse the extreme cruelties visited by the Soviet Union on enslaved peoples."

"In light of these thoughts, there was general consensus that, while

we should refrain from any demonstrations of hostility, it would be right and proper that Mr. Khrushchev's arrival . . . be set aside as a day of prayer in all the churches of the land . . . In like manner, special services should be conducted in each city on the day of Mr. Khrushchev's visit."

Swift approval of the Moreell Plan came from Evangelist Billy Graham who said: "I heartily endorse Admiral Moreell's proposal that Premier Khrushchev's day of arrival should occasion a day of prayer on the part of the Nation . . . May this be an occasion that we conform our national life with our usual boast that God is our trust."

And finally, may those who love their country and detest the things Khrush stands for, do their very best to see that this ogre is paraded through empty streets.

FARM BUREAU PULLS THE WOOL

The American Farm Bureau Federation recently tried to do a little wool pulling, but instead it seems to have come up with more briars and barbs than a coon dog running a racoon. The sheep industry is playing anything but the part of a lamb in striking back at the AFBF for attempting to influence sheepmen against their own promotion program for lamb and wool.

Several weeks ago everything was calm and serene concerning the national referendum among sheep growers to be conducted during September by the U. S. Department of Agriculture. Sheepmen will vote by mail to determine whether or not they want to continue their self-help program of promotion and advertising which has been under way 3 1/2 years. Sheepmen contribute one-cent per pound of wool for this promotion effort.

The program is designed to expand the markets for lamb and wool, products that were fast heading for oblivion just a few short years ago. Now, under the National Wool Act, the sheep industry has a new spark of life. Sheep numbers are increasing steadily and the promotion program is stirring new interest in these products to accommodate this increased production.

Recently, the American Farm Bureau Federation, in a slightly undignified manner, published a leaflet which was supposed to inform the sheepman that his program isn't worth a plugged nickel. Unfortunately, the leaflet contains more mishmash than meaning, largely because it doesn't contain all the facts.

It may be proper and fitting for the AFBF to voice its opinion, providing it is based on foresight and facts, but when it starts using unfair tactics to influence the sheepman against his own program, then it is for out of the furrow. No wonder some people gaze on agriculture as a sort of mishapen and misguided group. Here we find a large general farm organization battling the small sheep industry which is only trying to do something for itself.

If the Farm Bureau was really

sincere in its efforts to help the sheepman, it would have joined with the sheep industry long ago to solve the problem, if there is one or at least submit a sensible

substitute for the present program. If the sheepman is going to receive an incentive payment on his wool — with the money coming from duties on imported wool —

then the only logical thing for him to do is use a small portion of this money to help promote and advertise his own products, with all sheep growers participating. To

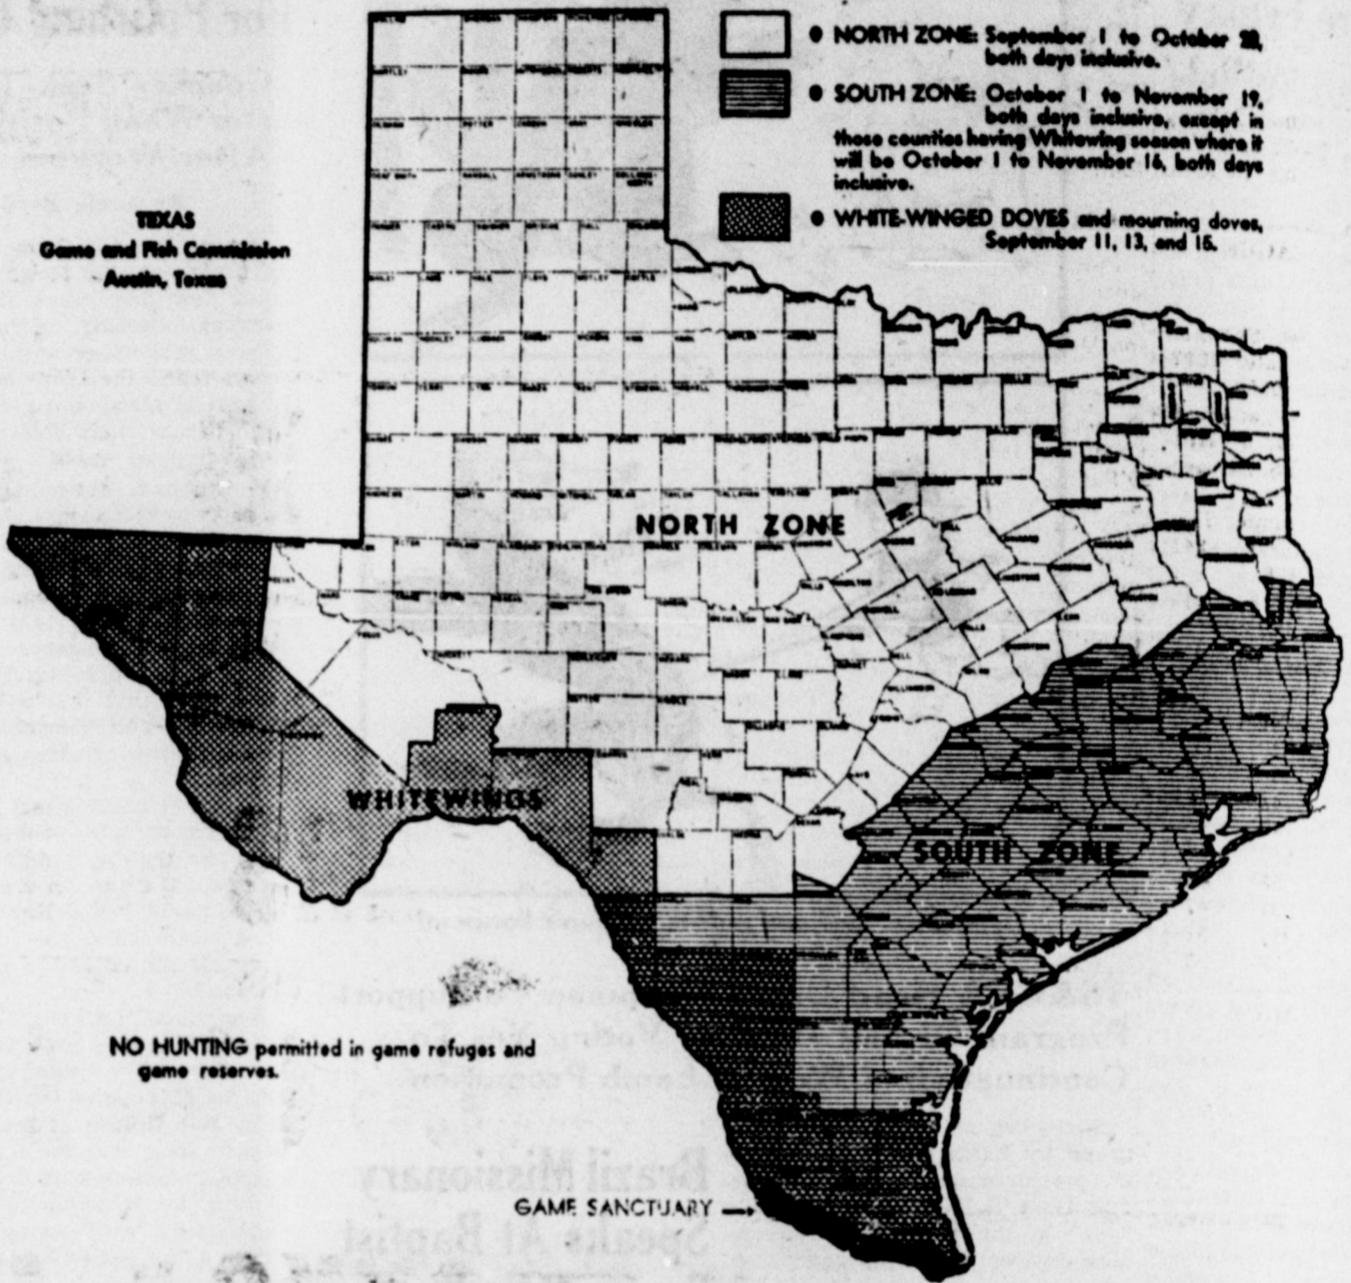

do any less would seem to be neglect of responsibility on sheep grower's part. The American Farm Bureau Editorials Continued on Page

MOURNING DOVE - WHITE-WINGED DOVE
Open Seasons 1959

MOURNING DOVES: Daily bag limit—10. Possession limit—not to exceed 20.

WHITE-WINGED DOVES: Daily bag limit—10. Possession limit—10.

NOTE: When both mourning doves and white-winged doves are possessed—Possession limit—20, in the aggregate, and not more than 10 may be white-winged doves.

SPECIAL NOTE: Unlawful to take white-winged doves or chachalacas South of U.S. Highway 83, formerly State Highway 4, in southern tip of Texas, marked on map as "Game Sanctuary."

SHOTGUNS: Must be plugged permanently to three-shell capacity, may not be larger than 10 gauge. Hunting doves with rifles prohibited.

SHOOTING HOURS: Mourning doves, 12 noon to sunset—except in areas having whitewing season, where the shooting hours will be from 2 p.m. to sunset on September 11, 13, & 15, only. White-winged doves, in season, 2 p.m. to sunset.

CHEVROLET

*most m.p.g.** *miles per gallon

one of 7 big bests Chevrolet gives you over any car in its field

Proof that Chevy delivers the most miles from a gallon comes from an indisputable source: this year's Mobilgas Economy Run. For a pair of Chevrolet sixes with Powerglide walked away with the first two places in their class — got top mileage, in fact, of any full-sized car. Over the Run's long, rugged course, over mountain and desert in the long, long haul from Los Angeles to Kansas City, the winning Chevrolet averaged a whopping 22.38 miles per gallon. That's the kind of economy-engineering that keeps you saving while you drive!

BEST STYLE—It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCI-

ENCE magazine, "a new high in daring styling."

BEST BRAKES—In competitive tests of repeated stops from highway speeds, conducted by N.A.S.C.A.R., Chevy outstopped both of the "other two." Naturally—Chevy brakes with bonded linings are far larger, built to lengthen brake life by up to 66%.

BEST TRADE-IN—Look at the record—the used car prices in any N.A.D.A. Guide Book. You'll find that Chevy used car prices last year averaged up to \$128 higher than comparable models of the "other two."

BEST ENGINE—Chevrolet engines have long won expert praise and, just recently, Chevrolet received the

N.A.S.C.A.R. Outstanding Achievement award for "the creation and continuing development of America's most efficient V-type engines."

BEST ROOM—Official dimensions reported to A.M.A.; make this abundantly clear. Chevy front seat hip room, for instance, is as much as 5.9 inches wider than in comparable cars.

BEST RIDE—MOTOR TREND magazine names Chevy "the smoothest, most quiet, softest riding car in its price class." But this is one Chevy feature you really should discover for yourself, at your Chevrolet dealer's. Stop by soon!

New Law Tough On Habitual Violators Of State Traffic Laws

Austin — The Director of the Texas Department of Public Safety cautioned today that a new state law provides for the suspension of the license of any driver convicted of four moving traffic violations within a 12-month period.

Col. Homer Garrison, Jr., said the new law, passed by the recent session of the Legislature and signed by Governor Price Daniel August 5, for the first time defines the term "habitual violator." The definition is as follows:

"The term 'habitual violator' as used herein, shall mean any person with four or more convictions arising out of different transactions in a consecutive period of 12 months, or seven or more convictions arising out of different transactions within a period of 24 months, such convictions being for moving violations of the traffic laws of the State of Texas or its political subdivisions."

Garrison said if a justice of the

peace or other designated magistrate finds a driver to be an habitual violator, the Department of Public Safety is authorized to suspend the driver's license for any period up to one year.

The new law also establishes detailed procedures for appeals of persons whose licenses have been suspended and requires the courts to give priority to the setting of such cases. It designates local prosecuting attorneys to represent the state in such appeals cases.

AS WE HEAD INTO what should be the final, wrap-up days of the first session of the 86th Congress, three major items listed by the leadership as "must" bills stand as the primary barriers between us and actual adjournment.

They are: (1) Agreement on the final form of the labor reform legislation, with a Conference Committee seeking to work out an acceptable compromise between the House - passed Landrum - Griffin measure and the Senate-approved Kennedy - Ervin bill; (2) Action on a compromise Housing bill, to replace the measure vetoed earlier this year by President Eisenhower and (3) a financing plan to continue the Federal Highway program.

Since it is virtually impossible to predict with any degree of accuracy the combined future actions of 534 Members of Congress; and in the absence of a crystal ball certified as to its dependability, I will forego the temptation to forecast the ultimate outcome.

THESE IS NO doubt that of these three issues, the one most difficult to settle is the Highway financing program.

President Eisenhower has been attempting to force the Congress to pass legislation adding a one-and-one-half cent per gallon new Federal tax to gasoline, but has met stiff resistance from the State Governors who want the gasoline tax decision left to the individual States.

The House Ways and Means Committee then came up with a compromise plan setting the new Federal gasoline tax at 1c per gallon, and transferring to the highway trust fund 5% of the Federal excise tax on passenger cars, and auto parts and accessories.

But now the House Public Works Committee which also has jurisdiction over the Highway program, has balked at the Ways and Means compromise and is considering a plan of its own. Under this plan, the Federal gasoline tax increase would be cut to a half-cent per gallon, a temporary bonding plan would go into effect for the next year, after which 5% of the excise tax on passenger cars and 8% of the tax on accessories and parts would go to the highway fund.

Naturally, persons who furnish goods and services for the highway building program are attempting to stir up support "to continue the highway program." Most of the letters coming to me indicate people do want the program continued, and many Members of Congress with whom I have talked concur. However, this is really not the issue. To express an opinion for "the continuation of the Fed-

ECONOMICS LESSON

eral Highway program" does not embrace the issue but merely the result thereof. The problem that must be resolved is the financing of the program. The benefits to be derived from continuation of the highway building — better roads, easier travel, comfort, time saved, safety features, etc. — are obvious, but the question is: will the people accept a new increase in Federal gasoline taxes, or an increase in some other tax, in order to continue the highway program on its planned schedule? In other words, will the people

who want new roads be willing to pick up the tab to pay for them?

OTHER HOT ISSUES could pop up suddenly as we struggle towards adjournment, but right now it appears as if proponents of several more controversial bills have about given up hope of action this year.

I will be quick to frankly say that I am looking forward to adjournment. Almost everyone is predicting when Congress will adjourn, much as Military men in

World War II predicted in an "anchor pool" as to when a ship would drop anchor upon reaching a given port. I have done little adjournment predicting but a lot of wishing in the last few days, as this Congress has been the most wearing, the busiest and most controversial of any during my service here.

The lateness of the session has already caused me to miss several public appearances in West Texas to which I had accepted tentative invitations, and has put others still in serious jeopardy that are scheduled within the next few days. Naturally, it takes a little while to get my affairs wrapped up before I may leave after we formally adjourn, and it is quite a drive from the banks of the Potomac to the banks of the Pecos — but I am looking forward to turning my automobile toward West Texas and give it its head as soon as possible after the final gavel falls. All this means I will have less time to tour the 19 Texas-sized counties and more than 42,000 square miles I represent, than I normally do, especially since I must consider my obligation to go on active duty for a brief period with the U. S. Marines this fall.

NEW BEAUTY OPERATOR

Mrs. Maggie Reed, formerly of San Antonio, has joined Marg's Beauty Salon in the shopping center here as a beauty operator. Mrs. Reed has had long years of experience as an operator. Marg's Salon now boasts three experienced operators, Mrs. Margie Smith, Mrs. Betty Conaway and Mrs. Reed.

Mr. and Mrs. Gene Williams, Esther and Gene, Jr., spent last week in Corpus Christi and San Antonio.

School days are happy days . . . if your child is well prepared, well supplied. But if he's suffering from "school daze"—illegible notes scribbled on scraps of paper he can never quite decipher—now is a good time to snap him out of it by stocking him up on our comp books, zipper binders and other school supplies essential to a successful academic year. You'll find everything you need when you shop our grade-A assortment . . . come in and see.

EVERY STUDENT NEEDS A

REMINGTON Quiet-niter PORTABLE

COSTS JUST \$7 A WEEK

Students who use typewriters get up to 30% better grades. They express their thoughts more quickly and more clearly. And typed work is so much neater and easier to read! Most students ask for the Remington Quiet-niter because it's the only portable with Ultra-Tek, Long-stroke Cylinder, Super-strength Frame, Simplified Ribbon Change and full 44-key keyboard with Finger-Speed Keys . . . and there are the features that make it the best!

Come in and test type it!

THE OZONA STOCKMAN

U.S. OIL

Indispensable in our way of life... vital to our national defense

In the 100 years since the drilling of the first oil well in the United States, the usefulness of petroleum has been often demonstrated in many ways . . . It is an economical and efficient source of energy and a raw resource convertible through petrochemistry into innumerable useful materials. . . . It is indispensable in our way of life, and vital to the national defense.

It is comforting to know that today's reserves are ample for today's needs. And if incentives to undergo the heavy risks involved are continued, there is no doubt that more oil will be discovered and produced to replace the oil we use . . .

The United States has found, produced, refined, and used more oil than any other nation. This has made petroleum products a feature of the abundant American life. Americans use more petroleum products than any other people on the globe.

The past is prologue to the future. During its second century, oil can serve you and your grandchildren, and the nation, as well or better than ever before.

The Humble Company, incorporated in 1917, has participated in the development of new and better ways to find and produce oil, and in the research that has improved petroleum products and discovered countless new uses for oil and natural gas. Humble is a major producer of U. S. oil, with production extending all across the southern tier of states from

Florida to California. Marketing operations are carried on in Texas, New Mexico and Arizona. Humble's Baytown refinery, near Houston, is one of the great refineries of the world. (Humble Pipe Line Company, a major transporter of crude oil and finished products, operates more than 9000 miles of pipe lines in Texas.)

HUMBLE OIL & REFINING CO.

HIGHLIGHTS AND DELIGHTS From State Capitol

By Vern Sanford
Texas Press Association

AUSTIN, TEXAS — Texas will have a virtual "government on wheels" for the last part of this year as 31 state agencies pick up their filing cabinets and move into the new State Office Building.

This is the second new headquarters building to be completed this year. First to be occupied was the Texas Employment Commission building, completed only a few weeks ago.

Transferring into the new State Office Building undoubtedly will be the biggest move of state agencies since horse-drawn drays moved the government into the present Capitol Building in 1879.

Most to move will be a host of commissions, boards and divisions which have been in rented quarters scattered over Austin. Later, probably October or November, another big move will take the Supreme Court, Court of Criminal Appeals, Attorney General's Department and Supreme Court clerk out of the Capitol into the new State Courts Building.

The new state building to be completed this year has been the dream for some time of the Supreme Court's elderly Chief Justice John E. Hickman to stay on the job until he could preside in the new building.

Built of granite similar to that of the Capitol, but with modern design, the new buildings are to the north of the Capitol. Combined with the two buildings is some \$10,000,000.

TIME TO REVISE IT

With all the happiness over the prospect of splendid new quarters, there are some regrets. Many employees are worrying about where they'll park their cars once all the scattered agencies move into one building.

Supreme Court jurists feel a touch of sadness at leaving behind the historic walnut bench, inscribed with the Latin phrase, "As God was to our Forefathers, so may He be unto us." It has been in use practically since the memory of man. Replacement is a handsome marble piece which the judges

compare to a soda fountain.

Progress and Property — A tingle of excitement, fear and hope runs through landowners and business people when they learn that a new super-highway is to come through their area.

Some residents fret over the prospect of losing the old home place. Others dream of wild profits. Businessmen worry whether the motorists will be able to get to their places.

As more and more expressways pierce the countryside, the State Highway Department is making every effort to explain the procedures for acquiring highway right of way.

1. Although its first responsibility is to the public — the taxpayers and millions of highway users — the Highway Department "tries to create a minimum of private injury or inconvenience."

2. When private lands are needed for public roads, the law guarantees "adequate compensation" to the owner. Independent professional appraisers are hired, and an "approved value" figure determined.

3. Once the "approved value" is settled on, the Department negotiator can't "horse trade" with the landowner. This might reward the greedy and tough-minded at the expense of the timid or public spirited person. But a dissatisfied owner can have the matter settled in court.

4. When part of a piece of property is taken and the rest left isolated or of little value, the state will make payment for the loss of value.

5. Owners will be given ample time to move buildings to another site or find new buildings.

6. If an owner with a GI mortgage

has to sell, the Veterans Administration will restore his GI loan privileges for getting a new piece of property.

7. An owner who sells property for more than he paid for it will not have to pay income tax on the profit, providing he uses the money to buy similar property within a year.

8. Controlled access highways cannot have an entrance and exit for every piece of property along the way. Real estate developers are urged by the Department to contact the local planning engineer before making any commitments

people who are at home with quality... choose GAS air conditioning!

Whether the day is blistering hot or cold and blustery, pass through a doorway that promises gracious living and you're likely to find an atmosphere made miraculously fresh and comfortable through the marvel of Arklo-Servel GAS all-year air conditioning. Never before has there been an air conditioning system so technically simple, yet so compactly efficient. From the same space-saving unit, it heats and cools with a single fuel... a tiny Gas flame provides the energy for both winter heating and summer cooling. Because it operates on the absorption principle of refrigeration, there are no moving parts, your assurance of unrivaled quiet and years of trouble-free operation. And here's the Bonus Advantage of superior GAS air conditioning... operating costs are far below those of comparable units using other types of energy! All this with a five-year guarantee, too! Contact Pioneer Natural Gas Company tomorrow for all the facts on remarkable GAS air conditioning. It offers exciting proof that "where the finest is truly appreciated, Gas belongs!"

Get for a growing empire Pioneer Natural Gas Company

Notes From The County Agent's Office

By Pete W. Jacoby

Three Crockett County boys, Bill Jacoby, P. L. Childress, and Tommy Everett, completed the range camp held at Junction for outstanding 4-H and FFA members this past week. Four other boys have previously attended this camp. Pierce Miller, Bob Cooke, Bob Childress and Herbie Noelke. The camp provided an excellent opportunity for these seven boys to get some excellent training in range management and related fields of agriculture. Camp officials report that all the Ozona boys made excellent records and were a credit to the camp. P. L. and Tommy were named in the top five boys in all-around participation and received beautiful hand-tooled bill-folds. All the boys from Ozona have received belt and buckle and beautiful certificates as satisfactory graduates of the range camp school.

A 4-cent postage stamp saluting progress in soil conservation in the United States will be issued August 26, 1959 by the Post Office Department.

The stamp, which was developed in cooperation with the U. S. Department of Agriculture, portrays a modern farmland setting signifying that conservation farming brings beauty as well as bounty to rural living. Soil conservation practices portrayed include contour strip-cropping, terracing, pasture

NOTICE OF SALE

THE STATE OF TEXAS
COUNTY OF CROCKETT

Notice is hereby given that on the 8 day of September, A. D. 1959, between the hours of 10 o'clock a. m. and 4 o'clock p. m. at the Court House Door of Crockett County by virtue of my authority as Commissioner, appointed by the Commissioners Court on the 11th day of May, A. D. 1959, I will sell at public outcry for cash that certain tract of land situate, lying and being in the County of Crockett, State of Texas, and being:

A tract of land situate in the town of Lima, adjacent to the town of Ozona Texas, described as follows:

Beginning at the Southwest corner of a tract of land deeded to Mrs. Lillian Henderson, President of Methodist Missionary Society from Rob Miller, Commissioner, as shown in Vol. 96, page 47-48, of the Deed Records of Crockett County, Texas:

Thence South 42.3 feet;
Thence S 43 deg. 05' E 19.0 feet;
Thence S 66 deg. 00' E 18.6 feet;

Thence North 63.9 feet;
Thence West 39.0 feet to the place of beginning.

And I am further authorized by said Order to execute a Deed of Conveyance on said above described tract of land to the highest bidder at said sale, with the Commissioners' Court reservation to accept or reject any or all bids.

Witness my hand this the 11 day of August, A. D. 1959.

U. S. Smith
Commissioner.

improvement, tree planting, and a farm pond. In addition, the silhouette of a city in the background symbolizes that urban as well as rural people are highly dependent upon the care and wise use of land as a principal source of food, water, shelter and clothing. The stamp will be printed in three colors, yellow, green and blue.

Insurance of the stamp is a tribute to farmers and ranchers, their local soil conservation districts and to the professional conservationists and other agricultural workers who have helped make the United States a world leader in soil conservation.

When selecting Angora replacements, look for open-faces. Sixteen years of records show even a slight impediment of vision is detrimental because of the grazing habits of goats. Face covering has a marked effect on body weight, mohair and kid production. Does with open faces dropped an 82% kid crop during their lifetime as compared with a 63% kid crop for does with a medium face covering.

Over two and one-third million acres of farm and ranch lands in the Plains areas of Texas have been contracted for cost-share assistance under the Great Plains Conservation Program, reports Lynn Pittard, extension soil and water conservation specialist.

As of June 30, 1959, approximately \$5,500,000 had been obligated to the land-owners for assistance by the Program. In the 78 counties now participating, Pittard says more than 1300 contracts have been signed. The contracts are for three to ten years duration.

The voluntary program applies in the Great Plains area and provides cost-share assistance for many soil and water conservation practices such as, brush control, range reseeding, constructing wells and ponds for livestock water and several others. Operators may receive up to 80 percent assistance, depending on the practice.

Pittard pointed out that the program has several advantages. It is flexible and can be modified to meet the particular individuals' needs. There is no limitation on assistance except on irrigation. Crop allotments are not affected during contract and the program

may be used in combination with other government cost-share plans.

At present, range work such as; reseeding, range chiseling or pitting, controlling brush or shrubs, and initial establishment of a permanent vegetative cover account for well over half of the fund distribution.

Crockett County could become eligible for this Program if there is sufficient interest in it from ranchmen. Contact your county agent or SCS Supervisors for particulars on the Program.

School Cafeteria MENU

Monday, Aug. 31:

Ham salad — Crackers
Potato chips

LADIES GOLF ASSN.

The monthly luncheon of the Ladies Golf Association was held last Thursday at the country club. Luncheon hostess was Mrs. T. J. Bailey. Bridge hostess was Mrs. Lindsey Hicks.

In golf play in the morning, low net on the trophy play was won by Mrs. Marshall Montgomery and low putts by Mrs. Joe Pierce. In bridge play following the luncheon, high score went to Mrs. Ashby McMullan, second high to Mrs. Joe Pierce and cut prize to Mrs. Early Baggett.

Others attending were Mrs. George Bunger, Mrs. J. M. Baggett, Mrs. Dempster Jones, Mrs. Sherman Taylor, Mrs. Beecher Montgomery, Mrs. Jack Wilkins and Mrs. Vic Montgomery.

Humble To Drill Pecos River Bed Offset To Queen Sand Discovery

Humble Oil & Refining Co. will drill the No. 1 Sutton State Lease, as a southwest offset to the R. E. Sutton, No. 1 H. M. Halff Estate, 1959 Crockett County Queen discovery, six miles southeast of Iraan.

Location of surface hole is 600 feet from the north and 10,331 feet from the west lines of 53-1-I&GN, survey, of Pecos County. The projected bottomed hole is to be in the center of the Pecos River, 600 feet from the north and 10,400 feet from the west lines of 53-1-I&GN, survey, or 69 feet east of the surface location.

The discovery was finalized July 26, 1959, for a daily flowing potential of 155.9 barrels of oil, water, through a 23-64-inch casing perforations between 1,350-3,000 feet; 1,365-73 feet and 1,378-4 feet.

Williams Petroleum Co., Dallas, will drill the No. 1 Dora Horn, 3 1/2-mile southwest of production, Crockett County, 12 miles southeast of Iraan.

Location is 1,650 feet from the north line and 330 feet from the east lines of 6-1-GC&SF. Scheduled depth is 3,000 feet.

The Simpson field produces from pay topped at from 1,452 feet to 2,010 feet.

FOR SALE — 36-ft. 1955 Low Star House Trailer. See it parked behind Mrs. Tallafarro's House.

OBITUARY (Cont'd from Page 2)

may have thought it was a meek little lamb that started its attack, but the industry is uniting and the tail now has a bear by the tail no help in sight.

FACTS, FACTS, FACTS

Bellevue countrymen will have to admit that Labor Secretary P. Mitchell, in his self-appointed role of Presidential fact-finder in the steel strike found a mess of facts — and had neatly incorporated into Mitchell's report told us that wages of steel workers had gone up more than almost anything else in the country.

It also said the price of steel went up higher and faster than anything else in the country. Profits before taxes (as they were such a thing) as a percentage of total revenues, have been substantially higher, on the average, during the postwar years than in 1940. After taxes, of course, they were lower — generally lower than the 8 percent in 1940 etc etc.

There's anything else you want to know — including the fact that in April and May, 1959 the percentage of imports was more than twice as large as that of exports — you are pretty sure to find in Mr. Mitchell's report.

The only thing missing is the formula for ending the strike, the Secretary did tell reporters that the bargainers should be put to work harder, should, in fact, put on a continuous performance.

Perhaps they will, now that the side has assured us that these fellows didn't see anything in the steel masterpiece to indicate the hired help should run the office.

We enjoy the Stockman and we intend to continue to come as long as we can to receive it. We read it from front to back. Mark Corbell, former Ozonite, now living in Odessa.

Some news to the Stockman

WE ARE BEING SHEARED

In the face of the rising tide of imports that, encouraged by our do-gooding reciprocal trade programs, have already brought us imports dangerously above export, some public figures in Washington are beginning to realize that the survival of one American industry after another is at stake.

Senator Andrew Schoepel, Kansas Republican, now fears for our much bragged about standard of living and says: "We are making the US the worst place in the world to buy and the best place in the world to see in. If we continue we will have full employment in Milan and Manila and increasing unemployment in Topeka and Detroit."

With similar rumbles from solons in north, south, east and west, Congress may be sufficiently alarmed by next January to consider the bleak prospect we have created through the export of our industrial know-how, our give-away programs and GATT. But American wool people, notably the American Sheep Producers Council, backed by the processors and weavers, decided some time ago to pull the industry up by its own boot-straps rather than waiting on our lawmakers.

Organized as Woolens and Worsteds of America, Inc., wool people — from the country to the mills — are awakening the public not only to the unique and inherent virtues of American-made woolen fabrics but to the importance of this far-reaching industry to our national economy and national defense.

In September, which is "American Woolen Month", we shall be increasingly reminded that these natural fibers are still unequalled in withstanding both summer's heat and winter's blast, in providing warmth without weight, elasticity that insures long wear and good appearance; qualities that are enhanced by its resistance to wrinkles and its non-inflammability — and the recent developments of moth-proofing, crease-retention and washability. And we will realize, too, that American-made woolens are today the finest in the world.

CALVARY BAPTIST WMS

The Woman's Missionary Society of Calvary Baptist Church met at the church Tuesday morning. Mrs. W. O. Strothers, president, presided. Mrs. Carl Hedrick presented the devotional and as members read passages of Scripture mixed a cookie recipe of "A Dash of Love" by Mrs. E. C. Alford; "Teaspoonful of Witness" by Mrs. Hugh Stiles; "Cupful of Understanding" by Mrs. W. O. Strothers; and "A Bowlful of Knowledge" by Mrs. Ira Coots.

The Society project this week is buying school shirts for three boys of the community. One visitor, a Mrs. Whitehead of Brady, aunt of Mrs. Ira Coots, was present. After the meeting, the group re-assembled at the home of Mrs. Carl Hedrick where the cookies that were mixed at the program were baked and served.

TAX - MAN SAM SEZ

One of Internal Revenue Service's problems that has been around for several years is that of deducting educational expense on the income tax return. After a considerable delay Internal Revenue Service has now established definite rules and guidelines for allowing the deduction of educational expense. School teachers are probably more interested in this deduction than any other group.

However, the educational expense deduction applies to any business as well as the teaching profession and there are a lot of claims from others. If you have had educational expense during the past two years it may pay you to order "Your Federal Income Tax", Publication 17, from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. The price is 35c. Following the proper instructions always speed up the handling of a cause in the Internal Revenue Service.

Accurate and Complete

RANCH RECORD

Are More Important Today Than Ever

Government regulations and heavy tax programs are destined to be a part of the American way of doing business for a long time. For that reason, it is more important today that every business keep accurate records of its operations.

The ranch business is no exception. With the stiff federal taxes, you will want to take advantage of every saving item in your expense account and at the same time have clear and convincing records available for inspection by tax agents to prove up any item on your income tax return.

Start now to keep a complete record covering all operations in your business with the Stockman's RANCH RECORD BOOK. Your cancelled checks or your present records can be transcribed to this handy record book, together with your income and inventory records and you can have your entire record in a simplified form contained in one volume.

Easy To Keep - Complete Record - In 1 Volume

Straight To The Point

A Summary of Vacation News From The Teenage Set
By Sally Baggett

I'd tell you how near school is, but I don't imagine you need to be reminded, but just for the record it's only four days!

In case you're wondering what those strange noises you've been hearing, they are from the band hall. Mr. Smith has pulled his crew of "hot lips" back for another school term (there's that word again).

The football boys had their first scrimmage Tuesday against Lakeview. They play their first game in McCamey, the fourth. Let's start the season off right and follow our Lions to victory.

Coaches are certainly a nuisance. Every year about this time they go around ruining everybody's love life! I'd mention some names but for the sake of the innocent, I won't. (I'll collect all bribes later.)

Say, Johnny Jones, what provoked the screams the other night (before ten)?

Carl Montgomery has made a conquest. Sandy Smith, the captain's daughter. Too bad, boys, he beat you out of a cute date.

If you want to keep dry-run when you see a red jeep. You may be bombed.

Guess What? Roy Nell Killingsworth is a bachelor. Or at least he is going to be in McCamey during half-time. Oh, don't worry girls he chooses a wife, so look your best.

If you happen to have any loose pennies save them for Johnny Childress. He has a car, but it won't run on water.

When school starts don't be surprised or wonder what's wrong with the Seniors. They will have gotten their rings and are admiring them.

Have you registered? Well, if you're in school I guess you have, since today is the last day to register.

I have had more fun writing this summer. I hope you've had fun reading. Thanks for not kicking me out!

Well, you all, see you in the black board jungle!

Beecher Montgomery has leased the 26 - section Myrtle Mitchell ranch and is now stocking the place.

Dove Season To Open Sept. 1 In North Zone

Austin—Season opens for North Texas dove hunters Tuesday, Sept. 1, with perhaps one of the best crops in years, according to the assistant secretary of the Game and Fish Commission.

The new 1959-60 hunting and fishing licenses will go on sale after August 20, according to the announcement. They will be effective Sept. 1, and all persons who hunt outside their own counties are required to have a new license. Fishing licenses also expire Aug. 31, and a new license is necessary for fishing outside the home county, or with any kind of winding device.

Persons over 65 years of age are not required to have a license.

The season is open Sept. 1 through Oct. 20 in the North Zone, and Oct. 1 through Nov. 19 in the South Zone. There is an exception in the Lower Valley counties where mourning doves may be shot at the same time as white-winged doves. In that area the season will close three days earlier.

The whitening season is for the alternate days of Sept. 11-13-15, from 2 p. m. until sunset.

GARDEN REMINDERS

Late summer is usually the best time to start a new lawn — cooler weather and fewer weeds.

Don't remove foliage from perennial plants until they start dying down, as it is necessary to plants in storing food for next year.

Established fall bulbs can be moved as soon as foliage dies down. Lillies, tulips, hyacinths all can be reset at this time of year.

Avoid over-watering and over-fertilizing woody plants in late summer.

Let's clean up our town!

The News Reel

A re-run of "The Ozona Story" as gleaned from the files of The Ozona Stockman

From The Stockman, Aug. 28, 1930

O. W. Smith won his race for re-election as tax assessor for Crockett county in the run-off primary Saturday by the narrow margin of 3 votes over his run-off opponent, Bill Johnigan.

A smashing victory was won by Ross Sterling of Houston in his race for governor over Miriam A. (Ma) Ferguson in Saturday's primary. Sterling's vote was 471,172 to 279,572 for Mrs. Ferguson.

Machinery of the state Highway Department has been put in motion looking toward an early start on construction of the Ozona-Barnhart highway, paving of which was provided for in the recently approved \$375,000 road bond issue approved by Crockett voters.

"Living costs have come down nearly a quarter since the war, according to the Bureau of Labor Statistics. They are still two-thirds greater than they were in 1913, however. Stated another way a dollar today will buy only as much of the necessities of life as 60 would have bought 17 years ago."

Leonard Hensley, who has been linotype operator for The Stockman for the past four years, has resigned. His place is to be filled by Glyn Cates, former operator for the Eagle Print Shop in San Angelo. The other member of the Stockman staff is Frank Herrick.

Mr. and Mrs. Massie West are the parents of a daughter born

Monday in a San Angelo hospital.

Mr. and Mrs. Claude Denham have arrived for the opening of the new school term. Mr. Denham is High School principal and Mrs. Denham is a teacher in the grade school.

Mrs. George Russell entertained a number of little guests Wednesday to honor her daughter, Margaret, on her fourth birthday. Present were Billy, Betty and Mary Jeanette Grimmer, Betty Ingham, Barbara White, Joanne Hawkins, Milton T. Blackwell, Kenneth A-

kin, Nelson Schauer, Daphne June Meinecke, Chappo Morrison, L. B. Cox, Jr., Rosa Lee and W. J. Blackwell of El Paso and the little hostesses.

Should University of Texas lands be taxed for county and school purposes? This question will be discussed at a sectional meeting in McCamey Sept. 8. The question was raised at a recent joint meeting of the Big Lake and McCamey Chambers of Commerce.

Bill Friend, son of Mr. and Mrs. W. E. Friend, will leave Friday for Roswell, N. M., where he will enter New Mexico Military Institute. Bill was graduated from Ozona High School in May.

Montgomerys

(Continued from page one) congratulatory they left for home seven miles south of which the groom had fitted elegantly for their occupancy. Montgomery is the son of W. Montgomery and was reared in this county. He is a young man of sterling worth and business ability and is highly esteemed and is one of the prettiest and every way most charming young women who ever graced the circles of our town. The two are a handsome couple and carry them into their new life the wishes of hundreds of friends.

Maybe you could sell a Piano

... by carrying it from door to door.

Rather ridiculous isn't it? But it pretty well illustrates how some people try to move merchandise.

Why not let your Newspaper take the "Piano off your back" with some well planned advertising.

It's much easier and surer.
