Published Every Thursday at Ozona, Crockett County, Texas

W. EVART WHITE, Editor and Publisher. Entered at the Post Office at Ozona, Texas, as Second Class Mail Matter Under Act of Congress, March 3, 1879.

SUBSCRIPTION RATES: One Year \$2.90, Six Months \$1.25, Outside of the State \$2.50

Notices of church entertainments where admission is charged, cards of thanks, resolutions of respect and all matter not news, will be charged for at regular advertising rates.

THURSDAY, MAY 1, 1941

A GRIM OUTLOOK

The American people, though they are almost unanimously in favor of all-out aid to England, are still heavily opposed to sending troops abroad.

At the same time, there is no question but what many men close to Washington affairs fear that American participation in the actual shooting is coming.

Congressional sentiment is undoubtedly against a declaration of war now, though a number of members are urging that fateful step.

FIRE MUST BE LICKED

"Fireproof America's defense effort," is the current motto of the National Board of Fire Underwriters, which is celebrating its 75th anniversary this May.

In the last 24 years, fire killed more Americans than died on the battlefields of Europe in World War I.

In those 24 years, fire's toll was more than \$9,500,000,000. That is

HOW TO RISE IN THE WORLD.

enough money to have paid for three times as many naval fighting ships as we actually built during that period, which includes all World War I construction.

America's fire waste in homes, factories and elsewhere since 1917 is equal to the cost of 50 super dreadnaughts, a thousand destroyers and, on top of that, a thousand gigantic bombing planes.

SCIENCE ENLARGES NATURAL RESOURCES

From time to time, prophets of gloom promote the idea that we are nearing the end of our natural resources.

Two decades ago, it was predicted that the American petroleum reservoirs were being exhausted and would soon disappear.

Similarly, for years we have been told that the day will soon come when coal will no longer be used and all the coal mines will stand idle.

Then came the European War II. The supply of rubber and silk became imperiled. American chemists had for years been working on formulas to supply these products without resorting to imports.

ever it is called, it is made of coal. And nylon, the American made silk of which socks and stockings are made, has become a household word. It is made of coal.

The day may come when the principal use of coal will be its translation into chemicals—a great new industry, affording jobs to tens of thousands of American miners.

The Stockman Pulpit

By REV. EUGENE SLATER, Pastor Ozona Methodist Church

Editor's Note: The Stockman introduces below a new feature, a short sermon prepared for this column by the Rev. Eugene Slater.

"I will turn aside and see this great sight, why the bush is not burned up." Exodus 3:3 (Read Exodus 3).

Moses, an early day ranchman, came upon a strange sight one afternoon. He saw a bush that appeared to be on fire, yet the fire did not consume it.

We are reminded here of the lines of Elizabeth Barrett Browning: "Earth's crammed with heaven, And every common bush affire with God;

Life gives its rewards to the man who has the curiosity, the humility and the patience to turn aside from his everyday work and pleasure to investigate a plant, a picture, a book or a person.

Moses turned away from the burning bush to go back to Egypt with a commission to deliver the Hebrews from slavery. You might turn aside from looking at a little child to work more faithfully to deliver every child in your community from slavery to disease, ignorance, unnecessary poverty and sin.

O Thou who hast filled the world with wonderful things, give us curiosity, humility and patience to wait in the presence of Thy creation until we are aware of Thee, our Creator. And send us from Thy presence to bring some help to our neighbors and to our world. In the spirit of Christ we pray, Amen.

A total of approximately 600 local applications of game and fish laws often confuse the sportsmen. These laws are passed by the Legislature, for in Texas the Game Department has not been delegated the duties of fixing open seasons and bag limits.

TO AID DEFENSE

The recent announcement by William S. Knudsen to the effect that leaders in the automobile and truck industry have voluntarily agreed to reduce their fall production of cars and trucks by about 1,000,000 represents another example, among many, of industry putting patriotism and defense above all other issues.

The move will make available more man power, materials, facilities, and management to take over part of the increasing defense load. At the same time several large automobile manufacturers have announced that they will continue their 1942 models through the year 1943, thus freeing both engineering talent and tooling capacity in behalf of greater defense progress.

One big company, in commenting upon its move, has pointed out that the average model change costs it from \$35,000,000 to \$40,000,000. This involves tooling almost entirely. It further estimates that about 90 per cent of this capacity can be devoted to defense purposes, and that in terms of production approximately 15,000,000 man hours will be involved.

This output reduction of motor vehicles by about one million means about a 20 per cent cut for these plants. Automobile manufacturers are already engaged in work on defense contracts to the tune of about \$1,500,000,000, and this new step will enable the defense program to avail itself of managerial talent, skilled labor, and machines to an extent that will make a still greater dent in the rearmament problem.

The defense program is a huge job that will require a lot from everyone concerned, and industry is certainly offering proof positive that it needs can be solved by voluntary agreements, freely arrived at on the basis of "talking over" what ought to be done. The automobile agreement is a case to illumine that general truth.

ODD WILL

An eastern bachelor willed all of his property to the three women who had rejected his proposals, with the words, "to them I owe all my earthly happiness."

THIS BUSINESS OF Living

BY SUSAN THAYER

A Woman's Part in Defense

The great question among women during these days of crisis continues to be—what can we do to help make America strong?

As our great industrial system expands and production of materials for defense mounts the tempo of our national life quickens and we ourselves want more to do. We long to have some part in preparing this country for whatever role it will be called upon to play in world affairs.

But what should it be? What service can we render to this country that has made us the freest, most fortunate women in the world? Should we offer to work in the busy plants and factories? Should we take up training for some emergency? Or must we... just knit?

A few months ago no one seemed to know the answer, as women rushed about organizing new committees, writing feverish letters, talking endlessly to each other. But today individual leaders and organizations are beginning to agree on what women should do for their country today. It's not exciting but it's fundamental and its effects will be far reaching.

They Say:

James D. Mooney, Vice-President, General Motors Corporation: "Unless we Americans are prepared to discipline ourselves, roll up our sleeves, and get down to work, we shall not move along very rapidly in making industry fulfill her destiny."

community government and affairs.

This is the advice of such organizations as the Parent-Teachers' Association and the Federation of Business and Professional Women's Clubs, and of outstanding women. But what sort of community activities, you ask?

Take this vexing question of government spending that has reached such undreamt-of proportions today. If the women of each community in the United States get together and bring about a saving of even 10 per cent in local spending there would be a saving of millions of dollars for the country as a whole, because in normal times more than half of our tax money is spent in local, county and state governments.

And take our belief in the democratic system of government that is under fire today. We can't change the world but we can see that everyone in our own community, children and foreign-born especially, realize how important it is for us to keep our free press and free radio—our right to go to church where and as we like—our system of electing the people who run the government and our time proved system of free enterprise in business. If enough communities discover what Democracy really means and make it work better than ever, then the nation as a whole will be safe from all inroads against freedom and we shall be able to pass our "ancient liberties" on intact to our children.

Ernest T. Trigg, manufacturer: "Industry has been regarded in the past as a way to make a living. I believe it is the great new realization of busy America that industry can be something far finer and bigger, a way to make a life."

A total of 125 new oil fields were found in Texas last year.

Side Glances on Texas History

By Charles O. Hucker
University of Texas Library

THE GENERAL'S WIFE VISITS IN TEXAS

"If every other land forsakes us, this is the land that freely takes us."

In olden days, when Texas was very young, all sorts of rascals are reported to have fled from the United States to refuge in the new Southwest. One night a group of them, sitting around a campfire in their new home, composed the little rhyme quoted above. It's a pun: "takes us" — "Texas." And that's how Texas got its name, believe it or not.

At any rate, that's what someone told Mrs. George A. Custer when she came to Texas in 1865 with her illustrious young husband, famous "boy general" of the Civil War, who eleven years later was to die in the historic Little Big Horn massacre. Mrs. Custer repeats the story in a book of her travels, "Tenting on the Plains," a copy of which is in the University of Texas Library's Texas Collection.

It was just after the war when Custer brought his cavalry to Texas, and his wife came with him, first to Hempstead, near Brenham, and then on to Austin, where they spent the winter. From Mrs. Custer's story one gathers that the general enjoyed himself tremendously, but that she herself, born in the North and reared in the Northern tradition, couldn't quite understand the strange people, customs, and climate. She readily admitted it and often in the book smiles at her tendency to believe the worst.

THE TEXAN AS A DUDE

The Texan himself confused her. Once she wrote that "if the term 'dude' had been invented then, it would often have applied to a Texan horseman. The hair was frequently long, and they wore no waistcoat, I concluded, because they could better display the vast expanse of shirt-front." Yet elsewhere she remarked that the Texan "travels for comfort rather than for style."

It was the way they acted, however, that shocked her most. That they all wore guns, even women

Flying Ambulances of Royal Air Corps

Upper left: Two air ambulances of the British RAF are shown in the air. Lower left: A nurse aboard one of the ambulances is treating a patient, apparently administering oxygen. Right: The patient is removed from the flying ambulance on reaching a spot where accommodation is available.

and boys of twelve, was a bitter revelation; and she soon noted that "something awful is constantly occurring among the citizens. It is a lawless country. . . . It is a common occurrence to shoot down men here for any offense whatsoever. Moreover, it seemed to her that to be thought courageous a Texan must have "either fought in duels, or, by waylaying the enemy, to have killed from one to five men."

And the horses! General Custer, she wrote, was delighted with them; but, for her part, she couldn't forget "the disfiguring brands that were often upon the forehead, as well as the flank. They speak volumes of a country where a man has to sear a thoroughbred with a hot iron, to ensure his keeping possession."

WEATHER HASN'T CHANGED

Texas weather didn't appeal to her, either. Once she wrote of "the general shiftlessness that creeps into one's veins. We were not long there ourselves before climatic influence had its effect on even the most active among us." And, on the other hand, she seems to have cared very little for the famous Texas norther, which very suddenly she observed, "awakens one to the knowledge that it

is not always summer." However, without understanding, somehow Mrs. Custer persuaded herself that it wasn't all as bad as she might be led to believe. "I listen to the citizens talking over the prospects of this state," she confessed, "and I think it promises wonders."

In speaking of Sam Houston, too, she wrote that "his name is perpetuated in the town called for him, which, as the center of large railroad interests, and as a leader in the march of improvement in that rapidly progressing state, will be a lasting monument to a great man who did so much to bring out of chaos a vast extent of our productive land, sure to become one of the richest of the luxuriant Southern states."

100 YEARS AGO IN TEXAS

"The arrival of the Corvette Sabine, the first national vessel of France which has reached our shores since the recognition of Texas by that gallant nation, has created quite a sensation. The vessel was received at the Island with salutes from the battery, and by other demonstrations of respect and joy, from the inhabitants of Galveston. A party of the officers visited this city, arriving late on Saturday night. On the following day, the mayor and aldermen made preparations to offer them a collation at the Houston House, and to present to M. Dumanoir, commander of the fleet on the Gulf station, the freedom of the city. At 2 o'clock p. m. the Fannin artillery fired a salute of 13 guns, after which the guests were escorted to the Houston House, where the ceremonies and festivities came off in fine style. . . . They left yesterday morning, on board the Albert Gallatin, on their return to their ship."

"Tit for Tat.—The friendly Tonkewas seem to understand horse stealing about as well as the hostile Indians. Some time since, discovering a Caddo camp on the Yegu river, they stole about one hundred horses, and brought them into the settlements. Among the horses, were several of the racers, stolen from Austin in February last."

"The two steam sawmills near this city are in full and active operation; and a brick establishment has been started near town, which promises to overcome the obstacles which have heretofore prevented the making of good brick. We hope soon the importation of building materials will

Funds To Maintain Ancestral Home Of Lee Family Sought

HOUSTON — A committee of prominent Texans headed by Federal Judge Jos. C. Hutcheson, Jr., of Houston, has been named in the nation-wide campaign to raise a permanent endowment fund to maintain Stratford Hall, ancestral home of the Lee family and birthplace of Robert E. Lee.

"Stratford Hall," said Judge Hutcheson in announcing the campaign, "has recaptured its glorious and romantic past. It belongs to all time because the Lees who lived there accomplished things that are of timeless significance. It is a symbol for present and future generations, of the priceless traditions, the eternal values so magnificently espoused and lived by the Lees."

Built in 1725 by Thomas Lee, colonial governor of Virginia, Stratford Hall, comprising the mansion, minor buildings and 1,100 acres of meadow stretching two miles along the Potomac river, has been restored to its ear-

ly appearance as a Virginia plantation. Noted sons of Stratford include Richard Henry Lee and Francis Lightfoot Lee, leaders in the first movement of the colonies toward independence, and signers of the Declaration of Independence; also "Light Hores Harry" Lee, whose eloquence is said to have made possible ratification of the Constitution by Virginia.

Restoration of Stratford Hall was started in 1929, when the Robert E. Lee Memorial Foundation acquired the plantation after it had been out of ownership of the Lee family for a century. Under the direction of Fiske Kimball, celebrated authority on colonial architecture, restoration has extended to every detail.

Activities and industries of the plantation have been revived. Various agricultural projects are carried on under direction of the resident superintendent, Major-General B. F. Cheatham, U. S. A., retired. Hon. Sam Rayburn of Texas, Speaker of the House, is donor of the thoroughbred cattle that graze in Stratford meadows.

Neon Signs, Modern Fountain Installed By Smith Drug Co.

Pascal Northcutt and his associate, R. A. Nimmo, at the Smith Drug Company have been receiving many compliments on the new soda fountain which has just been installed. Its modern streamlined effect has added much to the general appearance of the store.

Of special design and built from a newly developed composition material which will neither stain, burn nor break, the chromium plate decorated counter is 20 feet long and is fronted by 10 stools. It features efficient quick lunch compartments. The fountain, like the tables and chairs, has a natural linen finish. An electric sterilizer is built into the fountain for quick and thorough sterilizing of all vessels used at the fountain.

A new Neon sign and decorative Neon lights under the awning is another recent improvement at the Smith Drug.

PIANO PUPILS IN RECITAL

Piano pupils from the classes of Miss Ruth Graydon and Mrs. Neal Hannah will be heard in joint recitals during music week in the high school auditorium. Junior pupils from classes of both teachers will appear in recital at 8 o'clock Tuesday evening, May 6, and the high school pupils will be heard at 8:30 p. m. on Thursday, May 8.

TCU Chorus To Be Heard In Concert Here

More than forty voices, composing the TCU Mixed Chorus, under the direction of W. J. Marsh, composer of Texas' official song, "Texas, Our Texas," will appear in concert at the High School Auditorium in Ozona Saturday afternoon, May 3.

The group is being brought here under auspices of the Ozona Music Club. No admission charge is to be made for the concert but a free-will offering will be taken to help defray traveling expenses of the group.

Buck Williams Off For Induction Into U S Army At El Paso

Buck Williams, a son of Bob Williams of Ozona, answered the U. S. Army's call for a year's military training early this morning when he left by bus for Fort Bliss in El Paso for induction into the Army. Williams is a replacement for the eleventh call of April 2.

The twelfth call on the local Selective Service Board was received this week. The board is called upon to furnish two men to report for induction on May 8. A thirteenth call, for colored inductees, to be inducted May 19 and 20, did not ask for a man from this county.

New Desks Ordered For Grade School

Ninety new desks are to be installed in the grade school rooms of the Ozona School System in time for the opening of school in September under action taken by the school board in session here Monday afternoon.

The new desks are to replace old desks removed from the High School and installed in the lower grade rooms. These desks have been unsatisfactory for the reason that they did not fit the younger students. Samples of the new desks are to be studied and bids accepted Saturday, May 10, it was announced.

BRIDGE HOSTESS

Mrs. Evert White entertained her contract club at her home Tuesday afternoon. Mrs. W. E. Friend, Jr., held high score, Mrs. Hilton North, second high, and Mrs. Hubert Baker won the bingo game. Others present were Mrs. Massie West, Mrs. Boyd Clayton, Mrs. Sherman Taylor, Mrs. Chas. E. Davidson, Jr., Mrs. Hugh Tandy, Mrs. T. A. Kincaid, Jr., Mrs. Doug Kirby, Mrs. Arthur Phillips, Mrs. Hilary Phillips, Mrs. Lowell Littleton, Mrs. Joe North and Mrs. Melvin Brown.

Mr. and Mrs. Roy Henderson left Monday for Louisville, Kentucky, to attend the American turf classic, the Kentucky Derby, to be run Saturday. They were accompanied by Claude Russell.

Mr. and Mrs. Arthur Kyle were San Antonio visitors over the week-end.

All but three of Texas' 254 counties now have oil or gas production or exploration.

Fifteenth Well For Noelke Pool

Coincident with the running of the first oil through Kimble pipe line, the Noelke Field in western Crockett County added its 15th oil well Monday.

Pittman, Adkins & Cox No. 2-D Noelke, with elevation of 7,237 feet, topped the pay at 1,454, drilled to 1,479, and headed oil through seven inch casing.

Mrs. W. T. Noelke turned the valve that started the oil through the pipe line. Fourteen of the 15 producers in the field are on Noelke land, under which the state retains one-half of the royalty.

Another Good Well Indicated In Todd No. 8 Now Testing

Continental and others No. 8, J. S. Todd unit in the south part of the Todd field 15 miles northwest of Ozona was preparing to test production yesterday after drilling the well in at around 5,930 feet.

Indications were that another good well was in the making, according to reports from the lease. Location is 1,980 feet from the south, 660 feet from the most westerly line of section 30-WX-GC&SF.

School Board Plans Duplex Apartments For Teachers' Use

Alteration of the old Baggett home, teacher residence owned by the Ozona Public School system, was ordered by the school board in session here Monday afternoon.

The house is to be altered into a duplex apartment and the apartments will be used to accommodate married members of the faculty. The work is to be done this summer and completed in time for occupancy at the beginning of the school term next September.

Electrical Storm Does No Damage To Utilities Property

Except for several hours loss of sleep on the part of the local force of employees, no damage resulted from the electrical disturbances to property of the West Texas Utilities Co. Monday night.

W. R. Cabaness, local manager, reported lightning had broken one arm from a high line pole at the north edge of town, but throwing of automatic switches from charges of lightning was the cause of interruption.

W.M.U. ENTERTAINS WITH WIENER ROAST

The Annie Sallee Circle of the Baptist Woman's Missionary Union entertained the Lottie Moon and Nelson Circles with a wiener roast at the roadside park north of town Wednesday afternoon. Attending were Mesdames J. S. Whitley, Hugh Gray, R. K. James, Jim Patrick, M. E. Corbell, Lowell Littleton, Marion McLee, Leslie Nance, Charles Powell, Pink Beall, Joe Keeton, Lloyd Johnson, Cleophas Cooke, Clyde Childers, J. P. Pogue, Leo Baucum, and Ben Williams, Miss Maybell Taylor, Norris Pogue, Phil Hardberger, LaFem Nance, Sue and Jane Keeton, Nell Beall and Cecelia Ann Cooke.

Mr. and Mrs. Ele Hagelstein and their infant son, Chris, who was born in San Angelo, April 12, are at home on their ranch south of Ozona.

FIRST BAPTIST CHURCH
Clyde Childers, Pastor

Schedule of services:
9:45 Sunday School
11:00 Morning Worship
2:00 Deacons Meeting
3:00 Monthly Conference
3:45 Teacher and Officer Meeting
8:00 Hymn Study Hour
Tuesday, May 6
10:00 Workers Conference at Rankin
8:00 Brotherhood Barbecue
Wednesday, May 7
3:00 W. M. S. Circles meet
7:45 Mid-Week service
8:30 Choir practice

Next Sunday is our regular conference day and we trust that each of our members will be in the morning service and back for the business hour in the afternoon. Notice that the teacher-officer meeting has been set for the same afternoon. For the evening hour we will enjoy a hymn study led by the Ozona Music Club and in which the three churches are cooperating. The meeting will be held at our church and all people of the community are invited to attend.

Group 2 will serve a barbecue on Tuesday evening to all men of the town who have attended at least one meeting of our attendance contest. Wives are invited to attend with their husbands and single men will invite their girl friends. The speaker for the evening will be Rev. Leslie Rogers, who is Camp Pastor in charge of the Baptist Chapel adjacent to Fort Bliss, El Paso, Texas.

On Wednesday evening the members of the church are invited to hear Rev. John Abbott speaking in behalf of the Mexican Mission work in the Big Ben and Pecos Valley Associations.

Approximately a quarter of a million evergreens have been planted in the shelterbelts of Northwest Texas.

The Texas petroleum industry pays \$95,000,000 a year in state, local and federal taxes, not counting the gasoline taxes paid by the individual motorist on the industry's principal product.

All Right!

Move Out in the Yard!

BOB (roaring): "Who snatched the bulb from my lamp? I might as well move out in the yard!"

JANE (tearfully): "Go ahead! The yard light is better than the tiny bulbs you get. . . I had to have some light in the kitchen, didn't I? YOU took the kitchen bulb for the garage. . ."

WHY Quarrel Over Light?

MOST everyone does it at some time or other—and unnecessarily, because light is CHEAP in West Texas. A 100-watt Mazda bulb costs only 15c; a 150-watt bulb, 20c; and a 3-way 100-200-300-watt bulb, 60c. Avoid bulb-snatching quarrels and arguments about who's going to use the light by keeping an extra supply on hand.

And about the yard—make night-time your play-time with a new flood light that also protects the home. Ask for demonstration.

YARD FLOOD LIGHTS \$3.95

Martin Johnsons Travel Film To Be Shown Here Today

An interesting and educational picture, "Across the World with the Martin Johnsons," will be shown in the high school auditorium beginning at 3 o'clock this afternoon (Thursday), it was announced yesterday by C. S. Denham. The picture, containing four reels, runs an hour and 15 minutes. It is a pictorial journey with the world's most famous exploring, picture-taking couple, the Martin Johnsons, into the South Pacific islands and the heart of Africa, with musical accompaniment.

The public is cordially invited to see the picture. Another showing may be arranged for Friday afternoon.

Harley Sadler's New Stage Shows Coming To Ozona On May 10

Harley Sadler and his all new stage show will appear in Ozona for one night only Saturday, May 10. Mr. Sadler this year promises one of the biggest and finest attractions ever brought to Ozona. Besides outstanding plays a marvelous orchestra is carried and vaudeville features that consist of many radio, stage, and recording stars. One of the big features will be the musical comedy presentations, which will be given preceding the play and in addition to the regular line of vaudeville that you have always witnessed with the Sadler company. If you really enjoy a good stage show, Mr. Sadler urges that you not miss a performance this year. The big tent theater is waterproof, and will be comfortable in all kinds of weather. Popular prices will again prevail. Children 10 cents and adults 20. Special reserved chairs are 10 and 20 cents extra, government tax included. Remember the date and see ad elsewhere in this issue.

Packard Introduces The New "Clipper"; Streamlined Model

In a world where aerodynamics have become synonymous with speed and power, the Packard Motor Car Company moves into the slipstream with the presentation of its sensational new Packard Clipper. The first showing of the new car was expected in Ozona this week, C. W. Taliaferro of the Taliaferro Garage, local Packard dealers said.

Roadstreamed for speed and comfort, the Packard Clipper is, in its element, as cleanly functional as the swift winged British Spitfires for which the company now builds motors.

Breaking cleanly with traditional body lines, the Packard Clipper launches a new dynasty in a line of motor cars that new public acceptance at the turn of the century.

Entirely new from bonnet to rear bumper, the Clipper embodies in a four-door, six-passenger, eight cylinder sedan the latest ideas in motor car design coupled with 42 years of sustained engineering experience.

A Packard of contrast rather than of comparison, the Clipper skillfully blends the identifying marks of traditional Packard styling with ultra-modern motor car grace.

Smart, as only the name can imply, the Clipper is at the same time a big car in every dimension. Of standard width, it is road-hung to a point where it is actually a foot wider than it is high. Literally moulded into the contours of a super-highway, the Clipper completes its combination of overall dimensions by being lower from roof to road than any other full-size passenger car built in America today.

Say "I saw it in the Stockman"

Cold FUR STORAGE TROY TRUNK FOR WOOLENS TROY Laundry and Dry Cleaning San Angelo, Texas

Packard Introduces "The Clipper"

A foot wider, from side to side, than it is high, from roof to road, the Packard Clipper is the first automobile to bring inside body width out to fender lines. Excess headroom and true six passenger comfort is thus accomplished in the Clipper inter-

ior. Wide, low and going places. These are instant impressions in the front view of the roadstreamed Clipper. A Packard of contrasts rather than of comparison, the Clipper retains Packard identity in the chrome sleekness of

the streamlined radiator grille. Inset lights, fade-away fenders extending into the front door, and a rakish 49 degree angle windshield add to the functional streamlining of the revolutionary Packard.

12-Year Plan—

(Continued from Page One)

old. Poor education in the first two grades, occasioned by the strain on young minds, affects them and handicaps their work in high school and college, it is declared.

Growth of the twelve-grade movement in Texas to the point of almost universal adoption in this state is reflected in a circular letter received the past week from L. A. Woods, state superintendent. Mr. Woods' letter points out the growing number of schools adopting the plan, its endorsement at a state-wide meeting of superintendents in Temple April 10, and adoption by the State Board of Education of textbooks for the twelve-grade system of operation, and virtually issued state-wide orders for adoption of the plan as follows:

"I hereby officially announce that the recognized pattern for Texas public schools is an elementary school of eight grades, followed by the standard four-year high school. May I ask you to work with your school boards in putting this plan into execution in your respective districts as soon as possible."

The present enrollment in the grade school here lends itself to adoption of the twelve-year plan with a minimum of disturbance of pupils and immediate adoption in the first grade, where, in the opinion of educators, the greatest difficulty in the present set-up lies.

With an enrollment of 30 pupils in the present first grade, local school authorities plan the division of this grade into two groups of approximately equal numbers, such division to be based on standardized tests, teacher-made tests and the teacher's judgment of the individual child, according to announcement of Supt. C. S. Denham.

At the end of the present school year, the upper group of the first grade will be promoted to the third grade, the lower group to the second. Grades above will be advanced one number, the second to the fourth, the fourth to sixth, fifth to seventh, sixth to eighth. The present seventh graders will go into high school, but in stead of being in the eighth grade will be in the ninth. High school grades will likewise advance one number to make the next year graduating class the twelfth grade.

The divided first grade will meet in the same classroom, and have one teacher. But instead of being divided into two groups as at present, they will be divided into two grades, with separate work. This, it is believed, will lighten the load on the teacher in that she will not have to strive to bring the pupils of the lower group to the level of the higher, and will benefit both groups of pupils in giving them the type of work which they are capable of handling.

Community Center Work Demonstrated With Program Wed.

Graphically demonstrating the type of work that is being done at the Community Center here among people of all ages in the Mexican settlement, several groups were presented in a demonstration program at the Center Wednesday afternoon under the direction of Miss Mary Riddle, deaconess.

Pupils of the primary section staged a dance and the kindergarten age group were presented in a demonstration of the type of work that is being undertaken among children of this age. The Girls Reserves gave an example of their organization's creed and practices, as did the Latin-American Boy Scout troop. Piano pupils being taught by Mrs. Neal Hannah and a rhythm band group under the direction of Miss Frances Sprawls were presented in recitals. The Latin-American Mothers Club, hostesses for the occasion, served refreshments and exhibited their needle work an d mattress making. Mrs. Mary Flowers has supervised this work.

No special program was arranged for the occasion, Miss Riddle explained, but the various groups demonstrated the kind of undertakings that are being followed day by day at the Center, with more than 700 persons a week being benefited through the Community Center program.

Attending from the American section of the city were Mesdames Floyd Henderson, Fred Allen, M. Johnson, Fleet Coates, Tom Owens, Bright Baggett, Paul Perner, C. P. Williams, George Harrell, Jess Sweeten, Minnie Crumley, Madden Read, W. E. Smith, Strick Harvick, Rex Russell, Scott Peters, R. T. Taylor, Charles Coates, Charles Williams, N. W. Graham, Ralph Cabaness, W. R. Baggett, Mary Perner, B. B. Ingham, Tom Harris, B. H. Bryant, Carl Colwick, P. T. Robison, Mary Flowers, Jennie Riddle, Neal Hannah, and H. B. Tandy, Miss Ruth Graydon, Miss Frances Sprawls, Miss Marie Trout and J. D. Moss.

Mr. and Mrs. Jake Young and their daughter, Olleane, born Easter Sunday, have returned to their home.

Mrs. Joe T. Davidson was in Dallas to attend the Grand Opera presentation there last week.

Future Homemakers Attend State Rally

A group of representatives of the Future Homemakers Club of Ozona High School left Wednesday afternoon for San Antonio to attend the state rally of Future Homemakers convening there today and continuing through Saturday.

In the party were Mary Frances Bean, Louise Bean, Sybil Luther, Norma Lovelace, and the club sponsor, Miss Allena Kinney, home economics teacher in high school. Each of the four Ozona girls will enter two contests in the state rally.

Big Money Year For Livestock Producer Predicted By Expert

AUSTIN, April 30 — Texas farmers, if you live in a predominantly livestock-raising section of Texas, you and your neighbors can look for bigger money, a University of Texas business expert advises.

Dr. F. A. Buechel, statistician for the University's Bureau of Business Research, predicts the state's specialized livestock regions—already showing gains in farm cash income over last year, and already outstripping the areas devoted mainly to such crops as cotton and wheat—will continue to increase their farm cash income. "Although March marketings of livestock were considerably below those of March last year, price increases were more than sufficient to offset the decline in volume marketed," he said.

Prices of such livestock products as wool, mohair, milk and eggs were also well above those of a year ago and contributed substantially to the rise in income."

He based his forecast of a "quite bright" agricultural outlook in livestock-producing areas on (1) larger January 1 inventories of cattle, sheep and goats on Texas farms and ranches than a year earlier, (2) above-normal condition of livestock and ranges, and (3) an anticipated increased volume of shipments, due to increased consumer demand resulting from rising payrolls in the commercial and industrial sections of the North and East.

More than 500 separate oil and gas fields are now producing in Texas.

Mickey Rooney Again Stars In Hardy Film

That popular favorite, Mickey Rooney, shows on the Ozona Theater screen again this week in what is said to be his best picture in the Andy Hardy series. The whole Hardy family shows in "Andy Hardy's Private Secretary" in which Andy works nights with his beautiful secretary, buys her silk stockings and emerges with lipstick on his cheek and Polly calls him a "love murderer."

In this picture Mickey very nearly doesn't graduate from high school, but manages barely to scrape through after the expected romantic, hilarious and academic complications. The feature is well up to par for the series and can be expected to account for itself with honors in revenue. Otherwise it is notable because it marks the film debut of Kathryn Grayson, youthful actress and singer, who definitely impresses, looks to be of certain star calibre and performs the amazing feat of stealing a scene or two away from Master Rooney—which in itself is no mean accomplishment. The only criticism which might possibly be directed against the entry is that it is a bit lengthy. Andy, president of the senior class, author of the annual play and chairman of every other committee, is too busy to study—with the result that he flunks his English examination. He is further beset by woe when Polly, his girl-friend, waxes jealous because he has hired young Miss Grayson as his secretary. However, one of the usual man-to-man talks with Judge Hardy, plus some concentrated study, clears up the dilemma. George B. Seitz directed.

Billy Scott Swearingen of Austin is visiting his grandparents, Mr. and Mrs. Scott Peters. He will return home this week-end when his mother, Mrs. William Swearingen, will come for him.

Taylor Deaton, son of Mr. and Mrs. Fred Deaton, who ranch in the Junodrea, has received his induction order from the Selective Service Board in Del Rio where he is registered. He expects to report for induction into the Army within the next few days.

Miss Wilma Collins of Asherton is the guest of her sister, Mrs. Arthur Phillips.

Many barefooted "kids" running up and down the steps in the Hilton Hotel. What was wrong with the elevator, wouldn't they let you ride on it?

Soldiers, soldiers everywhere. Especially in places where they shouldn't be.

Leslie and Joy together a great deal of the time. Many sleepy people in classes Monday. It couldn't have been the after-effects of the fishing trip and the band contest, or could it?

Many people looking for "Candyland." There wasn't much to it after you found it, or was there?

Some barefooted girls dancing to the music of a victrola across the hall. Did you sit out the "Star Spangled Banner," girls?

O. H. S. ENJOYS PICTURE SHOW

"This Amazing America," a picture of interesting points in the U. S., was shown to the high school student body and faculty members on Wednesday, April 23. This show was put out by the Ford Company and was filmed in technicolor. In this picture a woman and a man won a trip around America. They visited California, Washington, Florida, New York, Texas, and practically ever other state in the Union. The purpose of this picture was to educate those attending in a knowledge of America. Many scientific scenes were shown, also pictures showing how nature had formed objects out of rock, water, and other elements. Among the most interesting things shown were the Golden Gate, The Alamo, the Washington Monument, the longest bridge in the U. S., and a rock bridge formed by nature. This picture was also shown in P.T.A. Everyone seemed to enjoy this show immensely. Some students overheard Mis North say, "Well that was grand; I hope we have another like that soon." Many people are looking forward for another picture like this one, and it should be just a very short time until we have another one.

called a sorting table. We saw the engineer.

William Meinecke

FIFTH GRADE NEWS

The fifth grade is studying Animal Week. In our Weekly Reader we read about Animal Week. We are making posters also.

For Pan American Week we made flags of different lands and then wrote themes about them.

We are studying about Nature. We learned what air is made of, and what makes it rain, what soil is made of, and many other things. We like nature.

Ann West

The fifth grade have started on their end of school exhibit. Each person has to make something, such as a book case, or a picture. Our exhibit is to be mostly on what we have drawn and painted in art this year. We like to work on our exhibit very much.

SPORTS

By COOKE

Notice to all football players: "No Smoking." I have noticed on the school grounds at noon some football players have been taking cigarettes and smoking them. One of our star football players was smoking one day at noon, and it looked very bad.

In order for football players to play at all, they must keep in training at all times. Some football players think it makes them appear a great deal older if they smoke, but in reality, it makes them appear smaller. Come on, boys, and let's see if we can have a better football team next year then we had this year and try to win many more games.

All spring training is over this week. Football boys turned in their suits Monday afternoon. For some Seniors this is a sad day, for this is the last time a number of them will ever see this happen. Don't feel bad about it boys for it may come again in college.

Defense Savings Bond Sales Opens

Frank Scofield, State Administrator for the National Defense Savings Staff has announced the appointment of his executive assistant, John M. Griffith, president of the City National Bank of Taylor, Texas, in the capacity of Deputy Administrator for the Defense Savings Staff. Headquarters for the staff have been set up in Room 215 of the new Federal Court House in Austin, Texas.

The Defense Savings Bond will be offered for 75 per cent of its maturity value, with maturity of 10 years. Thus, a Defense Savings Bond bought in May, 1941, for \$18.75 will be redeemable in May, 1951, for \$25.00. This is an increase of 33 1-3 per cent, equal to an interest return of 2.0 per cent per annum, compounded semi-

NOTICE TO BIDDERS

Sealed proposals, addressed to J. W. North, President of the Board of Directors, Crockett County Water Control and Improvement District No. 1, Ozona, Texas, for the drilling, casing, and testing of a water well for the District in accordance with the plans and specifications and Instructions to Bidders prepared by H. R. F. Helland, Consulting Engineer, will be received at the offices of the Crockett County Water Control and Improvement District No. 1, Ozona, Texas, until 11 a. m. May 17, 1941.

The work will consist of the furnishing of all labor and materials for drilling a well and casing with 10 3-4" O. D. casing, and testing well to full capacity.

A Cashier's or Certified Check, payable without recourse to the order of J. W. North, President of the Board, or an acceptable Bidder's Bond in an amount of not less than five per cent (5%) of the largest possible total bid must accompany each bid as a guarantee that, if awarded the contract, the bidder will promptly enter into contract and execute a bond on the forms provided, as outlined in the specifications and contract documents.

A Performance Bond, in an amount not less than one hundred per cent (100%) of the contract price, conditioned upon the faithful performance of the contract and the payment of all persons supplying labor or furnishing materials, will be required.

The Bidders' attention is called to Chapter 45, Acts of the Regular Session of the 43rd Legislature relating to penalties for underpayment of workmen, et cetera.

All lump sum and unit prices must be stated both in script and figures. The District reserves the right to reject any or all bids and to waive formalities. Bidders are expected to inspect the site of the work and inform themselves regarding all local conditions.

Specifications, plans and contract documents are on file at the office of the Crockett County Water Control and Improvement District No. 1, Ozona, Texas, and at the office of H. R. F. Helland, Consulting Engineer, Frost National Bank Building, San Antonio, Texas. Copies may be secured from H. R. F. Helland upon deposit of \$5.00, the full amount of which will be returned to the contractor upon submission of a bonafide bid on the work with such specifications and plans, or upon return of the specifications and plans immediately after examination of same and advising the Engineer that bids will not be submitted, otherwise the deposit shall be forfeited.

J. W. NORTH, President.

J. D. KIRBY, Secretary.

annually. This bond is not transferable, will not fluctuate in value and may be redeemed at any time before maturity at values printed on its face. Intended chiefly for people of small income, ownership is restricted to individuals in their own right, with a limit upon holdings of \$5,000 maturity value of bonds issued in any one calendar year. Denominations are \$25, \$50, \$100, \$500, and \$1,000. The Defense Savings Bond will replace the present "baby bond" series and will be available to all subscribers under the Regular Purchase Plan familiar to many thousands of small investors.

Texas was among the first states in the nation to qualify for Federal aid in game management work, the Federal government furnishing a maximum of \$150,000 annually which was to be matched by the state in the ratio of 1 to 3. Work was started in 1938, when the department launched a five-year research and demonstration program dealing with game, the first of its kind attempted in the United States with these Federal funds, which were made available by the passage of the Pittman Robertson Act. The program is still in progress, with 26 technically trained biologists in the field studying the life habits of Texas

wildlife and recommending and putting into effect measures that will increase the supply of game birds and game animals.

With the cooperation of landowners, sportsmen and other nature-lovers, game managers and biologists of the department are now improving habitats and in other ways bettering the condition of quail, antelope, deer, wild turkey, Desert bighorn mountain sheep, and other species on 292 separate areas which have a grand total of 3,536,832 acres of land. These projects also are being financed chiefly by Pittman-Robertson funds. The Texas game management program, only three years old and just now taking shape, promises to reward the sportsman many times over in the years to come.

Much more could be accomplished if funds were available. Texas is first in wildlife resources, first in area, and fifth in population, but ranks 23rd among the states in the amount of money provided for wildlife conservation. Conser-

vation funds come mainly from hunting and fishing licenses. Under the present law, resident hunting and fishing licenses are required in only 21 of the 254 counties in the state.

Distribution of game from regions having a surplus to other parts of the state where the supply has been depleted, is one of the major functions of the Game Department. Last year 20,400 bobwhite quail, 420 white-tail deer, 551 wild turkeys and 40 beaver were thus distributed. In addition, many antelope were trapped in West Texas—in fact a total of 775 of these animals have been trapped and removed to better ranges over West Texas in the last three years. If these operations continue to be successful, the day may come within a few years when it will be possible to have a restricted open season on antelope.

13th Call Orders 600 Negroes Into U. S. Training Army

General J. Watt Page, State Selective Service Director, announced today that 600 Negro registrants will be inducted into the armed forces on May 19 and 20. No Negro trainees were ordered in the call from Crockett County, the local Selective Service Board reports.

This is the Army's thirteenth call on Texas to supply men for military training.

Negroes are inducted in proportion to their percentage of the total population and assigned at the reception centers to every branch of the Army.

Pointing out that induction of Negro selectees throughout the nation has been lagging due to lack of present facilities, General Page said that when this call has been completed Texas will have furnished 3,726 Negroes as against 21,585 white trainees.

At the present time Texas has furnished approximately 74 per cent of its quota for the current year ending June 30. Whether June calls will bring the state up to its full quota of 33,213 men for the period is not known. A new quota will be assigned to Texas for the year beginning July 1. It is possible that this quota may be heavier than that for the first year, and rather steady calls after June 1st during the summer period are expected.

Varied Program—

(Continued from Page One)

shows and medley of college songs. James Moudy of Washington, D. C., will be present as a special trumpet soloist.

The program to be offered in Ozona will be divided into six parts and will consist of the following numbers:

- "TCU Alma Mater Hymn";
- Motet, "Panis Angelicus," Palestrina;
- "Now Arise My Soul," Bortyniansky;
- "Bell Carol," Davis—Mixed Chorus.
- "Spirit Flower," Campbell-Tipton;
- "Mother Goose," a la Mozart, Davis—Woman's Choral Club.
- Trumpet Solo: "Ave Maria," Schubert—James Moudy.
- "Song of the Jolly Roger," Candish;
- "O Promise Me," DeKoven;
- "Good News, Chariot's Comin'!" Curtis-Burlin—Men's Glee Club.
- "Blue Danube Waltz," Strauss—Mixed Chorus.
- Songs in the Twilight—Mixed Chorus.

Local ex-students of TCU and the Ozona Music Club will entertain the visiting singers with a barbecue dinner in the city park during the noon hour. Mrs. Lee Childress is in charge of arrangements.

3 1/4 Inches Rain—

(Continued from Page One)

rain fell on Live Oak in approximately an hour's time to put the creek on the biggest rise noted there in many years. The water rose to a depth of 10 inches in the Owens barn, it was reported. No reports of livestock losses were heard. The heavy downpour put the Pecos River on a seven-foot rise.

Both draws through Ozona ran bankfull as a result of the heavy fall here Monday night.

Plateau Pot Pourri—

(Continued from Page One)

shirt and hat. The two men had gone to the big header tank south of Ozona for fishing and apparently the bird had fish on his mind too. When he couldn't lift on account of water-soaked wings apparently, Paul Ferner moved forward for the "kill" and the pride of the air turned on him with swift attack... the lone eagle, however, fought a losing battle.

Another "Lone Eagle" of our America is being "slaughtered" by public opinion today, it would seem... and rightfully so according to my notion... it is difficult to get at the bottom of Colonel Charles A. Lindbergh's attitude on this country's world policies in the present crisis... there is a sneaking innuendo that he is pro-Nazi... 14 years ago the Lone Eagle who flew the mighty Atlantic was accorded a hero's welcome in New York City, a celebration and welcome that eclipsed anything previous... last week 50 detectives, 50 patrolmen and 15 mounted police guarded the one time national ace as he entered Manhattan Center to speak against American interventionists... instead of shouts of acclaim ringing in his ears, Colonel Lindbergh was greeted cat-calls and boos by a rioting crowd estimated at 15,000... what a come-down.

An interesting item... it is estimated that this year the United States will produce twice as much steel as Germany and all its conquered countries combined... note that the greatest source of iron ore in this country is the Mesabi Range of northern Minnesota.

From the news of the day... in Rocky Mount, North Carolina, a brand new father left this note for the milkman, "In ten days, please leave eight or ten quarts of milk a day—or whatever the baby needs."

Can it be that our Sheriff Willis is a modern David... rocks are his weapons but he goes David one better by not even using a sling-shot... just trusts that accurate right arm of his to do the trick... back in 1931 Crockett's well-liked guardian of the law felled a fleeing prisoner with a rock after a long chase... the next year he stopped a charging wild boar which he had wounded with a rifle shot by hurling a rock straight to the forehead of the rampaging beast... Winston Churchill could certainly use Ozona's "gunless sheriff"... Hitler might fall like Goliath.

Reliable.....

Elect Officers Of Band Mothers

New officers of the Band Mothers were elected when the group met Wednesday afternoon at the band house.

Mrs. Bascomb Cox was named president, Mrs. Morris Dudley, vice-president, and Mrs. Ira Carson, secretary-treasurer. Mrs. Bryan McDonald, this year's president, presided at the meeting.

Mr. and Mrs. Will F. Evans of Toyahvale, Texas, stopped for a few hours in Ozona the first of the week. Mr. Evans is the author of "Border Skylines," a historical treatise on the Davis Mountains area and particularly the Bloys Cowboy Camp Meeting in the Davis Mountains.

Mr. and Mrs. Floyd Henderson and Mr. and Mrs. Jake Short spent the past week visiting with Mr. and Mrs. Henderson's son, Dick, who is a student at New Mexico Military Institute at Roswell, N. M.

Water Board Asks—

(Continued from Page One)

Specifications, plans and contract documents have been prepared by H. R. F. Helland, consulting engineer, of San Antonio.

It is the plan of the board of directors to equip the new well with a modern type of rotary pumping equipment, capable of pumping from one well a sufficient volume of water to supply Ozona's needs. Later, other improvements are to be undertaken, including covering the big tank atop the hill, and new and larger pipes in the distribution system.

Bryan McDonald, who has been under treatment of San Antonio physicians for the past two weeks, spent Monday and Tuesday at his home here, returning Wednesday morning for further treatment. Mrs. McDonald and children went to San Antonio over the weekend and Mr. McDonald accompanied them home for a brief stay.
