Around Muleshoe

The Jennyslippers will meet at noon on Tuesday, December 14 at the Library building for a luncheon and their regular monthly meeting. All members are urged to attend. A presentation will be made to Dave Cavitt, treasurer of the Salvation Army of Muleshoe, to submit the funds collected by the Jennyslippers as "Bellringers" on Saturday, December 4.

The Bailey County Commissioner's Court will meet in a regular session at the Courthouse on Monday, December 13, beginning at 10 a.m. and continuing until 5 p.m. Only routine items are scheduled on the agenda for this meeting.

The Muleshoe FFA Chapter is now selling fruit for the Holidays. If you wish to order, contact any FFA member or call the Agricultural Department at the high school - 272-3457.

Basketball season tickets are available in the High School office. Adults are \$15. and students are \$7.50. This is a tremendous savings for those planning to attend several games. Tickets will be available until December 10th.

HEY KIDS

Santa Claus will be at the Santa Hut just west of the Mule Memorial this Saturday, from 2:00 p.m. until 3:30 p.m. (or until all of the youngsters present have had a chance to visit with him).

KMP Builds Grade All For South America

Two area men have developed a new piece of earth-moving equipment, which is currently being sold in thirty-five states as well as Canada and Mexico.

Gary Morris, manager of KMP Manufacturing and Doug Parish, President of KMP together have developed a new "tractor drawn" maintainer. The maintainer was designed by Parish and can be used for road grading, land terracing or as a land leveler. In March, 1982 production was finally started on the machine after three years of designing, engineering and testing of the new piece of equipment.

Morris, who is a Muleshoe resident, oversees the sales and production line for the manufacturing plant which is located south of Earth, Texas. He was responsible for making all arrangements last Wednesday as KMP Manufacturing truck left the plant

Cont. Page 6, Col. 5

WINTER WONDERLAND.....Ice, sleet and rain put a wrapper of white on area trees and lawns over the past few days with temperatures staying below the freezing mark most of the time. A warm-up was predicted to ease the hazardous weather by Saturday. Area law enforcement agencies reported a number of "fender-benders" during the inclement weather.

Rules, Regulations Issued For County Livestock Show

Last Tuesday night, the Bailey County Junior Livestock Board met to set up committees and show plans for the 1983 Bailey County Junior Livestock Show which is scheduled to be held in the Coliseum on January 26, 27 and 28.

Setting up of pens and other equipment will be handled on Tuesday, January 25, with animals being weighed in on Wednesday, January 26. The actual show itself will be held on Thursday and Friday, January 27 and 28, with beef and lambs being shown first and swine last.

The following paragraphs contain a list of rules set forth for the show: Any boy or girl who is a member of the Bailey County 4-H, FFA or FHA whose projects are supervised by the County Extension Agent or Vocational Agricultural Instructors of Bailey County and who attend school in Bailey County is eligible to show in the County show. An exhibitor must be nine years of age by the day of the show to be able to participate.

Exhibitors must have owned their animals and have had them in their care not later than December 1, 1982. Steers must have been on feed and in the care of exhibitors by June 30, 1982. No animal is eligible for the Bailey County show if that animal has passed through an auction or premium sale in connection with a livestock show.

All animals in the show must arrive between 4 and 8 p.m. on January 26, and will be removed following the completion of the swine

show. Any exception will be made by the Division Superintendent only. The board requests that no exhibitor remove animals or tack from the building during judging.

Each exhibitor should notify their supervisor by December 1, 1982 of all livestock animals on feed. A form will be furnished for this purpose by the Show Board.

Regarding the question of limits on entries, the following shall apply: 1) Each exhibitor may enter 3 beef animals which shall be classified as market steers, feeder steers or heifers or any combination of the three, but not more than two of each classification. 2) Each exhibitor may enter three hogs: barrows, gilts or any combination of the same. 3) Each exhibitor

may enter three sheep, which may be wethers, or any combination of the same.

Division rules which will apply will be as follows: Steers will be divided into the following classes: 1) British Pure Breeds, 2) American Crosses, 3) other

Forty Area Youth Named To Who's Who Students List

A total of forty students from Muleshoe and the surrounding area have been included in the 16th annual edition of WHO'S WHO AMONG AMERICAN HIGH SCHOOL STUDENTS, 1981-82.

WHO'S WHO, published by Educational Communications, Inc. Lake Forest, Illinois, is the largest high school recognition publication in the country. Students are selected by high school principals and guidance counselors, national youth groups, churches or by the publishing company based upon students' performance in scholarship

Local Gin Installs High Density Baler

Road Conditions Bring Onslaught Of Accidents

Police activity from November 30 until December 7 was fairly quiet, except for several accidents that occurred due to the slick, icy conditions of Muleshoe streets last week.

On November 29, an accident involving Lillie Stotts Vinson occurred in the 100 block of West Avenue B. Mrs. Vinson apparently collided with a parked automobile after slipping on the icy streets.

A three car accident occurred on American Boulevard on November 30, when an auto driven by Victoria Groceman, and one driven by Debra Taylor was struck from behind by a third auto driven by John Jacobs Henry. The first two autos were stopped at a traffic light and when the third auto hit the second, it knocked the second one up into the first auto. No damage estimates were available.

On December 2, Silvia Perez was involved in an accident at the Allsup's parking lot, when she backed into another auto on the lot. Perez left the scene of the accident without leaving information, but

Cont. Page 6, Col. 3

Machine Saves Time, Lowers Man-Hours

The Muleshoe Cooperative Gins have recently installed some new, innovative pieces of equipment which are designed to compress cotton bales to a size of 21'x21'x52 inches. The new press puts the same weight of cotton into a bale, but condenses it from the old, larger size bale, thus allowing for more room in storage and hauling. The former bales ranged in sizes of about 36 x 24 x 60, which according to Charles Moraw, gin manager, "is quite a bit of difference."

Another advantage to the new machine, which is called a universal density machine, is the fact that the bales of cotton can be completely encased in mainly polypropylene or jute bale covers, as well as some cotton and polyethylene materials. This complete enclosure prevents soiling of the exposed lint and contamination from human elements such as grease, dust, starch and other products from dirty transportation equipment.

Moraw indicated that the Muleshoe Coop Gins had put in two of these universal density machines - one in each plant. "While these are not yet widely used, due to the excessive expense of the machines," Moraw explained, "they will be a required feature for all gins in 1983." Due to a ruling passed by the Bale Packaging Committee at their 1981 meeting, a decision was made that any

cotton ginned in 1983 will be completely covered as it comes from the gin. This ruling was to satisfy two basic requirements: that of meeting OSHA standards and then again, to prevent contamination to cotton from human elements.

The universal density machines are built inside the gins and eliminate extra time spent on the old style of weighing and bagging, as well as reducing labor. Whereas the old style bale press took about five men to operate from tying the bales, weighing and wrapping, the new machine can be operated by two gin employees. The bales are bagged automatically after rolling out of the press and onto a treadmill, where they are then sent into the bag - flipped up upward and tied off at the top with one bag staple. From that point, they are moved out by a loader onto the truck or to storage awaiting movement, all within a matter of minutes. "A truck can have several more bales, as long as they stay within legal weight," Moraw pointed out.

"We can turn out about one bale of cotton every three minutes with the new machine," the Gin Manager said, "and, generally on a good day, we can turn out 175 bales a day." Just prior to the bagging of a new bale, a sample is torn away and used to be sent in for classing purposes, Cont. Page 6, Col 1

Hey - Kids! Santa's Waiting for Your Letter

Okay, all you little kids and big kids -- it's time to get your letters into the Journal for that jolly old man known hereabouts as "Santa Claus."

In case you might be wondering, we have a direct line that goes to the North Pole, where Santa and all his elves are busy working on the goodies that will be under your tree on Christmas Morn. Be sure to write your letter, so that Saint Nick will have all your requests and correct information in his bag when he makes his Christmas Eve flight across the rooftops of Muleshoe Town. Now, we're sure that you all have been good little kids all during the year (no fudging now) and there must be just a zillion things that your little heart's desire. So...as the

Cont. Page 6, Col 4

PREPARING TIES.....Workers at the Muleshoe Cooperative Gin plant, place steel bands or ties around a high density compressed cotton bale, before it is released from the press. Following the release, the bale is placed on a conveyor belt and sent up an incline for bagging

School Trustees To Meet In Session Monday Night

The Board of Trustees of the Muleshoe Independent School District will meet in a regular session on Monday, December 13 beginning at 7 p.m. in the School Administration office.

One of the main items on the agenda will be the hearing of a delegation concerning the moving of the Junior-Senior banquet site. In a prior meeting it had been suggested that the banquet be moved from the high school cafeteria to the Bailey County Civic Center. At that time; however, the request to move was denied. The meeting Monday night should decide the matter.

The Board of Trustees will meet in Executive Session as authorized by the Civil Statute Laws of Texas regarding consultation on the progress being made in the employment of a new superintendent of schools. This has been brought about by the resignation of current Superintendent Harold Horne whose resignation will be effective January, 1983. Also in the executive session, consideration of employment of school personnel will be taken into consideration along with

the discussion of routine personnel matters. The Board will then reconvene in open session to consider actions resulting from the executive session. A change order for the renovation project will be considered, as well.

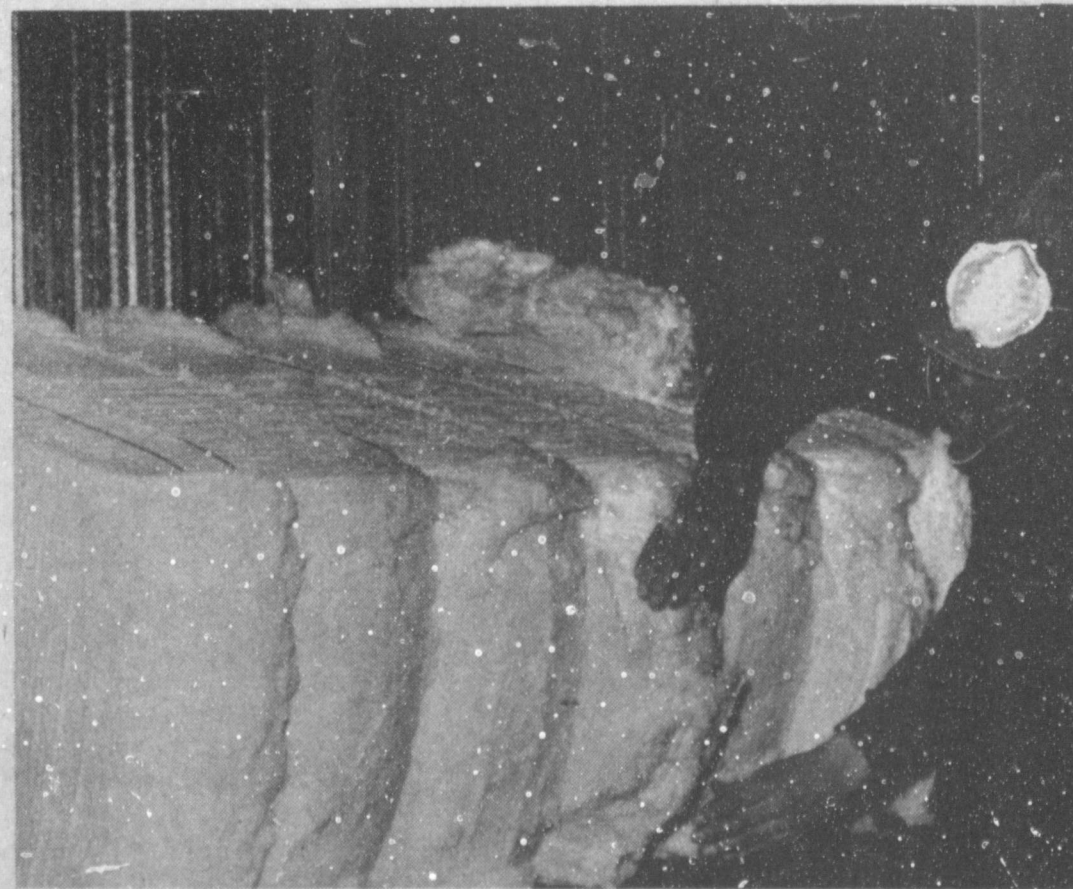

Community use of school facilities will also be under consideration at this meeting. The Board will consider the designation of Tom Jinks as official textbook custodian and official representative for the school lunch program to be effective on January 17, 1983 and to continue until a new superintendent takes office at the Muleshoe Independent School District.

The Board will have a discussion on whether or not to contribute a dollar amount in lieu of participating in the Block Grants Cooperative operated by the Region XVII Education Service Center.

A financial report and approval of payment of current bills will be taken care of, with bank balances and expenditures in each school fund and function of the school budget. A tax collection report will be heard and the board will

consider approval to changes to the tax roll. Ending the meeting will

Cont. Page 6, Col. 3

PULLING A SAMPLE.....As the bale of cotton rolls off of the press and up on the bagging ramp at the Muleshoe Coop Gin, a slash of cotton is taken from it to be sent into the classing offices to establish grade, mike and staple.

SOUTH AMERICA BOUND.....A new tractor-drawn maintainer designed by KMP Manufacturing south of Earth, Texas loaded out from the plant last Wednesday in route to the ultimate destination of Columbia, South America. These machines are manufactured, designed and sold in 35 states as well as Canada and New Mexico, according to Gary Morris, manager of KMP Manufacturing.

What A Headache Five Major Types

About 20 million Americans—two-thirds of them women—seek medical help for headaches on a regular basis. This is one of the most common problems brought to physicians.

"Despite being so common, headaches are often difficult to sort out in terms of a specific diagnosis and treatment program. The majority of headaches are not related to a serious underlying disease," reports Dr. Mary Ann Shirer, health education specialist with the Texas Agricultural Extension Service, Texas A&M University System.

It is helpful to consider headaches in terms of some five major types, she says.

MIGRAINES
This type of headache is most often confined to one side of the head. Classic migraine consists of early symptoms—such as flashing lights or flickering vision—followed by an initial throbbing headache which later becomes steady or dull.

Most migraines do not occur in this classic form, however.

Instead, they often take the form of "cluster headaches"—so called because they tend to occur in

A Good Diet Has Variety

And Moderation

Planning a good diet should mean eating a variety of foods in moderation, rather than a few foods in abundance, since no single food has all the nutrients needed for good health.

"The challenge is to select combinations of foods which will provide a nutritionally adequate diet," says Dr. Dymple C. Cooksey, food and nutrition specialist with the Texas Agricultural Extension Service, Texas A&M University System.

A good diet should include selections from the four major food groups. Diets require meat, eggs and beans to provide protein, as well as iron, zinc, and B-complex vitamins. Also needed are fruit and vegetables for their vitamins, carbohydrates and fiber.

Dairy products contain calcium for bones and teeth, along with vitamins, protein, and essential fats. Breads and cereals provide carbohydrates, vitamins, minerals, some protein, and considerable amounts of dietary fiber.

As a rule, most Americans consume more calories, fats, salt, and sugar than they need, according to Cooksey. Since food is vital, it is best to use some knowledge about nutritive content to combine foods into a sound, healthy diet.

clusters over a period of days, weeks, or months. Associated symptoms may include nausea and vomiting. There is solid evidence that the migraine headache occurs when blood vessels in the neck and head expand.

TENSION HEADACHES
This type of headache is caused primarily by contractions of the muscles of the scalp and neck. Treatment includes heat and massage for the involved muscles and simple muscle relaxants.

In persistent cases, underlying emotional factors may require attention, however.

POST-INJURY HEADACHES
Headaches of this type are common following head and/or neck injuries. Sometimes these headaches do not begin until weeks or even months—after an injury. They generally clear up with time.

SINUS HEADACHES
Sinus headaches should, as a rule, be accompanied by signs of infection, such as local tenderness, fever, or mucus discharge, to distinguish them from migraines.

Treatment usually involves an over-the-counter pain reliever or a prescribed decongestant to relieve sinus pressure.

HIGH BLOOD PRESSURE HEADACHES
This type of headache is uncommon and more often associated with the treatment for high blood pressure than untreated high blood pressure. When they do occur, they typically are located in the back of the head, are worse upon arising, and generally improve as the day progresses.

PREVENTION AND TREATMENT
Regardless of the exact cause of headaches, two areas of prevention and treatment—identifying and minimizing "trigger" factors and careful drug therapy—are effective for many patients.

The list of factors that can "trigger" a headache is virtually as long as the list of headache sufferers. Most common, however, seem to be:

Dietary factors—including changes in patterns, such as fasting or missing meals; specific foods; alcohol or excessive caffeine; or sudden withdrawal from caffeine; food preservatives and flavorers, including salt.

Hormonal and drug factors—hormones, such as birth control pills, and reserpine, used in treating high blood pressure, sometimes produce headaches.

Emotional factors—when perfectionists are subjected to stress, they are more likely to have headache problems.

Environmental factors

including temperature extremes, cigarette smoke, perfume, glaring light, and sudden changes in barometric pressure can lead to headaches.

Careful drug therapy emphasizes the need for attention to both proper use—timing and dosage and potential side effects.

Besides the usual over-the-counter pain relievers, these drugs are commonly prescribed for treatment of various types of headaches.

--Ergot alkaloids, which prevent blood vessels from expanding.

--Anti-depressants.

--Propranolol, a new drug with minimal side effects.

--Diuretics, to reduce body fluids.

"If you have frequent headaches, check with your physician. He should be able to pinpoint the cause of your headaches and establish an individual treatment program," Shirer says.

For a list of specialists in headache problems, write the National Migraine Foundation, 5252 North Western Avenue, Chicago, Ill. 60625.

Penny Amanda Churchman

Mr. and Mrs. Scott Churchman who recently moved to Muleshoe are the proud parents of a daughter, Penny Amanda, born Nov. 30 at 8:10 a.m. in the Methodist Hospital in Lubbock.

Penny Amanda weighed seven pounds and ten ounces and was 21 inches long. She has a two and a half year old brother, Scott.

Grandparents are Mrs. Patty Bausman of Plainview and Mr. and Mrs. G.C. Churchman of Sudan.

Great grandfather is Charles Bausman of Lubbock.

Caitlin Montie Greer

Mr. and Mrs. Eric Greer of London, England are the proud parents of a daughter, Caitlin Montie, born Nov. 15 in London.

She weighed seven pounds and five ounces. She has a four year old sister, Erin.

Grandparents are Mr. and Mrs. Ted Greer of Houston and Mrs. Mary Wilkinson of Sudan is the great grandmother.

Joseph Daniel Dugan

Mr. and Mrs. Mike Dugan are the proud parents of a son born Dec. 4 at Northwest Texas Hospital in Amarillo.

The young man weighed nine pounds and four ounces and was 21 inches long. He has been named Joseph Daniel.

Grandparents are Mr. and Mrs. Dean Dugan of Arkansas and Mr. and Mrs. Buddy Black of Dumas.

Great grandparents are Mrs. Joe Millsap of Lubbock, Mrs. Sammy Allison and Mr. and Mrs. Pete Black, all of Muleshoe.

Great great grandparents are Mr. and Mrs. Bob Cumsten of Muleshoe.

Despite the catastrophic farm situation, there is some glimmer of hope as farmers forge ahead and plan for 1983, said an economist with the Texas Agricultural Extension Service, Texas A&M University System. Both weather and the marketplace have devastated the hope of many Texas producers this year. Delinquent loans are running rampant and farm prices are down sharply due to huge supplies. Farmers must now look at '83 government programs as they plan their production. Commodity programs will emphasize reduced production, so farmers need to keep this in mind

JUNIOR DIVISION WINNERS... Juniors winning in the County 4-H Club Food Show included (l-r) back row: Holly Huckaby, fruit and vegetables; and Britta O'Tay, main dish; front row, Carrie Kindle, breads and cereals; and Misty Taylor, snacks and desserts.

Lazbuddie Young Homemakers Holds Christmas Party

The Lazbuddie Young Homemakers held their monthly meeting Thursday, Dec. 2. Eva Venable of SPS gave the program on cooking. She gave several hints on the use of microwaves and food processors.

Those present were Cindy Barnes, Marleen Bennett, Janice Bradshaw,

Vickie Burch, Lana Copp, Joann McDonald, Debbie Magby, Rezi Magby, Marca Morris, Susie Renner, Janette Thorn, Debbie Weir and Cassandra Cargile.

The group held their Christmas social on Friday night, Dec. 3. Everyone enjoyed a covered dish supper before exchanging

secret pal gifts. The men exchanged gag gifts. A special visitor dropped by to bring gifts to all the children.

Attending were Cindy Barnes and Jennifer, David and Marleen Bennett, Alecia and Shannon; Lloyd and Janice Bradshaw, Lou and Casey; Kirby and Vickie Burch, Jessica, Don and Keith; Ricky and Lana Copp and Jody; Dave and Sheryl Engelking, Heather and Holly; Kia and Cade Morris; Debbie Fred; Lyndon and Stephanie Foster, Shawna and Stacy; Donnie and Joann McDonald, Julie and Joshua; Skip and Debbie Magby, Dawnda, Mandi and Garrett; Russell and Ken Magby and Blake; Reta and Blake Mimms; Conrad and Susie Renner, Brandon and Misty; Rick, Mandi and Sheena Seaton; Doyle and Debbie Weir, Dawn and Dustin; and Cassandra Cargile.

Young Homemakers Donate To Welfare Board

The Muleshoe Young Homemakers met Tuesday, Dec. 7 at the High School for their Christmas party. Each member took a Mexican food dish for the buffet.

The club members voted to donate \$100 to the Bailey County Child Welfare Board to buy Christmas gifts for needy children, in a short business meeting following the meal. Craft night will be held Dec. 14 with Pam Zwick showing how to make calico Christmas ornaments. The children's Christmas party is scheduled for Dec. 21.

Following the business meeting, Jo Ellen Cowart and Liz Patterson sang a duet, then led the members in singing Christmas carols. A game of Christmas happenings charades was played. Secret pal gifts were exchanged.

The members took coupons for a coupon exchange. Rea Morris won the door prize.

Hostesses for the evening were Linda Turner, Shellye Pickering and Shawnda Philips.

Muleshoe Singing Group

The Muleshoe Singing Group met at 6 p.m. Saturday, Dec. 4 in the fellowship hall of the Trinity Baptist Church, with 28 present.

Mrs. Mae Wilterding was in charge and Fred Wilbanks gave the invocation. Following several songs and request numbers Zed Robinson gave the benediction.

The group will have their Christmas supper in the fellowship hall of the church Saturday evening at 6 p.m.

The next meeting will be on January 8, 1983.

Rinse tea stains from china by soaking overnight in a solution of denture cleaner.

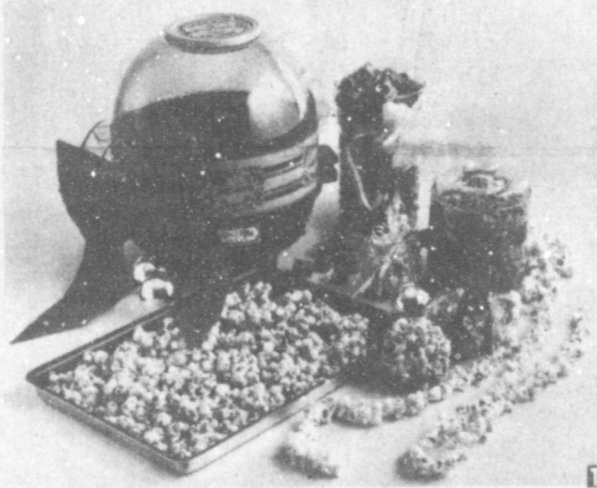

FOOD SHOW WINNERS... Senior 4-H'ers who won in the County Food Show Saturday, Dec. 4 are (l-r) Zanna Huckaby, breads and cereals; Tamara Gilliland, main dish; Donae Parker, snacks and desserts; and Shelley Sain, fruit and vegetables. These 4-H'ers will compete in the District 4-H Club Food Show in Lubbock.

FOOD SHOW ALTERNATES... (l-r) Brandi Estep, Christy Pena, Amy Harrison and Shawn Vranscum, were alternates in the Bailey County 4-H Club Food Show held Saturday, Dec. 4 at the Civic Center.

Caramel Corn - Simple And Sensational

The holiday season is festive, fun and filled with tempting treats. Popcorn, despite its simplicity, is a delightful favorite with all ages. While some people prefer it plain and others lightly seasoned, few can resist the enticing flavor of Caramel Corn.

Sweet, crunchy and delicious, Caramel Corn is surprisingly simple to make. Most kitchens are already equipped with the necessary ingredients and utensils.

CARAMEL CORN

- 1/2 cup (1 stick) butter or margarine
- 1/4 cup light or dark corn syrup
- 1 cup lightly packed brown sugar
- 1/2 teaspoon baking soda
- 4 quarts plain popped popcorn

1. Melt butter with corn syrup in 2-quart sauce pan over medium heat. Add brown sugar and stir to dissolve.
2. Using a candy thermometer, cook syrup to hard ball stage (250°F). Remove from heat and add baking soda, stirring to blend. Syrup will foam and lighten in color.
3. Pour caramel syrup over popcorn in a large bowl or Dutch Oven and stir to coat evenly with long handled spoon as mixture is hot. Cool and then break into clusters for serving. Makes 4 quarts.

Hint: If popcorn balls are desired, butter hands generously or use buttered popcorn ball shapers to form balls while mixture is still warm. Makes 14 to 16 popcorn balls.

Christmas Piano Recital Scheduled

The students of Mrs. Peggy Sanders will be honored in a Christmas piano recital on the evening of December 14, at 7:30 p.m. at the Richland Hills Baptist Church.

Relatives and friends are welcome to attend. Students performing are as follows: Carissa Buie, K'Lynn Webb, Christy Pena, Krystal Angeley, Tiffany Angeley, Jake Scott, Christy Shipman, Christy Maxwell, Wendi Bland, and Amanda Ashford.

A reception will follow the performance.

A healthy body is a guest-chamber for the soul; a sick body is a prison. -Francis Bacon.

The body of a man is a machine which winds its own springs. -J.O. De La Mettrie.

The body of a man is not a home but an inn - and that only briefly. -Seneca.

Eight Muleshoe 4-H'ers Attend Food Show

Bailey County 4-H members are making final preparations for the South Plains District 4-H Food Show. The show will be held Saturday, Dec. 11, in the College of Home Economics Building at Texas Tech University in Lubbock.

A total of eight 4-H'ers from the county will compete. They are (seniors) Tamara Gilliland, Shelley Sain, Donae Parker and Zanna Huckaby; (juniors) Britta O'Tay, Holly Huckaby, Misty Taylor and Carrie Kindle.

Entrants from 20 counties will compete in the senior and junior divisions. Each division has four food classes: main dish, fruits and vegetables, breads and cereals, and nutritious snacks and desserts.

Contestants in the district event are all winners of their county food shows. Senior division winners in each category will advance

to the state 4-H Food Show next June in College Station.

County Extension Agent, Linda Mullin, said "the contestants will begin registering at 9 a.m. in the lobby of the Home Economics Tower. Judging begins at 9:30 a.m.

The dishes will be on display in the tower from 1:15 to 2 p.m. and the public will be welcome to view them. Ribbons and trophies will be presented during an awards ceremony at 2:30 p.m. in the Coronado Room of the University Center.

BIBLE VERSE

"Think not that I am come to destroy the law, or the prophets; I am not come to destroy but to fulfill."

1. Who was the author of the above statement?
2. To whom was he speaking?

Answers to Bible Verse

GRADE D BALE.....A Grade D bale is completely unacceptable and is usually returned to the buyer for cleaning and rebaling. Grade D bales generally contain oil or grease on the cotton lint and is unacceptable to the mills.

GRADE A BALE.....The above pictured bale of cotton is a Grade A sample of baled cotton and exemplifies the exact look of such a bale. They are noted for their neatness and complete covering, which prevents soiling.

Deregulation Offers Free Market Gas To Consumers

In the last of a three part series on the pros and cons of natural gas decontrol, it's good and bad points, The West Texas Chamber of Commerce recaps the entire article for readers.

At the mid-year meeting of the West Texas Chamber of Commerce in Fort Worth on November 11, the Chamber adopted a position which favored the deregulation of natural gas. The article published hereafter is the last portion of that paper, and has been offered to the Journal's readers as a public service to explain the deregulation more fully.

The potential benefit to consumers of a free market gas supply are many. They include:

Reliable levels of gas deliverability through efficient development of already proven reserves and continued production from marginal properties. (In Texas, this will also benefit the state treasury because taxes collected from properties that would otherwise cease production will be shored up. Similarly, maintenance of jobs in the industry will be economically beneficial to Texans.)

Uniform, market-dictated pricing and resource allocation, free of government-induced distortion.

Lower long-term energy input prices than could be expected if fuel and feedstock needs are supplied primarily by imported oil.

Lessened dependence on foreign oil and attendant reduced foreign payment deficits — and strengthening of the dollar — as domestic energy use further supplants purchased foreign energy.

Greater certainty of price and supply to provide a rational basis for advanced planning.

Less government regulation in an area in which regulation has not and cannot work, coupled with resulting economics in government spending and reduced industry costs for dealing with red tape, with savings to be passed on to consumers.

Conservation opportunities dictated by realistic price signals.

Rational development of all potential U. S. energy

supplies based on market-dictated price relationships between gas, oil, coal, nuclear, solar, and other sources.

Enhanced national security due to reduced imports and the corresponding freedom for the nation to conduct its foreign affairs without the import constraints.

It is important to note again that in the aftermath of oil deregulation, domestic supplies of crude are up, conservation is up, imports are down, and the price to consumers is most acceptable.

It would seem that the lessons learned from decades of flawed controls, and the positive results from decontrol of oil prices, present arguments that are too compelling to permit further delay in implementing the only correct natural gas decision; that is, the deregulation of all wellhead prices and related actions favored by the West Texas Chamber of Commerce.

A recap of Key Benefits involved in the aspects of Natural Gas decontrol are:

Increased domestic supply resulting in decreased crude oil imports.

Increased conservation making available natural gas for more efficient uses.

Stimulation of economy by boosting business activity and jobs creation.

Enhanced national security due to reduced dependence on foreign nations.

Price stability generated by end to artificially priced resource.

End to market disorders whereby intrastate consumers—including West Texans pay more for natural gas than interstate consumers.

Alternate energy sources not developed because of artificially low-priced gas availability will become viable.

Lower long-term energy input prices than could be expected if fuel and feedstock needs are supplied primarily by imported oil.

Lessened dependence on foreign oil and attendant reduced foreign payment deficits — and strengthening of the dollar — as domestic energy use further supplants purchased foreign energy.

Greater certainty of price and supply to provide a rational basis for advanced planning.

Less government regulation in an area in which regulation has not and cannot work, coupled with resulting economics in government spending and reduced industry costs for dealing with red tape, with savings to be passed on to consumers.

Conservation opportunities dictated by realistic price signals.

Court Cases

Lighter Over

Past Few Days

Court case loads were a little lighter for the week from November 30 until December 7 with twenty-five cases being paid and disposed of and thirteen being filed during that period, in Municipal Court with Judge Linda Huckaby.

Of the cases paid and disposed of, six were for speeding, six for bad checks, two for no drivers license, two for illegal U-turns and one each paid for the following violations:

exhibition of acceleration, backing without safety, failure to leave information at scene of accident, no commercial drivers license, theft, failure to yield right of way, illegal parking, public intoxication and expired license plate.

Cases filed included three for no liability insurance and three for failure to appear, two for speeding and one each for the following: failure to yield right of way, failure to leave information at scene of accident, no drivers license, backing without safety and following too close.

In Justice Court with Justice of the Peace Tana Holmes presiding, twenty-three cases were filed over the week's period with seven disposals. Nine of the cases filed were for speeding, four for non valid MVI's, two for no liability insurance and one each for the following: defective tail lamps, operating a motor vehicle without a drivers license, driving on wrong side of road, public intoxication, cutting across driveway, improper passing, failure to stop at stop signs and displaying the wrong license tags.

Disposals made in Justice court included three for speeding and one each for no valid MVI, no commercial drivers license, defective mufflers and violation of written promise to appear.

Registration For College Classes Rescheduled

The Planning and registration time for anyone interested in taking courses from South Plains College, Levelland, has been rescheduled for Tuesday, December 14, at 7:00 p.m. in the High School Cafeteria.

Dean Yarbrough from South Plains College will be in Muleshoe to explain the details of the courses. "It is important that all interested persons attend this meeting so that the required number can be met in order to offer the requested courses," says Mrs. Elizabeth Watson. It is necessary to have 15 persons to have a class in a desired course.

ONE MINUTE SPORTS QUIZ

1983 Houston Livestock Show Has Largest Number Of Stars Ever

Houston Livestock Show and Rodeo officials today announced the biggest line-up of star entertainers in Show history. They also announced box office ticket sales would begin on Saturday, December 4, at the Astrodome box office and all Ticketron Master and Ticketron

outlets. Ticket prices remain \$8.00 and \$4.00 for the event, February 23 - March 6 in the Astrodome. In response to spectator demand, Show officials opened box office sales earlier than ever, so tickets would be available for Christmas gifts.

With seventeen top stars, the Rodeo talent line-up is the biggest group of entertainers ever to headline an Astrodome event.

Show President E. Norwin Gerhart announced that the line-up of Kool & The Gang, Mel Tillis, Merle Haggard, Hank Williams, Jr., T. G. Sheppard, Lacy J. Dalton, Eddie Rabbitt, Rosanne Cash, Conway Twitty, Sylvia, Ricky Skaggs, Janie Fricke, Don Williams, Crystal Gayle, Larry Gatlin and the Gatlin Brothers Band, Charley Pride and the Oak Ridge Boys offered fans their choice from the top stars of the music world.

"With this year's line-up, it doesn't matter which of the 16 performances you bring the family to see," said Gerhart. "You're going to see today's biggest stars at the one ticket price that's more affordable than ever."

"The Houston Rodeo is dedicated to bringing our fans the very best entertainment there is, whether its stars or rodeo action. And, with no increase in ticket prices of from last year, we're sure they'll be able to bring the whole family out to see all their favorite stars, as well as enjoy all the special fun of

the livestock show."

Tickets go on sale Saturday at the Astrodome Box Office on Kirby Drive and through all Ticketron Master and Ticketron outlets. Rodeo tickets also are available now by mail order through the Rodeo Ticket Director, P.O. Box 25395, Houston, Texas 77265. Rodeo tickets include admission to all livestock show events, except for the NCHA World's Championship Finals and the World's Championship Bar-B-Que contest.

The opening rodeo performance on Wednesday night, February 23 stars Kool and the Gang. On Thursday night, February 24, Mel Tillis returns to headline the rodeo.

Friday night, February 25 is highlighted by the appearance of Merle Haggard, always a favorite with Houston fans.

Making his rodeo debut at the matinee performance only on Saturday, February 26 is one of the hottest new country talents—Hank Williams, Jr. Saturday matinees begin at a new time of 11:00 a.m. this year. Saturday night, February 26, rodeo fans can see two big stars as T.G. Sheppard and Lacy J. Dalton make their Houston rodeo debuts.

Sunday, February 27, also features two performers, as Eddie Rabbitt and Rosanne Cash each appear at the matinee and evening shows. Sunday matinees are now at 1:00 p.m.

The evening performance on Monday, February 28 marks the third performance to feature two entertainers, with Conway Twitty and Sylvia starring. Tuesday night, March 1, Ricky Skaggs and Janie Fricke star to round out four consecutive rodeo performances to feature two entertainers.

Amalla Looks For Second Pro Victory

Domingo Amalla of near-by Anton, Texas, and well known Lubbock Golden Glove boxer has been added to the December 17th fight card at Texas Dome on the campus of South Plains College in Levelland.

Amalla will square off for a scheduled four (4) round encounter with Harold Ramero of Albuquerque, N. Mexico, in the 126 pound division.

The 23 year old Amalla is a veteran of 11 years in the amateur ring wars, and with one pro win behind him, looks forward to increasing his winning record!

Amalla stated that his life-long ambition was to become a professional boxer and he made that dream come true in August when he signed a contract with the Gorman Super-Pro Gym of Fort Worth.

The fight card calls for Amalla to be the second (2nd) bout on the seven (7) bout card, beginning at 7:30 p.m.

Wednesday evening March 2, Don Williams

Jennings Fights In Levelland December 17th

State Golden Glove Champion, Ford Jennings, who started his boxing career in Tulia, Texas, returns to west Texas, as an undefeated pro 5-0, Friday, December 17th at the Texan Dome in Levelland.

Jennings, a 1981 Texas Golden Glove Champion representing the Houston team has been running full speed ahead since turning pro. With 5 wins and no losses, he has scored three (3) K.O.'s along the way!

The Jr. Welter Weight will tangle with rugged Dwayne Watson, 3-0, of Nashville, Tenn. for six (6) rounds.

The Jennings - Watson clash is one of the seven (7) bouts on the December 17th card at Levelland, featuring "Rocking" Robin Blake vs. Chris Calvin of Nashville, in the ten (10) round main event.

Tickets: \$30 - \$20 - \$15 - \$10 - \$5 - \$3.

returns for his third year at the Houston Rodeo. And, beautiful Crystal Gayle headlines the Thursday night performance, March 3.

Friday night, March 4, Larry Gatlin and the Gatlin Brothers Band star. Charley Pride returns for

his twelfth straight year for two performances, Saturday March 5.

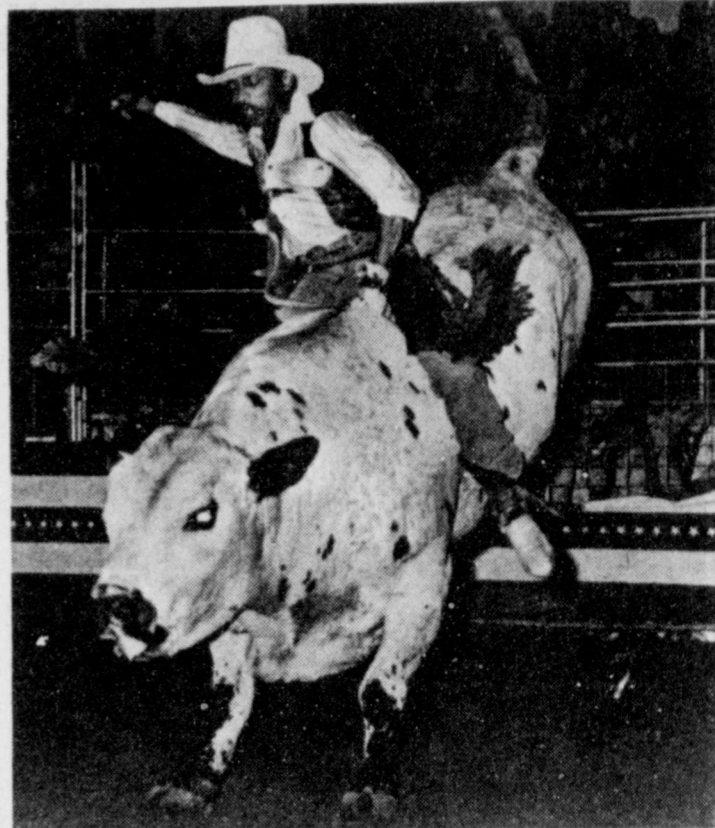

The Oak Ridge Boys, holders of rodeo's all-time indoor attendance record, close out the 1983 Rodeo with matinee and evening performances on Sunday, March 6.

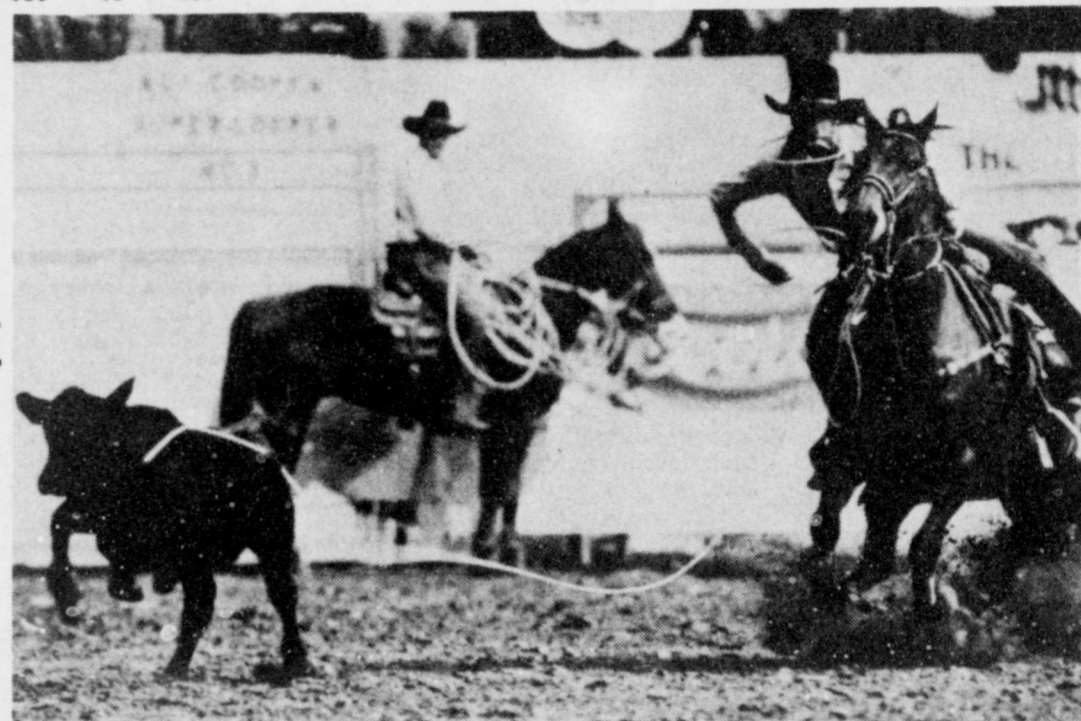

Saddle Bronc Riding

Bareback Riding

Bull Riding

Calf Roping

Hance Named Best Inflation Fighter

When it came to fighting inflation in the 97th Congress, no member of the House of Representatives did a better job than Texas Democrat Kent Hance, according to the National Association of Realtors (NAR).

The NAR evaluated 40 roll-call votes taken during the 97th Congress and, with the help of computers and economic models, gave each member of Congress a "grade" on their "Economic Report Card." The 40 votes used in the survey measured a member's voting record on such issues as slowing the growth of federal spending, reducing the federal government's deficit, boosting new home construction, and reforming the Tax Code.

Hance was given an "A" by the NAR. If Hance's votes had set government policy, said the NAR, consumer prices would have decreased in 1981-82 and mortgage interest rates would have fallen by more than six percent. Hance's voting record on inflation was the best of the 435-member House of Representatives, said the NAR.

The NAR also said Hance's voting record would have added more than 150,000 jobs in Texas over the past two years and Texans would have realized an increase of \$2,200 in household income.

Housing starts in Texas would have increased by more than 80,000 units in 1981-82 if Hance's votes had become public law, said the NAR, and commercial and industrial construction in Texas would have increased by \$1.1 billion.

The NAR said the economic models used to assess the economic impact of the 40 votes are the same models used by the Congressional Budget Office and the Administration.

Sudan News
By Evelyn Ritchie

Mr. and Mrs. Eugene Lopez and Anthony visited during the weekend in Hugoton, Kansas with Mr. and Mrs. Dewayne Phillips, Christie and Michael.

Mattie Pearl Sanders of Tuttle, Oklahoma visited last week with her parents, Mr. and Mrs. Doyle Terrell.

Mr. and Mrs. Ralph Morrow of North Gate, Colo, visited during the weekend with her brother, Mr. and Mrs. Gilbert Churchman and also Ferrell D. Churchman. They held an early family get together for Thanksgiving with Churchman's son Mr. and Mrs. Scott Churchman and little Scott of Muleshoe joining them on Sunday and also their daughter, Mr. and Mrs. Jerry Ethridge and children of Hereford.

Mr. and Mrs. Rick Wall and Josh, vacationed several days at Ruidoso, N.M. They returned home late Sunday evening.

Bobby Boyd remains a patient in the Methodist Hospital after having been taken there last Wednesday.

Mr. and Mrs. Billy Hanna visited in Vega during the weekend with their daughter, Mr. and Mrs. Dwayne Grey and children. They also attended the football game between Vega and Booker for playoffs when Vega won.

Mr. and Mrs. Cary Anderson and Brandon of Llano arrived to spend Thanksgiving holidays with her parents, Mr. and Mrs. Bob Edwards and also her brother, Mr. and Mrs. Pete Edwards and Johnathan and her sister, Mr. and Mrs. Eugene Lopez and Anthony.

Mr. and Mrs. R.C. Williams were in Cloudcroft, N.M. during the weekend.

Glenda Cardwell a student nurse at Methodist Hospital School of Nursing in Lubbock, was home during the weekend with her parents, Mr. and Mrs. Glen Cardwell and their two grand daughters, Danielle and Krista Nettles who are staying with them until their parents, Mr. and Mrs. Barry Nettles of Anchorage, Alaska get moved back to the area.

Mr. and Mrs. Dick West of Hemphill are home for a visit here.

Visiting this week with Mr. and Mrs. R.B. Knox has been her brother, Mr. and Mrs. Ferrell Ford of Seymour. They also visited his mother, Mrs. Daisy Ford and other family members.

Mr. and Mrs. A.M. Johnson, Teresa, Missy and Johnny of Bovina and Fred Collins and Jerry Tittle of Levelland visited during the weekend with their parents, Mr. and Mrs. George Collins, Sr.

Mrs. Patty Miller, Stephanie and Misty were in Levelland during the Thanksgiving holidays to visit her mother and other family members.

It was reported that over 5400 persons toured Tolk Station during Open House.

Mr. and Mrs. Gary West and family of Denver, Colo spent the Thanksgiving holidays with her parents, Mr. and Mrs. W.C. Masten and other family members.

Johnathan Edwards, son of Mr. and Mrs. Pete Edwards was released Saturday from the Littlefield Medical Center where he was a medical patient there several days last week.

The Christmas Concert presented by the Sudan Bands under the direction of Miss Jeanne Winton, will be held on Monday, December 13 instead of the 15th as previously announced. All bands of the Sudan schools will be participating and all interested persons are invited to attend.

Hornettes won their second scrimmage against Lubbock Cooper and Lockney during the weekend. Coach Kirkland stated that the girls looked much better during this scrimmage than they did against Amarillo High and they are definitely improving.

The Hornettes as well as the JV Hornettes and the Varsity and JV Hornets played regular games Tuesday, Nov. 23 against Springlake-Earth. Details of the games will be published next week.

Mrs. Rhoda Orman Minyard hosted a coffee Saturday afternoon for the members of the class of '32 for their 50th reunion. Attending were Mr. and Mrs. Jimmy Allred of Bullard, Tex, former coach and teacher; Mrs. Gladys Barnett Anthony of Amarillo; Mr. and Mrs. R.D. (Jimmy DeLoach) Moorhead of

Meadow; Lurlen Harvey Ray of Littlefield; Mr. and Mrs. H.W. Wallace and Mr. and Mrs. Don Webb all of Amarillo, Lillie Mae Moncrief Workman of Arlington; and Thelma West Vinson and Ida Rene Crain DeLoach both of Sudan. This was the oldest honored class at homecoming 1982.

Mrs. Scott Churchman and Penny returned home from the Methodist Hospital on Thursday. The Churchmans recently moved to Muleshoe.

Paula Ellison, a Tech student, was home for the Thanksgiving holidays with her parents, Mr. and Mrs. Joe Ellison and Lee Anne.

Mrs. Cynthia Reeves, Cody and Jason of Olney were holiday visitors with her parents, Mr. and Mrs. Truman Parrish and her sister, Mr. and Mrs. Donald Powell and girls and were also here to attend the wedding Saturday night of her niece, Lisa Powell to Kenny Thompson. Also visiting with the Parrish family and Powells were their niece, Suzanne Parrish of Amarillo, and Mr. and Mrs. Tom Boone Brenda and Allen of Lubbock and Mr. and Mrs. Ronald Powell, Janette and Larry of Tulsa, Okla. Mr. and Mrs. Ronald Powell and children also visited his parents, Mr. and Mrs. Forest Powell and brother, Mr. and Mrs. Dwayne Powell and family.

Visiting during the holidays with Mr. and Mrs. Burnice May were their daughter, Mr. and Mrs. Bob Sanders, Bryan and Hollye of Amarillo. They also visited other family members.

Louzelle Serratt visited the home of her son, Mr. and Mrs. Kenneth Serrett and family in Amarillo during the Thanksgiving holidays. Joining them were her other sons, Dr. and Mrs. Delbert Serratt and family also of Amarillo and Mr. and Mrs. Melvin Serratt and family of Hico. Melvin and Delbert brought her back home Sunday.

SENIOR SPOTLIGHT KAY LYNN WHITTEN The senior spotlight shines on Kay Lynn Whitten, 17 year old daughter of Kermit Whitten. She was born June 30, 1965 in Lubbock, Texas.

Kay Lynn is 5'4 1/2" tall, has blonde hair and blue eyes.

Among her favorites are food-Barbeque; color-yellow; her grandmother is her favorite person; actress-Katherine Hepburn. Her

favorite song is "Take Me Down" and Alabama her favorite group of singers.

Science is her favorite subject at Sudan High and Mrs. Fisher is her favorite teacher.

Among Kay Lynn's hobbies are swimming and bike riding. She plans to attend West Texas State University or South Plains College upon graduation from Sudan High.

Her goals in life are to make something of herself and to be able to help other people.

CHRISTMAS CONCERT TO BE PRESENTED

The Christmas Concert will be presented by all bands of the Sudan schools on Monday night, December 13 at the gym. All parents, grandparents, friends and neighbors are invited to attend.

Mr. and Mrs. J.R.

Anslow of Houston and Mr. and Mrs. Robert Dyer and Stacey of Bandera visited during the Thanksgiving holidays in the home of their sister and aunt, Mrs. Rhoda Minyard. Also visiting were her son, Mr. and Mrs. Pat Minyard and family of Lubbock.

Happy Birthday, belated, to Wesley Hargshiemer on Nov. 28.

Donald Doty visited last weekend with his sister, Mr. and Mrs. Doyle Mapp of Hobbs, N.M.

Maria and Elisha Burdette, daughters of Mr. and Mrs. Carl Burdette of Hugoton, Kansas, has been here visiting their grandparents, Mr. and Mrs. Innocente, Martinez and their aunt and cousins, Mr. and Mrs. Lonnie Narramore, Gabe & Miranda.

Guests in the home of Mr. and Mrs. Jimmy Richardson for Thanksgiving were his mother, Mrs. Mary Richardson of Levelland, Mr. and Mrs. Buck Freed and children, Mrs. Dean McBee, also Mr. and Mrs. Mel Nell and 6 children of Albuquerque, N.N.

Mrs. A.P. Fred spent the holidays with her sister, Mrs. Alene Logsdon at Levelland.

More than 65 million Americans said in a recent survey that they would volunteer to assist with projects they considered to be "worthwhile" if they were asked to do so. To help motivate a volunteer, make the job an interesting one so the volunteer will like it and derive satisfaction, said an organization specialist with the Texas Agricultural Extension Service, Texas A&M University System. Supervisors of volunteers can help build a sense of security by radiating confidence; being honest, sincere, fair and generous; showing sympathy and understanding; and carefully explaining the volunteer job.

Watchdog

The Texas Consumer Association Education Fund's Report from Austin

By Rebecca Lightsey, Director

The Department of Energy is looking for a place to store high-level nuclear waste, and they've got their eyes on Texas.

So far, they're pursuing Texas because the geology looks promising. They've had lots of trouble finding any other state where the residents aren't protesting too much, much less any place where it's welcome. And for good reason.

This high level waste, partly military and partly commercial (a large part is from nuclear power plants) is about as safe as a mad rattlesnake. Some of it is cancer causing even in minute quantities as small as 1/ten-millionth of a gram.

This microscopic amount will not only kill you, but it stays powerfully dangerous just about forever. Plutonium, one of the waste products, takes 240,000 years to become harmless; neptunium, the most dangerous byproduct, takes 500,000 to one million years.

Naturally, the stuff presents a severe disposal problem. Almost any container holding these deadly "hot wastes" will decay long before the waste is safe. So, the Department of Energy is searching for an underground grave to isolate the radioactive material for 10,000 years (even though some material has

radioactive lives up to 100 times longer). Their solution is to bury these poisons in huge, geologically stable, mine-like caverns with shafts sinking 2,000 to 3,000 feet down to caverns covering about 2,000 acres.

Two bedded salt formations in the Texas Panhandle and a few sites in Utah may fit the bill for DOE. But, at present, they've singled out Texas. In fact, they've already begun drilling core samples in the Palo Duro Basin in north Texas.

These DOE activities are sending shivers of fear through many Texas residents. They're frightened because of the countless dangers associated with such a burial place: short-term, they face the risks of shipping accidents, sabotage and mishandling errors. Long-term, they worry mostly about water contamination. There are three major aquifers in the areas being considered: the Ogallala, the Dockum and the Wolfcamp. The deadly waste could end up in these water sources from shifts in the earth, a flood, a change in the direction of an underground stream or from oil and gas mining.

These citizens point out that having a high-level nuclear dump site in the Panhandle doesn't just affect north Texas. Because

the waste would come from across the entire country, this killer waste will be traveling over the roads throughout the state. (Right now, there is so much waste in temporary storage sites around the nation that it would fill 10 football fields with waste piled 20 feet high). And, if the waste ever got into the water supply, it could poison much of the water in Texas and New Mexico.

No one wants Texas to be the repository of the nation's most dangerous deadly waste, but many people are frustrated that it's going to happen anyway because most Texans haven't shown much concern. Utah, the other likely location, has stopped DOE testing at present as a result of strong public outcry and a strong position from their governor. But, although Texas officials say they are opposed to a waste site here, they

Private industry providing jobs for wildlife specialists

COLLEGE STATION — Private industries are opening up new career opportunities for wildlife and fisheries specialists who like the great outdoors and want to preserve what many believe is an important part of the American way of life.

At Texas A&M University, which has one of the leading wildlife and fisheries sciences programs in the country, officials say there is a growing demand for wildlife experts to manage private recreational hunting and fishing resorts.

"In a time when the economy is not doing well and the number of federal and state jobs has decreased, our graduates are doing OK," says Dr. Doug Slack of Texas A&M's Wildlife and Fisheries Sciences Department. "Most still start to work for government agencies, but more and more are being sought by the private sector."

Career opportunities are opening up because ranches are supplementing their programs with hunting and fishing leases and because large corporations are beginning to provide recreational retreats for their em-

are still cooperating with DOE. If things continue in the direction they're going now, Texas will get the nation's nuclear waste almost by default. What do you think our state officials should be doing on this critical issue? The state senate may be looking into the problem, write the Natural Resources Committee, Texas Senate, P.O. Box 12068, Austin, Texas 78711.

WHO KNOWS?

1. Where would you find the phrase, "a decent respect to the opinions of mankind"?
2. Where is the Liberty Bell kept?
3. Complete this quotation: "Wide is the gate, and broad is the way, that..."
4. Which is longer a statute mile or a nautical mile?
5. In what year was Thanksgiving Day proclaimed a national holiday?
6. Which president made this proclamation?
7. What was the name of the ship on which the surrender of the Japanese army was signed?
8. Who wrote "Song of Hiawatha"?
9. For what is Charles Bullfinch best remembered?
10. Define onomatopoeia.

Answers to Who Knows

1. The Declaration of Independence.
2. Independence Hall, Philadelphia, Pa.
3. "Leadeth to destruction."
4. A nautical mile.
5. 1863.
6. Abraham Lincoln.
7. USS Missouri.
8. Henry W. Longfellow.
9. He is said to be America's first professional architect.
10. The compulsion to repeat words.

The world is troubled by two many people who try to be smart rather than right.

You can usually judge your friends by what they do rather than what they say.

Animals don't learn from the experience of other animals and the same applies to men.

Dear Santa:
I want a candy cane to hang on the Christmas tree next Christmas. I have a Simon pocket game I play a

Letters To The Editor

Dear Santa Clause:
I am 6 years old and I have been a pretty good boy this year. My name is Joshua Daniel Puente. I have two sisters, Hanna Marie three years of age and Leslie DeAnn who is one year old. So, please Santa bring me a race track and a Richard Petty helmet. I would also like a notebook and a Dukes of Hazzard set. Hanna would like a Barbie doll and a make-up kit. Leslie would like a little doll and a stuffed puppy. Oh yes, Santa, I would also like a hot wheel collection for me. Santa we will have some cake, cookies, coffee, and juice on top of the table for you. I love you, Santa.
Your friend
Joshua Puente

Dear Santa
I have been good this year. I want a little pacman game, a stomper semi and an at-at, commander, a scout-walker, a rock polisher, a stuff your face game, a fuel pouwer airplane, and a bike.
Love,
Jason Patrick Bureson
P.S. I will leave you cookies and milk.

Dear Santa,
I am only 4 years old. I can't write so my Mom is writing for me. I would like for you to bring me a baby doll, a bike without even training wheels, a pair of blue tennis shoe skates with a stopper about my size, a cheerleader set, new socks, and anything else I have been good enough to set.
I will leave a glass of milk and cookies for you. I love you Santa. I love Rudolph too.
Love,
Jeri Lynne Bureson
P.S. Please bring me socks with picture of E.T. on them.

Dear Santa,
My name is Brandon Thomason and I am 2 yrs. old. I have been a good little boy. I would like for you to bring me a toy combine and a car for Christmas. I will leave cookies and milk on the table.
Thank you
Brandon Thomason

Dear Santa,
I'm a little girl 7 years old and I'm trying real hard to be good. I want for Christmas a Baton set, and a Annie Doll, also a Annie House. Please don't forget my brothers Michael and Kevin. They want a computer.
Love
Stacy Duncan

Dear Santa,
I'd like a computer, and a billfold. Also a ring and a watchband. I have tried to be good. See you Christmas Eve night.
Love
Kevin Duncan

Dear Friends,
It is almost time for Christmas trees and holly again and we are busy planning our annual Christmas Party. We know that you would like to be here so we would like you to know what we are planning.
The date is December 17, at 2:30 p.m. to 3:30 p.m. Of course, Santa will visit us and hand out gifts. We would appreciate your having only one gift for the tree at the party. If you bring other gifts at that time, please take them to their room and that way each resident will have an equal amount of gifts under the tree.
Also, we are hosting the Senior Citizens Kitchen Band from Clovis and are really looking forward to hearing them. They will bring a lot of excitement to our party.
After Santa, refreshments will be served to all. If you would like to bring your gifts early, please turn them in at the desk or to Joy Stancell, Activity Director, so they can be put up for safe keeping.
Thank you so much. We are looking forward to sharing our holiday party with you. We appreciate all you do to make our jobs easier.

Sincerely,
Joy Stancell
Activity Director

For well over a decade the 50 million gun owners of the United States and the National Rifle Association have been assailed by the advocates of gun control with the accusation that we have been insensitive to the tragic loss of human life.
During that period we have seen this group with smug self-righteousness assume postures within which no point of exaggeration, calumny, defamation or even slander was beneath them.
However, the overwhelming defeat of California's handgun "freeze" initiative as reported in the Washington Post, Tuesday, November 9, displays the gun prohibitionists' cynical disregard of human life for purposes of political expediency. In the final sentence of the article Michael Beard, Executive Director of the National Coalition to Ban Handguns stated, "I hate to say it, but one well-publicized homicide could wipe that California vote out."
Imagine an individual of supposed intelligence praying for the death of some prominent American so that his own selfish, misguided cause might be advanced.
This from an organization that trumpets from any available podium and through and available medium their slogan, "To save one life." What hypocrisy!

J. Warren Cassidy
Executive Director
NRA Institute for Legislative Action

lot.
Please bring me a barbie doll, Santa cards, Barbie doll clothes and a pink dress with red roses on it, a cowgirl hat and a cowgirl suit and boots, a plane doll, a b.c.'s apple, a puppy dog that is a toy that walks and barks with a string on it. Bring my sister Robin some skates, race car track and a burnt biscuit. My sister Liz, a cow girl dress, boots and hat, jeans. My sister Michelle, jeans and a white wedding dress and high heal shoes.
Linda J. Berry

Dear Santa,
I would like a guitar, roller skates, and a Bye Bye Diapers Doll. Please bring Holly a See N Say, and some puzzles.
Love,
Heather Engelking

The tufted titmouse, a clever little bird, often lines its nest with hair that it dangles snatches from a squirrel's tail.

Mrs. Evans Services Held Saturday

Services for Fannie A. Evans, 78, were held at 2 p.m. Saturday, Dec. 11 in the Ellis Chapel of the Chimes with Bob Dodd, of the Muleshoe Baptist Church, officiating.
Interment was in Rose Hill Cemetery in Tulia under the direction of Ellis Funeral Home. Mrs. Evans died at 7:09 p.m. Wednesday in West Plains Medical Center.

A native of Miami, Texas, Mrs. Evans was born March 3, 1904 and moved to Muleshoe in 1946 from Memphis. She married Leonard Evans Dec. 28, 1924. He preceded her in death in 1973. Mrs. Evans was a member of the Muleshoe Baptist Church and the Muleshoe Senior Citizens.

Survivors include four daughters; Mrs. Joyce Stephens of Lubbock, Mrs. Shirlee Boyd of Riviera, Mrs. Sharon Gilliland of Estancia, N.M. and Mrs. Nicki Follis of Levelland; two sons; Zane Evans, Sr. of Franklin, Tenn. and Doyle Evans of Lovington, N.M.; two sisters, Mrs. Mary Dawson of Slaton and Mrs. Loma Guinn of Tyler; two brothers, Phil Nickel of

Lubbock and Ted Nickel; 15 grandchildren; and four great grandchildren.
Pallbearers were: Gari Richardson, Robin Richardson, Randy Stephens, Danny Kelley, James Rust, Zane Evans, Jr., Terry Evans and Mark Benedict.

Lonie A. Burge Graveside Services Held

Graveside services for Lonie Ann Burge, eight and a half months old daughter of Jearrell and Rosey Burge of Clovis, N.M., were held at 2:30 p.m. (today) Sunday, Dec. 12 in the Texico, N.M. Cemetery with the Rev. H.O. Robertson officiating.
Burial was under the direction of Steed-Todd Funeral Home of Clovis, N.M. The infant died Thursday in an Albuquerque hospital from a life long illness.
She was born March 22, 1982 in Clovis N.M.

Survivors include her parents; grandparents, Betty Carter of Clovis, N.M. and Jay Burge of Muleshoe; and her God parents, Ken and Gloria White, Sr. of Clovis, N.M.

Ultrasound devices studied for harmful pregnancy effects
COLLEGE STATION — Medical researchers at two American universities and one in Britain have launched a three-year study to determine if ultrasound devices widely used in pregnancy diagnosis and on muscle injuries have any harmful side effects.
Dr. David Gross, a Texas A&M University veterinary scientist, emphasized that no evidence exists of any ill effects from ultrasound scans used on pregnant women, or on patients who have their injuries treated with the devices.

Pointer To Heaven

Did you ever stop to wonder why so many churches have steeples? The answer is simple — a steeple has meaning — it is a finger pointing to Heaven. The steeple is the architect's way of showing what is important about life, and that is life's relation to God. The steeple also symbolizes the role of the Church as showing men the way to eternal life. Eternal life is not just an extra tacked on to the end of life, but those who know God, and thereby really know themselves aright, share now in the eternal, or heavenly, kind of life, for theirs is the Kingdom of God. If you would live, look for the nearest steeple, and go there to find the meaning of life.

Nursing Home News

By: Joy Stancell

Residents of the nursing home enjoyed the Thanksgiving Holiday. Most of them went home with their family or friends or their families visited them during the holiday. We are grateful to have such wonderful families and friends.

Jackie Johnson read to the residents Wednesday.

Gail Wilcox and Lena Ruthardt helped the residents make potato planters in Ceramic Class Fri. morning.

Tues. morning members of the Ave D. Church of Christ gave the residents a special Thanksgiving party. Refreshments of homemade pumpkin pies and whipped cream were served.

The response you have shown toward our country store has been fantastic. Thank You.

Charles Long spent Thanksgiving in Hereford in the home of his sister. His son and daughter-in-law were there for Thanksgiving too.

December 1st was Lottie Hall's birthday. She received a beautiful bouquet of flowers from her son Murray Hall.

Ora Roberts was visited by Dana Wenn and her two girls from Clovis, N.M.

Mr. Buter returned to the nursing home Monday. Welcome back Mr. Buter we missed you.

Edna Henderson is in the hospital at this time. Hurry and get well. We miss you.

Alma Henley and Effie Smith ate Thanksgiving dinner in the home of Mr. and Mrs. Scott Murray. It was a special day for everyone.

Marie Engram was visited by Patsy Henson,

Anna Chavas, Leeann Wilson, Jessie Robinson, Maud Keisey, Wilma Waddle, Marjorie Precure, Benny Weidebush, Kristie Campbell, Mrs. Cliff Odom. Stacey Campbell brought Marie a turkey and dressing supper to her and the Nursing Home Thurs. night.

Mrs. Cliff Odom, Stephanie and Carol, Mr. Embry are among those visiting the Nursing Home this week.

Thurs. Dec. 16th at 2:30 will be our monthly birthday party hosted by the Needmore Comm. Club. We invite you to attend.

Helen Free our Director of Nurses has been sick. We are glad she was able to be back with us Wed.

Fri. Dec. 17th is our Annual Christmas party. The party is from 2:30-3:30. We hope you can come.

Mr. Laney was visited by his wife Eva Atwood-Mr. and Mrs. Ieb Robinson and his son.

We welcome Mr. Jim Swanner back as our Administrator.

Residents Birthdays this month are: Lottie Hall Dec. 1, 1890, Effie Smith, Dec. 2, 1902, Charles Long, Dec. 9, 1900, Ora Roberts, Dec. 22, 1918.

We wish all of our family and friends a Very Merry Christmas. We love you all.

Fri. afternoon members of the Assembly of God Church come to give the residents a special Christmas Devotion. Christmas carols were sung-A special Christmas message was given and refreshments, of iced Christmas cookies and ice cream were served for a beautifully x-mas decorated table. They gave gifts to each of the residents.

Tues. morning in the Day room a lot of hussle and bussle was going on with our resident shopping in the Country Store for their families Christmas. We all had a lot of fun. It

was good to get the shopping done. Our thanks to everyone who donated gifts of money or items. We had a wonderful selection. Our thanks too, to Mrs. Lena Hawkins, Mrs. R. Dawson and Mrs. Lambert for being such super store clerks.

Tues. afternoon the Muleshoe Home E.C. Dept. and the Aux. helped decorate the Nursing Home. We are really enjoying the Christmas decorations. You can't help but have the Christmas spirit.

Paula McMeans decorated our Dec. bulletin board Fri. Thank you Paula.

Effie Smith's family gave her a Surprise Birthday Party in Clovis, at the home of her niece during the weekend.

Marie Engram was visited by Susie Vela, Lona Embury, Nelda Merriott, Jessie Robinson, Lennie Engram of Farwell, Kathy Hardage and Rachell of Lubbock.

The beautiful balloon bouquets that are hanging in our residents room; are our compliments of the Hospital and Nursing Home Auxiliary.

The big package under the tree to our residents is from our friends at Thriftway. Thank you very much.

Cordelia Cochran has been sick but is feeling better at this time.

Edna Henderson and Ray Griffiths are still in the Hospital. Keith Fuller was hospitalized Wed.

Our Nursing Home welcomes you to come and visit this Holiday season.

Salt buildup in the soil due to saline seeps is becoming a growing problem on Texas farms and is affecting crop production. The problem results mainly from certain farming practices and the natural movement of water through soil, said an agronomist with the Texas Agricultural Extension Service, Texas A&M University System. Water moving through the soil dissolves any salts present and moves them down to a compacted layer. The water and salts then move laterally to the lowest level in the soil and come to the surface. Farming practices that have contributed to this problem are terracing, contour farming and maximizing crop residues on the soil surface. Improving subsurface draining helps but there are no easy answers to the salt buildup problem.

Houston Show Announces Judges For 83 Horse Show

The Houston Livestock Show and Rodeo today announced the names of judges for 1983 horse show events scheduled for February 17 through March 6 in Houston.

"To maintain the integrity and high standing of horse show competition here at Houston, it is imperative that those individuals judging the events be top people," commented Don Jobs, Jr., Assistant General Manager.

"We're very pleased that the judges for 1983 are all highly regarded professionals. They are recognized for contributing greatly to the prestige and efficient running of the shows that they judge."

Earl Burchett, Snellville, GA, will judge the Appaloosa competition, March 4 and 5. The judge for the cutting portion of the Appaloosa show has not yet been confirmed by Houston officials. This information will be released as soon as it is available.

The Arabian and Half-Arabian shows will be judged by Philip L. Hatfield, Porterville, CA. Steeward for the Arabian competition is Colonel Jack Darling, Houston, TX. The Arabian and Half-Arabian

events will be held on February 28 and March 1. The Paint Horse Show will be judged by Don McDonald, Clyde, TX. Judge for the cutting portion of Paint Horse competition will be announced later. The Paint Horse Show runs March 2 and 3.

Dr. Jack Morris, Fort Worth, TX, will handle the judging duties for the Palomino Show, scheduled for February 27. Judging responsibilities for Quarter Horse competition are divided. Bob Spedden, Ellicott City, MD, will handle Quarter Horse halter classes, while Don Mullins, Springfield, MO,

will judge Quarter Horse performance classes. Taking over for Quarter Horse cutting and roping classes is Chet Johns, Paradise Valley, AZ. The Quarter Horse Show is scheduled for February 21-24.

In youth show activities R. L. Bob Kemp, Pine Bluff, AR, will judge the registered Quarter Horse portion of the junior horse show. Dr. Doug Householder, College Station, TX will judge the grade horse events of the junior horse show. Junior Quarter Horses will be shown February 25 and 26; grade horse events take place on March 6.

The Junior Horse Judging Contest will take place on February 24 and will be judged by Dr. Gary Potter, College Station, TX.

In 1983, Houston will host the National Cutting Horse Association World's Championship Finals, which begin on February 17. Judges for this event and all entry information will be available at a later date.

Direct marketing of popular vegetable and fruit crops is becoming a continuing, rather than seasonal, business in many areas of Texas. Favorite fall and winter vegetables-collards, turnip greens, cabbage, broccoli, squash and onions-should be in abundance soon to extend the season of roadside stands or "pick-your-own" operations. Also, peanuts and pecans can add to the fare at these markets.

TCA Soliciting Proposals For Developments

The Texas Commission on Alcoholism (TCA), under the authority of Texas Civil Statutes, Article 5561c (Section 18), is soliciting proposals for the development of children of alcoholics programs in Texas. A total of \$183,492 in state funds is available for the development of either school-based or agency-based children of alcoholics programs. Public or private nonprofit organizations, institutions, or agencies in state planning regions 1, 2, 3, 4, 6, 7, 8, 9, and 10 and 22 may apply.

The minimum amount for which any applicant may apply is \$40,000; the maximum amount is \$50,000. Grantee cash match will be required at a minimum of five percent of the TCA amount requested. Approved projects will be funded for a 12-month project period beginning March 1, 1983; however, the initial award will be for 6-month period ending August 31, 1983. The award for the remainder of the project year will be contingent on the appropriation of funds to TCA for the state fiscal year beginning September 1, 1983.

The closing date for proposal submission is January 7, 1983.

Quality, not quantity must be priority for producing engineers

COLLEGE STATION — The dean of the nation's largest engineering school says the United States must concentrate on producing quality engineers, because it will never be able to match the numbers being trained in Japan, Russia and West Germany.

"We've got to concentrate on quality because we aren't going to beat them on quantity," said Dr. Robert H. Page of Texas A&M University. Even in the current recession, Page said, a tremendous demand for engineers still exists. There are an estimated 17,000 entry-level engineering jobs open now across the nation, he said.

The percentage of engineers and scientists in the labor force dropped 9 percent in the United States from 1968-1980 while increasing 76 percent in Japan, 62 percent in the USSR and 75 percent in West Germany, he said.

QUICK QUIZ

Immigration makes news every day. What do you know about immigration to the U.S.?
1) Immigration to the U.S. was highest in which decade? a. 1891-1900 b. 1911-1920 c. 1971-1980
2) At any time, how many Border Patrol agents guard the 6000 miles of U.S. land borders? a. 6000 b. 4000 c. 350
3) Legal and illegal immigration counts for what portion of American population growth? a. 10% b. 15% c. 50%

ANSWERS:
1) c. Total legal and illegal immigration has been offset by uncontrolled lower birth rates than New York City Transit Police.
2) c. There are fewer Border Patrol agents than legal immigration is at record levels today.
3) c. The benefits of immigration.
