Kitty's Korner
 By Kitty Montgomery

We really hit upon hard times last week and made more errors than we care to admit. I keep thinking of one of my grandmother's old favorites, "haste makes waste," only in our case "haste makes errors," and that doesn't rhyme. In Frank Baker's column in the Fort Stockton Pioneer, it was mentioned one week that columns were good for correcting errors. Now why didn't I think of that.

First, our Dodge ad. You can't go to Dealer's Imprint and see a new Dodge. There ain't no such place. It should have been Stuart Motors. He is the dealer with the imprint.

Next, deer season hunting hours are not 30 minutes before sundown until 30 minutes after sundown. It's sunrise until after sundown. The hunters would never stand for an hour's worth of shooting a day. Nobody has mentioned our really big boo boo, so I won't either. I had the other two called to my attention by numerous readers, and this is good. At least I know people read the paper, even the ads, and that makes me feel good.

I guess you are all taking it easy today, except for the cooks. I solved that Thanksgiving Dinner problem at my house. I'm serving boiled football. No trouble at all, didn't even have to stuff it.

If you have the time and inclination to get beautiful, charming, etc. etc. you will have an opportunity the first week in December. Mary Lou Lilly or Celia West will give you all the particulars, but we are going to have a most fun thing in Ozona. April St. John Lawrence will be giving a full course of lessons that week. She will be giving lessons daily on self-improvement for women and girls. Her course stresses making the most of face and hair, good posture and physical condition, grace, dressing to suit your face and figure, developing a well-modulated, unaffected voice, and new loveliness and charm.

I'm a lost cause, but some of you might find it very beneficial. Can you imagine having your husband gone for the week on a hunting trip and coming home to find a glamorous doll in his den instead of the old lady? I can't either, but they say it does wonders for all women between the ages of 13 and 90, so you might want to look into it.

I don't know whether to wish you a happy Thanksgiving or a happy football day. Anyway, have a nice day. Will yuh, huh?

Young Couple Killed In Headon Collision

A couple of newly-weds were killed and a Sanderson woman injured shortly after noon Tuesday in a head-on collision approximately one and one-half miles east of Ozona.

The couple, both nineteen years of age, were apparently killed instantly when the 1973 Datsun they were driving veered into the path of a pickup driven by Peggy F. Clifford of Sanderson. The young man was Wm. J. Stewart of Havre, Mont. stationed with the U. S. Navy in Orlando, Fla. The girl, Sharon Nizamian Stewart, was a native of California. Officers found evidence that they had been married Saturday. The car was traveling east on U. S. 290 when the accident happened.

Mrs. Clifford was brought to Crockett County Hospital in a Janes ambulance and later transferred to the hospital in Fort Stockton, Al-

Ozona-Coahoma Share District Crown For 1972 Football Season

The Ozona High School Lions downed McCamey Friday night 24-13 in the final game of the 1972 football season to share honors with Coahoma as District 7-AA Champions. Coahoma will represent the District in the play-offs by virtue of its win over the Ozona Lions. Both teams have 5-1 district records. Coahoma's lone loss was to Big Lake.

The Lions will be awarded a co-champion trophy for their efforts. Friday night the Lions got off to a good start and fought to stay ahead of the scrappy McCamey Badgers.

Ruben Tambunga crossed the goal line from the one-yard line in the opening quarter for the first Lion score and the only score in the first quarter. The try for extra points failed, but the Lions had a 6-0 lead.

In the second period Tim Evans broke loose for 10 yards and another Lion score and

David Sewell passed to Tambunga for the two-points. However, before the half ended the Badgers got on the scoreboard with a touchdown and an extra point cutting the Lion lead to 15-7 at the half.

Funeral Sunday In Cleburne For Mr. A.M. Huffman

Funeral services for A. M. Huffman were held Sunday afternoon in Cleburne with burial following there. Mr. Huffman, 62, became ill last week while he and Mrs. Huffman were in Cleburne on business. He died Friday in a Cleburne hospital. Mr. and Mrs. Huffman moved to Ozona in July from Cleburne where they had lived for many years. He was associated with his brothers in the service station business before his retirement in Cleburne.

He was born in Covington Nov. 16, 1910. He married Maurine Duke Oct. 12, 1932. He was a Baptist and a veteran of World War II. Surviving are his wife of Ozona; a son Charles E. Huffman of Ozona; two daughters, Mrs. Jane Ann Jones of Cleburne and Mrs. Paula Easley of Odessa; three brothers, one sister and six grandchildren.

Lions broke it open in the final period with 10 points to put the game on ice. Gerald Huff returned a Badger kick 85 yards for a touchdown and Sewell hit the extra point, then came back for a field goal.

McCamey also scored in the waning moments of the game. Ozona dominated the statistics with 19 first downs to McCamey's 10. Ozona had 272 yards rushing and 103 passing for a total yardage of 375, while McCamey had 182 yards rushing and 5 passing for a total of 187 yards. Shopping Nites To Resume Next Week

Several Ozona merchants were open until 9 last Thursday night, and on the whole, reported a good turnout for the first night of the "open until 9 until Christmas" promotion. The stores will not be open tonight due to the Thanksgiving holiday, but will be open next Thursday night. Participating stores will offer specials for between the hours of 5:30 or 6:00 and 9:00 p.m.

Most merchants participating in the program feel that by staying open late one night a week until the holiday season is over, Ozonans will have a better opportunity to shop at home. And, too, they feel the working man and woman will take advantage of the night shopping hours to get their Christmas shopping done.

Telephone Rates For Ozona Go Up In Dec.

General Telephone of the Southwest has officially announced an increase in local telephone service rates in Ozona.

Jack Goss, division manager from San Angelo stated that the increases are needed to allow General Telephone to earn a fair and reasonable return upon local investment, enabling the company to keep pace with customer needs. This is the first increase in local rates in Ozona since 1959.

Goss said utility companies are major victims of inflation and as an industry have lagged substantially behind in adjusting prices to offset rapidly increasing costs. He added that utilities, unlike other companies and businesses are not free to adjust prices immediately each time a higher cost of operation is incurred.

Special Fuel Users Permits To Be Issued Here Dec. 13

The regular session of the 62nd Legislature amended Subchapter B of Chapter 10 to make it possible for farmers and ranchers to obtain Special Farm User Permits effective September 1, 1971. This enabled users of LPG (butane) to pay in advance the State tax of \$4 per gallon on 100 gallons per month, or 1200 gallons per year. It also allowed the user to use the mileage factor of 12 1/2 miles to the gallon of butane.

The decals may be secured from the different district offices of the Comptroller of Public Accounts. Each year since the effective date, beginning September 1, 1971, the San Angelo District Office has scheduled representatives to be in different towns and cities within its fifteen county district. The same procedure will be followed for the acquisition of new and/or renewal decals for 1973. According to the statute it is necessary that a representative of the Comptroller's office attach the decal to the vehicle, at which time certain information is required to be shown on the decal. The amendment also requires that the speedometer or hubometer be in working order at all times, and failure to adhere to this requirement subjects the user to a penalty.

The Comptroller's office has been assured by the Texas Butane Dealers Association that all the suppliers of butane will be informed as to the different places where the representatives will be, as well as the hours.

The decals may be secured in Crockett County in Ozona, Wednesday, December 13, from 9:00 A. M. to 5:00 P. M., at the Courthouse.

In the event a user of butane does not obtain the decal from the representative at the designated places, he

will find it necessary to go to the district office of the Comptroller's office to obtain the decal. The address of the San Angelo District Office is 238 West Beauregard, San Angelo, Texas.

If the user has previously had a decal he has received a renewal notice. Such notice is needed to obtain the new 1973 decal.

Following the dinner, entertainment was provided by members of the Parish, Raul and Mickey Arredondo, Robert and Melia Flores and Arjelia Tambunga sang, accompanied by Armando Ramirez and Chago Ybarra on guitars. Members of the Parish hope to make the affair an annual event, and give teachers and parents an opportunity to meet and get to know each other better.

Is now the time to buy land?

Acquiring that farm might seem more practical with financing through the Federal Land Bank. Land is easier to pay off when costs are amortized over extra years with a long-term Land Bank Loan. Your total cost of borrowing, too, can be less. Ask us for help: We know land values; we will inspect the property. We will then try to make a loan that meets your exact needs.

Tips For Gardeners

From the Ozona Garden Club
By Mrs. Bailey Post

This season should inspire beautifully planned table settings for your Thanksgiving dinner. For the center of interest design there are many colorful fall flowers, leaves, foliage branches, vegetables and accessories to use in your arrangement. Try it.

Last week Mrs. Gene Lilly presented such an informative paper on iris at the Garden Club meeting, members thought others would like to have this condensed information. If you haven't separated or planted your iris by now, you should do so at once or wait until after bloom next spring.

their numbers increase each year. The blooms resemble the orchid. Colors range from pure white through golden yellow to corn flower blue, dark violet and deep purple. They are excellent for cutting, stand a lot of handling and last even longer when put in water. They need sunny location with fairly good drainage and they do best in acid soil. In England they are known as "The Poor Man's Orchid" due to their fragile beauty. Plant them 3" to 4" deep and 6" apart. October and November are good months for planting. The Dutch are the best known and most vigorous. The Spanish bloom in a wide range of colors and have distinct grasslike foliage. The English have the largest bulbs and flowers but are the least hardy. Blue is the main color of the English type and yellows are found only in the Spanish and Dutch.

To grow spuria, Siberian and Japanese iris in Ozona you would need only to make an acid bed. Now to make an acid bed you should dig or turn soil one shovel depth. Work in manure, straw, peat moss or compost while loosening the soil. Now for every 100 sq. ft. of bed add one pound of soil sulphur and work it in. It is best to let this lay for two or three weeks - keeping it moist before planting. If the plants show a tendency to yellow after they have started to grow, give them a light dressing of nitrogen - any kind. Feed twice a year with acid camillia food.

(IRIS)
Iris vary in height from dwarf kinds 5" to 6" tall to the tall bearded kind 20" to 48" in height. Iris are divided into two main sections those which grow from bulbs and others which have thick root-stokes or rhizomes. Iris with thick rhizomes consist of four different types: tall bearded, intermediate bearded, dwarf bearded and beardless. The beardless varieties need acid conditions to do their best. There are many miscellaneous iris but I am only going to discuss the most hardy and well

MOD ORGANIZERS - Plans were made for the annual Mothers March of Dimes drive which will be held in January at a meeting Thursday in the home of Mrs. Mike Miller, Mrs. John R. known ones. Bearded. These iris are the easiest to grow and will give good results. They will grow well in nearly any soil. Sandy soils are the poorest for iris culture. Plant rhizomes deep in sandy soil and high in heavy soil. They need good drainage and normal irriga-

tion, but not as much as you would give a lawn. Plant in full sun. Do not shade by inter-planting closely with annuals. Clip off dead foliage but do not cut foliage back in summer. The bearded are heavy feeders. Work manure or chemical fertilizers into beds before planting or between the rows of established plants but avoid contact. Right after bloom is the most important feeding time. A super phosphate dressing is good. Later in the winter you can add wood ashes. You can extend the blooming season of your bearded iris by planting the intermediate iris. They bloom at or near tulip time after the dwarf. The lilliput bloom early after the dwarf and before the intermediate. The best time to plant the bearded is July to September. Plant flat and only half covered. They need to be unbanked to produce the maximum blooms.

Spuria: The spuria bloom in late spring toward the end of the iris season in most areas. The spurias are easy to grow and not overly demanding. Plant in the spring and plant the rhizomes immediately on arrival and keep quite moist until established. They must not dry out at this time. They must have good drainage and

full sun. Spurias are hardy in coldest areas but must have summer heat to bloom well. Leave clump undisturbed for years. They are excellent for corsages and cut for arrangements.

Louisiana iris: These iris have some problems in the colder areas but do well from Oklahoma south and along the moderate coastal country. They have a wide tolerance culturally. They will grow in standing water or in regular garden conditions. Irrigation sufficient for annuals is enough but must have acid bed, light shade is advantageous in the south.

The bulbous iris are the Dutch, Spanish and English Bulbous iris and they bloom in that order. They multiply so rapidly that

PUMPKIN EATERS

Bringing in the harvest is hard work! Just the thought of lugging this big pumpkin around is enough to make Carol and Sue tired and sleepy!

But what will Mommy do? She will make pies for Thanksgiving dinner. Then the house will smell sweet and spicy from the baking, and there will be a big table with the huge, browned turkey, and grandfather will say grace...

Thanksgiving is a day unique to Americans. In this troubled world of today Americans might count their blessings with hesitant hearts, but stop to compare your lot with your brothers in other nations, and you will soon find that God has given to you bounteously.

Give thanks, then, in the church of your choice.

ing prizes were all registered at Cooke's Market. Byron Mitchell of Dallas brought in a 12-point deer to lay claim to the deer with the most points. Jerry Saliva of Bay City, had the deer with the widest rack, a measurement of 19 1/2 inches, which might well stand up to win the prize. The heaviest field dressed deer was harvested by Jerry Whitfield of Bay City and weighed 118 pounds. A total of 110 hunters had registered at the various places of business early Monday morning for the drawing which will take place at the annual Chamber of Commerce Banquet in February.

Rate Hike—

(Continued from page 1)
a constant watch on the earning trends and to apply promptly for increases where the rate of return falls below a fair and reasonable level," he stated.

"After all other possible ways to improve the rate of return by reducing costs and achieving greater efficiencies have been fully utilized, a utility has no alternative but to seek a repricing of its services.

"Obviously, we are just as unhappy as the public when this becomes necessary, but if we were to do otherwise, we would be defaulting on our obligation to provide adequate service to the public," Goss stated.

The new rates, to become effective with the December bills are:

- Business one party, \$14.10.
- Business two party, \$12.10.
- Business extension, \$1.75.
- Residence one party, \$5.75.
- Residence two party \$4.80.
- Residence extension, \$1.25.
- Rural business multiparty, \$12.10.
- Rural residence multiparty \$5.00.
- Semipublic, \$14.10.

Goss said the proposed rates are in compliance with the price commission criteria for public utility price increase.

Criteria an increase must meet include that it is cost-justified and does not reflect future inflationary expectations; it is the minimum required to assure continued, adequate and safe service or it is needed to provide for expansion to meet future requirements; and it will achieve the minimum rate of return needed to attract capital at reasonable costs.

SHOPPING SHOULD BE FUN

I don't know which is worse -- walking into a store where an "eager-beaver" salesman tries to high pressure you into a sale before you've had a chance to look around, or the type of store where they pay no attention to you whatsoever and you eventually walk out feeling completely neglected.

Don't you think the happy medium is best? We believe in the type of store where you can feel relaxed and browse around without being pushed and still receive help when you want it.

And if you want help it will be given by courteous salesmen who are employed because they are knowledgeable in the furniture profession and are sincere in their desire to be helpful.

Because of the methods used by the personnel of many establishments, shoppers enter the stores feeling apprehensive and fearful of high pressure, or they enter a store and are afraid they'll get no friendly help. This is really a shame because shopping for things for the home should and could be fun.

We invite you to visit our store where shopping IS fun.
