Woman Hitch-Hiker Suffers Broken Leg As Fly Wheel Of Ozona Truck 'Explodes' In Descent Of Big Hill

A woman hitch-hiker, one of a party of three, may lose a leg as a result of one of the most unusual accidents ever recorded in this section and the first traffic accident on the new government hill grade on Highway 27 near Fort Lancaster, 35 miles west of Ozona, late Monday afternoon.

A truck, driven by J. B. Pharr of Ozona and owned by Bill Williams, local feed store operator, literally "exploded" while traveling at a high rate of speed near the foot of the two-mile slope, the fly wheel under the floor boards of the cab breaking up under the strain of high speed and throwing fragments up thru the floor of the cab.

Mr. Pharr had picked up two women and a man, hitch-hikers bound from Florida to California, and one woman was riding in the middle of the seat and the other sat in the man's lap. The one riding in the middle suffered a badly crushed bone in her leg as the flying bits of the fly wheel, traveling at a terrific rate of speed, crashed up through the floor boards.

Pharr Is Injured
Mr. Pharr suffered a mangled thumb and one finger, but was otherwise unharmed. The man received a sliver of metal in the bottom of his foot. The other woman was not injured.

A piece of the broken fly wheel was hurled out through the cab in the direction of one of the camp shacks of the Miles Construction camp, located at the foot of the big hill. The shack was over 200 yards from the truck and the piece of metal pierced one wall of one-inch board, passed through the room, barely missed the head of a child playing in the room, and went on out through the other wall.

Like Dynamite Charge
The floor boards of the truck were splintered as if a charge of dynamite had been exploded underneath. The instrument panel was wrecked and the brake and clutch pedals bent and twisted. The truck was loaded with nearly 10,000 pounds of cottonseed cake and the driver had put the machine in low-low gear to help hold it back down the incline. Near the bottom, he said, the clutch gave way and the truck gained speed. A few hundred feet further, something grabbed and the fly wheel began to disintegrate, the bombardment from flying bits of metal, some of them as large as a man's double fist, continued several seconds.

With the brake and clutch pedals wrecked, Mr. Pharr was unable to stop the truck and it rolled of its own momentum nearly to Olive Oak creek, it was reported here. The injured woman was taken to Iraan where it was reported doctors had indicated that amputation of the shattered leg might be necessary.

Ozona Woman's Eye Removed
Mrs. H. A. Elledge Suffers Injury When Glasses Broken
Mrs. H. A. Elledge underwent an operation in a San Angelo hospital early this week for removal of her left eye, injured recently when a sliver of glass from a breaking eye glass lens pierced the eyeball.

Mrs. Elledge was helping her sons in trapping when the accident which resulted in the loss of the eye happened. She was holding the chain leash of a dog when the animal made a lunge and jerked the chain from her hand, the end of it striking the glass and shattering it.

A bit of glass was embedded in the eyeball and the member was so badly damaged that removal was necessary. She is reported resting well after the operation.

Architecture Of Europe Described
Talk By Mrs. West Is Feature Of Woman's Club Program
A detailed and interesting account of the beginning of modern architecture and outstanding examples of the world's greatest architecture to be found in Europe as given by Mrs. W. E. West from her personal knowledge of the subject featured the regular program of the Ozona Woman's Club in session Tuesday afternoon at the home of Mrs. P. L. Childress.

Mrs. West told of the beginning of architecture in the crude mud huts of the Egyptians and described some of the examples of the three types of architecture to be found in the European countries today. Her talk was illustrated with pictures of the buildings and architectural designs she discussed.

Mrs. W. R. Baggett discussed American architecture in an interesting manner and Mrs. E. B. Ingham told of the greatest American sculpture. Both talks were enjoyed by the group. Mrs. A. C. Hoover, former art chairman for the sixth district, was the program leader.

Those present were Mrs. Ira Carson, president, Mrs. Ingham, Mrs. Vernon Cox, Mrs. W. J. Grimmer, Mrs. George Bean, Mrs. Baggett, Mrs. West, Miss Elizabeth Fussell, Mrs. Hoover, Mrs. George Montgomery, Mrs. Judge Montgomery, Mrs. Joe Pierce, Mrs. N. W. Graham and Mrs. Childress.

CROCKETT COUNTY'S ROCK THROWING SHERIFF DOUBTS STORY OF 200-YD. DEADLY HEAVE BY RANKIN CONTENDER

Sheriff W. S. Willis, premier rock-throwing sheriff of Crockett County, must look to his laurels in the rock-heaving game if a story coming out of the wilds of Rankin section is to be believed.

Pat Black, a brother of Morris and Kay Black of Ozona and himself a former Crockett County resident, tossed a rock a distance of 200 yards and killed a javelina hog, according to press reports yesterday. The wild hog was one of a herd and the missile slung by the ranchman struck him squarely between the eyes, killing him instantly. Sheriff Willis has won for himself no little renown with his accurate pebble heaving. The first evidence of his deadly aim with a rock came a few years back when he stopped a fleeing prisoner who broke for freedom while doing chores about the jail, a rock being the arresting agent. After chasing the prisoner over the rough hill back of the jail until he was near exhaustion, the sheriff stopped and took up a small rock and let drive, the missile striking the prisoner behind the ear and after regaining consciousness he was more than willing to go back to jail.

On another occasion, not so many months ago, the sheriff was on a hunting trip in the lower country when he was attacked by a ferocious javelina hog. Forgetting the gun in his hands, the sheriff grabbed up a rock and turning on his pursuer, loosed a deadly accurate heave that divided the animal's eyes, killing him instantly. Being somewhat of an expert in the rock tossing game, the Crockett sheriff was questioned concerning the highly improbable story from Rankin that Pat Black threw a rock 200 yards and killed a wild hog. Silently measuring off a distance of 200 yards with his eye across the city park, the king of rock throwers remarked: "If he threw that rock 200 yards, about 150 yards of the distance must have been straight down, I might do pretty well at, say, a hundred or two feet, but this 200 yards, that's better than mine."

A suggestion to local fair officials: A rock throwing contest between Sheriff Willis and Pat Black with a javelina hog as the target, would pack 'em in.

Waco, Texas, Feb. 14.—Star tire sales in January showed a gain of 206.83% increase over the same month a year ago, it was announced today by Hicks Rubber Company, Distributors.

The three months' total increase in volume, including November, December and January, was 124.33%. The January increase of 206.83% reflected volume in January 1934 of three times the January 1933 figure.

SANDERSON IS WINNER OZONA BASKET MEET

Border Lads Nose Out Angelo Juniors In Tourney Finals

11 TEAMS COMPETE

Iraan Is Consolation Winner; Ozona To Semi-Finals

Sanderson sprang a couple of surprises and crashed through stiff opposition to win the third annual Ozona invitation basketball tournament championship here last week-end. Sanderson sprang its first surprise in the second round when the visitors from down the border way turned back the fast Crane team, champions of the Big Lake tourney, by a score of 20 to 15. And the second came when they surged from behind to shade the San Angelo Junior High lads 20 to 18.

The Iraan Braves, soundly thrashed in the opening round by the San Angelo Juniors, 44 to 21, waded through the consolation contenders for the cup in that group, beating Comstock in the second round and Mertzon in the finals.

Ozona To Semi-Finals
The Ozona Lions fared well in the opening rounds, beating Barnhart easily in the tournament opener Friday afternoon 30 to 25, with the second string playing the last half. The biggest thrill of the tournament for local fans came in the second round game between Ozona and Eldorado when the locals nosed out the Schleicher lads by a single free throw, 19 to 18. The score was tied when the Lions won a free pitch on a foul and Freeman rung the basket. The finish whistle sounded a second after the ball left an Eldoradoan's hand and sailed squarely through the basket, just a second or so too late to win a basketball game.

Ozona was eliminated in the semi-finals by the Sanderson champions, the score being 24 to 14. Friday's opening rounds saw Eldorado beat Mertzon 29 to 25 and Crane smothered Rock-springs 65 to 16. Sanderson took its opener on forfeit by Rankin, who failed to appear. Big Lake bounced Comstock 44 to 22. A belated first-round game Saturday morning saw the San Angelo Juniors take Iraan 44 to 20. The Juniors won their way to the finals with a 21 to 18 win over Big Lake in a second round bout.

Mertzon Beat Barnhart
Mertzon trounced Barnhart 41 to 33 in the second round of the consolation and then took Rock-springs 52 to 17 for a chance in the finals. Two handsome silver loving cups were awarded Sanderson as tournament champions and Iraan as consolation winners.

Big crowds packed the gymnasium at each session of the tournament play and local school officials were well pleased with the success of the meet.

LIVESTOCK MARKET NOTES

By ROY K. SANSOM
With Natl. Livestock Com. Co., Fort Worth, Texas

Many moons and much water have so many things have indicated an undertone on all classes of livestock that is at once healthy and appreciably higher on every open market in the Nation. Last week, the East showed a strong, active market on ALL dressed meats—Chicago contributed \$7.35 for a fat cattle top—St. Louis sets a new top of \$4.75 on hogs—Kansas City shows \$9.75 top on lambs—Fort Worth paid 75¢ higher for hogs at \$4.75, with all classes of desirable cattle, from tops to tails showing an advance ranging from 25 to 50 ct. This week's opening brought considerably heavier receipts all thru the North and a weaker tendency in spots, showing declines of 10 to 25 ct.—but prices bounced right back Tuesday. This quick reaction alone is fully indicative of a much more healthy condition than we had just a short time ago.

Fort Worth receipts continue so light that Packers are afforded scarcely any opportunity except to make their buy at steady to strong or prices. Choice to prime fed cattle are noticeably scarce and the right kind of finished yearlings would bring \$6.00 to \$6.25. The bulk of the best yearlings received are selling in a \$5.50 to \$5.75 range, with a right good kind either way from \$5.00 according to class—fair kinds around \$4.00. Best heavy fed steers sell in a range of \$4.50 to \$4.75, with the handy weights \$4.75 to \$5.25. SOUTH TEXAS has contributed very few grass steers selling around \$3.75, but the right kinds weighing under 1050 pounds could easily bring 4 something. STOCKER STEERS are 50 ct. higher on the more desirable qualified kinds of all ages and weights.

COWS are the outstanding feature of our market. The Government has temporary orders here for around 350 cutter cows per day for the first 5 days of each week. Reported that the total of this order here is 6000 head. Cutter cows jumped 50¢ to 75¢ per cwt. and any kind with a pick on them are selling at \$1.75 to \$2.00, with a strong fleshed cutter at \$2.25 to \$2.50. This cutter advance forced good butcher cows to move up a notch out of their way, and packers are paying \$2.75 to \$3.00 for them, with the choicer cows at \$3.25. Average canners sell at \$1 to \$1.25 and old jersey pelts at 75¢ to \$1.00. Butcher heifers and cheap warmed up jersey and brindle yearlings are 50 ct. higher than three weeks ago at \$3.25 to \$3.75. CALVES are 50 ct. higher to both packer and stocker trade. BULLS strong—lights around \$1.75 and heavy hologna \$2.00 to \$2.25.

Cattle a basic commodity? The Pros and the Cons they had it hammer and tong. The Cons contended 200,000,000 dollars could do a powerful plenty for the cattle situation. The Pros pointed to the Hog man, and said he was like the fellow who agreed to work for his board and then lost his appetite.

Anyway, with or without the sanction of a counted majority—the cattleman now finds himself the producer of one of the nation's sixteen principal basic commodities. No longer the independent baron of the ballies and brush—he is just about as independent as the proverbial pig on a cake of ice, and his vast production is now placed in a comparative importance to other such dainty commodities as sugar, coffee, cocoa, as well as the very silk for Milady's thingumbobs, if you please.

Seriously tho—the idea of the Processing Tax is absolutely sound. Undeniably, its promoters have in mind an immediate relief for the Cattleman, and are imbued only with an honored principal and a good intent. 'Tis said tho, that hell is paved with good intentions, and if the usual long-time and tape and folderal are not dispensed with, so that there can be an immediate application of this \$200,000,000,—then it will have been only another case of the tooth stop aching when we reach the dental chair.

The advance has been gradual, but prices today on practically every class of cattle will average flat \$1.00 per cwt. higher than the zero time last fall—and who can deny that better times are coming to the Cattleman—Prom Royk.
