Woman Wounded In Scuffle With Sutton Officers

Jailbreaker Companion Sent Back To Waxahachie

A woman giving the name of May Kidd is in a San Angelo hospital suffering from gunshot wounds received Monday night in an encounter with Sheriff B. W. Hutcherson and Deputy C. W. Taylor of Sutton County on the Ozona-Sonora highway in which the woman and her companion, Bill Garrett, wanted in Waxahachie on a charge of robbery with firearms, were captured.

The Sutton County officers encountered the couple when they went to investigate an automobile that was wrecked and burned. A scuffle, in which four shots are said to have been fired, followed and the woman received a bullet wound in the left arm and chest. The arm bone near the shoulder was so badly shattered that hospital attendants announced that amputation might be necessary.

Sheriff W. S. Willis of Crockett County went to the scene at the request of the Sutton sheriff, arriving a few minutes after the shooting and capture. Sheriff Willis drove the wounded woman to Sonora for first aid and she was taken from there to San Angelo to the hospital.

Garrett, who broke jail at Waxahachie, was turned over to Waxahachie officers Tuesday by Sheriff Hutcherson. The woman is under guard in the hospital and will be sent there upon her recovery. Both were well armed when captured, the Sutton sheriff said.

Ozona Couple On Tour Following Wedding Sunday

Miss Mary Williams, Joe Clayton Wed At Austin

Mr. and Mrs. Joe Clayton are on a wedding trip to the East during which they will visit Washington, New York, points in Canada, and other sections of the United States before returning to Ozona to make their home.

Mrs. Clayton was Miss Mary Williams before her marriage to Mr. Clayton in Austin Sunday morning. The wedding took place in the University Methodist Church of the Texas capital city at 10:30 Sunday morning, the Rev. Edmund Heinsohn reading the nuptial rites.

Attending the services were Mrs. A. W. Clayton and Mrs. Charles Williams, mothers of the couple, an aunt of the bride, and a few university friends.

Mrs. Clayton was graduated from the Ozona High School last Spring, being valedictorian of the 1936 graduating class. She had enrolled at the University of Texas this fall. Mr. Clayton is associated with his mother and brother, Boyd Clayton, in the ranching business in this county. He is an ex-student of Schreiner Institute in Kerrville.

Woman's Club To Study Health In Meeting Tuesday

A study of Dr. Hans Zinsser's "Rats, Lice and History," will feature the health program of the Ozona Woman's Club scheduled for the first October meeting of the organization Tuesday afternoon at the home of Mrs. Stephen Perner. Mrs. George Montgomery will be assisting hostess.

The book by the eminent Harvard Medical School professor will be discussed by Mrs. Evart White, Mrs. W. R. Baggett and Mrs. Hillery Phillips.

Here Too—

Barnhart "Believe It or Not" Oddities Recall Wedding "Eights" To Ozonans

A story originating in Barnhart and appearing in the San Angelo paper recently concerning the wealth of oddities to be found in and about Barnhart has resulted in bringing to light in Ozona one that beats the "eleven" girl there.

The Barnhart story concerned Jane Simpson, now 7 years old, who was born at 11 minutes until 11, on the 11th day of the 11th month of the year.

In Ozona, it's the story of a wedding—the wedding of Mr. and Mrs. Bob Weaver. They were married at 8 p. m. on the 8th day of the 8th month of 1928; there were 8 guests at the wedding and in the wedding ring there were 8 diamonds. And, for shame, a year ago, it might have been added, it happened 8 years ago.

Cemetery Water Supply Problem Solved By Well

Flow Of 15 Gallons Per Minute Encountered By Drillers

A water well believed of sufficient capacity to take care of the need for many years to come was completed for the local cemetery last Friday by the drilling crew of Hugh Gray. The well was drilled atop the ridge south of the Mexican settlement to a depth of 376 feet.

Standard three-inch pipe was installed in the well to a depth of 368 feet, with a Cooke cylinder, and in a twelve-hour test, the well made 15 gallons per minute.

Arrangements for drilling and equipping the well are in the hands of a committee named by the Cemetery Association composed of W. R. Baggett, P. T. Robinson, N. W. Graham, Hugh Childress and A. C. Hoover. Hugh Gray, driller, donated \$100 toward the drilling fund and funds were solicited by the committee to finance the drilling operations.

The Cemetery Association will meet in regular quarterly session in the basement of the Methodist Church Monday evening, October 11, at 8 o'clock, it was announced yesterday by Mrs. Floyd Henderson, chairman of the association. (Continued on last page.)

Pontiac Dealer To Detroit Meeting To View 1938 Models

Lee Wilson, local Buick and Pontiac distributor, left Sunday for Detroit, Mich., where he will attend a national meeting of Pontiac dealers and salesmen to view the 1938 model Pontiacs, to be shown for the first time at this meeting.

The Pontiac dealer meeting got under way yesterday and will continue today. It will be the largest single gathering of sales representatives of one line of cars in automotive history. The meeting was switched from Pontiac, Mich., Pontiac manufacturing center, to Detroit, because the former city was not large enough to accommodate the visitors. Mr. Wilson will be back late this week or early next week, driving back one of the new model Pontiacs. Mrs. Wilson accompanied her husband to San Angelo where he boarded train. She will spend a few days this week visiting her sons who are students in Texas Military Institute in San Antonio.

BREAKS ANKLE BONE

M. Wilkinson, manager of the Ozona Hardware Co., suffered a broken ankle bone late last week when he fell on the sidewalk in the downtown area. Mr. Wilkinson was scuffling with a companion, lost his balance and in falling snapped a bone in the ankle.

Ozonan Elected President Zone Missionary Body

Mrs. Scott Peters Named At Big Lake; Mrs. Joe Pierce, Sec.-Tr.

Mrs. Scott Peters of Ozona was elected president and Mrs. Joe Pierce of this city secretary-treasurer of the Methodist Missionary Zone group for this area in fourth quarterly session in Big Lake yesterday. Mrs. H. G. Seccrest of Rankin was elected vice president.

The program committee named at the Big Lake meeting includes Mrs. R. O. White of Rankin, Mrs. N. W. Hickman of Big Lake, Mrs. A. B. Holley of McCamey and Mrs. Johnnie Henderson of Ozona.

A delegation of ten members of the Ozona Missionary Society attended the all-day meeting in Big Lake. The morning session was devoted to a discussion of "International Relations and World Peace" by Mrs. C. C. Sanders and of "The Future Missions" by Mrs. Frank Lindley, both of Big Lake. A study of the conference minutes was conducted by Mrs. E. W. LeFevre, president of the Big Lake Auxiliary.

After a delicious luncheon served in the women's building by the hostess auxiliary, afternoon session opened with a devotional led by the Rev. L. A. McDaniel. Mrs. Ralph Pembroke reviewed "The Return to Religion" by Henry C. Link. Officers were elected at the business session following the program.

The next regular meeting of the Zone group will be held in Rankin January 14, 1938.

San Angelo Artist To Exhibit Works In Showing Here

Mrs. W. T. Matlock of San Angelo is exhibiting a group of her paintings in Ozona today at the home of Mrs. Charles Williams. Calling hours are to be from 9 a. m. to 4 p. m. and all Ozonans interested are urged to visit the exhibit.

A well known San Angelo artist, Mrs. Matlock is showing a group of paintings done at Red River and Taos during the summer, and other works, some done in Chihuahua and others in this area. Approximately twenty-five paintings are included in the display.

Mrs. Matlock and Mrs. Jack Ransom arrived from San Angelo yesterday for a visit with Mrs. Ransom's brother and sister-in-law, Mr. and Mrs. Ralph Jones, on their ranch near Ozona. While on the Jones ranch, Mrs. Matlock plans to do some sketches.

Texas Livestock Shipments Reach New Record Mark

Aug. Movement More Than Double That Of Last Year

Austin, Oct. 6—Texas live stock shipments to the Fort Worth stock yards and interstate points continue at a rate which by comparison with past records is quite astonishing, it is shown by reports to the Bureau of Business Research of the University of Texas. Shipments during August totaled 7,973 cars, an increase of 124 per cent over August last year. For the year-to-date shipments aggregate 60,741 cars, compared with 38,958 cars during the corresponding period last year, an increase of 56 per cent.

Cattle shipments during August gained 121 per cent over August, 1936; calves, 112 per cent; sheep, 226 per cent; and hogs, 19 per cent.

"Feeding areas account for a

HITLER DOLLED UP

Dressed in a faultless uniform, Chancellor Adolph Hitler is greeted on his arrival at Nuremberg, Germany, to attend the National Socialist congress.

Safety In Home Object Of Red Cross Campaign

Local School Children Cooperate In Inspection Plan

A "home safety" drive, sponsored by the American Red Cross, is being conducted here this week through cooperation of the school children of Ozona. This is the third year of the national campaign waged by the Red Cross to cut down the home and farm accidents.

Students are cooperating in the campaign by checking hazards in their homes. Check lists were distributed this week among children of the grade school here and with the cooperation of their parents will make a thorough safety inspection of their own homes from cellar to attic. On the reverse side of the inspection form are listed farm work hazards which may be filled out for ranches.

The inspection forms deal with hazards of floor, stairs, porches, household appliances and equipment, tools, fires, trash, firearms, foodstuffs, poisons, garage and yard.

In 1936, Red Cross officials pointed out, home accident fatalities climbed to 38,500, surpassing even deaths from automobiles. In addition to the dead, 170,000 were permanently injured and more than 5,000,000 more were otherwise hurt.

Receives Notice Of Death Of Early Day Crockett Resident

Wife Of First County And Dist. Clerk Here Dies In Hawley, Texas

A newspaper clipping announcing the death of Mrs. Frank Olney, 69, at her home near Hawley, Texas, was received here yesterday by Mrs. W. E. West.

Mr. and Mrs. Olney were early day residents of Crockett County. Mr. Olney was the first county and district clerk of Crockett County, serving several terms in that office. They will be remembered by many local old timers.

Mrs. Olney died last Friday morning. Funeral services were held from the Hawley Baptist Church Saturday afternoon. Surviving are the husband and three children, two brothers, two sisters, 18 grandchildren and nine great grandchildren. The couple had one son when they lived here, Mrs. West recalled. A brother of Mrs. Olney was editor of the Sonora paper for a time and her father was a former Abilene newspaper publisher, and founder of the Taylor County News.

Mrs. Carl Dorley and young son, Dick, left recently for two-months visit with her parents in Bloomington, Ill.

Mexican, Negro Held Here On Rape Charges

Men Accused Of At- tacks On Young Girls Of Own Races

Two men, a Mexican and a negro, are being held in the county jail here this week on statutory rape charges growing out of alleged attacks on a young Mexican and negro girl.

Basilisa Samiguel, Mexican, is in jail in default of \$500 bond fixed by Justice of the Peace J. T. Glover following a preliminary hearing on the charge Monday. Samiguel is charged with an attack on an 11-year-old Mexican girl.

Al Berguson, cook in a local cafe, faces a similar charge in connection with an attack on a 13-year-old negro girl. He was scheduled for preliminary hearing in justice court this morning.

BRIEF NEWS

ARTERY SEVERED

Mrs. M. C. Couch suffered a severe cut on her wrist yesterday while cutting meat in the market department of the Couch grocery. An artery in the wrist was severed and she bled profusely. Tendons in the wrist, however, were not severed. Several stitches were required to close the wound.

Mrs. Charles E. Davidson, Jr., returned to her home here yesterday after spending a week in San Angelo hospital receiving treatment.

PRESIDING ELDER TO PREACH SUNDAY EVENING

Dr. L. U. Spellman, Presiding Elder of the San Angelo District of the Methodist Church, will preach at the local church this Sunday evening and hold the final quarterly conference of the year. Members and friends of the church are cordially invited to this service.

Mr. and Mrs. F. G. Hardin and three children have moved from Ozona and will make their home in Marfa. Mr. Hardin is in government trapping service near Marfa.

CIRCUS IS HERE

Seal Bros. Circus pitched tents in Ozona this morning for a showing this afternoon and night. A big street parade at noon today announced the circus arrival.

Repairs and alterations are being made this week on awnings of two business buildings owned here by Mrs. W. E. Smith. They are buildings housing the C. G. Morrison Co. and Dr. H. B. Tandy's offices.

BUYS HEIGHTS LOTS

A deal was closed last week where Dr. H. B. Tandy became the owner of 13 acres of land on the Heights hill here, purchased from Howard B. Cox of San Angelo. Dr. and Mrs. Tandy plan to build a new home on the plot in the near future.

ADOPT INFANT SON

Mr. and Mrs. T. A. Kincaid, Jr., will go to San Angelo Monday to bring back their adopted son, an infant whom they have named Tommy Lee. The child is being given a series of physical tests and a routine of feeding established to insure his health when he is placed in the hands of his new parents.

NEGRO CHARGED

Charley Chase, negro, formerly employed on the Chas. E. Davidson ranch, faces a charge of swindling in justice court here. Chase is accused of purchasing merchandise at a local store on his employer's account without authority.

OZONA-SONORA RULES ROOST AS CHAMPIONS

Two-Town Club Smother Iraan In Series Finale

SCORE IS 16 TO 4

Fifth And Deciding Game Turns Out A Track Meet

The third time proved the charm, and the good year 1937 brought a Permian Basin championship to a team representing Ozona after two previous starts had seen the coveted flag floating from another standard at the conclusion of the championship series.

The Ozona-Sonora combined team wound up the 1937 season with a brilliant exhibition of power to smother the Iraan Oilers under a 16 to 4 score on the Sonora diamond Sunday afternoon, taking the third victory of the five-game series and the West Texas baseball title.

The count stood at two all in games won up to the season and series finale Sunday afternoon. Strengthened with the return of Carl Dorley to the first base slot and the injured Fats Heatherly again acting as the infield spark-plug at second base, and with Lefty White, the only member of the local hurling staff who has consistently stopped the Iraan slugging crew in series games, in the finest trim of the season, the Ozona-Sonora combination went wild with the stick to literally swamp the oil field nine under a deluge of base blows and tallies.

Riot In Third

Ringling up a pair of scores in the first frame and two more in the second, the two-town aggregation really went to work in the third and after the dust had cleared from the race track in that inning, the score board showed a total of eleven runs had crossed the plate in that chucker, sixteen men had batted, seven had hit safely, four had walked, one had been hit by a pitched ball, one was safe on an error, and two were left on bases in the final accounting.

Although all but winded from the third inning carnage, in which three Iraan pitchers stepped in to (Continued on last page.)

DEALER TO VIEW NEW CHEVROLETS OCT. 4

Joe North of North Motor Co., local Chevrolet and Oldsmobile dealers, will leave next week for Dallas to attend a zone meeting October 14 of Chevrolet dealers and salesmen to view the 1938 model Chevrolet cars. The '38 models are to be announced and placed on display October 23 throughout the nation.

Flowers Enters Ranch Business; Leases 8 Sects.

Former Grocery Oper- ator Takes Part Baggett Ranch

Richard Flowers, who operated a grocery business here for many years until selling out recently to Hubert Baker, has gone into the ranch business.

Mr. Flowers has leased eight sections of the W. R. Baggett ranch north of Ozona and has purchased 1600 head of ewe lambs from Ele and Fred Hagelstein. The lambs were delivered to the place recently, being driven from the Hagelstein ranch to the south of Ozona. The eight sections leased by Mr. Flowers lies on the east side of the Baggett ranch.

JAPANESE TERRORISM

Japan's bombing of the principal Chinese cities from the air, bringing death to thousands of dollars worth of damage, reveals military terrorism at its worst.

If China had given Japan any occasion for the present attack, there might have been some inclination to excuse the terroristic methods of the invaders...

The eminent Harvard professor who formerly spent many nights in the White House and talked with the President by phone almost daily, is now said to have remained away from Washington for seven months...

Both her unjustified invasion and her terroristic rain of death on civilians are giving Japan a bad name among the nations.

DISCARDED PROPHETS

One by one, the able and more independent advisers of President Roosevelt drop out of the White House, to be replaced by more pliable men who will merely listen and say yes.

COUNTY LINE INN Ernest Sparkman, Mgr. Will be Closed Sundays Get Your Gas and Oil and Other Accessories On Saturdays

Practical Cookery

Dept. Home of Economics
Texas State College for Women

Denton, Oct. 6.—Vegetables are usually the stepchildren of a meal, since it is so easy to cook them all the same way and seemingly so hard to achieve variety. But with a little effort they can be made into the chief dishes of any occasion.

The secret lies in adapting a method of cooking to the particular vegetable at hand. Too many otherwise successful cooks will stick all vegetables in a pan with some water and boil them.

Potatoes lend themselves readily to baking in their own skins, and the use of utensils with close-fitting lids is successful for boiling such vegetables as young beets. Beets and carrots can also be prepared by cooking in live steam.

Cabbage and onions may be boiled in a small amount of water in an uncovered utensil for the shortest possible time, thus conserving the color, texture and nutritive value.

Escaloped Potatoes with Corn

(6 to 8 servings) Pare and slice medium sized potatoes. Arrange in alternating layers with 1 can (2½ cups) corn in large greased baking dish. Sprinkle with 1 t. salt and ¼ t. paprika. Dot with 1 T. butter. Pour ½ c milk over top. Bake in moderately hot oven until well done.

Fried Egg Plant

Pare an egg plant and cut in ¼ inch slices. Beat 1 egg slightly; add 2 T. milk and 1 t. salt. Dip egg plant in egg mixture and then in bread crumbs or cornmeal (about 1 c.). Cook in small amount of hot fat, about 5 to 7 minutes for each side, until browned and thoroughly cooked. Serve on hot platter and garnish with parsley.

Spanish String Beans

(6 small servings) Put 1 quart very tender snapped beans into baking dish. Mix 1 T. finely chopped onion, 1 T. finely chopped parsley, 1 t. salt, and ¼ t. pepper and spread over beans. Pour in one can tomato soup. Lay 6 small slices bacon over top. Bake in moderate oven until beans are done and bacon is browned.

Rice Cooked with Milk

(6 servings) Bring 2 cups water to boiling in top of double boiler. Wash 1 cup rice and add slowly to boiling water. Stir gently with fork until most of water has been absorbed. Stir 2 cups milk in. Cover and cook over hot water until rice is tender and liquid is absorbed. The salt may be added to the water or may be sprinkled over the rice just before serving.

Know Texas

News Bureau
Texas State College for Women

Bat Paradise

Denton, Oct. 6.—Even the best of huntsmen may not know of the unusual laws tucked away in the state game regulations of Texas. Among the "don'ts" one finds that it is unlawful to kill or injure a bat, presumably because these birds are so destructive to harmful bugs and insects.

Deer hunters must remember not to use any sort of deer call except deer horns, which may be rattled. Nor can one hunt at just any hour during the season; between sunset and sunrise the huntsmen must forbear shooting at any game animal. Game animals which must not be killed at any time are turkey hens, doe deer, fawn or spike buck.

Prey of Texas Hunters

For conversational purposes non hunters may be interested in knowing just what kind of game lures their fellow Texans to the chase. Listed as game animals are deer, elk, antelope, wild sheep, bear and squirrels. Among the game birds are turkeys, ducks, geese, brant, grouse, prairie chickens, pheasants, quail or partridge, wild pigeons, doves, snipes, chachalaca, plover and shore birds of all varieties.

Fur-bearing animals, on which a tax must be paid, include badger, civet cat, fox, mink, muskrat, opossum, polecat, skunk, raccoon, beaver and ringtail cat.

August Auto Sales Up Slightly Over Same Month Of '36

Austin, Sept. 29.—According to the Bureau of Business Research of the University of Texas, reports of passenger car registrations from fifteen representative Texas counties show total sales of 6,987 cars during August, a decline of 3.4 per cent from July, but an increase of 7.1 per cent

over August last year. Aggregate sales for the year-to-date in those fifteen counties were 50,233 cars, a decrease of 2.6 per cent from the corresponding period last year.

"It appears significant that while in the lowest and highest price groups decreased moderately from August last year, sales in the two intermediate price groups increased sharply," the Bureau's analysis said.

CAMPUS DISCIPLINE

Discipline is a word of many meanings. You don't necessarily have to be in the army to know what discipline is. We use it every day, sometimes unconsciously. The word can even be stretched to mean courtesy, in a way.

Schools use discipline just as much as the army, except that it is used in a different way.

During school hours we use discipline in the class rooms. Our teachers teach it to us. We learn to obey our teachers as if they were the sternest of army generals, except that we do it in a way of courtesy.

In the hallways between classes we use discipline toward our class mates. We are taught not to shove each other at the drinking fountain. Nor do we shoulder some one out of the way when going down the hall. That is discipline, or courtesy, whichever way you want to put it.

The point is, we learn just as much about order and discipline in the school, as the soldier learns in the army. We may not salute our teachers everytime one walks by. We probably never think of clicking our heels together when an upperclassman walks into the room. But we do treat them with courtesy in the way of discipline.

Discipline is used on the football field, on the playground, in the gymnasium, even on the streets. It is very seldom that we notice it, but it is there just the same.

HABITS

By Christine Curry

"Character is found in the torrents of life. He who listlessly drifts with the tide, yielding to every appetite or passion, will very soon dash a broken wreck on the rocks of failure. Lurk unseen in the river of life."

Your character is built around the habits that you start when you are young. If those habits are good, you will desire to develop your best talents and climb toward a successful career. It is necessary to have good health habits as well as good habits that will develop a strong character.

Drinking a habit common among men, not only ruins the health but often it destroys the possibilities of ones becoming a successful man as well.

Christopher Marlowe, who lived during the age of Queen Elizabeth of England, was a great dramatist. At the age of twenty-nine he had written four remarkable dramas. But Marlowe had early developed a taste for intoxicating drinks, and at twenty-nine he was killed in a drunken brawl in a tavern of England. When Marlowe's name is mentioned today, we think of his horrible death that resulted from his drinking habit, along with the greatness of his plays and poetry.

On the other hand we find William Shakespeare, who was born in the same year as Marlowe, and who, at the age of twenty-nine, had accomplished much in the field of drama. Both men had the

same chance in life; both men had unusual talent in the same art. Marlowe did not overcome his drinking habit, and as a result, his great works ceased when he was still young. Shakespeare's works continued. He is credited with many more great dramas.

This same thing is happening in our own day. A man may start in life with unusual talent and with a chance to develop that talent, but he may let a bad habit grow on him so long that, although his life may not sink to the lowest pit, he has not been fair to himself when he has not used his talents as much as possible.

"The chains of habit are generally too small to be felt until too strong to be broken."

BIG LAKE TRIMS OZONA

By John Coates

The Ozona Lions took a 26 to 0 defeat at the hands of the Big Lake Owls in Big Lake Saturday.

The Owls scored early in the first period on a lateral. Whitney's place-kick was good, and the score 7-0 in favor of the Owls.

In the beginning of the second quarter Leath caught the Big Lake kick on his own 10 yard line, and lateralled to Montgomery, who in turn lateralled to Perner, who ran to Big Lake's 5 yard stripe before he stumbled and fell. Due to offense and a fumble Ozona lost the ball without a score. The half ended with Big Lake 7 Ozona 0.

During the second half Big Lake made three touchdowns to make a grand total of 26-0 in favor of Big Lake.

The Lion's offense worked like a clock at times. With a little more polishing the Lions should do better on next Saturday when they engage the Junction boys in the first Conference tussle of the year.

THE CLASS ROOM

The Civic Class has been studying the creation of the United States Government, and of how the U. S. broke away from England.

They have studied the Constitution of the United States, its formation, Articles of the Confederation, and the reasons it was at first unsatisfactory.

The Continental Congress and Declaration of Independence have also been discussed.

The class is now beginning a study of the Federal System of Government.

HAVE YOU READ THIS?

"The movie actor's life is a nightmare of boredom. I have preserved my sanity only because most pictures are finished within a couple of months, and then there is an interval.

The average movie actor rises about seven, breakfasts in a hurry, and dashes to get to the studio by 8:30. He then makes up and dons costume, while the assistant director and his emissaries urge him to hurry. The moment he is there, nobody wants him any more."

Says who? Says Leslie Howard, famous actor of both stage and screen, and hence, competent to speak on the subject. It will be found under the title "My Movie Lot is Not a Happy One," Reader's Digest for September, 1937, in Ozona High School library.

NOT A FORWARD PASS

"Jack was the goal of my ambition, but alas!"
 "What happened, dear?"
 "Father kicked the goal."

ASSEMBLY PROGRAM

"Unconscious Either" a burlesque radio program, was given by the Freshman class, on Thursday, Sept. 30, at the regular assembly.

The broadcast to end all broadcasts consisted of a chart murder mystery, short talks, and other numbers, including a bed time story.

Freshmen appearing on the program were Bobby Lemmons, Peggy Hardin, Elton Smith, Gordon Rendall, Billy Joe West, Etta Lee Harrison, Jayme Chapman, Carl Thurman, and Jesse Hancock.

JUNIOR HIGH BALL TEAM

Last Monday, Sept. 26, Iraan Jr. High met Ozona Junior High on the Powell Field. Iraan was victorious by a score of 14 to 0. The game will be returned at Iraan Monday, Oct. 11.

Monday, October 4, we traveled to Sonora to play the Sonora Junior High.

LIBRARY NEWS

Our library is quite adequately equipped with good magazines, which are all read thoroughly. Placed on our library shelves monthly are the following magazines: The American Boy, Field and Stream, American Girl, National Geographic, The Digest, Nature, American, Popular Mechanics, Current History, Reader's Digest, and Hygeia.

We take also two of the state's best known papers. They are the Dallas News and the Fort Worth Star Telegram.

LOOK FOR NEW BOOKS

The library report for 1936 by the Southern Association of Schools showed that our school had 1,740 volumes. During last year there were 134 volumes added, which brought our total to 1,874. There is an average of \$150 spent each year on library books.

Among new books for 1937, which will arrive October 15, will be numerous fiction books as "Smoky the Cow Horse" by James, "The Virginian" by Wester, and "Ruckaroo" by Hesh. Under biography there will be such books as "20 Years with the Hull House" by Jane Adams, and "My Life with the Eskimo" by Stefansson. In the field of miscellaneous prose you might expect "Old Louisiana" by Saxon, "The Correct Thing" (A book for boys) by Stevenson, and "Everyday Manners," by Wilson.

THE PROWLER

By Maurice Lemmons

Everyone that went to Big Lake on the school bus seemed to have a good time, particularly Jake M. and his fellow men.

Haskell L. is tickled to death because now he can comb his hair. You really can't tell it, but don't tell him.

Did any of you ever go on a wild goose chase? If you would like to, ask Ora Louise C. to take you for an enjoyable ride. (Be sure and have an aspirin or two ready at the end.)

Who were all those boys making so much fuss on last Sunday night at the south end of the public square?

We wonder if the love bug bit William Beecher M. If it didn't I wonder what kind did.

Mary Bess P. and Emogene D. weren't doing so badly last Sunday night. Wonder where they found the two boys?

"Who are all the good looking boys in the back of the school bus?" was the question of some of the Big Lake's Pep Squad. So, girls, you see somebody appreciates us.

THE PARTS OF SPEECH

A noun is the name of anything. As house, garden, hoop, or swing. Instead of nouns the pronouns stand.

Her head, your face, his arm, my hand.

Adjectives tell the kind of noun. As great, small, pretty, white, or brown.

Verbs tell something to be done. As read, count, sing, laugh, or run.

How things are done the adverbs tell. As slowly, quickly, poorly, well.

Conjunctions join the words together. As men and women, wind or weather.

The preposition stands before a noun. As in a city, or through a town.

The interjection shows surprise. As Oh, how pretty; ah! how wise.

The whole are called eight parts of speech. Which reading, writing, speaking teach.

KINDERGARTEN NEWS

The kindergarten has some new rhythm band instruments. The children are very much interested in trying them out. They are going to have a cowboy band.

Ann Harvick's chuck box is finished, and the ranch house furniture is getting painted.

FIRST GRADE NEWS

The First Grade Town is progressing nicely. All of the business houses are completed, and this week the children have bought lots and built homes for the residence streets.

Arthur Runion is still ill, but we hope that he will soon be able to come to school.

All of the first grade enjoyed a party last Tuesday afternoon, honoring Jane Augustine's seventh birthday.

SECOND GRADE NEWS

The Second Grade sews this week.

We are making Indian suits. They are made of sacks. We paint original designs on the cloth. Then we cut out the suit and sew it. We make fringe. Billy Hoover has finished his.

Mrs. Weaver, Sarah Louis's mother, and Walter, her brother, visited our room Thursday afternoon.

THIRD GRADE NEWS

The third grade had a surprise on September 17. When we returned from the gymnasium, we found our reading table decorated with a beautiful lace cloth and flowers, and in the center of it a big cake with candles. It was Benny Gail's birthday, and Mrs. Phillips brought us cake and ice cream to celebrate. We were quite glad that Benny Gail had a birthday.

We made a farm book today. Charles Snyder made a garage; Buddy Russell is making a barn. We are making animals. We have a windmill on our farm.

Buddy Russell is making a barn. Charles Snyder has finished the garage, and Benny Gail is making a two-story house.

Myrtastine Hokit came back to school Monday. We were glad to see her back again.

The Eastern Star is giving a party. Muggins Davidson and Dick Lee McDonald are going to do their Mexican dance.

—Jo Nell Coose.

We are studying about Mr. Brown's farm. We have made a word book. We are studying hard on our farm.

We are reading about Billy Boy on the farm. We are enjoying Billy Boy's book.

—Myrtastine Hokit.

THINGS THE 4TH GRADE ARE DOING

By Nan Tandy

The fourth grade is studying about Indians. We have a table with many Indian things on it. We have many Indian drawings on the blackboard. We have a big picture of an Indian picking a waterlily. Our reading book is all about Indians. We have many Indian books in our library. We are reading an Indian book about a little Indian girl named Bah, and a little white boy named Billy. We like our Indian things very much.

4TH GRADE FOOTBALL TEAM

By Jimmy Read

We have a good football team this year. There are nineteen boys in the third and fourth grades. Perry Hubbard and James Chapman are the captains for this week. We work out at recess and at noon. Some of the outstanding players are James Chapman, Chappie Morrison, and Arthur Byrd Phillips.

FIFTH GRADE NEWS

Jim Ad Harvick was elected to write the fifth grade news for the paper.

Louise Jenkins is a new pupil, who has come in since school started. We are glad to have her.

We have been working on a play for Friday afternoon. Some of us are better at writing parts, and some of us are better at acting.

CAMPUS PHILOSOPHY

By Mickey Couch

Anger wrecks nerves and later becomes a chronic disease.

Next time you get real good and angry go to the looking glass.

Men and pins are useless when they lose their heads.

Throw rocks at the world, and the world will throw rocks back at you.

WORDS WE MISPRONOUNCE

Bouquet; boo-kay, not bo-kay.
 Ce-ment, not cem-ent.
 Chauffeur; sho-fer, not sho-fore.
 Chef; sheff, not cheff.
 Corps; cor, not corpse.
 Com-pa-ra-ble, not com-par-able.

WHY?

Why must we come to school?
 Why must we abide by rules?
 Why must we keep out of the halls?

Why can't we receive telephone calls?
 Why must we be quiet in the library?

Why can't we walk to school with the boys?
 Why can't we have any joy?

Why does Miss Mildred call us children?
 Why must we study things that happened before our time?

Why must we report on books we have never read?
 Who knows?
 Nobody.

PICK-UPS

No Siree

"They won't make a bricklayer out of me," said the hen as she rolled the porcelain egg out of her nest.

WHEN?

Mr. Nelson: "When was the revival of learning?"
 Harold K.: "Just before exams"

NAMES OF INDIANS

Ruth Townsend - 4th Grade

Some of the Indians have very funny names as you no doubt know.

The names were given to the children by their mothers. This is done by the mother's going into the tent and closing her eyes and coming out again and opening them. What ever she sees is what the baby is named. Like Sitting Bull, if she sees a bull sitting down and she would name him Crazy Horse if she saw a horse acting very crazy. Wolfe Robe and Red Cloud were some of the names of the Indian chiefs.

INDIAN HOMES

By Daphne Meinecke - 4th Grade

There are many kinds of Indian homes. There is a long house, and it is real long and has twenty rooms. It had five fire places and four families cook on one fire place.

The tepee is so small that the Indians that live in tepees have a certain place to keep their things.

The winter home was made of

skins and is round and warm.

The Pueblo houses are made of clay, straw, ashes, mixed together and called adobe. They have ladders that go up on top of the house and when an enemy is near they go up on top of the house and they pull the ladders up too. I have learned a lot of things I didn't know about Indians.

MOVING CAMP

Dorothy Garrison - 4th Grade

The Indians were sitting in council. All of a sudden they heard the yelling of an enemy. The chief rose and all the people were quiet. He said we must leave at once an enemy is near. The women and children began to pack and get the horses and dogs ready for the trip. Then they must put the food where it would be ready when they stopped for the night.

The men choose the scouts. The scouts must be brave and strong. They packed the skins on the bottom and used these to put the other things on. If you should see an Indian moving you would laugh. Sometimes the Indians strapped the children on top of the other things. When they stopped for the night they would build fires around the camp so the enemy could not see them. There were many dangers for the tribes that moved.

INDIAN DANCES

By Joyce West - 4th Grade

The Indians have many queer dances, some of the dances are rain dances, bird dances, and snake dances. There are many others too. The sun dance is one of the worst dances. When the Indians do this dance they cut their arms and legs, and paint themselves yellow. The snake dance is done with bull snakes, the Indians put the snakes in their mouth and around their necks and arms.

When the Indians do the bird dance they climb a tall pole and hang by their feet, they are lowered very slowly. The rain dance is a dance to bring rain.

INDIAN CANOES

By Arthur Phillips - 4th Grade

The Indians had several kinds of boats and these were bull boats, birch bark canoes, and dugout canoes. Bull boats were used to go across the river or lakes. They were not used to make long journeys because they were round. Birch bark canoes were used to go on long journeys because they were long, narrow and light. A dugout canoe is the hardest kind of boat to make. It was made by burning the tree down and cutting the branches and leaves off. Some of the dugout canoes could hold seventy people.

Before Cold Weather There's Just Time Left To Install Your Gas Systems

Underwriters Approved Butane
 Gas Plants

For those crisp mornings and evenings with the Fall chill, a gas fire is most convenient and comfortable. Burn it as long as it's needed and turn it out - no fuss, no trouble, lower fuel costs.

You can keep your home as comfortable as summer time all through the coldest days of winter at no extra cost with gas. It's economical, it's convenient, it's clean, it's healthful.

"Just a Little Better Service"

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. Address inquiries to Will H. Mayes, Austin, Texas.

Q. What place is known as "The Shrine of Texas Patriotism?"

A. The Alamo at San Antonio, because the chapel that still stands was a part of the battleground in which all of its brave defenders suffered death on March 6, 1836, rather than surrender.

Q. What brought about the ceding of Louisiana by Spain to the French?

A. The French and Indian War started in this country in 1754, was in fact a fight between France and England for the possession of America, which spread to Europe and in which France lost. Rather than for England to get the Louisiana territory France ceded it to Spain in 1762.

Q. Was the Guadalupe River ever navigated to Victoria?

A. Letters and bills of lading are extant showing that the steam boat "Frog" was operated between Victoria and Victoria in 1844.

Q. Was Garner, Parker County, named for Vice-President Garner?

A. The village postoffice was named for Ab Bumgarner, one of the first settlers, using only the last syllable of the name.

Q. What was the first Federal fort established on Texas soil?

A. Fort Marcy, near Corpus Christi, erected in 1846 by Gen. Zachary Taylor and named for William L. Marcy, Secretary of State under President Pierce. It was used by the Federal army on its invasion of Mexico.

Q. What sport fish attracts most fishermen to the Gulf coast of Texas?

A. Silver king tarpons, some weighing as much as 150 pounds, found plentifully in season along most of the Texas coast, attract sportsmen from all over the world. They are the champion warriors of the fish world and put up great fights, racing, leaping and diving in the line until exhausted. The large-mouthed black bass is another much prized game fish.

Q. How did the Rio Grande make its way across the Rocky Mountains?

A. Though all other streams rising west of the Rocky mountains empty their waters into the Pacific the Rio Grande, which starts at about the same meridian as the Colorado of the West, turns south for several hundred miles, and then makes its way through the great chasms in the Big Bend section of Texas that evidently were made by great upheavals thousands of years ago.

Q. What evidence do scientists give for the belief that the Big Bend country was once covered by sea waters?

A. Bones of sea animals of gigantic size have been uncovered, scientists concluding that they were left there by receding waters several thousand years ago. This is characteristic of the entire range of mountains in West Texas.

Q. How long ago were caves in the mountain sides of the Big Bend section inhabited by human beings?

A. Baskets found in some of these caves are said by anthropologists to have been made by the ancient Basket Makers, who disappeared three or four thousand years before the advent of Indians known to the present races of white man.

Q. What name did Pineda give Matagorda Bay on his map of the Texas coast?

A. La Bahía del Espíritu del Santo.

Q. Where is the newly acquired Huntsville State Park?

A. About five miles south of Huntsville on the Houston-Dallas highway and adjoining the Sam Houston National Forest, 2,044 acres of rolling timbered land has been acquired for a state park, the principal early development of which is to be a 200-acre lake impounded by an earth dam.

Q. What official report led immediately to the establishment of the San Saba presidio or fort?

A. In February, 1776, Don Bernardo de Miranda, who had been sent to investigate many rumors as to the richness of the Almagre (red hematite or ochre) mines made such a sanguine report to Gov. Don Jacinto de Barrios at San Fernando (San Antonio) that the presidio known as San Luis de las Amarillas was established on the San Saba near the present town of Menard, while the government still had under consideration a proposal from Miranda to finance the operation of the mines.

Q. What place did Dr. H. E. Bolton identify as the mine referred to in Miranda's report?

A. In 1907, Dr. Bolton using a copy of Miranda's report, identified the Boyd shaft in Llano County near Honey Creek as the mine opened by Miranda. Enough credence was placed in this to cause the purchase of some 1,700 acres there by a mining company, but nothing more resulted.

NOT I, SAYS JOHN

New York.—John, youngest child of President and Mrs. Franklin D. Roosevelt, arriving home from Europe, took advantage of the opportunity to deny again that he had squirted champagne in the face of the mayor of Cannes, France, and hit him over the head with a bouquet, during the annual "battle of flowers." "It must have been two other fellows. I've never met the mayor," he reiterated. His engagement was announced to Miss Anne Lindsay Clark, of Boston.

Q. Why have searchers for the "Lost Spanish Mines" attached more importance to the Menard section than to the "Miranda Cave"?

A. They believe that the authorities at Mexico City had the most authentic information as to the location of the mines, and for that reason established the presidio near Menard in order to protect their claims and mining operations there.

Q. How old was there a story of "Seven Cities of Gold" before Cabeza de Vaca related a very similar story to the Spaniards he met on the Pacific Coast?

A. Somewhat similar stories or legends were old in Europe long before Columbus discovered America. It is not known whether Indians related such a story to de Vaca or whether it was a vivid creature of his imagination. It may have been an admixture of both, growing as de Vaca's wanderings to the west extended.

Q. How was Coronado's report of his unsuccessful expedition received?

A. On his return to Mexico City in 1542, when he submitted his report, the people refused to believe him, although Casteneda, the expedition historian, stated that all that was found of riches was "a place in which to search for them."

Q. When was Rice Institute, Houston first opened, and with how many students?

A. Rice Institute's first session was begun Sept. 23, 1912, with 75 students.

Importance Disease Prevention Stressed In Nation's Health

"In the last thirty-five years great strides have been made in

Advertisement for Otis L. Parris, Optometrist & Optician, 5 W. Beauregard, Dial 5006. Includes text: "With school opening soon it is important that the children's eyes be examined. With proper light and proper glasses they should have little trouble."

applied and preventive medicine. Never have mass controls for the prevention of disease and the medical and surgical treatment for illness been so highly developed as today. Unfortunately, however, the significance of this forward movement is not yet generally appreciated by the average individual. Though science, by way of the family physician, stands ready to preserve individual health, personal indifference, self diagnosis and self-treatment represent barriers to the helpfulness available in the doctor's office," states Dr. Geo. W. Cox, State Health Officer.

"Unfortunately, the vast majority of people still consider their doctor merely as an emergency aid. So long as they are well or are not conscious of any physical impairment, they imagine a physician's services are not required. Moreover, there are many who,

even though ill, permit themselves or their friends to diagnose the trouble and prescribe some bottled or tablet medicine for the supposed condition. For this group, interest in the family doctor only becomes acute when the self-prescribed remedies fail to cope with the situation. It can be frankly said that thousands upon thousands of men and women become desperately ill or lose their lives because of this misconception of the doctor's limitations or because of an unjustified self-reliance to meet sickness conditions themselves.

"The family physician can not fulfill his whole duty to the public until his dual function is appreciated and the services for which he is so eminently qualified to perform are promptly applied. It must be understood that personal health is just that. It can

not be entirely delegated to public health doctors, sanitary engineers and research laboratory workers. And personal health means first, the prevention of disease or its early discovery; and second, the cure of an existing illness.

87 SPEED RECORDS BROKEN TO MAKE TIRES SAFER FOR YOU

Never Before Have Tires Been Put to Such Gruelling Torture

AT SPEEDS as high as 180 miles an hour — with the hot, coarse, abrasive salt grading, tearing, scorching his tires — Ab Jenkins' special racer, weighing nearly three tons, pounded over the Bonneville Salt Beds last week at such terrific speed that it caused the surface to break up. Before the end of the run the track was so pitted and rough that it was almost impossible to hold the car on its course. Yet Jenkins set 87 new World, International and American speed records on Firestone Tires.

Building tires capable of establishing such records is made possible only because of patented Firestone manufacturing processes. These exclusive features enable Firestone to provide car owners with tires that are extra safe.

For the greatest protection of yourself and your family equip your car with Firestone TRIPLE-SAFE Tires. By TRIPLE-SAFE we mean —

- 1 PROTECTION AGAINST SKIDDING — The scientific tread design gives longer non-skid mileage and stops your car up to 25% quicker.
2 PROTECTION AGAINST BLOWOUTS — Firestone Tires run up to 28 degrees cooler because every fiber of every cord in every ply is saturated with liquid rubber by the Firestone patented Gum-Dipping process. This counteracts the internal friction and heat that ordinarily cause blowouts.
3 PROTECTION AGAINST PUNCTURES — Two extra layers of Gum-Dipped cords under the tread add strength to the tire and give extra protection against punctures.

Now is the time to make your car tire-safe for fall and winter driving. Join the Firestone SAVE A LIFE Campaign today by equipping your car with a set of new FIRESTONE TRIPLE-SAFE Tires—the safest tires that money can buy!

Ab Jenkins, World's Safest Driver, Establishes 87 New Records for Safety, Speed, Mileage and Endurance. He Drove 3,774 Miles in 24 Hours on the Sharp Granite-like Surface of the Bonneville Salt Bed at Average Speed of 157.37 Miles an Hour

Table with Firestone tire prices. Columns: Size, Price. Rows include High Speed Tire and Heavy Duty tires.

YOU CANNOT AFFORD TO DRIVE WITHOUT FIRESTONE TRIPLE-SAFE TIRES

Last year highway accidents cost the lives of more than 38,000 men, women and children and a million more were injured! More than 40,000 of these deaths and injuries were caused directly by punctures, blowouts and skidding due to smooth, worn, unsafe tires!

Mexican Program, Barbecue Given By Local OES Chapter

The local chapter of Eastern Star entertained their husbands and Masons and their wives with a Mexican barbecue supper on the lawn of the Joe Davidson home late last week.

Little Muggins Davidson and Dick Lee McDonald, and Miss Merle Draper, also in Mexican costume, gave Mexican dance numbers.

MRS. BROWN IS BRIDGE HOSTESS

Mrs. Melvin Brown was hostess at bridge at her home here Saturday afternoon. High score prize for the day went to Mrs. Jake Short, while table cut prizes were drawn by Mrs. Roy Henderson.

MRS. CHILDRESS HONOURED AT BRIDGE

Mrs. Pecos Childress, Jr., a recent bride, was complimented at a bridge party given the last of the week by Mrs. Bill Conklin.

THE BOX SCORE

Table with 2 columns: Team and Score. Includes teams like Brown, Childress, and others with their respective scores.

OZONA SONORA

(Continued from page 1)

"Throw him and Jack," the Ozona team first, in the fourth to push over the wall another run for a total of seven, after which they continued through their next four times at bat.

After two were down in the opening frame, Mangold was safe on Finney's error. Dorley was safe on Finney's error and Stuart and K. McLeod singled in turn to score two runs. Ratliff going out in the second to score the side.

Page Hits Homer

Each counted three in the third when Jack Page, pitcher, cracked out a home run between left and center field. Barbee singled and went to second on Stutz' error in the fourth to score and Barbee scored when Dorley overthrew third in trying to knock him off at the base.

The big moment for Ozona and Sonora fans, especially those who want to know the previous Sonora and whether the cooperative game was from the grandstand witness of that old time metropolitan, came in the third frame. To start that run, Stuart, first up, drew a walk. Marvin McLeod was safe when Dorley dropped the ball to back of short, which could have been scored a hit. Ratliff advanced half runners with a sacrifice bunt and then Weaver advanced out a double to score both runners.

ed the tension with a single to score two more, then Mangold and Dorley walked to fill the bags. Stuart, coming up the second time in the inning was safe on another miscue by Finney and then runners began flashing across the plate with clock-like regularity as Marvin McLeod, Ratliff, Weaver and White singled in order and Cox walked. Eleven runs were scored in the inning.

Another score was chalked up in the fourth Mangold, first up singled, Dorley forced Mangold at second, Marvin McLeod was safe on the second baseman's error and Ratliff singled to score Dorley.

Not only did Lefty White pitch a splendid ball game for the champions, but, teamed with Bob Weaver, set the pace in hitting. Weaver and White each cracked out three safe ones, Weaver getting two hits, a single and a double in that fateful third. In that inning, White was hit by a pitched ball the first time up and singled the second. Mangold, Marvin McLeod and Ratliff got to each and Stuart and Heatherly one each.

Table with 2 columns: Team and Score. Includes teams like Brown, Childress, and others with their respective scores.

Cemetery Water

(Continued from page 1)

At this meeting plans for equipping the well with windmill and piping water to the concrete tank on the east side of the burial plot will be discussed, and the question of whether the present shallow tank of the cemetery shall be used in piping the water equipment or an independent well-hole made for the necessary additional funds, will be discussed, Mrs. Henderson said.

The second well to supply water for the cemetery grounds was made necessary through the failure of the existing well on the east side of the plot, drilled a few years ago. This well, when drilled, tested only four gallons per minute and has since weakened. It is impossible to pump the well with an engine, but it is thought that the new well is of ample capacity to permit pumping it with an engine when windmill pump-

ing is found inadequate. It is estimated that approximately \$2,000 will be necessary to set up a windmill and pipe water to the tank. A complete report on the project will be given at the meeting of the association Monday evening.

Texas Livestock-

large part of the increased demand for Texas live stock, although substantial increases in shipments were also made to the major markets," the Bureau's report said. "To illustrate, 48,000 head of sheep were destined to Illinois feeding areas, compared with none during August last year; 43,000 head of sheep were destined for Iowa, against less than 6,000 head last year. Similarly cattle shipments to these areas increased fourfold and tenfold respectively. Increases to Missouri, Indiana, and Kansas were almost as striking.

"With the shortage of live stock in a number of northwestern range states and the huge increases in feed crops in the corn belt, compared with recent drought years, the demand for Texas cattle and sheep should continue strong for many months. It is this fact which gives solid ground for optimism concerning agricultural income in this state during the coming months."

FOUR GRANDCHILDREN ATTENDING COLLEGES

Mrs. Mary Perner, pioneer Ozonan, counts four of her grandchildren who are this year attending college. Max Schneemann, Jr., at Texas Tech in Lubbock, Billy Saggitt at A. & M. College, Bob Perner Murchison at Texas Military Institute in San Antonio and Phillip Perner, son of Ross Perner of Snowflake, Ariz., attending college in California, are the Ozonan's grandchildren seeking higher educations.

MRS. KINCAID IS BRIDGE CLUB HOSTESS

Mrs. T. A. Kincaid, Jr., was hostess to members of her contract club Tuesday afternoon. High score prize for the games went to Mrs. Evert White, and Mrs. J. O. Lushy drew second high. Other guests were Mrs. Massie West, Mrs. W. E. Friend, Jr., Mrs. Jake Young, Mrs. Sherman Taylor, Mrs. Jake Short, Mrs. Lowell Littleton, Mrs. J. A. Brashear, Miss Wayne Augustine and Miss Louise Henderson.

Mrs. C. W. Richards, whose husband is employed on the Mc Bros. deep test on the Perry ranch in this county, has as guest this week her mother, Maude Leach of Oklahoma City.

band is employed on the Mc Bros. deep test on the Perry ranch in this county, has as guest this week her mother, Maude Leach of Oklahoma City.

Folks Are Funny

Some people get tired when they see others work.

OASES

Humble service stations are oases of Texas highways for the traveler by car. They even look the part—these neat oases, that bright work shops, wherever it's possible there's a well kept little town, cozy with shade and flowers. They're equipped to make your stop as comfortable and make all comfortable. Restrooms are spacious, there's free ice water for yourself, free air and water for your car and the attendant are provided. Service is prompt, helpful, friendly—products are second to none. Next time you make a trip by car, stop for service where you see the Humble sign.
