HOUSE TRAILERS

Owners of House Trailers are advised that it is now necessary to secure a Certificate of Title on these vehicles the same as for motor vehicles. Uunder H. B. No. 286 recently passed by the Legislature the term "House Trailer" means a vehicle without automotive power designed for human habitation and for carrying persons and property upon its own structure and for be ing drawn by a motor vehicle.

The same type of Title will be issued on House Trailers as is now issued on motor vehicles except that the words "House Trailer" will appear under the Title number.

The 1 percent tax, collected on motor vehicles, will not be collected on House Trailers.

House Trailers MUST BE REGISTERED at the time application for Title is filed, and House Trailers now registered should apply for Title.

To register and secure Certificate of Title to a House Trailer owner must present manufacturer's certificate or bill of sale, serial number of the trailer, its weight and make On homemade House Trailers the owner should execute an Affidavit of Ownership for Homemade House Trailers.

If House Trailer does not have serial number an application for assignment of a serial number must be made for which a charge of \$1 will be made.

Career Woman!

MEET the greatest career woman of all! She doesn't manage a business, write novels, paint portraits, or sing over the radio. But her job's big and it's important-she runs a home!

What a job that is! In a year she washes more than 6 tons of dishes, cooks more than 1,000 meals, wades through mountains of laundry, trundles her vacuum cleaner across acres and acres of rugs!

The more Mom depends on electric service, the less work is in her housework. And how little electric service costs! A penny's worth a day will rescue Mom from the drudgery of dishwashing. A few more pennies will cook her meals. Electricity will help her wash and iron for less weekly than the cost of a bar of soap.

And when Mom balances her budget. she's bound to note that electricity is one of its smallest items. Actually, the average family now gets twice as much electricity for its money as it did about 20 years ago. This bargain comes to Mom - and to you, too-through the practical experience of your friends and neighbors in this company, under sound local businessmanagement.
