Ozonans Buy Suffolk Sheep In Auction

A group of Ozona ranchmen were on hand in San Angelo last Friday at the Fields and Johnson auction sale of Suffolk sheep and bought back a number of the black face ewes and rams offered. Philip Lee Childress bought 5 registered yearling ewes at \$95, four 2's at \$90, four ewe lambs at \$85, five ram lambs at \$90, and 1 stud ram at \$175. Earle Chandler bought 3 yearling rams at \$85, five at \$90, five at \$125, ten ram lambs at \$91 and ten ram lambs at \$85. Joe T. Davidson bought pens of five, six and ten yearling ewes at \$105, \$100 and \$90. Abe Caruthers bought a stud ram lamb at \$350. Pleas Childress bought a \$260 stud ram, one at \$185 and six at \$82.50. Roy Henderson was one of the largest purchasers of rams, taking pens of ten at \$90, five at \$70, ten at \$75, five at \$85, five at \$90, 7 at \$85, six at \$90, ten at \$95, seven at \$87.50, and six at \$80. W. E.

Friend, Jr., bought five ram lambs at \$80. T. A. Kincaid, Jr., five rams at \$95. Joe Clayton bought twelve rams at \$85, twenty-two at \$95 and twenty at \$82.50. Troy Williams took 12 ram lambs at \$80

Immunization Has Lowered Diphtheria Incidence In Texas

AUSTIN. — Education of the public to the value of diphtheria immunization has resulted in lowering the incidence of this dread disease, but Texas still had over 1500 cases of this preventable disease last year according to records in the Texas State Department of Health.

"It is a generally accepted fact among public health authorities, Dr. Geo. W. Cox, State Health Officer, said, "that any community may control its death rate from diphtheria. Immunization has been proved a safe and effective preventive measure. Wherever immunizing treatment has been extensively used diphtheria has steadily decreased.

"The most forceful weapon in the control of diphtheria is prevention through immunization, rather than cure of the disease after it has developed. Children can be protected against diphtheria by the use of what is known as toxoid. Young children are particularly susceptible to the disease. Accordingly, as soon as a baby is six months old, the parents are advised to take it to the family physician and have it immunized—protected, by the use of toxoid. Older children in the family who have not had the protective treatment, should be immunized also, and this should be attended to now before the school season begins. This immunizing agent is absolutely safe to administer; there is only a slight local reaction, and practically no constitutional or troublesome after effects. It confers a life time immunity in the majority of cases. To be certain that immunization is complete, however, the child should be taken back to the physician six months after the toxoid was administered, and given the Schick Test.

Wide Use Of DDT Found Successful

COLLEGE STATION, Aug. — Flies and DDT don't get along together. H. M. Fitzhugh, Glascock county agent, says three new power spraying machines were bought by local ranchmen in as many weeks, and were put to work as soon as they were delivered. Everything on the ranches that could be sprayed was sprayed—cattle, sheep, horses, barns and other buildings. J. C. Bryans reported that he hasn't seen a fly on his animals in 10 days. His sheep graze without having to huddle up to fight flies and his lambs are putting on weight since he sprayed, in spite of dry weather.

Ranchmen of Winkler county, according to Roy L. Peden, county agent, are spraying with DDT "whenever they get a herd together."

Last year Jess Moseley of Hudspeth county had a few screw worm cases on calves and while he had them up for treatment, he sprayed with DDT as well. Then, says County Agent C. M. Knight, he put the calves and their mothers in a trap for a few days. On the third day he noticed that there were no horn flies on the calves or on the cows. Control lasted three weeks. Now many local ranchmen are spraying about a fourth of the cows in each herd.

And Brewster county agent Frank N. Newsom reports that a thousand sheep were treated with a six-tenths per cent wettable DDT powder spray at shearing time in early April; he checked the flock in June and July and the lambs were free of sheep ticks on both occasions.

Miss Mary Riddle, deaconess at the local Latin-American Center, will have charge of the morning service at the Ozona Methodist Church. The topic for Miss Riddle's talk will be "The Implications of Modern Missions."

OZONA FIRE DEPT. VOTED MEMBER HILL COUNTRY ASSN.

Ozona's Colunteer Fire Department was voted to membership in the Hill Country Firemen's Association when the association held its convention in Ballinger last week. A. W. Saunders, local chief, has been notified.

FOR SALE — Girl's bicycle. Inquire at Stockman office.

Contest Winner "Brands" His Prize

A pioneer of the auto industry, hunted throughout the nation in a contest to discover the oldest Chevrolet truck in America, turned up, appropriately, in the possession of a Montana homesteader. The venerable vehicle, vintage of 1918, was still serving Rancher Leslie A. Storey, of Jordan, Mont., whose ranch lies 18 miles from a typical "last frontier" town. The award for owning the oldest licensed and operating truck was a new Chevrolet "advance-design" model, which Storey "brands" with his distinctive Circle Heart brand. It was presented to him by J. W. Burke, manager of Chevrolet's truck department, as Mrs. Storey and Montana rancher, Mr. Spears (right) look on. Nearly 7,000 old-time Chevrolet trucks were entered in the contest won by this vehicle, which was one of 384 built by the division in 1918 in its first year of truck production.

Regan Boasts Better Qualified To Serve In Representative Post

The 10th Congressional District race for Congress went into the stretch late this week as one of the hottest fights for the Washington assignment seen in this district for years.

Mr. amiable 54-year-old Ken Regan, who prides himself on his background in oil, farming, ranching and public affairs, was one of the principal contenders for the congressional post. A resident of Pecos for 24 years, he now lives in Midland.

Regan is basing his campaign on the contention that he is more qualified to represent all interests and sections of the district than any other candidate.

He points out that at 54 he is old enough to give mature repre-

sentation but young enough for energetic and capable follow-through.

He says he is the only one of the seven candidates with experience in Washington. He calls attention to his performance in making the Red Bluff Dam a reality.

He argues that he is the only candidate with experience in more than one field. While most of his time during 27 years in West Texas has been spent drilling wildcats, he also owns substantial property which he leases for farming and and grazing. He marketed the first carloads of Pecos canteloupes in New York City in 1931.

He cites his record in Austin, where he served as state senator for four years, put through the senate 70 of the 700 bills passed by the legislature during the first year of his term, got action on a refund to farmers of \$500,000 due

them for several years for payments on a fumigation tax, who was elected president of the state senate as the first Texas man senator ever to be given honor. He is proud that the legislation he sponsored in the senate on behalf of West Texas was ever opposed by a senator from East Texas.

DANCE HONORS NEWLYWEDS

Honoring five newlywed couples, Mr. and Mrs. Phil Schneemann, Mr. and Mrs. Montgomery, Miss Sug Owens, Max Schneemann entertained a dance at the courthouse Tuesday evening. The honored couples were Mr. and Mrs. Roy Coates, Mr. and Mrs. John Robert Scott of Hereford, Mr. and Mrs. N. E. Smith of Big Lake and Mr. and Mrs. Roy Williams.

ELECT
Ken Regan
To
CONGRESS

- Regan is the only candidate who has a record of achievements in Washington
- He is the only candidate whose experience extends to more than one field.
- He knows oil, farming, ranching and public affairs.
- A former mayor of Pecos with a distinguished record in the state senate.
- A life-long democrat and a veteran of both world wars.
- At 54, he is old enough to give mature representation but young enough for energetic and capable follow through.
- Ken Regan can do more for all interests and sections of West Texas than any other candidate.

General Wainwright Retire August 31

Fort Sam Houston, Texas — General Jonathan M. Wainwright, fourth Army Commander, will be honored at formal ceremonies here August 31, the General's last day of duty on the active list of the army. The hero of Bataan and Iwo Jima retires to civilian life after more than forty-five years of service, and will make his home in San Antonio.

Units from Fort Sam Houston and Camp Hood will stage a parade and review at 3 o'clock the afternoon of August 31 and a contingent of 100th Air Force planes will join the salute to General Wainwright as they fly low before the reviewing stand on Artur MacArthur Field. Distinguished military and civilian leaders from the Fourth Army area will participate in the ceremonies. The public is invited to attend the parade and review and plans being made to accommodate the large crowd that is expected to assemble to pay their respects to the popular World War II hero.

200 To Be Added to Texas Highway Patrol

AUSTIN, — The Department of Public Safety is now accepting applications from qualified young men to fill the 200 additions to the Texas Highway Patrol made possible under new appropriations voted by the recent Legislature.

Examinations will be given sometime in September, Director Homer Garrison said. The first of four schools of 50 men each will begin about Dec. 1.

"We are already receiving a lot of applications," Garrison said, "but many of the applicants cannot qualify. Our standards are high, as they necessarily must be."

Garrison said prospective Patrolmen must be between 21 and 35 years old, not less than five feet eight inches in height, weigh not less than two nor more than three pounds for each inch of height, and be in perfect physical condition.

Carbon paper for all purposes at the Stockman office.

SAMPLE BALLOT

Special Election To Be Held Saturday, August 23

FOR CONGRESSMAN, 16th Congressional District:

- KEN REGAN, Midland, Texas
- ORD GARY, El Paso, Texas
- WOODROW WILSON BEAN, Ysleta, Texas
- PAT HARGROVE, El Paso, Texas
- JAMES W. METCALFE, Odessa, Texas
- LOUIS A. FAIL, El Paso, Texas
- VICTOR E. GILBERT, El Paso, Texas

FOR the amendment to Article VII of the Constitution of the State of Texas, adding Sections 17 and 18 providing for the levying of a state ad valorem tax on property in lieu of the present state ad valorem tax of Seven (7c) Cents for Confederate pensions in order to create special funds necessary for the payment of Confederate pensions and for the financing of the construction and equipment of buildings and other permanent improvements at state institutions of higher learning, in the amounts of Two (2c) Cents and Five (5c) Cents respectively; providing for a Five Cent reduction of the maximum allowable state tax on property, making such tax not to exceed Thirty (30c) Cents on the One Hundred (\$100.00) Dollars valuation; providing a method of payment for the construction and equipment of improvements and buildings at the Agricultural and Mechanical College of Texas and The University of Texas.

AGAINST the amendment to Article VII of the Constitution of the State of Texas, adding Sections 17 and 18 providing for the levying of a state ad valorem tax on property in lieu of the present state ad valorem tax of Seven (7c) Cent for Confederate pensions in order to create special funds necessary for the payment of Confederate pensions and for the financing of the construction and equipment of buildings and other permanent improvements at state institutions of higher learning in the amounts of Two (2c) Cents and Five (5c) Cents respectively; providing for a Five (5c) Cents reduction of the maximum allowable state tax on property, making such tax not to exceed Thirty (30c) Cents on the One Hundred (\$100.00) Dollars valuation; providing a method of payment for the construction and equipment of improvements and buildings at the Agricultural and Mechanical College of Texas and The University of Texas.

WEEKLY SWING OF SOUTHWEST FARM MARKETS

(USDA) — Most farm products sold steady to strong last week, but many weak spots developed in livestock and vegetable markets, according to the Production and Marketing Administration, U. S. Department of Agriculture.

Grain markets showed more settled tendencies last week. Wheat and barley changed very little, while corn and oats made slight gains, and sorghums closed a little higher after some fluctuation. Varying weather conditions in the corn belt affected the daily market on feed grains, and more new crop Texas corn was sold.

Alfalfa hay found active demand at higher prices, but prairie hay turned heavy purchases.

Wool buyers slowed activities in order to inventory recent heavy purchases.

Most steers, yearlings, and heifers sold strong to \$1 or more higher at Denver and Oklahoma City last week, but grassers fell as much as 50 cents at the latter market, and yearlings weakened at San Antonio. Cows sold lower at Houston, Denver, and San Antonio while calves and stocker classes went at steady to lower levels at San Antonio, Wichita, and Denver. Good cows brought \$14 to \$15 at Houston and San Antonio, and \$15.50 to \$18 at other southwest terminals.

Sheep and lambs moved at strong to sharply higher prices at Fort Worth last week, but spring lambs showed some weakness at Oklahoma City and Denver, and feeder lambs and goats fell at San Antonio. Medium to good spring lambs brought \$18 to \$19.50 at San Antonio, and \$20 to \$23.50 at Fort Worth and Wichita.

Dunlap Family Reunion Held At A. C. Hoover Ranch

Approximately eighty members of the Dunlap family were present for the annual Thomas Jefferson Dunlap reunion held last week at the A. C. Hoover ranch. Representatives from all families of the children of Mrs. D. B. Dunlap and the late Mr. Dunlap were present with the exception of one, Mrs. D. B. Dunlap of Ozona, now 88

years old was able to attend and thoroughly enjoy the reunion. There are more than 200 members of the Dunlap family and the first reunion was held about 15 years ago. The gatherings were abandoned three years during the war, this year's being the twelfth to be held. Former reunions have been held at Eanes Park near Comanche, Moving pictures taken of last year's reunion were shown this year and the visitors were treated to camp meals at the Hoover ranch.

WHY long distance lines are so busy

Long distance telephones are carrying a heavier traffic load today than even in wartime. Business men in search of merchandise, manufacturers and builders in need of equipment, naturally use the telephone as the quickest way to reach suppliers. Our long distance lines are still overloaded, so telephone "traffic jams" occur. If you have a few minutes' wait when calling long distance, please be patient. Today, as always, telephones carry a lot of important business.

NEIGHBORHOOD TURNS OUT FOR ROCKY... In the Seventh street-Second avenue area of New York, Rocky Graziano is the local boy who made good by winning the middleweight championship of the world from Tony Zale, even if the New York boxing commission doesn't admit it.

BOYCE HOUSE "GIVES YOU TEXAS" People are always writing, phoning or dropping by to ask advice about a book they are planning to

write. Almost without exception, only recipe is hard work, which is they are seeking a short cut, a magic formula whereby one can get ahead in writing. Their faces fall when they are told that the

Hard work plus patience. For example, "Cub Reporter" is based on experiences and observations of this chronicler while breaking into the newspaper game back in 1916, and the two years which followed.

The idea of writing the book came about 1927. My mother had written a letter from Memphis.

Tenn., and enclosed clippings telling of the death of C. P. J. Mooney editor of the Commercial Appeal. After the work of getting out the Eastland Daily Oil Belt News was done I sat at my desk, slowly read the clippings and then mused as twilight descended. The determination came to write a book about Mr. Mooney, my first editor, and the glorious crew of reporters of "the old C. A."

Years went by. Slowly, subconsciously, the project took form. Frequently, I thought of the undertaking but it had not matured. This, like the aging of certain beverages in the wood, is a process that can not be hastened. There is no substitute for time, its sifting, its mellowing, its hallowing.

One day, a pen was dipped into ink and the writing began. The slower method of pen-and-ink gave a thought, a scene, an individual the full chance to unfold; it is the details which make

a man or an event come to life on paper.

Nearly 50,000 words in ink—then revision, then typing it off on the machine, with changes of words, adding of touches as the task went along—and task it was, slow and hard.

And so "Cub Reported" was written—30 years after the happenings had taken place 20 years after the idea of writing the book was born.

The whole project was done without a thought of whether the book would sell a single copy. It was something I had to do—something I wanted to do, a tribute to the memory of a great man, a salute to the forever perished days of glorious youth.

GET MORE for your old tire PAY LESS for your new tire get the tire that OUTWEARS PREWAR TIRES

WHILE most everything else has gone up, one important product has stemmed the tide of rising prices. Tires. And B. F. Goodrich was the first tire maker to bring you these savings below prewar levels. But price is only the first of many ways B. F. Goodrich tires cut your costs. You get more mileage than you've ever known before from the new, wider road level tread that runs flush-to-the-road giving the tire more road contact, equalizing the strain, reducing wear. You get more safety from costly accidents because greater road contact means more rubber to grip and stop. And the scalloped, tooth-edged ribs fight side-slip and skidding. Finer, sturdier cords and more of them add strength to the cord body to resist damage from pounding and the danger of blowouts. On top of this, you can get a big allowance for your present worn tires. For instance, your old tire and \$12.95 will buy you a new 6.00-16 Silvertown that outwears prewar tires. \$1.50 DOWN—\$1.25 A WEEK PUTS A NEW 6.00-16 B. F. GOODRICH SILVERTOWN ON YOUR CAR

Season For Hunting In Tex.

LEGE STATION. — Open season for duck hunting in Texas will be from November 17 and December 16 to December 29, according to the Cooperative Wildlife Research Unit and the Texas A. & M. Department of fish and game. New regulations of the Department of the Interior, states that a certain north-south line be chosen to choose either a season of 14 days each and Texas open the later. The hunting season and limits have been reduced in order to stem the noticeable decline in waterfowl which has occurred during the past three years, according to the Secretary of the

Interior, who states: "If the sport of wildfowling is to continue, we must regulate the take to less than the season's increase."

Texas, in the Central Flyway, with birds coming from the Canadian and Alaskan breeding grounds is better off than eastern states, the breeding grounds for which are in unfavorable condition.

Daily shooting hours for waterfowl have been reduced to the period from sunrise to one hour before sunset, with hunting not permitted before noon on the opening day of each split season. The duck bag limit has been reduced to four a day, with eight in possession. The daily bag limit for geese or brant in Texas is also four, with only one Canadian or one white-fronted goose.

Chapman-McDonald Nuptials Announced

Announcements have been received by friends here of the marriage of Miss Edna Gail Chapman, daughter of Mr. and Mrs. W. A. M. Chapman of Amarillo, and Charles Eugene McDonald, son of Mr. and Mrs. Bryan McDonald of Canyon, former Ozona residents.

The wedding took place in Amarillo on Saturday, July 5. The couple will make their home for the present in Canyon but with the opening of schools in the fall will move to Idalou, Texas, where Charles will be athletic coach in the Idalou High School. He is at present attending a coaching school in Oklahoma City.

Young McDonald, who recently graduated from West Texas State Teachers College at Canyon, is a grandson of Mrs. Charles E. Davidson, Sr., and the late Judge Davidson of Ozona. He was graduated from Ozona High School and attended George Washington University in Washington, D. C. for one year, returning to enter West Texas when the McDonald family moved from Ozona to Canyon.

Mrs. Welton Bunger, Jr., and daughter, Janis Ann, are here from Houston visiting with Mr. and Mrs. Welton Bunger, Sr., while Welton, Jr., is on temporary duty at the U. S. Marine Corps officers camp at Camp Lejeune, North Carolina for a two weeks training period.

R. J. Cooke's Children Gather For Reunion On His 70th Birthday

R. J. Cooke, pioneer Ozona market operator and inventor of the famous Cooke barbecue house, was 70 years old last Saturday and Sunday his six children and sixteen of his grand children gathered for a family reunion in observance of the birthday.

Present for the reunion were

Mr. and Mrs. Green Cooke and five children, Marshall, Doris, Bobby, Betty and Peggy, of Sanderson; Mrs. Jack Sawyer and three sons, Jack, Glenn and Johnny Lee, of Uvalde; Mrs. Virgil Oden and two children, Billy Ray and Jo Nell, of Uvalde; Mr. and Mrs. Edgar Schwartz, Lucy Ann and Lewis Cooke, of Boerne; Mr. and Mrs. Maurice Black, and Dixie and Buddy, of Iraan; and Mr. and Mrs. Cleophas Cooke, Cecilia and Bob, of Ozona.

Mrs. Evart White, official delegate from the Woman's Society of Christian Service here, and Rev. and Mrs. Horace M. King, and Miss Mary Kiddle are in Kerrville this week attending the Methodist School of Missions in session at the Methodist encampment grounds. Rev. King will also attend a meeting of the Conference Board of Missions and meet with the executive committee of the Conference Town and Country Commission during the week.

MAYBE it's travel you want—in exotic foreign lands. Or thrilling adventure along new frontiers in electronics, aviation, medical science. Perhaps the chance to learn a useful, modern skill.

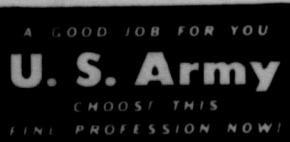

If you are 18 to 34 (17 with parents' consent) and otherwise qualified, you can get them all in the Regular Army. Yes, it's true: only 3 out of 5 applicants are good enough to make it. That means you'll serve your country with an outfit you can be proud of.

Study the pay chart below. That pay is clear. You don't pay a cent for food, lodging, clothing. Sound good? Then—get the full facts today at your nearest U. S. Army Recruiting Station.

NEW, HIGHER PAY FOR ARMY MEN

	Starting Base Pay Per Month	MONTHLY RETIREMENT INCOME AFTER: 20 Years' 30 Years' Service
Master Sergeant or First Sergeant	\$165.00	\$107.25 \$185.63
Technical Sergeant	135.00	87.75 151.88

COST OF LIVING!

ELECTRICITY HASN'T GONE UP

It takes a lot of dollars these days to buy most of the items covered in the family budget—food, clothing, housing, etc. Spent for electric service, your dollars actually go further than before. This is true in spite of the fact that costs of operation and maintenance have gone up and up with almost everything else, except the hire of money.

Living costs continue to increase, yet the average cost of a kilowatt hour of service to residential customers has decreased 32.6 per cent since 1933.

West Texas Utilities Company

New Regulations

(Continued from Page One)

shall be fined in any sum not exceeding \$200."

A new article was added to the law requiring the new owner of a secondhand vehicle to file application for transfer of title and registration within 10 days of the date of transfer with the county tax assessor-collector of the county in which the transferee resides. The new owner required to file the current year registration certificate and the properly assigned certificate of title as his application for transfer of title and a fee of 50 cents is required for transfer of license in addition to the current fee required for transfer of title.

The tax assessor-collector is required to collect a penalty of \$5, in addition to other fees, from any person who fails to file such application within the required 10 days and the law holds the tax

assessor-collector and his bondsmen liable for such fees.

Livestock Shipments Decline In June

AUSTIN. — Livestock shipments in Texas slid below May figures during June but remained far above June 1946 levels. The University of Texas Bureau of Business Research reported.

Total shipments sagged 19 per cent from May to June, but May had seen accelerated activity in sheep marketings, and the decline was an expected one. June shipments totaled 10,083 carloads for an 8 per cent gain over June 1946 loadings.

Cattle shipments slid 27 per cent from May June, shipments of calves sagged 6 per cent, and hog shipments plunged lower by 28 per cent. Only gain during the month was the 10 per cent hike in shipments of sheep.

The June-to-June comparison

reverses the monthly trend, as cattle, calves and hogs saw increased shipments and sheep felt a 21 per cent decline.

Callery To Drill New Test On Todd

F. A. Callery of Fort Worth and others made application for a permit to drill its No. 8 J. S. Todd estate in the Todd Ellenburger field, 30 miles northwest of Ozona. The new test will be drilled to 5,500 feet with rotary to start at once and will be 660 feet from the south, 1,980 feet from the west line of section 66-UV-GC&SF. It will be 1,320 feet east of Callery No. 5 and the same distance south of the No. 6 J. S. Todd, both producers.

Humble No. 1 Ethel C. Smith estate, diagonal northeast offset to Humble No. 1 Mrs. Grady Mitcham of San Angelo, most northeasterly of two recent Ellenburger discoveries in northeastern Crockett County, was filling up the hole to drill out and try to straighten. The hole was clogged from 185 to 205 feet and the test had reached a total depth of 280 feet in lime. Location is 660 feet out of the southwest corner of section 1, BS-&F survey.

The Texas Co. No. 1-U University, slanted 9,500-foot wildcat C NW NW 22-40-U, half mile south of the Irion County line, had reached 7,800 feet in shale.

New Traffic Code Clips Wings Of Fire Apparatus Chasers

Texas's newly enacted traffic code which goes into effect September 5, levies a stiff fine on motorists who interfere with fire apparatus on a fire call. Fire Chief Alan Saunders pointed out this week after receiving a copy of the code section on the subject.

The code prohibits any persons operating a motor vehicle from following a piece of fire fighting apparatus traveling to a fire nearer to such equipment than 500 feet. Parking closer than a block away from the site of a fire is also prohibited by the code. Violations of either of these provisions may result in a heavy fine.

The law specifies that a motorist who crosses over an unprotected fire hose stretched across or into a street may be fined not less than \$1 nor more than \$200 for such violation.

New Traffic Law Just Good Sense Garrison Says

By Col. Homer Garrison, Director Department of Public Safety

There is no reason why anyone should be confused by the new traffic safety law that goes into effect Sept. 5. The law itself is long and legal-sounding, but it boils down to good, sound horse-sense.

We're just getting rid of the old regulations, passed back in 1917 in the Model T days, and bringing them up to date. Ninety per cent of the things required by the new law are already being done by the average good driver—and the other ten per cent are things he knows he ought to be doing but isn't.

In the fewest possible words, here are the highlights of the Uniform Traffic Code, as the law is called:

People walking are required to cross streets and highways at designated cross-walks where these are provided; to use sidewalks where they can, or to walk facing the traffic, on the left side of the road, where there is no sidewalk. A pedestrian in a cross-walk has the right-of-way over all vehicles. These are the first real pedestrian regulations we have ever had in Texas, and the observance of them will keep a lot of people from "walking themselves to death."

Drivers are required to stay on the right side of the road, with certain sensible exceptions; dangerous maneuvers in passing are outlawed; right-of-way rules are set out; teeth are put into the stop-sign law; the safe manner of making turns and stops is designated, and uniform hand-and-arm signals are required for these maneuvers.

Following radiator-to-bumper is forbidden, and so is racing trains to crossings. Parking on a highway is outlawed except when vehicle is out of order and can't be moved. Drivers are required to dim their lights 500 feet from an approaching vehicle at night.

One part of the law that will make it rough on deliberately dangerous drivers is the new reckless driving clause. As it is now, a man can drive recklessly without violating any specific law, such as speeding, and the officers can't do anything with him. But under this new clause the reckless driver has a special noose to stick his head into.

The code requires every vehicle to have good lights and brakes and a horn. Trucks and busses must also have mechanical signalling devices when they are so built that hand- and-arm signals can't readily be seen.

Anyone who has a highway accident must stop and identify himself, give any help that is needed, and immediately notify the nearest Highway Patrol or Sheriff's office. The driver must also make a written report to the Department of Public Safety within 24 hours if anyone is killed or hurt or if damage amounts to \$25 or more.

These accident reports are very important. They are confidential, and are not used to get evidence against a driver, but to help us figure out where and when and why accidents are happening, so that whatever is necessary can be done to prevent future accidents—whether the remedy be engineering, education, or enforcement.

All traffic control signs and signals put up hereafter by any city or county or the State Highway Department will have to be like those used in most other states. This is to make it so that a person driving from one city to another, or from one state to another, can find his way around without being confused.

These are the briefest possible highlights of the law. Another article later will discuss some of the major details.

Agent H. M. Fitzhugh. The man received prices for his stock which showed him that he had cut his flock down to 186 ewes.

During the winter of 1945 he fed some 20 bales of alfalfa hay and six sacks of cake to 186 ewes, which produced a 10 per cent lamb crop this last year and summer. His first lamb was born on March 7, and on July 1 he sold 87 lambs which averaged an average of 76.3 pounds. The lambs which weighed around 64 pounds each, and he still has 33 lambs on the ewes.

It's Stocking Rate That Counts Say Ranch Operators

COLLEGE STATION. — Temp Carter, ranchman, of Garden City, Glasscock County, has found out that it's not always the number of sheep a man owns that determines how much money he puts in the bank. It's the stocking rate that counts.

In 1945-46, Carter ran 350 ewes on 2 1/2 sections of land, explains Glasscock County Agricultural Office Supplies—Stockman Office
