## STATE MEN TO SELECT SITE FOR MEMORIAL

### Sculptor, Architect To Visit Ozona In Next Few Days

## STATE SUPERVISED CENTENNIAL DIVISION TO LET CONTRACT FOR MONUMENT TO HERO

Selection of a sculptor and architect for the construction of a memorial to David Crockett, to be located in Ozona, has been made by the State Board of Control and these men, together with John V. Singleton, chief of the Centennial Division, Board of Control, will visit Ozona within the next few days to confer with the Commissioners Court and citizens regarding the memorial.

Allocation of \$7,500 for the construction of such a memorial was made recently by the Centennial Commission. In a letter to Judge E. Davidson of Ozona this week, Mr. Singleton advised that William McVey of Houston had been selected as sculptor and Donald Nelson of Austin the architect on the local project.

Although the division chief, in his letter to the local judge, did not specifically mention the type of memorial to be constructed, but Judge Davidson inferred from the letter that some type of statue is contemplated. The contract for construction of the memorial will be made, let and supervised by the State Board of Control through the Centennial Division, Mr. Singleton informed.

"We will very shortly have Mr. McVey and Mr. Nelson make a trip to Ozona and meet with your Court and with the committee of citizens there and a suitable location will be selected, and of course it will be necessary for the Commissioners Court to agree to maintain the site in a suitable manner after the monument is erected," Mr. Singleton wrote.

"I am giving you this information so that you will know just how the matter will be handled. Of course, when a design is actually worked out by the architect and the sculptor, we will be very glad to submit the design to your committee as we do in most cases, not that it is a requirement at all, but we are attempting to please the citizens where the memorial is to be placed. I am sending a copy of this letter to Miss Wanda Watson, who had written also in regard to this matter.

"I will notify you with in the next few days just when we expect to make the trip to Ozona so that you can have your Court and committee there when we arrive."

It was largely through the efforts of Judge Davidson, Miss Watson and Representative Coke, R. Stevenson of Junction that the allocation of this fund was made to Crockett County, originally by Mr. Stevenson. Judge Davidson took the matter up with the Commissioners Court and interested citizens and suggestions were sought as to type of memorial which would be most desired by the local citizenship. Something useful to the community rather than a monument or statue was suggested and information was sought as to such privilege. Full particulars will be available as to the possibilities of the project when the state officials arrive for a conference with the court and interested citizens.

## OZONANS TO SCOUT POSTS

Victor Pierce and Ira Carson of Ozona were elected to membership on the board of the Concho Valley Council, Boy Scouts of America, at the annual Council banquet in San Angelo last Friday night. Mr. Pierce was elected a vice president, and Mr. Carson a member at large.

## 10-County Police Radio Broadcast System Proposed

### San Angelo Asks Neighboring Counties To Join Expanded Service

The Crockett County Commissioners Court will consider at its next meeting a proposal from the city of San Angelo that this county share in the service of a Police Broadcasting Station expansion program now being considered by city officials there.

The San Angelo police department hopes to broaden its present radio service to include the territory to a distance of 175 miles in every direction from San Angelo by stepping up the power of the station from its present capacity of 50 watts to 500 watts. By making use of the facilities, adjoining counties, by equipping law officers with receiving sets, could form a network of police activity that would be of considerable service to citizens of the territory in minimizing criminal activities, it was pointed out.

The matter was presented to County Judge Charles E. Davidson on a recent visit by City Manager C. W. Meadows and other city officials of San Angelo to Ozona, and complete details of the proposal was sent Judge Davidson this week by letter for transmission to the Commissioners Court at its next meeting.

The city hopes to enlist the aid of ten counties in the enlargement program, at an approximate cost to each county of \$100. Maintenance cost was estimated at \$50 a year per county. Receiving sets can be purchased for \$50 each, a suggestion being made that a police car and headquarters office of the law be equipped with the sets. Counties already enrolled in the program, according to Mr. Meadows, are Tom Green, Sutton, Reagan, Pecos, and Irion. In addition, Schleicher County has indicated its willingness to join.

## Miss Fussell Is Re-Elected Head Of Woman's Club

### Second Term Awarded To Office; Other Officers Named

Miss Elizabeth Fussell was re-elected president of the Ozona Woman's Club at the annual meeting of that organization held Tuesday afternoon at the home of Mrs. A. C. Hoover.

Miss Fussell was selected to serve a second term as head of the club. Her work during the past year in directing activities of the group won high praise from the membership when her name was placed in nomination for a second term in the office.

Other officers elected were Mrs. Joe Oberkamp, first vice president; Mrs. J. W. Henderson, second vice president; Mrs. A. E. Deland, recording secretary; Mrs. George Bean, recording secretary; Mrs. B. B. Ingham, treasurer; Mrs. W. E. West, historian; and Mrs. Carl Colwick, parliamentarian and critic.

The English lesson for the day was directed by Mrs. Leslie Phillips and Mrs. B. B. Ingham. Mrs. A. E. Deland assisted Mrs. Hoover as hostess.

Members present were Mrs. W. R. Baggett, Mrs. Bert Couch, Mrs. N. W. Graham, Miss Fussell, Mrs. Stephen Perner, Mrs. George Bean, Mrs. Carl Colwick, Mrs. Deland, Mrs. B. B. Ingham, Mrs. Leslie Phillips, Mrs. A. C. Hoover, and Mrs. Ira Carson. Visitors included Miss Wanda Watson, Miss Mona Draper of Gatesville and Mrs. Clyde Childers.

## BOY TO CARPENTERS

Mr. and Mrs. Bill Carpenter are the parents of a son born Friday, January 21.

## NEXT MONDAY LAST DAY FOR PAYING POLL TAX; DEADLINE FOR CURRENT PROPERTY TAX

### Less Than Half Expected Total Paid Up; 3 Days Left

Only three more days remain in which to pay poll taxes, to secure exemptions and to pay property taxes without penalties.

This was the warning issued this week from the local tax collector's office as the period draws to a rapid close. The middle of this week found less than half the expected total of around 800 poll tax payers having paid off. Deputy Collector Claude Russell reported. Property tax payments have also lagged behind the anticipated total.

The collector's office is expecting a busy week-end as the last-minute taxpayers rush in to pay up 1937 tax bills and secure poll tax receipts. This being election year, voters are urged to pay poll taxes in order to enjoy the privilege of voting in the important elections slated for the year. Exemptions for both "overs" and "unders" must be secured before the tax deadline to insure the voting privilege, it was declared.

In order to accommodate the last minute taxpayers, the collector's office will remain open as long as necessary each evening, it was stated, and Sheriff W. S. Sheriff and his staff will be available at any hour to accommodate those who can not attend the matter during regular hours.

## Southern Baptists Missionary Topic Of Baptist Group

"Southern Baptists" was the general theme of missionary programs staged by the Baptist Woman's Missionary Union at separate sessions of the two circles of the society this week.

The Nelson Circle met at the home of Mrs. Ray Dunlap, with Mrs. Hugh Gray directing the missionary program. Present were Mrs. George Bean, Mrs. J. T. Keeton, Mrs. J. T. Patrick, Mrs. Hugh Gray, Mrs. S. L. Butler, Mrs. John Patrick, Mrs. J. S. Whatley, and Mrs. Dunlap.

The Lottie Moon Circle met with Miss Maybelle Taylor, with Mrs. Charlie Butler directing the missionary program. Members present were Mrs. Will Adams, Mrs. O. W. Smith, Mrs. Charlie Butler, Mrs. M. R. Smith, Mrs. Clyde Childers, Mrs. A. C. Hoover, Mrs. R. F. Powell, Mrs. Hartley Johnson, Mrs. A. W. Jones, and Miss Maybelle Taylor.

Both circles will meet in a joint session at the church next Wednesday afternoon at 3 o'clock for a business meeting and missionary program. Mrs. Hugh Gray will lead the program, which will be on the topic, "The Homeland."

## Fifty Pupils To Be Honored For Perfect Attendance Records

### Certificate Awards To Be Made February 3 For First Semester Record

Fifty pupils of the local school system, twelve high school and thirty-eight grade school pupils, will receive special certificates of merit for perfect attendance records for the first semester of the present term, four and a half months, according to a list made public this week by Supt. C. S. Denham.

These pupils, who have been neither absent nor tardy since the opening of school, will receive special honors to be awarded February 3, the superintendent announced.

Perfect attendance records by grades follow: High School—Seniors: Walter Babb, Betty Dudley; Juniors: Jeff Fussell, Clifton Tal-

(Continued on last page.)

## League Leading Lions To Tackle Eldorado Tonight

### Locals Defend Lead On Eve Of Annual Ozona Tournament

By nosing out the Sonora Bronchos on the home court last Thursday night by a three-point margin, Coach Ted White's Ozona Lions lay claim to the first half championship of the Ranch Country Basketball League, and hold a commanding position in the race for the final league championship.

The Lions, still with a perfect record in league combat, face the powerful Eldorado Eagles in the second-half starter here tonight in the High School gymnasium. The game will get under way at 7:30 p. m. It will be the fourth game in league competition, the Lions defending their perfect record to date and the Eagles, with only one win out of three starts, striving to get back in the win column.

The Lions have defeated the Eagles twice in early season games, but the Eagles came back for a win over the locals in a practice game Saturday night which went for an extra period before the Eldorado lads were able to ring up a counter for the necessary win margin. The Eldorado Eagles slammed the Junction Eagles deep into the cellar by defeating the Kimble crew last Friday night. The league standings to date are as follows:

Team	W	L	Pct.
Ozona	3	0	1.000
Sonora	2	1	.666
Eldorado	1	2	.333
Junction	0	3	.000

## CHILD INJURED IN COLLISION OF CARS

Gaida Sue Meinecke, small daughter of Mrs. Coralee Meinecke, suffered a deep scalp wound last Thursday night, when the car in which she was riding, driven by her grandfather, L. J. Kittle, figured in a wreck in front of the W. E. West residence on Broadway. Mr. Kittle had started to turn into the West driveway when another car, driven by a man named Terry, struck him. Glass from a shattered door in the Kittle car struck the child, inflicting a severe scalp wound.

## Cemetery Assn. Meets Saturday At Courthouse

### Full Attendance Urged At Meet Postponed From Last Sat.

The annual meeting of the Cedar Hill Cemetery Association scheduled for last Saturday but postponed on account of the heavy rains during the day, will be held next Saturday afternoon starting at 3:30, it was announced this week by the associations chairman, Mrs. Floyd Henderson.

The meeting will be held in the district courtroom at the courthouse, and all members of the association and all others interested in the maintenance of the burial plot, are urged to be present.

Election of officers and a discussion of plans for completing the equipment for the new water well, recently drilled for the cemetery are important matters to come before the group. Mrs. Henderson urges a full attendance.

## ATTEND SCOUT MEETING

Ira Carson, Eugene Hollon, C. S. Denham and Rev. Eugene Slater attended the Scout Council meeting in San Angelo, Friday night.

Miss Mona Draper of Gatesville is here for a visit with her sister, Mrs. Clyde Childers, and Rev. Childers, Baptist minister.

Col. John J. Kingman, who was named by President Roosevelt as assistant chief of army engineers with the rank of brigadier general, for a four year term. Colonel Kingman, currently on duty in San Francisco as engineer in charge of river and harbor improvements, is the son of the late Brig. Gen. D. C. Kingman.

## Abundant Rains Add To Moisture Store Of Range

### Four And A Half Inch Fall Recorded Here In Two Days

The rain gods have looked with unprecedented favor on Crockett County and the ranching area of West Texas in general in this most unusual winter in the history of this section.

Coming on the heels of bountiful rains of two weeks ago, further general falls soaked the section the past week, setting a January record in Ozona for 4.6 inches of rainfall in a two-day period.

The two-day total fall was heavier in Ozona and immediate surrounding territory than in most other sections of the county, although all sections reported splendid rains, ranging from nearly two inches upwards. The four and a half inch fall in Ozona was the heaviest reported in the southwest Texas area.

Both draws flowing through Ozona were bankfull as a result of the heavy falls here and north of town. The ranch country was given one of the most thorough winter soakings in years, assuring splendid early spring range.

## Church Heating Plant Put On Blink By Water As Result Heavy Rains

### Baptist Basement Flooded To Depth Of 3 Feet; Methodist Also Gets Some Water

The unprecedented rainfall of the weekend interrupted church services here Sunday.

Water seeping through the concrete basement walls of the Baptist Church filled the basement to a depth of three feet, putting the church heating plant out of commission for Sunday services. The water was pumped from the basement by the fire engine and the heating plant had to be cleaned and overhauled this week before it could be put back in service.

Some water also soaked thru into the basement of the Methodist Church but not enough to do any material damage.

Mrs. Sherman Taylor is in a San Angelo hospital where she underwent an operation early this week.

## OPENING GAME OF TOURNEY 2 P. M. FRIDAY

### Teams Paired For Initial Combat In Drawing Tuesday

### 12 TEAMS ENTERED

### Ozona Meets Sander-son For Opener At 7 Friday Night

The opening gun in the 1938 Ozona Basketball Tournament will be fired at 2 o'clock Friday afternoon on the High School gymnasium court with Junction and Barnhart teams leading off in the struggle for tournament honors.

With twelve teams entered, and the slate all set for the two day meet, coaches and local school officials are looking forward to one of the best tournaments in local history. The slate of opening rounds as determined in drawings held here Tuesday afternoon places the following teams in pairs for combat at time specified Friday afternoon and evening:

Junction vs Barnhart - 2 p. m.  
Grandfalls vs Iraan - 3 p. m.  
McCamey vs Mertzon - 4 p. m.  
Sonora vs Del Rio - 5 p. m.  
Eldorado vs Big Lake - 6 p. m.  
Ozona vs Sanderson - 7 p. m.

Quarter Finals: 8 p. m. — Winner Grandfalls-Iraan vs winner Junction-Barnhart. 9 p. m. — Loser Grandfalls-Iraan and loser Junction-Barnhart, second bracket championship race.

## Strong Teams Coming

With more outstanding groups of teams entered this year than ever before in the history of the tournament, the team which survives to the tournament championship will face many supreme tests along the route, in the opinion of the host coach, Ted M. White. Iraan, McCamey and Big Lake, all have strong teams. Grandfalls, a late entry, is tied for the lead in the league competition from the area, which includes teams from Iraan, McCamey, Fort Stockton, and other towns in that section.

Del Rio, runner-up in last year's tournament, is returning this year with a reportedly strong team, Coach White said, and they are expected to make trouble for other entries. That Sanderson, always a serious threat, is up to par again this year, is shown by the fact that they have already registered a win over the powerful Iraan Braves.

As for the Ozona Lions, Coach White makes no glowing promises. "Handicapped by injuries, flu and the society bug," the Coach moans, "the Lions just now stack up as anything but a cinch. But they are due to open up and play a considerably improved brand of ball than they have been playing of late, and that may at least put them in the running." The Lions, by the way, have won eight out of eleven starts to date this season, which is not a bad record after all. At present, the locals occupy the topmost rung in the Ranch Country League, with three wins and no losses to date.

Expect 100 Visitors  
Approximately 100 athletes,  
(Continued on last page.)

## Ozonan Is Reported Critically Ill In Del Rio Hospital

### P. T. Robison Said In Serious Condition; Children Called To His Bedside

Members of the family have been summoned to the bedside of P. T. Robison, prominent Crockett County ranchman, who is reported critically ill in a Del Rio hospital.

Mr. Robison has been in Del Rio for several days under treatment. Word was received here yesterday from Mrs. Robison that he was in a very serious condition and the children and other relatives left to be with him.

SNIFFLES AND BOMBS

Now that the annual sniffle season is once more in full blow, it is interesting to note that the cost of easing that cold in the head has gone up considerably. The reason: Japan's conquest of China.

Ephedrin, a prime ingredient in most of those nose-drop preparations, is one of the leading Chinese products, and has for years been distributed to the world thru the port of Shanghai. With the ephedrin supply in the control of the Japanese invaders, American pharmaceutical houses have been forced to raise the prices of their preparations containing the drug.

That the problems of war—the bombing of defenseless humans, the murder of children, the devastation of civilian cities—should be brought home to the average American by a cold in the head, indicates with clarity the ever-widening effect which war has on the peoples of the world.

The next time your head begins to beat with the tramping feet of a multitude of germs, let it remind you of the armies slogging thru the winter mud of China. Let your own minor discomfort warn of the major pain and suffering brought to a peaceful nation by the dogs of war.

HEALTH FROM HELIUM

With restrictions on the international sale of helium due to be lifted during 1938, one more of our state's natural resources will be made available this year to the world at large.

LIFT THE FOG!

As is often the case, a great tragedy has again offered the key to unlock new advances. Had it not been for the sky-scorching blast of the Hindenburg, it is certain that the United States would not have relaxed its tight little monopoly of this gas.

The export of helium to the outside world, however, will mean more than safer lighter-than-air craft. Recent research indicates the life-saving qualities of helium are not limited to its use in dirigibles. Medical studies show that the gas is a valuable aid in treatment of asthma, bronchitis, diphtheria and other diseases causing obstructions of the lungs or throat. When the nitrogen in the air is replaced by helium, the ease of breathing is greatly increased.

Experiments conducted by Dr. R. R. Sayers of the U. S. Public Health Service indicate that the lives of hundreds of new-born babies, threatened by breathing difficulties, can be saved through the use of helium and oxygen.

Interesting it is that the 1,800,000,000 cubic feet of helium held beneath the Texas soil in the Amarillo field will not only bring safe flying to thousands of travelers, but new life to old and young alike.

Once more Texas' natural resources have proven their value.

Say "I saw it in the Stockman."

MAKING A CHILD EAT

Parents who coax and coddle and threaten when a child refuses to eat are on the wrong track, according to Dr. Frank Howard Richardson, a noted child specialist. They are merely causing the child to become neurotic and self-centered by paying too much attention to his whims.

Instead of humoring the child by urging or bribing him to eat, he should be made to sit down at the table five times a day, for 30 minutes at the three regular meals and for 20 minutes at mid-morning and mid-afternoon lunches.

Suitable foods are to be placed before him each time, but no effort whatever is to be made to induce him to eat. He may eat or he may not as he chooses. But at the end of the time set he should be made to leave the table whether he has eaten or not.

Dr. Richardson declares that there is no danger that a child will starve himself under such circumstances, but that within two or three days the "cure" will be under way. In conclusion, the doctor says:

"The relief afforded sorely tired parents by this course of action is so genuine that parents usually wonder why they waited so long adopting it."

The CORNER Poetry

THE HEART OF A WOMAN

When God had fashioned this heart of mine Out of the sleeping clay,

FOR YOUR HOME, especially if there are growing children, Webster's New International Dictionary, Second Edition, is the great question-answer. What's the difference between a butterfly and a moth? How can a flame freeze ice? These and thousands of other questions can be answered by "looking it up in Webster." Get the dictionary habit!

FOR YOUR OFFICE, this new Merriam-Webster is the court of final appeal on the spelling, pronunciation, meaning, and use of words. For three generations Merriam-Webster dictionaries have been the standard in courts, schools, and editorial offices of the country. You consult "the supreme authority" when you "look it up in Webster." Get the Best.

SEE THIS NEW WORK at your bookdealer's or write for a descriptive pamphlet to G. & C. Merriam Co., Department 13, Springfield, Mass.

Waking its pulses to passions divine, While still in His hands it lay, Counting its measure again and again, Bending His patient ear, For a woman's heart must beat To pain and love and faith and fear.

Cometh the world old question: "Why am I fashioned thus? Surely the Master's vision had been more glorious." The Angel of Life drew near, and said: "Not clay, O Heart, but the starved world's bread."

—Marie Loehr Arnold, Houston

THE WAYFARER

Where the wind howls loudest There would I tread, Where the path grows thickest

Do I set my head, I welcome danger, You know me, stranger, My name is YOUTH! —Christine Jackson, Corsicana.

EMPTY HUSKS

Through soft twilight On the wings of dusk, My thoughts throng for you — Empty husks.

Pollenized by yours, Heavy fruited—they Return full kernels At break of day.

Tax Deadlines Are Near!

To help you avoid additional tax expense in the form of penalties and interest, your county officials take this means of respectfully reminding you of approaching deadlines on tax payments and of urging you to attend to the matter at the earliest possible moment.

Jan. 31 Last Day

The last day of January is the deadline for payment of current taxes without penalty and interest. In order that your tax collector's office might serve you better, and with as little inconvenience as possible, it would be appreciated if you would attend this matter as soon as possible to avoid the rush of the last days.

Pay Your Poll Tax

To enjoy the privilege of franchise, your poll tax must be paid, or exceptions secured, before February 1st, 1938 is an important election year. You will want to help decide important issues with your ballot. Don't overlook this civic duty.

Save Interest - Penalty

On DELINQUENT TAXES now. Crockett County taxpayers whose taxes are delinquent can now save interest and penalty charges by paying promptly. Under provisions of an order passed by your Commissioners Court, delinquent taxpayers may now settle accounts by paying only accumulated taxes, the court's order remitting all interest and penalty charges. This order is for a LIMITED TIME ONLY. Take advantage of the saving now.

Auto Registrations

For your information, the new 1938 automobile license plates go on sale March 1, but can not be attached to cars until April 1. The new license plates must be in place on and after April 1, however. New cars registered now, must have 1937 plates until April 1.

**Precaution Urged  
By Health Dept. To  
Prevent Smallpox**

Austin, Jan. 26— "Texas is faced with the probability of local smallpox epidemics if precautions are not immediately employed," declared Dr. Geo. W. Cox, State Health Officer. "Last year there was not a single death from smallpox in Texas, while last week over thirty cases and two deaths were reported.

"Smallpox epidemics would never occur if everyone, and especially children, could be effectively vaccinated. The lack of vaccination causes the present menace of this disease. Modern safeguards have removed every legitimate objection to vaccination. The virus is made from calves and, consequently, is incapable of transmitting human blood diseases.

"A primary vaccination with one successful revaccination will, as a rule, protect throughout life from the milder forms of smallpox, but this is not true in the severer type of this disease. Therefore, be vaccinated and revaccinated at least every seven years, so that you will have the greatest protection possible and the least chance of being sick. Revaccination should also be done after each time you have been near a known case of smallpox, for you know that the old vaccination protects if the new one fails to 'take'. Vaccination is not to be feared but rather to be sought as the only safe, positively harmless and absolutely certain safeguard against smallpox. See your family physician today and be sure that you are protected."

Like a huge fish out of water, the German steamer Manissa is shown shortly after running aground on the shore of the Mediterranean near Adalia, Turkey. Fogs and a heavy sea threw the ship off its course and landed it on shore.

**Practical  
Cookery**

Dept. Home of Economics  
Texas State College for Women

Denton, Jan. 26—You can't go halfway on liver—either you like it or you don't. For those who do, here are some rules and recipes that will make them lifelong champions of its cause.

This meat should always be cooked at a low temperature for only a short time, unless the animal is quite mature. Then the outer skin and large veins should be removed and the cooking continued, with some moisture added, until the meat is tender.

**Liver with Bacon**

(Six servings) Pan broil 12 slices of bacon. Remove to warm oven. Dip 1 pound thinly sliced young liver in milk. Then roll in seasoned flour or very fine cracker crumbs. Fry slowly until brown. Arrange on hot platter with bacon. To make gravy from drippings in frying pan: add two table spoons flour to 3 or 4 tablespoons

of mixture in pan. Stir until smooth. Add 1½ cup milk. Cook 5 minutes over heat or until of creamy consistency. Either pour over liver and bacon or serve in separate bowl.

**Creamed Liver**

(Six servings) Melt 2 table spoons butter in a large frying pan. Add 1 pound young liver (cubed), 4 tablespoons chopped onion, and 2 tablespoons green pepper (shredded and chopped). Cook for 10 minutes, stirring gently. Add 2 cups of white sauce made as follows: Melt 4 table spoons butter in sauce pan. Add 4 tablespoons flour, 1 teaspoon salt, and ½ teaspoon pepper. Stir until smooth. Add 2 cups milk. Cook 5 minutes, stirring constantly. Serve creamed liver on hominy grits.

**Liver Stew and Dumplings**

(Eight servings) Cut 2 pounds beef liver into 1 inch cubes. Dredge with seasoned flour. Sear in a small amount of bacon drippings in heavy sauce pan with ½ cup chopped onion. Cover with hot water. Add 2 cups potato cubes and ½ cup carrot cubes. Simmer until liver is tender and vegetables are done. 20 minutes before serving add dumplings.

**Dumplings**

Sift 2 cups flour, 4 teaspoons baking powder, and ½ teaspoon salt. Beat 1 egg lightly and stir in ½ cup milk and 1 tablespoon melted butter. Add liquid ingredients to dry ingredients. Mix well and drop by spoonful on the stew. Keep tightly covered for 15 to 20 minutes.

**Escalloped Liver and Potatoes**

(Six servings) Cut 1 pound of sliced liver into small pieces. Dredge with seasoned flour and sear in a small amount of fat with ¼ cup chopped onion. Pare and slice thinly three medium sized potatoes. Place alternate layers of potatoes and liver mixture in a baking dish. Begin and end with a layer of potatoes. Sprinkle salt and pepper over each layer of potatoes. Pour on one to 1½ cups of milk. Cover and bake for about an hour in a moderate oven (350 F.) or until the liver is tender and the potatoes done.

Old reliable "steak and potato" meals are fine, but they lose their savor for friend husband if he has to eat them seven days a week. Variety in the meat line can be secured by the use of tongue, heart, kidneys, sweetbreads and brains.

**Boiled Tongue**

Simmer a large beef tongue until tender in water to which one slice of onion, one half teaspoon salt, and one half teaspoon whole peppers have been added. Drain and save broth. Skim and trim. Cut diagonally into slices. Serve hot with raisin sauce or cold with mustard sauce.

**Raisin Sauce**

Melt 2 tablespoons butter. Add 2 tablespoons flour and one half teaspoon salt. Blend. Remove from heat and add 1 cup of broth in which tongue was cooked. Cook over heat five minutes, stirring constantly. When creamy consistency, add one fourth cup raisins. Let cook until thoroughly heated.

**Mustard Sauce**

Melt 2 tablespoons butter in top of double boiler. Add 2 tablespoon flour, 1 teaspoon mustard and one fourth teaspoon salt. Stir until smooth and well blended. Remove from heat and add three fourths cup water. Mix well and cook directly over heat for 5 minutes or over double boiler for twenty min-

1 tablespoon lemon juice has been added. Drain and separate into small pieces. Heat 4 tablespoons bacon drippings in a large frying pan. Heat 4 eggs. Add 4 table spoons rich milk, one half teaspoon salt, and one eighth teaspoon pepper. Turn egg mixture and 1 cup of the brains into hot fat. Cook until eggs are creamy. Serve on toast or with hot biscuits

**Stuffed Beef Heart**

Cover one large beef heart with boiling water and simmer until tender, about 1 hour. Drain and save broth. Remove valves from heart. Stuff with 2 cups cooked brown rice mixed with 1 cup tomato puree, 2 tablespoons finely chopped onion, 1 tablespoon finely chopped sweet red pepper, one half teaspoon salt, and one eighth teaspoon pepper. Skewer together. Rub liberally with seasoned flour. Place in baking dish and pour 4 tablespoons melted butter over heart. Bake in moderate oven (350 F. to 375 F.) until brown. Baste often with broth. Serve sliced, hot with gravy in pan.

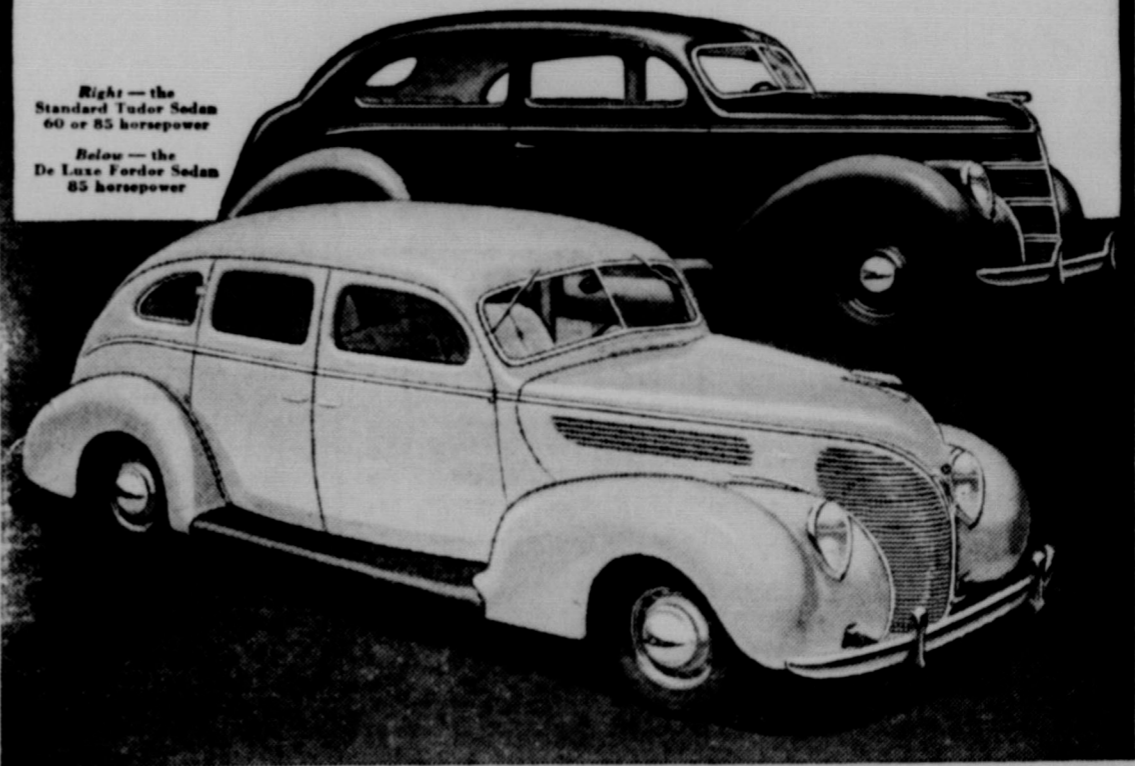

Work on a new American standard version of the Bible has been begun by a committee of scholars, who expect to complete the task in five years. The revision is intended for use by about 40 Protestant sects. A new Catholic revision of the Douay-Rheims version of the Bible is also under way for the first time since 1749. Right — the Standard Tudor Sedan 60 or 85 horsepower  
Below — the De Luxe Ford Sedan 85 horsepower

**T**HERE are two new Ford cars for 1938—the De Luxe and the Standard—differing in appearance, appointments and price—but built on the same dependable Ford chassis. Both bring you the basic advantages of a V-type 8-cylinder power-plant—smooth performance and compact design. The De Luxe Ford has the 85-horsepower engine. The Standard Ford provides a choice of 85 or 60 horsepower. Both new cars are economical to operate. The Standard, with thrifty "60"

engine, costs less to run than any other Ford car ever built. And both new cars are priced low. Low price, like economy, is a Ford tradition. Ford founded the low-price field 30 years ago and keeps Ford prices low. The De Luxe Ford costs slightly more than the Standard Ford, but provides more style with extra room in the closed sedans. Both cars, in proportion to price, represent unusual values. Both are built to the same high standard of mechanical excellence. There's a dealer near you.

# HOME BUILDERS' PAGE

### This Will Save Your Temper—

A swinging door between the kitchen, pantry and dining room is a great convenience. It should be remembered when a new home is being built. The Federal Housing Administration insures mortgages for the construction or purchase of houses.

### Tidy Drawer Space Necessary

The drawers of a linen closet in a new home have glass fronts,

keeping the contents free from dust but making it possible for the housewife to see at a glance which space contains the articles she wants.

### Over the Kitchen Sink—

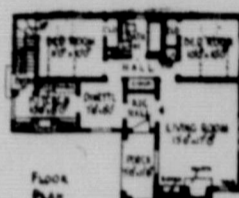

Architects have found it practical to specify casement windows when a window is located over a sink. This type is much easier to operate from such a distance, and a 100 per cent opening provides more ventilation.

## ... or if you want something English

Well defined in its interpretation of the English style, this home, with its low broad lines and massive chimney is highly attractive to the person who seeks something out of the ordinary.

The plan, for a small home, achieves real distinction, through the use of a small central hall, commodious living room and numerous closets and built-in conveniences. While the combination of stone, half timber and shingles used here is particularly attractive for an English type home, stucco, brick or shingle construction would be equally suitable.

### CONSIDER FURNITURE WHEN PLANNING HOME

Color Consideration of Value For Pleasing Results

If you plan to use your present furniture in the new home you are going to build, this should be considered when the architect draws up the plans.

Harmony is an important factor in adjoining rooms and if you are planning on an informal modern dining room, when your living-room furniture is, for instance, formal Georgian, it would be well to choose a plan that has the two rooms well separated.

Color may be the keynote on which two rooms of the same general character meet. One may have figured wallpaper, while the other

We have a complete stock of the best varieties for this section in fruit, shade and budded pecan trees. Evergreens for landscaping, roses flowering shrubs, hldge and berry plants.

Peach trees from 15c and up. Roses from 20c each or \$2.25 per dozen. And 35c each or \$3.50 per dozen. F.O.B. San Angelo.

has plain walls of one of the predominating colors in the paper. Carpeting, walls, and draperies may be identical with a difference in the type of furniture or the color schemes of the room may be reversed, such as yellow walls and blue draperies in one, and blue walls and yellow draperies in the other.

### QUESTIONS AND ANSWERS

Q. How can I repair cracks in my concrete foundation wall?

A. Open up and clean out the crack; roughen the edges, moisten the old concrete and fill crack with mix 1 part portland cement and 3 parts sand mixed with just enough water to make a workable paste; when patch has set it should be dampened and kept damp for several days.

Q. Is indoor paint suitable for exterior use?

Outdoor paint can be used anywhere, but paints intended for indoor use should not be exposed either to weather or to air that is continuously moist. Paint for use outdoors must have qualities suited to exposure. It should have elasticity, that quality which allows it to expand and contract with extremes of temperatures; also tightness which causes it to hold to its base and be proof against hard-driven rain; toughness to stand the beating of sleet storms and other severe exposure.

Q. Is it practical to replace ordinary glass with plate glass in windows with small panes?

A. Yes, it is. It may be neces-

sary to increase the size of the sash weights, as plate glass is a little heavier than ordinary grades. If you use thin plate glass, however, the difference may not be great enough to necessitate a change.

### WEST TEXAS LUMBER CO.

Serving West Texans

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. Address inquiries to Will H. Mayes, Austin, Texas.

**Q. Who was elected vice president under the first administration of Houston as president of the Republic?**

A. Mirabeau B. Lamar, by a majority of 2,699 votes, he having attained distinction and honors at San Jacinto shortly after he had joined the Army as a private at Grove's Ferry.

**Q. How early did the Texas electorate vote in favor of annexing Texas to the United States?**

A. At the first general election of the Republic, held Sept. 5, 1836, there being only 91 votes against annexation.

**Q. When and where did the first Congress of the Republic convene and when was Houston inaugurated president?**

A. The first Congress, composed of 14 Senators and 32 members of the House of Representatives, convened at Columbia, the temporary capitol, Oct. 5, 1836. David G. Burnett, the ad interim president, resigned the morning of Oct. 22, and Houston was inaugurated at four o'clock that afternoon.

**Q. What persons and in what order served as cabinet members in Houston's first administration?**

A. In the order named: Stephen F. Austin, R. A. Irion, J. Pinckney Henderson, secretaries of state; Thomas J. Rusk, William S. Fisher, Bernard E. Bee, George W. Hockley, secretaries of war; Henry Smith, secretary of the treasury; S. Rhodes Fisher, William M. Shepperd, secretaries of the navy; J. Pinckney Henderson, Peter W. Grayson, John Birdsell, A. S. Thurston, attorney general; Robert Carr, postmaster general; E. M. Pease, Francis R. Lubbock, comptroller; John W. Woody, J. G. Welshinger, auditors; William G. Cooke, stock commissioner.

**Q. Who represented the Republic as ministers to foreign countries in the first Houston administration?**

A. William H. Wharton, Mexican Hunt, Anson Jones, ministers to the United States; J. Pinckney Henderson, minister to Great Britain and France.

**Q. What prevented the United States from giving early recognition of the independence of Texas?**

A. Debates in Congress and an interview of Commissioner Wharton with President Jackson indicated that but for the failure of the Texas ad interim government to give official notice of the declaration of independence, the victory at San Jacinto, the expulsion of the Mexican army, the return of Texas fugitives to their homes, and other facts indicating the existence of a de facto Texas government recognition of Texas might have been given soon after the Battle of San Jacinto — a step necessary to precede annexation.

**Q. When was the first debate in the United States congress on Texas recognition and what was the result?**

A. In May, 1836, a resolution was introduced in the United States senate suggesting the expediency of recognizing the independence of Texas. It was sponsored by John C. Calhoun, Daniel Webster and others and opposed by John Quincy Adams on the ground that it was a movement to extend slavery and the political power of the South and throw the United States into war with Mexico. Before adjournment in July both houses passed a resolution recognizing Texas independence "whenever satisfactory information has been received that it has in successful operation a civil government capable of performing the duties and fulfilling the obligations of an independent power."

**Q. What reason, other than the slavery question and political considerations, caused the United States to hesitate to recognize Texas as independence?**

A. The Texas vote favoring annexation to the United States, along with the fact that Texas had been supported by its citizens with money and men in its revolution aroused Mexican suspicion that the revolution was inspired by the United States for the purpose of acquiring territory for itself thru the revolution that could not be acquired by purchase. It was generally conceded that recognition by the United States ultimately would lead to annexation.

**Q. If President Jackson favored Texas recognition and annexation why did he so strongly advocate delaying recognition?**

A. He wished to keep the question out of the presidential campaign of 1836, fearing it would defeat Van Buren. He believed that delay would result in a stronger sentiment for recognition and annexation, and would lessen the antagonism in Mexico, as well as give time for working out custom and trade relations with other foreign countries.

**Q. Did Austin live long enough to know of Jackson's message to Congress favoring delay of Texas recognition?**

A. Austin died Dec. 27, 1836, without knowing Jackson's official attitude as announced in a congressional message, which was regarded by most Texans as "cold-blooded" and "ungenerous." He had a positive conviction, though, that recognition would soon be attained, if it had not already been obtained. It is related that just before his death, he said, in awakening from a dream: "Texas recognized, Archer just told me so. Did you see it in the papers?"

**Q. What was done by President Jackson to ascertain Texas conditions?**

A. He sent Henry N. Morfit to Texas as a special investigator. Morfit spent most of September and October in Texas and submitted a report that was on the whole favorable, but he recommended withholding recognition until the result of a threatened Mexican invasion the next winter could be ascertained.

**Q. What proposal did Santa Anna make to the United States, and what became of it?**

A. When Santa Anna was released by Houston to go to Washington, he submitted a suggestion that the United States, through him, offer Mexico \$5,000,000 for Texas, boundaries to be fixed by agreement. This was virtually a

renewal of the Butler proposal, and though Texas had already voted for annexation, Santa Anna's proposal was not given consideration.

**Q. Why did the United States refuse to consider Santa Anna's suggestion as to the purchase of Texas?**

A. Santa Anna had been rejected by his own people and he could serve only as an intermediary in bringing about such an agreement; in the unstable condition of Mexican affairs, there was no government with which a treaty could be made with assurance; and it then looked like Texas might be annexed in due time with out friction with or purchase from Mexico.

**Q. How was United States recog-**

**niton of Texas finally brought about?**

A. On March 1, 1837, the Senate voted for recognition and the House made an appropriation for the salary of a diplomatic representative whenever the president thought it desirable to appoint one. Deeming this equivalent to recognition, President Jackson, on March 3, just before his term of office expired, appointed Elcee La Branche, of Louisiana, charge d'affaires to Texas.

**Q. What is the leading state of the Union in natural game resources?**

A. The report of Federal biologists is that Texas leads the other states. Much attention is now being given by the Federal Government and the state to protec-

tion of game life in the state. The United States has recently bought a 45,000 acre ranch in Refugio and Aransas counties for a game preserve.

**Q. State briefly the rules for unfurling the Texas flag out-of-doors.**

A. When displayed out-of-doors, the Texas flag must be on either a flagpole or staff, the staff to be at least two and a half times the length of the flag; it must not be unfurled earlier than sunrise and should be taken down before sunset; it should not be left unfurled in inclement weather and should never be left out-of-doors at night; it should be hoisted briskly and furled slowly; the white stripe should be at the top.

**THE WORLD THIS WEEK**

By Robert Patterson

**HURDLING THE BARRIER**

America is moving aggressively to hurdle the hump of the recession. The significant conferences between President Roosevelt and 50 of the nation's leading industrialists during the past week gave welcome testimony to that. These meetings helped cleanse the air of some of the sulphurous fumes which have created fear, distrust, and jittery nerves. Though such round table parleys can not be expected to produce wonder working miracles, nor quickly banish long-standing grudges, they can do much good. As long as leaders of business and government are able to park their respective axes in the cloak room and sit down for a face-to-face discussion of their respective programs, then democratic procedure is in healthyettle and sturdy enough to hurdle any recession's hump.

**SOUTH SEA QUEST**

Into the same South Seas where gallant Capt. Edwin C. Musick and his crew of six perished a fortnight ago, a three-masted schooner will start plowing her way in a few days. Somewhere in that treacherously serene waters of the south Pacific the expedition aboard this sailing bark hopes to find some trace of another gallant flyer — Amelia Earhart and her navigator, Frank Noonan, whose fate remains shrouded in mystery. Undaunted by the Navys far-flung search by air and sea this summer, a New York business man is backing this newest quest for the tousled-haired aviatrix and her companion. Early in February the trim schooner points her prow southward. May she be successful in forcing the ocean wastes and coral reefs to yield the secret fate of these flyers. Bon voyage and good luck!

**TREASURE ISLAND**

The head of the Soviet motion picture industry has gotten him-

**1938 Ford V-8 Standard Tudor Sedan**

**M**OST popular of all the Ford V-8 body types is the standard Tudor sedan, shown above. A longer hood, more sweeping lines and newly-designed front end, grille, louvers, fenders and hubcaps are featured. The car is available either with 85 horsepower or 60 horsepower V-8 engine. Interiors are attractively appointed. The front seat is full width. The seat back is divid-

ed. The sections are hinged diagonally and swing inward as they are tipped forward so as to leave a wide passageway on either side for entrance to the rear seat. Like all Ford body types the Tudor sedan has a large built-in luggage compartment. The standard cars are engineered for owners who demand the maximum of economy in first cost and operating cost.

**UNKNOWN BENEFACTOR**

The strange threads which Destiny set spinning in a French war zone hospital in July 1918, are to-

day found weaving their strands in America. In an air battle during the World War, a machine gun bullet zipped into the cockpit of the plane of Lt.-Col. Morraglia, commander of the French Air Corps' Fifteenth Aerial Squadron, and literally pulverized the officer's knee. A few days later an American Army surgeon, whose name the officer never learned, achieved the near miraculous feat of reassembling the splintered bone, leaving it good as new. Ever since the War ace has been seeking the surgeon to express his gratitude. Last month on a squadron flight from France to Indo-China, Lt.-Col. Morraglia was forced down in Kerachi, India, where he happened to tell his story to the American consul. The consul relayed the account to the War Department which, in turn, relayed it to the Press a few days ago. Who knows this surgeon?

**THE SWING OF IT!**

Like the government seal on the grocer's scales, a concert in a

plain, brown building in New York named Carnegie Hall, is a trademark of merit. So says tradition. But tradition has just been severely jolted. Music's newest and most raucous-voiced daughter who answers to the name of "Swing" — provided you can make yourself heard above the sound of her tapping feet clattering out the Big Apple or the Suzy Q — has now had her official coming-out party at Carnegie Hall. Its austere walls vibrated to the wild squeal of the clarinet and tooting brasses as one of the nation's most famed swing bands assailed the air with "swing's" feverish syncopation. It's long trail that jazz has followed from the intricate rhythms of the tom-tom in an African jungle to a high-hat concert in New York. But we still can't get the hang of this point — where does the melody disappear to when a swing band gets hold of it? Maybe that's the swing of it!

7:30 p. m. Preaching Service.  
Wednesday, February 2

3:00 p. m. W. M. S. circles meet.  
7:15 p. m. Prayer Meeting.  
We wish to take this opportunity to express our appreciation for the fine reception we have been given by the people of Ozona. Also to thank our own people for the many kind things you did for us while we were getting located in the field. It is our hope that each of you will be in his place ready for the services Sunday.

We are also deeply grateful to our Methodist friends for their fine spirit of co-operation. We appreciate your extending us the use of your building when our own was rendered uncomfortable for service. It is our sincere prayer that this fine spirit on the part of all churches will always exist in Ozona.

To those of our friends who have no church home, we welcome you to worship with us on next Lord's Day.

**CORRECTION**

In the account of activities of the Cemetery Association, carried in last week's Stockman, in which officers of the association gave acknowledgement for gifts during the past year, it was stated that the ram donated by Mrs. B. B. Ingham was purchased by C. B. Hudspeth in the Ozona auction

ring. This should have been Roy Hudspeth. Another error appeared in the same item, a typographical error which made the amount of contributions received for drilling an dequipping the water well read \$5.82 instead of \$582.

**When You Should Stop ADVERTISING**

Being a little advice to the man who feels his business and his name are so well known he needs no sales help.

WHEN every man has become so thoroughly a creature of habit that he will certainly buy this year where he bought last year.

WHEN younger and fresher and spunkier concerns in your line cease starting up and using the newspapers in telling the people how much better they can do it for them than you can.

WHEN population ceases to multiply and the generations that crowd on after you, and never heard of you, come on.

WHEN you have convinced everybody, whose life will touch yours, that you have better goods and lower prices than they can ever get anywhere outside of your store.

WHEN you perceive it to be the rule that men who never do and never did advertise are outstripping their neighbor in the same line of business.

WHEN men stop making tremendous business successes right in your sight, solely through the discreet use of this mighty agent.

WHEN you can forget the words of the shrewdest and most successful business men concerning the main cause of their prosperity.

WHEN you would rather have your own way even though you fail, than take advice and perhaps win out.

WHEN you want to go out of business with stock on hand.

WHEN you want to get rid of the trouble of waiting on customers.

WHEN nobody else thinks "it pays to advertise."

The SUREST Way to Stay in Business — PROFITABLY Is to ADVERTISE In

### Miss Vicky Pierce, Bride Of Week, Complimented At Round Of Parties

Miss Vicky Pierce, who will become the bride of Jake Miller in a ceremony here next Saturday afternoon, is being honored at a round of parties here this week.

Mrs. Lee Childress and Mrs. Strick Harvick entertained with a bridge-luncheon Saturday complimenting Miss Pierce. The honoree was presented with a gift, a silver sugar and creamer. Mrs. Richard Flowers took high score in the games, with Mrs. Vic Pierce being awarded low. Other guests were Miss Vicky Pierce, Mrs. Ele Hagelstein, Mrs. Hugh Childress, Jr., Mrs. Doug Kirby, Miss Wayne Augustine, Mrs. George Bunker, Mrs. Sid Millspaugh, Mrs. Bob Weaver, Mrs. Dempster Jones, Mrs. James Baggett, Mrs. Joe Sellers Pierce, Mrs. Bascomb Cox, Mrs. Bryan McDonald, Mrs. Walter Augustine, Mrs. Miller Robison, Miss Mary Louise Harvick, Mrs. Buster Miller, and Mrs. Joe Clayton.

Mrs. Joe Oberkampf complimented Miss Pierce at a breakfast at her home Wednesday morning. Guests included Miss Pierce, Mrs. James Baggett, Mrs. Miller Robison, Mrs. Dempster Jones, Mrs. Joe Sellers Pierce, Mrs. Max Schneemann, Mrs. Wayne West, Mrs. Ben Robertson, Mrs. Joe Pierce, Mrs. Lee Childress, and Mrs. Strick Harvick.

heaviest reported in the south. Mrs. Vic Pierce and Miss Vicky Pierce entertained with a luncheon at noon Wednesday for the wedding attendants. Guests included Mrs. Joe Sellers Pierce, Mrs. James Baggett, Mrs. Miller Robison, Mrs. Dempster Jones, Mrs. Bryan McDonald, Miss Mary Louise Harvick, Miss Mary Alyce Smith, and Miss Noma V. Miller.

Mrs. J. W. Henderson and her daughter, Mrs. Sellers Pierce, entertained Wednesday evening with a dinner and bridge honoring the prospective bride and groom. Yellow flowers were used in table and room decorations. After a turkey dinner, the guests enjoyed bridge. An aluminum set was presented the honored couple.

Present were Miss Vicky Pierce, Jake Miller, Mr. and Mrs. James Baggett, Mr. and Mrs. Dempster Jones, Mr. and Mrs. Buster Miller, Mr. and Mrs. Wanliss Armstrong, Mr. and Mrs. Joe Sellers Pierce, and Bill Childress.

#### TO POST GRAD ASSEMBLY

Dr. H. B. Tandy is in San Antonio this week attending a three-day International Post Graduate Assembly of physicians from all sectors of Texas. Mrs. Tandy accompanied Dr. Tandy.

#### Employe Of Tent Theatre Dies Of Apoplectic Stroke

Augustus Kemper, 64, employe of a tent theatre showing here, died suddenly about 3 o'clock Tuesday morning from a stroke of apoplexy.

The body was prepared here by the Joe Oberkampf funeral directors and taken to Barnhart, where it was put aboard a train for Conway, Ark., where funeral services are to be held. A brother, J. A. Kemper of Mt. Vernon, Texas, came here to accompany the body to the former home in Conway.

#### Alvin O'Field Is Again Manager Of Morrison Co. Store

Alvin O'Field, who was associated with the C. G. Morrison Co. as manager of the Ozona store several years ago, again assumed that position Monday morning of this week.

Mr. O'Field succeeds Paul Chaffin, manager of the store for the past several months. Mr. Chaffin was transferred to management of the company's stores in Hobbs, N. M.

Mr. and Mrs. O'Field came here

#### ANOTHER SIT-DOWN

from San Angelo, where they have been making their home the last year or more. Mr. O'Field has been associated with his brother-in-law Guy Davis, in operation of an oil agency there. Mrs. O'Field is the former Miss Mildred Davis, daughter of Mr. and Mrs. George Davis of Ozona.

Bob Owens, who has been in a San Angelo hospital, is reported well on the way to recovery from a recent severe illness.

#### TO UNDERGO OPERATION

Mrs. Carl Colwick left yesterday for Dallas with her mother, Mrs. Chandler, who will undergo an operation there to correct an old break in a collar bone. Recent X-Ray examinations showed that Mrs. Chandler had suffered a broken collar bone several months ago. The bones failed to heal properly and it was thought that an operation would be necessary to place them in proper position.

#### Political Announcements

The Stockman is authorized to announce the following candidates for offices listed, subject to action of the Democratic primary in July.

#### For County Commissioner Precinct No. 1

ROB MILLER (Re-election)

#### For Sheriff, Assessor and Collector of Taxes

W. S. WILLIS (Re-election)

#### For Commissioner, Prec. 4

E. R. KINSER (Re-election)

Mr. and Mrs. Massie West have returned from San Angelo where they have had their small son, Bob, under the care of physicians for the past two weeks. The child had been suffering from an ear infection, but is greatly improved.

(HEALTHY? SURE!  
I'M A 'LECTROLUX  
BABY!

**70%**  
OF ALL ILLNESS  
CAUSED BY  
WHAT YOU EAT

MAYBE you can't smell or taste the spoilage; but does that mean it's not there? A noted Eastern hospital says: "70% of ALL ILLNESS is caused by what you eat or drink!" Why does so much of this illness come in winter? Well, remember this: it's always summer, in your kitchen. At 70 degrees or higher, food and milk spoil fast. And milk is most dangerous just before it tastes sour!

Your family deserves the protection of Servel Electrolux—the Gas or Kerosene refrigerator—winter and summer. NOW. Servel Electrolux is the one refrigerator which supplies steady, unvarying cold. And it won't dry out meat and leftovers. Nor wilt vegetables. Servel Electrolux is different from all others—a different kind of refrigerator. It has no moving parts. Nothing to wear. No noise—ever. A tiny gas or kerosene flame takes the place of all machinery — and operates here for as little as 3 cents per day! A small down payment puts Servel Electrolux in your home; savings pay the rest. Why not start them NOW?

Mrs. Roy McCarty, Rt. 1, Neoma, Texas declares her Servel Electrolux paid for itself in two years' time.

"I wish to express my appreciation, so far as words are possible, for my Servel Electrolux. I know of no other investment that pays greater dividends. I have learned from experience that for a family of three a Servel Electrolux will pay for itself in two years."

"I live 12 miles from a vegetable market, yet I have fresh vegetables the year round, thanks to my Servel Electrolux. Vegetables taken out of the garden cannot be compared to the crisp freshness of vegetables taken out of our Electrolux. Milk or cream will remain sweet in our Electrolux for days, even during the hot summer. This is an essential advantage in homes where there are children. It is surprising what I have learned to do with 'leftovers', which would have been thrown out, before our Servel Electrolux came to live with us. It is one piece of kitchen equipment which really serves. It is easily cleaned inside and outside. The automatic defroster is a time-saver every housewife admires. The cost to operate, compared to other appliances, is too little even to think about."

Mrs. S. E. Doyle, of Eldorado, Texas, declares she has no waste from deterioration, either in raw or cooked foods— "Servel Electrolux is a blessing to our land. I consider it my best investment, because of the saving in food costs and food preservation."

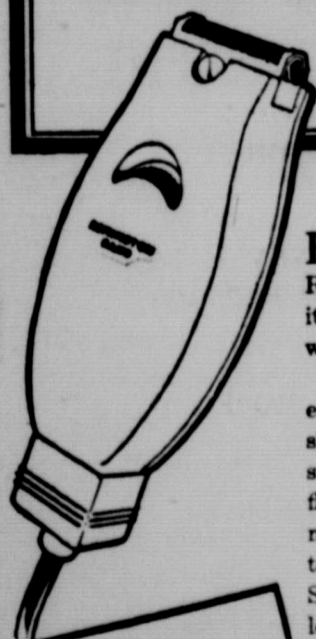

"Servel Electrolux preserves food of all kinds, indefinitely, keeps raw foods fresh until ready to cook and keeps my cooked foods ready to serve. I have no waste in either one. It furnishes plenty of ice for drinks at all times, also freezes cream, chills custards, salads and all other delicacies in the ice line. My Servel Electrolux is perfect in operation, economical, odorless, beautifully finished, easy to keep clean and requires attention only once a week to fill with kerosene. The cost of operation is so low it is a mere trifle—about four cents a day."

### ON MONEY

By P. C. Perner

"John D. Rockefeller must have had a good time." Is this true? I doubt it. People do not have to have a great deal of money to have a good time. John D. Rockefeller probably did have a good time now and then, but look at the worry he must have had over all that money.

I think a man, woman, or child can have more fun with just a small amount of money than he could have with too much. A person who has only a small amount of money knows how to appreciate nice things when he gets them. On the other hand, a rich person gets them all the time and may not appreciate them or enjoy them as the poor person will.

A fine example of this is on Christmas. A small boy whose parents are well to do wants a stream lined bicycle for one of his presents. He always gets what he wants, but when his father goes to get the bicycle, the merchants do not have the type desired, so the indulgent father has to buy his spoiled son another one.

Down the street there lives a boy whose parents have almost nothing. Their boy has learned not to want much, but he can't help showing that he wants a bicycle for his Christmas present. His father goes to the second-hand store and buys a second-hand "bike" for his son.

When the two boys receive their respective gifts, the rich boy carries on because he can not get the type that he wants; while on the other hand, the poor boy cries with joy.

How much better it would be to strike a happy medium!

### ON TAXES

There is much discussion of taxes on every street corner now-a-days. I have set pen to this paper to show everybody in particular and no one in general my own little ideas on taxation.

Everything a person buys has a tax on it, whether he knows it or not. The tax may be very trivial, but again it may be large.

About twenty per cent of all money spent is spent upon taxes! Moreover, the rate is still climbing!

If a person were to inherit a million dollars, six hundred thousand would go to the Federal government as an estate tax, about three hundred thousand to the State government as inheritance tax. This would leave him one hundred thousand dollars to pay gift taxes, the county inheritance tax, the city taxes and lawyer fees.

When someone buys gasoline in Texas (which by the way has a smaller gasoline tax than most states) he would be surprised to know that it is taxed forty per cent of the full value.

Cigarettes are taxed about 80 percent in Texas. Think of what they would cost in a state with a sales tax, as in California.

All this goes to prove that no one can make any money but the government, so why not reduce the relief rolls, W. P. A. rolls, and other such organizations?

### KINDS OF PEOPLE I LIKE

By Gordon Rendall

I like the people that are careful in their speech and also in their dress. I like those that wear clean clothes, that have their shoes shined, their hair combed, teeth brushed, suits pressed, and their ties straight. These things make a person look neat. I like the kind of people that don't go around cursing, especially when they are with girls or women. I like the people that have good, clean thoughts and also good clean habits.

Even though people are the working class, they can take a bath every day and keep their clothes clean. The people that go to church and add to the collection, and take part in the sermon are the good class of people with whom everybody would like to go. But the good class of people with whom everybody would like to go have so trained themselves that they do not run around with every Tom, Dick and Harry. That is the reason that they are the good class of people.

A fly was walking with her daughter on the head of a man who was very bald.

"How things change, my dear," said the fly. "When I was your age, I had only a foot path."

### OZONA BASKETBALL TOURNAMENT

The annual Ozona Basketball Tournament will be held in the local gymnasium this coming week end, beginning Friday afternoon and continuing through Saturday night. The visiting teams that are expected are: Sonora, Del Rio, Eldorado, Big Lake, McCamey, Mertzon, Sanderson, Barnhart, Junction, and Iraan.

A large pedestal trophy will be awarded to each of the winners and runners-up of each bracket. Gold miniature basketballs will be presented to each boy of the first and second all-tournament teams, the coach of the winning team, and the most outstanding player, not represented on eight of the all-tournament teams of each ball club.

Pairings of the first round are Junction vs Barnhart, McCamey vs Mertzon, Sonora vs Del Rio, Sanderson vs Ozona, Eldorado vs Big Lake. Iraan drew a "bye" in the first round and will play the winner of the Junction-Barnhart game.

In previous Ozona tournaments Big Lake has won several times; Sanderson a time; Ozona with its mump delegation that was a potential state winner who fell by the wayside after claiming the coveted trophy of the tournament; and McCamey who took the winner's cup last year. All these teams will be back this year with their fighting spirit aroused. Be in the gym to see the Ozona Lions tackle the opposing teams and "keep the bacon at home."

### FORMER STUDENT MAKES GOOD RECORD

Word has been received by friends of Dudley Ingham, who is in the preparatory school at John Tarleton Agricultural College at Stephenville, that he has completed the required subjects for graduation from the academy and is now entering upon his college studies. Dudley has made a good record in his subjects and also in his military activities. His major work in college will be Animal Husbandry. The present students of Ozona High School, former students, and faculty join in congratulating Dudley.

### ECONOMICS CLASS

The Economics class of 1938 is having to confront with many difficult problems. Of course, there are some differences in opinion, so the class debates, very much. In fact, the Economics class is practically becoming a debate club.

### AN ORCHID TO YOU

An orchid to you basketball boys. We're wishing you all kinds of luck the 28th and 29th. We're also more than proud of you for winning the first half of the basketball league. Here's hoping you may keep it up.

### Lions Claim Pennant For First Half Ranch Area Basketball Loop

Locals Have Perfect Record In First Three Games Of League Competition

Thursday night, January 20, the Ozona Lions met the Sonora Bronchos in the local gymnasium to play for the championship of the first half of the newly organized Ranch District Basketball Conference which the Ozona, Sonora, Junction and Eldorado teams are competitors. The Lions claimed the game by three points, the final score being 20 to 17. The Ozona participants were Montgomery, Perner, Leath, M. Lemmons, Johnigan; while Sonora's were E. Archer, Taylor, Thorp, F. Archer, Elliot, and Simmons.

Eldorado defeated Junction the following night, January 21, leaving the following standing of the conference:

Team	W	L	Pct.
Ozona	3	0	1.000
Sonora	2	1	.666
Eldorado	1	1	.333
Junction	0	3	.000

### TWO SPEAKERS TALK HERE

The school was honored last week by talks from two noted Texans.

Gerald C. Mann, who was at one time assistant attorney general of Texas and also was a gridiron hero at S. M. U., Dallas, spoke to the high school body on Wednesday. His talk was very interesting and the students were very glad to have him among us.

The other speaker of the week was the State Superintendent of Public Schools, L. A. Woods. Mr. Woods spoke on Tuesday evening to the high school body. He is making visits to the Texas public schools and accompanied in this section by Miss Sue B. Mann, State Inspector of Public Schools in this district.

The importance of willingness to work for what one gets and of growth both physical and mental were stressed in two splendid addresses by these school representatives.

### CLASS CHANGES

A number of pupils are changing from one subject to another, some because of previous failures and some because the courses are changing.

The Math II students are now taking Business Arithmetic; the Civics students, Economics; English II and IV students have dropped literature for grammar; and English I and English III students are making the opposite change.

Daughter: "Daddy, what is your birthstone?"

Father: "I don't recall, but it must be a grindstone."

### GIRLS BASKETBALL

Last Tuesday the girls' basketball club made a trip to Iraan where they played the "Braves" girls' team at 4:30.

Starting the game as guards were: Maudie Mae Couch, Opal Oathout, and Mary Louise Harvick. Forwards were: Crystelle Carson; center, Jennie V. Schwalbebe and Posey Baggett.

Although the girls played a fair and clean game, the score was highly in favor of Iraan, being 60 to 10.

### BARNHART TOURNAMENT

Barnhart held its annual basketball tournament during the past week-end. Ozona basketball team assembled among a great many other West Texas teams, lost their competitive game to the Big Lake Owls with a score of 30 to 24. The tournament was won by the McCamey basketball club.

### PROWLER'S COLUMN

By Maurice Lemmons

I wonder what Philip S. and Jack B. were concentrating about in Barnhart Friday morning.

There seemed to be some girls over at the Barnhart tournament that thought some of the boys from Ozona were at least interesting.

I wonder if "Hungry Dozen" saw some good games at the Barnhart tournament.

What did P. C. P. have spotted in the crowd during the Eldorado game Sat. night.

Welton B. had his romance almost broken between him and his girl in Sonora, but he is a pretty good "go getter" so things are fixed now.

It seems that Emogene D. and Philip S. don't think much of my company. I liked to be around when they don't know it.

Crystelle C. and Lurinne T. seem awfully busy about something. I wonder what?

### THE SCIENCE CLUB

The Science Club met on Friday, January 21, in the high school auditorium to see the demonstration of picture developing by Dorothy Hannah and Lois Jones.

Mr. Guinn Caruthers, club sponsor, followed the demonstration by a talk on the developing of negatives and enlarging of pictures.

### CAMPUS PHILOSOPHY

By Mickey Couch

Nothing great was ever achieved without enthusiasm.

Opinion in good men is but knowledge in the making.

Education is not a mere operation; it is a cooperation.

There are pleasures and duties for each day of our lives, and we must do things today which are today.

If everything, everybody wished would happen, what a mess there would be in this world.

If we are art to some souls, why do we discriminate between the "good" and the "bad?"

Your best may be better than our best, but best is superlative from the standpoint of the individual and he gets the hundred mark, no matter whether the best is great or small.

The meanest trick is to unjustly abuse a worthy man.

When a man gets down, he is like a steer or a wolf. His fellows pounce on him.

If a man really loves a woman he will give up smoking for her, but if she really loves him, she won't ask him to.

To all the readers of this column I want to say that these sayings which you read are taken mostly from a book called "Brass Locks" by Col. Wm Hunter. I do not make all of them up myself. Mickey Couch.

### A CAREFUL READER

1. Reads with a definite purpose problem, in mind.
2. Grasps the author's point of view and central theme.
3. Lays hold of the order and arrangement of the author's ideas.
4. Pauses occasionally for summarizing and repeating.
5. Constantly asks questions of his reading.
6. Continually supplements from his own mental stock.
7. Evaluates the worth of what he reads.
8. Varies the rate of his progress through the reading.
9. Ties up what he reads with problems of his own.

She (in great animation) "What do you consider the greatest fault in high school?"

He (absently): "Howard Lemmons' by four sizes."

### BULLETIN BOARD EXTRACTS

Help Wanted: Mr. Caruthers wants a boy without a heart to think up the test questions for his Physics class. Hard work. Experience necessary. Steady work for the right one.

Wanted: By Carl Thurman - A good hair tonic. Anything that will make hair grow on wood will be given a trial.

Norman R. wants to know what they did with the man who was choking to death on a life saver. All information welcome.

Wanted: A muffler for Mr. Nelson. Also a new policeman for the hallway. It has been suggested by Phillip Schneemann that a few chairs would improve the track on the second floor which is policed by Mr. Nelson.

Wanted: A Vacation Great American Institution Sandwiches, Bargaincounters, Cwdooradvertisers, Brekkfussfoods, Weekenmotortrips, Talkinpictures Songandancenumbers, Drugstorcowboys, Installmuntbuyin.

Wanted: More and better Physics tests. Apply to I. B. A. Mutt & U. R. A. Nother.

### ITEMS OF INTEREST

You may think this strange, but today Chicago has more telephones than all Asia, Africa, and South America combined. Chicago also handles 8 times as much mail as the whole of the European country Norway.

For the 1937-38 school year registrations in U. S. colleges and universities reached a total of 1,200,905 full and part time students. United States has 602 institutions of higher learning. The University of California, with 22,995 students, has more full-time students than any other college in the U. S. Columbia University runs second.

Did you know that the original city of Boston is now a crowded foreign district? Paul Revere's home is still standing in Boston, is almost lost among Italian shops and tenements. Dublin and Belfast are the only cities in the world that exceed Boston in the number of Irish population.

Edward II, who was king of England from 1307 to 1327, was the first Prince of Wales.

Mr. C. S. Denham, our school

superintendent, became a Justice of the Peace once for almost a year, serving out the unexpired term of the justice who died.

### USE OF NEWSPAPERS

Almost anywhere anyone goes, he sees newspapers. Everyone should read the newspapers and see what is going on. This is an especially interesting year because it is State Election year. Congress is in session, many new laws are being made, etc.

Take advantage of the Dallas News and the Fort Worth Star-Telegram to be found in the Ozona High Library.

Mrs. Helen Barwell nearly wrecked a New York cafe in which she found her husband and his stenographer, but escaped arrest by paying for the damage she caused.

**Simplified Feeding Instructions Are Prepared By Experiment Station Expert**

**Balanced Ration For Steers Or Lambs May Be Attained Under Simple Feeding Plan**

By A. D. Jackton, Chief, Division of Publications

Simple instructions for combining a balanced ration for steers or lambs have recently been prepared by John H. Jones, Animal Husbandman, Texas Agricultural Experiment Station. Mr. Jones observes that the beginning feeder is too often confused by the term balanced ration. He states that a ration is made up of three things: roughage, consisting of cottonseed hulls, hay or silage; protein supplement, which in Texas means cottonseed meal or cottonseed cake; and grain consisting of grain sorghums, corn, barley, or rice; and what the feeder wants is a method or system of feeding which will give the steers or lamb a balanced ration from the time they start on feed and are thin until the time they are fattened. Mr. Jones remarks that a balanced ration consisting of amounts of grain, cottonseed meal, and roughage, recommended by feeding authorities, may be suitable when the animals are starting on feed or may be suitable only if they are on full feed and any one ration can not be suitable for steers or lambs for the entire feeding period. He recommends that from the start to the end of the feeding period, the steers or lambs should have all the roughage they will eat. The protein part of the ration may be supplied in a definite amount from start to end of the feeding period according to the age and type of animals. For Texas conditions this means that weaned calves should get about two pounds of cottonseed meal daily; yearlings three to three and one half pounds; and aged steers three and one half to five pounds, while lambs should receive from one third to two fifth pounds per day. If alfalfa or other legume is used for roughage then the cotton seed meal allowance should be reduced to one half these amounts.

The practical procedure is to open the animals and give them a fill of roughage while they are getting used to being confined, then in a very few days after the animals are filled up on roughage the full allowance of cottonseed meal can be fed. It is important to get the animals to eat all the cottonseed meal allowance before feeding any grain. Having got the animals to eating the roughage and protein supplement properly, it is then only necessary for the feeder to watch the amount of grain to be supplied and the steers

**ODD POWDER PUFF**

You can't beat nature. Miss Barbara Bronner, one of the many visitors to the recent New York poultry show, utilizes the crest sported by this white crested drake as a powder puff. She says it's softer than the kind you buy at the store.

or lambs will take care of that feature. Only very small amounts of grain should be fed at first. For lambs a twentieth of a pound per head is sufficient; for a calf, one half pound should be fed and for a steer begin with one pound of grain per day. The amount of grain should be increased gradually adding each day the starting amount until the animals show they have a ration high enough in grain. This is determined by watching the appetites and droppings to tell when to increase the gain. Mr. Jones cautions that the animals should not be allowed to get any where near to scouring and he states that under this plan the ration will always be balanced to the needs of the fattening steer or lamb for the reason that the ration was balanced in the beginning by using enough cottonseed meal to balance the roughage and as the feeding has progressed the added grain has replaced roughage in the ration. As animals fatten, they require a lesser proportion of protein and since the percentage of protein in this ration has decreased slightly as grain was added the ration accordingly remains balanced to the needs of the animals.

There is a very wide choice of rations possible on Texas farms in the profitable use of whatever feeds are available. If roughage is very abundant and grain relatively scarce, rations containing smaller allowances of protein and grain can be fed to cattle successfully by lengthening the feeding period so as to enable the consump-

tion of larger amounts of roughage than would be consumed in a short feeding period. Good finish has been secured at the Experiment Station by feeding rations of high roughage content for a period of some two hundred days. In these tests, the total amount of cottonseed meal or cottonseed and grain required was less than when the feeding period was shorter and the daily allowance of concentrates greater. In this type of feeding, the best available quality of roughage should be supplied, feeding all animals will eat from the beginning. The feed of cotton

seed meal should be from 1 to 5 pounds per head daily according to the size of the steers. The grain part of the ration should be fed sparingly, about 3 pounds per day for the first sixty days, 6 pounds for the second sixty days and about 9 pounds per day for the remainder of the feeding period. These amounts will give about two thirds as much total protein feeds and grain as would be fed in the ordinary high pressure feeding period of say 120 days and will enable the feeding of almost twice as much roughage as would ordinarily be fed in the feeding period.

withheld until the last sixty or The protein part of the ration may well be supplied and some of the grain replaced by cottonseed if the price is favorable. Yearling steers can be safely fed four pounds of cottonseed and two pounds of cottonseed meal daily. The grain allowance of say five hundred pounds per steer can be ninety days of a two hundred day feeding period.

"If a woman does housework for \$10 a week, that's domestic service; if she does it for nothing, that's matrimony."

**MEN... if You Promised a Penthouse stay out of the Doghouse by giving her Electric Cookery**

Men, if your wife had illusions of grandeur when she married you ... worshipped you as a super-man ... then remember this: *A disillusioned feminine heart is more to be feared than a woman scorned!*

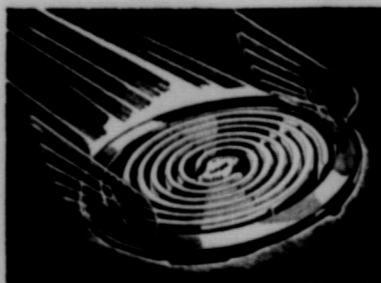

If she expected a penthouse, you're apt to land in the doghouse ... unless ...

All-electric houses no longer are illusions. And they're grand! Penthouses, of course, are rare in West Texas. Instead, we have electrified homes. They're better. And, fortunately, any home has all the grandeur of a penthouse if equipped with the right kind of servants ... Electric Servants. Electric cookery, refrigeration, dishwashing, water heating, sweeping, entertainment, food mixing, coffee making, sun tanning and clothes washing—all make every home equal to the luxurious penthouse ... a feminine dream born of fiction and suppressed desires. So, men, don't disillusion your wife by condemning her to another year, midst hated kitchen drudgery.

**WOMEN... Why Wait Until 1960 to Cook Without a Fire?**

It was recently predicted that "cold" or "magnetic" heat would be practical for general cooking purposes about 1960. It was demonstrated how an egg can be fried without fire by using high frequency current magnetically transferred to the skillet from an electric coil. That is "cold" or "magnetic" heat.

And that, ladies, is merely another form of *Electric Cookery*, which today is practical and available in every home already having the many other advantages of *Electric Service!*

**CALROD** is the name of Hotpoint's patented metal-sealed flat-top cooking coil that has revolutionized electric cookery. It has brought new speed, new cleanliness, new economy and longer life to electric ranges.

In the Picture: With an electric range, a bacon-egg-toast-coffee breakfast can be prepared in less than 10 minutes. Fix bacon and toast in oven while eggs fry and coffee percolates. Electric fuel for this type of breakfast costs less than three cigarettes.

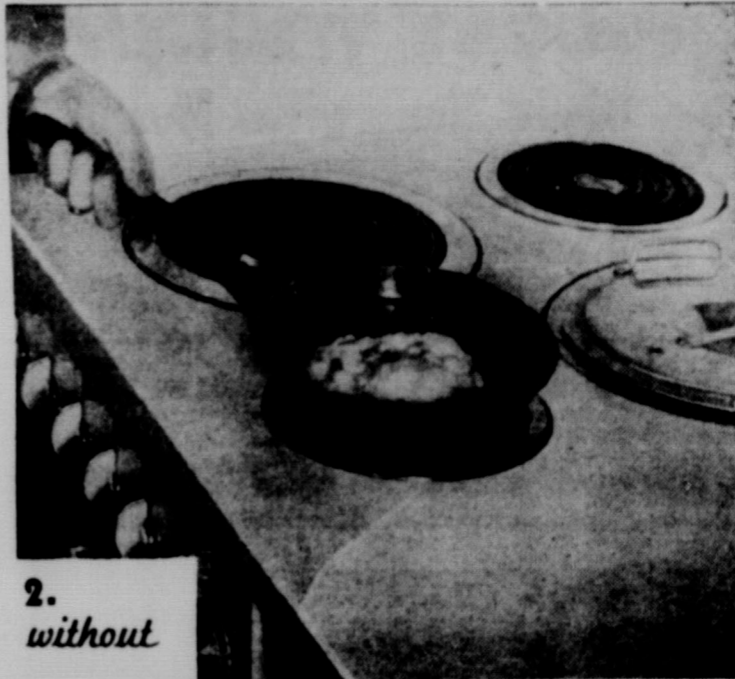

1. You have five cooking speeds in 1938 models. Use *super speed* to heat skillet. 2. Turn switch to *half speed* for frying ... or for fast boiling. 3. A second egg may be fried with switch turned to *quarter speed* ... an ideal heat for steaming fresh vegetables. 4. A delicious breakfast without smoke or fumes in kitchen or dining room! For other meals, you have two other *low speeds* for economical cooking of foods.

**West Texas Utilities Company**

ELECTRIC cooking is better cooking

1. You can cook ...

2. without

3. fire ...

4. right Now!

(Above photographs posed by Miss Virginia Blair of the WTU Home Service Bureau)

### Range Program To Be Extended To Entire State In 1938 Setup

College Station, Jan. 26—The range conservation feature of the 1938 Agricultural Conservation Program will apply to the entire state instead of to 173 counties in the western part of Texas as was the case in 1937, according to George Slaughter, of Wharton, chairman of the Texas Agricultural Conservation Committee which has been in session at Texas A. & M. College. He said that the committee had so interpreted a letter from I. W. Duggan, acting director of the Southern Region of the Agricultural Adjustment Administration.

Duggan's letter had this to say in relation to the range program: "Under the 1938 Range Conservation Program any ranchmen in Oklahoma and Texas who can make use of approved range building practices included in such program, where such practices are approved as being adapted to the particular area, and who can conform to the terms of the program, may make application for payment for the carrying out of such practices."

Many ranchmen not included in the 1937 range conservation area protested the division last year. The line as drawn in 1937 left out several of the principal cattle producing counties in the state.

Details of the 1938 range program have not yet been determined. Slaughter said, but he indicated that the practices for which payment would be made would probably be substantially the same as under the 1937 plan.

Range building practices under the 1937 program include natural

### Out Where the Winter Fun Begins

Snow spray sparkles in the sun at Yosemite national park as two skiers execute a double Christiana. Yosemite is only one of a number of national parks administered by the Department of the Interior that are famous for their winter sports seasons. Others include Mount Rainier, Rocky Mountain and Sequoia.

reseeding by deferred grazing, construction of dams for water reservoirs, spreader dams and spreader terraces, terraces and contour furrowing, and elimination of range destroying plants such as cactus, mesquite and lechuguilla.

Alleging that her husband annoyed her by eating his meals standing, Mrs. Helen O. Grab of Los Angeles sued for divorce.

### Unsanitary Public Rest Rooms Draw Fire Health Head

Austin, Jan. 26 — Filthy rest rooms used by the public of Texas cafes, taverns, filling stations and retail establishments are a menace to the health of the community and the state, and can not be further tolerated, it was announced

this week by Dr. Geo. W. Cox, State Health Officer.

"The State Health Department at this time serves warning to all concerned that public rest rooms must be maintained in a sanitary manner, under penalty of violation of the State Food and Drug Law, Article 695, which carries a fine of not less than ten nor more than one hundred dollars," Dr. Cox stated.

"Disease breeds in such places when they are allowed to be filthy, and disease is spread from one person to another, indiscriminately, under such conditions. Facilities should be available for washing the hands; toilets must be sanitary and kept that way. The rest room that does not meet adequate sanitary requirements is a reflection on the establishment which it serves and should be so interpreted.

"We ask the citizenship of Texas to join us in this campaign to clean up rest rooms that are filthy. Such conditions as are now prevalent throughout the state will not be tolerated any longer. When you find a rest room that is insanitary, report that fact to the management of your local health authorities. If the management takes no steps to clean up its rest room, you are advised to withdraw your patronage from that establishment in the interest of protection to your health.

Say "I saw it in the Stockman."

lying on the hospitality of Ozona people, school officials said, and residents who have available rooms are urged to communicate with Supt. C. S. Denham or Coach White at once so that the visitors may be assigned to rooms without delay on their arrival. Miss Mildred North and Misses Lorraine Townsend and Crystelle Carson have been named on a committee on housing, and persons who have available room may communicate with one of these.

Officiating in the tournament games will be Melvin Pittman of Iraan and Jake McCulley of Ozona. Clarence Nelson will act as scorer and timekeeper while Guinn Carruthers will operate the public address system over which the spectators will be informed of play and over which announcement will be made. Superintendent Denham is in charge of tickets and door receipts. Admission prices will be 15 and 25 cents.
