SAVE MONEY BY PAYING EARLY

Discount Your 1948 Tax Bill

This is a reminder that 1948 state, county and school property taxes are due.

It is a reminder, too, that you can save money by paying your taxes early through the discount schedule which is as follows:

3% Discount on Taxes Paid in October

2% Discount if Paid in November

1% Discount if Paid in December

Taxes are payable through January and become delinquent after February 1.

ADD POLL TAX TO YOUR PAYMENT

The tax bill you receive this year does not include the poll tax assessment as in former years. If the poll tax payments for your family are of record in our office, it will be necessary only that you add \$1.75 for each poll (No Discount from Poll Taxes) to the net amount of your tax bill. However, if you are a new poll tax payer in this county, it will be necessary for you to call at the office in person to pay your poll tax.

Texans Will Elect Jack Porter, Declares

Wheelock said that the belief of most Texans that fraud had been committed in several South Texas counties was one of the main factors in the swing to Jack Porter. He cited the overwhelming vote cast in Duval county in favor of Lyndon Johnson as one of the big reasons Texans will break party lines and split the ticket.

"The Democrats know that in Duval county, Lyndon Johnson received 4.611 votes and his opponent, Coke Stevenson, 40 votes in the runoff primary," said Wheelcsk. "Thus Johnson received more than 99.1 per cent of all the votes cast in that county. This is a greater percentage than the communist party receives in Russia.' '

ter, former Democrat, now a can- form the backbone of Jack Portr's strength," said Wheelock.

"Porter's strength is not confined to any one section of Texas or any group of citizens," said Wheelock. "It is statewide and comes from people in all walks of life. Texans are convinced that Porter is qualified to fill the high office of U.S. Senator and they have serious doubts about the legality of the Democratic nominee. They also know that Porter will be seated when elected."

Jack Porter, who was born on a farm in Parker county, is a strong advocate of States' Rights, protecting the Tidelands for the school children of Texas, the Bill of Rights and constitutional government. In his campaign he has stated he will bitterly oppose the F.E.P.C. legislation of both Republicans and Democrats and that he will vote his own convictions and not those of any party.

SPORTS

By Bud Hoover

Ozona is planning to have the largest basketball tournament they have ever had here, this year. They plan to have sixteen teams entered in the two-day meet. The meet is to be January 28 and 29.

Ozona's football squad was cut from 34 to 17 members last week when sixweeks grades came out. Those who failed can be eligible for the Eldorado game if they are passing at that time.

The Junior-High plays their last game in Iraan Nov. 4. They have won two and lost three this sea- Burch. son, so they have a chance to break Mr. Jorma Arthur Pelto has

From where I sit ... by Joe Marsh **Want To Join** Our Club?

Newcomers to our town are puzzled when they hear talk of "The Barbecue Club." Want to know who can join, and what the purpose is.

Well, the answer is: any one can join who's neighborly inclined. The purpose is simply to enjoy good food, good beer and ale, good conversation - all towards getting to know one another better.

Every other Saturday, at one farm or another, the pit is dug, and the fire started. And by sundown, neighbors from miles around have come together-the women

contributing cakes, pies, and coffee, the men contributing the meat for barbecuing, and the beer or ale.

From where I sit, it's this simple wholesome side of country life in America - its spirit of good-fellowship-that makes for tolerance and better understanding between

As I say, Neighbor, any one can join up! So come along a week from this Saturday.

South Elemenary

in the South Elementary School.

Forty-five minutes of physical education is required for the students each day, where touch football is played by the boys, volleyball by the girls and softball by boys and girls.

There are ten teachers at the school who are Miss Chapman and Mrs. Stoker teaching first grade, Mrs. Nell Smith, second grade, Mrs. Tabb and Mrs. Tabor third grade, and Mrs. Bailey fourth grade, Mrs. Worthington teaches junior high reading, writing and art, Miss Mitchell, Math, Mrs. Hull, Science and Health, Mrs. Harris, social studies, and Mr. Plunkett, English and spelling.

The foundation of the new building has been completed. Work on the building has been delayed because of bad weather.

HIT PARADE

By Chris Perner A survey has been taken from some of the students in O.H.S. to find their favorite song. This is

the list we received. Armond H. - I'm Just a Ringfail Tooter.

Joan H. - Love Somebody. Ray P. - It's Been a Long, Long

Time. J. G. - Down in Monkey Town. Chris P. - Never, Never Trust a Woman

Louise Wood - Star Dust. Lin H. -- I'll Dance at Your

Wedding. - You Were Meant for Me.

Sonny M. - Hair of Gold, Eyes of Blue. Rosalie F. - Till Then.

Frank P. - Nobody Knows

Sue M. - Hankering. Jimmie C. - Cigarettes, Whiskey and Wild Women.

Rosalio L. - Consuelita. Kenneth P .- It's Been so Long.

Ramon G. - My Happiness. Tissie C. - Oh, My Aching John M. - Cherokee Love Song.

Frankie C .- Three Little Fish-Kenneth P. - It's Been So Long.

FOR SALE - Twenty-acre oil lease 25 miles southwest of Ozona near Illinois pipe line 5. Make fair offer and we can do business. J. C. Carl, Dayton, Wash.

Only Chevrolet Advance-Design Heavy-Duty Trucks Have All These Features

4-SPEED SYNCHRO-MESH TRANSMISSION-This entirely new heavy-duty transmission in one-ton and heavier duty models enables the driver to maintain speed and momentum on grades!

SPLINED REAR AXLE HUB CONNECTION—Another Chev-rolet truck innovation, this fea-ture insures added strength and greater durability in heavy hauling.

FLEXI-MOUNTED CAB Mounted on rubber, the cab is cushioned against road shocks, torsion and vibration.

THE CAB THAT "BREATHES"

driver comfort with the cab that "breathes"! Fresh air is drawn in and used air is forced out! Heated in cold weather

IMPROVED VALVE-IN-HEAD ENGINE-The power-packed Chevrolet Load-Master engine, world famous for economy, is now even more durable and

Uniweld, all-steel cab construction . New, heavier springs . Full-floating hypoid rear axles in 14-ton and heavier duty models Hydrovac power brakes on 2-ton models • Ball-bearing steering • Wide base wheels · Standard cab-to-axle dimerisions . Multiple color options

CHIVEOUT You're in for an eye-opener when you try these new, big Chevrolet heavyweight champions. Our guess is you've never driven a truck with more get-up-and-go . . . more ease of handling . . . more style and stamina . . . more downright, real value! For combined with all their bigness and power and premium quality, these trucks have 3-WAY THRIFT. They bring you low cost of operation, low cost of upkeep, and the lowest list prices in the entire truck field!

You Can't Swim the Mississippi with a Million Head of Cattle

The Mississippi River always has been the "continental divide" in the geography of the livestockmeat industry. In the old days the great herds of longhorns trailing north from Texas had many rivers to cross. The Red. The Canadian. The Big Blue. The Platte...but there was never a trail that ended east of the Father of Waters. The Mississippi was, and is one river you couldn't swim with a million head of

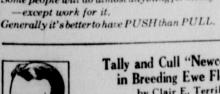

It's a staggering job to get the nation's meat from producer to consumer. Two-thirds of the meat aninals are produced west of the Mississippi . . . two thirds of the meat is eaten east of it. On the average meat has to be transported more than 1,000 miles It's a big job—a huge job. Just consider: in 1947 alone, this job of getting the nation's meat from the farm and range to the cooking range involved 32,158,000 beef animals, 24,044,000 sheep and lambs, 82,579,000 hogs!

Harvesting any national crop-from wheat to meat is a big job. Big machines are needed. Who uses binders when combines are more efficient? Similarly, in the processing and nationwide distribution of meat it takes large-scale, efficient "machinery." There's a need for all of us—producers and meat packers; ship-pers and marketing people; transportation lines; wholesalers and retailers. We all play a part—whether we are individuals or companies, whether we operate locally or on a nationwide basis.

Over the years, we at Swift have worked to perfect our nationwide system of marketing. We, and 26,000 other commercial slaughterers, provide a competitive cash market for your livestock. We buy your animals and dress them. We process and refrigerate them. Then, we distribute the meat to retail store men everywhere. (Our earnings for all these essential services are only a fraction of a cent a pound.) Because this big job is done efficiently, you producers are assured of markets... consumers everywhere are assured of meat. We at Swift & Company are proud of our part in building the "1,000-mile bridge"; the "bridge" which carries meat from the point of surplus production to the point of consumption. So long plus production to the point of consumption. So long as all America wants meat it will take efficient nationwide organizations to bridge that 1,000-mile gap.

Soda Bill Sez:

Time counts unless you're counting time. Some people will do almost anything for money -except work for it.

Tally and Cull "Newcomers" in Breeding Ewe Flocks by Clair E. Terrill United States Department of Agriculture

As you swing the cut gate, you can increase total salable lamb weightyour margin of profit. For here you Clair E. Terrill can cull ewes that are barren in their first lambing season. You can also cut out those unable to raise singles in their first lambing the control of the ing year. These ewes often get by on their appearance alone. For frequently they are heavier wooled

ance alone. For frequently they are heavier wooled and in better condition than nursing ewes. But they do not always pay their way.

Recent research has proved that subsequent market lamb production from such dry ewes may not justify keeping them in efficient commercial breeding bands. Experiments with Columbia range ewes at the U. S. Sheep Experiment Station, Dubois, Idaho, established this fact. There is a definite relationship between the total weaning weight of lambs produced in the first year and in the three following years of lambing. years of lambing.

All ewes that twinned the first year, regardless of whether the lambs were raised, weaned 19 pounds more lamb weight in the three years of study than ewes that failed to lamb—five pounds more than ewes which did not rear their first single lamb. Ewes that dropped and raised singles had 16 pounds greater annual lamb yield thereafter than ewes which did not lamb. And ewes that did not rear their first lamb later produced 14 pounds more lamb weight yearly than ewes which were barren their first lambing season.

So, to increase efficiency in market lamb production, tally "newcomers" in ewe herds at breeding time. Then mark barren low-producing ewes for culling after the lambing season. All ewes that twinned the first year, regardless of

UNION STOCK YARDS CHICAGO 9, ILLINOIS

Government reports tell of farm and ranch income from livestock that totals more than 17 billion

All That Glitters

Isn't Profit

dollars. Many folks read those reports and say—"No wonder meat is so high. Livestock producers must be coining money.

That is a thoughtless comment, based on mis-understanding. That 17 billion dollars is not profit it is gross income. Many expenses must come out of your gross livestock income before you can make any profit on it. There's the cost of breeding-stock and feeding-stock . . . of your hired labor . . . of feed, machinery, equipment. All these costs are at all-time high levels. Out of your gross income also must come property and income taxes, interest: insurance premiums; repairs; new buildings; fences; death losses, etc. After you've paid all those necessary business expenses, you're lucky if you end up with 10 or 15 per cent profit.

A lot of people are just as wrong about Swift's profit as they are about yours. They look at our total sales of 2½ billion dollars last year and say— "That's a barrel of money. No wonder meat is high!" But the fact is that competition in both buying and selling is so keen that from those 24 billion sales dollars an average of 79¢ went to pay you for your livestock. 10¢ for pay to our employes. 6½¢ for supplies and other necessary business costs. 3¢ for taxes and transportation. All we had left as earnings was 11/2 c.

Yes, in our business, as in yours, there's a big difference between gross income and net profit!

Martha Logan's Recipe for

CHICKEN A LA MARYLAND

Cut a cleaned hen into serving pieces. Season. Dip into egg diluted with milk, then roll in sifted cracker crumbs. Brown in a 1/2-inch layer of shortening. Add a 1-inch layer of rich milk. Cover. Bake in a moderate oven (350°F.) 2 hours. Remove the cover and bake 15 minutes. Make a gravy, using the liquid in the pan, to serve with the chicken. Serve with Pickled Orange Slices.

PICKLED ORANGE SLICES 1/4 cup vinegar

6 cloves for each orange slice Boil orange I hour. Cut in slices 1/2-inch thick. Stick cloves on rind of each slice. Boil together sugar and vinegar 5 minutes, Add orange slices. Simmer 15 minutes. Serve hot or cold.

LIKE TO FEEL THIS UNDER YOUR TOE?

Step out with Brand-New Fireball Power in your old Buick

THIS is a brand-new Buick engine. It's fresh from the factory - straight from the same assembly line where the engines in 1948 Buick cars are built.

If you'd like to boss it around-mister, that's easy, if you have any Buick built since 1937.

All we need to do is take out your old engine -and put this one in.

Then you can feel the thrill of a brand-new Fireball engine. You can enjoy all the pep, power and performance that you'd get if you had a 1948 car.

It's spick and span, from head to pan, with all the features that make today's Buick engine the pacesetter of the power parade.

And it can be yours in less than two days. Look at the list of what you get - the most complete power package ever. There's a brand-new ignition system - brand-new clutch, pistons, pins, rings, valves-even the water pump.

We can make this offer because engine output has outstripped new-car production at the factory. The cost? Much less than you think, although it varies a bit from model to model.

Come in today for detailed figures on bringing your old Buick right up to date on power.
