## Sgt. Aaron D. Bledsoe Of Ozona With First Cavalry Div. in Korea

The war in Korea, where the fuse of World War III seems to be burning shorter and shorter, came little closer to Ozonans this week with announcement that a popular Ozona young man, Sgt. Aaron D. Bledsoe, son of Mr. and Mrs. A. D. Bledsoe, is now attached to the embattled First U. S. Cavalry Division in Korea.

Sgt. Bledsoe, a veteran of World War II, with a record of combat service in Europe until V. E. Day which found him in Germany, and occupation duty in Japan until 1946, was one of the Army reservists called up for active duty as a result of the Korean fighting. He reported at Camp Hood September 26 and was sent immediately to San Francisco, Calif. He sailed for overseas duty from there October 24 and landed in Tokyo, Japan, Nov. 10. Two days later he shipped to Korea to join the First Cavalry Division on November 16.

For the past two years, Sgt. Bledsoe had been associated with the South Texas Lumber Co. here where his father is employed. During World War II, he was attached to the First and Third Armies, with the 97th Division. He participated in two major battles in Germany and has the Combat Infantryman's Badge, and the Bronze Star.

Mr. and Mrs. Bledsoe, who moved to Ozona from Mereta two years ago, have three other sons, one now in the service, another a veteran of World War II, and the third a student in high school here. Pfc. William Gene Bledsoe is a radio operator with the Airway-to-Air communication service at Lowry Air Force Base in Denver, Colo. He joined the Air Force in July, 1949, after graduating from Eola High School in May.

Charles L. (Chuck) Bledsoe served in the U. S. Navy in the last war, serving aboard the U. S. S. Pennsylvania until 1946. After his discharge he married Miss Louise Jacoby of Eola. He played professional baseball in the Bayou La Fourches League at Thibodaux, La., last summer and he and Mrs. Bledsoe are spending the winter here.

The fourth son of the Bledsoes is Kenneth (Rabbit) Bledsoe, a junior in high school here.

## Walking Blood Bank Typing To Begin Monday

### Citizens Urged to Co-Operate in Move to Establish Bank

Ozona citizens, men, women and children, all ages and all colors, are urged to cooperate in establishing an Ozona "Walking Blood Bank" being sponsored here by efforts of the Ozona Rotary Club and the Ozona Hospital laboratory.

The first blood typing will begin next Monday morning with three days each week devoted to this work by Mrs. Valentine Melvin, medical technician and manager of the Ozona Hospital. Volunteers are asked to call at the hospital laboratory at any time between the hours of 8:30 a.m. and 5 p.m. on Mondays, Wednesdays and Fridays of each week. Actual expenses of the blood bank are being borne by the Rotary Club and no charge will be made on any individual.

Volunteers will lose but a few minutes of time in giving the blood sample and what little information will be required for the cataloging system to be maintained at the hospital. The whole process will consume less than five minutes of time from each volunteer. Mrs. Melvin said, and there likely will be little waiting for turns and thus little time lost in giving the blood sample.

It is hoped by this move, believed one of the first such undertakings in the state, to establish a protection for citizens of this community in case of emergency. By having blood types on file, valuable time may be saved in case of accident by having this information available immediately, and also by having available a list of possible donors in case of need.

Persons who submit to the tests will not be called upon for blood donations without their previous consent to such call. Mrs. Melvin explained. But by having such tests already made, and blood type catalogued, the system will serve as a protection for those who have such tests made. If a person is willing, in emergency, to donate blood for transfusions to another person, such information will be recorded on the card.

## Sixth Grade Club Teaches Parliamentary Procedure, Leadership

The first session of the Sixth grade, Ozona Junior High school, has organized a class club which meets each Monday during History class. Alan Boedeker, history instructor, is club sponsor.

The purpose of the organization is to train members in parliamentary procedure and the responsibility that goes with leading and conducting an efficient organization. Officers are elected each nine weeks period so as to pass around the opportunities for leadership training.

Recently the club held a hot-dog and cookie sale which netted \$20 to the club treasury. The class has voted unanimously to make a gift of \$5 each to three charities: the Infantile Paralysis fund, the Cancer Society and the American Heart Assn. The class members feel this will add to their Christmas spirit and help make someone else happy as the Christmas season draws near.

Class members of the organization are: Ann Baggett, Lou Nelle Beall, Cecilia Ann Cooke, Barbara Guthrie, Gerald Dean Long, Janie Norrie, Tommie K. Parisher, Mary Lou Johnigan, Beverly Moore, Jacqueline Williams, Frank Taylor, Durwood Wylie, Don Lott, Tommy Greer, Jesse Marley, Joe Pierce, Tom Robison, Ray Glen Sutton and Douglas Moore.

**KR Bluestem Grass  
Found Resistant to  
Droughty Conditions**

COLLEGE STATION. — King Ranch bluestem grass stands droughty conditions well because it is a deep rooted plant. This is the conclusion arrived at by Felix Meier of Gillespie county.

C. A. Stone, county agent of Gillespie county, reports that Meier planted K. R. bluestem on his ranch three years ago. He scattered seed by hand on open ground, along diversion terraces, and down in draws. A few of the seed sprouted and the plants made seed the following summer.

In September of this year, lots of small seedlings could be found in the seeded areas, and several of the old plants were in full seed. Meier says he also found that K. R. bluestem produces seed three times a year.

Many of the plants on Meiers ranch produced their seed with the seed stalk flat on the ground, because cattle, deer and sheep kept nibbling on the green forage during the spring and summer. A. H. Walker, range specialist for the Texas A. & M. Extension Service, says that this is characteristic of K. R. bluestem. It will produce seed under very heavy grazing conditions.

However, Walker points out that K. R. bluestem, like all grasses, does better when it is not continuously and closely grazed.

The Ozona High School Band, under the direction of Willard Skelton, marched in the San Angelo Jaycees Christmas parade in

downtown San Angelo Tuesday afternoon. The Ozona band was credited with having made the longest journey to enter the parade.

Mr. and Mrs. Joe Pierce have returned from a trip to San Antonio and South Texas points where Mr. Pierce attended some cattle sales.

ON THE LORD

Two great football games ended in a near-deadlock. Both came to a halt several times because of a penalty spoiled

know what it means to sometimes it seems that our way through good chances to get things a little too late. Timing is vital things in good liv-

a tide in the affairs which taken at the flood, says Shakespeare. We may put a thing off because we dread it, or because we are lazy. But to wait until God says, "Now!" is another thing.

Not only does it take humility to wait on God, but it also takes faith. We have to believe in Him, and that He has His finger in every pie. It takes discipline of the will.

right time. Nothing falls too early or too late for them. It is as if some invisible Hand were guiding them, now holding them back, now pushing them ahead.

If you see such a one, the chances are that you are seeing a God-led life. I do not mean the occasional lucky strike that may come to all, once in a while. That might be clever thinking, or sheer luck. I mean the life which is consistently in right timing.

The first thing is to get the heart lined up with God's will. A headstrong, self-willed individual over-trained football team, we or late. One has to learn to bend his neck, to listen, to wait until God says, "Move!" This is not easy. Waiting is one of the hardest things in the world to do. Waiting is not the same as procrastination.

Here is good health, the remedy for the feverish haste that burns up our days, the anxious and sleepless nights, the brittle tension that sends us to early graves, the nagging doubt that spoils every joy, the sense of loneliness and fear. The heart that knows God is never lonely, never anxious, and never afraid. It believes that God and goodness are seeking the man, even as the man seeks for them. And when they come, this soul takes them as simply, as easily, and as gratefully as a little child takes bread from its father's hand.

John Burroughs puts it this way:

"Serene, I fold my hands and wait Nor care for wind or tide or sea; I rave no more 'gainst Time or Fate,

"For lo! my own shall come to me."

Serenity is possible when we quit making ourselves responsible for everything, and let God take the wheel. We can be sure then that whatever belongs to us will seek us until it finds us. Our calm and peace is rooted in the deep faith that,

"The stars come nightly to the sky;

The tidal waves unto the sea; Nor time nor space nor deep, nor high,

Can keep my own from me."

Long ago, some man who was tired of the fumbling fight, decided to listen and wait for God. He said, "My soul waited for the Lord, more than they that wait for the morning. Wait, I say, upon the Lord."

## Lioness Volleyballers Trim Faculty Women

The Women Faculty with all their fanfare failed to awe the Ozona Lionesses volleyball squad sufficiently in their battle Tuesday night. The girls trimmed the women, 42-32, to even up the two-year-old series.

The women jumped to an early lead but the girls overcame it with less than a minute to go in the first half and led 16-15 going into the second period of play. From then on, the girls soundly routed the women. At times, the women showed flashes of their much heralded playing ability, but could never overtake the hard playing Lionesses.

It was a second string Lioness that gave the outstanding performance of the night. Sophomore Doris West tallied 13 points when serving, to cop high honors. Cupie Harris was close behind with 11 points for the women.

Starting for the Lionesses were Bettye Maness, Marion Mock, A-lena Powers, Vivian Trotter, June Perner and Leona Cunningham.

The Women started Billy Sealy, Faye Joiner, Jane Cody Cupie Harris and Polly Hearne.

## MEET THE NEW BASKETBALL TEAM

If anyone happens to notice a 5 foot 7 inch, 130 pound, junior class president wearing black wavy hair and blue eyes, sitting in fourth period Bookkeeping class looking very confused, it's likely to be Joe Bailey.

Deerhunting, basketball and steak top the list of favorites for Joe and he says his pet peeve is Mr. Massingill's attitude toward chewing gum, but he also states that his favorite teacher is Mr. Massingill.

As to athletics, Joe seems to prefer basketball. His freshman year, he was manager of the basketball team and last year he lettered. As to the team's prospects this

year, Joe says "pretty good" and that they certainly hope to beat Big Lake Friday night.

Oh yes, when asked, "What about girls," Joe's reply was, "What about them?" But he finally came out with the fact that he prefers blondes who are not stuck up.

## EDITORIAL Basketball Season

by Pat Hickman

Football has come to an end and the next thing in-line in the field of sports is basketball.

There are many Ozona fans who didn't attend our football games, or, if they did, they left before it was over. I've heard lots and lots of different excuses and the main one seems to be "too cold." Well, I've got news for all Ozona fans. Basketball is an indoor game and is generally played in a heated gym, so you're either going to have to find a new excuse or come to our games, and we certainly hope you decide to attend the games because once you're there, I can guarantee you'll enjoy it.

In order to enjoy the game, Ozona doesn't necessarily have to win. Of course, it always helps to win, but a game can be enjoyed by the spectators if the boys are doing their best and everyone is keeping up a good school spirit.

And speaking of school spirit, not only does it mean cheering our team on to victory but it means having respect for the other team as well. Sometimes yelling and booing at the other team is certainly tempting but let's keep in mind that it does more harm than good because it gives visitors a bad impression of Ozona.

Let's keep these things in mind and enjoy a good basketball season this year.

How Do You MEASURE a Life Insurance Man?

WHAT we mean is this—if you are about to invest in life insurance, on what basis do you choose your agent? Don't let it be a first-come first-served hit-or-miss process of selection. Measure him, and be sure that—

- He represents a financially sound, well managed company. He understands your particular life insurance needs. He knows his business well and that you can accept his counsel with complete confidence. He will provide continuing service in planning and adjusting your insurance program throughout your lifetime. The confidence of Texans in Southwestern Life and its agency force has been well demonstrated for 48 years. Texans, by their investments in Southwestern Life Insurance, have made this the largest life insurance company in the nation operating exclusively within one state (Texas). Today a quarter million Texans own more than 800 million dollars of Southwestern Life insurance. These figures are important; they strongly support the conclusion that Southwestern Life agents measure up!
