POLITICAL PARTY

going to be one of those election years when will not matter much. I will feel free to vote. And that is a good thing. I voted the Democratic ticket of my life, partly because Daddy before me was a Democrat and I got the habit of it, and partly because I like a Republican. I have been a Democrat mostly because I think of anything better. A lot of other people are on the same boat.

As a Democratic party, I really isn't any such thing as a Democratic party. It is just a big bunch of different kinds who are all Democratic ticket because they think it is to their advantage to do so. When F. D. Roosevelt was in the White House, I was in the opposition if you will. I was a Republican in his cabinet and began to angle for the Republican groups with various groups. I knew that the best way to get a man's vote is to do something for him, or promise to. He is doing something for the laborer, something for the government job for the jobless. After twelve years he had lumped together the Democratic fold the big party has ever had country.

Truman has followed the policy. Four years ago the Democrats and Dewey also were Democrats to stay in. I was being afraid to come out with new. All Dewey had was, "Me, too." Dewey effect, "We have nothing to offer you that you do not already have, but we can do more than the Democrats are doing."

The voter reasoned this in spite of inflation and taxes and a bureaucracy eating us up, we are pretentious. Maybe we'd better get enough alone." After talking to Truman, most of us who voted for Dewey may be an honest man but he is careless about his company he keeps and this is now catching up with us with us, too. Because of the ones who say ultimate for the mink coats.

There is no difference between the Democrats and the Republicans on tariff policy. Since our neighbors have no money which to trade, that's a fact now. With the tariff out of the way, there is no difference of principle between the two big parties.

He throws together a platform which is calculated to rake in the votes. If we are used to either Republican or Democrat. Today many feel that we are independent. The independent voters are going to elect the next president, therefore the campaign will be directed mostly to independent ears.

Whoever will be the Republican nominee and he will get many Democratic votes. The Republicans are smart enough to put their name on the ticket as Vice Presidential candidate, but I doubt if they are more than likely, they will be their time fighting among themselves. The former Solid South is going to be hard to handle, and no one can tell what will happen.

They are getting powerfully taxes, bureaucratic bungling, arrogance, official corruption and general cussedness. They are mad as hell that if a competent leader can get them together in an independent party, that party could be continued on Last Page)

Traffic Safety Drive Launched By Officers Here

D. P. S. and Sheriff's Dept. Cooperate in New Measures

Department of Public Safety and the local sheriff's department have mapped plans for a local traffic safety campaign which will bring about parking restrictions in the downtown areas and control of traffic at dangerous intersections, Sheriff V. O. Earnest announced this week.

The State Highway Department also cooperating in the plan to minimize local traffic hazards, will assign a local maintenance crew to the job of painting curbs to indicate restricted parking areas, marking speed zones along the two highways traversing the town and installing stop signs at all street-highway intersections.

The first area to be marked for parking restrictions will be at the intersection of Highways 290 and 163 in the business area. This intersection, because of the through traffic on the highways, particularly Highway 290, is considered one of the most dangerous spots in the city.

Parking too near the corners at this intersection, as practiced at present, adds to the hazard of the crossing traffic and the first move will be to restrict parking at the corners of this intersection, Sheriff Earnest said.

The Highway Department will mark speed zones on highways in all directions, indicating zones in which speed must be reduced as vehicles near the town area and the highway intersection.

Metal stop signs are to be installed on all streets intersecting highways and parking restrictions will be marked off at all intersections to provide better visibility.

"The traffic safety plan for Ozona has been worked out in consultation with the Department of Public Safety and with the cooperation of the Highway Department," Sheriff Earnest said. "It will be up to the sheriff's department to see that motorists observe the new rules. We sincerely hope that Ozona people will cooperate in observing all the restrictions on parking and crossing at intersections. I hope and believe that all of us will be able to recognize the advantages of the new plan and that all will cooperate with us in observing the rules. We will inaugurate a system of warning notices may result in trouble for persistent violators. But I hope that prosecution will not be necessary and that we may have a safer town by reason of the new plan."

Ozona Runner-Up For Championship of Eldorado Tournament

Ozona High School Lions took the second place championship trophy in the annual Eldorado High School basketball tournament the past week-end.

Tom Piner of the Ozona team was unanimous choice of the coaches for a place on the all-tournament team.

The Lions defeated Uvalde in the opening round, eliminated Sonora in the semi-finals and lost by a two-point margin to Iraan in the championship game Saturday night. The locals overcame a 27-13 deficit at the end of the third quarter with a volley of baskets in the final period which netted them 14 points while Iraan was able to score only two points in the quarter. But the Braves copied the ball from the red hot Lions in the final seconds and froze it to take the championship by the two-point margin. Hickman scored 10 points to lead the Lions in the scoring.

Del Rio won the consolation trophy by nosing out Eldorado 56-54 in an overtime thriller.

Mr. and Mrs. Ross Perner of Seligman, Ariz. were here this week visiting relatives.

Giant Eagle Killed On Harrell Ranch

A huge Mexican eagle, too big for his own good, was killed on the Alvin Harrell ranch northeast of Ozona Tuesday afternoon by Ranch Foreman Lester Allen.

The big eagle had a wing spread of seven feet and a body almost as bulky as a turkey gobbler. Allen jumped the big bird while it was feasting on the carcass of a dead sheep. (The bird had not killed the sheep, Allen said.) Allen was in his pick-up and set out in pursuit when the eagle attempted a take-off.

Apparently unable to make a quick ascent because of his weight, the eagle skimmed along the ground trying to gain altitude. Allen was in hot pursuit in his pick-up firing at the big bird with a shotgun. The fourth blast from the gun took effect in the eagle's head and he plummeted to earth.

A smaller eagle, thought to be the big fellow's mate, has been seen on the ranch and Allen has reloaded his gun in the hope of catching her off guard.

Payment Of Poll Taxes Lag; Jan. 31 Payment Deadline

Election Year Voting Right Depends on Poll Payment

Only twelve days remain in which to pay poll taxes to qualify for the right to vote in this election year of 1952.

January 31 is the last day when poll taxes may be paid and the voting right established, reminds Sheriff V. O. Earnest. Your tax collector has no authority to extend the deadline and unless poll taxes are paid before the deadline the right to vote in the elections for precinct, county, state and national officials, to the president, will be sacrificed.

Poll tax payments are lagging behind expected totals at this time in the tax paying period, Sheriff Earnest said. Determined campaigns are being carried on by organizations in the more populous centers to induce qualified voters to pay poll taxes this month.

Sheriff Earnest also reminds Crockett county taxpayers that January 31 is also the deadline for payment of property taxes without penalty. Most of the local tax bill has been paid, final figures not yet complete but there are still some unpaid taxes and those who have not done so already are urged by the sheriff to avoid the penalty charges by making payment before the end of this month.

Elimination Of Health Hazards Clean-Up Goal

Trash Hauling Set for Fri. Jan. 25; Cooperation of All Asked

Sponsored jointly by the Woman's Forum and the Ozona Woman's Club, with the support of other organizations, a citywide clean-up campaign in Ozona which is aimed not only at surface cleaning for aesthetic effect but at complete elimination of insanitary conditions which might lead to disease outbreak, was launched this week.

Outbreak of polio, virus X infections and other diseases in recent days here has prompted clean-up committees to attempt to line up every householder in Ozona in the fight on filth and rubbish, breeding spots of flies and mosquitos, rat harbors and every other insanitary condition within the city area.

Friday of next week, January 25, will be C-Day in the campaign, when all accumulated trash and rubbish is to be hauled by a fleet of trucks and pickups provided by the county and individuals who have donated use of such vehicles in the citywide cleanup drive.

There are conditions which need correcting all times of the year, a spokesman for the sponsoring organizations said, and a wintertime cleanup is being undertaken as a means of preventing early Spring disease outbreaks if possible and to remove rubbish accumulations which are likely to have been overlooked through the indoors winter months.

One of the greatest health menaces is the fly and effective control is a matter of removing their breeding places permanently, authorities declare. This insect is a known vector of dysentery organisms and is suspected of complicity in the transmission of polio virus, these officials say.

"The most important point to remember in municipal fly control is that the use of insecticides such as DDT is a supplementary measure and not a substitute for proper environmental sanitation," a bulletin of the Texas State Health Department says. "Every fly control campaign should begin with a comprehensive survey, and correction, if necessary, of local insanitary conditions. If proper disposal of decaying animal and vegetable matter is made and all breeding places destroyed, adult flies will not constitute a problem."

Success of the local cleanup campaign will depend on the cooperation of every householder. Ozona residents are asked to begin now to make a survey of their own premises, to eliminate any condition which might become a breeding place for flies, mosquitos or other insects, and to remove all accumulations of rubbish.

All accumulated rubbish will be hauled away free of charge on Friday, January 25. County commissioners have promised to provide trucks for this work and individual owners of pickup trucks have volunteered to help in the campaign by lending such vehicles for the Friday hauling job.

Residents are urged to begin NOW to make their own local cleanup.

"Your immediate start will inspire your neighbors and an extremely contagious campaign is what we are driving for," the cleanup committee spokesman said.

Copies of Soil Conservation Magazine Sent Landowners

Landowners around Ozona are receiving their first copies this week of the landowners' magazine, a sort of grass-roots publication undertaken by the women who own and operate the millions of acres of land in the state.

The magazine, called Soil and Water Conservation, contains 40 pages of information on conservation in all major sections of Texas, plus 12 pages printed in color.

Published by the district supervisors of the 164 soil conservation districts representing over 10 million acres of Texas land, the magazine, to be issued monthly, is out in its first issue that conservation isn't something you have to do and then sit back and admire like a twelve-point buck on a mantle, it's a continuing effort that will never be finished as long as man makes a living off the land.

Conservation through soil conservation districts, it adds, is the very essence of democratic nation's soil conservation.

districts, operated by the landowners themselves, constitute a new nationwide declaration of faith in democracy at a time when the fainthearted fear the breakdown of our type of government.

Contents of the magazine, which is printed on glossy paper, includes numerous pictures of soil conservation results throughout the state, articles by experts on conservation, a statement of purposes by the president of the Association of Texas Soil Conservation District Supervisors, M. C. Puckett of Fort Stockton, a short history of soil conservation in Texas by Louis P. Merrill, regional director of the Soil Conservation Service, an announcement of the annual meeting of the supervisors in Brownwood January 23-24, 1952, and numerous feature articles on soil conservation accomplishments in all its phases throughout the state. Publication offices of the magazine are in Temple.

Methodist WSCS Honors New Members

Members of the Methodist Woman's Society of Christian Service met Wednesday morning in the home of Mrs. W. R. Baggett for coffee and a program on the topic, "Because We Have Been So Greatly Blessed." The meeting also was in honor of new members of the Society.

EGYPTIAN LIBERATORS SHOW TEETH . . . In Cairo, Egypt, several members of the "Liberation" unit, a group of underground fighters, are showing off their weapons to Ceza Nebarawi and Zamb Al Ghazali in an undisclosed headquarters. Mrs. Nebarawi is the leader of the Moslem women's party, a group that is agitating for the complete ouster of Britain from the Suez canal zone. She entertained the warriors at her home after the inspection of the guns. The weapons of the liberators seem to be British Sten guns, and the bandolier for ammunition worn by the man at the left is branded "U.S."

Assisting hostesses were Mrs. John Bailey, Mrs. V. I. Pierce, Mrs. Early Baggett, Mrs. George Harrell and Mrs. Minnie Kyle.

Mrs. T. A. Kincaid, Jr., was program leader for the day. Recordings of "Faith of Our Fathers" and "The Lord's Prayer" were played and the group sang two hymns, followed by prayer led by Mrs. Paul Perner. Program parts were given by Mrs. Kincaid, Mrs. H. B. Tandy, Mrs. B. B. In-

gham, Sr., and Miss Mabel Whited. Others present were Meses. Bill Friend, R. A. Harrell, P. C. Perlin, Jr., A. S. Lock, Charles Williams, Sr., J. S. McKiddy, Boyd Clayton, J. A. Fussell, Joe Clayton, Troy Hickman, Joe Pierce, Jr., Charles Williams, Jr., L. B. Cox, III, N. W. Graham, Dempster Jones, Joe Pierce, III, and M. B. Flippen.

The Sunshine Circle will meet Jan. 23 in the home of Mrs. H.

B. Tandy and the Jenny King Circle with Mrs. Joe Clayton.

INTRODUCING — MARY BETH EATHERLY

Guess Who? Yes, she is the cute 16-year-old Junior that you have seen in the hall and class rooms this week. Mary Beth came from Levelland. She has brown hair, gray eyes. She stands 5' 5 1/2" and she certainly has personality. As a matter of fact she was voted "Miss Personality" in LHS.

Last Friday she was presented as Sweetheart of the Levelland Basketball Team. She was cheerleader in both her freshman and sophomore years. She was the sophomore class reporter. Mary Beth's favorite sport is basketball.

PAT MELLON

Another new girl! Uh — Blonde hair and blue eyes? Yes, that's Pat Mellon from Belton. She is 5' 4" tall and 16 years old. She is a sophomore and in Belton was a candidate for the Best All Around girl. Her favorite sport is football and her favorite pastime is horseback riding. She was on the annual staff in Belton.

Finals Coming Up! Well, Who Cares??? — Just Us Students

Worrying about nine weeks tests? If you listened in class, there is no need to worry. (So they tell me.) Who listened in class? Well, that's beside the point. Anyway, who cares if he passes a nine weeks test or not? Just the students of OHS. If you didn't listen in class — don't worry — just study.

The dates set aside for the tests are Thursday and Friday but most tests are being given on Wednesday and Thursday due to the basketball tournament Thursday and Friday.

TOO MUCH TALK

By Doris West

Longnose Lou has been nosing around some more this week and discovered that there is a new male traveling team in Ozona. In fact, it was quite busy this week. The group took in such places as Iraan, San Angelo, Sonora, Barnhart and Eldorado. Have fun, boys? — It seems like Kenneth Bledsoe and Allena Powers have been seeing a lot of each other lately? Could this develop into something? — I wonder what has happened between Jeannene and Scott. They haven't been seen together lately. — There was quite a bit of excitement Monday when Mary Beth Eatherly and Pat Mellon enrolled in school. Yep, girls, more competition. — Billie Chandler has been receiving letters postmarked Sheffield. I wonder who — I wonder whose car was parked in front of Jeannene's house Monday night? Jimmie, could you know anything about this? — Charles, a lot of people are wondering how you got wire wrapped around your axle. Could you have got down at the barns? — "Dow" did your call get through to Corpus? — "She don't work here no more." — Charles, who were you with Sunday night? Could it have been Carol Friend? — It seems as if Vivian and Jimmie, Jane and Bobby, and Charles and Carol had a big time Sunday night. — Kenneth Phillips says he's still off women. Is that why he wants to meet the two new girls?

Song Dedications

Betty to Tom — All My Love
Bob to Air Fore — Sound Off
Mrs. Womack to Girls Basketball Team — Slow Pokes

OHS Students to Pat Mellon and Mary Beth — 'f We'd Known You Were Coming We'd a Baked a Cake
Vivian to Jimmie — Rugged but Right

Question of the Week

Here come your tests! Are you going to be prepared for them? What do you do on the night before the tests? Here are the results of a survey made of the OHS students.

Bill Gillit — Same as always — take in a show or just rove around.
Vivian Trotter — If I know the lesson pretty well, I go take in a movie or ride around. But the next morning I work like — well, you know what.

Barbara Hendrick — Oh, take a book or two home and study.

Kent Chapman — Get me some (censored) so I can't feel the pain next day.

Mary Beth Eatherly — Well, I usually take in a basketball game.

Charles Garlitz — Oh, heck, I don't know — just eat and then go to sleep.

Billie Chandler — It's according to what's happening that night.

Bob Thomas — Ain't much telling.

Kenneth Phillips — Think hard about the review the day before.

Reta Ballinger — It depends upon what's happening.

Collected opinion — Aw, who enjoys boning up for a test, anyway?

BIG STUFF!

Tom Piner Wins All-Tourney Honors At Eldorado Meet

"I was just lucky," says Tom Piner about his winning all tournament at Eldorado Saturday. But it's the opinion of most people around OHS that is was considerably more than luck which placed Tom on the top five. Tom was unanimously elected by all the coaches who had teams entered at the tournament. Coach Peto said, "Although Tom played good, steady ball all through the tournament, he actually cinched the honor by his outstanding defense against Bill Baldwin of Sonora." Tom is a junior at OHS and besides this honor in basketball, he has captained the football team for two straight years.

Fads and Fashions

By Jane Adams

What kind of life would you lead if you were a high school girl who lived in Australia? Or More that concerns us here, how well groomed would you be, how fluffy would the dress you wear on a big date be, what kind of magazine would you read and how well edited are they?

An Australian girl's grooming routines are the same as ours except that they use much less makeup and — can you imagine — a footbath every night is a very important part of it. Reason? They walk or ride a bicycle instead of saying, "May I have the car for 30 minutes?" Their formal are very plain compared with floating clouds of net American girls wear. Their magazines are printed on un-slick paper and the photographs don't have the shining charm of the ones in Seventeen, Vogue or Mademoiselle. Just give it a little thought and suddenly you appreciate lipstick, cars, net, and American printing presses much more.

The term is half over. Can you imagine! What will be the fads and fashions we'll remember when we think of this semester just gone by? Sweltering in new fall clothes the first hot days. Being able to tell a football player by the yellow from th inside of his helmet that rubbed off on his hair. Huge, huge, batwing sleeves. Crests that looked as if they were straight from King Arthur's court. Full, full, corduroy skirts. Big, loose corduroy shirts. As for the boys, short hair cuts, levis, smaller belt buckles, brighter belts and brighter shirts.

SO LONG, IT'S BEEN GOOD

Know that face that the Choral Club girls see third period every day? Well, we're about to lose it.

Yes, Mr. Lipford, OHS choral director, is leaving us as soon as a replacement is found. Mr. Lipford plans to be assistant minister at the Church of Christ in Waco.

When asked about leaving, he stated that he and Mrs. Lipford "hate to leave." Among the girls in choral the feeling are that "It's wonderful that he could get such a nice position, but what'll we do without him!"

Lions Bring Second Place Trophy From Eldorado Tourney

For the first time in two years the Lions brought home with them a trophy at the Eldorado tournament. The boys captured second place by downing both Uvalde and Sonora. But the Lions fell before the Iraan Braves who took first place and the third straight win over the Lions.

Ozona's first game was scheduled with Uvalde at 11:00. At the first of the game it looked as if the Lions would smother their opponents. But, somehow, the Uvalde team slipped ahead and led the Lions by three points with only 30 seconds to play. Somehow Joe Bailey stole the ball out of a player's hands and made a crib shot. In the meantime he had made a free throw, too. The game ended with a tie. The overtime proved the Lions could play under stress, for Bill Maness sank a two pointer which won the game.

The Sonora game was played at 3:30. It was a thriller from start to finish. During the first two periods neither team had ev-

er been over five points during the third and fourth periods the Lions "shoot" fatal, and the game was only by small margins. The game began, the Braves led almost out of hand. The Lions 14-4 at the half. The Lions, not to be outdone, back. Basket after basket made until they were 20 points behind. But the boys had a chance to go again, the game ended. Ozona in second place.

Tom Piner, all round player was put on the all team. He was awarded a pure gold basketball.

be the biggest thing on the political scene. But, unfortunately, third parties have always been futile things in American politics. Most third parties have been organized around one issue, and we need a strong third party that would have something to say on every major issue.

I would like to see a third party organized along the following lines:

First, we renounce all former party ties and propose to vote in national elections for men and issues only.

Second, we believe that the welfare state has gone far enough and we propose to stop it in its tracks and roll it back at some points, but not necessarily at every point.

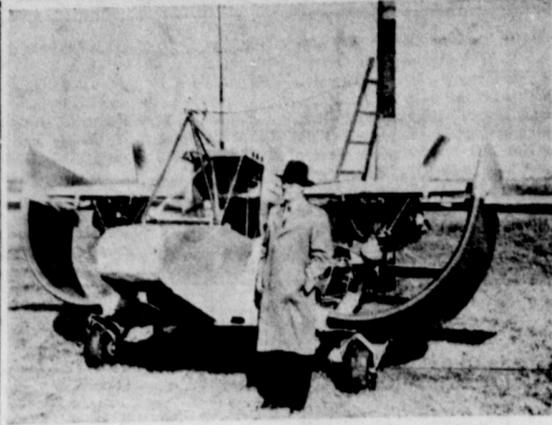

Third, we believe that the least government is usually the best government.

Fourth, we propose to halt the tax rate where it is and push it back at many points. We believe there are many things that we can do for ourselves more cheaply than we can hire the government to do them.

Fifth, we believe in an adequate defense, but we do not propose to turn the country over to the military, neither do we propose to bankrupt ourselves in a defense program.

Sixth, we believe in one term only for the President and members of Congress, because professional career politics makes for bad government. We believe that important officials should be elected, not appointed to office.

Seventh, we believe that public office is a trust and any official who misuses this trust should be
