Little League All-Stars To Play Big Lake, Angelo

15 Players Chosen To Meet All-Star Teams Here July 12-19

An all-star team selected from the four teams composing the Ozona Little League will meet teams from Big Lake and San Angelo in exhibition tilts on the Lions Club field this month.

The all-stars will play an all-star team from the Big Lake league here the night of July 12. Aaron Bledsoe will manage the local all-stars on that occasion, with Arthur Kyle as coach.

The San Angelo all-stars, selected from one of the leagues in operation there, will come here on July 19 for an all-star game. Byron Stuart will manage the local aggregation for the second game with Loy Elmore as coach.

The committee which selected the all-stars, chose them in age groups of the same proportion as required for teams affiliated with Little Leagues, Inc., a minimum of five in the 10-year-old and under and not more than five in the 12-year-old group.

The all-star selection for the two July games follows:

10-Year-Olds and Under
Player Team
Pat Jones Ozona Oil Co.
Johnny Jones Ozona Oil Co.
Jim Freeman Spencer-Stevens
Joe Friend Ozona Butane
Muggins Good Spencer-Stevens

11-Year-Olds
Bobby Sutton Ozona Oil Co.
Jerry Payne Kyle Kleaners
Bobby Hicks Ozona Oil Co.
Johnny Cooper Spencer-Stevens
Jimmy Williams Ozona Butane
Billy Holden Spencer-Stevens

12-Year-Olds
Chico Cervantes Ozona Butane
Mark White Spencer-Stevens
Bill Black Kyle Kleaners
Royal Caswell Spencer-Stevens

The Little League committee has ruled that no pitcher shall be permitted to pitch more than three innings in an all-star game.

Conoco Locates Deep Wildcat In East Crockett

12,000 Foot Test on Dock Friend Ranch; Two in Sutton

Continental Oil Co. has staked locations for deep wildcat tests in extreme southeastern Crockett county and in Sutton county.

One test will be on the Dock Friend ranch, Conoco No. 1 D. A. Friend, projected to 12,000 feet, and two will be on the Sol Mayer ranch in Sutton county, one to 9,000 feet and the other to 9,500 feet.

The Friend ranch test will be 3,300 feet from the north and 660 feet from the east lines of J. C. Clelland survey 28 1/4, on a 7,504 acre lease. It will be 1 3/8 miles west of the Crockett-Sutton county line. Drilling will start when permit is granted.

Texas Pacific Coal & Oil Co. No. 1-A H. L. Bair, central-east Crockett wildcat, was coming out of the hole following a one-hour drillstem test between 8,340-8,391 feet, the total depth. There was a slight blow of air for 50 minutes.

Delta Gulf and Weiner No. 1 Robison, Crockett wildcat located 1,173 feet from east and 1,045 feet from south lines of section 135-0-GH&SA, has been plugged and abandoned at total depth of 12,022 feet in the Ellenburger. No tops had been released.

Phillips No. 1-A Lebb Wallace Sutton county wildcat, located C SE SW 52-14-TW&NG at total depth of 5,000 feet, set 5 1/2-inch casing at that point and was preparing to perforate and test the lower Permian.

Mr. and Mrs. Bill Childress and children visited Carlsbad Caverns in New Mexico last week.

Water District Spuds Fifth Water Well for Supply Safety Margin

A new water well to augment Ozona's supply was spudded in on water works hill Monday morning by Hugh Gray's well drilling crew. The new well will be the fifth in a group on the hill from which the city's supply is pumped by the Crockett County Water Control District.

The district at present is operating three pumps with a total capacity of 1,250 gallons per minute. Recently a dry hole, drilled some years ago, was acidized and made to produce at the rate of 250 gallons per minute. This well will be capped and kept in readiness for installation of a small pump, about 200 gallons per minute, for use if needed.

A 15-inch hole is being drilled at a spot on the south side of the old storage tank on the hill, a location just a few feet from a well which formerly produced via the walking beam type of pump, pumping into the old open tank which formerly held the city's supply. Wells on the hill produce at around 450 feet, apparently from a running stream.

The new well will provide a margin of safety and a standby in case of breakdowns.

New Baptist Minister Welcomed at Reception After Sunday Services

Rev. Blake Woolbright, pastor of the First Baptist Church here, was welcomed by the congregation and a large number of visitors at the Sunday evening service when the new pastor preached his first sermon in his new charge.

Rev. Woolbright arrived last week but the morning service was occupied with a talk by Miss Blanche Groves of Bridgeport, Texas, who spent nearly 20 years as a missionary to China.

Following the Sunday evening services, Rev. Woolbright was honored at a reception in the church parlors. Services were dismissed for the evening hour at the Methodist Church and a large number of members of that church joined in the Baptist service to welcome the new minister.

Rev. Woolbright, a native of Seminole, Okla., is a recent graduate of Baylor University and the Southwestern Baptist Seminary at Fort Worth. Mrs. Woolbright and the couple's three-year-old son joined him here at midweek, remaining in Fort Worth where the child had been scheduled for medical attention the first of the week.

Rueben Stanley to Preach at Pecos River Encampment July 11-20

Rueben Stanley of San Antonio will do the preaching during the annual Pecos River Encampment of the Churches of Christ of the area at the campsite on the Pecos River between Sheffield and Iraan July 11 to 20.

Song director for the encampment series will be Holand Borling, Jr., of Utopia, Texas. "Bring your sponsors and camping equipment. Meals will be served with ranch style barbecue. Plenty of good water. Everybody Welcome." is the invitation of the Encampment officials.

The daily schedule of activities at the encampment will start with devotional at 7 a.m.; breakfast at 7:30; teacher training classes at 9 a.m.; classes for all at 10 a.m.; singing for young people at 11 a.m.

Lunch will be served at 12 noon and from 2:30 to 3:30 will be the recreation hours. Preaching will be at 4 p.m. each afternoon. Dinner will be at 6 p.m. and song services will be held beginning at 8 each evening.

John Fussell, son of Dr. and Mrs. J. A. Fussell, is in New York where he is attending a special training course for new employees of the Aluminum Company of America. He will be employed by the company at its new plant at Rockdale, Texas. Fussell is a June graduate of the University of Texas.

Crockett Judging Team Wins Third In Sonora Meet

Erby Chandler Second High Individual in Wool Judging

The Crockett County 4-H Club Judging Team composed of Jody Jones, Bobby Sutton, Erbie Chandler and Brock Jones, along with county agent Pete Jacoby, attended the Sonora Wool and Mohair Show on June 25 and 26.

The team took off 3rd place honors in wool judging against 17 other teams. Highlight of the team honors went to Erbie Chandler who won 2nd high individual award in wool judging against 67 contestants with a score of 351 out of possible 400. Erbie is to receive an individual medal for his high achievement.

Jody Jones ranked 30th in overall judging in all divisions and Brock Jones ranked 32nd. Bobby Sutton, with no previous judging experience in livestock, ranked 28th in that division.

In addition to 3rd place in wool judging, the team ranked 11th in plants, 13th in mohair, 14th in livestock, and 12th in overall judging of all divisions.

The team members and their county agent drove over to Sonora Tuesday afternoon, slept in bed rolls and ate in cafeteria on school campus while there, and returned to Ozona Thursday afternoon.

Rev. Jeffery to Preach At Methodist Church In Absence of Pastor

The Rev. Mr. and Mrs. Finis Jeffery and their two young sons are expected to arrive in Ozona on Friday of this week. Mr. Jeffery will be the guest minister at The Ozona Methodist Church for the next six weeks, in the absence of the regular pastor, J. Troy Hickman, who will be on a vacation trip to the Pacific Northwest. The Hickmans plan to leave Ozona on July 6 and return about August 15th.

Mr. Jeffery is a Texan and Mrs. Jeffery is from Seattle, Washington. They are scheduled to attend the Yale University Language School at New Haven, Conn., this September. A year later they expect to be sent to the foreign mission field in Korea.

The Jefferys will live in the Methodist parsonage. Mr. Jeffery was ordained to The Methodist ministry at the last session of The Southwest Texas Conference and has his B. A. and B. D. degrees, having graduated from the Perkins School of Theology at S. M. U. last May.

His first sermon for the Ozona congregation will be this Sunday morning, July 6, at 11 o'clock a.m. Following the sermon the congregation will observe the Sacrament of the Lord's Supper. At the evening hour of 7 o'clock a Covered Dish Supper will be held in the Fellowship Hall.

102 Present for Dist. Officer Training Day

A total of 102 women from the towns in the San Angelo District were in attendance at the all-day Officer's Training Day program of the WSCS at the Ozona Methodist Church last Thursday.

The session began at 9 a.m. with Mrs. Floyd Henderson, district president, presiding. Mrs. Paul Perner, president of the Ozona Society, welcomed the visitors. Mrs. Mans Hoggett of Mertzon responding.

The officer's training sessions were held in groups from 10 to 12 o'clock. A covered dish luncheon was held at noon and the afternoon session was a study of committee organization.

Mrs. B. B. Ingham spent a few days last week watching wheat harvesting operations in the Texas plains country. Mrs. Ingham owns a 360-acre farm in that area and watched the wheat harvest on that acreage.

Fifty Join Weekly Bus Ride to Sonora For Morning Swim

Chanting "We want a swimming pool" some fifty Ozona youngsters left town early Monday morning in a school bus for the weekly ride to Sonora for a swim in the Sonora pool. The bus trip is being made each Monday morning, leaving the school building at 8:30 as a part of the town's summer recreation program for youth.

Arrangements have been made with the Sonora pool operators for a flat charge of \$10 for the entire group from Ozona for the morning swim. Since funds for the summer program are limited, Coach Larry Wilkins, director, is seeking volunteer donors for a day's swim for the kids. The Stockman will finance next Monday's swim for the youngsters. If you want to take the following Monday or the next, call Coach Wilkins, or the Stockman office.

Lion Oil Co. Shannon Strike Flows 82 Barrels

Ellenburger Discovery On Shannon Lands to Continue Testing

Ellenburger discovery in north-central Crockett county, Lion Oil Co. No. 1 J. M. Shannon estate of San Angelo flowed 82 barrels of pipeline oil in 24 hours as the week opened.

Production was through a 16-64 inch tubing choke and casing perforations between 7,380 feet and 7,413 feet, which had been washed with 500 gallons of mud acid, then treated with 5,000 and 10,000 gallons of regular acid. Flowing tubing pressure was 170 pounds. Drilling mud was being cleaned out between the casing and tubing, after which testing was to be resumed.

The strike is in the C SE NE 46-GC&SF, 14 miles northwest of Ozona.

Humble No. 1-P University, northwestern Crockett county wildcat C NE SW 15-44-U, prepared to plug and abandon at 1,750 feet in the San Andres, where it had a hole full of black sulphur water. It had plugged back to 1,875 feet, and on a straddle test from 1,730-60 feet in the San Andres swabbed dry naturally and after treatment with 2,000 gallons of acid.

Location was one mile southeast of the Block 44 Shallow field and eight miles southeast of Barnhart.

Magnolia No. 1 J. W. Henderson, Jr., wildcat in section 7-SK-TCRR, 15 miles southwest of Ozona, swabbed 16 barrels of load oil and 12 barrels of acid water in 12 1/2 hours through casing perforations at 6,300-30 feet. It retreated with 250 gallons of acid, then with 2,000 gallons swabbed out 25 barrels of load oil and 24 barrels of acid water in three hours. There were no shows of new oil. Reacidizing with 2,000 gallons was scheduled.

Install Signal Light at Highway Intersection

Permanent installation of the signal light at the intersection of Highway 290 and 163 in downtown Ozona was completed this week and the light is now functioning to control traffic at the busy intersection.

The light was recently installed for a 24-hour period as a trial. Favorable comment from citizens and the recommendation of the State Highway Department and the Highway Patrol led the commissioners court to order its permanent installation.

The light is of a new type mounted on a concrete base at the center of the intersection, with wiring underground.

The State Highway Department plans soon to paint traffic lanes at the intersection and to install warning signs in each direction to warn through traffic of the light.

Oilers Nose Out Gassers To Cop First Half Title

Final Game Decider In Torrid Little League Scramble

It was a fiery finish for the first half championship in Ozona's first Little League season Monday night when the Ozona Oil Co. Oilers and the Ozona Butane Co. Gassers, tied for the league leadership, fought it out for the first half flag.

The Oilers, who had occupied second place in league standing through most of the early season, dropped the Gassers by a 10 to 6 count for the first half flag. Last week the Oilers took the lead from the Gassers for the first time, but dropped to a tie last Thursday night when the giant killing Kyle Kleaners again rose up from the cellar to slap down the leaders 7-5. The Kleaners the previous week had toppled the Gassers from the league leadership. Meanwhile the Gassers were winning an easy one from the crippled Spencer-Stevens Mechanics.

The first half finale Monday night saw the rejuvenated Mechanics, in third place, swamp the hapless Kleaners 54 to 13.

The first half final standings:

Team	W	L	Pct.
Ozona Oil	6	3	.666
Ozona Butane	5	4	.555
Spencer-Stevens	4	5	.444
Kyle Kleaners	3	6	.333

Bobby Hicks of the Oilers, who held the batting honors throughout the half, finished with an average of .500. Other leading hitters were Clayton, (Spencer), .500; Williams (Butane), .476; Cooper, (Spencer), .424; B. Holden and Caswell (Spencer), .406 each; and B. Sutton (Oilers), .393.

Other statistics prepared by Jim Dudley, league statistician shows Cooper leading in total hits with 14, while Caswell, Holden, Sutton and Hicks had 13 each. Runs batted in were Caswell, 28; Holden, 27, and Sutton, 24; Home runs: Holden, 8; Caswell, 5. Runs scored: B. Rivera (Butane), 22; Holden and Friend (Butane), 20.

Pitching aces were Caswell with four won and 1 lost and Sutton with five wins and two losses. Sutton struck out 61 and Cervantez (Butane) 48.

There will be no Little League games tonight (Thursday), the second half schedule starting Monday night with Spencer & Stevens Mechanics against the Cosden Oilers and Kyle Kleaners against Butane Gassers. (Team names not official.)

The second half schedule will be as follows, the first named teams playing the first game of the evening and the second named pair playing the final of double header bills each Monday and Thursday nights:

Monday, July 7 — Mechanics vs Oilers; Kleaners vs Gassers.
Thursday, July 10 — Oilers vs Kleaners; Mechanics vs Gassers.
Monday, July 14 — Mechanics vs Kleaners; Oilers vs Gassers.
Thurs., July 17 — Kleaners vs Gassers; Mechanics vs Oilers.
Monday, July 21 — Mechanics vs Gassers; Oilers vs Kleaners.
Thurs., July 24 — Gassers vs Oilers; Mechanics vs Kleaners.
Monday, July 28 — Mechanics vs Oilers; Kleaners vs Gassers.
Thurs., July 31 — Oilers vs Kleaners; Mechanics vs Gassers.
Monday, August 4 — Mechanics vs Kleaners; Gassers vs Oilers.

OTHERS BUILD 'EM

The city of Fredericksburg has called for bids for construction of a swimming pool. Bonds in the amount of \$50,000 were recently voted for that purpose.

Contract has been let for construction of a three-section swimming and wading pool at the Lions Club Crippled Children's camp at Kerrville. There will be a deep water section for experienced swimmers, a therapy section and a wading pool for the tots. Contract price was \$22,000.

Adding Machines at the Stockman. Phone the news to The Stockman.

THURSDAY, JULY 3, 1952

TIME CLOCK ARRIVES

The new electric time clock and score board for the Lions football field arrived by freight here last week. Materials are being assembled to mount the big clock and score board at the field. Part of the money for the board will come from advertising revenue from the football programs, which is being donated for that purpose. Donations are being sought from fans for the balance.

Mr. and Mrs. Jerry Pace and daughter, Sue, of Austin, were here last week to visit Mrs. Pace's parents, Mr. and Mrs. J. M. Baggett. Their visit was cut short by a call from home Friday that their son, Baggett, had been injured at Friday Mount, a Boy Scout camp near Austin. Baggett suffered a broken leg when he fell from a horse while practicing riding the barrel race. The lad suffered fractures in both ankle and thigh bones.

News Notes From The County Agen's Office

By Pete Jacoby

Progress Report 1462 from the Texas Agricultural Experiment Station of the Texas A&H College System on the reaction of White Brush to growth-regulator herbicides discloses in its summary the following information:

White brush is not responsive to growth-regulator herbicides currently used for brush control. Excellent top kill and some root kills have been obtained from these compounds, but the results are not consistent.

The most effective time of treatment is during a period of active growth. Dormant treatments involving high rates of application have not been successful.

MCP ester seems to offer considerable promise for white brush control and will undergo intensive testing during the current season.

Perhaps of interest to many ranchmen of this area is the recent opening of the Riggs Grass Seed Company in Del Rio, Texas. This company should be in a position to render a much needed service to ranchmen of this area and at a cheaper rate on grass seed due to its proximity. This firm specializes in range and pasture grass seed, both native and introduced.

Grass seed prices are pretty high due primarily to high labor cost in harvesting the seed. For example, sideouts grama is listed in small lots at 95 cents per pound, K. R. Bluestem at \$2.30 per pound, and Buffel Grass at \$6.25 per pound. In 100 pound lots the seed is quoted at cheaper rates. This firm has \$1.00 trial packages of most grasses which can be mailed postpaid to the purchaser. Anyone desiring information on current availability and prices of grass seed may contact the county agents office, where such information is received currently and is available to those interested.

From Agricultural Specialties of Dallas, Texas, in its agricultural chemical news letter comes the following information on screw-

worm control, 1952: (Quote)

The rancher has more choice in his selection of screw worm remedies in 1952 than ever before. Let's look over all the screw worm formulas and see what their pros and cons are:

He may choose the old black Smear 62 based on diphenylamine and benzene, or a white variation of the same. Or he may choose liquids based on benzene or chloroform.

Or he may choose the U. S. government formula EQ 335 announced in 1950, and based on lindane and pine oil. In addition, liquid variations of the same have become popular.

Among the newer choices for 1952 are aerosol bomb treaters, and just now entering the market are brightly colored EQ 335 formulas to mark the treated spots.

In making screw worm treatments, the major expense is in handling the animals, and in the frequency of retreatment; not the initial cost of the remedy. For this reason, the cheapest screw worm treatment is usually the one that gives the most thorough protection for the longest time, or the easiest, most convenient application for ranch use, regardless of the cost of the remedy.

Screw worm treatments based on diphenylamine, benzene and chloroform will kill screw worms quickly and effectively and are inexpensive. They will not kill flies at all. The treatment lasts only one to three days, at which time many wounds are not healed and may be subject to reinfection.

Screw worm treatment based on lindane and pine oil overcome the disadvantages of the above. They give 5 to 7 day protection against reinfection and hence a much better chance of healing. They kill more slowly and the worms come out of the wounds to die. Lindane will also kill flies visiting the wounds. These products are more expensive by the bottle. The U.S.D.A. entomologists say, however, "Although EQ 335 is more expensive to manufacture than Smear 62, its greater effectiveness and various advantages warrant its recommendation."

The choice of a liquid or a smear is receiving more attention than previously. While some sources claim better control with smears, the recent trend is towards liquids for their greater convenience of application on the range, less irritation to the wound, and equal effectiveness if applied thoroughly.

The one disadvantage of EQ 335 is that it is clear and colorless. In a pen of animals being treated, the treated ones cannot be distinguished from the untreated ones. Some may be treated twice and others not at all. Colored EQ 335 is being introduced this month under the name Kolor Smear. It is available in a bright orange or a yellow-green.

With our mild winter and rainy spring (some areas), screw worms will be plentiful this year and throughout the south. Prevent as many cases as possible by treating all wounds as soon as possible. With polio raging in several sec-

tions of the state, everyone should be concerned in making contributions to fight against this dreaded disease. A clean up campaign should be the order of business around every home. Get rid of flies, mosquitoes and other insect pests by destroying breeding places. Sanitation is of utmost importance. Use insecticides to keep the pests under control. Don't wait until tomorrow to start the fight, for even today may be too late.

TEXAS LIVESTOCK MARKETING ASSOCIATION REVIEWS MARKETS

By Jim Mitchell, Exec. V. P. & Secy.

The recent severe decline in cattle values, one of the worst in history, has the entire trade wondering whether it might be temporary or merely the beginning of a general slump in the cattle market.

In our opinion, this did not just happen over night, but is a combination of factors that have been developing for the last six months. There has been a constant increase in cattle numbers throughout the entire country for several years until we have now reached the ninety million mark which is an all time high.

As of May 1st, total supply of meat in storage had also reached record proportions. With most cattle feeders losing money on this years operation, pastures throughout the nation fully stocked, the record heat wave across the country, strikes, and the first heavy run of the season combined to create a semi-demoralized condition on all the cattle markets in the country.

The feed supply is far below normal and present cattle numbers demand that we have a bumper feed crop in all feed producing areas. Anticipation of a large number of cattle crossing the border after September 1st has had a bad psychological effect on the trade.

On the bright side of the picture the business outlook is exception-

ally good for the next few months, and our income will consume all that we can produce, and national income is on the level. Lifting of controls on the beef business back on a competitive basis and industry to move the price to normal channels.

The cattle industry in this condition and one developed for replacement at prevailing prices. We have a better market for the rest of the year. Demand for stocker and feeder will depend largely on the year's feed crop.

HEADS CHURCH

Mrs. Joe Davidson has appointed by the Ozona Church to direct the Church Suppers which were the first Sunday of the year. The entire membership and each family brings a dish of food. No evening is held on these occasions next supper in the series this Sunday, July 6, at 7:00.

Mr. and Mrs. Pleasant plan to leave this week back their son, P. L., attending a boy's camp at Gas, N. M.

LOST — Ladies wrist watch. Reward offered to the Stockman office.

Miss Corinne Phillips, of Mr. and Mrs. Arthur of Ozona, returned last week New York where she has been attending special training for with a life insurance company. She left Sunday Houston to assume her duties. Miss Phillips is a graduate of the University of Texas.

Society Meet

The Woman's Service of the met Wednesday church for the and devotional Paul Perner, presi-

ciety will be held July 16 at the home of Mrs. Charles Williams, Sr. On that occasion, Miss Beulah Morton, deaconess at the Community Center here, will be honored. Miss Morton will leave August 1 on her sabbatical leave. Present for the meeting were Mrs. Victor Pierce, Mrs. S. M. Harvick, Mrs. N. W. Graham, Mrs. Charles Williams, Mrs. George Harrell, Mrs. Mary Flowers, Mrs. J. A. Fussell, Mrs. L. B. Cox, III, Mrs. Paul Perner, Mrs. Joe Pierce, Mrs. W. D. Cooper and Mrs. B. B. Ingham, Sr.

Ray Piner Is Local Chairman Oil Industry Information Committee

Ray Piner of Ozona associated with Cosden Petroleum Co. has been appointed Crockett county chairman of the Oil Industry Information Committee. He will administer the American Petroleum Institute information program in this community for 1952-53 and is in charge of plans now in their formative stage for Oil Progress Week, October 12-8, according to an announcement today by Joe T. Dickerson, OIIC West Texas area chairman.

Mr. Dickerson, who is vice president of Shell Oil Company in Midland, said, "In broadening the OIIC program in Texas this year we feel fortunate in re-enlisting Mr. Piner's leadership in the vital Ozona community."

Dickerson explained that Texas has been divided geographically into 14 OIIC areas this year with almost 700 oil and gas men serving on 331 volunteer community committees throughout the state.

Men and women from all segments of the petroleum industry over the nation have been banded together since 1947 as volunteer workers to keep the public informed about their industry.

In commenting upon his appointment as the new community chairman, Piner said that his object and that of the local committeemen serving with him was:

"To help re-affirm the faith of the American people that their individual interests, as well as those of the nation, are best served, in peace or in war, by competitive, privately-managed oil and gas companies."

Mr. and Mrs. L. B. T. Sikes and children, David, Richard and five-months-old daughter, Betsy, left Sunday for their home in Calvert after a week-end visit with friends here. David had spent a couple of weeks visiting in the home of Mr. and Mrs. Arthur Kyle and accompanied his parents home.

Mr. and Mrs. James Baggett plan to spend the holiday week-end visiting their daughter, Sally, who is attending Camp Waldemar near Kerrville.

Miss Shirley Kost, daughter of Mr. and Mrs. Oscar Kost, is spending the week in Pecos the guest of Miss Ellen Jane Marie, daughter of Mr. and Mrs. H. W. Maris, former Ozonans.

Women Golfers in Regular Play Tuesday

Women's Golf Club members met for their weekly play Tuesday. Trophy winners for the day were: First flight, Dorothy Montgomery; second flight, Willie V. Baggett; third flight, Imogene Friend.

Winning balls for low putts, blind bogeys and flag race were Wilma Friend, Marge McMullan, Helen Wilkins, Elizabeth Colquitt, Imogene Friend, Willie V. Baggett, and Dorothy Montgomery.

Sandwiches, cookies and punch were served by Katy Jones and Mary Deaton. Others present were Charlotte Phillips, Lillie Baggett, Velma Marley, Wanda Stuart, Ada

Pierce, Jonsey Williams, Gladys Pierce, Marjorie Ramsey, Mary Bess Harris, Mary Friend, Lois D. Kirby, Pauline Montgomery, Jeanie Williams and Jane Black.

Mrs. Lowell Littleton, who has been seriously ill for the past several days, is reported improved. Mrs. Littleton's mother, Mrs. C. W. Hardberger of Lubbock, is here with her.

Mrs. Floyd Henderson and Mrs. J. W. Henderson, Jr., were in Dallas last week.

FOR SALE - Child's slide, swing set and boy's small bicycle. Call 258.

Mr. and Mrs. J. T. Keeton returned the week-end from a month's vacation trip which took them up the east coast to Washington, D. C. They visited their sons, Harold and Joe and their families in Fort Worth and Dallas enroute and their daughter and son-in-law, Mr. and Mrs. Leland Wyatt and children near Washington, D. C. The country was beautiful the entire distance, plenty of rain and everything green. Mr. Keeton reported, but he said he still prefers West Texas, even in a drought.

FOR SALE - Two - bedroom house. Call Joe Whatley. Phone 3130. 8-tfc

no promises except to that if elected I will give work all my time and compel reasoned law to be my only master.

I EARNESTLY SOLICIT YOUR SUPPORT IN MY RACE FOR

County Commissioner Precinct No. 1

Believing it to be the privilege of any qualified citizen to offer for public office, I have entered the race for County Commissioner of Precinct 1 and am taking this means of informing voters of my candidacy and soliciting their support in the July 26 primary.

It may not be possible for me to see all the voters, but I want to assure all that I will be grateful for their support.

I would like to serve as your Commissioner and feel that I am qualified to discharge the duties of the office. I have lived in Crockett county for more than 25 years and am familiar with the problems of the people of this area.

If you see fit to vote for me in the coming election, I pledge you my full attention to the job and my best efforts to serve to the best interests of the people of this precinct and the county as a whole.

Sincerely,

RALPH JONES

Candidate For Commissioner, Precinct No. 1 (Political Advertisement)

Here and There

average is one dollar in three. And the President says that is not enough.

There is some inflation. The politicians say it is the result of too much buying power in the pocket of John Doe. But our inflation wears striped pants. It is the result of vast government spending and artificial manipulation of markets.

We have ceased to believe in the eternal and universal law of supply and demand. We think we are smarter than nature. Every manipulation gets us a little deeper into the quagmire.

It has always been true and always will be true that some men are more clever, strong, ruthless and successful than others. They

will soon be on top. They will probably get their feet on a lot of necks. That being unfortunately true, we have reasoned that the government ought to come to the aid of the man down under. But when the government helps the underdog become the overdog, he turns out to be as selfish and ruthless as the other fellow. The net gain is nothing, and the cost of turning the underdog into the overdog is ruinous. It we had enough faith in human nature to let the free, competitive system of private enterprise function without interruption from government messiahs, more injustices would be corrected sooner and more soundly. Trying to correct human ills by government and law is like the case of the sick man who took a lot of new wonder drug. He admitted to a friend, "The medicine did me more harm than the disease."

And the Fourth of July has come around again. One hundred and seventy-six years ago we squirmed out from under the heavy foot of King George of England. In 1812 he almost got his foot on our necks again. We have been lucky in our foreign wars.

Will we be as lucky at home? Will we have the courage and determination to repudiate the bondage of our federal system, as the minute men repudiated British sovereignty in '76? Do we really believe that every man is endowed by the Creator with the right to life, liberty, and the pursuit of happiness? Or are we ready to trade those values for the mirage of state-administered security?

In a few months we will have a chance to go to the polls and write the first lines of a new Declaration of Independence. If we do it, this will prove to have been a memorable Fourth, indeed.

Crockett Sent 11 to Prison in 10 Years; County Ranks 80th

HUNTSVILLE.—Crockett county in the past ten years has committed 11 prisoners to the Texas Prison System.

This was revealed recently in a study conducted inside the prison by graduate students at Sam Houston State Teachers College, under the supervision of Dr. Rupert C. Koeniger, head of the college's sociology department.

In number of commitments per thousand population, the county ranked 80th in the state with 276 person per thousand committed, the study further showed.

Ten counties during the period, 1942 to 1951, representing 41.73 per cent of the total population based on the 1950 census, committed 50.27 per cent of the prisoners.

In the order of the number of commitments they were Harris, Dallas, Bexar, El Paso, Tarrant, Hidalgo, Jefferson, Travis, Cameron and Wichita. These counties committed 11,424 of the 22,705 commitments.

Highest among them in percentage of population in commitments was El Paso county, which sent 5.77 men per thousand and ranks ninth in the state in percentage of commitments. Next was Hidalgo, which committed 4.51 per thousand, nineteenth in the state. Others and the number per thousand and committed were Harris, 4.07, Wichita, 3.76, Dallas, 3.38, Cameron, 3.13, Jefferson, 3.18, Bexar, 2.87, Travis, 2.74 and Tarrant, 2.66.

Adrian Allen Haire, 19-year-old Ozonan, was among a group of five West Texas youths who recently enlisted in the Airborne division of the U. S. Army at the Abilene recruiting station recently. The group will be assigned to Fort Benning, Ga., for basic training.

Hillery Phillips Honored on Silver Wedding Anniversary

To honor Mr. and Mrs. Hillery Phillips on their 25th wedding anniversary, Mr. and Mrs. J. M. Baggett and Mr. and Mrs. Lowell Littleton entertained with a reception in the garden at the Baggett home Sunday evening from seven-thirty until nine-thirty.

Guests were registered by Miss Jane Adams and Ann Baggett. Receiving were Mrs. Baggett and the honored couple.

Presiding at the refreshment table were Mrs. Oscar Vogel of Fort Worth, Mrs. A. D. Holland

of Big Lake, Miss Emma Rawls of San Angelo and Mrs. James McEntire of Sterling City. Punch and wedding ring cakes were served.

Others in the house party were Mr. and Mrs. Arthur Phillips, Mr. and Mrs. James Baggett and Mrs. R. L. Flowers.

Guests from out-of-town included Mrs. James McEntire of Sterling City; Miss Lorena Rawls of San Angelo, Mr. and Mrs. A. D. Holland of Big Lake, Mrs. Oscar Vogel and Miss Imogene Vogel of Fort Worth, Mr. and Mrs. Judge Montgomery of Fort Stockton and Bird Phillips of Pumpville. About 85 well-wishers called during the evening.

NEW AIR MARSHALS

Airmen flying over the town's name and distance to the ports. "Ozona" has been set out in stone on a spot at the water works residence. The hill and huge arrow distance legends have been pointing to the airport west of town and the Henderson's strip a mile.

Mr. and Mrs. Larry W. as guests this week. Brother-in-law and Mrs. W. V. Tye of Ozona.

"Governments are instituted among Men, deriving their just powers from the consent of the governed. Whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute a new Government..." (From the Declaration of Independence now 176 years true)

... and the fight for Freedom must never cease!

"Absolutism Government is no respecter of person or place. It can and does raise its ugly, ungodly standard over traditionally free soils as it does over England and the land of the Czars. None of the real, pretended, or promised benefits of Absolutism Government can in the end justify its existence.

The freedoms for which generations of Americans have fought and died are slipping away from us... centralized government and bureaucratic directives are nibbling away at our American heritage.

Freedom is not free—it had to be fought for, and you will have to fight to maintain it. Now is the time for everyone to come out, stand up, be counted, and vote the way he desires to vote, regardless of those who would perpetuate power politics.

A WATER PUMP that's New! and Better!

The RED JACKET-REDA "Submerg-Pump"

The Latest in Water Pumping Equipment for the Home and Farm

- * THE PUMP YOU DON'T SEE CAN'T WEAR AND NEVER LUBRICATE
- * PUMP AND MOTOR COMPLETELY SUBMERGED UNDER THE WATER IN THE WELL
- * NO PRIMING—LUBRICATION FREE
- * NO FIT OR PUMP HOUSE REQUIRED
- * ONLY ONE PIPE FROM PUMP TO TANK NEEDED
- * CAN BE INSTALLED QUICKLY AND EASILY
- * CAPACITIES TO 300 GAL. PER HOUR
- * PRESSURES TO 100 LBS.
- * PUMPING DEPTHS TO 100 FT.

Trusted, Tested and Proven FOR OVER 30 YEARS

Pumps identical in design to the Red Jacket-Reda "Submerg-Pump" have been used successfully in the oil fields for over 30 years. Billions of barrels of oil, water and brine have been pumped from depths down to 10,000 feet under varying oil field conditions—a tribute to the quality construction and reliability of this new type pumping equipment.

Nearest Conventions and Seminars

This is the only type of submergible pump that can be installed in wells as small as 6". Absolutely noiseless operation. Pressure tank and controls can be installed anywhere. Costs less to operate because of greater pumping efficiency.

Come in and see this new amazing water pump
