SCHOOL BONDS ARE APPROVED BY 138-18 VOTE

Bonds Sold, Architect Employed By Board To Draw Plans

\$30,000 BOND ISSUE

Room Building For Mexicans Be Built This Summer

Swift action by school officials followed on the heels of approval by voters of Crockett county Saturday of a proposed \$30,000 bond issue for the purpose of building a new school building for the Mexican children, and before the middle of the week the bonds had been sold at a premium, a site selected, and an architect employed to draw up plans for the proposed new building.

The \$30,000 issue, designated for construction and equipping of the building, won the overwhelming approval of voters in Saturday's balloting, the count being 138 for issuing the bonds and 18 against.

Eugene Bonham, representing Reuscher Pierce & Co. of Dallas, was highest of five bidders for the 3 per cent, 15-year serial bonds. This firm agreed to pay all expense of printing the bonds and legal examination, pay par plus a total premium of \$813 on the issue. The proviso was added that the state permanent school fund exercises its legal option to buy the bonds, the company would be refunded \$300 for legal expenses. The state must buy at the same premium, such action cutting the bond premium by the \$300 item.

The firm of Haynes and Strange of Lubbock, Texas, was employed as architects on the structure. W. T. (Tanlac) Strange will be remembered by Ozonans as a member of the firm of architects at Lubbock employed in construction of the new high school building here.

The architects returned to Lubbock to draw up preliminary floor plans and front elevations to submit to the board of trustees at a meeting set for April 18. At that meeting, the trustees and architects will agree on specific points of construction and details of plans and the architects will then prepare final plans and specifications. Historical Society Hears Incidents Of Early Days In County

Incidents and anecdotes of the early days in Crockett county and aims and purposes of the historical society were topics which members of the Crockett County Historical and Scientific society heard discussed at the quarterly meeting of the group Monday night.

Richard Flowers reviewed some of the early day recorded incidents taking place in this area and C. S. Denham, in presenting a copy of his thesis, "A History of Crockett County" for the society's archives, reviewed some of the more interesting bits from this work. Mrs. Evert White traced the aims and purposes of the society, to study, record and preserve the history of the county and section.

W. R. Baggett, president of the society, presided over the meeting. Others present were Mr. and Mrs. Bill Baggett, Mr. and Mrs. Alvin Starrell, Mr. and Mrs. C. S. Denham, Mr. and Mrs. Joe Davidson, Mr. and Mrs. Evert White, Scott Peters, Mrs. B. B. Ingham, Elam Dudley, Richard Flowers, Miss Wanda Watson, Ted M. White and Houston Smith.

BIRCH PLEASES OZONANS

Birch, master magician, entertained a large crowd of Ozonans for nearly two hours Tuesday evening with his tricks and illusions. He appeared here under auspices of the Junior class of Ozona school.

Court Agrees To Study Oil Field Road Betterment

Oil Officials, Workers To Be Consulted On Needed Work

Members of the Crockett County Commissioners Court meeting here this week, in an informal discussion of affairs of the county, agreed to give sympathetic consideration to any proposal for betterment of roads between Ozona and the new deep oil producing field on the Todd ranch 15 miles northwest of Ozona.

Citizens groups were asked to confer with oil officials and members of the drilling crews employed in the field to determine the ideas of all interested groups as to the best route to be followed by any contemplated road improvement project.

Court officials and others who had given study to the proposal indicated that one plan worthy of consideration would be that of constructing a road on the east side of Howard draw to connect the well with the pavement of the Old Spanish Trail on an almost direct line from the field south to the highway. Such construction would eliminate two present crossings of Howard draw and the selected route would furnish a natural gravel road bed almost all the way that would be an all-weather road, and at the same time cut off several miles from the present distance from Ozona to the field.

However, commissioners indicated a desire to learn first the ideas concerning the best route from officials and persons employed in the field who travel it most and promised consideration of any proposal made at its next meeting.

Warehouse Leases New Quarters To Expand Capacity

Ford Agency Moves To New Location For Office, Showroom

Ozona Wool & Mohair Co. added approximately 300,000 pounds to its wool and mohair storage capacity during the past week when it took over the lease of the Tom Smith building, adjoining its present quarters.

The Smith building had been occupied by the Stevens Motor Co., local Ford dealers, who moved into new display quarters in the front part of the building occupied by the wool warehouse and Miller's Service Station. The Ford agency will maintain a display of new cars and office quarters in the new location, moving the garage and service department to Big Lake, where a new building has been rented. Cars sold by the agency will receive service at the Big Lake shop or on a farm-out to local service stations.

A doorway joining the two buildings leased by the warehouse company has been cut through the rock wall and the new addition is being used to relieve congestion in stored wool and mohair. Melvin Brown, manager of the warehouse, says the new building will add approximately 300,000 pounds to the warehouse's storage capacity, raising it to approximately 1,800,000 pounds.

SELL 6 NEW CARS

Four new Dodges and one Plymouth were delivered last week by the James Motor Co., local Dodge and Plymouth distributors. Early Chandler was delivered a 4-door Plymouth sedan, J. A. Marley, a Dodge 4-door sedan, Ernest Carroll of Sonora a 3/4-ton Dodge stake truck, H. M. Jones a Dodge coupe and Clay Montgomery a Dodge pickup. A half-ton panel delivery Dodge truck was delivered the first of this week to the Ozona Laundry.

Royal Artillery Tunes Up for Action

Both men and guns become rusty through inactivity, according to the British censor, so the royal artillery keeps tuned up by regular gunnery practice while awaiting action on France's western front. This crew is at loading exercises in a camouflaged gun pit, somewhere in the forward zone.

Trustees, Faculty And Parents Move To Abolish Hazing

Recent hazing activities on the part of upper classmen in Ozona high school resulted in a conference of members of the school board, parents and school officials last Friday night in which the dangerous practice came in for a thorough discussion and an agreement for a concerted drive to prevent any further outbreaks of this nature.

Cooperation of the school board, faculty and parents was sought to outlaw any form of hazing in the future. The action of the group conference was placed before the student body early this week by Supt. C. S. Denham and it was expected that students who have taken part in such activities would cooperate to prevent further community disturbance and possibly serious trouble by eliminating hazing from the list of student activities.

County To Help In Beautification Of Power Plant Park

Crockett county has agreed to share in the cost of parking and improving land about the Peecos Valley Power and Light Co. plant in the extreme northwest edge of the county. R. A. Williams, manager of the plant, appeared before the court in session here this week to explain the plan for improvement of the property.

The company, one of the largest taxpayers in the county, has already spent considerable money toward the park improvement and the county agreed to contribute another \$500 to the project.

Use School Funds To Buy Municipal Bonds

Purchase of \$18,000 in bonds of the cities of Chillicothe and Athens for the permanent school fund of Crockett county schools was recorded in minutes of the Commissioners Court this week. The bonds were purchased to replace \$18,000 in Fisher county road bonds recently purchased. The purchase was of \$10,000 of city of Chillicothe 5 per cent bonds and \$8,000 of city of Athens 4 1/2 per cent bonds, both at par and accrued interest.

PROPOSE WATER SURVEY

Crockett county Commissioners took under advisement this week a request presented by William M. Lyle of Houston, engineer employed with the WPA, for permission to make a water survey and map of Crockett county with WPA or relief labor. The WPA engineer said that the project would consume a month and that he would need a truck and about ten WPA or relief workers.

Conoco 2-B Todd Given 50 Barrel Daily Allowable

Amerada May Drill In Area; Moores Stake Pair In West

A daily allowable of 50 barrels has been set by the State Railroad Commission for Continental Oil company and others No. 2-B J. S. Todd unit, deep discovery well, 15 miles northwest of Ozona, which last week flowed 840 barrels of 40.6 gravity, green oil in 12 1/2 hours through 11/16 in choke on 2-inch tubing on Railroad Commission gauge. The well was shut in after 12 1/2 hours because all available storage was filled.

The daily allowable for the deep producer was made retroactive to March 27, when it was first tested. The high gravity oil is being trucked to the Texas-New Mexico Pipe Line station tanks to the south, the back allowable having been produced and delivered the middle of this week.

Reports of negotiations by Amerada Petroleum Corp. for leases on the north and west of the discovery acreage with a view to testing possibilities of production from the lower horizons in that area were contained in press dispatches over the weekend. Amerada was reported negotiating with Pete N. Wiggins, Jr., of Dallas for the bordering leases. Reports from Midland also said that it was rumored Amerada had acquired a block of acreage in southeastern Reagan county with intention to start deep exploration.

With interest continuing high in the deep discovery producer throughout the oil world, unconfirmed reports are current among oil men here of impending widespread drilling operations in the unit block held by the group drilling the 2-B Todd, as well as in (Continued on Last Page)

Pictures Of Ozona Band At Regional Contest In Paper

Ozona high school's band "made" the front page in pictures at the regional band contests in Odessa last week, according to a clipping from the Odessa Bulletin received here.

In four pictures of band contestants in the city for the event, two were of the Ozonans. One showed Max Word, 10-year-old mascot of the local band, in full uniform, and another showed the Ozona band in a warm-up session on the school lawn. Max Word won second in clarinet for the third time, reaching this rank in previous contests at San Angelo and Abilene. The band won fourth in marching and playing and third in sight reading.

Honor Graduates Of Seventh Grade Class Announced

Honor graduates of the seventh grade were determined at a meeting of the faculty Wednesday afternoon when grades for the year's work were averaged.

Judith Williams was found to have the highest scholastic average of the class for the year's work, her average being 91.5. Jim Ad Harvick was second with an average of 89.75. Billy Laxson was a close third with an average of 89.50, and Mary Elizabeth Gray was in fourth place with an average of 88.75.

Seventh grade graduation exercises will be held Wednesday, May 15. Candidates for graduation into high school are Judith Williams, Jim Ad Harvick, Billy Laxson, Mary Elizabeth Gray, Burl Sparks, Louise Bean, William Yancey, Basil Dunlap, Alyne Hokit, Tom Ed Montgomery, Georgia Senne, J. H. Stevens, Calvin Williams, N. J. Wardlaw, Bertie Sue Brownrigg, Ailene Cooke, Lila Lee Cooke, Melba Cullins and R. J. Dowdy.

Ten Families Move Here For Work With Gravity Meter Firm

Ten men, with their families, were stationed in Ozona last week with the Robert H. Ray gravity meter contracting firm for geological explorations in Crockett county. The crew plans to be here for about two months, but may possibly be here longer. The company maintains headquarters in Houston.

The group includes Mr. and Mrs. Martin O. Patterson, Mr. and Mrs. John Boyd, Mr. and Mrs. Tom Wilson, Mr. and Mrs. Ross Bird, Mr. and Mrs. James West, Mr. and Mrs. Henry Potthast, Lloyd Stoneham, Roy Smith, Horace Rowland and Robert Mawdsley.

Burned Wreckage Of Car Stolen Here Is Found Near Junction

Charred ruins of a car belonging to C. W. Tallaferra, stolen Monday night from in front of the local theater, were found Wednesday morning in a thicket a short distance from the highway between Junction and Kerrville, Sheriff W. S. Willis reported.

The stolen car, a green Pontiac sedan, had evidently been pushed or driven to the spot and then fired. It was an almost complete loss. No clue to the identity of the thieves has yet been uncovered, it was reported.

County Sends Seven Mexican Boys to CCC

Seven Mexican boys living here who had been accepted for enrollment in the C. C. C. were provided transportation to Lamesa, where they had been ordered to report, by action of the County Commissioners Court this week.

The boys were without means of providing their own transportation to Lamesa to report for the Corps, and the county engaged the services of Ernesto Martinez and his car to take the group, paying Martinez \$3 a head for the passengers and filling his gasoline tank here.

100,000 Pounds Of Fall Wool Sold At 22c In Local Sale

Sale of 100,000 pounds of fall wool, the clips of a number of Crockett county growers, was announced the last of the week by Melvin Brown, manager of the Ozona Wool and Mohair Co. The sale, the first of consequence for this length staple reported in the area in several weeks, was made to J. M. Lea of San Angelo. The wool brought 22 cents a pound.

Mr. and Mrs. Joe Clayton, Mrs. A. W. Clayton and Jack Williams returned Wednesday from San Antonio.

MADDEN READ NEW MEMBER SCHOOL BOARD

Write-In Voters Divide Ballots Among 20 Candidates

THREE RE-ELECTED

Scott Peters Leads In Votes; Smith, Miller Re-Named

Electing one new school trustee and retaining three of the four board members whose terms had expired, Crockett county voters Saturday scattered their ballots over a field of twenty write-in candidates in one of the most spirited school trustee elections held here in several years.

Voters in the Ozona box cast 83 ballots marked for Madden Read to elevate him to the board of trustees to become the first new member on the board in several years. Mr. Read's backers outvoted by 24 votes those who wrote the name Roy Henderson, retiring trustee, on the ballot. No names of candidates appeared on the ballot.

Scott Peters, Tom Smith and Rob Miller were returned to their posts as members of the board of trustees. Mr. Peters led the field of all candidates with a total vote of 148 in the county, 140 votes in the Ozona box, five in the Owens box and three in the Howard Well box, only other precincts holding elections. Rob Miller's vote here was a tie with that for Read, 83, but the board members whose terms were expiring received all of the eight votes cast in the two outside boxes, making Miller's total 91. Tom Smith received 79 votes here, with the eight ballots from the other two boxes raising his total to 87. Roy Henderson's total vote was 59.

A total of 208 votes were scattered among fifteen other persons whose names were written on the ballots. George Bean and Lee Wilson received the heaviest vote of this group, each tallying 41 votes. Evert White was the choice of 30, Max Schneemann of 21, Richard Flowers 20 and W. E. Friend, Jr., of 13. Others whose names were listed on the canvassed returns as receiving from one to a dozen ballots were Houston Smith, V. I. Pierce, Stephen Perner, L. B. Townsend, Massie West, Hilley Phillips, Floyd Henderson, Vic Montgomery and E. R. Kinser.

Hold-over members of the board are Paul Perner, president, and Bascomb Cox and Ira Carson. Trustees are elected for two-year overlapping terms.

Week-End Rains Spur Up Spring Growth Of Feed

1.65 Inches Registered Here; 2 to 3 Inches To South

Ranchers throughout the territory pronounced the rains of the past weekend the most timely and perhaps the most beneficial that could have fallen. The fall was general over most of West Texas, ranging from light falls to upwards of three inches.

Starting off with gusty showers, the rains gave indications of being just scattered showers but continuing falls brought bountiful moisture Friday night and Saturday to a wide area of the ranching country.

The fall in Ozona registered 1.65 inches, with ranchers to the south reporting two and three inches of rain. The moisture was perfectly timed to give a new spurt to fast growing grass, weeds and brush in pasture lands.

Mr. and Mrs. Boyd Clayton returned Wednesday from Fort Stockton.

THURSDAY, APRIL 11, 1940

Crockett county voters approved Saturday by a big majority a \$30,000 bond issue to construct a new school building for children of the Mexican settlement here. They approved in spite of, not because of, the dictatorial threats coming from the office of State Superintendent L. A. Woods in Austin of withdrawal of the per-

capita apportionment for schools of this county unless the bonds were approved. No doubt most of the voters who approved the issue did so through recognition of the need rather than through fear that the would-be Hitler of pedagogy might at his will nullify the provisions of a state law.

Gov. W. Lee O'Daniel has started publication of his own newspaper, "The W. Lee O'Daniel News," to further publicize his poetic fantasies, the Ten Commandments, his pretty daughter and two handsome sons—all of which are supposed to be an adequate substitute for intelligence in administering the office of governor of the great state of Texas. If the voters of Texas will face the facts of the miserable failure of this pinheaded administration, neither the pseudo sermons and adolescent poetry via the Mexican radio stations, nor the governor's private newspaper, nor yet even the pretty face of Molly O'Daniel, can re-elect the Fort Worth flour salesman as governor of this state.

Alpine Baptist Minister Holds Mexican Revival

Services are being conducted twice each day this week in the Mexican Baptist church by Rev. John Abbott of Alpine. The speaker is employed as Missionary to the Mexican people of the Pecos Valley and Big Bend Baptist Associations. He is no stranger to the local people since he is now conducting his third revival this year for the local church.

Having been in this work only six months, the missionary has witnessed a fine growth in the work over the area. Some of the visible results are: Seven new Sunday schools organized, one church building erected, more than 70 conversions, many additions by letter and statement, many rededications and several volunteers for special service.

Rev. Abbott spoke Sunday morning and afternoon for the Mexican people and Sunday evening to the First Baptist church. The local services are enjoying a fine interest and attendance upon each service.

Roy Smith has been confined to his bed for the past week suffering with a throat infection.

"Big News" Now?

Buick prices begin at **\$895*** for Business Coupe (Illustrated)

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

YOU can figure it out for yourself from what you see in daily traffic and what you hear when the talk turns to automobiles.

Buick's pacing the pack. Has been for several years.

It called this year's style turn a year ago. It set current performance standards in '38 with its Dynaflash engine. It still leads the crowd for riding qualities with its BuicCoil

Springing, now in its third year.

So where's a more logical place to look for next year's "big news" than in this year's big and roomy Buick?

It may be smoother engines. Buick is the only car that now balances power plants after assembly.

Coil springs all around may come. Buick's never need lubrication, are practically indestructible, and even cut down skid-risks.

You get all of these things now in Buick.

Get them with the plus of Buick quality of materials and workmanship—get them at a price that suggests a six instead of an eight.

So it's easy to start enjoying future "new features" right now.

Just go try a Buick. Look it over, inside and out. And get the prices.

Even if you've been buying in the lowest-price field you'll find it takes less than you think to step up to a Buick. Prices begin at \$895 *delivered at Flint, Mich.; transportation based on rail rates, state and local taxes (if any), optional equipment and accessories—extra. Prices subject to change without notice.

You get a "Good Deal" Two Ways from Your Buick Dealer

A good "deal" when it comes to old-car allowances—and a whale of a lot of automobile in your new Buick. See your dealer and find out for yourself.

Maybe it'll be heavier frames—Buick has the heaviest of any car of its price. Or maybe many of the "extra touches" Buick so freely applies—safety-latches on rear doors and Two-Way Direction Signals with automatic cut-off.

"Best buy's Buick!"

Streamlining To Extend To The Hot Dog Of 1940

CINCINNATI, Ohio.—The "hidden weiner" sandwich is the newest wrinkle in hot dogs being cooked up for the enjoyment of the baseball fans of America next summer.

William Golding, a former University of Cincinnati football half back, is now collaborating with another Cincinnati resident on the new marvel.

Their hot dog bun comes from the bakery with the weiner and mustard, or horseradish if you will, already baked inside the dough. The bun is placed in a warming oven at the ball park and served hot to customers.

Golding says the new invention—for which a patent has been applied—eliminated the annoyance of messing around with knives and forks and mustard and horseradish attendant to the old fashioned hot dog.

BIRTHDAY PARTY

Honoring her daughter, Kay, on her fifth birthday, Mrs. Doug Kirby entertained a group with a party Monday afternoon at her home.

Ice cream and cake were served to Mary Ann North, Judy White, Rosalie Friend, Phillip Childress, Bobby Smith, Joe Albert Brown, Charlene Lunon, Jerry Carl Lunon, Ben Burl Conklin and Wilburn Conklin.

111-Year-Old Bread Tray To UT Museum

AUSTIN, March 20.—One hundred and eleven years after it yielded its first batch of pioneer's bread, a huge bread tray hewn from a Texas tree, last week was placed in Texas Memorial museum here along with a rolling pin of equal age.

Now in the museum's Pioneer room on the University of Texas campus, the two kitchen utensils of early Texas have come down through four generations from Mr. and Mrs. J. T. Pettit, who once lived near Nacogdoches. It was sent the museum from Fort Worth by Miss George Ann George, great-great-grandfather of the Pettits.

Youth Asks For Longer Term To Get Accounting

CLEVELAND, Ohio.—Ernest Stein, 22 years of age, of Toledo, Ohio, who was sentenced to 18 months' imprisonment in the state penitentiary for interstate transportation of a stolen automobile, protested against being sent to the Milan, Mich., reformatory with other short term prisoners.

"They do not teach bookkeeping and typing at the Milan prison," he told Federal Judge Robert N. Wilkin.

The court judge obliged him, and added one month to the sentence. Stein was sent instead to the North Eastern Federal penitentiary at Lewisburg, Pa., where he will have 19 months to study the two courses.

There IS a
Difference in Gasolines

AGAIN, Humble's policy of continuous improvement registers a noteworthy gain in quality for Texas motorists. These two great gasolines, now improved, point the way to improved performance for your car. When you try them, you'll agree that there is a difference in gasolines.

Improvement of these gasolines results from our policy of CONTINUOUS IMPROVEMENT: Humble technical men are constantly experimenting, in the laboratory and on the road, with improved products for your car. This constant research results in continuous improvement of the gasolines, motor oils and other products you get under the Humble sign. The process of improvement is so continuous that specific improvements frequently are made without public announcement. It is only when marked improvements are made, like the improvement in quality of these fine gasolines, that your special attention is called to them.

It all adds up to this: we promise you that you will find Humble products second to none, that you can depend on continuous improvement to keep the quality of Humble products up with, or a little ahead of, the performance built into your car.

To Buyers in the Lower-Price Field

Humble offers you another product of its policy of continuous improvement in Thriftane, a leaded gasoline of specified quality at thrifty price.

PARTNERS IN A GREAT TEXAS ENTERPRISE

TEXAS farmers and ranchers received last year from oil men the huge sum of \$132,478,000 for leases and royalties as their share in this partnership.

All but seven of Texas' 254 counties now share in this cash return from leases and production on more than 50,000,000 acres of Texas land.

Then, too, the Texas farmers and ranchers sell to oil workers and their families more than \$60,000,000 worth of farm and livestock products each year.

Thus the farmers and ranchers of our state receive nearly 200 million dollars a year as their share of oil's total expenditure of 750 million dollars annually in Texas. These 200 million dollars in turn flow into every channel of Texas trade.

The Texas farmer and rancher and the oil man are partners in the development of Texas.

The Senses

By Kirby-West

SEEN—

Joe B. nonchalantly filing his fingernails in class.
 Mary Bess whizzing around in the convertible Thursday night.
 Gem Ella jitterbugging in Odessa.
 Naomi was also getting around in a convertible over the weekend.
 Mary Frances with Joe continuously in Odessa.
 Ella picked up a boy friend in a big Stetson hat who supplied her with chewing gum. Too bad that he was only nine years old.
 Everyone taking in the midnight show in Odessa.
 Those in the Pierce car coming into Odessa on a bus.
 Helen and Dorothy with a couple of "exes" in Odessa.
 Noma, Johnnie and Gladys trying to get Stanley to take them riding Friday night.
 Two freshmen girls stepping high, wide and handsome Saturday night. Lottie, would you and Joy know what they did?
 L. B. was also with Mary Permer at the contest.
 Elton and Roy Coates running around (half-dressed) in the Elliott Hotel halls trying to dodge the porter about 3:00 in the morning.
 Some fancy twirling during the mass band formation. Three people from Odessa gave a fire-twirling exhibition that was colorful as well as clever.
 Noma having trouble knitting her sweater. Ella scared her more than she helped while picking up some dropped stitches.

FELT—

Surprised and how! Mary Faye received the money at the show Thursday. Congratulations, Faye!
 Guilty and shocked! Three girls heard too much by eavesdropping on a certain room in the hotel.
 Also guilty and shocked! The above-mentioned boys said too much too loudly.
 Cold! Friday morning the band students had to march for an hour in the wind.
 Colder and wet! The rain bothered the marching bands at the contest.
 Jolted! From a Buick to a Chrysler (a rough-riding one at that) is definitely a jump.
 Tired! Going to bed at 2:00 and getting up at 8:00 is hard on these seniors.
 Warm blankets! They appeared from nowhere and were seen everywhere during the marching.
 Funny! The Ozonans couldn't play "God Bless America" in the mass band because Mr. Heath lost the music.

HEARD—

W. B. got the wrong room. Instead of going to the third floor, he went to the second. Did you thing it was a burglar, Lottie?
 Miles commenting on the pie by saying, "Brazil doesn't have a monopoly on the rubber, either."
 "Have you seen Mr. Denham?" quoth the bandmaster (and everybody from Ozona).
 Some excellent playing by Dorothy for the jitterbugs.
 Coach's telling W. C. to give a dissertation upon the apocapotions of adjectives.
 That Noma saw one of her friends from Fort Stockton in Sonora Sunday.
 Rousing music! A mass band of about 28 bands playing the same pieces is a stirring sight (and makes a rousing noise)!
 Mr. Heath's (Hugo to youse guys), not believing Roy when he said he had fever.
 Moneys clicking. A "crap" game two doors from two Ozona band students kept them awake.
 Dub's telling some curious people that his baritone case was a bass piccolo case.
 Goans and fussing. It seems that hazing has gone out of style in OHS, that is, according to the newest law.
 Some good sight reading. Ozona made the third division plus in it at Odessa.
 Gossip! Everyone is telling about what he did in the big city. (Odessa again.)

OZONA HIGH SCHOOL BAND MEMBERS ATTEND REGIONAL BAND CONTEST

EDITOR'S NOTE: Below is the story of the band's trip as told by the Ozona Band Drum Major, Dorothy Hannah, who is pictured at right.

On Saturday morning at 8 o'clock, almost all of the members of the high school band left Ozona for Odessa, where they participated in the annual regional band contest. Although the weather was quite unfavorable during most of the trip, the sun began to shine before the destination was reached. The majority of the members arrived in Odessa by 11 o'clock, where they ate lunch. At 1 p. m. the members reported to the Odessa high school auditorium, where they heard the performances of three of the other Class C bands. Quite a bit of information was received by watching and listening to the various ways in which the required contest piece was interpreted.

At 3 o'clock, the Ozona band went to the gymnasium for a "warm-up" practice period of about 15 minutes. On the way from the auditorium to the gymnasium, the band and its various members were stopped and photographed by several "candid and movie camera men." From the warm-up room, the band went to the auditorium, where it played "March of Youth," "Gnome of the Grotto," and "Hero Overture" (the requested number). For this performance, the band received fourth division. From the auditorium, the band went to the Odessa high school band house, where the members sight-read a march and an overture. For this, the band received its highest division which was three plus. The various members were permitted a leisure period from the end of the sight-reading until 7:30, when they reported to Fly Field for the marching contest.

During the marching contest, it suddenly began raining and all of the bands went to shelter underneath the stands. Although the rain was hard and cold, it lasted only a few minutes, after which the contest was resumed.

The Ozona band was the last of the Class C bands to march. At the signal from the drum major, the band began the playing of their march, "Port Conway."

The Ozona band received fourth division for their performance in the march contest. After all of the bands had completed their marching, a mass formation of all the bands was made and the drum majors, majorettes, twirlers and drummers were called to stand in front of the bands to twirl, and keep the rhythm steady during the selections. This mass band was directed by Ward (Continued on Page Seven)

Senior Invitations To Graduation Exercises Arrive

The invitations which were ordered by the senior class several weeks ago have arrived, the total order of the class of 21 coming to 2,335 invitations. At the beginning of the second semester the seniors chose these invitations, which are white, folding three ways and having on the front a lion seal and a cut of the front of the Ozona high school building. The inside contains the invitation to the Commencement exercises an announce of Baccalaureate service, the class roll, motto, flower and colors. Twenty-one of the 2335 invitations are souvenir invitations made with leather covers.

Press Club Members Honored With Dinner

At the regular meeting of the Press club last Wednesday, the members of the Press club were honored with a dinner given by Mrs. Bryan McDonald.

The meeting was called at 7 o'clock, and after a business meeting and program, a delicious dinner course was served to 15 members.

This meeting was of special importance as it was the next to last meeting in which the present members will participate.

Much important business was discussed. The various committees for the Press club banquet made reports of their duties. Finishing touches were made on the plans on the banquet, which is to be held Thursday, April 18.

Also plans for the senior edition of the Lion's Roar were discussed. It has been learned that the seniors of the Press club will make this issue.

Grade School News

Once there was a cowboy. His name was Johnny, and he had a horse. Johnny said that when he first got his horse he jumped so high that he missed the ground and rolled over and over and over, just like a tumbleweed. So, they named him Tumbleweed.—Judy White.

The farmer has a horse. His name is Snowball. The farmer feeds him hay. The children like to ride him. The farmer rides him into the country.—D. L. Terry.

The farm horse is named Jack. He works on the farm. The farmer feeds him. The farm horse will not pitch. He lives in a barn and eats hay.—Mary Ann North.

Dan is my dog. He is brown. He plays with me. He sleeps with me. He comes in my house. I feed him. (Continued on Page Seven)

Annual Banquet For Press Club Thursday

The annual Press club banquet will be held next Thursday night at the Hotel Ozona. At that time, the new Press Club members will be assigned their work for the coming year, and the new editor will be presented the quill of editorship.

As is the custom, Miss Terry will present deserving members with their awards for faithful service to the Lion's Roar. An award will be given to the most deserving staff member, the selection being based on the one who has written the best articles as a whole. The one who will receive the reward will be chosen by the club sponsor and by Mr. Evert White.

The committees for the entertainment, decoration, menu, and finance for the banquet are: Program committee, Billy Jo West, chairman; George B. Armentrout, Margaret Russell and Charles McDonald, decorations; Dorothy Hannah, chairman; Eloise Carson, and Gladys Wills, menu; Bess Parker, Jim Dudley and Howard Lemmons, finance; W. B. Robertson Jr., chairman; Miles Pierce, Gem Ella Dudley and Tincy Kirby.

4-Casting

Several band members who appeared to be disappointed because the Ozona band received a fourth division in marching are the ones who could have prevented that "slight" disappointment!

4-Casted! Trouble and double trouble in OHS.

FLASH! Away from home-town and up to big-town where third term talk is important. C. S. Denham predicts that Roosevelt will not run for a third term, but instead, will give his support to Hull! Your reporter 4-casts that, that—that 'er—"time will tell!"

Now to the next important trip, which comes tomorrow, the district meet at Fort Stock, Ozona will be represented in one-act play, typing and tennis. It is said that "Ozona never wins"; but remember: There is always a first time. Good luck to those who participate in these activities.

Remember students: When a dictator opposes an action, so do the people.

Three Groups Represent Ozona In District Meet

At the annual district meet in Fort Stockton Friday and Saturday, Ozona will be represented in three events.

Under the capable direction of Miss Mildred North, the one-act cast selection in assembly last week will present the comedy entitled "Cleaned and Pressed" on Friday night. The members of this cast are Elton Smith, L. B. Cox, Eloise Carson, Margaret Russell and Priscilla Jean Baker.

Miss North's typing team, Tincy Kirby, Floyd Hokit and Billy Hannah, will enter the typing contest, to be held on Friday morning.

Ozona will also have entries in the tennis meet. Floyd Hokit will be the boys' singles player, while Donald Wilson and George B. Armentrout will enter the boys' doubles. In the girls' division, Ozona will be represented by Billie Jo West in the singles and Tincy Kirby and Johnny Boyd in the doubles.

Black Cement Tennis Courts Opened Mon.

The tennis courts have been completed and the students were ready to "swing and sway" on them on Tuesday, April 9. The courts have a black finish, trimmed with white lines. New nets have been provided for the two new courts. A rumor has been going the rounds that two more courts are going to be made out of the dirt that was used in the old courts. It is not known how true this is and "on steps forward" have been taken to advance this matter.

THE Prowler

By Howard Lemmons

Dorothy seems to be taking advantage of the old "exes." She hasn't rated a date with a high school student, she has been pretty steady with an "ex." It had better be on the lookout, Dorothy. He can't take you to the senior affairs.

Mary Faye and Naomi seemed to be doing all right in Odessa. They were seen several times in a cozy room separated from the public by a curtain. Who were your friends? Naomi, did the halibut bite you when you fell on him?

When Peewee and Roy C. were trying to give a porter the slip in Odessa, they certainly picked a bad place to hide. Lottie Jo, why did your mother want you to be quiet? Were you making too much noise?

Tincy, since when have you joined the band? What do you play, suckers?

Miles, you must have been passing that jalopy of yours. Did you have much trouble catching the bus?

J. K., you certainly did make a quick swap with your ring. He does it fit, Gem Ella?

Dick, were you well chapanned Saturday night? Why couldn't you sleep with the other boys?

NEW MEMBERS OF PRESS CLUB ELECTED

At a special meeting held last Tuesday, called by the president of the club, Miles Pierce, the Press club, with due contemplation, elected the new members for the coming year. The new members will take office the week of April 2 and from that time to the end of spring of next year, the Lion's Roar will be in their hands. There will be one meeting in which both the present members and the new members are to participate.

Once upon a time there were two little ponies. One was named Judy and one was named Tom. Judy was the black pony, and Tom was the white pony. Tom liked to be ridden and Judy liked to be ridden.—La Ferne Nance.

Last Thursday the fourth grade organized a safety club. We have a new read—"Safely On We Go." The purpose of the club is to make us more conscious of the dangers in crossing the streets without

looking, jay-walking and riding bicycles on the sidewalks. We hope to help prevent accidents on the school grounds.

Billy Hoover was elected president, Ann West, vice president; Max Word, secretary. A safety committee was appointed for the boys and girls. They are to report any unsafe things seen done by any member of the fourth grade. They will report anything helpful done by any member of the class. Each week two line captains are selected. The first line captain is at the head of the line and the second at the rear of the line. They are to help keep order in line.—Joe Perry.

West Texas Utilities Company Romance A Modern Linerider on the Range "...for he's a jolly good fellow" HES no softie, this Modern Linerider. Like the old-time cowboy, his work calls for plenty of nerve. His face is sunburned. His muscles are hardened by many hours out-of-doors, climbing 50-foot poles and clinging tenaciously to cross-arms while dodging "hot" wires that might otherwise send him hurtling to the ground—and sudden death. He works under tremendous pressure. Many of his jobs are like that at Clyde, struck by a tornado on June 10, 1938, in which 12 persons were killed and communications completely disrupted. Linemen rushed to the stricken area and had light and power service restored just 32 minutes after the tornado hit. Sometimes it is an immediate need for electric power, such as occurred in the McCamey area when oil first was discovered. A hundred miles of line were built and put in operation in the world's record time of exactly 60 days. Some are college graduates. Others have the equivalent in actual experience. All are highly trained and skilled workmen. They work hard—and play hard. They are good citizens, loyal to their communities and supporting civic enterprise. They are among the hundreds of men and women working "behind the scenes" to make Electric Service efficient, dependable and economical here. On them we bestow a title of honor—"Modern Lineriders." **Ozonans Attend
Dist. Conference
Methodist Church**

A large group of Ozona Methodists attended the annual district conference of the San Angelo district in Sonora Tuesday and Wednesday, this being the first district conference meeting for this district since the three Methodist churches united.

Dr. K. P. Barton, district superintendent, presided over the meeting. Dr. L. E. Spellman, pastor of the First Methodist church of San Angelo, spoke in the interest of the chapel that is to be built at A. and H. colleges. Rev. Eugene Sloner reported on the work accomplished by the church for the first five months of the

year, and Miss Mary Riddle gave a talk on the community center in Ozona.

Delegates from Ozona were Mrs. Madisen Reed, Mrs. Alvin Hammett, Mrs. Scott Peters, Mrs. E. B. Lightam, Mrs. Jennie Riddle, Miss Mary Riddle, Will Baughman and Rev. and Mrs. Eugene Sloner and Susan.

Mr. and Mrs. Harvey Colliard, who have been making their home in San Angelo for the past several months, have returned to Ozona to live. Their daughter, Naomi Colliard, is a senior in high school here.

Sam Houston and Pete Sapp were charged with fighting last week and paid fines of \$1 and costs in justice court.

SCHOOL BONDS—

In order that the most economical construction methods may be secured, alternate bids are to be asked on all phases of construction and equipment. It was announced. Present plans call for an eight-room building, of fireproof construction. Whether the building is to be of brick, tile and brick, concrete or tile and stone will be determined by the board at later conferences with the architects.

The new building is to be located on a site just north of the present frame building now as a Mexican school. The Commissioners Court in session this week decided a tract of land approximately 400 by 400 feet in size out of a part of the amusement park site donated to the county by the late E. M. Powell, this land to be the site of the new building. The deed to the property, which adjoins the present Mexican school on the north, will be sent to Dallas for approval of administrators of the Powell estate.

The three-room frame building now serving as a Mexican school will be razed and suitable materials incorporated in the new structure. Construction on the new building is expected to start shortly after the close of schools and will be completed before the start of the next school year.

OPEN NEW GIFT SHOP

Work is nearing completion on quarters for a new gift shop department to be opened soon at the Smith Drug Co. store. The new shop is to occupy space in the rear of the building which is undergoing thorough refitting and modernization. The prescription department is also being enlarged.

Tom Owens, Vic Montgomery and Margaret Owens spent the weekend in Crystal City attending the races. Margaret took her top horse "Buster" and roped each day.

Conoco 2-B Todd—

(Continued from Page One)

No. 2-B Todd is bottomed at 5,081 feet, one and a half feet in the Simpson, middle Ordovician. Production is entirely from the crinoidal limestone of the Strawn, lower Pennsylvanian. The strike was neither west nor easterly. Gas volume is approximately 1,125,000 cubic feet daily. The Strawn pool opener, generally considered the most important development since opening of the Yates field in 1926, is located 1,380 feet from the south, 2,010 from the west line of section 23-WX-GC&SF.

Continental and others No. 3-B Todd, east offset to No. 2-B Todd, was scheduled to be drilled to 450

feet with spudder. It then was to set and cement 13-inch casing and change to rotary.

Other important developments in Crockett county oil for the past week include the staking of two wildcat tests in the northwestern part of the county by the Moore Exploration Co. of Midland, composed of John L. and P. D. Moore, brothers.

One test will be on the Noelke Livestock Co. lease of 640 acres, 560 feet from the north and west lines of the southeast quarter of section 10, block GG. It will be about 12 miles southeast of Iraan.

The other Moore Bros. test will be on A. C. Hoover's ranch, also on a 640-acre lease, 660 feet from the north and east lines of the southwest quarter of section 16, block 1, GC&SF Ry. survey. The

Hoover test will be five miles and two miles north of Moore 1 Noelke, and about four miles north and slightly west of production on the ranch.

JUNIOR MISSIONARY GROUP HEARS LECTURE

Mrs. J. A. Fussell, acting Songs and Psalms when Mrs. Conklin was hostess to the Y. P. People's Methodist society Tuesday afternoon at her home. Ed Bean, Mrs. Joe Clayton, Miss Betty Lou Coates gave lectures connected with the lectures. Mrs. Fussell will give three these lectures.

Violets decorated the bust date loaf was served.

Others present were Mrs. Eugene Slater, Mrs. Carl O'Neil, Mrs. Buddy Moore and Mrs. Viles.
