RUMORS

The weeks preceding an election are likely to be marked by many rumors. Sometimes it helps to be on guard against them.

Some rumors have a small grain of fact at the center. Others begin in someone's imagination, or grow out of a misunderstanding. Whatever the origin of the rumor, one can be sure that it is usually larger than the facts warrant. No rumor ever grows smaller with the telling.

Few of us live such judicious lives that no mistakes are made. Our mistakes sink beneath the surface of memory and lie there until something calls them up again. When one of us runs for public office, the microscope and floodlight are turned on his life.

Friends and neighbors suddenly remember little episodes from years before. They recall unwise words the candidate once said and unfortunate things he did, or which people said he did. As they are handed from lip to lip, they grow larger and more colorful.

It is a little stupid to swallow a rumor whole. Sometimes a simple question will clear it up. We ought to be fair enough to discount every rumor we hear, until proven. Rumors shrivel and die in a skeptical atmosphere.

Some people are habitual rumor factories. They ought to be quarantined, just as a germ carrier is isolated.

Most rumors are started by folk with simple minds and large imaginations. If it is unfortunate that such people exist, how much worse it is when intelligent people pick up a rumor and give it a new audience.

Rumors are easily slain. The way is just not to believe or repeat them. Rumors feed on repetition; ignore them and they die.

While some rumors begin innocently in the minds of simple people, others are started for personal reasons. Someone having a grudge against a candidate and desiring to harm his cause will launch a few choice whispers, twisted to make the sharpest edge. These can fly over a whole county with the speed of sound.

Sometimes they are turned loose just before election, when it is too late to do anything about them.

A rumor put out as a grudge usually has to do with a candidate's personal life,—his family or business affairs, or some stand he has taken on a community issue in the past.

Rumors-spreading is a coward's pastime. It never engages the enemy in fair and open combat, but seeks to throw a rock through his window at night and run. The rumor-maker takes no risks, shows no courage, renders no service to any cause.

In these weeks preceding the July election, you will and I will hear rumors about certain of our friends and neighbors — and about other individuals whom we don't especially care for. These rumors will hurt the town of Ozona, for anything that wounds people, divides people, makes people resent each other, hurts a town. Let's try to remember that we have to live here with each other after the election is over.

If each of us mows his own lawn, the whole town will look better. And if each of us will refuse to encourage or repeat rumors about candidates or groups supposed to be behind candidates, there won't be many rumors left floating around.

As for my part, I'm going to try. Will you try, too?

CROCKETT COUNTY HOSPITAL NEWS

Patients admitted: E. Dillahunty Mrs. Wayne West, Jr., J. B. Bryan, Mrs. E. J. Larvin, Mrs. James Baggett, Jr., Mrs. Ken Cody and Mrs. Cecil Walley.

Patients dismissed: Bland Tandy, Jr., Wayne Woody, Mrs. Wayne West, Jr., J. B. Bryan.

Community TV System Granted Franchise Here

Tests To Prove If Dependable Reception Available

Dependable television reception with only a moderate outlay of cash may soon become a reality for Ozonans if planned tests of strength of television signals in this fringe area prove feasibility of installing a community television receiving and distribution system in the town.

A franchise granted the right to use of streets and alleys in the town of Ozona for stringing cables on which the television signals will be transmitted to homes was granted by the Commissioners Court last Thursday afternoon to a group of five Ozonans who are forming a company for installing and operating the community system.

Promoters of the new enterprise have been in consultation for some time with representatives of one of the nation's leading electronic engineering firms and other sources of information on the possibilities of fringe area television reception and plan soon to order an engineering test to determine whether or not a satisfactory signal can be received in Ozona.

Residents of Ozona may receive television over the system by plugging into a receptacle in their homes, thus tying into the system of cables over which TV reception will be piped throughout the town from the master receiving station. It is planned to beam the reception to get Midland, San Angelo and San Antonio. Individual installations will require nothing more than a receiving set, with no antenna required, and signals over the system will be preamplified in the tower, thus making reception possible with the cheapest set.

Users of the system will pay an installation charge and a monthly service charge. A competent technician will be employed to operate the system and to guard against interruptions, with probable television repair service also to be made available.

Backers of the proposed community TV receiving system for Ozona include Dick Henderson, W. E. Friend, Jr., W. D. Cooper, Oscar Kost and W. E. White.

Water Carnival Set For July 10 By Lions Club

College Swim Team, Bathing Beauty Contest in Plan

A water carnival, featuring a college swimming team, water ballet and bathing beauty contests will be held Saturday night, July 10, at the north pool here under sponsorship of the Ozona Lions Club.

Plans for the water show were announced this week following appointment of planning committees by Lion President L. B. T. Sikes.

A feature of the show will be a tiny tot bathing revue, for little girls six years old and younger. Entries of all girls in this age group is invited at once. Committees in charge of this feature of the show will be Floyd Hokit, Jim Dudley, C. O. Spencer and Aaron Bledsoe.

Invitation has been extended to the Southern Methodist University swimming and diving team to put on an exhibition as a part of the carnival program.

A bathing revue for girls from high school freshman age up will be another highlight of the carnival. Ozona merchants are joining in the carnival and are selecting contestants to sponsor in the bathing beauty contest.

A group of local girls will go into training soon to present a water ballet as a part of the evening's program.

Two Bank Robbers, Forger Taken To Pen To Begin Sentences

Sheriff V. O. Earnest of Crockett County and Sheriff Gene Echols of Upton County, Rankin, transported three Crockett county prisoners to the state penitentiary at Huntsville early this week.

Billy Bruce and Henry L. Smith, both 21 both from Junction, were convicted last week in district court at Rankin and given five years each in connection with the armed robbery of the Ozona National Bank on March 16. The two young men were captured by citizens and officers after a rooftop escape attempt by the pair.

In addition to the convicted bank robbers, the two officers carried R. J. Sullivan, also given a five-year sentence in district court here on a plea of guilty to a charge of forgery. Sullivan forged the name of Steve Welch to a check which he cashed here.

Pure-Bean Field Extension Finaled For 168 Bbls. Daily

The Pure-Bean field of Crockett County has been extended 1½-mile west and slightly north of production with completion of Pure Oil Co. 3-B Ed Bean for a daily pumping potential of 168 barrels of 29.4 gravity oil, no water, with gas-oil ratio of 833-1.

Production was through perforations between 1,218-1,437 feet in 5½-inch casing set at 1,492 feet, the total depth. Top of pay was picked at 1,218 feet, elevation unreported. Pay section had been acidized with 7,000 gallons.

Location is in 88-OP-GC&SF, 8½ miles northwest of Ozona.

Continental Oil Co. has filed application to drill its 5-C C. T. Harris ¾-mile south-southwest of production in the three-well Ranch (Strawn) field of Crockett County, 10 miles northeast of Iraan.

The project will be drilled with rotary to 8,400 feet.

Location, on a 1,428.9-acre lease, is 660 feet from the north and 6,025 feet from the east lines of 7-N. A. Miller survey.

Damage Suit Tried Here Is Reversed By Appeals Court

The Eighth District Court of Civil Appeals in El Paso reversed and remanded the decision of the lower court in the \$25,000 damage suit brought by Mr. and Mrs. Robert Lynch against the South Texas Lumber Co., of Ozona. Mr. and Mrs. Lynch, formerly of Ozona now live in Sheffield.

The trial was in connection with the death of their son, Robert Stanley Lynch, 4, who was pinned under a stack of lumber while watching his grandfather, William Thomas Buckner of Sheffield, buy lumber at the company's yard here.

The April trial, held in the 112th District Court at Ozona with Judge Garland Casebier presiding, resulted in a jury verdict on special issues finding negligence on the part of both the family and the company but awarding damages to the family amounting to \$10,000.

Standard Oil Co. To Offset Tippet Dual Strawn Strike

Standard Oil Co. of Texas has filed application to drill a ¼-mile east offset to Bankline Oil Co. and Hurt Oil Co. 1-41 Renee Mayberry Forristal, dual discovery and lone producer in the Tippet, East (upper and lower Wolfcamp) field of Crockett County, 12 miles southeast of McCamey. It will be the No. 1 J. H. Tippet.

Rotary drilling to 6,300 feet will begin when permit is approved. Location, on a 163.17-acre lease, is 4,500 feet from the north and 660 feet from west line of 42-31 H&TC. The discovery was dually completed in May for a combined calculated daily flowing potential of 3,112 barrels of oil.

From the upper Wolfcamp, it made 1,680 barrels of 36.5 gravity oil, no water, with gas-oil ratio of 920-1. Production was from between 6,187-6,217 feet.

Record Crowds Attend 6th Annual Colored Rodeo

Bandera Cowboy Wins Top Honors In Two Day Show

Reminiscent of the heydays of the old Crockett County rodeos was the jampacked grandstand at the fairgrounds here Saturday night for the closing program of the sixth annual All Colored Rodeo sponsored by the Ozona Roping Club. An estimated 2,000 spectators cheered the determined cowboys and horses in a variety program of goat roping, calf roping, hair pulling, bronc riding and steer riding.

Calvin Greely, a bronc rider and calf roper from Bandera, shared honors with "Juneteenth" the little black bucking horse who overshadowed most of the other show participants in performance and popular appeal for spectators. Greely was awarded the "best all around cowboy" honors but Juneteenth by far and away was champion in the bucking department. The hard pitching bronc kept un-sullied his record of never having been ridden by man—and five or six would-be riders tried him in the show just closed, including champion bronc rider Greely himself, in an exhibition affair.

Longest list of contestants in the history of the show provided plenty of entertainment for the spectators. To speed up the night show Saturday, a pre-show roping was held Saturday afternoon to accommodate all the entries. And some pretty good cowboys were included in the entry list.

Final winners in the two-day averages were as follows:

Bronc Riding: Calvin Greely.

Steer riding: William Highland.

Double Mugging: Oscar Shelton.

Goat Roping: Calvin Greely.

Goat hair pulling: Nelson Daniels.

Bankline Stakes Offset To Dual Tippet Producer

Bankline Oil Co. of Midland and Hurt Oil Co. of Houston have filed application to drill a ¾-mile north-northeast offset to their No. 1 41 Renee Mayberry Forristal, opener and lone producer in the Tippet, East (upper and lower Wolfcamp) field of Crockett County, 11 miles southeast of McCamey. It will be the No. 1A-41 Renee Mayberry Forristal.

Rotary drilling to 6,500 feet to test the lower Wolfcamp will begin June 25.

Location, on a 40-acre lease, is 2,666.1 feet from the north and 440 feet from the east lines of 41-31-H&TC.

The discovery was dually completed in May for a combined daily flowing potential of 2,112 barrels of oil.

From the upper Wolfcamp, it made 1,680 barrels of 36.5 gravity oil, no water, with gas-oil ratio of 920-1. Production was from between 6,187-6,217 feet.

From the lower Wolfcamp, it made 1,432 barrels of 36.5 gravity oil, no water, with gas-oil ratio of 1,000-1. Production was from between 9,294-6,330 feet.

The Midway Lane 1300 field of Crockett County has been extended one location southeast with the completion of Tubb-Smith-Watt & Gann 6 Chambers County School Land for a dialy pumping potential of 14.5 barrels of 34 gravity oil, no water, with gas-oil ratio of less than 200-1.

Production was from open hole between 4,317 feet where 7-inch casing was set, and 1,326 feet, the total depth. Top of pay was picked at 1,317 feet, elevation unreported. Pay section was fractured with (Continued on Last Page)

Two Men Charged In Burglary Of Pettit Ranch House

Two men, both Latin-Americans, were arrested in Big Lake Sunday and charged in court here with burglary of the ranch home of Mr. and Mrs. D. B. Pettit on the Vaughn ranch north of Ozona. The Pettit home was entered sometime Sunday night and a number of pieces of jewelry, watches, etc., valued at \$300, were stolen.

Sheriff V. O. Earnest and deputies, aided by Big Lake officers, arrested Pascual Moreno and Julio Ybarra in Big Lake Sunday. All of the loot taken from the Pettits was recovered, Sheriff Earnest said.

Bond for the men was set at \$1,000 each. Ybarra furnished bond Monday and was released pending grand jury investigation. Moreno whose home address was given as Del Rio, worked on the Pettit ranch for about three years.

Oil Shows In Four Crockett Tests This Week

Humble Wildcat Has Ellenburger Show; Fields Extended

Humble Oil & Refining Co. and continental Oil Co. 1-AB University, Crockett County wildcat in 12-51-University, 20 miles northwest of Ozona, flowed gas and recovered oil on a drillstem test in the Ellenburger.

On a one-hour and 45-minute drillstem test between 9,515-40 feet, there was a good flow throughout. Recovery was 175 feet of oil, gas, and salt water-cut drilling mud. Gas flow was at the daily rate of 19,300 cubic feet.

On a drillstem test between 9,490-9,515 feet, there were no shows. Operator was running logs preparatory to running casing for production tests.

Sinclair Oil & Gas Co. 3 Nettie Holt, Crockett County project ¾-mile northeast of the discovery in the two-well Vaughn (Ellenburger) field, was running casing for completion attempt after flowing oil from the Ellenburger.

On a six-hour drillstem test between 7,623-73 feet, gas surfaced in four minutes and flowed at the estimated daily rate of 150,000 cubic feet. Recovery was 450 feet of 34 gravity oil and 540 feet of heavily oil and gas cut-mud. Flowing pressure was 165-375 pounds; 30-minute shut-in pressure, 3,100 pounds.

On a four-hour and 40-minute drillstem test between 7,673-7,723 feet, gas surfaced in four minutes, oil in three hours and 10 minutes. Gas volume was estimated at the (Continued on Last Page)

Ozona Water Manager Wins Highest Award In Operator School

Eight years of experience and more than 240 hours of attendance at short course training schools for operators and managers, plus exceptionally high grades in examinations combined to win for W. D. Cooper, manager of the Crockett County Water Control and Improvement District water and sewer service, a Grade A permanent "Certificate of Competency" from the State Health Department and A&M College.

Certificates are granted in three categories, C, B and A, the first attained with a minimum of experience and schooling, through the grade A rating, only the latter in perpetuity, the others for maximum of five-year periods. Mr. Cooper also holds a Grade B certificate as a sewer system operator.

The A certificate was issued for "acceptable evidence of his qualifications, knowledge and experience."

Signers are State Health Officer Dr. Henry A. Noble, V. M. Ehlers, director of the Bureau of Sanitary Engineers, and W. T. Gooch and B. A. Crocker, chairman and vice chairman of the advisory certificate committee.

Election On Beer Issue In County Set For July 10

105 Signatures On Petitions Handed To Court Monday

Voters of Crockett county will be called upon to decide at the polls on Saturday, July 10, whether or not they want the sale of beer legalized in the county.

The July 10 date for the election was set by the Crockett County Commissioners Court last Thursday when a petition bearing 105 names was presented to the court asking that the election be called. The court had previously examined the list of signers and after declaring about four disqualified returned the petition for additional signatures, which were added and the petition again presented.

The petition asked the court to call and hold an election "to determine whether or not the sale of malt and vinous beverages that do not contain alcohol in excess of fourteen (14) percentum by volume shall be legalized in Crockett County, Texas".

The ballot for the election will present the issue in the following language: FOR or AGAINST "legalizing the sale of malt or vinous beverages that do not contain alcohol in excess of fourteen (14) percentum by volume."

Signers on a three-sheet list presented with the petition were listed as follows:

Napoleon Vitela, Sam Rivera, Ed-uvigen Diaz, Jose M. Martinez, Antonio Fierro, Jose L. Rebelez, Juan Montes, Alfred S. Garza, Jesus F. Castro Jesus R. Sanchez, Serafin Maskill, Andres Aguirre, Alfonso Ramirez, Jr., Jesus M. Martinez, Luis C. Sanchez, Joe A. Ramirez Ed Vitela, Herracio Herrera, Irineo Tambunga, Ruben Tambunga, Jose M. Sanchez.

Also Mike M. Pena, S. Martinez, Simon Garza, Alejos Lara, Felipe Wylie, Mrs. A. F. Nelson, Mrs. B. L. Taylor, R. W. Parker, Glenn Cox, Arch Cook, Ross Beardmore, Elmer Haire, Thomas J. Newton, Robert Graves, H. J. Hughes, E. D. Kincaid, Raul Machado, Armando Reina, Anastacio de Hoyos, Ignacio Reina, Joe V. Rodriguez, Alejos Tambunga, Jr., Rene Tambunga, Santiago Tambunga.

Also Serafin Maskill, Jr., Alejos Tambunga, Sr., Pedro Garza, Sam Beasley, B. L. Taylor, C. C. Womack, Ed Cade, R. T. Taylor, Fred Fletcher, C. G. Applewhite, Bus Augustine, Rex Halydyr, Joe B. Chapman, L. A. Greer, Warren Taliaferro, J. K. Sparks, Robert G. Cox, C. A. North, Joe Chapman, Jackie Womack, Frank Brown, Frankie Jones, L. M. Morrison, T. A. Johnson.

Also Buddy Moore, R. C. Ward, Lonnie Smith, Beecher Montgomery, Tom Powers, Jack Holt, Roy Coates, E. C. Scrivner, C. O. Spencer, Glenn Sutton, C. E. Lilly, Cam Lilly, Jimmy Nunlay, Jack J. Williams, Cleophas Cooke, Wesley Berry, J. D. Kirby, G. C. Martin, Geo. Gilmore, J. A. Nettleton, Joe L. Vitela, Tom Harris, Jr.

Also M. E. Chapman, Joe F. Bussey, Sue Bussey, E. C. Cunnigham, J. B. Monroe, Dick Kirby, L. M. Spurgers, John Flanagan, D. L. Meritt, S. L. Butler and E. J. Shepperson.

HIGHLIGHTS AND SIDELIGHTS From State Capitol

By Vern Sanford
Texas Press Association

Austin, Texas—It will not take long to cast your ballot in the Democratic primaries on July 24. There are only six contested races, as certified by the State Democratic Executive Committee, making up one of the party's shortest ballots. There are but 26 names on the ballots for 14 statewide elective offices.

Governor's Race

Governor Allan Shivers, running for reelection, designated Ralph Yarborough and his backers as "dreamers" who see as a solution of all our ills centralization of our government in Washington.

As an example of his meaning, Shivers said his opponents were blaming him for supporting the Republican nominee for President in 1952.

"They say I'm a traitor," Shivers commented. "If getting the tidelands back for our school children means I'm a traitor, then I plead guilty." The governor added:

"Our opposition paid lip service to the tidelands. This two-time loser's biggest backers said the tidelands belonged to the federal government. . ."

Yarborough had hurled the charge of disloyalty at Shivers because of the latter's support of Eisenhower.

Women in Politics

Two Texas women took over prominent spots in the state's political show last week.

Mrs. Pat Dougherty will manage the campaign of her husband, Dudley T. Dougherty, for the United States senate. Mrs. Charles Devall

THE AMERICAN WAY

The Contaminator

of Kilgore, whose husband is publisher of the Kilgore News Herald, was appointed state chairman of Texas Democratic Women for Shivers.

Demo Convention

A decision that will give big city counties who voted Republican in 1952 a strong voice in the Texas Democratic Convention was made by State Democrats in agreeing to count both parties' 1952 votes in deciding their convention strength.

The Democratic Convention convenes in September at Mineral Wells. The committee, meeting in Austin, agreed unanimously on the proposal after being told by its legal committee that the total vote was the correct basis on which to determine delegate strength.

Tax Exemption Asked

Two Texas turnpike corporations have asked the State Supreme Court whether toll roads built by private firms can have tax exemptions.

The Texas Turnpike Company and the Sam Houston Turnpike Corporation appealed from the Dallas Court of Civil Appeals.

Both are seeking to build toll roads in the state; one from Dallas to Houston and the other a Dallas-San Antonio route.

Horse Statue

Another work of Pompeo Coppini, legendary name to University of Texas students because his statues cover the sprawling campus, has been slated for a campus location.

The bronze statue of a horse, called "Freedom," was given to the Texas State Historical Association by Mr. and Mrs. Hamilton Magruder of San Antonio. The work is from the family's private collection of statuary.

Mr. and Mrs. Madden Read visited their son, Nat, who is confined to the base hospital at Fort Bliss, in El Paso, suffering from a kidney infection. Nat has been hospitalized for several weeks but is reported recovering.

Mother Goose In Texas

By Ray Wood

I had a little hen,
The prettiest ever seen;
She washed up the dishes
And kept the house clean.
She went to the mill
To fetch me some flour,
And always got back
In less than an hour.
She baked me my bread
And brewed me my ale,
Then sat by the fire
And told a fine tale.

It has been speculated that the "little hen" in this old country rhyme did not refer to a bird at all, but was a term of endearment for a woman or wife, and these words have been substituted in some editions of the classic Mother Goose Rhymes.

There is no exact parallel to this rhyme in American childlore, but the "Little Hen" has always been one of the favorite subjects for child rhymes in this country. Pioneer kids in Texas, now old and grey, will doubtless recall:

I had a little hen,
I called her Blue.
Every time she laid an egg
She laid two.
She laid in the oven,
She laid in the flue.
She laid a dozen eggs
In grampa's shoe.
Next Week: More about "critters."

Variants of these or similar rhymes will be recorded in the permanent collection of Mother Goose in Texas if sent to Ray Wood at Raywood, Texas.

**New engine power!
New operating economy!**

New Chevrolet Trucks...

do more work per day... more work per dollar!

You save hours on the road. Thanks to greater acceleration and hill-climbing ability, you can save time without increasing your maximum road speeds.

You save extra trips. That's because of extra load space. New pickup bodies are deeper, new stake and platform bodies wider and longer.

You save time on deliveries. New truck Hydra-Matic transmission saves time and effort at every stop. Optional at extra cost on 1/2-, 3/4- and 1-ton models.

You save on operating costs. The "Thriftmaster 235" engine, the "Loadmaster 235," and the "Jobmaster 261"

(optional on 2-ton models at extra cost), deliver greater horsepower plus increased operating economy.

You save with lower upkeep, too. There are heavier axle shafts in two-ton models, bigger clutches in light- and heavy-duty models, stronger frames in all models.

And your savings start the day you buy. Chevrolet, you know, is America's lowest-priced line of trucks!

Come in and see all the wonderful new things you get in America's number one truck.

Now's the time to buy! Get our BIG DEAL! Save with a New Chevrolet!

Rutherford Calls Opponent Part-Time

State Senator J. T. Rutherford, seeking to represent West Texas in Washington as a Congressman from the 16th Congressional District, is bringing out his heavy artillery.

In El Paso late last week Rutherford called his opponent a "part-time Congressman", and asked him to explain why he went to Paris on a pleasure-trip July 3, 1952, when Congress was in session.

"My opponent owes the voters explanations for other absences, too," Rutherford told audiences and newsmen. "The Congressional Record shows my opponent absent more than any other Texas Congressman."

The 34-year-old ex-Marine who lives in Odessa has visited all 18 counties in the district since announcing for the office and has almost-continuous tours slated through the district between now and the July 24th Democratic Primary.

LETTERS TO THE EDITOR:

Childress Man Wants Action For His Nickel

Following is a faithful reproduction (we swear it is) of a scrawly handwritten letter received by The Stockman the past week:

Childress, Texas. Gen. Del. June the 17th, 1954

"To the Editor of the Ozona Newspaper of Ozona, Texas, Gentlemen. Kind Sir I write you this to tell you that I am in closing five cents in stamps for a new late copy of your paper to see as I'd like to get it and see it now you see and so please do be shure and mail it on to me now at once to see to without fail, & say you all be shure & return my five cents back to me now to at once if you all don't mail me the new late copy of your paper to see like I have asked to do for me now you see. . . or I'll put the matter in to higher officials hands for some kind of service to me from you all about it now you see & so please do be shure to act on it at once for me now to one way or the other so I can eather get my five cents back now or the new late copy of your paper to see now, one or the other you see without fail & so please do be shure & act on it now at once for me now to one way or the other to save all of that trouble about it in feathure you see for me & you both now & so I hope to hear from you soon on this matter one way or the other at once without fail & oblige from yours truly,"

The editor sincerely hopes that Uncle Sam's postal service will not fail us at this critical time, and that prompt delivery will be made of a "new late copy" which was dispatched promptly by first class mail. But just in case, we are keeping that five cents worth of stamps in their original wax paper wrapping until this thing blows over. We'll go to any length — up to five cents — to avoid trouble, and we're especially anxious to keep this thing from getting in to "higher officials hands."

Mr. and Mrs. Early Chandler and children are spending a part of the summer on their ranch near Corona, N. M.

One reason why it takes so little Purina to grow a pullet is that it's MICRO-MIXED. Eight tiny but powerful growth and health boosters are mixed into the feed so carefully that each pullet gets her full share each day.

Grow 'em Right for MORE MEAT and EGGS

Purina Growena will help you grow big, sturdy pullets, ready to lay lots of big eggs all fall and winter. It will also turn the little roosters into big fryers fast and cheap. So this year feed the growing feed most folks like best—Purina Growena.

Soil Conservationist Argues Case For Dams On Upstream Areas

H. N. Smith, State Conservationist for Texas, today declared municipal and industrial users of water have no cause to worry in connection with the evaporation of water from the small reservoirs in Soil Conservation Service upstream flood prevention.

Mr. Smith pointed out that the 40 flood prevention dams already built in the Trinity River watershed are preventing many thousands of dollars of flood losses every year along the small creeks where the dams have been built. In addition, farmers can now raise crops on several thousand acres of fertile bottomland which have been flooded too frequently for

cultivation.

Smith explained that critics have said that if many flood prevention dams are built in the headwaters of streams the water supplies may be seriously reduced by evaporation from the pools of the structures. Actually, Mr. Smith said, the evaporation loss from the pools of upstream flood prevention dams would be small compared to the evaporation loss from existing major reservoirs, and very small compared to the average flow of the streams.

The average yearly flow into Benbrook, Grapevine, Garza-Little Elm and Lavon reservoirs is estimated to be slightly more than one million acre-feet. The net amount of water evaporated annually from from the conservation pools of

these reservoirs is estimated to total 131,300 acre-feet, or 12.8 percent of the average yearly inflow. Mr. Smith estimated that the similar loss from the pools to all flood prevention dams built, under construction and proposed—upstream the four major dams—would be only 13,700 acre-feet annually, or 1.3 percent of the average inflow.

In addition to the annual flood damages prevented in upstream areas, the flood prevention dams will reduce the rate of sedimentation of the major reservoirs by more than 50 percent. It is obvious, said Mr. Smith, that the combined benefits of the upstream dams far outweigh any small effect which they may have on water supply.

NOTICE OF REWARD
I am offering
\$500 Reward

TS&GRA Advocates That Texas Antiquated Feed Law Be Junked And New Law Be Written To Protect Consumers In Antibiotic Age

A resolution passed by the Board of Directors of the Texas Sheep and Goat Raisers Association at the quarterly meeting held in Alpine Texas on June 19, 1954 will recommend to the state legislature convening in 1955, that a complete new feed law be written to take the place of the present law. This action by the directors was taken after considering the report of a special committee that had studied the present law and had worked with state officials and feed manufacturers since the first of the year.

Feeding practices of ranchmen have changed considerably since the Texas feed law was first written. The various ingredients of feeding stuffs have seen even greater changes. Plain cottonseed cake and single grain are not the major feeds today. Ranchmen are turning to mixed feeds and are more concerned with balanced rations and giving their animals proper feeds at economical costs. The following summary of the TSGRA committee findings on its study was issued for the information of the public.

“Those early lawmakers who wrote the first feed law in all probability had never heard of vitamins, antibiotics, mineral supplements and countless other drugs and materials that are mixed with modern feeds and could not have known to what extent they would be used by some processors of feed for sales propaganda.

“The present Texas feed law was first passed in 1905 as a measure for the protection of the general public against fraud, deceit, and ignorance and was directed toward promoting honesty among competitors in the feed industry.

This basic concept of the feed law is as sound and practical today as it was fifty years ago. The legislature also provided for the Feed Control Service under the Texas Agricultural Experiment Station to administer the feed laws.

“All of the provisions of the Texas feed law cannot be discussed in a short article but the major features will be noted. The full text of the law and the regulations pertaining to its administration are covered in Circular 134 of the Texas Agricultural Experiment Station entitled “The Texas Feeding Stuffs Law.” Fundamentally the law provides for the labeling of feed; attempts defining various terms such as “feeding stuff” and “adulteration”; requires the registration of feed formulas and specifies an inspection tax. The penalties for violations are set out as in all such laws.

“In an effort to keep up with developments in the feed industry the legislature from time to time amended the law but the fact remains that the physical structure of the law has not been changed in a manner calculated to meet the ever rapid progress made by industry in nutritional science and mechanical improvements in plants operation. Recently enacted amendments to the law giving special privileges to certain classes of feed producers and limiting the authority of the Feed Control Service to institute appropriate control measures are proving to be detrimental to the interests of consumers.

“Before it was amended one article of the law made the minimum penalty a \$100.00 fine for failing to tag feed and for selling feed be-

low its guaranty. The amendment abolished the minimum fine altogether and as a result some soft hearted courts have assessed fines of only \$1.00 after a plea of guilty. Another article deals with adulteration of feeds. It covers only some of the types of adulteration and does not prohibit substitution of lower grades of feed which is a form of adulteration. The addition of drugs to feed formulae very often constitutes adulteration because of the worthlessness of the drug. Neither the amount quality nor stability of drugs is printed on a tag. If one may draw conclusions from the number and variety of remedies, growth stimulants, digestion regulators, worm inhibitors and appetite activators finding their way into feed formulae, then we are seeing the livestock remedy law circumvented to an alarming degree and feed being converted to a mere vehicle for the administration of medicine to livestock and poultry. We are made to wonder how on earth we ever got along before the advent of these “wonderful drugs”. Veterinarians are still probably more qualified to diagnose and treat animals than high-pitch feed salesmen. In this same line minerals and mineral salt mixtures are not included under the present feed law, and producers of these feeds are not required to have a Feed Control Service tag guaranteeing the contents of the bag they deliver to you.

“It should be kept in mind that probably the majority of feed producers are honest and that their feeds closely approach the guarantees printed on the tags, yet we still have those operators that are only interested in their own profit and need strict supervision. After considering all of the facts it cannot be denied that the feed law under which we operate today is inadequate for coping with modern practices in industry. The recent attempts at modernizing the law in a piecemeal sort of way resulted in worsening the situation. The best and only effective way to insure adequate protection to feeders and processors of feed is by writing a complete new feed law.”

FORD - MERCURY

Fort Worth — Spokesmen for the livestock market at Fort Worth announced that the yards and market would be open Monday, July 5, as usual. The market here has traditionally stayed open at the time because it is a season of heavy movement of livestock to market and often shippers need to move cattle that have been rounded up and are being held in dry pasture or trap pens and they would suffer unnecessary loss if the market closed, because of excessive shrink.

Most observers at Fort Worth are agreed that Southwestern livestock producers are doing a superior job of marketing their cattle and sheep this year that it has saved considerable losses in price.

It has now become an established custom for marketings of cattle and sheep to be of considerable size on other days than Monday's at terminal markets, and on several occasions in the past couple of years the Tuesday receipts at Fort Worth have been larger than on Monday.

This was an unheard-of thing a few years ago.

Reasons for the more even movement to market are several, and it appears to have started during the transportation shortage during the war years when tires, gasoline and trucks were hard come by. Many sockmen acquired a Tuesday or Wednesday market habit at that time of necessity.

Some 22,000 fewer cattle appeared at the 12 major markets last Monday, enough to put a little firmness into the trade on most kinds, despite good sized seasonal offerings at Southwestern

points. At Fort Worth well finished beef was scarce, and fed steers and yearlings were firm. Plain and medium quality offerings were in general weak. The between grade slaughter calves closed lower, but the others were about steady with the previous week's close. Bulls ruled firm. High grade stockers were steady, some of the plain quality being easier.

Fat Spring lambs topped again at \$19 to \$20 at Fort Worth Monday. Feeder lambs drew \$15 downward. The feeder top was 50 cents above sales late last week, but was considered no more than a fully steady price the kind considered.

Shorn yearling lambs were weak to 50 cents lower and old wethers and old ewes were also weaker.

Eastern meat trade centers reported some unevenness still on lamb and mutton, but under severe pressure was the old crop shorn yearling lambs. These encountered a hit-or-miss market in all divisions on this account.

Adding Machines at the Stockman.

NOTICE OF SALE
THE STATE OF TEXAS)
COUNTY OF CROCKETT)

NOTICE is hereby given that on the 13th day of July, A. D. 1954, between the hours of 10 o'clock A. M., and 4 o'clock P. M., at the Court House door of Crockett County by virtue of my authority as Commissioner, appointed by the Commissioners Court on the 10th day of May, A. D. 1954, I will sell at public outcry for cash that certain tract of land situated, lying and being in the County of Crockett, Texas, and being a part of Survey 1, Block OP, Certificate 4/1536, GC&SF RY Co, and being out of the tract conveyed to Mrs. Ella B. 117 Present For Patrick Reunion

One hundred seventeen descendants of the late Mr. and Mrs. T. W. Patrick of Ozona were present for the fifth annual Patrick family reunion held last Friday, Saturday and Sunday at Camp Allison on the Llano river near Roosevelt. The number attending broke all previous records.

All of the surviving children of Mr. and Mrs. Patrick were present with members of their families. They are Mrs. Ida Fields of Uvalde, T. J. and Joe Patrick of Ozona, Mrs. Rufe Everett of Pandalde, T. S. Patrick of Corsicana, Dim Patrick of Frankston and Mrs. E. E. Finnigan of San Antonio. Robert Cook and family of Ozona also attended.

Cage Layer Group Holds Meeting Here

Second meeting of the newly organized Cage Layers Assn. was held here Friday with advertising and promotion of sale of cage eggs and hens as topics.

Refrigeration, storage and care of eggs were discussed. Jack Wilkins, president, appointed Carson Kincaid of Fort Stockton, Charlie Partin of Abilene, Teddy Russell of Barnhart and Robby Ferguson of Big Lake to an officer-nominating committee.

A buffet supper was served to 14 members from Sonora, Ozona, Barnhart and Uvalde.

Mr. and Mrs. C. B. Hubbard left this week for a vacation tour to California.

From where I sit... by Joe Marsh

No Sale!

Right in front of Granny White's beautiful old house on Maple Avenue there's a brand-new sign: "Antiques. Inquire Within."

Now—don't get excited. Granny explained it all the other night—after we settled down in her parlor, me with my temperate beer, Granny with her tea.

I asked her if she was really going in the antique business. "Oh, no," says Granny, "I wouldn't sell anything. I put that sign up so folks would come in and talk—and look around. If they insist on a price, I tell them some out-

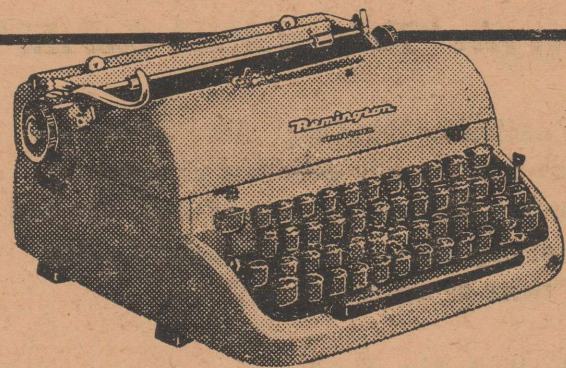

rageous figure! I guess I just like people," she said.

From where I sit Granny can be excused for her little ruse. She may be in her eighties, but her mind is young—and open. She's the kind of person who's made this town so wonderful. Granny not only likes people—but she respects them and their preferences and opinions. Come to think of it, "liking" and "respecting" mean much the same thing, don't they?

Accurate and Complete
RANCH RECORDS
Are More Important
Today Than Ever

Government regulations and heavy tax programs are destined to be a part of the American way of doing business for a long time. For that reason, it is more important today that every business keep accurate records of its operations.

The ranch business is no exception. With the stiff federal taxes, you will want to take advantage of every saving item in your expense account and at the same time have clear and convincing records available for inspection by tax agents to prove up any item on your income tax return.

Start now to keep a complete record covering all operations in your business with the Stockman's RANCH RECORD BOOK. Your cancelled checks or your present records can be transcribed to this handy record book, together with your income and inventory records and you can have your entire record in a simplified form contained in one volume.

Easy To Keep - Complete Record - In 1 Volume

ESA Sorority Has Picnic And Swim

Ozona E. S. A. members and guests had a combination swimming party and picnic Thursday night, given by the local E. S. A. chapter.

The group met at the swimming pool at 7:00 and swam until 8:00. Then, after working up a sufficient appetite, they drove out to the road side park where weiners were roasted and an assortment of foods were served.

Present were Messrs. and Meses. Chas. Ratliff, Jr., Alton Smith, James Isbell, Dixon Mahon Howard Lemmons, Chas. Applewhite, Aaron Bledsoe, M. A. Lemmons Taylor Deaton, Roy Coates, Sam Perner, H. M. Phillips, Jr., Wayne E. West, Bland Tandy, W. L. Harrison, James Semmler and Mrs. James Dockery, Miss Barbara Earnest and James Maness.

Hicks Ranch Scene of Friday Bridge Party

Mr. and Mrs. Lindsey Hicks and Miss Sarah Hicks entertained members of the Friday Bridge Club and guests Thursday at their ranch home south of Sheffield.

High score went to Mrs. Hudson Mayes, second high to Mrs. Joe Pierce, low to Mrs. Stephen Perner, high guest to Mrs. Boyd Clayton, low guest to Mrs. Herbert Brown, and other prizes to Mrs. Lee Childress and Mrs. Bill Cooper.

Among the 30 present were Mr. and Mrs. Neal Sanders, Sr., and Mrs. Uda Marie Karnes of San Angelo, Mr. and Mrs. Ele Bright Baggett of Lufkin, and Mrs. Bustin Cannon, Mr. and Mrs. Herbert Brown and Miss Barbara Brown, all of Sanderson.

Ruth Class of the First Baptist Church Sunday School entertained their families with a chicken picnic supper recently at the Midway Lane El Paso Natural Camp. After the picnic, volleyball was played. Attending were Rev. and Mrs. Blake Woolbright, Mr. and Mrs. Frank Noe, Mr. and Mrs. Q. A. Brentz, Mr. and Mrs. Bill Holden, Mr. and Mrs. J. C. Stricklin, Mr. and Mrs. Ivy Smith Jr., Mrs. Louise Hamett, Carl Thurman, Mr. and Mrs. Gene Timmons, Mr. and Mrs. Vernon Rodgers, Mr. and Mrs. Clarence Oster.

Ashby-Summers Nuptial Vows Read In Garden Ceremony

A double ring ceremony Saturday united in marriage Mrs. Marilyn Hubbard Ashby, daughter of Mr. and Mrs. C. B. Hubbard of Ozona, and Fred C. Summers Jr., of Seminole, Oklahoma.

Vows were read by the Rev. Blake Woolbright, pastor of the First Baptist Church of Ozona, at the Hubbard home. Miss Jeannene Thompson sang "I Love You Truly" accompanied by Mrs. H. B. Tandy.

The bride's shell pink organdy dress was waltz length. The fitted bodice featured a portrait neckline accented by seed pearls. She carried a bouquet of white roses and wore a pink picture hat.

Mrs. James Isbell, matron of honor, wore an orchid waltz-length organdy dress with a beige picture hat and carried a bouquet of white carnations.

The brother of the bridegroom, Gerald E. Summers of Waco, was best man.

A reception was held on the lawn of the home. Cake and punch were served by Mrs. Armond Hoover and Mrs. Charles Schneider from a lace-covered table centered with an open Bible-shaped cake.

Out-of-town guests included Mr. and Mrs. Fred Summers, Sr., of Seminole, Okla., Ronald W. Summers of Norman, Okla., Miss Rose Marie Watson of Waco, Mr. and Mrs. John Merrell of McCamey, K. R. Brannum and Miss Pat Edwards King of Kermit and Mr. and Mrs. Lee Crenwelge of Lamesa.

Mrs. Summers is a graduate of Ozona High School and attended the University of Texas where she was a member of Alpha Gamma Delta Sorority. Mr. Summers was graduated from Seminole High School and the University of Oklahoma.

After a wedding trip to Mexico City and Acapulco, the couple will reside in Midland.

Mrs. C. A. Woody of Amarillo is here for a visit with her son, C. A. Woody, administrator of the Crockett County Hospital, a n d family.

The Summer Stoooge

"By Big Phil"

A funny thing happened down where I work the other day. A man on our crew lost some equipment, so they fired him. Anybody know where I can find a job? ?

"Jody's home!" Those are the words Rosie ran happily up and down the street yelling last Monday. With tear stained eyes she came up to me. . . what if Jody finds out that Sonny, and I have been carrying on madly while he was away?" "You won't tell him will you Phil, will you?" So I broke a promise, so what?

Speaking of Romance. . . well Phil, she said "See Ya" and it was all over. . . just like that. Yep, I've been took again. But I'll just go with some of the other girls, and try to forgive, and forget. I've got a different girl every night for the rest of the week. If she really loves me this'll make her suffer. I won't go wiff her anymore, and the rest of the girls. . . mere pigs. Don't let 'em know I told you so, but . . . you know. I guess I'll just have to settle down with Susie. (not Susie Schneemann, Susie, his monkey) But things worked out for the best, and shortly after our broken hearted little Stiney told me this—he and Wanda were once more riding happily up and down the road to Todd Field.

Awhile back I was on the subject of Mr. Bones of "54" and Wanda Strongarm. Here and now I would like to compliment the photographer for taking such a beautiful picture for her to use in the "most beautiful" contest this year. The trick photography was wonderful!

I feel so good this week, last Friday was payday, so after the government took out for taxes, and social security, and somebody got their cut for insurance, I gave the company a check for \$1.75.

In case you haven't noticed it the last few days, Carol Friend is dying by inches. . . her little fruit vendor (Buddy Gibbs) will soon be home from his run, and once more they can run up to the ranch

OH, BABY!

theatre, and see Robert Cox in person. (with or without 3-D glasses)

There have been several slumber parties lately. One over at Janice's I crashed it happened to leave an imprint on my mind of a boy I saw there. I don't know his name, I don't know where he came from. He was just sitting there in the yard, minding his own business making horseshoes out of one inch pipe. Not very talkative.

Thrill had one over at her shanty, and those coy Walley sisters had one down at their house. If my memory serves me correctly, I was removed politely from all three.

If you all remember last week I passed the word around that if enough people ask me one certain person, just anybody they wanted exposed, I would write about them. I have received a request, but none of you want to hear about Mr. Hatley now do you? All of the college chillum are

home now. Bill Schneemann is tucked safely away on the ranch where he can't hurt anybody.

Whitley laid down his trowel long enough to come home for a nap before running back down to Texas U. One of my old buddies who was a Senior when I was a freshman has returned, June Perner. Old June-bug has grown up.

Wearing shoes, and lipstick. Even started driving a car. She was such a nice kid too, never meant nobody no hurt. (T.C.U. slang)

Now don't take it so hard, I know it will bring a tear to your eye when I tell you that this is nearing the end. But it can't be helped. So till next week, remember the old high school war cry when ever you feel like tearing off somebody's egg shaped head. Rip-pacrothie!

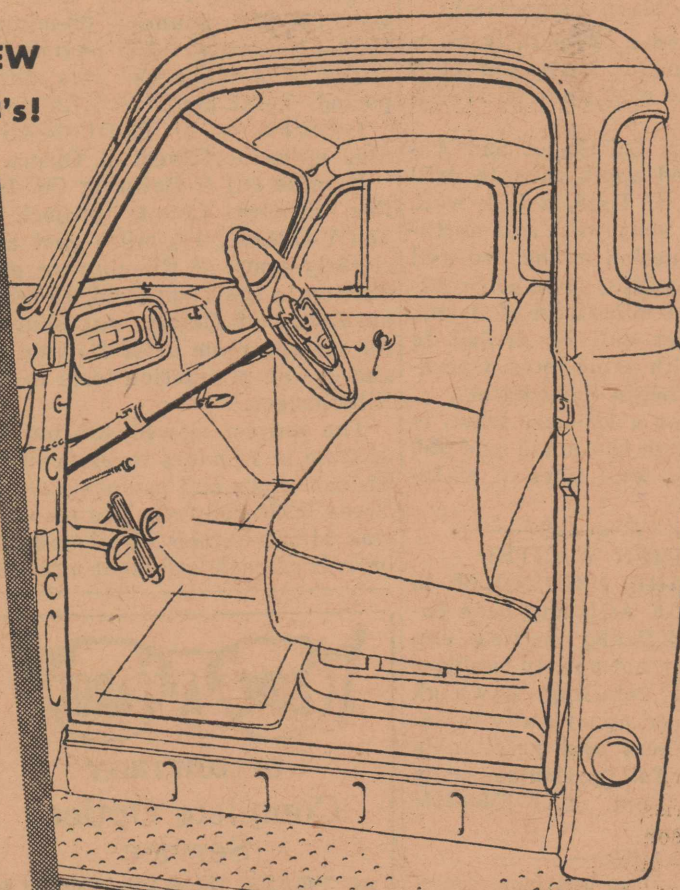

Listen all you be bob cats—McMullans Saturday night, 9 o'clock-let's jump and jive. No cats admitted without chicks.

daily rate of 300,000 cubic feet. The project cleaned to pits for 30 minutes, then flowed 8½ barrels of 38.8 gravity oil in one hour. Flowing pressure was 225-1050 pounds; 15-minute shut-in pressure, 1,425 pounds.

On a three-hour drillstem test between 7,603-23 feet, gas surfaced in three minutes and flowed at the estimated rate of 250,000 cubic feet daily. Recovery was 6,400 feet of 40-gravity oil. Flowing pressure was 250-500 pounds; 30-minute shut-in pressure, 2,360 pounds.

Top of Ellenburger was unreported. Total depth is 7,723 feet. Location is in 63-OP-GC&SF, nine miles northwest of Ozona.

Humble Oil & Refining Co. 1-H Fee, Crockett County project in 57-UV-GS&SF, 1½-miles east and slightly south of Ellenburger production in the Todd field, 16 miles northwest of Ozona, was shut in for storage room after flowing oil and gas on production tests in the Ellenburger.

The project flowed 138 barrels of fluid in 15 hours through an 18-64-inch choke and perforations between 6,930-950 feet. The recovery was 115.92 barrels of oil and 22.8 barrels of basic sediment and wat-

er. Gravity of the oil was 38.1 degrees. Gas flowed at the estimated rate of 10,500 cubic feet daily.

The project flowed 24 hours through a ¼-inch choke and made 146.22 barrels of fluid which was 131.60 barrels of oil and 14.62 barrels of water.

Bankline Oil Co. & Hurt Oil Co. 1-42 J. H. Tippett, ¼-mile southeast offset to the same operator's 1-41 Forristall, Crockett County upper and lower Wolfcamp discovery, located 11 miles east of McCamey, flowed gas and distillate on a drillstem test between 5,876-5,907 feet.

Gas surfaced in two minutes, mud in five minutes. The project cleaned up immediately and flowed gas and distillate at the estimated rate of five million cubic feet daily. Tool was open for an unreported time. Recovery was 4,500 feet of high gravity distillate and five feet or less water. Flowing pressure was 2,650 pounds; 15-minute shut-in pressure, 3,100 pounds; and hydrostatic pressure, 3,250 pounds.

Operator set 5½-inch casing at 6,097 feet on total depth of 6,174

feet and was waiting on cement. Location is in 42-31-H&TC.

Pure Oil Co. has filed application to drill its No. 37-E R. L. Vaughan ¾-mile east-northeast of

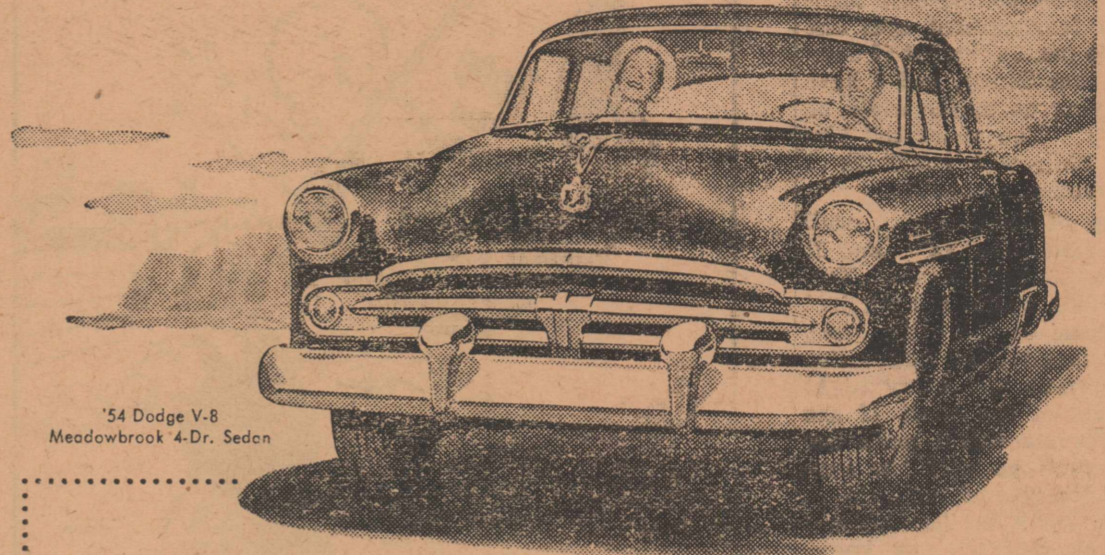

the opener of the two-well vaughan (Ellenburger) field of Crockett County, 10 miles northwest of Ozona.

Rotary drilling to 7,800 feet will

begin June 24.

Location, on a 2,680-acre lease is 2,002 feet from the south and 708 feet from the east lines of 82-OP-GC&SF.
