13 Of 40 Planes In Air Tour Reach Here, re Weathered In

Thirteen planes out of approximately 40 participating in the All Terms Air Tour reached Ozona shortly after noon Monday for the scheduled lunch stop at Ozona's medern airport. The rest of the planes in the tour were weathered in at Banders where a torrential rain was falling when the hardy pilots of the thirteen craft took ht to down off for Osona.

The ninth annual Air Tour, outclassed Bandsponsored by five organizations of on highway 290 when the plenty of flyers and coordinated by the Tex- will observe open house n as rery man in uniform as Aeronautics Commission, began Saturday afternoon from 2 to regulary spiting to Saturday at Temple and will visit p. m. Which is the Brand New Suit...

And which has been Sanitone Dry Cleaned 50 Times?

Here's dramatic proof that repeated quality dry cleanings do not alter look and feel of newness!

No longer need you worry about how often to have your clothes dry cleaned. Do it whenever they are soiled or mussed because ingrained soil and perspiration are hard on clothes - NOT QUALITY DRY CLEANING! The makers of SANI, TONE ran exhaustive tests to prove

One of the identical brand-new suits pictured above, was Sanitone Dry Cleaned 50 (fifty) times and even experts could detect no significant difference between it and the one that was brand new . . . either in appearance, or in the feel of the fabric. This test has been duplicated with swatches cut from the same bolt of cloth as the suits shown here. We have them on

display, so come in and see for yourself how safe Sanitone Dry Cleaning is for your family's clothes.

In fact, we believe you'll agree that all clothes will stay new-looking longer WITH regular Sanitone Dry Cleaning. Our regular patrons will back that up 100%, too. So why not start today?

Planning to attend the State Fair of Texas October 5-20? Visit our Texas Laundry and Dry Cleaning Association exhibit in the General Exhibits Buildding. See how professional cleaners and launderers finish your suits, dresses and shirts . . . register too you may receive your cleaning or shirt laundry FREE for one year.

The SUPREME LAUNDRY & DRY CLEANERS is cooperating with the Association. If you register and are a winner the SUCREME LAUNDRY & DRY CLEANERS will do your shirt laundry free for one year, or will clean and press a plain draw. press a plain dress or a suit for you each weak for one year.

OZONA BUTANE CO. Ozona, Texas

OF OUR TIME ... WONDROUS YEARS

Man's use of petroleum - of oil and natural gas - began before the first records of history.

But petroleum's full usefulness to man has been a matter of decades only.

They have been wondrous years, those decades. Years that saw automobiles built by the millions because gasoline was available as a cheap source of power. Years that saw the oceans dwindle under the high speed of great ships powered by oil. Years that saw the evolution of a more comfortable living in homes warmed by oil and natural gas. Years that saw rubber, fibers, paints and many other useful items of everyday living produced from petroleum's hydrocarbons. Years that saw the earth shrink under the wings of the airplane, and great wars decided by the availability of oil.

Thus, the oil industry has led the way into the wondrous years of our time. The industry, through foresight, ingenuity, research, and risk-taking, has found and produced the oil required in greater quantity each year, has conserved

oil for the future, has devised the transportation systems that move oil economically, has built the refineries and plants that convert crude oil and natural gas to the hundreds of useful products needed by a growing United States.

The Humble Company, founded in 1917, has participated in petroleum's progress during four great decades, and has pioneered in the development of many current techniques for finding, producing and refining oil. This week, with the industry. Humble invites you to consider the variety and extent of oil's progress . . . Surely no other industry has contributed more to the making of modern America.
