

Davis Arouses Much Enthusiasm

Davis Classmate Writes of Status of Democratic Presidential Campaign

The News has received the following appeal in behalf of the Democratic nominee for president, John W. Davis, addressed to the Democrats of Lynn county from W. L. Clayton for Texas, with headquarters in Houston. It originated with Judge J. L. Young, college classmate and personal friend of Mr. Davis.

"After a period of sluggishness the Democratic Presidential campaign is assuming an aggressive aspect and in support of this offensive of the party, and Hon. John W. Davis the nominee for the presidency, I frankly am making an appeal for funds to aid in consummating the party's aim of making Mr. Davis the next president.

"I am confident that every Democrat, in view of the splendid personality and record of achievement of the man who is heading the party's ticket this year and of the brilliant opportunity afforded for party success at the polls in November, will regard it not only as his duty but also as a pleasure to contribute liberally toward the assurance of this success.

"Mr. Davis very aptly has asserted in one of his speeches that there will be no lost Democratic battalions in the campaign this year, and even regarding Texas as apart from the center of actual political warfare as far as the National campaign is concerned, it is none the less up to Texas Democrats to play their part not to be laggards, and to come to the aid of their party now in this critical phase of the campaign and crucial moment in the party's history.

"Mr. Davis only recently returned from his Western trip well pleased with the results he obtained. On this tour he gained the feel of the grass roots in the West and is eager to plunge once more into the fray by a second tour of Illinois, Missouri, Ohio and Indiana, including perhaps several of the border States following his present campaign in New England and the East.

"Strong support is being accorded Mr. Davis' aspirations by the infection of both Al Smith of New York and William Gibbs McAdoo into the campaign in support of the Democratic nominee, while most encouraging crowds have welcomed Mr. Davis on the occasion of every speech he has delivered.

"Financial assistance to the Democratic party on the part of every Democrat essentially must be regarded as an obligation, and in view of the present situation politically in this county, there should be no holding back on the part of any man or woman, classifying himself as a Democrat. Contributions to this worthy cause, no matter how large or how small, should be made at once. Headquarters for Dallas county have been established at the Southland Hotel, Dallas, for North Texas, and at the Cotton Exchange Building, Houston, for South Texas and the county chairman or headquarters would be glad indeed to acknowledge a ready response from every Democrat in the county.

"And Mr. Davis is worthy of the unhesitant support of all Democrats of splendid parentage in terms of culture and refinement, by the finished product of the best there is in American manhood—his has been one of achievement.

"From the time he was admitted to the bar at the age of 22 until he is nominated by his party for the presidency, his career has been a noble one and his connections worthy of the man. Not seeking a nomination, but responding to the call of his party, it is a fitting nomination of Mr. Davis' life of public service as a young West Virginia lawyer, as a member of the use of Delegates of his State, as a member of Congress, as Solicitor General at Washington, as Ambassador to Great Britain, as President of the American Bar Association as a brilliant lawyer. Not seeking the nomination, ordered him in a party crisis, Mr. Davis will go to the White House, elected, free from all political obligations other than to serve alike

BAPTISTS HAVE BUSY CONFERENCE AT BROWNFIELD

Members of the Tahoka Baptist Church attending the Workers' Conference held at Brownfield Tuesday invited the body to meet with the Tahoka Church on the 28th of this month and the invitation was accepted.

The Seagraves Church, of which Rev. J. M. Doshier is the new pastor will be the host of the next Fifth Sunday meeting, which will be held in November.

Rev. W. F. Markham of Spur was elected as Missionary for the association, but he has not yet indicated whether he will accept.

The Conference devoted most of the day to a discussion of plans for bringing to a successful conclusion the 75 Million campaign, which was begun five years ago. It was planned that a "flying squadron" composed of all the pastors in the association, shall visit off the churches and hold special services in the interest of this campaign.

O'DONNELL BOY TO STAR IN THE MOVIES

Mr. Lee Write, ex-manager of the O'Donnell high school base ball team has deserted the diamond for the footlights. He is now completing a tour of the Middle Western States in Jack Hoskins production of Bud Fisher's Famous Cartoon Comedy Success, Mutt and Jeff in Havana. Mr. Write plays a brilliant and funny Jeff, and also looks like Bud Fisher's Famous little character.

Mr. Write has received several offers from producers of Comedy pictures and he is negotiation with them now. He will most likely go to Los Angeles at the close of the tented season.

Mr. Write will appear in Tahoka with the Mutt and Jeff show on next Wednesday night, October 8. Performance will be given in the big Mammoth Water proof Tent, located at the Southeast corner of the square.

NEVELS SHIPS FAT CALVES

W. D. Nevels shipped 134 fine, fat white-face calves last Friday morning to Kansas City. E. G. George and Elton Clayton accompanied the shipment. They report that the market was somewhat affected by reports of the foot and mouth disease in Texas.

all classes of the American people regardless of locality, class, creed or color.

"And in the campaign, becoming embittered by allegations and innuendo no word has been spoken impugning the integrity of the Democratic candidate.

"He is a plain-spoken American citizen, as so amply evidenced by his recent assurance to Harry L. Daughtry that his criticisms of the former Attorney General of the United States were not 'veiled' but 'direct and specific'. Not slighting the issue, he again recited his allusions to the former Republican official to stress the point.

"The real work of the campaign he informed Mr. Daughtry, is found in rousing the moral sense of the American people to condemn and not condone the betrayal of official trust."

"Mr. Davis' issue of honesty at Washington is certain to fall or more interested ears now that the Republican Department of Justice scandals have become the center of new discussion due to the various statements of Gaston B. Means regarding this testimony that have congregational investigating Committee, in view of the assertions regarding this testimony that have been injected into the campaign and the admonition by Mr. Davis that if the Constitution is to endure, the first requisite is that men who hold office under it shall be honest and faithful to their trust."

"Those words were uttered by a man who enjoys an international reputation as a lawyer, orator, scholar, thinker, diplomat, polished gentleman and patriot—by a man who stands foursquare to the political winds. And no finer type of American citizen, either in character, ability or personal charm, has been presented to the voters of America for their suffrage."

John L. Young."

Judging Team Wins First At Amarillo

AMARILLO, Texas, Sept 27—Lynn county boys' team won the first award for general judging in the boys' livestock and grain judging contests which were held yesterday at the fair grounds.

Carson county's team was second, Hansford county, third; Carson county girls' team fourth and Hartley county's boys' team fifth.

The individual winners were Ford Hoffman, Lynn county, first; Roy Noller, Hansford county, second; Walter Meaker, Lynn county, third; Emmett McCord, Lynn county, fourth; Donald Biedwell, Carson county, fifth.

Judges in making the awards were S. C. Evans, of College Station; Paul E. McMeans, of Canadian; T. R. Brown, Wheeler, and E. A. Duke, of College Station.

The individual winners of special premiums were: Ford Hoffman, first in dairy class, awarded a Jersey bull by H. A. Ferguson; Emmett McCord, first in hog class awarded a Poland China Gilt by the Marymere Farm; Emmett McCord, first in grain judging, awarded \$12.50 in cash by the Kearns Grain company.

1,300,000 BUSHELS WHEAT SHIPPED FROM PLAINVIEW

Plainview and the three railroad switches within seven miles of town has this season shipped 1,300,000 bushels of wheat, so the inspector of the Plainview grain exchange reports. Of this Plainview shipped 995,000 bushels, and Finney, Ferguson and Lida switches shipped 300,000 bushels, each of these points billing out of Plainview.

The price ranged above \$1 a bushel, hence means more than \$1,300,000 in cash was paid out here for wheat. This money coming at the time it did was of great assistance to the farmers and the community at large. The wheat made much better yields as a rule than it was thought possible at the beginning of the harvest, running from 15 to more than 30 and in some instances to 40 bushels to the acre.

The cotton crop, which promises to run from 20 to 30,000 bales, or possibly more for the county, is now beginning to come in and will bring a tremendous amount of money into the county. Surely Hale county and the plains are to experience their most prosperous times this fall and winter.

TABOKA BUSINESS CHANGE ANNOUNCED

Messrs. W. B. Mullins of this city and his brother A. J. Mullins of Lubbock have purchased the Tahoka Sheet Metal Works from E. H. Wood. The deal was consummated and the new owners took charge Saturday. Mr. A. J. Mullins coes from Lubbock, where he has been connected with sheet metal works for the past five years. Mr. W. B. Mullins resides here and is well known to our citizenship. They expect to be able soon to materially enlarge the business. Mr. Wood has not announced his plans for the future.

JESS KEY MAKES GOOD ON SCHREINER FOOT BALL TEAM

KERRVILLE, Sept.—Jess Key of Tahoka showed up well again at Schreiner Institute's fighting clever at Brownwood last Friday when Schreiner lost to Daniel Baker 26-7. Key's position at left end makes him an important man in Coach Neely's defense and his speed and fight are giving him recognition as a Schreiner fighter on the offensive. Key drew down several passes for good gains in the opening game with Main Avenue when Schreiner won 18-0.

Pete Edwards, another Tahoka man, is working hard for a place in Neely's flying backfield. He has a lot of fight and it is probable that he will get a chance, before the season, is over to show that fight for Schreiner.

Mrs. W. J. Crouch and Mrs. Gribble were also visitors to Brownfield Tuesday, attending the Baptist Ladies meeting.

Many People Attended The Fair

Bulldogs Win Over Snyder '11'

Won First Game of Season at Snyder Saturday By Score of 19 to 0

The pugnacious Bulldogs picked up the scent of the Tigers and hit the long winding trail to Snyder Friday 26 This long jaunt of 80 miles was made in four cars. Tired and dusty, which only increased their vicious appearance, the Bulldogs unloaded in the shadow of the Tiger's den. There was a very noticeable change in the atmosphere—dloom, and doubt immediately hovered over the enemy's camp. The prowess of the mighty Bulldogs was felt in every corner, and the crouching Tiger—sneaked off to hide as the blood thirsty and carnivorous animal of the genus Canis fearlessly sniffed about to examine the cave of the wild beast, to his entire satisfaction.

The full grown rapacious Tiger, arrayed in his flashy and beautiful armor, was no match for the young, unpretentious Bulldog. It was a fight between the wild, untamed savage of the forest and the elusive, trained domesticated dog.

The first half of the fight was bloody and vicious for both—the tide of battle seemingly going in favor of the heavy beast of the cave, but it was short lived, in the last half, the Tiger lost his spring, the sting of his bite was no longer felt; while the Bulldog's vicious and wild savagery, almost ferocious, increased tremendously as the battle raged. When the fight was finally ended, the proud, uninjured, victorious Bulldog proudly carried off the spoils—carrying by to his master 19 slabs of bacon. The Tiger sneaked back to his den, beaten and hide.

BATTLEFIELD OF ANTIETAM VISITED BY LOCAL MARINE

WASHINGTON, D. C. Sept.—Viewing the old battlefield where the armies of McClellan and Lee fought for supremacy in the Civil War, Wyeth Ormond Wilson, formerly of Tahoka, Texas, is with the U. S. Marines who traveled afoot and by motor-truck 123 miles from their barracks at Quantico, Va., near here to hold field exercises at Antietam. On this historic spot near Sharpsburg, Md., the Marine Corps Expeditionary Force, commanded by Brigadier General Dion Williams, is reenacting some of the incidents of the famous battle, using modern military weapons while skirmishing over the ground where the blue and gray soldiers fought in 1862.

Field exercises form a lively program of events, which will end when the force returns to Quantico late this month, after an absence of nearly four weeks. The Marines will encamp overnight at selected places along the route.

Wyeth, who is a son of Albert Cass Wilson, rural route A, Tahoka, joined the Marine Corps last March and he is now with the 45th Company, 5th Regiment. Nearly a hundred Marines from Texas are with the maneuver force.

A. Y. PEMBERTON'S HAND CUT IN ROW BINDER

A. Y. Pemberton, who lives in the Grassland community, was painfully injured Wednesday when his hand was caught in a row binder. The member was badly cut and lacerated and the services of a physician were necessary to have it dressed. We are not informed as to just how the accident occurred.

HORTON-FULTON

Mr. Willie Horton and Miss Gladys Fulton, two fine young people of New Home, were united in marriage in the presence of a few companions at the Methodist parsonage Saturday night. Rev. J. T. Howell, pastor of the Methodist Church, officiated. This young couple will make their home in the New Home community. They have the best wishes of a great host of friends.

TABOKA FAIR WAS A GOOD ONE SAYS LUBBOCK MAN

George S. Shepherd, district manager for the American Body Works of Dallas, returned to his home here late Saturday afternoon after having spent the day at Tahoka.

He reported that the Tahoka Fair was one of the best he had ever attended considering the scope of territory served by it and complimented the business men of Lynn county for their liberal support of the fast growing institution.

He reported that many splendid exhibits were shown, in all departments, and that if he is a judge of exhibits the people of Lynn county stand a mighty good chance to get first place at the great South Plains Fair here during the last four days of the week.

—Lubbock Avalanche

VICTIM OF AUTO ACCIDENT BURIED AT ROCHESTER

The body of T. W. Carlisle of Haskell, who was killed Friday afternoon at the automobile races when a wheel from one of the racing motor cars hit him on the head, was prepared for burial by the Kiker-Knight Undertaking Company here and shipped to Haskell Saturday morning for burial. The funeral was held at 5 o'clock Saturday at Rochester.

Carlisle was injured shortly after 4 o'clock at the Fair Park race track while standing about 50 yards from the track.

According to information received from spectators the man was standing with his foot on the fender of a car near several other spectators when the wheel from one of the racing cars struck him. He was rushed to the Baptist Sanitarium immediately in an ambulance and died in about 20 minutes after the accident.

The victim of the accident is the son-in-law of Mr. and Mrs. W. I. Fox, who live at 2601 Hickory, Abilene. He is survived by his wife, and 4 children, Erby, Douglas, Bernadine, and Tom, Jr. his mother, who lives at Dallas; two brothers, J. B. and J. H., of Dallas; two sisters, Mrs. D. A. Flatt and Mrs. C. T. Richardson of Venus. His relatives were to arrive on the 4 o'clock train Saturday afternoon.

Abilene Reporter

Mrs. Carlisle, wife of the deceased, is a granddaughter of Rev. H. S. Hatchett of this city and a niece of Mrs. W. M. Lee.

YOUNG BUFFALOS OBJECT TO NOISE

CANYAN, Tex.—With the beginning of the fall football activities at the West Texas State Teachers' College, the two buffalo, Charles C. and Mary Ann have become restless because of the great amount of noise so near their quarters.

As they are the college mascots and the most popular animals that ever have been on the campus, their feelings have been taken into consideration and their large pen will be moved to the northeast side of the college farm, where they will be unmolested by strange sounds and curious bystanders.

The two buffalo were purchased from the Goodnight ranch two years ago, when they were small calves; they are now rapidly reaching full buffalo maturity. They were named Charles C. and Mary Ann in honor of Colonel and Mrs. Goodnight who established the first home in this portion of the Panhandle.

TABOKA PEOPLE ATTEND MEETING AT BROWNFIELD

Quite a number of Tahoka people attended the Baptist Workers' Conference at Brownfield Monday. Among the number were Rev. and Mrs. B. N. Shepherd, Geo. E. Halliday, Uncle Ben Rogers, Mrs. J. B. Walker, Mrs. I. S. Doak, Mrs. J. H. Edwards, and Miss Frankie Curry. There might have been others whose names were not reported to us. They bring back reports of a most helpful and inspiring meeting.

Mrs. J. K. Applewhite was among those who attended the Baptist Workers' Conference at Brownfield Tuesday.

Lynn County Fair A Great Success

Exhibits Not Numerous but Excellent; Good Crowds in Attendance; Carnival Furnishes Amusements

The Fair was a success—a decided success. While the Farm and other exhibits were not as numerous as they should have been, yet the products exhibited were of excellent quality and made a fine showing for the county.

There were a number of community exhibits, most of which were very fine and attractive. The exhibits from Magnolia, Edith, Redwine, and O'Donnell were especially good. O'Donnell did not compete for a prize, as we understand it, but she certainly had a wonderful display of farm and garden products. Her melons were the wonder of all who saw them.

Magnolia won the first prize offered for the best community exhibit, Edith second, and Redwine third. New Home, Midway, Grassland, and New Moore each sent in exhibits which were good, but they were not artistically displayed. Each of these communities could have had a much more attractive exhibit by devoting just a little more effort to the matter.

There were some very fine exhibits by individuals. Those of Buck Briley and W. J. Crouch each attracted a great deal of attention. Mr. Briley's exhibit won the blue ribbon while Mr. Crouch ran him a close second. Mr. Crouch's farm is four miles west of town where there has been even less rainfall perhaps than at Tahoka, and yet with practically no rain since planting time, he had produced cotton and maize and corn and numerous other products that are excellent.

The exhibits displayed by the club girls and boys of the county also attracted much favorable comment. Then there were the exhibits of fruit, canned and preserved, entered by the ladies of the county, which also drew great crowds to admire them. The floral and art departments were excellent, but there were not as many entries in the art department as could have been desired. There were a few curios and relics also were interesting, but this collection should have been much larger. Several of the business firms of the city had their goods and wares attractively displayed. The News had a copy of the first issue of the paper published in its display and this proved to be especially interesting to those of our population who have been here for a number of years as well as to some new comers.

One display that gained a merited general favor was the handwork of Everett Nevels, the fifteen-year old son of J. C. Nevels. A neat, well-built cabinet, a little wagon to which a team of horses were hitched—all wooden, of course—a violin, and some other articles made by this young boy displayed his genius in this line. It is said that he has had no special training but had acquired his skill through his own efforts, unaided by teacher or expert.

The Amusements were furnished by the Embree United Shows, one of the most popular carnival companies on the road. Great crowds were in attendance, especially on Friday and Saturday nights and Saturday afternoon. If anybody on the grounds failed to enjoy the fun we failed to note it.

Inasmuch as Brown Bishop, the Secretary, is spending the week in Lubbock, in charge of the Lynn county exhibit there, it is impossible for the News this week to give a full list of those who won prizes in the various departments. In addition to the above we give below winnings as reported to us by Miss Halsey, Home Demonstration Agent for Lynn County.

This list appears on page 2.

Mrs. Jno. L. Greenfield of Dallas will arrive the latter part of this week and she and her husband will occupy rooms in the George E. Knight residence.

Daddy's Dreaming of Fairy Tales

MARY GREAY BONNER

EDWARD BUTTERFLY TALKS

"Good-day, Mr. Sun," said the little monarch butterfly.

"You look very happy," he added after a moment.

"I am," said Mr. Sun, as he beamed brightly. "It is so wonderful to be the sun and to look down upon such a lovely world."

"No wonder people say I have a sunny nature. I cannot help but have it."

"It is interesting to many people to know how the butterflies sleep in the winter," said the monarch butterfly.

"Do you know any more?" he asked after a moment.

"I can," said Mr. Sun, as he beamed brightly. "It is so wonderful to be the sun and to look down upon such a lovely world."

"No wonder people say I have a sunny nature. I cannot help but have it."

"It is interesting to many people to know how the butterflies sleep in the winter," said the monarch butterfly.

By MARGARET BOND

(A) or Margaret Bond

"Carefully then were covered the embers that glowed on the hearthstone."—Evangelist.

When the modern householder opens his fire at night it is to keep his hot-water pipes from freezing during the night or to keep the house from becoming unhealthily chilly overnight. When the farmers of Grand-Dad covered their fire at night, it was to save themselves much trouble the next morning with fire and steel and tongs. Lighting a fire in those days was a simple matter of lighting a match—it was a slow, laborious process.

Countless centuries ago man discovered that fire would keep his worms in mild weather, would make his food easier to chew, would help him in doing some of his most important work, and would aid him in countless other ways. In the very earliest days man had to depend on lightning for the start of fire—hence it was perfectly natural that the Greeks should have believed Prometheus stole the fire from the gods and gave it to man. When the lightning struck a tree and started a forest fire, our primitive ancestors so quickly hunted around in the wake of the fire for scattering stumps and logs. These pieces of smoldering wood they probably carried to their caves and used to start fires that were kept alive by the winds or currents in a tree. It is through carelessness or accident the fire was allowed to go out, the people of that early day were compelled to wait for another lightning storm to get a fresh supply of fire.

Later man discovered that by running two pieces of wood together very rapidly he was able to start a fire. This method a tremendous step forward in the history of fire making for it made man independent of lightning storms.

Later still he discovered how to string a piece of iron or steel wire that could be caught by a bit of tinder if he were skillful enough. He also discovered that it was possible to start a fire by focusing the sun's rays through a piece of glass. Fire could not be started with a burning glass except on sunny days, and lighting a fire with flint and steel was tedious business; but both methods were much simpler than the method that had preceded them.

The matches that we use at the present day are a comparatively recent invention, made possible by advancements in chemistry. Up until the days of the Civil war and for a quarter century afterwards they were looked upon as something that must be used sparingly—and the housewife who used matches to light a lamp whose she had a fire burning at which she could light a splinter or a bit of rolled paper and from that light the lamp was regarded as extravagant.

A Tale From Home

In an infant school the teacher drew the miracle of the water being turned into wine as the subject of the usual Bible lesson.

In telling the story she occasionally asked a few questions. One of them was, "When the new wine was brought to the governor of the feast, what did he say?"

A little girl, remembering what she had heard, probably at some festive occasion, called out, "He's luck!"

O'Donnell School Enrollment Large

First Foot Ball Team Organized; Other Breezy Bits of News From Neighboring City

(From the O'Donnell Index)
School opened Monday with a spirit that portends the most successful term the town has ever had. Quite a number of the patrons and the board of trustees were present and after the children and the visitors had assembled in the auditorium the exercises were opened by the singing of America followed by scripture reading and invocation by Rev. W. K. Horn. Rev. Joseph E. Eldridge made an interesting talk to the school as did R. E. Hardberger. Dr. C. P. Tate delivered an inspiring message to the patrons emphasizing the need of a Parent-Teachers' Association.

Superintendent J. A. Rickard gave an outline of the year's work he had planned for the school, and also a summary of the requirements necessary to obtain the units of credit for it to become affiliated. He stated that much work had to be done to accomplish this and that the school must have the full cooperation of all the patrons.

The teachers were introduced to the pupils and visitors after which the regular routine of work was taken up.

There were 335 pupils present on the morning but a great number of the children are engaged on the farms helping to gather the crops and a full attendance is not expected for several weeks.

O'Donnell is to have a foot ball club.

This was decided Tuesday when the high school eligibles met for the purpose of organization pursuant to call by Prof. W. A. Jones, who has charge of the school athletics.

About eighteen men reported for the first work out and the prospects are bright for a splendid team to represent the school this season, some good timber being represented in the number reporting and all were eager to go into training. The uniforms have not been received but they have been ordered and the boys will present a splendid appearance when they step out for their first game. The men go under strict and intensive training rules as once and will be whipped into shape as quickly as possible in order that they may have a full schedule of games for the entire season. The first game will be played with the Tahoka team at an early date, and games with other teams will be booked to fill the season's schedule.

Since this is the first year that O'Donnell has had a foot ball club there is much to be done and the town is earnestly requested so that the High school will have a team that will be representative of this fast growing little city. Let everybody root for our foot ball team and show the boys that we are behind them.

Rah, rah, rah, O'Donnell.

O'Donnell is very fortunate this season in securing an aggregator of cotton buyers who are paying the market price for the fleecy staple. This word has gone out to the farmers and they are passing the word to their neighbors to bring their cotton here for sale. Five bales were brought up from the mesquite yard this week, the buyers paying the truckage and a better price than was offered in Lamesa. Among the buyers are, Hansford O'Donnell, Paul Miller and Marcus Edwards of Tahoka, M. C. Hamilton and W. A. Brown, local men. They

are experienced cotton buyers and the farmers can rest assured with these competitive buyers will pay every cent the cotton is worth on the market.

The big two story brick being constructed by A. J. Warren on corner of Doak and 8th streets, is receiving the roof this week, the brick work having been completed. When completed the building will present quite a metropolitan appearance and fills in the last gap in this block of bricks. It has not been made public what manner of business will be conducted in the building.

Mr. and Mrs. W. B. Phillips returned from a visit to Portales, New Mexico Tuesday. They report that a heavy frost put the young feed and other tender vegetation out of growing Monday night, and probably damaged the cotton, as it had not begun to open.

A. C. Fairley made a trip of inspection to his farm property east of town Monday and was bubbling over with enthusiasm in regard to his cotton prospects. He says he is sure of making an average of half a bale to the acre. To show the world that fruit will grow here, Mr. Fairley had two apples which he pulled from a tree on Mrs. W. S. Street's place near Treadway. Both were unmanured but measured 11 1-4 and 11 1-2 inches in circumference. These apples will be placed with the O'Donnell exhibit at the Lynn county fair. He said Mrs. Street had three apple trees loaded with fruit, which had received no irrigation and very little cultivation this year.

Floyd Heard, who underwent operation for appendicitis at a Lamesa hospital last week has been very low, but was reported as slightly improved Thursday.

Miss Lenore Lowrie, one of the teachers in the public school was taken ill last week and removed to a Lubbock sanitarium where she underwent an operation for appendicitis. The young lady is reported as improving and will soon be able to return.

The O'Donnell Stock Company was formed at a meeting of business men held last Saturday night for the purpose of erecting a two story building to be 50x25 feet and the upper story will be used by the Masonic Lodge. It is not known what manner of business will be conducted in the lower floor.

John S. Fritz is constructing a stucco building on the corner of Baldrige and Eighth streets. The building will be divided into two compartments, one on the east side to be

used for the undertaking business Mr. Fritz conducts, and the other will be occupied by a filling station and auto accessories store.

The juice was turned on the power line by the West Texas Electric Company at Lamesa Wednesday afternoon, but through some defect in the switchboard connections, the service was not continuous until Thursday night when all business houses and residences connected up enjoyed the first honest to goodness electric lights the town has ever had.

The fixtures for the street lights have not been installed, there being a delay in the delivery of the material necessary for the installation of the lights.

To demonstrate the many uses to which electricity can be applied, the company will give a special demonstration of how to cook electrically at the Corner Drug Store Thursday and Friday of next week. Mrs. Mildred A. Reese of New Britain, Conn., will have to see this demonstration.

TUBERCULOSIS EXPENSIVE

AUSTIN, Texas, Oct. 1.—D. E. Breed, Executive Secretary, Texas Public Health Association, states that tuberculosis is one of the most costly diseases now affecting mankind, both in treatment and in money lost because of sickness.

In 1922 there were 106,000 deaths from tuberculosis in the United States, and it is estimated that there were about 954,000 active cases. Tuberculosis cuts off two and a half years of life from the complete expectation of every individual. If each individual were to add only \$100.00 to the community wealth for a year, tuberculosis would cost the community \$250.00 per person. Among the 5,000,000 persons in Texas, this loss is over a billion and a quarter dollars.

It has been estimated that a tuberculosis patient is under care on an average of two and one third years. Probably for at least the last year he is unable to earn anything. We can estimate the average annual earnings of a person at \$1,000.00.

The Texas Public Health Association, through the money raised by the annual Tuberculosis Christmas Seals, has been endeavoring to reduce the death rate from tuberculosis. In the registration area the death rate from consumption has been reduced from 200 per 100,000 in 1904 to 97 per 100,000 in 1922.

THE DALLAS NEWS TO OFFER BARGAIN

We are in receipt of a letter from The Dallas News, stating that reduced mail subscription rates will

be announced not later than Dec. 1. This will be the first offer of this kind to be made by The Dallas News. This is no doubt good news to many newspaper readers who buy their daily newspaper by the year.

The News states it printed more news and more pages during the year just passed than any other Texas newspaper. The number of pages exceeded that of the next newspaper by 1,200. The letter also brought out the fact that The News maintained the highest priced news-gathering organization in the Southwest, its pay roll for this class of service being 53 per cent higher than the next newspaper.

According to their statement, The News also maintains TEN LEASED WIRES, which exceeds that of any other Texas newspaper. This news, concerning the big State newspaper which has meant so much in the growth of Texas, will be of interest to the entire reading public.

MAIZE SEED SELECTION

By W. R. Lacey, Vocational Agriculture Teacher, Tahoka High School
Select your maize for seed as you gather your crop. As you hand head, pick out the extra and throw them into a sack you have tied on the side of the wagon, or better still put a box or small barrel on the side or end into which you may throw these heads.

In the selection of a head, pick a plump, compact head with the branches well filled out down toward the stem. Too often you will find a head which may appear big but you will find that it has loose, spreading branches with only a few grains out on the end of the branch and really does not have as much grain as a smaller but more compact head.

Another point to consider is to get the best heads from out of the

best stand. The are the ones that will give you the better crop next year. Of course a big head ought to be grown where the stalks are scattering, but you know your yields will not be as great, no matter how large the head, as a better stand but smaller heads.

The same thing is true of any of the kaffirs or for feterita. Decide upon the type you want, select the best of that type, and use that for seed.

Trade with the business men who advertise.

T-Bar Ranch

One of the big ranches of the south plains, consisting of 126 sections, lying immediately west of Tahoka in Lynn County, is to be converted into homes for farmers. Last winter twenty sections of this ranch lying nearest to the city of Tahoka was placed on the market, to be sold in small tracts, at prices ranging from \$35.00 on up; one fourth cash, balance on ten years time, at six per cent. Already much of this land has been sold. Some of it was put in cultivation this year, and cotton is being picked from it to day. Still some left.

The Butler Ranch

consisting of eight sections, in the northwest portion of Lynn county. No better cotton land in west Texas than is found in these ranches.

NOTICE TO THE PUBLIC

Any erroneous reflection upon the reputation or standing of any individual, firm or corporation, that may appear in the columns of the News, will be gladly corrected when called to our attention.

Some people are so constituted that when things are not going just their way they think everything is going to Gehenna. If their candidate for office is defeated and the other fellow's candidate elected, they think the government is on the brink of ruin. If some fellow in office proves to be "crooked", they jump at the conclusion that all office-holders are crooks and that the government is rotten from top to bottom.

The Lynn County News favors the preferential primary in nominating candidates for office. The Claude News also favors this plan. In the preferential primary the voters would be asked to vote for their first, second and third choice for office. The candidate receiving the largest number of first, second and third votes would be the nominee. This seems to us to be the "way of the wilderness."

Mighty glad to note that our Claude contemporary agrees with us this time. We note that many distinguished citizens are coming to this view of the matter, among them Whit Davidson, candidate for Governor in the first primary. We believe the people of Texas would demand the adoption of this method of making party nominations if the method were thoroughly discussed among them.

Let Us Equip Your Car With General Tires When You Need Gas, Drive In Tahoka Service Station. G. T. ABBONDONIO, Mgr. SERVICE PHONE 224 QUALITY

Up in Minnesota a minister has addressed an open letter to the voters of the state asking for the defeat of his son who is candidate for State Senator. The son is running on a beer-and-wine ticket. If the curtain could be drawn aside and the genuine agony of the father looked upon it would doubtless be a sad sight. The man who ruthlessly tramples on the high ideals of a father violates that injunction of the Book of books, "Honor thy father."

Jack Stricklin of the Terry County Herald is kidding about the gin whistling in his town. Says they tie 'er back and give the inhabitants about a thirty minute concert every morning. Our guess is that Jack likes to sleep till seven or eight o'clock and those six o'clock whistles have been disturbing his nap. The News editor himself enjoys a slumberfest that runs away up into the day, but nevertheless these Tahoka gin whistles are sweet music in his ears.

A few Texas editors are still having hysterics because the Chicago Judge refused to assess the death penalty against two big murderers, but when did a Texas jury assess a death penalty except in cases where the defendant was a negro or a Mexican?

The exhibits of farm products at the Lynn County Fair last Friday and Saturday were excellent. They showed that the soil is getting a long way from the door of old Lynn County.

Say, folks, didn't they have some fine melons at the fair. We'll put the south plains up against Weatherford, Bullinger, or any old place for fine watermelons.

They kept Jim Ferguson's name off the ticket. They tried to keep his name off but failed. Verily they are finding that "The female of the species is more deadly than the male."

News want his get results.

EDITOR KELLIS ROASTS THE PREACHERS. Rev. A. L. McClellan of Spur, arrived this week to visit his son, Lewis E. McClellan and brother, J. Arthur McClellan, who is a recent arrival from La Verne, California. Back in the days when the editor of the Index was too young to be good for anything but as the neck of the chicken after the preachers visiting in his parents' home had cleaned up the pizzazz and everything else, Rev. McClellan was a welcomed visitor by all members of the family except the writer. We can remember when he performed the ceremony for brothers Bill and Gus and sister Emma that united them in marriage—and we ate the anterior appendage of the chicken after the feast. We planned then to be a preacher like Mr. McClellan and marry folks and have the pick of the chicken at the big feasts they had in those days when a fellow got married. After we learned to take the tops of the preachers' buggy axles, put cockle-burns under their saddle blankets, pour molasses in their shoes in the night, and work up the nerve to grab the breast of the chicken, the preachers quit visiting our home and we decided to be an editor and roast the preachers for the protection of other little boys who had to eat the liver's.

The T. H. S. ROUND-UP

IRENE CONNER, Editor

PUBLISHED EVERY WEEK BY THE STUDENTS OF TAHOKA HIGH SCHOOL

Seniors

We are proud of the record that the Senior boys made in the foot ball game between Tahoka and Snyder last Friday. Three touch downs were made during the game and two of them were made by Senior boys. This shows the "sift" that our boys have in them. If the foot ball season is not a success it will not be because the Senior boys did not do their part.

We Seniors worked on our banner several days of last week. As our class colors are pink and green we used green for the background and made the words Senior '25 in bright pink. Our leaders carried this banner during the parade. All of the Seniors were present for the parade except one, but we have not learned yet whether we got the prize or not.

We have not begun to "see through" solid geometry yet, although Mr. Caveness is doing his best to teach it to us. We hope that by studying diligently it will become easier for us. If it does not some of us are hopeless.

Mr. Sanders has decided that we can not learn physics by following the usual method so he is trying the story form. This takes us back to the days when we were in the primary grades. So far, this plan has been successful.

Often, in the recitation of our lessons, we learn things that are not in text book. For example, in English class the other morning that the Canterbury Pilgrims spoken of in Chaucer's "Canterbury Tales" were going on a fishing trip. Another student informed us that Queen Elizabeth lived from the age of Chaucer to the time of Shakespeare, which was about two hundred and fifty years. These little incidents, however, only show that the Seniors are original thinkers.

Juniors

Juniors! Rah! Rah! Juniors!
 Jolly Juniors,
 United in one,
 Never give up.
 Industrious, always(?)
 On the job,
 Ready for anything,
 Seniors of tomorrow.

Freshmen

The Freshmen class all came back to school Monday with smiles on their faces. We all had an excellent time during the Lynn County Fair, last Friday and Saturday, and are again ready for our school work. In the school parade Saturday evening there was not half of our class present, and to our disappointment the Seniors, the smallest class in school, won the prize for having the most pupils attend the parade. The girls junior basket ball team our class organized last week and elected all the officers. We have our ball and court and are ready to do some playing. Miss Pressly, the music teacher, is coaching us, and we hope to match our skill with several other teams before the end of the term.

Several of our boys went to Snyder last Friday to help defeat the football team of that city. They have worked a good game in favor of Tahoka.

Subscribe for the News

Seventh Grade

This is examinaion week, and we greatly fear that the carnival of the past week has taken our minds off our school work. We are hoping that our grades will not be too low. The seventh grade girls made their banner last Friday for the parade Saturday. The parade was a great success.

New Basket Ball Court

The Senior girls basket ball court is now complete and ready for use. Two new goal posts have been erected, the weeds chopped, and the court lined.

This court is located in the northwest corner of the school ground.

Can You Imagine

H. E. in the movies?
 Mr. Shiflett leading a song?
 A Senior on the warpath?
 A Junior in earnest?
 Alice without her paint?
 Jonsie without her grin?
 The entire student body at the same pep meeting, all yelling at the same time?

Jokes

Mr. Shiflett—Fools can ask questions that wise men can't answer.
 Lee Roy—May be that is why so many of us failed on that test you gave us yesterday.
 Temple—Last night I dreamed I was married.
 Gertrude—Oh were we happy?
 Veta—I wonder if he meant it?
 Barney—Who? Meant what?
 Veta—At that carnival I went to the side show, "Fools", and the ticket he gave me said "Admit one".

A. D.—Honest, Ima Joe, you are the first girl I ever kissed.
 Ima Joe—Well go on What do you think I am, a prep school?
 Alice—R. E., you have the prettiest eye-balls.
 R. E.—Aw, sure 'nuff?
 Alice—Yes, they are looking at each other all the time.

Harley—Do you know her, Eddie?
 Eddie—No.
 Harley—Then why did you tip your hat?
 Eddie—Oh, Jack knew her, and this is Jack's hat I have on.

Notice: R. E. Doak has invented a new dance step. Any one desiring to learn this step will see R. E. at recess, noon, before or after school.
 Mystery! Where did the "Bulldogs" get their "new" football?

Prof. Caveness—In a few days you will be in the hands of Geometry.
 Roy Taylor—That's nothing, I'm in the hands of receiver now.

BUSINESS MEN CONTRIBUTE TO ATHLETIC FUND

The business men of Tahoka are giving the public school of Tahoka their loyal support, as is evidenced by their contributions to the athletic fund of the school. The following is a list of the firms and individuals that have contributed to this fund.

WILSON NEWS ITEMS

(From Wilson Pointer)

W. P. Hamlett has sold his grocery stock and leased his building to W. E. Galloway of Slaton. Mr. Hamlett and his son are putting a wheat crop in New Mexico but will continue to make their home for the present in order that the children may have the advantage of the splendid school here.

Mr. Galloway is by no means a stranger here. He was in Wilson all of last fall and made many friends.

The grocery business of which he is taking charge is to be enlarged and filled up to meet the demand of the public.

Last week Mr. Burns seemed to be as well as the strongest of us. He was in his regular place at church Sunday. Sunday night he had an attack of appendicitis. All day Monday he suffered greatly and that afternoon the doctors decided that it would be necessary for him to be operated upon.

The operation was performed Monday afternoon. Mr. Burns stood it very well and at the last report is doing well.

Wilson's entire citizenship extends to Mr. Burns their sympathy in this trouble and hopes that he will soon be with us again.

Thursday morning Ralph Deaver took charge of the Hiway Garage. He has leased this business until the first of the year and will manage it himself. B. A. Boswell will continue the part of the work that he has been doing.

We hate to see Mr. Watson and his daughters leave the place that they have had for some time, but we feel sure that Mr. Deaver and Mr. Boswell will be able to give the public the same courteous and pleasant service that they have always received at the hands of the former managers of the Hiway Garage.

Saturday at noon the Methodists of Lynn, Grassland and Wilson and their friends met at the Methodist parsonage to "Pound" Rev. and Mrs. Johnson. Under the directions of Rev. Oaks a large crowd collected and in addition to the gifts that they brought to show their appreciation of our pastor and his work they brought their dinner and a regular Methodist dinner on the ground.

Chicken, turkey, salads, pies, cakes, lemonade, coffee, and num-

bers of other things that the ladies alone can think of cooking were there in abundance. There was enough food brought to the dinner to feed a small army.

The pounding was a complete surprise to Rev. and Mrs. Johnson. They appreciated the spirit of the people and are delighted to know that through their work they have won the hearts of the people and whether they return here after conference or not they can feel that they have done a good work and the growth of their church has been almost phenomenal.

Mr. and Mrs. E. L. Deaver and Mr. and Mrs. Bryan Deaver returned Sunday from Roswell, N. M. where they have been for several days putting up fruit for winter.

Mr. Deaver said that they canned 57 bushels of apples. We are sure there is enough for each of us to have some. It certainly would not be an imposition to call on the Deavers, and at least see the apples.

The plans are made and are being put into effect whereby the children of the Wilson school can have a splendid course in Public school music.

This is a wonderful course and will be of greater benefit to the children now and when they are grown. In the course each child will be taught to read music. He will learn the care and development of the voice and will learn numbers of new songs. The appreciation of good music will not be neglected and the children will have training that schools of four times the size can hardly afford.

BLESSED

"Blessed are the merchants who advertise because they believe in it and in their business, for their prosperity shall increase manifold."

"Blessed is the woman who sends in a written account of a party or a wedding for she shall see the details of her function and the names of her guests correctly reported."

"Blessed are all those who do not expect the editor to know everything but who call up and tell him whenever an interesting event occurs to them, for they shall have a newsy paper in their town."

"Blessed are they who get their copy in early, for they shall occupy a warm place in the editor's heart."

"Blessed are those who co-operate with the editor in his efforts in be-

half of the community, for their town shall be known far and wide as a good place in which to live."

—Exchange

A CORRECTION

Two weeks ago we published a list of the various committees having in charge the different departments of the fair exhibits, just as this list was handed in to us by the proper authorities for publication. On last Saturday we were informed that an error had been made in the personnel of one of these committees as published, and we desire to make the correction, so that all persons interested may understand. The name of Mrs. W. B. Slaton should have appeared as chairman of the Fine Arts committee. The names of Mrs. W. S. Swan and Mrs. C. H. Cain were published as constituting this committee whereas they had been selected as judges of the exhibits in this department. This is one of those errors which all of us are prone to make, but in this instance the News is in no way responsible for the error.

Tom W. Smith and wife, proprietor of Smith's Cafe, Fort Worth, and Mrs. Smith's father and mother, Mr. and Mrs. W. F. Davey, were here Saturday looking over the country and attending the fair. Mr. Smith owns a section of land in the Joe Stokes community and states that he expects to come out next year to make this his home. He is greatly in love with the south plains.

MISS HALSEY THANKS PEOPLE FOR COOPERATION

I wish to thank all business people of Tahoka who so kindly assisted us in making our Millinery School a success. Mrs. Barnes was delighted with both the cooperation of local people and interest shown by people from over the County. She said the results of the school were also very satisfactory and she hoped she would return for another such school some day.

To all the Club Presidents and to the members of the Girls Clubs I wish to give special thanks for it is due to your efforts that so many people attended the school. When we consider that Home Demonstration work was begun in your County less than five months ago I consider it remarkable that sixteen communities were represented at the Millinery school. Not only that but we had more finished hats at the close of the two days than is customary at one of these schools.

Again I thank each who helped to make this school a success and assure you that I am here to serve you in any way I can.

Yours sincerely,

Millie M. Halsey

County Home Demonstration Agent

Wes McFadden of Paris is visiting here and says he expects to locate here at an early date.

SEVERE CRAMPING SPELLS, PAINS IN BACK AND SIDES

"My trouble has been periodic cramping spells," says Mrs. C. C. Draper, of Atlanta, Texas. "For several years these have come on me so bad that I had to quit my work and go to bed. Every month I would stay in bed from one to two days. The pains in my back and sides were awful. This went on for several months after I was married until, one time when I was having a bad spell, my husband suggested that I try Cardui. I said I would try it, so he got me a bottle at the store and I began to take it."

"It seemed like I improved from the very first dose. When I had taken one bottle I was very much better. I did not cramp so hard the next month and I ate and slept better. I was not nearly so nervous, either. I thought Cardui was fine, so I continued the treatment until I had taken five bottles, at which time I felt completely well. I had no more

cramping spells at all, and my health was as good as anybody's. I am feeling fine now and I give all the credit to Cardui, for I had been suffering for years before I took it."

Cardui is a vegetable extract, containing no harmful ingredients. It is made from mild-acting medicinal herbs with a gentle, tonic, strengthening effect upon certain female organs and upon the system in general. Its users have testified to its special value at the time of entering womanhood at maturity and at the time of the change of life.

For over 40 years, Cardui has been tested in use by thousands of women who have written to tell of the great benefit they have received from it. For over 600 years, medical authorities have recommended one of the principal ingredients of Cardui in the treatment of certain female complaints.

Cardui, the woman's tonic, tested by time, is today the product of many years of experience and investigation. It is manufactured in up-to-date laboratories by the most modern and sanitary methods of pharmaceutical science and is for sale by all druggists.

When You Have Left the Room?

GUESTS...curious glances...what a silent drama of admiration or disapproval is played when you have left the room.

Well-bred eyes that observe more than they are willing to betray, always note the difference between dullness and charm in interior decoration. They appreciate the beauty of any room finished with the delicate and artistic tints of Devoe Velour Finish.

Devoe Velour Finish is produced in 27 exquisite colors. It is easy

ARTISTS REPORT ON MONEY DISTRIBUTED

MAILED STATEMENT AS TO WHERE 75 MILLION CAMPAIGN COLLECTIONS HAVE GONE IS ISSUED

DISTRICT ASSOCIATIONS

Nearest Local Churches Will Employed in Bringing About Fuller Development in Future Program

DR. C. E. BURTS
General Director, 1925 Program,
Southern Baptists.

dictating the objects to which the money collected on the Baptist 75 million Campaign goes, the head teachers of that movement in Nashville has issued the following statement of the distribution of the \$53,084.43, representing the revised report on the sum collected on that amount up to May 1, 1924: Foreign Missions \$9,898,830.30; home missions \$7,820.09; state and associational funds \$9,093,769.27; Christian education \$14,849,083.51; hospitals \$2,392.48; orphanages \$4,464,965.87; steril relief \$1,570,356.94; extra and fixed charges not otherwise absorbed \$2,091,608.56; special gifts and miscellaneous items \$1,904.47; purchase and operation of denominational papers \$62,183; foreign relief \$67,602.16; unreported balance \$152,330.77; Home Mission Board special \$15,340; For Mission Board special \$86,103; and by churches on foreign fields expended by them in work there \$3,390.68.

All Work Goes Forward
Every department of the general program, educational and benevolent work fostered by Southern Baptists has been greatly enlarged and strengthened by the campaign, it is noted, while a suggestion of the momentum that has come in the titles and liberality of the local churches as a result of this forward movement is furnished in the following statement of progress along general lines, furnished by the headquarters office:

Comparing the growth of the denomination during the five years preceding the Campaign with the five years since that program was proclaimed it is shown that during the five years the following advances were recorded over the previous corresponding period: 1562 more new churches organized, a gain of 229 per cent; 241,966 more new members added, an advance of 66 per cent; 102 more baptisms administered, an increase of 27 per cent; 1,603 more Sunday schools organized, a gain of 113 per cent; 354,727 more Sunday school pupils enrolled, an increase of 132 per cent; \$35,086,970.83 reported in gifts to missions; benevolences, a gain of 187 per cent; \$51,153,873.88 more noted in gifts to local church purposes, a gain of 5 per cent; \$84,417,361.55 more noted in gifts to all causes, a gain of 17 per cent; and \$57,147,004.43 shown in the value of local church property, a gain of 31 per cent.

Complete Collections Now
the hope of completing the collection of all Campaign subscriptions as close of this year and securing cash offerings from those Baptists who did not subscribe to the year program an intensive effort during the remainder of the summer fall will be waged throughout the South under the general leadership of Dr. L. R. Scarborough, general director, with the co-operation of various state mission offices and officers and workers in the near-1000 district associations. It is noted that the interests of the denomination shall be adequately set at all of these associations in annual meetings in the hope the delegates to the associations in turn carry the message back to their local churches and secure co-operation of these churches in completing the Campaign program as to clear the way for the forward program, beginning Jan. 1, 1925.

C. E. Burts, former general secretary of the Baptist work in Carolina, has assumed his duties as general director of the 1925 program and announces that he believes the program for next year will be most successfully launched upon the satisfactory completion of the Million Campaign during the remaining months of 1924. While making plans for the projection of the new program, he is co-operating with Dr. Scarborough in the selection of the old one.

OCTOBER

By James M. Woodman
Blessings on thee, old October, with your crisp and bracing air; And your trees of brownish color, with a green one here and there. Mystic haze that o'er the meadow and the woodland seems to dwell Parting incense to the songsters who will soon bid us farewell. Nature comes to join October, comes to claim again her own; Comes to reap the golden harvest of the things which she has grown But it brings a touch of sadness, when the summer starts to wane And we hug her closely to us hoping that she might remain.

In each life comes old October, when the grain is gathered in; Lucky is the man who's owner of an overflowing bin. Read the lesson left by others, whom the olden past have known— When October comes, my brother, "ye shall reap as ye have sown"

Rev. W. F. Markham of Spur was the guest Monday night of Rev. B. N. Shepherd, and both attended the Baptist Workers' meeting at Brownfield Tuesday.

"Men that hazard all Do it in hope of fair advantages."
—Merchant of Venice.

When a man invests his money in government bonds, he is assured of both interest and capital. When he invests his money in a business enterprise, he is assured of neither. Statistics are said to show that 95 per cent of all business ventures fail within a few years of their launching. It is certain that far more men fail in business than succeed.

The economists speak of the man who takes the risk in a business as an entrepreneur; and they acknowledge that he should be allowed not only a fair interest on the money he has invested in an enterprise, but also a fair gain to pay him for the risks he has taken—the greater the risks the greater the gain. People who figure that investors should be satisfied with the interest alone, and there are many of them, show themselves ignorant of the fact that Shakespeare here points out—that men will not risk all they possess without the hope of advantage.

It is of importance to us that men should be willing to risk their money in industrial ventures. We have our railroads, our telephones, our automobiles, and our moving pictures as the result of men's willingness to risk their private fortunes. Those who advocate state ownership for all industries rarely stop to consider who would bear the risk of undertaking new enterprises if the state owned the industries. Certainly the government is not supposed to take risks with the money of its taxpayers. It is equally certain that new enterprises cannot be undertaken unless some one bears the risk. A man with an individual fortune may risk it as he sees fit; herein lies the great value of private wealth.

Just now there is an ever-growing tendency to limit the advantages that a man may gain by taking great hazards. Such limitation is folly when carried far enough to keep men from taking the risk in new ventures—the acme of statesmanship is to determine the lowest rate of gain that will induce private capital to assume the risk in new enterprises.

Pepsinated Calomel Is Better than the Old-Time Sickening Kind

It is gentle, imported English Calomel, combined with Pepsin and other helpful ingredients. It is mild but certain, causing no harshness or unpleasantness and will absolutely relieve indigestion, biliousness, bad colds, constipation and sick headaches. And best of all it does it at once—quickly and pleasantly. Take one small tablet at bed-time and you will get up hungry and feeling fine. Recommended by

Tahoka Drug Co.

One thing He Overlooked.

Doctor—Well, Mr. Jackson, how are you feeling this morning?

Mr. Jackson—Much better, thank you. The only thing that troubles me is my breathing.

Doctor—Um, yes. We must see if we can't get something to stop that.

Best of workers get out when the liver fails to get. They are languid, half-sick, "blue," and think they are getting lary. Neglect of these symptoms might result in a serious spell, therefore the sensible course is to take a dose or two of Herbine. It is the medicine needed to purify the system and restore the vim and amity of health. Price 60c. Sold by

With the High School Classics

By MARGARET BOYD

"I can never rightly know the meaning of what I hear in church, only a bit here and there."—Suzanne Marner.

There are so many reasons why the hearer may not understand the meaning of what the hearer in church hears... where the thought may be a complex one or the words used may be unknown to the hearer.

Every day, small bits of the liberal ideas and opinions are being taken from speeches and articles that seem perfectly simple and clear to the speaker or writer.

Several years ago a high school teacher of English and her class got into an argument on the subject. She assumed that they did not know every-day English; they assured her they knew enough to be able to read the newspapers and magazines which was as much as anybody needs to know.

The people were members of the public class and of average ability. When the teacher began to explain another word used by the speaker and introduced that he didn't know what the word meant.

The teacher asked him the meaning of "trifle." He said that was easy, everybody knew what a trifle was, but he couldn't just express it. The teacher that asked him whether the previous speaker succeeded or failed in his attempt and he had no idea.

Third and Best Wife of John Milton Frost

Dr. Elizabeth "the third and best wife" of John Milton Frost, had a love more tragic and more common in nature than that of "Doctor" Mrs. Milton Frost, except with a word. Her story was never the exciting, tearful tale that it was in her husband's life.

Elizabeth was a model of good management. She had returned to the life of fifty-three years on the 100 pounds off her frame her husband's estate. When she died she had only thirty-eight pounds eight ounces.

There were more than one hundred items in the inventory of her estate and this time the "doctor's inventory" is rather a pathetic document, as all that she had was a few articles of dress, a few pieces of furniture, and a few pieces of jewelry.

Why is it colder high in the air?

Because the earth has scattered a supply of heat from the sun. The farther one goes away from the heat, the colder the air becomes.

DEER TO BE GIVEN AWAY BY THE FOREST SERVICE

The United States Department of Agriculture, through the Forest Service, has some thousands of deer to give away, according to an announcement made to-day.

Under the protection of forest rangers, however, the deer have increased in number to a point where the entire herd is threatened with starvation and prompt efforts must be made to reduce it to a number that can be supported by the vegetation on the Kiabai Plateau.

The limited food supply has been reduced to the starvation point, for the number of deer now on the Kiabai Plateau and officials of the Forest Service fear that winter will take a heavy toll if the herd is not reduced immediately.

True, with the business men who govern.

McMANIS MAKES CHICKENS PAY

County Agent A. L. Robertson went on one day last week and culled a flock of 300 white leghorns for Ed McMannis of the New Home community.

Mr. McMannis has bought all his feed for these chickens from a feed store and has cleared \$195.00 on the flock, above expenses, during the past year, according to Mr. Robertson.
