The County Editor sez: "Man's capacity for justice makes democracy possible; but man's inclination to injustice makes democracy necessary."

TBW  
The man who hides behind a woman's skirt used to be called a coward; today he is a magician.

TBW  
Come April 15, when most of us will be fighting that deadline imposed by Internal Revenue Service, the Apollo 13 crew will be launched toward another landing on the Moon. At least, that's the current schedule. Meantime, the Apollo 13 crew will be launched toward another landing on the Moon. At least, that's the current schedule. Meantime, the Apollo 12 crew that walked the Moon last is off on an around-the-world tour.

What brings this space stuff is that February 20 was the anniversary of that day in 1962 (remember?) when John Glenn, Jr., became the first American to complete a manned orbit of the earth. A lot has gone on in eight short years, hasn't it?

It has become fashionable to downgrade the Moon Landing and criticize this nation's spending on space, but an awful lot of people were excited at the exploit of Apollo 12. In fact, 8,743,070 of them were excited enough to purchase first-day "covers" of the Moon landing stamp. This many souvenir envelopes and stamps were cancelled with the special cachet, reports Postmaster General Winston M. Blount.

The figure is nearly triple the previous record for a first-day issue, the stamp commemorating John Glenn's orbital flight in 1962.

Within days after the Moon stamp was announced last July, requests for covers began arriving in Washington from more than 100 countries, and crested to 60,000 to 80,000 a day.

It took a crew of 100 five months to process them all! TBW

A mail-order house offers a lamp that gives "A gracious, intimate glow to your dinner table." It comes complete with a wind-proof glass globe that keeps it lit, indoors or out. "Fills with kerosene at the base—just like those of the earlier era! No need for outlets—no cords to trip over!" WOW! Ain't progress wonderful?

TBW  
If at first you don't succeed, throw the road map away—and get a neatly folded one at the next gas station.

We attended the open house at Tahoka Schools Monday night and were amazed at the work that children are doing in our schools. Our oldest daughter, Jona, is in the fourth grade and I would dread tackling some of the math problems that she is working with ease. We believe that our schools are doing a fine job and if you missed the open house you missed a treat. We would like to congratulate our teachers on a job well done.

## Stewart Plumbing Announces Opening

Stewart Plumbing will be opening their new plumbing store on Tuesday, March 6. The old building has been completely remodeled and should be a fine addition to Tahoka. The store will offer Plumbing supplies, fixtures, heating and Air-Conditioning Units. A portable shower will be given away on March 13 to celebrate the event.

HAVE YOU TRIED?.. This is a thought you might keep in mind next time you start out of town to make a purchase. The sign above was photographed just east of Tahoka on the Brownfield highway and carries a message worth remembering.

## To Be Held At County Show Barn

The Lynn County Livestock Show sponsored by the Tahoka Chamber of Commerce and the Tahoka Rotary Club is set for this week-end, March 5-6-7.

The show is to stimulate and advance the practice of feeding livestock for home and commercial use and to encourage the improvement of breeding stock.

All participants in the show will be presented awards by merchants and other interested parties of Tahoka, O'Donnell, Wilson, New Home, and Grassland. Showmanship awards will be presented by the Lynn County Farm Bureau.

Beginning on March 5 from 1 to 5 p.m., entries will be taken on Swine, Steers, and Lambs. March 6 from 8 to 9 other steer entries will be taken. Judging will begin March 6 with Swine at 10:00 a.m. and continue starting at 10:00 a.m. March 7 with lamb judging.

Starting at 1:00 p.m. March 7 steers will be judged and at 2:30 p.m. presentation of trophies will be made. Everyone is invited to attend the livestock show at the local Show Barn.

Miss Marry Eilan Wyatt spent the week-end in the home of her parents, Mr. and Mrs. F.A. Wyatt. Marry Eilan is a senior, child development major, at Texas Tech University.

### Girl Scouts To Have Box Supper

The Girl Scouts will sponsor a Father-Daughter Box Supper this year, Thursday, March 12.

The Supper begins at 7 p.m. in the Lyntegar Board Room. Sharon Anderson will give the program, on her experience with Girl Scouting.

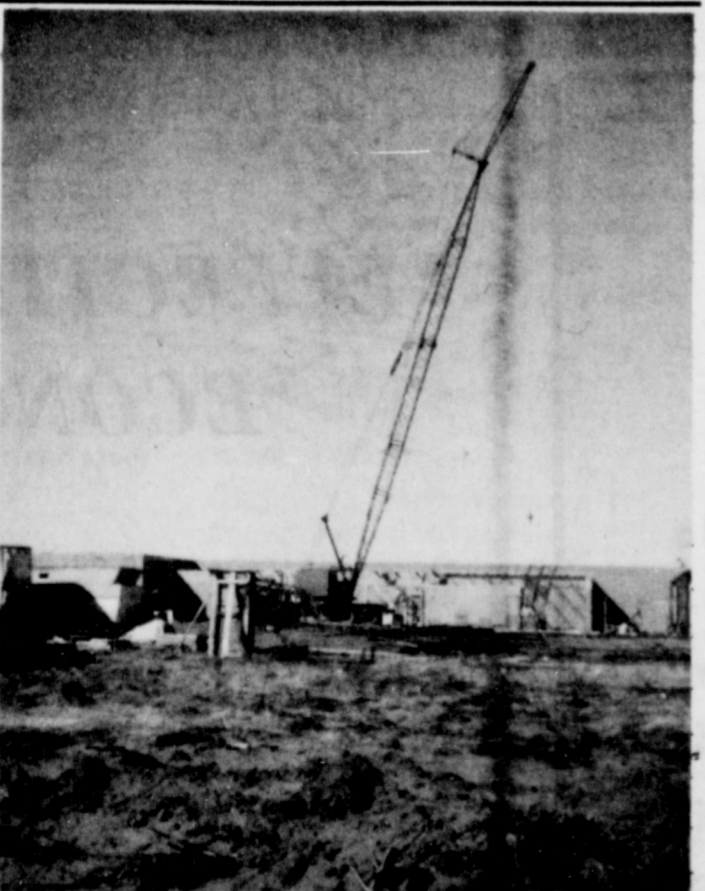

Each troop will help in decorating the tables and attend Church as a group.

Proceeds will be used as a project for the Juliet Love World Friendship fund. The birthday of the founding is March 12.

The two outstanding forwards in the district were Karen and Sharon Windham, Srs. of Post.

The girls making the guard team were Kay Alpman, Fr., Post; Kay Herron, Sr., Post; Nancy Hart, Sr., Post; Pam Petty, Sr., Post; Betty Trammell, Sr., Tahoka; and Tonay Dorman, Sr., Tahoka.

Outstanding guard was Donna Becknell, Jr., Idalou.

RAPID PROGRESS.. Rapid progress is being made on the New Lynn County Hospital going up just east of Tahoka. As shown in the photo above most of the outside of the building is already up.

### SUIT FILED IN SEPT. DISMISSED

## ARM BANDS TO BE PERMITTED

Federal court has held that Arm Bands will be permitted in local schools under the constitution of the United States as long as they do not interrupt the Educational Process, but Federal District Judge Halbert O. Woodward also retained jurisdiction of the matter and any disruption arising as a

result of the decision will be brought back before the court. Judge Woodward however did not hold the local school boards policy concerning disruptive activities invalid.

The suit filed in September by the Mexican American families was dismissed.

## THD Reminds Motorists How To Register Autos

AUSTIN—The Texas Highway Department has reminded motorists of some DOs and DON'Ts for obtaining 1970 motor vehicle registrations. The Motor Vehicle Registration Division of the Department has initiated a new computerized registration system this year.

In the past motorists have had to take their previous year's registration and auto title to the county tax collector's office or substation to obtain new license plates.

This year motorists were mailed a three-part computer-oriented registration form about January 1.

If a motorist wishes to renew his registration by mail he should mail the three-part form to his county tax collector, with his check for the registration fee plus one dollar to cover postage and handling. Some county tax collectors will accept only money orders or cashier's checks.

If a motorist wishes to renew his registration in person he should take the three-part registration form to his county tax collector's office or substation with his check or money order.

Mail orders will be accepted only until March 1, allowing 30 days for delivery. Registrations will be made in person through midnight April 1, deadline for obtaining new auto license plates.

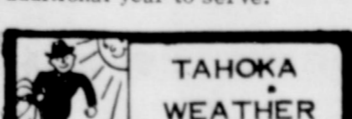

The Highway Department's list of DOs and DON'Ts for all motorists:

Remember, you will save time at your county tax collector's office if you use the computerized form. There is no extra charge if you obtain your license plates in person.

## File For Three Council Posts

The official city election set for April 4, 1970 will have three council posts to be filled. The terms of Alton Cain, E.T. Cloe and Austin E. (Bob) Haney will expire with all three running for re-election. Johnny Valentine will also be seeking a seat on the council.

Mayor Meldon Leslie, Councilmen H.B. McCord, Jr. and Clayton (Ike) Carter have an additional year to serve.

VERNON ADCOCK  
...SEEKS DA POST

## Vernon Adcock Seeks District Attorney Post

I am grateful for having been honored in my appointment by Governor Smith to serve as District Attorney until the general election and for the realization that I am the only candidate for that office. Your cooperation in my new official duties, and your support of my candidacy will be greatly appreciated.

The voters of Dawson County have been good to me in electing me to serve them in the offices of county judge and county attorney, and by their cooperation in such service. The experience gained in these positions will be of much value in the performance of my duties as your District Attorney.

This is my sincere pledge to you that I will work diligently for the indictment, conviction and just punishment in all felony cases in this district where it appears that there is sufficient legal evidence to prove guilt, and that I will work cautiously to accomplish that goal in such manner as not to violate any of the laws which have been established for the protection of the rights of persons accused.

Much time of jurors and other officers of the court are often wasted in securing convictions only to be reversed on appeal. During my many years of service as either county attorney or county judge there have been very few appeals from our county court convictions and there has never been a reversal in a case in which I have served either as prosecutor or trial judge.

In working as your District Attorney in felony prosecutions, I realize it will be more difficult to maintain such a record but I will do my best and will need and treasure the assistance of you good citizens. Respectfully,  
Vernon D. Adcock

Last Thursday the Student Council sponsored the Slave Sale. This is the day when students (as some other character) are sold as "slaves" to carry books and such. Those in the slave sale this year were: Carol Thomas and Sherri Short in a catsup race; Nathan Morris and Becky Franklin as Tarzan and Jane; Bill Griffin, Julie Robinson and Eddie Stice as characters from Hee-Haw; Robert Montemayor as the Fri-to-Bandito, Martin Warren as a hippie and Ladd Roberts as a policeman; Sheri Schneider as Mrs. Dove and Debbie Renfro as a student; Suzanne Warren and Tommy Hale in a laundry soap commercial; Gene Walker with his imitations; Steve Vaughn as Henry Gibson;

Dale Rogers as a dummy and David Rogers and Jiggs Taylor as auctioneers.

The Juniors are busy working on their play to be presented March 13. The characters in the play "Mumbo-Jumbo" are: Sarah Reynolds, a pleasant, middle-aged woman; John Reynolds, a middle-aged businessman; Dick Reynolds, a brass, good-looking college youth; Pee-wee Smith, Dick's friend; Tweety, a country maiden; Peaches, a chorus girl; Monahan, a State trooper; Lem Marblehead, a small town sheriff; Emma Burpee, a young man; Mrs. Custer, Harold's mother; Mr. Beamish, an old blind man; Kay Samedi, a beautiful girl; Madame Celesta, a native peasant woman from

Haitia, and Doctor Omahandra, a witch-doctor. From the character, this play is bound to be very amusing, so remember March 13 as the date for the Junior Play.

The National Honor Society will have their annual Career Conference Thursday. Keynote speaker will be Dr. Glenn Barnett, who is Executive Vice-President at Texas Tech University. There will be three sessions for the students after the general assembly, where different consultants will speak on their various categories. The categories this year are

advertising, aviation, broadcasting, court reporting, journalism, key punch, law enforcement, modeling, petroleum, psychology, social work, and technical training. Seniors from several of the surrounding high schools may attend.

The State degree girls are taking donations for the Spanish kindergarden. If you have any crayons, paper products, glue, scissors or any other things that they could use, please contact Yolanda Chapa, Donna Edwards, Vicky Owens, Connie Miller, Sheila Tankersley, Cathy Leverett or Betty Owen.

## THE PHILOSOPHER

# Important Event

(Editor's note: The Sandhills Philosopher on his Johnson grass farm reports a new discovery this week).

Dear Editor:

People are always saying "history will record so and so," forgetting that history is mostly what some self-appointed historians claim it is, but nonetheless I got to speculating the other day on what history will record as the most important event in the past 10 years.

Landing on the moon? Discovering pollution? Anti-ballistic missiles? Airplanes that hold 500 people? Color television? Discovering some vaccine we haven't even heard about yet?

As outstanding as these things are, they won't compare with something I read on page 14 in a newspaper last night.

According to it, a manufacturer has perfected and is now offering for sale men's socks guaranteed to last a lifetime.

That's right. He says he guarantees they'll never wear out and if they do he'll replace them with a new pair free. He guarantees them against everything except losing them in the laundry, or having them

pulled off the clothes line by a playful dog.

Now I haven't seen any of these socks and can't vouch for them but it's the idea that appeals to me.

It never had occurred to me before, but say the average man or boy wears out a dozen pairs of socks a year. With a hundred million males in this country, that's 12 hundred million pairs, or 24 hundred million socks thrown away each year. No small item of pollution in itself.

But in addition to the anti-pollution side effects, it's a giant stride in the right direction. In this modern society of ours things don't last long enough. Everything wears out too soon.

Think of the huge amounts of money the world can save if some day not only socks can be handed down from father to son but also shirts, suits, automobile tires, guided missiles, paved highways, television tubes, water faucets, hydrogen bombs and all those other things man is always tinkering with and producing new models of, when any of them ought to last forever.

Yours faithfully,  
J. A.

TEXAS PRESS ASSOCIATION

Top Texas officials have agreed on general outlines of a plan to combat the rising problem of drug abuse.

Gov. Preston Smith, Lt. Gov. Ben Barnes, Atty. Gen. Crawford C. Martin and House Speaker Gus Mutscher are united in statewide concentration of effort. Plan was announced after meeting of the four in Smith's office last week. Texas Justice Council will serve as coordinator.

Coordinated law enforcement action will first be called on to try and dry up the sources of dangerous drugs.

Top priority is given a "total education" campaign for youth, adults, teachers and law enforcement personnel on drug dangers and possible solutions to the problem.

Task forces will be named

to develop effective concepts and action programs in enforcement and education.

Leaders agreed on this immediate-action program: One-day seminars for Texas' law officers and prosecutors.

Exchange of vital information with Mexico.

Assistance through the Justice Council to implement school education.

Review of successful narcotics programs in other states.

Greater assistance to local enforcement and prosecuting agencies in evidence analysis.

Gathering of statistics in major cities on drug-related crime.

Creation of a model drug information office.

Narcotics strike forces will include local, state and federal personnel, military manpower

and use of helicopter patrols along the Rio Grande.

Another task force will attempt to explore causes of drug use and to evaluate proposed research and rehabilitation programs as well as to implement educational programs in schools.

State officials will meet here March 13 with aides to U.S. Atty. Gen. John Mitchell. They will explore federal support possible under remedial programs and the uniform controlled dangerous substances act now before congress.

**TOLL ROADS PROPOSED.** In a surprise session with the State Highway Commission, Texas Turnpike Authority proposed that preliminary studies be made for the development of a massive toll road network estimated to cost more than \$135 million.

Last year the Legislature authorized the agency, subject to the Highway Department's permission, to spend money for investigating the feasibility of additional pay-road projects.

Turnpike Authority asked the Commission to let it make exploratory studies of the following projects:

An 83-mile, \$50 million mid-Texas turnpike from Hillsboro to Interstate 45 near Centerville, to provide a direct freeway from Dallas-Fort Worth to Houston-Beaumont areas.

A 20-mile, \$40 million Dallas-Fort Worth-Trinity turnpike connecting Dallas and Fort Worth parallel to the present turnpike by way of the projected Greater Southwest International airport between the two cities.

An 8.8 mile, \$18 million airport tollway connecting LBJ Freeway in Dallas to the new airport estimated for completion in 1973.

A \$20 million toll road in San Antonio to follow the route of long-delayed U.S. 281 North Expressway.

A 1.2 mile, \$7 million toll bridge across Mountain Creek Lake in Dallas County connecting the Oak Cliff and Arlington areas.

A turnpike from downtown Houston to Intercontinental Air-

port and possibly other facilities in the state's largest city.

Preliminary studies will take six to nine months. Feasibility surveys may follow where reasonable promise is shown for the projects.

**WELFARE CRISIS AVERTED.** Welfare Board cancelled its April 1 cuts in aid to needy families and medical assistance after Governor Smith ordered \$13.5 million in medical school building funds shifted to welfare.

Deputy Welfare Commissioner Herbert Wilson said the fund present levels through August and maybe longer.

Cuts of 12 per cent in Aid to Families With Dependent Children and 20 per cent in Medicaid had been ordered for April 1. In ordering the transfer to make this reduction unnecessary, Smith also directed strengthening of the welfare program administration and a step-up in rehabilitation efforts.

**APPOINTMENTS.** Lieutenant Governor Barnes has been named to the advisory committee on National Assessment of Educational Progress and to a 10-member task force to recommend a national policy on student financial aids.

Governor Smith announced these appointments:

Texas Submerged Lands Advisory Committee. J. Chryst Dougherty of Austin and Dr. Robert R. Lankford of Houston (reappointments).

Board of Trustees of Texas County and District Retirement System. Ramiro T. Guerra of Edinburg, Newton F. Foster of Tyler (reappointments) and M. Fern Cox of Big Spring.

State Seed and Plant Board Dr. Harold E. Dregne of Lubbock, Douglas M. Conlee of

Waco and Dr. Morris E. Bloodworth of College Station (reappointment).

Runnels County Water Authority. John Brittain Dunham of Winters, William Cleveland Smithwick Jr. of Miles, Cloy L. Allen of Wingate and Cecil Roper of Norton (reappointments).

Journalist, Texas Office of Economic Opportunity. Mrs. Pamela Johnson of Austin.

Interim Committee to Study the Feasibility of Creating a Maximum Security Facility for the Criminally Insane. Dan C. Williams of Dallas, Dr. George Beto of Huntsville, Dr. John Kinross-Wright of Austin, Dr. Joseph C. Schooler of Houston, Raymond W. Vowell of Austin.

Interim Committee to Study Delinquent Ad Valorem Tax. Dallas County Judge W.D. Henson, Dan Henry Lee Jr., of Texasarkana, Everett Augustus Lyons, Jr. of Houston.

District Attorney for 106th District Court. Vernon D. Adcock of Lamesa.

Dr. Joseph G. Cocke was designated superintendent of San Antonio State Hospital by Board for Mental Retardation.

Antonio E. Alagna of San Antonio is the new export consultant for the Texas Industrial Commission.

**ATTORNEY GENERAL RULES.** Fraternal and veterans organizations operating clubs and serving alcoholic beverages are subject to sales tax as ultimate consumers for mix, beverage, ice or set-ups, says Attorney General Martin in a new opinion. However, Martin said, the "makings" are not subject to further sales tax when incorporated into alcoholic beverage served to guests and members.

In other recent opinions, Martin concluded that:

Amarillo Mayor J. Ernest Stroud did not automatically resign as mayor when he announced his candidacy for Randall County Judge.

Alcoholic Beverage Commission does not have authority to construct a revenue station at Eagle Pass from appropriated funds.

Board of Insurance is authorized to permit continuance of above-ground storage tanks for flammable liquids at retail service stations where they were in service prior to last September 1 and where the con-

form to safety standards.

County Commissioners have no authority to budget an amount for the current year which exceeds the county auditor's anticipated revenue.

**RETROACTIVE PAYMENTS MADE.** A total of 131 persons received \$53,811 in retroactive welfare payments under terms of a San Antonio federal court order invalidating the one-year state residence requirement.

Since last October, the welfare department has been trying to locate 414 who might have been eligible. Payments went to these categories:

Aid to Families with Dependent Children...\$48,097 to 112 persons.

Aid to Disabled...\$832 to three.

Old Age Assistance...\$4,882 to 16.

**SHORT SNORTS.** Governor Smith proposed a complete review of the \$10 billion Texas Water Plan which Texas voters turned down last year, to see if any more water supplies can be developed in Texas before seeking imported water.

Texas Highway Department reminds that March 31 is deadline to renew boat registrations.

Board of Mental Health and Mental Retardation authorized nearly \$1.8 million for repairs and new construction at Big Spring, Terrell, Vernon, Abilene, Austin, Lufkin, and San Angelo facilities, approved adolescent mental health units for Austin and Terrell hospitals, and accepted more than \$500,000 in grants for mentally ill and retarded care.

A \$46,500 grant to Texas Department of Health will help develop emergency medical service and communications to summon quick aid to traffic accidents.

Governor's Committee on Aging approved grants totalling \$216,449 for projects in San Antonio, Wichita Falls, Smithville, Waco, Stephenville, Eagle Pass and Franklin.

Sixteen of the 175 known water users on the Rio Grande from Amistad Dam to Falcon Reservoir have failed to file their water claims by the adjudication date and thus become first to have their water rights adjudicated.

Sen. A.M. Aikin, Jr. of Paris and Rep. George Hinson of Mineola were sworn in as Chairman and vice chairman of the legislative committee looking for a more "fair and equitable basis" for allotting state money to public schools.

Job application in Texas reached 69,800 in January, more than double the previous month, reports Texas Employment Commission.

Governor Smith announced that the accidental oil spillage on Pine Island Bayou near Beaumont has been contained.

## 1970 Census District Office Opened Wednesday

At a ceremony Wednesday, Feb. 25, Billy Grimes, a Lubbock letter carrier, cut a length of computer tape, officially opening the district office in Lubbock from which the 1970 Census of Population and Housing will be directed in this area. B.L. McCasland, Manager of the district office explained that computer tape is symbolic of the Census Bureau's modern electronic equipment that will process the data collected in the census.

Others attending the ceremony were: representatives of the civilian, student and military population.

This district office will be headquarters for census operations in the 17 county South Plains area including Andrews, Gaines, Yoakum, Cochran, Terry, Lynn, Scurry, Floyd, Crosby, Garza, Borden, Midland, Dawson, Martin, Hale, Lubbock, and Hockley.

With the official opening Wednesday the active phase of the census gets under way in this census district. Crew leaders and census takers will be selected and trained. Detailed arrangements will be made to enumerate people in institutions, jails, hospitals, colleges, and places other than in homes, all in preparation for April 1 when the actual enumeration begins.

Beginning four days before April 1, mail carriers will leave census questionnaires at each residential mailbox. Each fam-

ily will be asked to fill out its questionnaire and hold it for the census taker. The enumeration of the district is expected to be completed in about five weeks after the census takers begin making calls on April 1.

There are 180 other census districts throughout the country where this method of enumeration will be used. The Census Bureau estimates that about 40 percent of the U.S. Population live in these districts.

There are 212 other census districts in which the remaining 60 percent of the population live.

These districts, for the most part, include the large cities and their suburbs. Households in these districts will also receive census questionnaires in the mail to fill out, but they will be asked to mail them back to the census office in a postage-free envelope that will accompany the questionnaire. No census taker will call at these households from which completely filled out questionnaires are returned.

The Census Bureau says that having the questionnaire in the home for several days gives the family time to assemble information about each member of the household, thus speeding up the census and providing accurate statistics.

## Apply Terraclor Super-X the first time you plant cotton.

Think for a minute what it costs to replant an acre of cotton that doesn't make a stand. There's the cost of seed, fertilizer, herbicides, insecticides, equipment, operators and the precious time. Multiply that by the number of acres you could lose to seed and seedling disease.

Now think about Terraclor Super-X Soil Fungicide. It could very well eliminate replanting. Here's why: Terraclor Super-X is a combination of two Olin discoveries that effectively control the fungi that cause cotton seedling disease.

How important is this to you? The regional Cotton Disease Council reports that losses average \$60,000,000 a year to seedling diseases alone.

Terraclor Super-X is applied while you plant. Your cotton seed is surrounded by protection in the furrow, where it counts. As the seed germinates and the seedling emerges, the fungi that kill un-

protected plants are held off by Terraclor Super-X. You get a healthy, vigorous stand from only one planting.

About seed treatments: They are great... as far as they go. But seed treatment protection lasts only until the seed coat opens and the seedling grows into untreated soil. That's when you need Terraclor Super-X in the furrow.

Terraclor Super-X is available from your Olin dealer in three formulations: granular, liquid and dust.

A special formulation is available with a quality soil systemic insecticide impregnated in the granules for combination fungus and insect control.

If you don't know your local Olin dealer, write to Terraclor Super-X, P. O. Box 991, Little Rock, Ark. 72203 for his name.

You ought to get to know him. He can help you get a good stand from only one planting. That's one good reason he is known as the rare bird in the business. Olin

## WILSON LIONS VOLLEYBALL TOURNAMENT GREAT SUCCESS

The Wilson Lions Club would like to thank everyone who participated in their volleyball tournament last week and helped to make it successful. The Lions, their wives, the teams entered and those who came to watch the playing all helped toward the success.

The winning teams in the men's division were: first-Prather Tatum Brothers Elevators, Tahoka; third-Eddies Service Station, Anton. Winning in the women's division were: first-Nelson Pharmacies, Brownfield; second-Carnation House, Slaton; third-Sockets, Tahoka.

## BAND STUDENTS PLACE HIGH IN CONTESTS

Several Wilson Band students participated in the solo and ensemble contest held Saturday in Plainview, and three placed high enough to enter competition in the State Contest to be held in June.

Suzi McCormick won a first on a Class 1 solo, flute and a first on a Class 1 solo, piano, qualifying her for the state contest.

Kay Herzog placed first in Class 1 piano solo, and first in Class 3 clarinet. She will be eligible for the state piano contest.

Karen Hobbs placed first in Class 1 saxophone solo, and will go to the state contest.

Beverly Hobbs placed first in Class 3 solo, clarinet.

Susan Sanders, Terri Steen, Steve Meador and Karen Hobbs

placed first in Class 3, Sax Quartet.

Wilson is a small school and seems very lucky to have Coy Cook as their band director. His teaching ability and encouragement to students to participate and work toward the UIL contests have brought many honors to Wilson students, as well as to the school itself.

## SPORT NEWS

Last week was a very busy week around WHS. The week started off with an exciting donkey basketball game on Tuesday. It was sponsored by the Athletic Department and the proceeds go toward the purchase of a Universal Gym Set. The game was enjoyed by all that attended and the riders will remember it for a long time.

After waiting a long time and continuously asking the coaches about them, finally, Friday, the boys received their well-earned football jackets. The boys will welcome cool weather this week so they can show off their beautiful all-leather jackets.

The annual All-Sports Banquet was held Friday evening. The Master of Ceremonies for the occasion was Dee Bowman. Awards for basketball and football were given at the banquet. Coach Joe Downey gave the awards in girl's basketball. Karla Moore got the award for the most points and Quana Ortega got outstanding basketball player. Coach Terry Harvick then announced the boys basketball awards. Brad Moore received the high pointer award and Ronnie Anders got outstanding basketball player. Coach Al Mitts distributed the football awards.

Basketball season has come to a close and they've done a great job. Good luck in track season.

Mr. and Mrs. F.A. Wyatt had as their guests Sunday, Mr. John Anderson, Mr. and Mrs. Bart Anderson of O'Donnell and Johnny Anderson of Lubbock.

Receiving the high scorer award was Steven Breiger and Frank Lopez got the "Fighting Heart" award. After a good meal and fine entertainment by Karen Hobbs and Suzi McCormick, the sports fans welcomed John Niland, a Dallas Cowboy, as guest speaker. Following the banquet, Mr. Niland gave his fans autographed pictures.

Thursday, Friday, and Saturday was also a "B" team tourney in O'Donnell. Thursday Wilson's 'B' boys defeated

New Home 50-35. High pointers for this game were Danny Crowson with 23 points and Danny Trotter with 14. Again Danny Crowson was high scorer with 20 points. Following him was Danny Trotter with 10. The boys won a third place trophy in the tournament.

The "B" team girls also went to the tournament. Thursday Wilson tipped O'Donnell 19-15. Cathy Coleman with 9 points and Rene Kahlich with 8 points were high pointers. Friday, New Deal outfoxed Wilson 26-23. Again Cathy Coleman led the girls with 17 points. Terrie Steen was next in line with 6 points. Saturday, in their final game, Sands sneaked by Wilson 39-27. The Wilson "B" team girls also won a third place trophy.

cleared \$40 more per acre  
with Coker 4104 last year.

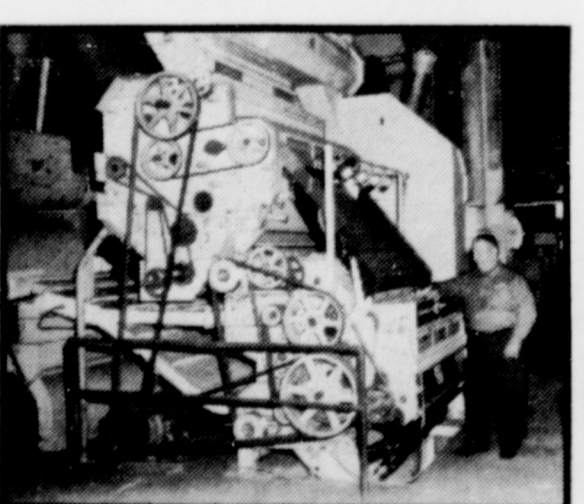

**He'll double his Coker  
acreage this year!**

Bill Weaver, Manager, Weaver Gin Co., Lamesa, Texas.

Bill Weaver is the well-known manager of the Weaver Gin Company at Lamesa, Texas. Like many big-acreage planters in the Southwest, he's an enthusiastic booster of Coker 4104 because it makes more money for him than other cottons. He says,

"I made a quarter-bale more per acre on Coker 4104 and got 200 more points for it than the next closest cotton I planted. This amounted to \$40.00 an acre more from the Coker 4104... on 1,000 acres, all dryland, no irrigation. I'll double my acreage of Coker 4104 this year."

Bill Weaver at one of his gin stands—a familiar sight to growers in the Lamesa area.

### Works for improved markets

"I went to the spinning mills with a group of West Texas cotton growers and ginners, and Mr. Robert R. Coker, President of Coker's Pedigreed Seed Company. We went to show the mill people just what we can grow and how we will grow it. I think this approach adds to the confidence they have in our cotton. In fact, it already has. Our Coker 4104 brought a premium this year, and I understand it is really spinning well. So, interest is gaining and spreading through all the mills. This lint block program from certified seed is a step in the right direction to regain some of our lost markets, too."

Coker 4104 is a high yielding, early maturing, long-staple stripper cotton. It combines good wilt tolerance and above-average fiber quality and mill performance.

## The all-new Firebirds are here.

### There are four. Why?

People have different ideas of what a sports car should be. Incorporating all of those ideas into one car is equivalent to putting an elephant's trunk, a camel's hump and stripes on a giraffe. You end up with a creature that doesn't do anything well.

So... four Firebirds.

Firebird (1). An economical sports car.

Firebird Esprit (2). A luxurious model.

Firebird Formula 400 (3). The Firebird built for drivers.

Firebird Trans Am (4). Our ultimate.

Four distinctly different Firebirds for drivers who agree on only one thing. A sports car.

### Comfortable seating for four. Period.

Three have always been a crowd. Especially in the back seat of a sports car. So the new Firebirds have two bucket-type seats in back. Plus two bucket seats up front.

Four comfortable passengers, each in an individual seat.

### And a more comfortable ride.

The rear seats gave us room to raise the drive tunnel between them. Which gives the suspension room to travel when you hit a bump. Which, in the Firebird and Esprit, produces a ride that many a full-size sedan would be proud of.

Formula 400 and Trans Am don't have it quite as soft. Enthusiasts like a stiffer ride. Stiffer springs and shocks provide it.

### A ride is nothing without quick handling.

We didn't compromise handling a bit. We made the Wide-Track wider. Made fade-resistant front disc brakes standard. And for improved cornering, we installed stabilizer bars up front.

And added rear stabilizer bars to Formula 400 and Trans Am.

### Engines to match.

If you read our descriptions of the four Firebirds, the engine lineup makes supreme sense. The basic Firebird has a 250-cubic-inch six. Esprit—a 350-cubic-inch, regular-gas V-8. Formula 400 has a 400-cubic-inch V-8. And Trans Am features a 400-cubic-inch Ram Air V-8.

### Endura bumpers that absorb bumps.

Pontiac's Endura material is probably

the best thing to happen to bumpers since bumpers. It's a resilient, rubber-like material that looks like painted metal. It resists dings, dents and chips. And it positively won't rust.

A tough bumper. Covering the entire front end of each Firebird.

### The decisive victory of functionalism over faddism.

Instrument panels, for instance. Easy to read. With easy-to-reach controls. We even designed the panels so that any light bulb can be changed in 60 seconds. By you. Without lying on the floor.

But you'll undoubtedly want to find out for yourself. Please do. At a Pontiac dealer's. Then you'll know our "beginning of tomorrow" claim is more than a boast.

## The Lion's Line

March is said to 'Roar Like A Lion' and nothing could be truer when it comes to the Tahoka Lions Club. The Club is off and 'roaring in the district 2T2 Contest. Points are piling up and many Lions are visiting other clubs as teams to help out the effort.

The reason for the upsurge of activity is the District 2T2 Governor's Trophy, awarded to the top club in the district each year. The contest is run on a point system and projects earn varied amounts. Two upcoming projects will be the sponsorship of an exchange student and a volleyball tournament coming up the last of this month. Several intermediate projects are also outlined, so Tahokans will be hearing from the Lions during March.

Two more outstanding programs were presented at regular meetings during the past

### N.H.S. Sponsored Career Conference

THE National Honor Society sponsored their annual Career Conference Thursday, March 5. Dr. Glen Barnett, Executive Vice President at Texas Tech University was the key-note speaker for the morning. After the general assembly, classes were dismissed for the students to attend three conferences of their choice. Careers represented in the conferences this year were: advertising, aviation, broadcasting, court reporting, key punch, law enforcement, modeling, petroleum, psychology, social work and technical training.

two weeks. Mr. Bill Sharpley, of Goodbody & Company brought news of the Stock Market to the Club on March 18th. Sharpley, a one time Tahoka Coach outlined what he thought the future of the market would be and helped explain some of the terms of Stock to the members. Bill was well received.

Bobby Strait, a new Lion member presented a musical program on Feb. 25th. Bob's jokes kept the audience in stitches and everyone enjoyed his musical renditions. The club is glad to welcome Bob as a new member.

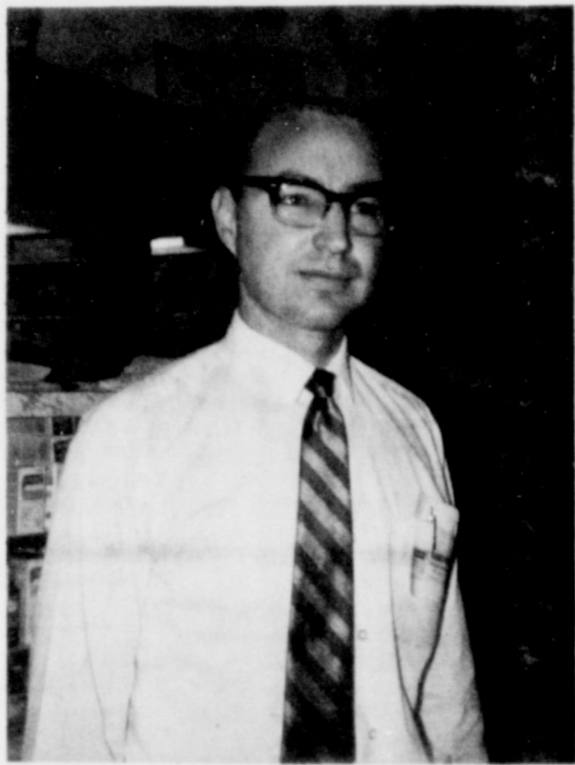

The Lions Club meets Wednesday noon at the Cafeteria, visitors are welcome.

### Dr. Moss To Be Laymen's Speaker

The United Methodist Church will observe Laymen's Day at the morning worship service on Sunday, March 8.

Speaker will be Dr. Basil Moss, Methodist layman and physician, who has resided in Lubbock for approximately thirty-two years. He and his family are active members of St. John's Methodist Church. Being the father of three teenage daughters, he is interested in the youth and teaches a church school class for the Senior High group. Dr. Moss is an outstanding lay speaker and is very much in demand in this area.

Other laymen taking part in the service will be John Wells, Music Director; Jesse Cunningham, special music; Hanev Wells, organist; Southern Wells pianist. Harold Green, local church lay leader, will preside during the worship hour.

# Rotarians Select Jean Flippin As Ambassador

Jean Flippin, news editor of the Seminole Sentinel, was chosen Saturday as the Seminole Rotary Club's 1970 community ambassador.

Her duties will commence in June when she will travel to a foreign country for a six-weeks visit, four of them in the home of a native family. Two additional weeks will be spent in travel around the country.

Her first choice to visit is Mexico, with Chile and Peru alternate destinations.

Final approval of the country rests both with the local club and with Experiment headquarters in Putney, Vt.

First alternate, if she is unable to go, is Gwen Bright, while Mary Jo Smith is second runner-up.

A Tahoka native, Miss Flippin came to Seminole in September, 1968, following graduation from Harding College, Searcy, Ark. where she was a journalism major.

Her parents, Mr. and Mrs. Welch Flippin, farm near Tahoka. She has three brothers.

In Seminole, the 22-year-old editor belongs to the Business & Professional Women's Club, Seminole Music Club, Booster Club, and the Memorial Hospital Auxiliary.

She is publicity chairman for local chapters of the American Red Cross and American Cancer Society. Since July, she has served as sweetheart for the Noon Lions Club.

Spanish is the native language of the three countries she chose. She had instruction in the language in both high school and college.

Asked her reason for putting Mexico first, Miss Flippin replied, "Mexico has more influence on Seminole than any other foreign country because more of her descendants have settled here."

"Also, it is our nearest neighbor, yet we know relatively little about the nation, its economy and potential for the future. Besides," she concluded, "its nearness geographically to us would make it possible for many

local persons, hearing the programs next fall, to visit Mexico themselves and see firsthand what I will be speaking about."

Her participation is part of The Experiment in International Living, a program sponsored for the past 13 years by the local Rotary Club. She is the fourth local resident to be sent to another country.

Vaudine Browne was the Rotary ambassador to Greece last year. Others who have gone from here were Mary Baker to India in 1966 and Dwight Dow to Italy in 1965.

Upon her return, she will be available for talks and slide presentations to various civic clubs and organizations here.

During her stay in Mexico, or whatever country is the final destination, she will send back weekly columns to the Sentinel.

Asked if her selection would change her marriage plans to John Moffatt later this year, she quickly replied, "No—just postpone them a little."

She also expressed her eagerness to represent Seminole to others outside the United States. "Though I'm not a native I've learned to love this city very much in the short time I've been here," she commented.

More details on the ambassador program will be printed as time for the summer trip draws near.

Brown is well known in this area having pastored churches in Texas for twenty five years previous to his entering the field of evangelism. He is a sincere holiness preacher. The church and its pastor extends a hearty welcome to all who attend this meeting. Day services are being planned beginning Monday, March 9 at 10:00 a.m.

## Bill Griffin, County Agent, Says.....

It is time for home gardeners to start planning their spring gardens.

"Most important is to be sure that you have good seed and that this seed is the proper variety for our area," says Griffin.

It is important for the home gardener to determine the family needs and preferences when choosing the types of vegetables and the quantity of each vegetable to be planted. The person planning a garden should also determine what the quantity, price and quality of vegetables in the market will be when he is harvesting the same vegetables in his own garden.

The home gardener should determine if it is profitable for him to plant and care for each vegetable.

Land should be prepared well in advance of planting, this is usually done as soon as the weather will permit.

It is a good idea to put part of the fertilizer under the beds as they are being prepared for planting. This will make the fertilizer readily available when the plants need it.

The precise kind and amount of fertilizer to be used can only be determined by a soil test.

The method of taking a soil test as well as information concerning the seeds best suited for the gardener's own area can be obtained at my office.

In lieu of a soil test, a rough rule of thumb is to use a complete fertilizer (i.e. 12-24-12) at a rate of 300 pounds an acre.

When seeding, it is generally best to follow the directions on the seed package. But because of frequently early rains, a fine mulch such as cotton seed hulls or sawdust should be put over the rows to avoid compaction of the soil before the seedlings emerge.

It is very important to thin plants to the distances recommended on each individual package. If the plant package has been lost or discarded, this information is also available at the county agent's office.

It is very important to control weeds in the garden. This can be done by the conventional methods of pulling and hoeing, but is best done with the use of a mulch around the plants.

Sufficient water is most important for vegetables. Vegetable crops will require approximately 1½ inches of water a week either by rainfall or irrigation.

Above all don't allow vegetable crops to go into water stress. This will seriously affect the quality of the vegetables.

## Garza Junior Livestock Show To Be Held

## Minnie Lou Ash Attends Workshop

Minnie Lou Ash, 2nd grade teacher from Tahoka attended a Cuisenaire Rods follow-up conference Feb. 26 sponsored by the Region XVII Education Service Center.

The workshop, held at the Holiday Inn Parkway in Lubbock, was for area teachers who were provided with Cuisenaire Rods Kits by the ESC at the first Cuisenaire Rods Kits by the ESC at the first Cuisenaire Rods Workshop in Oct.

Cuisenaire Rods are a new teaching method which uses different sized and colored blocks. The rods help students from pre-school to junior high learn

basic mathematical principles.

Sister Alice Hunter, school consultant for the Diocese of Dallas-Ft. Worth and counselor for the Cuisenaire Co., conducted the workshop and gave teachers knowledge for the effective use of the Cuisenaire Rods.

The conference also provided a review of basic procedures in the use of the rods and assistance was given to teachers with specific problems.

## Mrs. Reynolds Rotary Speaker

Disruptive movements underway in an effort to destroy the United States Government and the American way of life, was the subject of a provocative talk made by Mrs. Harold (Connie) Reynolds at Tahoka Rotary Club last Thursday noon.

Most of her remarks were based on a talk by Dr. Fred Swartz of Australia which she heard last summer at a crusades for Christ meeting in California. He credited one Herbert Marcuse, a professor in University of Southern Cali-

fornia as the leader in instigating riots on college campuses, use of drugs, sexual license, obscenity, in fact, a breakdown of all moral standards. Marcuse was for ten years in the Intelligence Division of our State Department.

She hinted we must give more emphasis to teaching morality and Americanism in our schools, churches, and homes.

The pastor Rev. Gene B. Louder offers an invitation to each member and friend of the church to attend these services.

## Tom E. Vestal Receives Award

With U.S. Combat Air Forces, Vietnam U. S. Air Force Sergeant Tom E. Vestal, formerly of O'Donnell, Tex., receives an award upon being named Outstanding First Term Airman of the Year at Da Nang AB, Vietnam. Sergeant Vestal, an air freight specialist, was selected for his exemplary conduct and duty performance. He is assigned to the 15th Aerial Port Squadron. The Sergeant, a 1966 graduate of O'Donnell High School, attended South Plains Junior College, Levelland, Tex. Colonel Joseph C. Secino, 366th Tactical Fighter Wing commander, made the presentation.

"Well, Treflan takes the guessing out of weed control. We all know what the product is and what it'll do."  
 "That's right."  
 "I've compared it to other products in the same field, and Treflan has to be number one."

Let Treflan work for you. Talk about it over a cup of coffee with your dealer or ask any Treflan user. He'll tell you. When you hear it from Elanco, you hear it right.

So dependable, it's guaranteed.

## Past Days In Lynn County

Copied from April 17, 1942

Tahoka Parent-Teachers association, represented by four members at the district convention in session Thursday and Friday at Anson, is making a bid for the 1943 convention to be held in Tahoka.

Those attending from here are Mrs. D.G. Ridge, recently elected president for the coming year, Mrs. A.O. Conley, Miss Nellie McLeroy, and Supt. W.T. Hanes. The president, Mrs. Fred McGinty, was unable to attend because of illness in the family.

The convention is usually attended by several hundred people.

Mr. Hanes, according to press reports, is a member of the elections committee.

Ex-students of Tahoka schools will be host to the 1942 Senior class at a banquet in the gymnasium Friday night of next week at 9 o'clock, according to Harley Henderson, president of the Ex-student organization.

The affair is being arranged by the social committee composed of Mrs. Pete Curry, Mrs. Happy Smith, R.P. Weathers, A. R. Milliken and Mr. and Mrs. Oscar Roberts.

All ex-students, ex-teachers and teachers are being urged to attend the affair. Tickets are 50 cents each.

The West Point people are inviting all their friends to come out and take a shot at their rabbits next Wednesday, April 22. The school house will be the meeting place, and there the good ladies will serve lunch at the noon hour.

Dr. C. Skiles Thomas, who was reared in Tahoka will be married at 5 o'clock this evening, Friday, in Galveston, to Miss Alta Lois Lyons of that city. The ceremony will be at the First Methodist Church, following which the couple expect to take a trip to Monterey, Mex.

The bride is the daughter of Mr. and Mrs. William George Lyons of Galveston and is a cousin of Mrs. Lenore M. Tunnell of this city. She was reared in Galveston, and attended Sam Houston State Teacher College at Huntsville.

Skiles is the son of Mr. and Mrs. C.A. Thomas of Tahoka,

who are in Galveston for the wedding. After graduating from Tahoka High School, Skiles took a pre med course in Texas Technological College. He recently graduated from the University of Texas School of Medicine at Galveston, and is now connected with the Jeff Davis Hospital in Houston, where the couple will make their home.

The couple have the best wishes of many Tahoka friends.

George McCracken came home from Lamesa hospital Tuesday and is recovering from an appendicitis operation performed there last Friday.

Mrs. W.A. Reddell returned Sunday night from a week spent at Chico and Dallas.

Mr. and Mrs. Howard Henderson returned Saturday from a visit of several weeks with their son and daughter-in-law, Mr. and Mrs. Douglas Henderson, in Los Angeles, Douglas is employed as a mechanic in a big aircraft plant there.

L.R. Stevens, father of Roy V. Stevens, who was captured by the Japanese at Wake Island on Dec. 23, reports that he is hopeful of gaining communication with his son some time soon.

The American Red Cross has under way negotiations for an agreement with the Japanese for the communications. Negotiations have also been under way for some time through the Swiss government for exchanging the group of prisoners, including Roy, for Japanese prisoners held here, though hopes are none too bright right now.

Hope for Roy's safety was brightened some a few days ago by press report which claimed that the Americans in Japanese prison camps taken as a result of the raids on Guam, Wake and Midway islands were being well fed, and that as a whole they were in good physical condition. It was claimed that some had lost weight, but that others had gained some weight, in spite of the fact that there was no meat or milk in their diet.

Roy spent two years in Howard Payne College, and a few months in West Texas State. On Aug. 1, 1941 he left San Francisco for Wake Island to accept a job as a dredge operator in the building of the harbor and naval and military base

on that island. Then came the treacherous Japanese attack. The Wake Island defenders held the Japs off for a little more than two weeks, the defenders being overcome on Dec. 23.

According to the best information available, the captives were taken first to Yokohama, Japan and later to Shaghai, Mr. Stevens says.

Congressman George Mahon and other officials have worked faithfully to determine Roy's status, and Mr. Mahon is convinced that Roy is alive since his name has never appeared in any of the casualty lists.

Fishing such as one reads about in the sporting magazines is reported from Lake Salinas, about eighty miles over the International boundary in Mexico, by a party of fishermen who returned from there last Saturday.

The party was composed of Conway Clingan and Jack Applewhite of Tahoka, L.C. Crews of Petty, Fred Edwards of New Home, and Walter Crump of Ropes.

Edwards caught a 7-pound bass, and each of the fishermen brought home with them ten bass each.

Fred McGinty, local farm loan man and former member of the Lynn County AAA committee, was the principal speaker at the Tuesday meeting of O'Donnell Rotary Club. He discussed the new soil conservation district being formed in Lynn County.

Several other Tahoka Rotarians attended the meeting.

## Speech Class To Present Play

THE Speech III class at Tahoka High will be presenting a one-act play "The Trepting Place", March 7. This play will also be given at the UIL District Play Contest on March 9. Mrs. Brannon, speech teacher this year will be directing the play. Those who are in the play are: Mrs. Briggs-Joni McNeely; Mrs. Curtis; Vicky Owens; Jessie; Sheila Tankersly; Mr. Ingodeby; Jiggs Taylor; Rubert Smith; Rex Hamilton; Misterious voice - ??; Lancelot-Frank Barham; Lights Donna Edwards; Back Stage Chairman; Jeanie McDonald; Costume-Vicky Renfro.

PRESENTS PROGRAM. Mr. Bill Johnson (left) and Bill Lane (right) presented the program at the O'Donnell Young Farmers meeting Monday night. Also pictured is James Sanders (center) reporter for the O'Donnell Young Farmers. Mr. Johnson is manger and Lane is salesman for Agri-facts.

## Young Farmers Met Monday Night

Wendell Edwards, O'Donnell Young Farmer President conducted the March 2, meeting. A short business session was held. A good report was made on the recent pancake supper. Harold Sander, Area II President of the Young Farmers introduced Mr. Bill Lane who in turn introduced Mr. Bill Johnson with Agrifacts of Lubbock, Texas. Mr. Johnson gave a very interesting program concerning record keeping for farm people. He said that Dr. Campbell of the Agricultural Economics Department of Texas Tech has brought to this area from Ar-

izona State University, a computerized farm information system using the speed of the computer, the accuracy of double entry accounting, to make cost analysis available at a reasonable cost. It helps the farmer to make important decisions on management and is the best system of its type to be devised. Cost analysis are available on any crop or operation. A year-end comparative analysis is made and the computer groups all farms of similar size, type and location and computes the average of the top 25 per cent farm the average

and the bottom. You are able to compare your farm and make profitable changes. Next meeting will be brought by the Fish and Game Department of Texas. A very interesting film will be shown on fishing. Date for the next meeting will be April 6th. at 7:30 p.m. Visitors and prospective members are welcome.

## Jerry Jolly In Post Auto Crash

City Patrolman at Post, Jerry Jolly, who was injured Sunday night when the police car he was driving struck a telephone pole after he "blacked out" at the wheel, was dismissed Tuesday from the Garza Memorial Hospital.

Police Chief Otis G. Shepherd Jr. said the accident occurred in front of Jackson's Cafeteria on North Broadway while Jolly was escorting a bus load of hippies out of town.

The police chief said the hippies had asked for police protection on their way out of town after trouble with some local youths at a Broadway service Station. Shepherd said as far as he was able to learn the trouble never got beyond the name-calling stage.

Jolly was injured about the face, including a badly bruised mouth and several loosened teeth when the car hit the telephone pole. The police car was heavily damaged.

The police chief said Jolly went to a Lubbock hospital for tests Wednesday, but is expected to be back at work within a few days.

## Contributions Are Coming In For Mrs. Otto Austin

At last report Mrs. Otto Austin was slowly improving. She underwent emergency surgery last Thursday, where they found another blood clot. They did not know if they missed it during the first surgery or if it had recently formed. Last week the News reported \$887.00 and this week we have \$196 for the Austins bringing a total of \$1083.00. Those contributing were Elmer McAllister, \$25.00; Mrs. Edward

Bartley, \$10.00; Mrs. Russ Jones of Lubbock, \$10.00; Hattie McManis, \$20.00; Mr. and Mrs. W.T. Knight, \$5.00; Mary Rumbo, \$10.00; Employees of Farmers Coop, \$21.00; G. W. Grogan, \$10.00; Hamilton Farm and Appliance, \$10.00; C.E. Howell, \$10.00; Mr. and Mrs. Bob Draper, \$25.00; Teddie B. Kelley, \$10.00; W.W. Hagood, \$10.00; Texas Owens, \$10.00.

# Installing Gas Air Conditioning in the Winter is for the

and the Joneses and the Smiths...

and just about everybody who loves comfort and knows a wise move when they see one. Installing gas air conditioning now will allow you to beat the spring rush that always comes with that first hot or dusty day. So, while others are waiting for the overworked installers, you'll be cool, calm and collected...already enjoying the benefits of your winter air conditioning buy. Gas quietly cools your whole house for what you may have been paying to cool two or three rooms before. And, you'll save on repairs, too, because gas air conditioning has no compressor to break down or wear out, and a com-

pressor is a usual source of failure in other air conditioning systems.

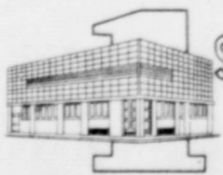

So, join the smart ones. Call Pioneer today and tell them you'd like to find out more about installing gas air conditioning in winter. A representative will tell you just what it will take to convert your present forced air heating system to gas air conditioning. It costs you nothing to get a complete cooling survey of your home or business.

### What's <sup>right</sup>wrong with America

Yes, there are dirty plays, but not one has even approached the performance record of homey "Oklahoma" or "Fiddler on the Roof".

Foreigners are scornful of our ghettos. Yet tens of millions are being spent by businesses to rebuild slums with modern homes, and the median Negro family income has risen to \$5360 a year and the number earning \$7000 has doubled in ten years.

45 percent of Americans attend church and 70 percent consider religion very important.

More Americans finish high school than is true of any other nation, and we're getting ready to improve that even more by special programs (developed in America) for pre-school children. And the number of American adults who continue their schooling even into old age is the wonder of the world.

Book buying has doubled in 10 years — good books.

50 million Americans donate time and 14 billion dollars every year to charity.

And you can add paragraphs of what else is good from your own experience.

All of which makes a pretty good national anthem, doesn't it — a lot healthier than the sorry blues which too many love to sing.

### Redwine Speaker At Baytown

Ed Redwine, Editor-Publisher of the Texas Field Archery News returned recently from Baytown where he was keynote speaker for the Baytown Bow-hunting Club's annual award banquet.

The Baytown Club one of fifty such clubs in the state is unique in that it has all male members. The club is credited with several firsts in the state including the first club to sponsor an 'all deer shoot'.

Redwine said he was impressed with the industry in the area. Baytown is primarily an Humble oil town with a population of 40,000. City fathers estimate the population will jump to over 100,000 after completion of a new USS Steel mill.

Redwine also says we are lucky to live in an area where we still have clean water and air. The Houston ship channel is black and has terrific odor. A constant 'smog' haze lays over the entire Greater Houston area at all times.

Redwine has edited the official archery paper for the past five years.
