FOUND—Pair of spectacles, owner may have same by identifying them and paying for this ad. Call at News Office.

GINNING NOTICE.
During the ginning season the Fuller Gin Co. will gin cotton in Tahoka Friday and Saturday of each week

New Brick Garage.

An addition to the business district of Tahoka now underway is the 50x125 foot brick garage north of the Knight & Brashear store for the Bradley-Massey Auto Co. In an interview with Mr. Massey this week, he informed us that his company would install one of the most complete garages in West Texas.

Mr. Massey says they will carry as complete a line of Ford parts and accessories as the factory puts out. In fact he says that if a man has as much as the running gear of a Ford they will be able to take it and build him a Ford car on it.

This firm will also carry a complete line of accessories for all other standard make cars.

The Bradley-Massey Co., has secured the services of Roy Calhoun of Fort Worth, who has studied nearly two years in the Ford factory at Detroit Michigan, to take charge of the Ford repair department.

G. C. Carnes of Dallas, will have charge of the general repair department. An expert electrician and vulcanizer will also be members of the staff.

The mechanical equipment of the garage will consist of a large engine, dynamo, drill press, milling machine, lathe, etc., besides the different mechanical departments, a large free storage space will be provided. The building will absolutely be of fire-proof construction, brick walls, concrete floor, self supporting roof covered with Texaco Asbestos roofing.

THROUGH OUR MEMBERSHIP

in the Federal Reserve Banking System, we are placed in a stronger position than ever before to take care of the requirements of all our depositors, whether large or small, whether they keep checking or saving accounts; and at the same time to give them the most modern banking service.

which this system gives to your money deposited with us.

The First National Bank Of Tahoka.

Special Service by Laymen at Methodist Church Sunday, 11:00 A. M.

Opening song, "Send the Light" by congregation.

Prayer, J. N. Thomas.

Scripture lesson, D. C. Gibson.

"Foreign Missions, as a soldier sees them," select reading, Miss Emma Barber.

Song, "He Included Me," by congregation.

Address, "God's Financial Plan," J. A. Brashear.

Duet, Miss Meeks and Mrs. Reed.

"Home and Conference Missions," Judge Cain.

"What our laymen can do," R. C. Wood.

Solo, "The Ninety and Nine."

J. W. Lewis Bings In First Bale--Nets Near \$200

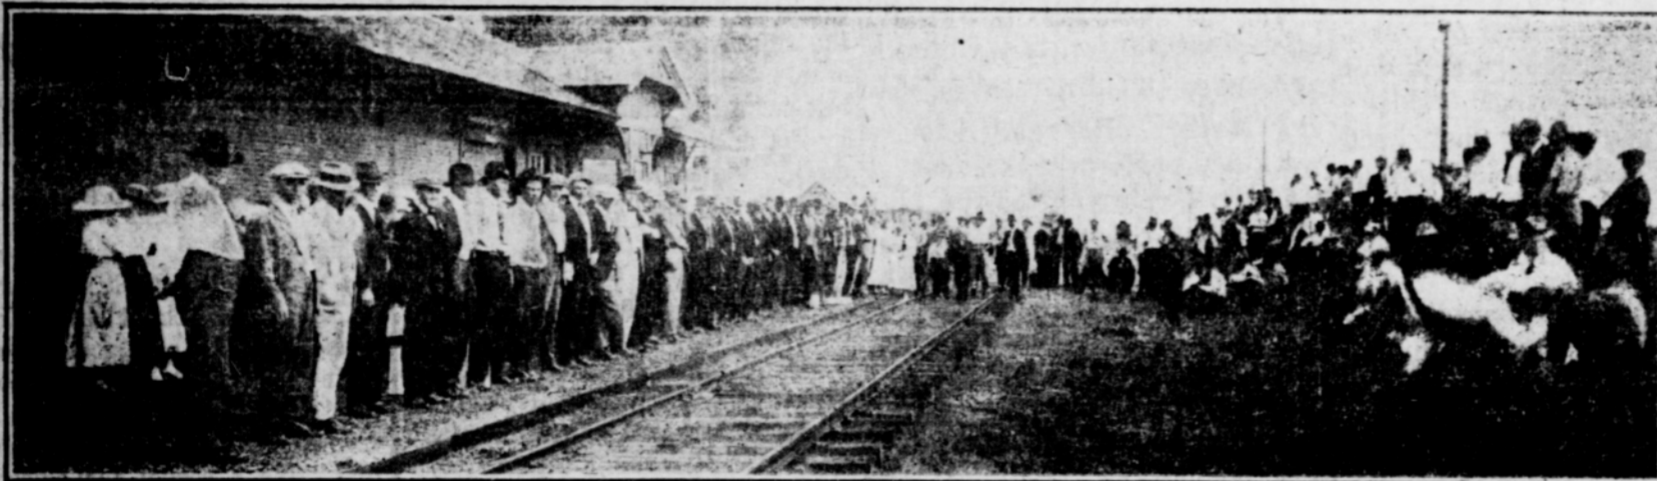

J. W. Lewis of eight miles southwest of Tahoka, brought in the first bale of cotton for the 1917 season Thursday. It was ginned by the Fuller Gin Co., and weighed out 515 pounds for which Mr. Lewis received the round figure of 25 cents per pound, totaling \$128.75. The seed weighed 890 pounds and brought the lump sum of \$25.40, making a total of \$154.15 besides a nice premium of about \$30.00 made up by the merchants.

Geo. J. B. Wright, the plumber and tinner, has just finished the plumbing work in a nice country home for H. T. Gooch 6 miles west of O'Donnell. The house is a 35x60 two story structure and Mr. Wright says one of the best country places in the county.

The Tahoka Camp of the W. O. W. unveiled the monument of Sovereign Pleaz Crouch last Sunday in the presence of a host of friends of the deceased and his wife and parents. On account of the ceremony having been postponed on account of the weather there were not so many Sovereigns present, as the camp would have liked to have had, but there were plenty to carry out the beautiful and impressive ceremony of the order on such occasions. Miss Inez Weatherford rendered the Psalm of Life by Henry Wadsworth Longfellow. Several sacred selections were rendered by a quartett.

"OUR BOYS"

Photo By Mrs. Helbert, Tahoka, Texas

Taken At The Santa Fe Depot When The Boys Lined Up To Bid Good Bye

Above is a picture taken at the Santa Fe depot in Tahoka just after the boys were lined up along the track to answer roll call.

Those who failed to meet the train last Wednesday morning to bid the boys good-bye missed an inspiring occasion, although a sad one.

One enlivening incident of the departure was the presentation of a mascot by Joe L. Stokes. The mascot was a "brindle" pup and was given the name, Joe Stokes, a meal ticket and a tag. Several of the girls and young matrons gave their neck ribbons and hat bands to make red, white and blue streamers for the mascot.

On the same train were seven boys from Lamesa. At Tahoka this bunch was joined by boys from the Panhandle and extra coaches were picked all the way to Sweetwater. There were eleven coaches in the train when it reached Camp

Travis, and carried over five hundred boys.

The names of those from Lynn county were: L. Hubert St. Clair, Melvin M. Bruster, Milton Finch, James O. Patterson, Raymond King, Samuel Park, Samuel O. Burrell, John E. Brewer, David S. Whiteley, Marion G. Bradley, Thomas R. Cowart, Robert Luttrell, Alva P. Selman, Hansford Tunnell, John T. Lewis, Lou E. McCrary, William H. Aten, James E. McDaniel, Kara F. Knight, Terrell H. St. Clair, James B. Keever, Jr., William H. Jackson, Walter R. Ledbetter, John C. Milliken, Aubrey M. Cade, Louis R. S. Dolloff, Anton J. Karlich, John R. Fullford, Hubert Dowell, Ernest E. Larkin, Arthur J. Collier, Claude C. Johnson, Alfred W. Gibbs.

The News was disappointed in that it did not get to publish this list last week, but owing to the local board receiving orders at the last minute for more men, the list was not available for

publication before this week.

A letter from James Keever at Camp Travis to his parents here states that he likes army life well and wishes now that he had joined sooner. He has been assigned a place on the police squad.

Professor Hubert St. Clair has been assigned to the Motor Truck Division at Camp Travis according to a letter received from there.

G. W. King received a letter this week from his son, Raymond, who left last week for Camp Travis. Ray wrote soon after he arrived and had not been assigned to any place.

A letter from John C. Milliken to his brother, Bud Milliken, states that the boys from Lynn county were divided into two squads according to height. The tall ones were put into the mounted police squad and the shorter ones put into the motor truck division.

H. E. Ogden.

Our Conference Collections—what are they? Short address by pastor.

Closing song, "True hearted, whole hearted," by congregation.

Entertain Husbands.

On Friday September 21st the members of the "42" Club entertained their husbands and friends at the Larkin House at eight-thirty. A delicious luncheon was served after several games of 42 were played. In order to stimulate an unusual interest, the gentlemen played against the ladies, the former winning high score. The hall was tastily decorated with flags, palms and flowers.

Marlin Jordan returned Sunday from Amarillo, where he has been employed in a clothing store. His wife returned the fore part of last week. He is now at home at his place in North Tahoka.

ON DRUGS AND PRESCRIPTIONS OF EVERY DESCRIPTION, WE SURELY CAN CATER TO YOU! OUR SUNDRIES ARE BETTER, SO YOU ARE OUR DEBTOR. BE WISE AND BE CASH-SAVING TOO.

Art. 2. Every person, firm or corporation violating Art. 1 of this ordinance shall pay in addition to the tax herein provided pay a fine of \$5.00.

Art. 3. The city marshal is by this ordinance made the collector for the tax herein provided, and he is hereby authorized a license book and shall upon the payment of the tax herein provided issue to the applicant a license showing the kind of privilege, date and amount paid, and shall pay said sum so collected into the treasury of the city of Tahoka, and for collecting said license he shall be entitled to 10 per cent of the amount collected.

Art. 4. This ordinance shall take effect from and after its approval and publication as the law directs.

Approved April 13th, 1917.

Published four successive weeks in the Lynn County News beginning April 14th, 1917.

D. T. ROGERS, Mayor.

Ordinance Regulating the Parking of Automobiles and Providing a Penalty for the Violation Thereof.

Art. 1. Be it ordained by the city council of the city of Tahoka, that all motor cars, motor trucks and all other vehicles driven by gas power shall head in at the curbing or side walks when parking on any of the business streets of the city of Tahoka.

Art. 2. Any person violating this ordinance shall pay a fine of not less than one nor more than \$5.00.

D. T. ROGERS, Mayor.

An Ordinance Providing for the Taxing of Dogs Within the Incorporated City of Tahoka.

Art. 1. Be it ordained by the city council of the city of Tahoka that every person owning or having in possession, running at large within the limits of Tahoka, shall pay to the city marshal or to the mayor of Tahoka an annual tax for every dog or bitch, and shall be required to put upon the neck of such dog or bitch a collar bearing the number of the license received from said marshal or mayor.

Art. 2. It is hereby made the duty of the city marshal to collect the tax provided for in Art. 1, and pay same into the city treasurer, and to keep a stub book showing owner of dog or bitch and number of license.

Art. 3. This ordinance shall take effect from and after its passage and publication as required by law.

Art. 4. Any person failing or refusing to comply with Art. 1,

shall forfeit the right to the ownership and possession of such dog or bitch, and shall be deemed guilty of a misdemeanor and upon conviction shall be fined in any sum not to exceed five dollars.

Passed and approved April 13th, 1917.

D. T. ROGERS, Mayor.

An Ordinance Adopting Certain Articles of the Revised Criminal Statutes of the State of Texas, and Providing Penalties for the Violations Thereof.

Art. 1. Be it ordained by the city council of the city of Tahoka, that the articles of the penal code of the State of Texas hereinafter named is hereby adopted, and the penalty imposed and prescribed by said penal code is hereby adopted by the city council, to-wit:

Articles, 1020, 477, 478, 475, 476, 1013, 1019, 421, 1053, 1423, 1049, 341, 1510, 32, 109, 147, 52, 25, 44, 39, 41, 474, 236, 470, 296, 473, 203, 202, 586, 588, 834, 1240, 575, 563, 1428, 548, 549, 578, 579, 580, 343, 1260, 534, 1034, 1139, 1246, 1242, 1235, 1234, 1228, 712, 713, 714, 715, 716, 508, 131, 471, 345, 814, 839, 1048, 392, 303, 1349, 812, 1424, 1427, 129, 130, 634, 655, 636, 637, 640. Provided that if any of the above articles have been repealed, that this ordinance shall apply only to such articles as are still in force under the penal code of the State of Texas.

Art. 2. This ordinance shall take effect from and after its passage and publication as required by law.

Passed and approved April 13th, 1917.

D. T. ROGERS, Mayor.

Ordinance Creating the Office of City Scavenger, Fixing His Salary and Prescribing His Duties.

Sec. 1. The office of city scavenger is hereby created and his monthly salary shall be \$ —

He shall be appointed by the city council annually and shall be at all times subject to the orders and under the direction of the city Mayor. He shall do such work and perform such labor as is prescribed by said mayor and his contract of employment shall be subject to cancellation by the Mayor at any time upon his refusal and failure to discharge his duty as prescribed by said mayor. It shall be the duty of the city scavenger to report to the city council at each regular meeting the sanitary conditions of the premises visited by him and to report such other work and labor performed by him as pertains to the city of Tahoka.

This ordinance shall take effect from and after its passage and approval as required by law.

Passed and approved this the 6th day of Sept., 1917.

D. T. ROGERS, Mayor.

MAN NOT DESCENDANT OF APE

Scientist Points Out Differences Between Two Which He Defies Theory of Evolution to Explain.

Dr. Mattoon M. Curtis, professor of philosophy in Western Reserve university, protests in a letter to Science against the assertion, still common in current scientific literature, that man is a descendant of the anthropoid apes. He quotes Professor Duckworth, the leading authority in this field, who wrote in his "Morphology and Anthropology": "We must conclude that the existing anthropoid apes, constituted as they now are, did not figure in the ancestry of man."

And he points out some of the fundamental differences between man and the apes, differences which defy any theory of evolution to explain. Among these differences are those in the form of the skulls, the shape of the most ancient skulls that have been found being substantially the same as the shape of the skulls of today.

Professor Curtis pleads that sound science and sound education be based upon actual facts and such theories as grow out of them, rather than upon mere speculations.

CATTLE GET BEST OF GRAIN

Grandparents of Present Generation Were Strong Because They Ate Whole Wheat Bread.

That there is a campaign among the millers of wheat and interests allied to them to discredit efforts to persuade people to prefer whole wheat bread to white bread is asserted by Dr. Charles E. Banks, senior surgeon of the United States public health service.

He says that present methods of milling utilize 75 per cent of the grain, and this is almost exclusively the starchy part; the other 25 per cent, containing the phosphorus, mineral salts, vitamins, etc., is sold by the millers as feed for hogs and cattle. These grow fat on it, for they are getting the best part of the wheat.

Doctor Banks says the diet of white bread is responsible for Americans of today being pale and anemic in youth and fat and flabby at forty, whereas their grandparents, who ate whole wheat bread, were strong and athletic.

DIDN'T LIKE PICKET DUTY.

There is at least one Boy Scout encamped with the other members of his troop in Palisades park who has been disillusioned regarding the glories of camp life, according to a New York correspondent of the Pittsburgh Dispatch. He may later become a soldier, but it won't be because of the glamour surrounding tented life in the wilderness. The Scout's dad is a newspaper man and he detailed his son to take careful note of the activities of the troop and write it up for publication. He obeyed his instructions so carefully that when the first installment arrived at the newspaper office it was mistaken for summer resort news, so voluminous was the text. But everything was there, including even the author's own deeds and misdeeds. "I like everything but picket duty," he finished, "every time we have a chicken to roast, I am detailed to pick it."

THE WAY OF IT.

She—This new writer's style is just killing.

He—I've noticed he murders the king's English.

ONE WAY TO CUT DOWN HEELS

Reform in Women's Footwear Come Through Science, Not Legislation, It Is Declared.

The attempt to legislate high heels out of existence has failed. Women, or rather the shrewd women who make a profit by setting women's fashions, have triumphed. The state senate killed the proposed measure, says the Chicago Journal regarding a bill to limit the height of heels.

It deserved killing. If the shoe of Japan, at the height of the peak of that military regime, could keep women from powdering their faces, it is a fairly safe wager that the feeble executive powers of a state of Illinois would prove unequal to the task of keeping women from walking on their toes. The law, if passed, would have been the dearest kind of a dead letter.

The way to cut down heels through science, not through legislative halls. Take a moving picture of the wabbling, uncertain and ungraceful waddle of the woman wearing three-inch heels and compare it with the free, graceful walk of the woman who has discarded such hobble. Show these contrasting pictures all the movie theaters for a few weeks, and you will accomplish more for rational shoe reform than all the bills the legislature could pass in this and doomsday.

OBSERVING THE BUSY BEES

One Writer Wonders Who By Right Should Be the Teachers and Who the Learners.

Sitting for hours idle in the shade of the apple tree, near the garden hives, and under the aerial thoroughfares of those honey merchants sometimes when the noonday heat was loud with their minute industry or when they fell in crowds out of the late sun to their night-long labors have sought instruction from the bees and tried to appropriate to themselves the old industrious lesson. Pearsall Smith writes in the Nation.

And yet, hang it all, who by right should be the teachers and who the learners? For those peevish, over-toiled, utilitarian insects, was there no lesson to be derived from the spectacle of me? Gazing out at me with their myriad eyes from their joy factories, might they not learn last—might I not finally teach them—a wiser and more generous way to improve the shining hour.

OFFICERS NEEDED FOR SHIPS

The United States is facing a serious problem in the lack of trained officers for merchant ships. In connection the enlargement of state nautical training schools Massachusetts and New York is being urged. Each of these states maintains a school for officers of the merchant service, with a training ship loaned by the navy. The training ships are two obsolete 1,000-gunboats and it is said that many larger vessels are needed. So many ships have been transferred to the American registry since the war that the president has been forced to suspend the law requiring the officers of American merchant ships to be American citizens. As soon as new ships begin to be put to sea a shortage will be more acutely than ever.

SAVING TIME.

Mistress—"Ellen, what are you putting the flypaper outside the house for?" Green Girl—"S'ma'am, it gets filled up quicker on this side."

Western Telephone Co. Making Improvements

Stanberry Alderman of the Western Telephone Co., who is in this section superintending construction work for the company, was a caller at the News office Thursday, and made the statement that his company had just received a couple of cars of poles which were unloaded at Brownfield Monday morning and that their new toll line from Tahoka to that place will soon be completed. In fact the poles are within about five miles of Brownfield now.

The new toll line from Tahoka to Post City has been completed as far east as Grassland, and that exchange was connected up Monday of this week. This line will not be completed to Post for some months yet owing to certain legal procedure that will have to be settled to secure a right-of-way.

The Western Telephone Co., also expects in the near future run another circuit from Tahoka to Lamesa and from here to Slaton.

This summer the Company purchased the east lot in the G. M. Clayton block, just across the street west from their present location, and in the very near future will erect a 40x100 foot one story and basement building of interlocking tile on their property. The basement will extend four feet above ground, and the building will be of absolute fireproof construction. Very little wood will be used, and what there is will be flame proofed. That is it will be chemically treated so that when a flame is applied to it it will char thru without blazing. All interior wood work and furniture will be treated in this way. Mr. Alderman stated that the plans for this building were already in the hands of the officials of the company.

Many other minor improvements are also slated for this exchange. Mr. Alderman stated that the company was not building with a view to the present, but on an estimate of what the needs of Tahoka will be ten years hence.

The Western Telephone Co., closed a deal this week, whereby they become owners of the O'Donnell Telephone Exchange, formerly owned by W. F. Shook of that place. Mr. Shook intends returning to Runtells county where he has landed interests. This exchange will be thoroughly overhauled and placed in first class condition.

The Editor of the News is in receipt of a complimentary ticket and invitation to attend the Northeast Texas Fair at Pittsburg, which is reputed to be the second largest and most unique fair in the state. The above was enclosed with a very nice letter from F. M. Maddox, Secy-Mgr. of the fair, brother of our efficient county attorney, B. P. Maddox.

Mr. Pester—Don't you think I'm entitled to my place in the sun?

Mrs. Pester—Yes, you can go right out and mow the lawn.

ANSWERED UNDER PRESSURE.

Alice—What did you say when he asked you if you loved him?

Edith—I refused to answer at first, but he squeezed it out of me.

"Does your cook help you to economize?"

"She is such an epicure herself that she compels us to economize."

REPEATING AND AUTOLOADING SHOTGUNS

If there is any one thing that a sportsman demands of a gun or a shell it is that it shall give him the full advantage of his skill.

The further along he gets in the game, whether at the traps or in the field, the surer he is to swear by Remington UMC—both in guns and shells.

Remington UMC guns work quicker than any man can aim, and shoot closely and evenly—"Arrow" and "Nitro Club" steel lined "speed shells" (smokeless) cut down many a bird that would have gotten away from any of the slower makes of shell.

THE REMINGTON ARMS UNION METALLIC CARTRIDGE COMPANY, Inc.
Largest Manufacturers of Firearms and Ammunition in the World
Woolworth Building, New York

According to dispatches in the Thursday Dailies, the remainder of the registered men will be examined and their cases disposed of as soon as the first increment of the new National Army is settled in the training camps. It is estimated that it will take about four months to complete the examinations. 25 per cent of all men examined for the first increment were discharged on physical disability; 50 per cent were exempted on various grounds and the remaining 25 per cent were certified for service. In other words, of every four men called for examination, one was certified for service.

Mrs. R. C. Buckner, wife of the President of Buckner's Orphan Home, died Tuesday afternoon in Dallas, and was buried in Oakland cemetery Wednesday.

C. S. McNeely of Bell county, nephew of W. S. Swan, is in Tahoka this week looking after a land deal. Mr. McNeely says that we are not any worse off here than Bell county is, in fact we have one advantage that they haven't—spring rains will make some grass to help our farmers thru till the crop is gathered, while their pasturage is extremely limited.

Saturday September 22nd, under the direction of Judge Maddox, the temporary organization with Mrs. Ramsey as president, and Mrs. Maddox as secretary, was made permanent.

She—The girl who can sing and won't sing isn't as bad as—

He—The girl who can't sing, but insists upon singing anyway.

JAPAN'S SHIPBUILDING.

Nowhere, perhaps, is the effect of the war upon Japan more patent than in her great naval yards at Yokosuka; nowhere does the strength and magnitude of her ambitions find more cogent demonstration. The possessors of an island empire, the statesmen of Japan have not been slow to recognize the value of a strong navy and a powerful and numerous mercantile marine. Under a system of shipbuilding and shiprunning bounties, her merchant shipping has made huge strides; and the advocates of state aid, in return, under certain circumstances for state control, may point confidently to the successful transportation of troops in time of war in justification of their policy.—New York Telegram.

Three Tahoka Doctors Go To Training Camp

Drs. L. E. Turrentine, E. H. Inmon and E. B. Gilbert received orders Friday of this week to report at Fort Oglethorp, Ga., as soon as possible to enter training at the Medical Reserve Corps training school at Camp Greenleaf.

The doctors will probably have their affairs arranged to leave Wednesday when the last of Lynn county's quota leaves for Camp Travis. The doctors rank as First Lieutenants in the Army and after three months training will take examinations to enter the regular army.

Drs. Inmon and Turrentine have arranged with the News to carry their card at the top of the professional column during their absence, and to follow them with the News. The doctors state that barring event-

ualities, they expect to return to Tahoka and resume their practice when the war is over.

These gentlemen will be missed from the professional ranks of Tahoka, and it is with regret that we see them go, but our country has called and they have answered. We wish them all success in their new field.

Drs. Inmon and Turrentine have been associated since they were fifteen years of age, having graduated from high school together, attended another school and later graduated in the same class in medical college. Should the war department assign them to different units it would interrupt an association of some sixteen years standing.

JAWING.

Mr. Peewee—I suppose you're very much annoyed by me.

His Wife—I never allow myself to be annoyed by trifles.

Bevo
A BEVERAGE

Put on the Bevo Glasses when you set the table for the bite you've prepared for the guests of the evening. As a suggestion for a dainty lunch: Cream cheese and chopped olive sandwiches (on brown bread), Lill pickles, Shrimp salad, Ice cold Bevo.

Itself a nutritive drink, Bevo makes an appetizing and delightful addition to any meal—hot or cold, light or heavy.

Bevo—the all-year-round soft drink.

J. L. VAN NATTA, Sec'y. and Mgr.,

AMARILLO

B. F. Montgomery received a letter from both his sons in the navy this week. Both are well and like their places. Carl is studying wireless telegraphy and will remain in the school at the Great Lakes Naval station for possibly three more weeks, after which he will be sent to Harvard University to complete his studies. Attending Harvard has been one of Carl's highest ambitions, and he says that the only thing now that worries him is the possibility of the war being over before he gets to cross the pond.

A letter received lately from Raymon Ramsey, eldest son of our fellow townsman, S. S. Ramsey, states that he has been advanced during the four months of his enlistment to a position that in peace times takes from eighteen months to two years to reach. He is instructor in pharmacy with the rank of lieutenant.

J. L. Click is busy this week placing the boiler for the power plant for his gin.

The West Texas Gin Co., recently installed a larger engine at their gin here. They do not expect to do much this year, but J. K. Campbell the popular manager says that there will be plenty to do next fall and he thought he might as well do his fixing up while he had the time.

J. C. May, who has been in Mississippi for the past ten days visiting his parents and friends returned Sunday. J. C. has been posted for service, and while he has not received orders to report for the next quota, he wanted to make sure of a visit home before he was called.

Born to Mr. and Mrs. W. O. Roberson, a fine girl on last Friday morning. Both mother and daughter are doing fine.

J. Q. Roberson of the northwest part of the county was in Thursday with a load of watermelons raised on his place. This is the second load of melons Mr. Roberson has marketed this month. He says there will be a small surplus of feed raised in his community.

The Bullock Auto Co., of Lubbock, agents for the Buick cars shipped a car load of these machines to Tahoka Wednesday of this week and drove them to Lubbock. This firm made the shipment here to hold this territory. Dr. L. E. Turrentine drove one of the cars to Lubbock from which place he went on to Hereford to visit his mother. Dr. Turrentine is enlisted in the Medical Reserve Corps and is daily expecting orders to report for service, and took this opportunity of paying his mother a visit before he goes to the front.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctor pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surface of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O Sold by Druggists, etc. Take Hall's Family Pills for constipation.

TO AVOID A COAL SHORTAGE

We are laying in a large supply of **High Grade Coal**, but we can not stock enough to carry the **Country thru the Winter.**

DO YOUR "BIT"
lay in **your** winters supply **now** when you can **buy for less money**, and help us avoid a coal shortage this winter.

Taffic will be hindred and the output of the mine's will be LESS.

Place your order **NOW**

OLDER MEN TO GET CHANCE

Enlistments in Army and Navy Have Shortened Supply of Younger Workers in Country.

The man of forty-five, it seems, is through the war, going to have another chance. Enlistments in the army and navy have shortened the supply of young men available for industrial work and when the draft becomes operative the shortage will be further accentuated, says the Indianapolis News. So industry is beginning to look to the "old men" of forty-five, or so, whom "efficiency" has recently barred from employment. The Pennsylvania railroad, which for years has favored the young man, announced a few days ago that the bar against men more than forty-five was down and that they would until the end of the war be welcomed as applicants for employment. Other corporations have taken similar steps and the prospect is that many more will be obliged to do so. Men of forty-five, if in good physical condition, feel and usually have a reasonable basis for their attitude, that they are just a little bit fitter than they ever were in their lives before. To be barred from any employment merely on account of having arrived at the prime of life has unquestionably struck them as an unjustly discriminatory proceeding. The attitude of some employers was all the more difficult to understand because tests made showed that men of middle life were equally if not more capable than youngsters in any ordinary task set before them.—Indianapolis News.

A QUEENLY ACT.

A very pretty story is related of the queen of Denmark. King Waldemar and Queen Marie are good skaters, like most Danes, and one day when, after a long skate on the ice, they stopped to rest, they noticed a little boy who was vainly trying to put on his skates. On seeing the royal couple, he took off his hat and said: "Oh, Queen Marie, can you not help me put on my skates?" The royal lady smiled, knelt down on the ice and firmly fastened the straps round the boy's ankles. That was a gracious act and meant more than a similar act in this country.

Pains, Dizzy Spells

Mrs. G. P. Cartwright, of Whitwell, Tenn., writes: "I suffered with bearing-down pains. . . The dizzy spells got so bad that when I would start to walk, I would just pretty nearly fall. Was very much run-down. I told my husband I thought Cardui would help me. . . He got me a bottle. . . It helped me so much that he got me another bottle. I got a whole lot better. The dizzy spells and the bearing-down pains . . . left me entirely."

If you are weak and run-down, or suffer from womanly pains,

TAKE

CARDUI

The Woman's Tonic

You can feel safe in giving Cardui a thorough trial. It is composed of mild, vegetable, medicinal ingredients, recognized by standard medical books for many years, as being of great value in the troubles from which only women suffer. The enthusiastic praise of the thousands of women who have been helped by Cardui in its past 40 years of successful use should assure you of its genuine merit, and convince you that it would be worth your while to try this medicine for your troubles. All druggists sell it.

Try Cardui
