Our Home County

(By Phebe K. Warner)

"It takes a heap o' livin'" in a county to make it home. But one thing sure, the more you live into your county and the more you love it, for your county the better you love it. You cannot learn to love a county moving from one to another every few years any more than you can learn to love a home and move every few months. It is not so much what folks do for us that binds us to them as what we do for folks. It is the things we do and sacrifice for a person or a cause that makes us love them most. And this is just as true of our home county as it is our home folks.

You have to stay with the cause; you have to work for it and sacrifice for it and suffer for it to really love it. That is why our old pioneers are such loyal citizens. That is why they are such proud citizens. That is why they are such jealous citizens of the honor and rights of our country. Just as "rolling stone gathers no moss," neither does a roving person gather a high degree of love and patriotism for any special spot called home.

But there is another feature that binds us all to our home county more than anything else and that is TO OWN a little bit of it. To own a few acres in your home county gives a fellow a feeling that he not only belongs to his county but a portion of that county, more or less, actually belongs to him. And you know what the Bible says about our treasures. That wherever our treasures are there will be our heart also. That's it. That is why every man and every citizen of every county and State ought to own at least a city lot, a town block or a few acres of the soil of his county.

What do you suppose would be the effect on the development of your county if every citizen in it owned at least enough of its soil to lay the foundation of a home? It is owning your own home in your own county that generates county spirit. It is owning the virgin soil, planting the first tree, building the first fence and the first little shack called home. Then year by year plowing a fortune out of that soil and building a better

home. And while the flowers begin to bloom around the doors and the trees begin to bear fruit and the children! There is nothing that so sanctifies a place as when it becomes the birthplace of the children. How we hate to sell it and move away after that. And how the children look back through all all their lives to the old home and the home county where they were born. And what a joy it is through the years of life when they meet in other counties and other States if the whole family has had the same birth place, in the same home, in the same county, grown to manhood and womanhood in the same community, gone to school in the same little school house, had the same playmates and schoolmates, attended the same Sunday School and gone to the same parties. That is what holds families together in spirit if not in body. That is what makes them love the old home county. That is what breeds patriotism and loyalty for home, town, county and country.

And we of the West, who have planted our first homes in this big, new country, have the opportunity to build just such homes and counties and citizenship if we will be satisfied to get us the nucleus of a home and hold it and stay with it until we rear every child in the county to love his home county.

Oh "it takes a heap o' Livin'" in a county to make it home. There are houses and barns, fences and roads to build. There are schools and churches, communities, towns and cities to build. There are orchards to plant and prune, crops to cultivate and harvest year after year; floods and failures, drouths and storms of every kind to bear. And if we would live our best and do our best to make our county the best place in the world to live and rear our family, there would be a constant demand for the investment of our lives and our means. But when our day is done and the evening shadows gather, the crowning glory of the sun set will be the consciousness that we lived not alone for self—but we gave our best to the old home county.

S. H. WINDHAM SHIPS CATTLE TO KANSAS CITY

It makes no difference where you go, good cattle will attract attention and a big lot of them will attract still more.

S. H. Windham, of Tahoka, Texas, arrived at the Kansas City Stock Yards September 27th with sixteen car loads of Hereford stockers from his Texas ranch. These cattle drew the attention of many buyers and Margrave Bros., big feeders of Preston, Nebraska, soon had the whole lot on the way to the scales. In the lot were 612 head. They averaged 620 pounds. It is mighty hard to get 600 cattle that will average the same size and weight. These were the '77 brand Herefords.

Margrave Brothers will feed them on their farms near Preston, Neb.—Kansas City Stockyards Daily.

Surprise Birthday Dinner

On last Friday, Mrs. G. T. Brewer surprised her husband with a birthday dinner, Mr. Brewer having reached his 64th mile stone on his life's journey.

Those present to enjoy the special occasion, were Messrs. and Mesdames J. S. Wells, Ed Brewer, Claude Wells and Rev. and Mrs. J. M. Doshier.

Mr. and Mrs. T. H. Sears, of Lubbock, spent Sunday with the Larkin and Smith families in Tahoka.

Mr. and Mrs. R. J. Lowry and Mrs. G. M. Stewart made an overland trip to Sweetwater and Roscoe the first of the week.

A. W. White, formerly of Tahoka, now residing in Los Angeles, Cal., came in the latter part of last week to look after his land interests in Lynn county. Mr. White is still interested in the South Plains country and always puts in a good word for West Texas. We are always glad to have Mr. White pay us a visit.

B. J. Leedy, the sign painter and interior decorator, left Saturday for Dallas, where he has the job of decorating the Terry County agricultural exhibit. Jake decorated the Terry booth last year and carried off a premium. He is an A1 decorator and Tahoka is proud to claim him as a citizen of our town.

Jack Blankenship, of Plains, Yoakum county, spent Sunday and Monday here visiting with his sister-in-law Mrs. R. L. Davidson. He brought two of his daughters over to enter the Tahoka High School during the 1922-23 term. Mr. Blankenship reported the range in Yoakum as being a little dry at this time, but cattle were in good shape at this time.

Mr. and Mrs. Charley Doak left Tuesday of this week for Abilene and Dallas to consult specialists in regard to Mr. Doak's health.

"May I Borrow \$1,000?"

The bankers of this town are able to loan money for worthy enterprises because the banks have kept safely various sums you and I have deposited. But the church is the real custodian of the funds of every bank.

Big policemen with brass buttons do not protect money if thieves want to steal. Surprise examination of books, steel bars and time locks are unavailing if men determine to be dishonest. The church implants the desire to do right. No morality can long exist apart from religion.

If you would support the best interests of this community, relate yourself to the churches. Why not adopt a church home now?

What Every Business Needs...

Is it wise to attempt to solve all your business problems without the unbiased advice of a strong and experienced friend? This Bank has a long history of service to the business interests of this community.

Never has its broad experience and intimate knowledge of local and national conditions been more helpful to its commercial clients than in this year.

HIGHWAY CRISIS IS NOT REALIZED

Highway Association President Says Organization Needed to Waken People.

Waco, Tex.—The chief reason Texas is still without adequate highway laws, and is now threatened with a discontinuance of Federal aid unless those laws are modernized, is that the facts have never been properly presented to the people, in the opinion of W. V. Crawford of this city, President of the Texas Highway Association.

And the chief reason for this is that there has never been the proper organization to perform this task, he declares.

"The people cannot be expected to comprehend the highway situation unless somebody places the facts before them," says President Crawford in a statement just issued. "And placing such a question before the people of a State the size of Texas is a big job. That job can be performed only by means of organization, and organization on a scale in keeping with the size of the job. The Texas Highway Association has been organized to undertake this work and it has tackled it with no illusions as to its size. We know it is a big job, that it will take work and money to get the information to the people. And we know that it will require the co-operation of everybody who is alive to its importance. We need the co-operation of the newspapers, of chambers of commerce and other civic bodies, and most of all we need the co-operation of individual citizens who want to see Texas go forward and not backward. We want every such citizen to join the association."

Jno. S. Powell, local decorator, will again have charge of the assembling and arrangement of the Terry county exhibits at the South Plains Fair at Lubbock. He was in the Herald office one day this week and informed us that at least two prominent counties are making big talk that old Terry will not get the top place at Lubbock this year. Jno. S. says if they go ahead of old Terry, they will at least know they have been to a fight.—Terry County Herald.

"Old Terry" lost out this year, Stricklin, and we sure do "hate" it because Lynn won out over "old Terry," and Lynn county must have been one of the counties that was making big talk that you wouldn't get there this year. We had the decorator, in the person of Mr. B. J. Leedy, and you are bound to agree with us for Jake is now at Dallas placing the fine trimmings on old Terry's booth. You may be consoled in the fact that you did not go plum foot, for Dawson and Garza were below you in points. Locate in Lynn county.—"The land of plenty."

A NEW TYPEWRITER

A new typewriter has been invented, with 22 more keys than are on machines now used. The keys print such words as "the," "was," "are," "and" etc. The inventor claims that these 22 words, on the average make up 32 out of each 100 words used in typewriting correspondence. Conversation is becoming a lost art. Letter writing already is.—Amarillo News.

As to personal liberty, we understand that a man passed through this country from the Denison section bound for Old Mexico, the land of many revolutions, and where if they are dissatisfied with the election of their senators, they forthwith start a fight, where the sojourner claims there exists personal liberty. He said that he was out of work in the Denison country and the klu kluxers took him out and gave him a whipping and told him to go to work. The next day he got a job scabbing in the railway shops, and the next night the union men took him out and whipped him out of him. He said he was bound for Old Mexico where there was some personal liberty.—Ex.

SENATOR WALSH SAYS SOLDIERS ENTITLED TO BONUS

Columbus, Ohio, Sept. 30.—Senator David I. Walsh, of Massachusetts, chairman of the Democratic National Senatorial committee, in an address last night before state Democratic organization leaders, flayed acts of the present administration.

The tariff law, he said, will extort \$5,000,000,000 from consumers and put it in the pockets of the tariff barons. It will make prices so high that even business will be against it. "But the administration would not permit a soldier bonus because those who will profit by the tariff would have to pay the bulk of the bonus. In my opinion soldiers have a right to adjusted compensation. The Government has a right to draft men to be shot at, but the Government has no right to reward the stay-at-homes and punish those who fought. That is what it has done. It paid bonuses to contractors whose contracts were cancelled at the end of the war, paid bonuses to railroads, paid bonuses to civilian employes during and after the war, but won't do so much for the soldiers."

IS YOUR HEALTH GRADUALLY SLIPPING

Interesting Experience of a Texas Lady Who Declares That Women Knew About Cardui They Would Be Spared Much Sickness and Worry.

Navasota, Texas.—Mrs. W. M. Peden, of this place, relates the following interesting account of how she recovered her strength, having realized that she was actually losing her health: "Health is the greatest thing in the world, and when you feel that gradually slipping away from you, you certainly sit up and take notice. That is what I did some time ago when I found myself in a very nervous, run-down condition of health. I was so tired and felt so lifeless I could hardly go at all. "I was just no account for work. I would get a bucket of water and would feel so weak I would have to set it down before I felt like I could lift it to the shelf. In this condition, of course, to do even my housework was a task almost impossible to accomplish. "I was . . . nervous and easily unset."

I couldn't rest well at night and just lifeless. "I heard of Cardui and after I decided I had some female trouble was pulling me down. I sent for it and began it. . . . "In a very short while after I had Cardui Home Treatment I saw improvement and it wasn't long before all right—good appetite, strength and much stronger so that I could house work. "Later I took a bottle of Cardui. I can recommend Cardui to any woman who has female trouble. I would save a great deal of worry and sickness." The enthusiastic praise of other women who have found Cardui helpful should convince you that it is worth trying. All druggists sell it.

TAHOKA IS MARCHING ON

Special to the News:

West Texas is a country
Where the biggest hearted men
Are working out the problems
Of a great and mighty land
Our door is ever open
And the hand of welcome there.
Tahoka is marching on.

Chorus

Glory, glory, hallelujah!
Glory, glory, hallelujah!
Glory, glory, hallelujah!
Tahoka is marching on.

There are many ways to reach us
By the highways and the rail
The auto is a blessing
But the steam cars never fail
The wagon hosts are coming
While others come afoot
For Tahoka is marching on.

Chorus—Repeat.

The soil is every ready
And the rains have met the need
And mother earth is calling
For the planting of the seed.
The blossoms ad the fruitage
Will rejoice the heart of man
Tahoka is marching on.

Chorus—Repeat.

A grateful prayer went up to God
When water filled our lakes
The future is assured us
And no other plans we'll make
Our city is the footstool
Of the great and mighty throne
And Tahoka is marching on.

Chorus—Repeat.

Hard times have bidden us adieu
The day of joy is here.
Let's all rejoice together
In the promise of the year
The winds of March have blown the
clouds
And cleared the atmosphere
And Tahoka is marching on.

Chorus—Repeat.

West Texas Fair'll be bigger
Than it ever was before
The horn of plenty'll empty
With a mighty rushing roar
The country round about us
Will be here as ne'er before
To see Tahoka marching on.

Chorus—Repeat.

—Jewell Sargent.

LOWRY'S DRUG STORE
SAYS ITS PAYS TO ADVERTISE

In last weeks issue of the Lynn County News Lowry's Drug Store, of Tahoka, advertised that they would serve free ice cream to all who came to their store all day Saturday. Well, the crowds began to gather at this place of business early, and although some forty gallons of cream had been ordered for the occasion, it was all given away before night. Mr. Lowry, the proprietor, is a strong believer in the use of printers ink, and stated that this one event proved that "it pays to advertise." They report dishing out 1000 dishes of cream and an equal number of cones, Saturday.

THIEVES PICK COTTON
BY LIGHT OF MOON

Paris, Texas, Sept. 29.—Cotton thieves in this county are becoming very numerous and bold of late. Cotton has been stolen from the gins in the bale and from the field in the seed, but L. W. Miller, living near Altus, reports theft of cotton from his field that is out of the ordinary. Miller claims that thieves have picked a bale and a half of cotton from his field, the picking evidently having been done at night, the energetic thieves taking advantage of the bright moon light to pursue their occupation.
