NO. 50

R. F. C. Money Is Being Spent Here

Trail Dust

A "wild man" has been seen near the cave at Newport. It is possible that he is an automobile owner and is just reading the automobile Association of America's survey which shows that the 1932 motor tax reached a higher point than ever before. If he were an average automobile owner the tax on his vehicle would amount to \$45.28, which based on his car's age amounted to 24.4 per cent. If the wild man's cave is large enough it might as well move over for the going to have company.

President elect Roosevelt is to give a fifty thousand dollar bathhouse and also plans the development of Muscle Shoals. As an economy measure we suggest he combine them either one way or the other.

China's Great Wall is to be converted into an automobile highway. That fun the road contractors would have placing detour signs every few miles. But what a problem for filling stations. It should be easy, however, for strangers to find the road.

A newspaper feature writer complains about the price of grapefruit in New York City compared with that in Florida. The Florida grower receives, in a railway dining car in Florida, one paid fifty cents for half a grapefruit for my breakfast, while through the window, I could see large signs at the passing farm houses which read: "Grapefruit 20 cents per dozen." Near the signs were great heaps of choice golden fruit, decaying, because there were no buyers. The railway company received at the rate of twelve dollars per dozen for the fruit. The farmer only wanted 20 cents. Organization among dealers and the sale of it with the producers, is responsible for much of our economic woes. In California I have seen thousands of bushels of luscious peaches rotting under the trees from which they had fallen. Their owners had found it more profitable to let them rot than to sell them from which they had grown than to flood the market. Such organization of wheat, cotton, corn and livestock raisers will be the dawn of a new day for the stockman farmer.

NEW FORD ON DISPLAY IN MATADOR SHOWROOM

The new V-8 Ford, the largest car to bear the Ford nameplate, was displayed for the first time Saturday, Feb. 11, in the showroom of the Matador Auto Co. Among the changes in the new automobile are: Radical change in body design, conforming with the essential lines of higher priced cars, 12 inch wheel-base and 75 horse-power motor. The price of the New Ford is the same as the former model.

MANY HEARD DRY LEADER MASS MEETING ADDRESS AT MATADOR LAST SUN.

CHANGE MADE IN DATE PREVENTS MANY IN HEARING TALK

Dr. J. D. Sandefer, President of Simmons University at Abilene, Texas, and famous dry leader, addressed a large assemblage at the Baptist church last Sunday afternoon on the subject of prohibition. Due to change being made in the date set for Dr. Sandefer's address, which was to have been next Sunday, Feb. 19, a large number of people were prevented from attending. The mass-meeting in Matador, addressed by the university president last Sunday, was by the united movement of all churches in Motley county, and unit of the national movement of all churches to prevent any change being made in the prohibition laws.

HANEY SERVICE STATION NOW GOODYEAR DEALER

The Haney Service Station located east of the post office is this week receiving shipments of Goodyear Tires and Tubes. As Goodyear dealer for this territory, Mr. J. W. Haney, manager of the service station, says his tire stock will embrace a full line of tires and tubes for both truck and passenger cars.

Methodist Church

We had very fine attendance and services last Sunday. Good attendance at Sunday school also, in spite of the fact that several were not there. A number of visitors in the congregation at both services. One of the fine things about the evening service was the splendid singing. The choir was filled with members of our own congregation and visitors. We appreciate the singing and feel that it contributes greatly to the good of any service.

Young People services, and likewise the Juniors, are doing well. There is a welcome for all.

Perhaps slowly, but surely our people are getting an enlarged vision of service. Some yet, however, are not attending. We urge you to come, as we feel the church can give you the help that you can get no where else.

No church can rise higher in spiritual helpfulness and value, than that of the membership. Come and be with us, take your place and be of service to God then He will greatly bless you. Our second Quarterly Conference will be held at the Dickens City Church, Sunday, Feb. 19th, at 4 p. m. An urging full attendance from Roaring Springs. No preaching service here Sunday as the pastor will be in Dickens city. Be in your place in Sunday school and Young People's services.

"The Friendly Church"
T. MARVIN McBRAYER, Pastor.

Q. A. & P. AGAIN SLASH FREIGHT RATES AGAINST ITS TRUCK COMPETITION

LOCAL RAILWAY COMPANY PAID TAX OF \$35,000.00 LAST YEAR

Another drastic reduction in freight rates was announced by the Q. A. & P. yesterday. The new rates apply on articles commonly handled by grocery and produce houses, and represent reductions in practically all lines, some of the reductions amounting to as much as 40 per cent of the 1931 rates.

Efforts to meet truck competition is responsible for the reductions, according to information received at the Road's headquarters here. "If we did not have to pay thousands of dollars each year in taxes to the communities through which we pass, and if the government would purchase and donate for our use the road bed which private capital built and has to maintain, we could afford to make some attractive rate reductions," said a local representative of the road. "But," he continued, to have to build and maintain our own road bed, or highway and also have to pay huge sums in taxes to local communities, make it extremely hard to meet the competition of the trucks who have their road beds built and maintained by the Government without any cost to them and who operate tax free.

Better than \$35,000.00 were paid our local communities in taxes during 1931, and this, of course, represents but a fractional part of our expenses for right-of-way and maintenance which the Government will not pay for us," the representative added. "Yet," he concluded, "we are told the railroads are the backbone of the country and upon which the very existence of the country depends."

"YOUTH OF TODAY ARE NOT BAD" DECLARES JUDGE AT C. OF C. BANQUET ADDRESS TUES. NIGHT

Judge Hbary L. Bishop, a pioneer school teacher of Motley county, and now District Judge of Potter county, said, in his feature address at the Motley County Chamber of Commerce Banquet in Matador Tuesday evening, "One thing I remember in particular about this county was the large number of singing conventions we used to have. It has been my observation that not a single youth whose life was influenced by the religious songs of those days has ever had to account for himself before the law." Judge Bishop continued, "Many people condemn the youth of today, and unjustly. There are the exceptions but the great mass of youngsters of today are good. Their ideals are high, their lives are clean and they face the future with the courage that has always led America out of its trying difficulties. My faith is within them."

BANQUET IS SUCCESS
The banquet hall of the Methodist church was filled to capacity

BAPTIST MEETING AT FLAG SPRINGS WILL BEGIN FEBRUARY 17th

A Baptist Meeting to be conducted by Rev. Berry Watson of Flag Springs, will begin Friday night, February 17th. The meeting will likely last ten days.

The public is cordially invited to attend.

Church of Christ

"Rock of ages cleft for me. Let me hide myself in thee.

"Blest be the tie that binds, our hearts in Christian love."

Welcome, Methodist folks, when your pastor is at Dickens. Sunday 10:45 sermon talk: "The Safety First Victim"—Lk. 9:58. At night "The Second Mile"—Matt. 5:41.

7:15 p. m. Mrs. Shirley's Committee will present a program to the preaching audience.

The Sunday School classes meet at 10 o'clock. Those not attending Sunday school are welcome here.

At Grandfield, Okla., there were three small churches. None of them able to support a preacher. They pooled their finances, united the three churches, secured a preacher who agreed to preach from the Bible only and never refer to any denominational doctrine. For two years this united church has mightily stirred the community for good. We think this experience commends itself to all true hearted, conscientious Christian people. This Minister, for three years was minister of a united church of three former groups. It was his happiest ministerial experience at Seaton, Texas. In such event, neither church needs join the other—just unite on one common ground for one's own and redemption and happiness of others. God speed the day when all professed believers can thus unite.
BEN WEST, Minister.

School Grounds First To Receive Work By Needy APPLICANTS FOR HELP SELECTED

Destitute Paid Enough To Keep Away Hunger

The First of the Federal Reconstruction Finance Cooperation money to benefit this territory was ordered through the distribution of Commissioner T. E. Long, when work started Monday on the Roaring Springs school grounds and athletic field. Of the money already received in Motley county, Roaring Springs is allowed \$200. An extensive improvement is assured the school in clearing, leveling and arranging the athletic field, altho no certain amount of the money has been set aside for this purpose. It is all to be used for civic improvement.

Only those who are destitute and accepted by the board which must pass on each application for work.

The wage scale is 15 cents per hour, working a ten hour day. Instruction on disbursement of the money require that a time-keeper be retained on each improvement.

The Motley County Chamber of Commerce with whom the money was originally placed, turned four-fifths of it over to the Commissioners Court to divide among the precincts, that each would equally benefit.

SADIE THOMPSON BUYS WARDROBE FOR \$17.50

JOAN CRAWFORD'S OUTFIT IN "RAIN" BOUGHT IN DEPARTMENT STORE

After wardrobe experts and costume designers had debated weeks over the most appropriate clothes for Joan Crawford to wear in her latest starring picture, "Rain," which comes to the Palace Theatre, Spur, on Sunday, Feb. 19, the United Artists studio bought her a \$17.50 outfit in a Los Angeles department store.

It was not a question of finances, but of realism, that prompted the film corporation to pass up the facilities of its own large wardrobe department and shop for an inexpensive, flashy bunch of finery for the usually fastidiously-dressed star.

Miss Crawford plays Sadie Thompson, social outcast with her own set of ideals, who engages in an emotional conflict with a fanatical reformer and a love affair with a Marine on a tropical island of Pago Pago. She wears but one costume practically all through the picture, consisting of a gaudy skirt and jacket, small, feathered hat, near-silk stockings, high-heeled, flash shoes and an imitation fur.

FREE DOLLAR BILLS

Next Saturday, Feb. 18, is Trade Day in Roaring Springs and the usual cash prizes will be given. You are urged to come early, do your shopping and be on hand for distribution of the prizes.

Millions Learn Wonders of Crazy Water Crystals

During the past two years, millions of people have learned the wonders of Crazy Water Crystals by drinking Crazy Mineral Water in their own homes. The demand for Crazy Water Crystals is many times today what it was a year ago, and truly the people of America are rapidly coming to realize the merit of Crazy Water Crystals.

For over half a century increasing numbers of people have been drinking Crazy Water for the wonderful benefits they receive. They have learned to drink their way to health. By modern methods the Crazy Water Company now distributes this water throughout the world. In new and up-to-date plants the mineral water is evaporated and the eleven body-building minerals are left. These minerals are known as Crazy Water Crystals. The standard size package of Crazy Water Crystals will reconstitute approximately fifteen gallons of water in your own home. It costs only 10 cents per gallon when you use the crystals to reconstitute the water, and this economical price makes it possible for people everywhere to "Drink their way to Health."

Crazy Water Crystals are recommended for any ailment brought on by faulty elimination, such as disorders of the stomach, kidney, bladder and liver, rheumatism, lumbago, gout, high and low blood pressure. Remember Crazy Water Crystals give perfect elimination without irritation.

Millions Spent Annually In The Radio Industry

Radio is one of our newest industries—hundreds of millions of dollars annually are being invested in all branches of Radio. Those who profess to know say that ere long most communication will be carried on by radio. When mammoth sea going ships can be controlled miles out at sea by radio without a human being on board; when airplanes can be guided at will thousands of feet in the air by radio; when one can sit in his home and by the simple turn of a small ebony knob pick up programs from the farthest corners of the earth, is it any wonder that the industry grows as if by magic? The surface is only scratched thus far.

What does this mean to the ambitious young fellow who is looking around for a vocation? A business man was heard to remark some time ago that "he had two sons and that he intended to give them both a training in Radio, for he felt that with as much money as there was being spent in the industry, surely it offered the ideal opportunity for future."

And radio offers so many different opportunities—on board ship, in the air, even under the seas, in Broadcasting Stations, in airplane landing fields, Radiotronics and amateur operators. This gives the youngster a wide field from which to choose. The South is fortunate in having for its young men a great radio school at Tyler, Texas, and they have a Broadcasting Station where their students have an opportunity to become familiar with the technique of operating the transmitter. We are told that more young men successfully pass the Government examination at this school and receive operator's licenses than any other Radio school in the whole country.

If you are inclined toward Radio, we suggest that you drop a card to the School of Radio, Tyler, Texas, and ask for the booklet "R-6." It's free.

We do not ask that you join us nor in the church, only that you join the Lord in obedience. Bring your Bibles and let's study, teach and preach the Book 2 Timothy 1:15; Acts 17:11 and Acts 5:42. Ben West, Minister.

The State of Texas

To the Sheriff or any Constable of Motley County—Greeting: You are hereby commanded to summon Alva M. Combs by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Motley County, to be holden at the Court House thereof, in Matador, on the 4th Monday in Feb., A. D. 1933, the same being the 27th day of Feb., A. D. 1933, then and there to answer a petition filed in said Court on the 14th day of January, A. D. 1933, in suit, numbered on the docket of said Court as No. 861, wherein Ruby Miller is Plaintiff, and Alva M. Combs is Defendant, and said petition alleging: That on the 26th day of May, 1931, Plaintiff was duly and legally married to Defendant at Seigler, Oklahoma and continued to live with him as his wife until about the 1st day of December, 1931; that Plaintiff has been an actual bona-fide inhabitant of the State of Texas for a period of twelve months and has resided in Motley County where this petition is filed for a period of six months next preceding the filing thereof. That on or about the 1st day of December, 1931, Plaintiff and Defendant were living at Seminole, Oklahoma, and that Plaintiff came home to visit her parents and Defendant remained in Oklahoma and came to Plaintiff at Matador, Texas, on or about the 23rd day of December, 1931, and Plaintiff discovered that Defendant had been untrue to her and had a serious venereal disease and had to be treated for same; that the infidelity on the part of Defendant toward this Plaintiff caused their further living together unsupportable, premises considered, that during the marriage of said Plaintiff and Defendant they had born to them as issue of said marriage, one child, a girl, whose name is Viola May, age 7; that Plaintiff has the care of said child for one year and is the proper per-

son to have care and custody of said child; that Plaintiff has not heard from Defendant for more than a year and that he has failed and refused to help support Plaintiff and child. Wherefore Plaintiff prays that Defendant be cited to answer this petition and that on final hearing, Plaintiff have judgment of Divorce, dissolving said marriage between Plaintiff and Defendant; that Plaintiff have the care and custody of the minor child, Viola May, and for such other and further relief as the Court shall deem proper to grant, with cost of suit.

Herein Fail Not, and have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Matador, Texas, this the 24th day of January, A. D. 1933.

Mary E. Jones, Clerk, District Court, Motley County.

The State of Texas

To the Sheriff or any Constable of Motley County—Greeting: You are hereby commanded to summon Alva M. Combs by making publication of this Citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Motley County, to be holden at the Court House thereof, in Matador, on the 4th Monday in Feb., A. D. 1933, the same being the 27th day of Feb., A. D. 1933, then and there to answer a petition filed in said Court on the 15th day of Oct., A. D. 1932, in a suit, numbered on the docket of said Court as No. 849, wherein Dora Combs is Plaintiff, and Alva M. Combs is Defendant, and said petition alleging that Plaintiff was legally married to Defendant on or about the 26th day of November, 1924 and continued to live with him as his wife until about the 25th day of December, 1931. Plaintiff has been an actual bona-fide inhabitant of the State of Texas, for 12 months and resided in Motley County where this suit is filed, for a period of six months, next preceding the filing thereof. That on or about the 25th day of September, 1931, Defendant left this Plaintiff and three small children in New Mexico, penniless and among strangers and she was forced to go to her father for a home at Roaring Springs, Texas; that Plaintiff has not since the 25th day of September, 1931, provided food or clothing for this Plaintiff or their three children, until this date; that on or about the 1st day of July, 1932, Defendant came to Roaring Springs, Texas, where this Plaintiff was living with her father, cursed and abused Plaintiff, got a pistol and threatened the life of this Plaintiff and did beat and abuse this Plaintiff; that he rendered one of her arms useless for several days; that said cruel treatment on part of Defendant toward this Plaintiff has rendered their further living together as man and wife insupportable, premises considered. During said marriage there were born to Plaintiff and Defendant three children, Grace Viola, a girl, age 7, Alva Eugene, a boy, age 5, and Bonnie Joyce, a girl, age 2, who are still living; Plaintiff is able to bring up and educate said children and is the proper person to have care and custody of said children; that Defendant is not able to educate and care for said children, in that, he is not educated, is without a profession or even a job, or a home to take said children and care for them; Wherefore Plaintiff prays

that Defendant be cited to answer this Petition and that on final hearing, Plaintiff have judgment of divorce dissolving the marriage between Plaintiff and Defendant that Plaintiff have the care and custody of said children of said marriage and for such other and further relief as the court shall deem proper to grant, with costs of suit.

Herein Fail Not, and have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Matador this the 18th day of January, A. D. 1933.

Texas Wool Industry

By W. E. FAIBOURN

Editor's Note—This is the first of a series of articles dealing with the possibilities of the wool industry in Texas. (Continued from the subject of industrialization for 1934.)

STORY No. 9.

Let us now consider the wool itself. When it comes from the sheep it consists of long and short fibers. After the wool is washed the fibers can be separated by carding and combing into long and short fibers. The long fibers are called "tops" and are made into the finest worsted cloth. The short fibers are called "mool" and can not be manufactured into cloth on the worsted process. There is, however, a textile process called the woolen process which utilizes the mool, together with some short wool and other by-products. This cloth, of course, is naturally of an inferior quality. The worsted process requires thirty-eight operations to the finished cloth, while the woolen process requires only twenty-three operations.

Texas today produces as good—if not the best—wool in the United States. Again quoting a prominent textile man:

"We believe here that Texas wool is among the finest grown in the United States and superior to the Oregon wool for making fine worsted fabrics. Many of our plants are operating on Texas wool. I wonder how many Texans know that the finest worsted suits they wear are made from their own grown wool and could be made in Texas?"

I have before me two samples of wool. One is clean with a long fiber, the other is of short fiber, with part of the dirt and vegetable matter still remaining. The finer wool is known as "tops" and I also have before me cloth that has been made from our own Texas wool into the finest worsted material possible to make today. There is a dark blue. There is a light blue with checks. There is a blue with stripes. There is a "herring bone" gray and beautiful browns that compare in appearance and quality with anything that I have ever seen. Our own wool is being used to make the finest cloth in other communities because they have said that we would not do it down here.

We can do it, people, if we will but make up our minds that the solution of our economic problems must come from our own efforts. When a man has the will to work it is a tragedy on economic conditions that he is unable to obtain employment. The whole effort of Texas must be devoted to the building up of industries that will give employment to our people and a sale at a profit of the products of our farms and our ranches.

In the next article I will show the markets for our finished products.

—From The Dallas Journal

FRESHMAN TRAILERS

We regret losing Lucile Rape. She has many friends here in high school and was known for her friendly disposition and unceasing and tireless efforts towards her school studies. We can't help but feel that Spur has gained a valuable student in their high school.

We have additions too. Wayne Baitman of Aiton, Texas, and Eudine Pierce of Oklahoma are the two most recent additions. We welcome these as classmates and hope that they remain with us throughout our high school days.

All of the Freshmen have had a hard time of it this first semester, but we are going to be better students this next one. Our teachers are all so willing to help us and we just can't let them down and disappoint them.

Mary Elizabeth Love.

We beg your tolerance—Remainder of School Echoes will be printed next week.

Jim Meason Again With Local Lumber Company

Jim Meason, who has been connected with the Higgin-Bothom Bartlett Lumber Co. part of the time during the past year, assumed charge Tuesday morning in the absence of Jim Bartlett.

Mr. Meason will fill Mr. Bartlett's place while the latter is in Dallas visiting relatives.

From Apprentice to Professional In Two Hours

A young man just finishing high school decided he would look for a job. He applied to a hotel and he was employed as elevator boy. His predecessor was an old gray-haired man. After two hours' training by the old gentleman, the boy was running the elevator like a veteran. "From apprentice to professional in two hours."

This young man did not seem to realize that a job that could be learned in two hours offered him no future and if he remained on the job for ten years, he would never get a promotion and probably very little increase in pay, because his place could be filled by any one else in the short space of two hours.

Too many young people consider too lightly the importance of preparing themselves for some special occupation. In order to accomplish very much today, a young person must have some specialized training. A general all-round literary education is desirable and in many cases necessary, but it should, by all means, be supplemented by some definite preparation.

At this time, we can think of nothing better than a Complete General Business Course, such as is offered by the Tyler Commercial College and School of Business Administration at Tyler, Texas. This course contains such important subjects as Accounting, Business Administration, General Motors Standard Accounting System, Shorthand and Typewriting and other related subjects. From nine to twelve months spent on such a course, in our opinion will pay tremendous dividends throughout the future years.

Write them for a catalog and learn about this well known school.

Rev. L. B. Smith, pastor of the Baptist church here, filled his appointment with the Center Baptist church Sunday.

Miss Ramza Gabriel returned home Tuesday, after a several days visit with her sister, Sada, who is attending college in Dallas.

Good Service
