TRAIL DUST

By DOUGLAS MEADOR

TRAIL DUST...

What more odious destiny can a man design than to trod upon the faith of his friends to reach the portal of any ambition? He exchanges pure gold for brass in the betrayal of a single confidence.

Science was a generation too late for me in discovering that many allergies are aggravated by weeds. When I was a boy my parents used to give me a hoe and send me to the field without knowing that I was allergic to weeds. They were aware however, that my condition appeared to be associated with a violent distaste for work.

It is impossible to unravel the design woven into the fabric of yesterday, but today is on the loom where the will's pattern is being reproduced with rigid fidelity.

The problems of lovers are eternal. Consider the young swain who once carved two sets of initials encircled by a heart on the bark of a tree. Today he is confronted with the metal-like materials of a drugstore booth which are not readily adaptable to receiving his symbols of endearment.

My plan to stabilize national economy is so simple that it is certain to meet a phalanx of opposition, especially by those who want their socialism by injection into the bloodstream of security. I would suggest that Congress place all citizens under Civil Service, which would be a simple act. Nothing else would need to be changed.

Lions Hear Report By Coach Hicks

A good season is in store for the Motley County Matadors football team, if performances in the past four games and Coach Randy Hicks' evaluation of the plays are indications. Coach Hicks spoke Tuesday at regular semi-monthly meetings of Matador Lions Club and made the prediction concerning the 1977 season.

"The key to the situation is: if we can all stay healthy, we stand a good chance to win all 10 games, and district," he told the Lions. "We had two good scrimmages - with Jayton and Forsan, and preserved victory against Paducah by the small margin of 14-13, and with Crosbyton, 22-19... I feel like we are off to a good start, if we can just stay healthy." He cited statistics that between 30 and 35 boys reported last year, as

compared with only 28 this year.

This year, in order to fill in whenever needed. We have two injuries in our secondaries so far." Coach Hicks also introduced two other coaches, Ronald Bradshaw, defensive coordinator, and Danny James, defensive 7's and defensive 9's, and the four team captains, Bryan Timmons, Jack Bivens, Jerry Lee and Todd McCandless.

"The captains can either make or break a ball team," Hicks declared. "We are lucky this year in having a good group, who get along and have provided excellent leadership thus

Flomot Gins First Bale

First bale of cotton ginned in Motley County for the 1977 fall crop was produced by Alfred Martin and ginned by the Caprock Gin at Flomot, Sept. 17. The cotton weighed 2120 pounds on the trailer. There were 975 pounds of seed and the bale weighed 604 pounds. This was the first cotton ginned with the new hydraulic suction equipment that has been installed recently at Caprock Gin.

The gin paid Mr. Martin 60 cents per pound for the cotton and \$60.00 per ton for the cotton seed, according to Rex Johnson, gin owner.

The first bale was ginned free, and area merchants made up \$310.00 premium for Mr. Martin, making the first bale worth \$429.15.

Merchants giving on the premium included First State Bank, Matador Motor and Implement Co., Matador Feed Store, Higginbotham Bartlett Lumber Co., Bob Stanley Pharmacy, Giesecke Butane Supply, Billy's Grocery, Spot Cash Grocery and Ronnie's Department Store in Matador; O. J. Lee Grocery in Flomot; First National Bank, Rice's Dry Goods, Panhandle Compress, Merrell Grocery and Valley Farm Store, all of Quitaque; Jack Barnhill Texaco Inc., Mullin Motor Company and Turkey Implement and Supply, all of Turkey.

Matadors Defeat Crosbyton Chiefs

by Coach Randy Hicks

Motley County Matadors edged past Crosbyton Friday night by a score of 22-19 to keep an unblemished record. The game proved to be the expected tough test for the Matadors as Crosbyton's offense stopped Motley County's ground game and forced them to take to the air.

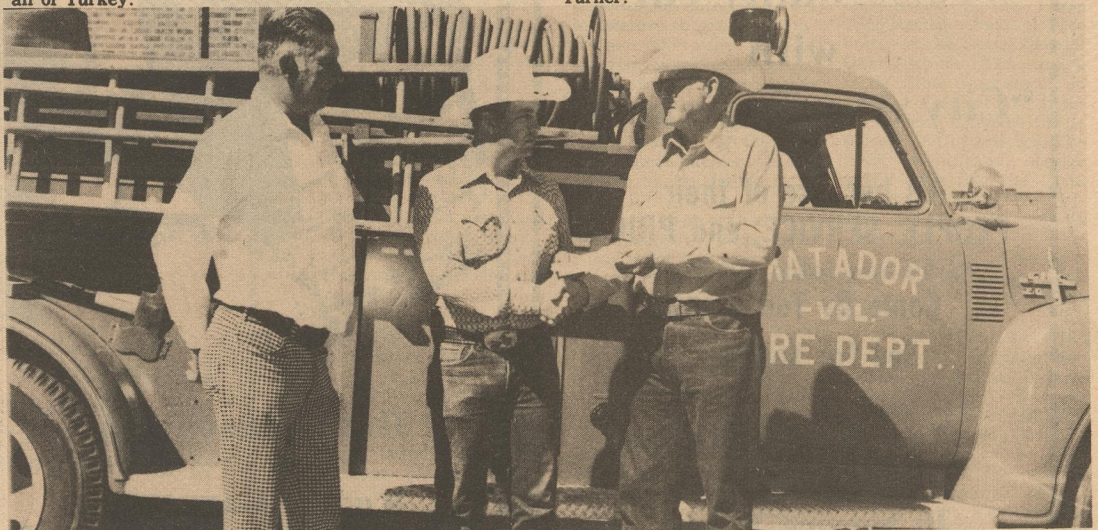

Jerry Lee accounted for all of Motley County's touchdowns, two of which were pass plays from Harold Dempsey. The final touchdown was a "clutch-grab" catch in the last minute to pull out the victory. Offensively, Lee led in rushes with 70 yards.

Crosbyton's running game proved formidable as they rambled for eight first downs and one touchdown on the ground. Defensively, the Matadors secondary, which was crippled in the first half, allowed two touchdowns in the air.

Mark Wason's sterling performance at safety position accounted for two interceptions and a fumble recovery that stopped Crosbyton drives.

"The game was a good one for the Matadors because they had to show a great deal of drive and determination to come back and win in the fourth quarter," said Coach Randy Hicks.

Friday night the Matadors will travel to Nazareth for the first district ball game. The Matadors who have had injuries during this week should have another tough battle on their hands.

Dudley Speed, member of Matador Volunteer Fire Department was presented a check in the amount of \$112.50 by Harold Campbell, President of Motley County Farm Bureau, Monday, for his participation in a fireman's school held July 24-29 at Texas A&M University. The State Farm Bureau sponsors one man from each of 250 counties in Texas if he attends and passes the school. The Farm Bureau check, which Speed will present to the Fire Department, covers tuition and meals. Matador Fire Department paid for gas and trip expenses.

Speed also received a certificate which reads: "Certification of Participation. This is to certify that Dudley Speed was sponsored by the Motley County Farm Bureau and Texas Farm Bureau Insurance Companies to attend the annual Texas Firemen's Training School held at Texas A&M University, and that he attended the Special Texas Farm Bureau Conference held during that school. Signed, Carrol G. Chalaupka."

Also attending the fire school from Matador was Fire Marshall, Don Warren.

CLUB PROJECT - Pioneer Memorial Park, just south of the jail has been a project of Matador Garden Club the past two years. Work was just recently completed in pouring the star-shaped concrete foundation surrounding the brick base. The plaque, mounted on the base, was presented to Douglas Meador, late publisher of the Matador Tribune, in 1972 by the Cimarron Valley Historical Society, headed by Harold Brown, now of Drumright, Okla. Meador had designated the park as a memorial to his parents, and other pioneers of Motley County. Shown in the picture, from left are: Mrs. Edgar Lee, outgoing president of the Garden Club, Mrs. W. W. Clements, president, Mrs. Ted Elliott, first vice-pres., Mrs. W. N. Pipkin, and Mrs. Tom Spears, members of the park committee.

Members of the club take this opportunity to thank those who helped to complete the concrete work in the park. Appreciation is especially expressed to Tom Spears, Sonny Jackson, the City Maintenance crew and to Higginbotham-Bartlett Co. for donating the supplies. The Garden Club could not have afforded this improvement, and appreciate the effort these men gave to make it possible.

A TRIBUTE

The Tribune has brought to our attention many Motley County sons and daughters who have made names for themselves.

One lady among us has given us a history of our people from our grandparents early day experiences, to our skilled children and grandchildren.

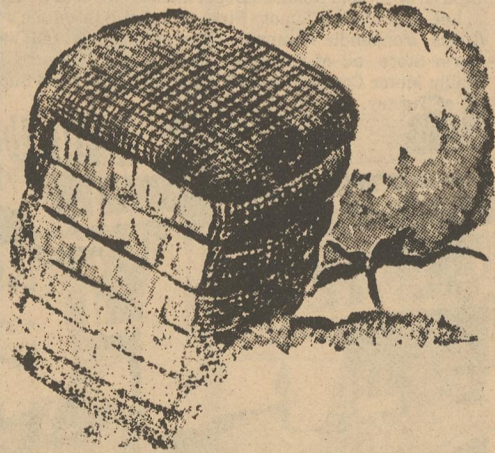

Now she has been instrumental in giving us an excellent library located in the Educational Building of the Methodist Church. A beautiful room for quiet study or to check a good book.

Our thanks to Eleanor Traweck and to all who helped to bring us a library to be proud of.

Let us extend our thanks to Eleanor. YOUR FRIENDS

Reddy's helpful tips for your HOME LAUNDRY

PLAN AHEAD

Sort clothes according to type of fabric, color-fastness, degree of soil and garment construction.

You'll save both hot water and electricity by doing similar items together.

Accumulate a full load before running your washer.

BE SELECTIVE

Choose the cycle that is precisely appropriate for the clothes you are washing. Is a "hot" temperature setting really necessary? Except for heavily soiled items, most loads will come clean in either a cold or warm wash. Look into cold wash detergents.

Too much detergent can clog machine and drains... always measure, don't guess!

Follow the manufacturer's recommendations for your type equipment.

Mixing brands of detergents can cause graying of clothes.

FOR SAFETY SAKE

Be sure control is "off" before reaching into your washer.

If one is necessary, use only a heavy duty extension cord.

Be sure your washer is grounded.

Keep dry cleaning agents, color remover and Fibreglas out of your washer. It's a good idea not to wash clothes containing cleaning fluids in your washer.
