## TRAIL DUST

By DOUGLAS MEADOR

Who knows the direction a man will travel until he has at least started?

Those who have climbed nearest the stars advanced a rung a time until they were beyond the gravity of fear.

If I ever get a dollar ahead I am going to feel like a draft dodger from the war on poverty.

A cynical friend says we are brain washed into a state of happiness. This, of course, is the essence of supposition from a neurotic's point of view. It averts the position that sleeping on the ground is as comfortable as sleep on a foam rubber mattress.

Defeats are like high flying vultures who will finally go away if the body does not become motionless after it falls.

If older generation women could recover the wages due them as girls for baby sitting, younger members of their families, they would not need pensions or other means of retirement.

You see many strange characters in bars and one of the reasons is that the establishments are frequently well furnished with mirrors.

Modesty is more sharply defined by manner than appearance.

Walk with a good man and you feel his presence without a dissertation on the extent of his good qualities.

## Religious Significance Stressed In Observance Of Easter Season

Although Easter is a pagan term, used to symbolize the Christian observance of the Resurrection of Christ, the religious significance is emphasized during the season.

Special music and messages Sunday, from the pulpits and at the altars of the churches in this and other communities in the nation will affirm the Christian's hope and faith in the Resurrection.

Easter is a special occasion when families join in attending church services in a group. Many will be visitors from out of town and college students returning home, coming from a distance to share the experience with loved ones.

Baptist Revival Begins In addition to the usual observances of the day, special emphasis will be placed on evening services at the First Baptist Church, which will open a week's spring revival for the membership.

Rev. Young Tucker of Lubbock, well known evangelist in the Southern Baptist Convention, will do the preaching. Song leader will be John Matthews of Denver, Colo., formerly of Vernon, who is presently serving as head of the Music Department for the General Baptist Convention of Colorado.

The week-long program of soul-winning will be filled with evangelistic efforts on the part of these leaders, the church membership and the pastor, Rev. James Hancock.

Services will stress W. M. U. Night, Monday; Deacon's Night, Tuesday; Sunday School Night, Wednesday; Junior Balcony Night, Thursday; Youth Night, Friday; and Royal Order of the Red Ants, (Junior and primary age groups) Saturday night.

Services will be held twice daily during the week, at 7:00 a.m. and 7:30 p.m. and a cordial invitation is extended to the public to attend all services.

## Roaring Springs has Bid In for Industry

A NEW INDUSTRY may soon be operating in Motley County. Roaring Springs has made a bid to secure a cotton yarn weaving mill, with prospects exceptionally good for the industry to give employment to 20 to 25. The plant would be located in a presently available building. Charlie Long, President of the Roaring Springs Lions Club, made the announcement Tuesday as a guest at the regular luncheon meeting of the

Matador Lions Club. He was accompanied by Lions Dick Carpenter and Milton Brooks.

Long said \$30,000 would be needed to get the plant in operation and to meet starting payrolls. He said \$15,000 had already been subscribed.

To further compliment the industry program, principal speaker at the luncheon was James Glenn of Abilene, industrial promotion department of the West Texas Utilities Co. He was introduced by local WTUC manager Leon F. H. Welling.

Glenn said area industrial development is to create jobs and improve economic position of the territory. He pointed out that the competition is extremely sharp, including Japan where labor may be obtained for 8c per hour. He said Texas secured 355 new plants last year and was second only to New York.

He pointed to the advantages West Texas offers industry, which includes labor, lower taxes, excellent transportation facilities and freedom from unionism. He said 40% of all of the nation's resources are located within Texas.

He said land values in California are driving industry away, giving an example of 35 miles from down town Los Angeles where the land alone is priced at \$150,000 per acre (and a certain company needed 10 acres).

Glenn said the brightest prospect is that people are moving back out of the congested areas to smaller communities. He stressed the need to seek the tourist dollar, saying "It is the cheapest dollar." He said filling station attendants are the best public relation people in the world and can cause the tourist to spend more money, if the attendants are properly trained.

## County Goes Under Scabies Quarantine

AMENDING a previous statement the Texas Animal Health Commission has now placed two more West Texas Counties, Motley and Randall, under scabies quarantine.

The announcement was issued by Dr. S. B. Walker, executive director of TAHC.

Called out of state from Motley County must be visually inspected by a USDA livestock inspector. Movement within Texas is not affected except for scabies infected and exposed herds.

Robert C. Streit, USDA Animal Health Department, is currently stationed in Matador to examine herds or animals designated for out of state shipment. He requests that owners planning shipments give him several days notice before shipment, so as to arrange for inspection. He may be contacted at Trail Dust Motel or through County Agent Bill Palmmeier.

Additional questions can be referred to Streit, Clayton Dismukes of the TAHC or Palmmeier. All have been advised by Dr. John Wilbur Jr., veterinarian in charge of Animal Disease Eradication Division in Austin.

Former Matador residents, Mr. and Mrs. C. E. Parks of Breckenridge, visited friends and attended to business here Tuesday.

Mrs. Claud Jeffers returned home recently from a visit with her children. She accompanied her son and wife, Mr. and Mrs. Kenneth Jeffers to their home in San Angelo when they visited here recently, and from there went to Dallas, where she visited another son and family, Mr. and Mrs. Jim Ward Jeffers.

### Phil Green Bags Big Cat During Safari In New Mexico Mountains

**BANKER PHIL GREEN** of Borger, former Matador resident who probably started his hunting expeditions as a boy with a slingshot along the banks of Hackberry Branch of Ballard Creek is now interested in bigger game. A recent article in the Borger News-Herald describes a "safari" in the mountains of New Mexico, in the Cimarron country, where he killed a puma that tipped the scales at more than 200 pounds (the big cats are sometimes called mountain lions, panthers or cougars.) Green is member of the National Association of Varmint Hunters and told a reporter that his number one hobby is "varmint calling." With an associate, Phil Elliott, also of Borger, he killed and bagged 62 coyotes and 8 bobcats, mostly within Robinson County in a four-month period. The big cat which Green killed recently in New Mexico (now in the hands of a taxidermist) is no means a record size, according to the banker-hunter. The cat was not taken by vint calling but with the help of dogs bringing it to bay. Accompanying him on this hunt was C. T. Masterson, also of Borger. Most of Green's hunting is done in Texas, New Mexico, Oklahoma and Colorado. He is, however, training his sights on larger game, to include bear and moose. Green was reared in Matador. He is the son of Mr. and Mrs. C. Green Sr., and started his banking career at the First State Bank here. His wife is the former Juanita Mize.

### Six From Matador On All-Star Cast

Six members from the cast of "A Trysting Place" were named to the District 7-B all-star cast, by Rex Kiker, critic judge, Thursday night, March 31, in Jayton.

After choosing "A Trysting Place" as winner of the UIL one-act play contest, Dr. Kiker, head of the speech department at Abilene Christian College, named Terry Keltz best actor and Rosanne Terry best actress. Also on the all-star cast were Kathy Lawrence, Karen Elliott, John Barnhill and Harold Meason.

Following the announcement, all the casts and directors enjoyed refreshments in the band room while Dr. Kiker gave a critical review of each play.

He complimented "A Trysting Place" by saying, "I listened closely but I never heard a line in your play delivered as though it were just memorized. Each line was said with feeling."

He praised each member of the cast and expressed special approval of Terry Keltz in his role as Mr. Ingoldby. "Mr Ingoldby was what drama coaches term a total creation. He was an old man from the top of his head to the tip of his toes."

Dr. Kiker also complimented Dale Rector, who was a mysterious off stage voice in the play.

This is the third consecutive year Mrs. Timmons, director of the play, has directed the best actress in district and the second consecutive year her cast has included the best actor in district.

### Teams Defeated In UIL Contests

Matador boys and girls volleyball teams dropped two games each in the UIL preliminaries at Turkey, April 1, thus becoming ineligible for further competition.

The boys' team opened against Quitaque in a best-two-of-three contest and lost the first two games. The Quitaque boys went on to defeat Turkey and take

first in the northern half of the district.

Lakeview's Eagles swooped off with victories in the first two games with the Matador girls and made the third game unnecessary. The Eagles took the first game 15-12 and the second 15-13.

Winners of the Turkey matches, representing the north half of District 7-B, will vie with top teams from the southern half, April 14, in Matador for first place in the district.

Coaches for the two teams were Mrs. Reece Timmons and Earl Byerley.

Starting for the boys were: John Shead, Dickie Shead, Larry Elliott, Ronnie Cox, Danny Davis and Luis Moore. Larry Dunn, Aaron Timmons and Mark Hill were also on the team.

The twelve girls making the trip were Shariene Berryman, Frances Martin, Shelley Stevens, Karen Elliott, Rosanne Terry, Karol King, Jana Jones, Ruby Storey, Olivia Campbell, Joan Barton, Janie Killingsworth and Glenda Sandefer.

### Tourney Dates Set For UIL Baseball

District 7-B baseball coaches met in Jayton High School, March 23, to establish a district baseball schedule. The five coaches attending set May 3, 10 and 13 as dates for the district UIL baseball tournament to be held in Matador.

The tournament is something new for district 7-B. In the past the winner has been determined through round robin play instead of by an elimination tournament.

Schools participating in the tournament are: Matador, Patton Springs, Guthrie, Quitaque and Jayton. Play will begin Tuesday, May 3, at 4:00 p.m. with a clash between Patton Springs and Guthrie. The Matador nine will play the same night at 7:30 p.m. when they take on Quitaque.

Earl Byerley, baseball coach, says that approximately eighteen boys have indicated an interest in UIL baseball.

### "The Branding Iron"

Beverly Brandon, former Matador High School student and now a sophomore in Plainview High School, wrote to urge the volleyball team to victory recently. She says she likes Plainview and is taking biology, world history, Latin I, P.E. and accelerated geometry and English II.

She plans to go to summer school and take extra courses in preparation for a major in medicine.

Track practice began Monday for MHS girls on Matador's first girls' track and field team. Much of the practice will be done after school as well as during P.E. class.

- Assist in forming industrial foundations and districts, in selecting plant sites, and advising on planning.
- Assist in preparing statistical data, advertising material, and in organizing and training industrial teams.
- In industrial development, we prepare market analyses for prospects, make detailed studies on factors affecting plant site location, and make personal calls on prospects for the communities.
- Conduct an active program of direct mail and personal calls on industries that might locate in our service area.
