Area Users Protest Farm Gas Prices

Health Planning Meeting Scheduled

South Plains Health Systems agency will hold a public meeting here in Muleshoe to offer Bailey County residents a

Visiting in the home of her parents, Mr. and Mrs. Jerrell C. Otwell, are their daughter and family, S/Sgt. and Mrs. Brian Swain and Sharissa, of Tacoma, Washington.

The Swains are in the process of being transferred to Georgia with the United States Air Force.

Perry Hall has been a Thanksgiving guest in the home of his father, L.B. Hall. He is a senior accounting student at SMU in Dallas.

On Thursday, December 9, at 9 p.m., KCBD Lubbock will broadcast a special Cotton Research and Promotion program. Terry Hill of the local ASCS office urges all cotton producers to watch the special program.

Sheriff and Mrs. Dee Clements are spending the Thanksgiving holidays with their daughter and family, Mr. and Mrs. Charles Arnold and children, at Pawnee, Okla.

chance to have a say in the future health planning being done for this area. It will be held on Monday, December 6, at 7:00 p.m., in the Muleshoe High School cafeteria. South Plains Health Systems, Inc. (a private, not-profit organization) has been designated to be the agency to be federally funded to do the health planning for the South Plains Area.

In 1974, Congress enacted the National Health Planning and Resources Development Act (Public Law 93-641) for the purpose of designing area health plans at the grass roots level which might have a better chance to meet the local needs than previous plans have done. To accomplish this planning, 204 federally funded health systems agencies have been designated throughout the U.S. Twelve of these agencies have been established in Texas in the past several months. The first duty of each agency is to design a plan to improve the health status, and the health care delivery systems wherever improvements may be deemed necessary throughout the area. The purpose of the plan will be to establish priorities for the years ahead so that the most efficient use may be made of all resources to meet the health needs of South Plains residents.

South Plains Health Systems, Inc. covers a 15 county area including Bailey, Cochran, Oklahoma, and Texas.

Cont. on Page 2, Col. 1

FARM FIRE . . . Cotton was destroyed on the Hilbert Wiesan farm northeast of Muleshoe Friday afternoon was cotton trailers caught fire and were lost in the high wind. Firemen made a futile effort to extinguish the blaze in this trailer which was near the Wiesan

residence. Two other trailers in a field were also destroyed during the fire. There was no estimated loss in dollars, although both trailers were fully loaded with cotton at the time of the mid-afternoon fire.

Will Attend Hearing Tuesday In Austin

A special call has been issued by Bill Millen and members of the Bailey County Natural Gas Users for all concerned and interested individuals to plan to attend a special meeting in Austin on Monday (tomorrow).

The meeting, scheduled for 10:30 a.m. in Lieutenant Governor Bill Hobby's committee room, will be conducted to see if regulatory authority can be placed with the newly created Texas Public Utilities Commission and eliminate the 100 percent cost-of-gas pass through now utilized by gas companies throughout the state.

It was explained that the 100 percent cost-of-gas pass through, which energy companies use to charge customers the actual cost of gas in the field, removes an incentive for gas companies to find the cheapest gas possible.

Most of the cost is borne by agricultural users of gas for irrigation explained the Natural Gas Users and that farmers are beginning to feel the pinch of higher gas.

They said that when the gas companies purchase gas, as many of them frequently do, they pass the increased cost 100 percent on through to the consumer. They are asking that gas price controls be instituted and the 100 percent pass through be eliminated or drastically cut.

Chartered buses will be used to transport area people to the Austin meeting and Bill Millen has asked that everyone possible please contact him in order to secure adequate transportation to the hearing. The bus will leave Monday and the group plans to stay at the Driskill Hotel in Austin Monday night.

During a special called meeting Friday morning, the members of the Bailey County Commissioners Court passed a resolution supporting the Natural Gas Users attempt and designated three county commissioners to attend the meeting in Austin. Commissioners Matt Dudley, Bob Sanders and Rudolph Moraw will all attend the gas hearing.

Their resolution reads: Whereas, the Commissioners Court of Bailey County, Texas met in special session on Monday, November 26, 1976, and took under consideration the problem of the cost of natural gas.

Cont. on Page 2, Col. 3

Dry, Powdery Snow Falling On Saturday

With winter more than three weeks in the future, officially, the area was receiving their third snowfall this fall Saturday morning. Ushering in the third snowfall was high wind, sand and several impromptu fires.

Lontime prognosticators had predicted a long, hard winter. And, to date their predictions are coming true, rapidly. They also say we will have a total of 27 snows during the winter this year. This, too, appears to be headed for fulfillment with the third snowfall on the ground at presstime and light snow still falling.

The Saturday snow, two days after Thanksgiving, is the first dry snow to fall in the area. Light accumulations of dry, powdery snow blew around, threatening to pile up into drifts with the wind accompanying it.

National Weather Service predicted that the snow would continue through the weekend, with partial clearing beginning early during the week.

Fires on Friday kept members of the Bailey County Volunteer Fire Department busy as many farmers had fields burning at the time the wind was just beginning to blow. When the hard wind started, fires got out of control. Destroyed on the Hilbert Wiesan farm were three trailer loads of cotton. Two of the trailers were attached, and the third was approximately an eighth of a mile from the other two. High wind and no accessible water other than the tanks on fire trucks hampered firemen in attempting to extinguish the blaze.

County Has New Cancer Weapon

A new "weapon" against cancer is now available in Bailey County to provide the public with current, factual information on cancer, its prevention and early detection.

Called the Cancer Information Service, the new program utilizes a toll-free phone line (1-800-392-2040) to answer public inquiries on cancer. The service will be extended to all residents of Texas by late this year.

The CIS is part of a public educational effort sponsored by The University of Texas M.D. Anderson Hospital and Tumor Institute with assistance from the American Red Cross, American Cancer Society and many other health agencies in Texas which provide services to cancer patients and their families.

Funded by the National Cancer Institute, the CIS functions as a part of a nation-wide network.

Open from 8 a.m. to 5 p.m. on weekdays, the phone lines are operated by trained American Red Cross volunteers. All background material used to answer questions is reviewed by physicians to insure accuracy.

The program is designed to help create a positive sense of awareness about cancer that will encourage the public to seek physician evaluation for early detection and prompt treatment of suspected cancers.

"Important diagnostic, treatment, rehabilitation and research developments are occurring more frequently now. If people could overcome their fear of cancer many more people would seek medical help at an earlier stage -- when the rate of successful treatment is much greater," said Dr. R. Lee Clark, president of M.D. Anderson.

Cont. on Page 2, Col. 2

Morton Hearings Scheduled

The Texas Water Development Board (TWDB) will hold adjudicative hearings on two applications for permits to engage in weather modification and control operations Monday, December 6, at 9:30 a.m. in Morton at the Cochran County courthouse.

The meeting has been scheduled in this area because of increasing heavy opposition by widespread farmers and ranchers who contend that the weather modification program has appreciably cut moisture throughout the South Plains and

Panhandle. Opponents have also contended that the weather modification operators have consistently operated outside authorized areas dispersing silver iodide in clouds where they have not been authorized to conduct their weather modification flights.

The presiding examiner will be Gordon W. Houser, attorney of the Texas Water Development Board. Protests, pleadings or motions relating to the hearings must be filed with the presiding examiner on or before November 30 at Texas Water Development Board, P.O. Box 13087, Capitol Station, Austin, Texas 78711.

Applicants seeking permits would conduct weather modification and control operations to increase precipitation and decrease hailfall within two target areas, according to a TWDB spokesman.

Docket Number WM-009, is by Atmospherics, Inc., for operations over portions of Deaf Smith, Randall, Parmer, Castro, Swisher, Bailey, Lamb, Hale, Cochran, Hockley and Lubbock Counties. This permit, as applied for, if granted, covers the period beginning November 1, 1976 and ending October 30, 1980, for a four year period of time.

The other application, styled Docket Number WM-008 concerns the application of Plains Weather Improvement Association, Inc. If the permit as applied for is granted, aircraft flights will be authorized over portions of Hale, Lamb, Castro, Swisher, Briscoe and Floyd Counties for the period beginning January 1, 1977, and ending December 31, 1980.

If the operations are authorized and conducted, equipment, materials and methods used will be a weather radar system, cloud seeding aircraft, and aerial dispersion of silver iodide in an appropriate manner for the artificial nucleation (disbursement) of clouds and weather systems.

FA Boosters Plans Meeting Monday Night

Fine Arts Boosters will meet on Monday, November 29, at 7:30 p.m. in the band hall at Muleshoe High School.

Shown will be a special film of the Mighty 'M' Marching Band from Muleshoe High School which includes film from this year.

Interested persons are asked to attend the meeting.

Dear Santa: Kicks Off Christmas '76

Thanksgiving is over and children's thoughts turn to . . . Santa Claus. That's right, the first letter to Santa arrived on the news desk in The Journal office Friday morning. This will probably be the first of numerous letters to Santa printed in the paper before Christmas, 1976.

All letters from children will be printed in issues of the Muleshoe Journal and Bailey County Journal before Christmas.

This year, the first letter reads: Dear Santa Claus, Would you bring my oldest brother Johnny a watch and lots of clothes.

Troy is my second brother and he wants a Mickey Mouse watch and lots of toys and clothes. Jamie wants and I, (Benjie) would like a Sittin' & Spin, nerf animals and lots of new clothes.

Thank and Hope you and yours have a very Merry Christmas and Happy New Year. The Talley Children

Christmas Parade Scheduled

This year, the Christmas parade, sponsored by the Muleshoe Chamber of Commerce and Agriculture and coordinated by Llano Estacado, will be at 2:30 p.m. on Saturday, December 4.

Members of any organization or group who wish to enter a float in the parade may enter by calling the Chamber of Commerce office at 272-4248 or go by their offices at the Muleshoe City Hall.

ARTHUR W. CROW

Arthur Crow Funeral Held On Saturday

Arthur W. Crow, 80, died around 12 midnight on Thursday, November 25, at Muleshoe Nursing Home following a lengthy illness.

Funeral services were held at 2:30 p.m. Saturday in the First Baptist Church in Muleshoe with Rev. J.E. Meeks, pastor, and Rev. E.K. Shepard, Baptist minister from Wilson, officiating. Burial was in Bailey County Memorial Park under direction of Singleton-Ellis Funeral Home.

He had been a resident of Muleshoe since 1941, moving here from Sudan. Arthur W. Crow was born September 29, 1896 in Tecumseh, Okla., and owned and operated Crow Chevrolet until his retirement. He was a member of the First Baptist Church, the Muleshoe Masonic Lodge, a Veteran of World War I, having served with the U.S. Army and served as the mayor of Muleshoe from April 1961 to April 1964.

Survivors include his wife, Lavina; two sons, John of Muleshoe; James of San Diego, Calif.; three sisters, Mrs. C.D. Damron, Wellington; Mrs. Henry Harrel, Tulsa; Mrs. Bill Harrel, Fayetteville, Ark.; one brother, O.O. Crow, Lubbock and five grandchildren.

County Gold Star Winners Honored

Among the 40 4-H Gold Star winners from District Two honored with a special dinner in Lubbock last week were Sharla Farmer, daughter of Mr. and Mrs. Charles Farmer and Curtis Carpenter, son of Mr. and Mrs. Jimmie Carpenter, of Muleshoe, both winners in Bailey County.

They were at the dinner, along with parents, supporters and special guests who watched them receive the highest county award offered in the 4-H club program, the Gold Star.

Award ceremonies, which in-

cluded a banquet in their honor, were staged at Lubbock's Coronado High School. Twelve member-owned electric cooperatives serving District Two hosted the event with the Texas Agricultural Extension Service, which directs the 4-H program in Texas.

A boy and girl from each of the 20 counties in Extension Service District Two are eligible to receive this highest county award each year. The award is based on outstanding achievement, leadership and contribution to the county 4-H program.

Speaker for the special occasion was Jim Cobb, general manager of Texas Electric Cooperatives, Inc., Austin.

Addressing the 40 youths, Cobb said, "You have reached a pinnacle by having done an outstanding job. The boys and girls, parents and adult leaders comprising the 4-H Club organization are an integral part of the leadership and progress in our state and nation.

"It is significant," he said, "that many of those in leadership roles today in our society received much of their leadership training in 4-H."

Turning to agriculture, Cobb said that without energy there would be no agriculture.

"We must think forward and positively," he added. "Surely, we are going to have shortages and discomforts from high costs of energy, and with alternate energy sources coming within 15 years there will be re-adjustments to make, but we will come out all right."

The electric cooperative association manager stressed that the youths of today who will be leaders of tomorrow should be allowed the opportunity to carry agriculture forward, an opportunity they may not have if the energy situation is not faced positively today.

Master of ceremonies for the event was Senator Kent Hance of Lubbock. Spike Wideman, farm services director for KKYR Radio, Plainview, narrated the presentation of awards, with District Extension Agents Billy C. Gunter (agriculture) and Catherine B. Crawford (home economics) presenting the honors.

Special guests included parents, adult leaders, Extension Service officials, representatives of electric cooperatives and other supporters of the 4-H program.

The event is sponsored annually by the following 12 electric cooperatives: Bailey, Dickens, Lamb, Deaf Smith and Swisher counties, and Lea County, New Mexico. Also, Caprock, Light-house, Lone Wolf, Lyntegar, Midwest and South Plains electric cooperatives.

To qualify for the special award, a 4-H'er must be at least 13 years of age, must have completed at least three years of

GOLD STAR WINNERS . . . Honored, along with 4-H Gold Star winners from 19 other counties were Curtis Carpenter and Sharla Farmer. They were among the 38 other youths honored for 4-H activities during a banquet and award ceremony at Lubbock last Monday night.

TUESDAY WRECK . . . Kip Garth, formerly of Muleshoe and now of Canyon, was driver of this pickup late Tuesday afternoon when it was involved in an accident with Elaine Parker, also of Muleshoe. The accident was at the corner of West First and Avenue D. Garth was issued a citation for running a red light.

Cont. on Page 2, Col. 1

4-H...

Cont. from Page 1
club work and be currently active in 4-H.
According to the district agents, the Gold Star is intended to stimulate winners through higher achievements and to encourage other young people to participate in the county 4-H program.

Health...

Cont. from Page 1
Crosby, Dickens, Floyd, Garza, Hale, Hockley, King, Lamb, Lubbock, Lynn, Motley, Terry, and Yoakum. The health status and needs of approximately 342,500 people living in these counties will be evaluated by the agency. The agency is governed by a board of directors made up of citizens from each county in the designated area. Marshall Cook is the board member who represents Bailey County. Mr. Cook will be in charge of the public meeting to be held in Muleshoe for the purpose of allowing area residents to "speak up" on the health issues that may be bothering them, or maybe even sharing information on successful programs which could possibly be duplicated in other counties on the South Plains.

Our health problems today have been accumulating over a number of years. It may take a few more years to straighten them out. But at least we're beginning, and beginning at the grass roots where the problems are.
Everyone is invited to attend the "Speak Up" meeting. Those who are unable to attend the meeting, but who wish to offer suggestions or information may contact either Mr. Cook, or South Plains Health Systems, Inc., 1217 Avenue K, Lubbock, Texas 79401, Ronald D. Warner, President.
Board members and staff will be working to get the area health systems plan completed during the coming year.

GREMLIN PRICE CUT

DETROIT—In a move to bolster lagging sales, American Motors has cut the sticker price of its 1977 Gremlin by \$253, or 8 per cent, making it the lowest-priced domestic car for the new model year.

Incoming Demo Senators predict strong Congress.

Cancer...

Cont. from Page 1
In addition to answering questions on the telephone, the CIS staff mails many pamphlets published by health organizations, professional societies and government agencies involved in health education.
Information not readily available from existing files can be obtained by the staff from an advisory panel of over 75 clinicians and other qualified sources outside Houston.
"Because the CIS is based at M.D. Anderson and is part of a national communications network, we have easy access to information on important work being done at many other cancer centers," explained Dr. Clark.
Similar programs are in operation at the other 18 Comprehensive Cancer Centers which were designated by Congress for outstanding work in cancer treatment and research.
The new program enjoys the support of the Texas Cancer Coordinating Commission and the Texas Medical Association, having been endorsed as a "worthwhile educational program" by TMA's committee on cancer.

Other public services of the program include a monthly news column "Cancer Answerline". Jointly sponsored with the American Cancer Society, the column is run in many Texas newspapers to provide readers with current information on cancer.

Soviets buy 275,000 more tons of wheat.

LOTS OF SMOKE, LITTLE FIRE... Cold weather and dense smoke hampered firemen last Tuesday night as they attempted to locate a fire in the old Barron home on South First Street. Larry and Terry Winkler had just moved from the house when a fire started in the basement. Smoke damage to the entire house was the main damage to the structure.

Gas...

Cont. from Page 1

gas for agriculture and the proposed legislation being urged by farmers of the area in an effort to get natural gas under the jurisdiction of the Texas Utilities Commission and legislation to abolish or limit the 100 percent pass-through employed by the natural gas utilities and other utilities.

Whereas, the Court, after due and careful consideration, concluded that if the counties in the Panhandle and South Plains of Texas continue to irrigate their lands, it is essential that natural gas be used as a fuel inasmuch as there is no alternate fuel to be used; and
Whereas, the Court concluded that inasmuch as the allowance of pass-through defeats any protection of consumers and destroys any incentive to purchase natural gas at a low price and that such allowance of such 100 percent pass-through has worked to the disadvantage of all ultimate consumers and the same should be either totally eliminated or strictly limited; and

Whereas, the attention of the Court was called to the fact that a hearing was to be held by the Natural Resources Committee of the Texas Senate on November 30, 1976 in Austin, Texas to consider the proposed legislation on both of these said matters and the Court felt it was vitally imperative that a communication be made to said Natural Resources Committee urging the committee to act favorably upon the legislation.

Now therefore be it resolved that a copy of this Resolution be furnished to the Honorable Max Sherman, Chairman of the Natural Resources Committee of the Texas Senate, urging that both pieces of legislation be acted upon favorably and expressing the willingness of the Court to cooperate in any and every way to assist the Committee in the passage of the said legislation; and
Be it further resolved, that a copy of this Resolution be forwarded to The Honorable Dolph Briscoe, Governor of the State of Texas, the Honorable Bill Hobby, Lieutenant Governor of the State of Texas, and to The Honorable Bill Clayton, Speaker of the House of Representatives of the State of Texas

representatives of the State of Texas urging their help in passing this legislation.
Upon the Motion being duly made and seconded, the above Resolution was adopted by the Court on this 26th day of November, 1976.
In other action, the commissioners approved a second resolution asking for a weather modification proposal to be taken to county voters and said, "In consideration of the prosperity and welfare of our people, and for the preservation of local control over vital matters, (Bailey County Commissioners Court) does hereby go on record as supporting legislation that would grant to the people of each county in Texas the right to determine by popular vote whether or not weather modification activities might be carried on in and over their respective county."
Commissioners further approved a request made by General Telephone Company to install a buried cable on a portion of land 2095 feet along three miles west of Muleshoe on FM1760 and two miles north of Muleshoe.

The Speaker Reports

by Bill Clayton

AUSTIN—The second week of November ushered in a new era for the Texas House of Representatives with regard to the introduction of proposed legislation.

Profiling of bills means that we can get a jump on the crush of legislation, which up until this time could not be introduced before the House convenes.

This 60-day profiling will make it easier to start the legislative flow shortly after the House convenes on January 11.

During the first week of profiling, there were more than 75 pieces of legislation presented to the Chief Clerk for inclusion.

Before the session begins, I think there could be as many as 500 to 600 proposals offered by the various members.

Last session more than 3,400 bills and resolutions were offered in the House and Senate. During the 65th Session, starting in January, I predict more than 4,000 bills and resolutions will be introduced in both houses.

It will be a big help to have part of the bills prefiling and ready for the legislative process before the actual session begins.

During the first session week, many of these prefiling bills can be referred to committee, and public hearings can begin. In the past, there has always been a three to four week delay in drafting, filing and referring the bills to committee for consideration.

Some of the important legislation of the coming session has already been offered. House Bill 1, for example, would change our State tax laws by reducing the sales tax on utilities.

The second bill filed, and now known as House Bill 2, relates to the financing of public school education, and this subject will be one of the priority items of this session.

There are likewise bills already in the hopper which

have been designed to make use of the projected state surplus forecast for the next biennium. One such prefiling bill would create a special fund to retire certain college tuition revenue bonds and certain constitutional bonds.
There have been bills prefiling to establish new parks, give greater assistance to recipients of public aid and provide for the marketing of automobile insurance.
By having more time to

place these bills in their proper sequence, I foresee a more orderly process, both for these bills and for legislation that will be filed during the first 60 days of the session. The result can be a smoother operating House with the people of Texas the beneficiaries.

Congressman Slates Meet With Carter

George Mahon, U.S. Representative of the 19th District, and other Committee Chairmen of the House of Representatives have accepted the invitation of President-elect Jimmy Carter to meet with him in Washington on Tuesday, November 23, to discuss major national policies. This will mark the second time in a week that Mahon, Chairman of the House Appropriations Committee, has been asked to meet with the President-elect. He was among members of the House and Senate leadership invited by Carter to attend a meeting in Georgia on Wednesday, November 17.

In commenting on the November 17 meeting, Mahon said, "Neither I nor anyone else at this time knows how well Mr. Carter will handle the responsibilities of the Presidency. He will, no doubt, make mistakes as has been the case with all of his predecessors; but I was impressed with his interest in having Congressional input, and I hope this bodes well for the future. I was encouraged when Mr. Carter spoke of his interest in balancing the budget and eliminating waste in government."

Mahon urged Carter's continued interest in a reorganization of federal government agencies with a view toward saving the taxpayers money and increasing the efficiency and responsiveness of government.

Food Growth, Study BoostTech Class

A clear relationship exists among the growing of food, the study of food science and preparation and the nutrition of foods. That relationship has drawn Texas Tech University's colleges of Home Economics and Agricultural Sciences ever closer in recent years.

Now the College of Home Economics is awaiting completion of construction worth \$4 million, including classrooms, laboratories, offices and other accommodations for teaching and research in food science and human nutrition.

The new facility, expected to be finished in December 1977, will be another example of space and equipment shared by Home Economics' Food and Nutrition Department and by Agricultural Sciences. The first example came in the spring of this year, when an \$800,000 food technology wing was added to the Agriculture Building. Both this wing and the new facility will be shared by students and faculty of the two colleges.

Further emphasizing the concept of shared programs was the recent appointment of Dr. Charles V. Morr to chair the Home Economics' Food and Nutrition Department, as well as to supervise food technology in Agricultural Sciences.

The new \$4 million construction, termed Phase II of Home Economics improvements, will

"expand our undergraduate and graduate programs and our research potential to serve the food industry and human nutrition," according to Dr. Donald S. Longworth, dean of Home Economics.

"Consolidation of the food programs will further increase faculty interaction (between Agricultural Sciences and Home Economics) and reduce duplication of effort," he said.

Among the new additions' multiple advantages will be a multi-media learning center for individual instruction and production of visual aids; a lecture-demonstration classroom for up to 200 students; food preparation and food science labs; classrooms; an instructional material center; and space for Home Economics' Department

DEPUTY QUILTS
TOKYO—Deputy Premier Takeo Fukuda resigned and openly challenged Prime Minister Takeo Miki's leadership and deepened a rift in the ruling Liberal Democratic Party.

CHINA & U.S.S.R.
MOSCOW—The top Chinese diplomat in Moscow has speculated that Peking-Soviet relations may be warming since the death two months ago of Mao Tse-tung.

of Home and Family Life.

Included in the Phase II project is an additional lab to study human nutrition. It will be in the remodeled space in the existing building.

"The human nutrition lab will help us gain more insight through increased experimentation," Longworth said.

Phase I construction and remodeling gave the college "colorful and functional" classrooms, labs and offices and a new forum, "El Centro". Cost was \$2 million.

On Wall Street By Bob Hill

The nation's electric utilities are finally coming around to reforming their old formulas of pricing their product -- electricity. California imposed a "lifeline" concept a year ago in which the first 300 kwh. are provided at below cost. This is

designed to help the low-income families by providing them a bare minimum monthly supply of electricity at a fixed, budget rate.

With a new President in the White House, a growing interest is expected in Congress over the rate reforms suggested for the electricity we buy. In the large number of cities, the result will mean higher rates for big business.

The chief target for rate reform is the old traditional "declining block" rate scale by which

larger users pay less per kilowatt hour than small users. This rate scale, though arbitrary and unfair, has made economic sense in the past. Since it costs less to supply a large factory than it does to supply a large number of residences, the declining block rate was defended successfully by the utilities. But the real reason for the declining block rate was to promote growth by enticing industry to come into the service area. This enable the utilities to benefit from the economies of large

scale users and the benefit of the resulting advance in technology. Consequently, electric rates dropped up through the mid-60s.

But technological advances have leveled off and the economies of large scale operations have disappeared. Instead of unit costs dropping as a result of expanding a plant, the unit costs still rose. The oil embargo and jump in fuel prices has added to the increased cost of electricity. Nationwide, electric rates have climbed 75 percent since 1969

and this has aroused a lot of the utility industry's critics.

Proposed rate schemes with social aims are Inverted Rates (the more power you buy -- the higher the rate), Lifeline Rates and Flat Rates (all rates the same no matter how much electricity you buy.)

No duty is more urgent than that of returning thanks.

-St. Ambrose.

COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

Barring unexpected complications the Cotton Research and Promotion referendum is still on for mid-December, according to Donald Johnson, Executive Vice President of Plains Cotton Growers, Inc., Lubbock, "despite a USDA announcement November 11 that was disappointing to all concerned."

Cotton producers across the nation will indicate in the referendum whether they favor an increase in their present \$1-a-bale contribution to the research and market development work of Cotton Incorporated. Legislation authorizing the referendum on an increase not to exceed one percent of the value of cotton was signed into law earlier this year. The amount of the increase and the procedure to be followed in its collection was left to the Cotton Board, which administers CI funds, and the Secretary of Agriculture.

Hearings were held by both USDA and the Cotton Board, and on August 20 the Cotton Board recommended that the vote be on an increased assessment equal to four-tenths of one percent of the current gross value of each bale of cotton. This recommendation followed the wishes expressed by an overwhelming majority of testimony.

The American Cotton Shippers Association and a few cotton producer organizations and individual producers expressed a preference for a flat-rate per-bale assessment increase, regardless of bale size or selling price.

The Secretary's decision in the matter was a decision not to decide until after the referendum. Thus both factions were displeased.

As announced in a USDA press release November 11, the "recommended decision" reads "If the amendment to the order is approved in a grower referendum, the Secretary of Agriculture will prescribe by regulation whether the assessment rate shall be applied against (1) the current value per bale, or (2) an average value determined from current and/or historical cotton prices and converted to a fixed amount per bale." The filing of exceptions to the decision are allowed through November 24, but no change in the order is expected.

"Asking that the order be changed at this point would risk delay in holding the referendum and jeopardize its passage," Johnson said, "and passage of the referendum must take precedence over all other considerations." With this in mind, PCG filed the following comment with USDA's hearing clerk:

"Plains Cotton Growers, Inc., representing around 20 percent of U.S. cotton production and 20,000 cotton producers in 25 counties on the Texas High Plains, cannot fully concur with your recommended decision of November 11 concerning amendment of the Cotton Research and Promotion Act.

"For reasons fully documented in our own and other testimony in hearings, we continue to fully support the Cotton Board's recommendation adopted August 20, 1976, for a supplemental cotton research and promotion assessment at the rate of four-tenths of one percent of the current gross sales price per bale of cotton.

"However, in the interest of preventing delay in the grower referendum for mid-December, we urge that the referendum be held on schedule, that the final decision on how the four-tenths of one percent is applied be made subsequent to the referendum, and that the final decision be made in agreement with the Cotton Board's recommendation."

Miss Crum, Green Exchange Vows

The First Baptist Church of Dumas was the setting for the October 27 evening wedding of Miss Daria Kay Crum and J. Durk Green.

The Rev. Ed Rogers, pastor, read the vows.

The bride is the daughter of Mr. and Mrs. Raymond Crum of Dumas, and the groom is the son of Mr. and Mrs. Don Gartin of Route One, Muleshoe.

The couple stood under an archway and before an altar decorated in greenery. As the bride entered the church, she presented her mother with a long stemmed red rose, and at the conclusion of the ceremony she presented the groom's mother with a long stemmed red rose.

Escorted and given in marriage by her father, the bride was attired in a floor length gown of uetria jersey knit, the empire bodice was trimmed in Chantilly

lace and seed pearls. Her mantilla veil, of imported illusion, fell to a chapel length train.

Maid of honor was Mandy Harbert, cousin of the bride, bridesmaid was Amy Brillhart, and Erin Beth Whitehead was flower girl. They wore identical blue floor length jersey gowns, topped by sheet floral flocked capes, with lace trim. Their large garden hats featured blue ribbon streamers.

Best man was Don Gartin, father of the groom, groomsmen were Donnie Orther, and Todd Whitehead was ringbearer.

Terry Crum, brother of the bride, Gary Gartin, brother of the groom, and Alec Schuster, cousin of the groom were ushers.

A selection of wedding music was rendered by Mrs. Howard Clark at the organ and soloist was Joyce Herndon.

The reception was held in the church parlor following the ceremony. The table was covered with a white cloth, two candelabras, circled with blue and white mums completing the setting for the two tiered wedding cake. Serving from crystal appointments were Mrs. Joe Jordan, aunt of the bride, and Miss Janie Green, sister of the groom. Members of the house-party were Mrs. Jimmy Stokes, Mrs. Phinias Moore and Mrs. Ken Duke.

The bride is a 1974 graduate of Dumas High School and is employed in the office of Dr. Linsey Taylor, Amarillo.

The groom is a 1974 graduate of Muleshoe High School and is employed by Handy Dan Hardware in Amarillo and is also a rodeo photographer.

After a wedding trip to Juarez and El Paso, the couple will

make their home at 3117 Julian, Amarillo.

10 Years Ago

Gordon Murrah will leave Muleshoe Sunday enroute to South America for six weeks, where he will be connected with farmer's exchange.

TOPS officers for the following year are as follows: Jewell Peeler, weight recorder; Cecile Cunningham, treasurer; Glenda Cole, secretary; Ruby Ward, vice group leader and Laurantette Mason, group leader.

Students who will be trying out for the All-State Band Saturday are Neil Finley, Kathy West, Jan Landers, Penny Langer, Linda Griffiths, Jan Everett, Lindell Wilson, Dennis Burrows, Billy Kelly, Marsha Blackman, Renee Howard, Sherry Trapp, Jane Branscum, Hal Anderson, Farn Jones, Ray Sanchez and Nancy Lee.

20 Years Ago

The 66 piece Muleshoe High School band, directed by Paul Summersgill, will take part in the parade of bands at the Sun Bowl football game New Year's Day in El Paso. The Band Boosters Club will underwrite the trip for the band, Summersgill announced.

Mr. and Mrs. Robert F. McKinstry left Tuesday by train for their home in Mound City, Mo. after spending a week in the homes of Mrs. Sam McKinstry, the Harold and Oscar Allison. Mr. and Mrs. Oscar Allison accompanied them to Clovis, N.M., where they took the train.

Private Kenneth M. Hanks, 22, son of Mr. and Mrs. J.H. Hanks, Star Route, Earth, recently was graduated from the general supply specialist at the Army's Quartermaster School, Fort Lee, Virginia.

30 Years Ago

Jack Young, son of Mr. and Mrs. T.C. Young, who is attending ENMU at Portales came home Tuesday to remain until after Thanksgiving holidays.

Mr. and Mrs. Buck Wood and Mrs. Howard Elliott and daughter, Quineil, were in Lubbock Tuesday.

Marriage Licenses listed in Thursday, November 28, 1946 Muleshoe Journal: John B. Key and Juanita June Tate of Ralls, Leo A. Clark and Laverne Ratliff of Littlefield.

MRS. J. DURK GREEN

Third Annual Parade Of Homes Planned

The Third Annual Parade of Homes will be held December 5,

40 Years Ago

Mrs. C.F. Moeller, Mrs. Charley Walker and children visited in the home of Mrs. Alma Steinbock at Lazbuddie Sunday.

For Sale: Milk cow, will be fresh in about three weeks, price \$35.00. C.S. Otto, eight miles west of Muleshoe.

Mrs. Joe Thompson and sons of Lariat visited in the Charlie Pruitt home Sunday.

1976, from 1:30 to 5:00 p.m. The tour is sponsored by Xi Omicron Xi Chapter of Beta Sigma Phi and the public is cordially invited to attend.

Homes in Muleshoe to be featured are the Bill Loyd's, 1724 West Avenue C and the Gary Albertson's at 1902 West Avenue H.

Three homes in the Lazbuddie area will be shown: the Melvin Morris home, 1/4 mile south of Clay's Corner; the Demp Foster home, two and a half miles east of Lazbuddie; and the Dud Winder home, six miles east of Lazbuddie.

Persons wishing to tour the homes may purchase tickets for \$2.50 from Muleshoe Floral, Art Loft, or by calling Mrs. Max King at 272-3918, Mrs. Doyce Turner, 272-4642, or Mrs. John Neil Agee at 925-6773. Tickets will be available at all the homes on the day of the tour.

Maps will be given to each person when presenting his ticket at the door, this map must be presented at the following homes before entrance will be granted.

Refreshments will be served at the Albertson home and a door prize will be given away.

West Camp Community Plan Family Night

West Camp community residents are in for a big treat at their monthly family night, December 4, at the West Camp Community Center. The entire family is invited to be at the center at 7:30 p.m. for good family music, and the usual table games, visiting, and just a general good time with your friends and neighbors.

Those families who wish may bring baked goods and/or crafts to be displayed for a silent auction. Money raised will be used for the floor covering project of the community center.

Each family is asked to bring sandwiches, chips and dips for their family. Coffee and punch will be furnished by the community center.

DECEMBER WEDDING PLANNED . . . Mr. and Mrs. Bernie Davila of Bula, announce the engagement and approaching marriage of their daughter, Ida, to Larry Wayne Jones, son of Mr. and Mrs. Preston Jones of Comanche, Okla. The wedding date has been set for Saturday, December 4, at 4:00 p.m. in the Bula Baptist Church.

Art Show Rescheduled

Due to the snow storm on November 13, the Texico Woman's Club had to cancel their annual Art-Craft-Jewelry Affair for that day. It has now been rescheduled for December 4, 1976 from 8:00 a.m. to 5:00 p.m. at the South gym of the Texico School Campus. The concession stand will be open. Everyone is encouraged to come, according to Margie Crooks.

The proceeds from this affair are used for projects such as: sending a girl to Girls State each year, a college scholarship award presented to a graduating senior, community improvement projects, aiding the elderly and youth of the community.

Brief, Very Brief

Polls found pocketbook concerned most voters.

Public didn't believe all the apathy talk.

Move to impound N.Y. ballot boxes dropped.

Ian Smith expects Carter to follow African policy.

Carter already at work developing his Cabinet.

Carter vows to move aggressively.

Enochs Club Show Items

Enochs Home Demonstration Club met Tuesday, November 23, in the home of Mrs. Bonnie Long.

Mrs. Wilma Petree presided over the meeting showing several crafts various members had brought for Christmas decorations. Some decorations shown were four inch styrofoam balls covered with greenery, balls and miniature electric lights.

Those present were Wilma Petree, Zelma Fred, Winnie Byars, Ada Long, Elnita Key, and the hostesses, Lillian Fort and Bonnie Long.

Beta Sigma Phi Meet

Xi Omicron Xi Chapter of Beta Sigma Phi met Tuesday, November 23, in the home of Mrs. Max King. Mrs. John Agee was co-hostess. Members met for a poster making party and to make final preparations for the Christmas Home Tour to be held December 5.

Refreshments of popcorn, candy, soft drinks and hot tea were served to the following members:

Mrs. Charles Pummill, Mrs. Joe King, Mrs. Ken Box, Mrs. Spencer Tanksley, Mrs. Bob Finney, Mrs. Kearney Scoggin, Mrs. John Agee, and Mrs. Max King.

Sudan News

By Mrs. Wayne Doty

Mr. and Mrs. Ralph Stine and Colby of Dell City, Okla. visited during the weekend in the home of her parents, Mr. and Mrs. Dewey Bandy.

Mr. and Mrs. Kenneth Richards and family visited in Graham with his mother during the Thanksgiving holidays.

Mr. and Mrs. Bob Drake returned home recently from Houston, where they visited with their daughter and son-in-law, Mr. and Mrs. Bill Myer.

Mr. and Mrs. Jerry Morris and boys of Grants, N.M. and Dr. and Mrs. Thurmon Bryant had Thanksgiving dinner in the home of their parents, Mr. and Mrs. Homer Morris.

Thanksgiving holiday guests in the home of Mr. and Mrs. Bob Drake were his brother, Mr. and Mrs. L.H. Drake of Tulsa, and his sister, Mr. and Mrs. Harvey Frick of Lubbock.

Thanksgiving guests in the home of Mrs. S.D. Hay were her granddaughters, Phyllis Ryan of Anchorage, Alaska, who is attending college in Colorado, and Charise Richard of Brenham.

Mr. and Mrs. Claude Kropp were in Farwell Sunday to visit their son and family, Mr. and Mrs. John Kropp and children.

Mr. and Mrs. Robert Earl Williams and Dusty of Vernon visited during the weekend in the home of his parents, Mr. and Mrs. D.W. Williamson.

Thanksgiving guests in the home of Mr. and Mrs. Claude Kropp were their children, Mr. and Mrs. John Kropp and children of Farwell, Mr. and Mrs. Charles Minchew and boys of Hereford, Oliver Waller and Mr. and Mrs. Butch Waller and children of Hart.

Mr. and Mrs. G.C. Ritchie and Steve spent the Thanksgiving holidays in Farmington, N.M. with her sisters and brothers.

Mr. and Mrs. B.A. Beauchamp Jr. and Derwin had Thanksgiving dinner in the home of relatives in Hobbs, N.M.

Among those home from college for the weekend were Susan Cardwell, Lisa Harper, Rex Baccus, Phil Kent, Mary Ann Bellar, Gaylene Rogers and Craig Harper.

Mr. and Mrs. Jeff Lynskey and Bradley of Lubbock visited during the weekend in the home of her parents, Mr. and Mrs. Bud Provenca and Darren.

Renay Jordan of Clovis, N.M. visited Friday night in Sudan.

Weekend visitors in the home of Mr. and Mrs. G.C. Churchman and Scott were their daughters and sisters, Mr. and Mrs. Larry Schweppe of Lubbock and Mr. and Mrs. Jerry Etheridge and Kay Lynn of Dimmitt.

Mr. and Mrs. A.L. Nelson of Seminole visited in the home of their son and family during the weekend, the Bob Nelsons.

Saturday visitors in the home

of Mr. and Mrs. Clyde Flowers were her parents of Ralls.

Word was received last week that Mrs. J.L. Hill, Sr., 89, grandmother of Mrs. G.C. Ritchie, died at her home in Pharr Wednesday, November 17.

Among those who have recently been patients in the Amherst Hospital include Jessie Manca-do, Kay Tamplin, Annie Chester, JoAnn Ford, and Louise Parrish.

Visiting the Bernard Wilsons during the weekend were his sister and brother-in-law.

Mrs. V.V. Terry left Sunday for Roswell, N.M., where she spent Thanksgiving with her son and family, the Bob Terrys.

Mr. and Mrs. Bruce Armstrong and family of Wichita Falls spent Thanksgiving with Mr. and Mrs. W.T. Vereen and Billye Grigsby.

Mr. and Mrs. Dennis Daniel of Amarillo spent the weekend with Mr. and Mrs. Acie Daniel.

Mr. and Mrs. Tom King were in Vernon on business last week.

Mrs. J.W. Olds and Miss Bertha Vereen spent Thanksgiving in Lovington, N.M., with their sister and family, Mr. and Mrs. J.A. Faris.

Mr. and Mrs. Bobby Beal and children attended church and had Sunday lunch with her parents, Mr. and Mrs. W.A. Beal.

Mrs. Harold DeLoach of Muleshoe is visiting her mother-in-law, Mrs. Sallie DeLoach, for a few days, while her husband is hunting.

Mrs. John Withrow is still very ill in the Littlefield Hospital.

Mr. and Mrs. R.C. Williams and Mrs. Sandy Frisbie of Lubbock attended an art show and sale in Friona Saturday.

Mrs. J.A. Turner, Mrs. Valda Bishop, Lisa and Larry were all in Hamlin recently to visit their son and brother, Floyd, who is seriously ill and confined to his home under the care of a specialist.

Dr. and Mrs. Nelson Nicols of Lubbock visited here during the weekend with Mr. and Mrs. Radney Nicols and Mr. and Mrs. C.E. Nicols. They all visited their mother, Mrs. J.S. Smith, at Amherst Manor.

Kim Fisher of LCC attended church at the Church of Christ Sunday and visited with his parents, Mr. and Mrs. Jack Fisher.

Visitors during the weekend of November 13 and 14 in the home of Mrs. Lorene Walbrid was her brother, Mr. and Mrs. Albert Leu of Comanche, Okla. Also visiting during the weekend was Mary Winston of Muleshoe.

Mrs. Annie Chester injured her leg Saturday in a fall at her home and is a patient in the hospital in Amherst.

TRADE DEFICIT

The U.S. in September posted its fourth highest trade deficit ever as both imports and exports approached record levels, the Commerce Department said.

Good Nutrition

COLLEGE STATION -- Don't tell your age by your eating habits -- you may be aging, but you can eat young, Frances Reasonover, foods and nutrition specialist, says.

She's with the Texas Agricultural Extension Service, The Texas A&M University System. "Calorie requirements are the only difference between what young and old people should eat -- nutritional needs are generally the same. The body doesn't need any one particular food -- it needs components of food: protein, fats, carbohydrates, vitamins and minerals, called nutrients.

"Daily caloric needs decline with each decade over 50, so calorie intake must usually be reduced. Requirement for most other nutrients remains fairly constant during older life," she explained.

Foods furnishing nutrients are grouped into four basic groups.

"Major sources of protein in the American diet are red meat, poultry, fish and eggs. This group also contributes iron and some thiamine (Vitamin B1). The excellent protein contribution of milk and milk products is often overlooked. Dried peas, beans and peanut butter, especially when combined with meat or milk proteins are also good protein sources. Cereal protein and meat protein, combined in a frozen entree, provide useful protein at mealtime."

Calcium is the nutrient most likely to be consumed in amounts below recommended levels in the diets of the elderly. Milk and milk products furnish most of this important mineral. Those who do not drink milk may enjoy cheese, yogurt or milk desserts. Also, small amounts of calcium are found in vegetables, especially the dark leafy varieties. The milk group also supplies riboflavin and, if fortified, Vitamin D. Two cups of milk or equivalent calcium in dairy products is needed daily, she said.

"The fruit and vegetable group furnishes Vitamins A, C, some calcium and iron. In the American diet, orange juice has become the major source of Vitamin C. But other sources are grapefruit, cabbage, broccoli, vine-ripened tomatoes, green peppers and such fruits as strawberries and cantaloupe. A serving of a Vitamin C rich food each day is recommended.

"Think 'green' and 'orange' for food sources to furnish Vitamin A. Deep green leafy vegetables, winter squash, carrots and cantaloupe are all excellent sources of carotenes, which are converted to Vitamin A by the body. Liver is a rich source of Vitamin A. Vitamin A is stored by the body, and one serving is needed every other day."

Four servings of the bread-cereal group are needed daily. Cereal products contain the B vitamins: thiamine, riboflavin and niacin. These three vitamins are mentioned together because they normally appear in the same foods. Along with iron, they are the three vitamins added when cereal products are enriched. Whole-grain cereals are the most common source of these B vitamins. In addition, riboflavin is found in dairy products, while pork is a good source of thiamine or Vitamin B1.

"No single food has a high iron content. The dietary intake must come from small amounts of iron found in many foods. Meats, eggs, cereals, whole-grained or enriched, dark leafy green vegetables, dried apricots and raisins all add to the daily iron intake.

"Dietary fiber provides bulk necessary for the efficient function of the gastrointestinal tract. Food sources of fiber are fresh fruits and vegetables, whole grain cereals, dried fruits and nuts," she said.

Water is an important component of all body cells. It functions in the regulation of body temperature and the removal of waste products from the body.

Water is an important component of all body cells. It functions in the regulation of body temperature and the removal of waste products from the body.

This means liquid intake is important. Much of the water consumed is in the form of food, beverages and soup. The amount needed varies with the individual and the food eaten, but everyone needs the equivalent of several glasses of water each day, Miss Reasonover said.

Sodium and potassium play a major role in maintaining the fluid balance in the body. Many people retain liquids because of excess salt intake or failure of the kidneys to function efficiently. Persons with this problem should be under the care of a physician who may prescribe medication. Sometimes doctors restrict salt intake and suggest the use of salt substitute products. Most elderly persons can continue to enjoy moderate amounts of salt used for seasoning food. Do not use salt

substitutes unless suggested by a physician.

Just as 5 p.m. once was "quitting time", 7 a.m., 12 noon and 6 p.m. signify it is time to eat. How many times a day should a person eat? There is nothing magic about three meals. Five small meals a day are fine, as long as the appropriate number of servings from each food group are consumed daily and the caloric intake maintains reasonable body weight, the specialist said.

If efficiently used, a small refrigerator-freezing unit is large enough to allow for variety in meals. Family-size recipes can be prepared and leftovers can be stored in the freezer in small casseroles or boil-in-the-bag pouches for later use, she suggested.

Health Resources In New Building

In recent years, people who have had business with the Texas Department of Health Resources may have had a hard time finding the right office. Now, all that is about to change.

Besides the main headquarters building in north Austin, the state's public health agency has continued to occupy its original headquarters in downtown Austin plus rented offices in eight different locations. This month, however, the last of three new facilities has been completed at the main headquarters complex, re-uniting all of the department's central personnel at one location.

The first of the new buildings to be completed and occupied was a service and warehouse building. The facility includes the agency's extensive printing facilities, literature warehouse and distribution office, film library, and more than a dozen repair and maintenance shops.

A second new building, occupied about a month ago, was designed specifically for the agency's Vital Statistics section. Some 20 million birth, death, marriage, divorce, and other essential records are housed in the facility, which is designed with special environmental controls for the optimum preservation of these irreplaceable records.

The largest of the three new buildings has just been completed. It is an eight-story office tower containing some 108,000 square feet of space. Personnel began moving into the new building on November 15.

The total cost of the three-building complex was set by the 64th Legislature at \$6.75 million. According to Aubrey Smelser, the director of the agency's Medical Facilities Planning Division who has coordinated the construction program, the equivalent office and service facilities would have cost the state about half a million dollars a year in rent alone.

"Of course, there are other costs involved in renting," Smelser said. "Especially in scattered locations like we've had. The cost of courier service, mail service, telephone mileage -- costs of this nature are not reflected in the cost of rent alone."

While personnel are still moving into the new office building, plans are being made to remodel the interior of the other facilities in the main headquar-

ters complex. Smelser said. "This will involve partition changes and interior painting, minor work of this nature. Nothing major is involved. We anticipate completing all of this work by next April."

Meanwhile, the original state health department building, on East Fifth Street in Austin, has been turned over to the State Board of Control for re-assignment to some other state agency. The four-story, white stucco building across the street from Austin's main fire station has become a familiar landmark, and, Smelser says, "Still has many good years of use left in it."

The new facilities not only will eliminate costly rental charges and other expenses, but also will boost the agency's productivity, Smelser believes. He says, "One's environment and working conditions certainly have a profound effect on one's efficiency. Under the crowded conditions the Department has worked with in the last several years, there are obviously a lot of problems, and it's just not very conducive to efficiency and productivity."

MR. AND MRS. PRESLEY MAX NEWTON

Afternoon Ceremony Unite Area Couple

Mr. and Mrs. Matt Moseley, Muleshoe, proudly announce the marriage of their daughter, Kathryn Renee Moseley, to Presley Max Newton, son of Mr. and Mrs. T.R. Newton of Texline.

The couple were married Wednesday, November 24 at 3:00 p.m. in the home of the bride's parents.

Officiating at the ceremony was Andy Rogers, Lazbuddie Church of Christ minister. The maid of honor was the bride's sister, Mrs. Glen Morris of

Winchester 1400 12-gauge shotgun or \$209 to be applied to a gun or pistol of equal or higher value.

Raffle tickets are still being sold on the Singer Stylist Zig-Zag sewing machine donated by Harvey Bass Appliance. This drawing is to be held Saturday, December 18. Tickets may be purchased from any Muleshoe Young Homemaker member.

The drawing for the gun was held on Saturday, November 20, with J.R. Carpenter drawing the winning ticket. The lucky winner was Kenny Kittrell of Muleshoe. Kittrell now has his choice of a Winchester 243 Bolt Action.

Muleshoe. Best man was the groom's brother, Denis Newton of Texline.

Out-of-town guests were Mr. and Mrs. T.R. Newton of Texline, Mr. and Mrs. Marty Moseley of Lazbuddie, Travis and Kathryn Hancock of Bovina, Mrs. Donnie Johnson of Paducah and Reta Davis of Lubbock.

Bill Loyd, President
Muleshoe State Bank

Budgeting problems face all of us . . . in business as well as personally, but perhaps the problem is most awesome for the young couple just getting started. It's an easy time for emotions, rather than sound financial considerations, to play a dominant role in budget decisions.

One of the budget items most often getting out of hand is the allowance for housing. There are a lot of different estimates around, but most experts agree families should allocate about 25 percent of their budget for housing. Families earning \$1,000 per month for instance, should pay no more than \$250 for rent or mortgage payments. This amount should include all utility bills.

Another question often arising concerns how much really **needs** to be in a savings account. Specific answers, of course, depend on individual situations, but because of the possibility of being out of work, most authorities agree that everyone who can should maintain a savings account equal to at least three months living costs.

"You and your business partner may agree the survivor will buy the other's share. But can either of you raise the cash?"

Let's talk instant-cash. Professionally."

Southwestern Life

Helping people - person to person.

AUSTIN — Texas oil supplies are decreasing, and the Railroad Commission is sending out the alarm. The commission last week, for the first time in more than four years, reduced the statewide production allowable — from 100 per cent to 99 per cent. Although the cut is small,

it is designed to get big results by gaining Washington's attention. About 40 per cent of U.S. crude oil is produced in Texas. In 1975, the total for the state came to 1.2 billion barrels, but outflow is off 26 million barrels in 1976. "Whether this will be

good, bad or indifferent, I think it's time that the people in Washington begin to realize that the capacity of Texas to continue to produce crude oil and natural gas with the declining incentives to do so is having a diminishing effect upon our natural resources in Texas," said Railroad Commissioner Jim Langdon.

Commissioner Mack Wallace said new steps must be taken to alert the nation to "the very severe problem that continuously approaches us without any activity on the part of the congress to alleviate the problem."

The change in the allowable will lower estimated

crude oil production only about 7,500 barrels a day — to 3,124,500 barrels. Commissioners stated the production trim would save oil for possible emergency use.

The East Texas Field again was restricted to 86 per cent production.

Primary Boosted
Legislation to revive and extend an altered version of a presidential preference primary in Texas has been prefiled in the House of Representatives.

The bill by Reps. Sarah Weddington of Austin, Luther Jones of El Paso and Lance Lalor of Houston would establish a proportional primary system. De-

legates would be selected by state political party conventions in proportion to the state wide popular vote (for candidates receiving more than six per cent of the total). State Democratic Executive Committee is expected to come up with its own version of primary legislation after a special committee study.

Bell Rests Case

Southwestern Bell Telephone Company rested its case before Texas Public Utility Commission for a \$298.3 million hike in its Texas rates.

The P.U.C. staff, meanwhile, came up with its own alternative proposal which

would give Bell about a sixth of what it asked — \$49.76 million.

Bell is continuing to cross-examine opposition witnesses. After concluding summaries, the commission is expected to reach a decision — possibly by mid-December.

Cities Get \$13.2 Millions

The 640 Texas cities levying sales taxes got checks totalling \$13.2 million as their November rebate on collections.

A total of \$252.2 million has been received by the cities to date this year. This represents a 13 per cent increase, or about \$28.5 million over 1975.

November rebate checks ranged from \$501 for Springtown to more than \$2.5 million for Houston.

Courts Speak

Texas Supreme Court held constitutional a new state law regulating mobile home sale and manufacture and requiring performance bonds.

The high court decided a San Antonio mother delayed too long a lawsuit for \$1 million in damages due to alleged brain damage suffered by her infant daughter in an operation.

Court of Criminal Appeals reversed a marijuana conviction on grounds Houston police had no right to stop the driver of a car because it had out-of-county license tags and was moving slowly.

The same court reversed a 99-year prison sentence of an Ector County woman for heroin possession due to improper argument to the jury by the prosecutor.

AG Opinions

Atty. Gen. John Hill emphasized the 55 miles per hour Texas highway speed limit is constitutional and can be validly enforced.

In other recent opinions, Hill concluded:

City election records must be made public immediately.

Examination reports of the Department of Banking

concerning loans made to individuals are exempted from public disclosure.

The Board of Nursing Examiners is authorized to accredit specialty programs in nursing offered by colleges and universities.

The Department of Labor and Standards is not authorized to conduct "shop survey" of boiler manufacturers and to charge a fee for the checks.

Feedlot owners or operators who fatten cattle for others are not covered by the Texas Commercial Feed Control Act of 1957 requiring registration of brands and labeling of containers.

Livestock and poultry are not "farm products" and thus are not exempt from taxation. Family supplies for home and farm use as defined by the constitution means consumable articles reasonably necessary for day-to-day use in the farm or home.

Yarbrough Confident

Don Yarbrough, the controversial State Supreme Court associate justice-elect, is making plans to take the oath of office January 1.

The 35-year-old Yarbrough said he is confident he will beat a State Bar disbarment attempt and serve out his six-year term on the high court.

Yarbrough has been busy in Austin during the last few weeks making arrangements to move into his new post. He also has been discussing with news reporters airing "his side of the story" of the Bar complaint and civil lawsuits against him.

Short Snorts

More than 500 appointments to state positions await Senate nominations sub-committee action when the legislature convenes. Sen. Peyton McKnight of Tyler will be chairman of the panel.

Comptroller Bob Bullock's auditors began checks on records of eight Panhandle service stations after action

against a prohibited drip-gas operation.

The Senate Administration Committee approved new committees and staff streamlining for the 1977 legislative session.

Sen. A. R. Schwartz of Galveston indicated he will make a new effort to determine if the Department of Public Safety is engaging in non-criminal investigations of private citizens' activities.

Former State Rep. Kay Bailey of Houston, now vice chairman of the National Transportation Safety Board, has been named one of 10 outstanding young women of America for 1976.

Texas Railroad Commission has intervened in an Interstate Commerce Commission proceeding to prevent proposed abandonment of more than 104 miles of West Texas railroad tracks.

BIBLE VERSE

"Whatsoever ye do, in word or in deed, do all in the name of the Lord Jesus, giving thanks to God the Father through him."

1. Who is the author of the above advice?
2. To whom was he writing?
3. Upon what occasion?
4. Where may this verse be found?

Answers To Bible Verse

1. Paul the Apostle.
2. The Christians in the church at Colosse.
3. To counteract the influence of false leaders who had come into the church.
4. Colossians 3:17.

The Christmas Season is approaching, and the smart housewife will do her shopping early and patronize the hometown merchants.

A Muleshoe First Brought To You By
FIRST NATIONAL BANK

ANNOUNCING

FIRST NATIONAL BANK

The First National BanClub is a sensational new approach to Banking in which the First National Bank brings you a service designed to make your personal banking more efficient and easier at First National Bank. You now have available a number of personal banking services for a single monthly fee of \$3.00 and with no minimum balance required.

FOR ONLY \$3.00 PER MONTH YOU WILL RECEIVE

—FREE PERSONALIZED CHECKS

ALL the personalized checks and deposit slips that you need.

—NO SERVICE CHARGE

No service charge on your checking account — regardless of number of checks written. (Does not eliminate overdrafts and insufficient checks.) No minimum balance required.

—\$10,000 ACCIDENTAL DEATH INSURANCE

You are covered by \$10,000 accidental death insurance, \$5,000 age 70 and over. On and off the job coverage by Fireman's Fund American Life Insurance Company, divided equally on joint account members. Additional \$10,000 accidental death insurance for \$1.00 additional monthly fee.

Additional \$20,000 accidental death insurance + \$1,500 each dependent child 15 days to 25 years old for \$2.00 additional fee.

PLUS

TRAVELERS CHECKS, CASHIER'S CHECKS, AND BANK MONEY ORDERS...

You pay no issue charge for Travelers Checks: when you need a cashier's check or money order we issue it. At no charge to you.

REDUCED RATE ON NEW INSTALLMENT LOANS...

To keep you informed of money saving opportunities, the BANCLUB Digest will come directly to you on a regular basis.

RENT-CAR AND MOTEL DISCOUNTS

Our BANCLUB members will receive special discounts from HERTZ Rent-A-Car and participating Roadway and Holiday Inns for rooms. When you travel, these savings really add up.

SPECIAL TRAVEL TOURS

As a member you'll be eligible for a variety of exciting travel opportunities throughout the year at special low group rates. Watch for announcements.

MEMBERSHIP CARD

Your personal BANCLUB Membership Card will be your passkey to many special services and discounts.

6 ways your Crop Care dealer helps you make better crop profits:

To help you farm better, and make more money, your Crop Care dealer offers the following services:

1 Complete, accurate, soil testing service. Your Certified Crop Care dealer will take your soil samples and send them for you to a leading soil analysis laboratory. The laboratory soil analysis and computerized fertilizer recommendations will be delivered to you.

2 Plant Analysis. Your Crop Care dealer will help you take samples, and handle all details, up to and including delivering to you the printed analysis of the nutrient uptake of your plants. This service pinpoints deficiencies in uptake of nutrients, particularly minor elements, such as zinc, boron, etc.

3 One-source responsibility for your farm chemicals. Your Certified Crop Care dealer offers weed and pest control programs, as well as fertilization of your crop land. In some instances, your Crop Care dealer may render a complete range of services... from seed corn all the way through drying corn at harvest time.

4 Full measure. You will receive certification that guarantees your getting full weight or volume of fertilizer, or other farm chemicals, you order from your Crop Care dealer.

5 Professional counsel. Your Crop Care dealer is well informed on agronomy. He attends forums

that keep him up-to-date on the latest crop care techniques. Your Crop Care dealer is a central source of information about successful farming ideas used in your area. And he can draw on the experiences and techniques of other Crop Care dealers in the network.

6 Skilled, professional application. As a part of his total Crop Care service, your dealer offers custom application of fertilizer and other farm chemicals. Application may be made by one of your Crop Care dealer crews; or he may arrange for application by an independent applicator.

The services your Crop Care dealer offers are designed to help you get maximum yield; and to free up your time to do what you do best: **Manage.** Nobody can manage your farming operation like you. Your Certified Crop Care dealer can provide professional advice and services to help you do it better.

Remember, you get Certified Crop Care Center services **only** where you see this sign:

Your Certified Crop Care dealer is:

IF I HAD LOOKED THAT GIFT HOSS IN THE MOUTH-MEBBE I WOULDNY GOT STUCK!

Farm-facts

A Weekly Report Of Agri-Business News
Compiled From Sources Of The TEXAS DEPARTMENT OF AGRICULTURE
John C. White, Commissioner

Turkey Time... Wheat Pasture Prospects... Lamb Feeding... Milk Production Increases.

As you enjoy your Thanksgiving turkey this holiday time, consider how much that old bird has changed. Time was when turkey was tough and not too tasty.

The turkey you eat now is delicious, nutritious, and high in protein. It's not only good for you, but it tastes good, too. All this improvement did not come by accident.

Turkey rations are scientifically blended to produce a top quality meat. The turkey is bred to specifications which result in a meatier bird.

Because of these changes, turkey is a year-round meat that can be enjoyed any time. But Thanksgiving time is traditionally turkey time, and is an especially good buy during the holiday season.

Texas ranks fourth in the nation in production of turkeys. The leading county in Texas is McLennan, which produced 10 per cent of the state's turkeys last year.

Other counties in the top ten are Mason, Bell, Gonzales, Gillespie, Hill, Leon, Brown, San Saba, and DeWitt.

WHEAT PASTURE PROSPECTS in Texas in the Panhandle and Low Plains are below the status of a year ago. About 25 per cent of the seeded acreage had sufficient growth to pasture compared with 50 per cent two years ago. Available forage was rated generally fair to poor with less than ten per cent actually being pastured.

Range and pasture feed conditions in the state range from very poor and in some cases, extreme drought, to estimates of good to excellent. Nationwide, range feed condition was set at 66 per cent, which is 11 points under a year ago.

SHEEP FEEDERS in the state with a capacity of 2,000 head or more had 70,000 sheep and lambs on feed for slaughter as of Nov. 1, the Texas Crop and Livestock Reporting Service notes.

This is 31 per cent below the same month a year ago, but is three per cent above last month. Placements during October totaled 33,000 head.

Current intentions to market include 22,000 this month, 20,000 in December and 14,000 during January. December and January intentions are incomplete at this time because additional lambs could be placed on feed and marketed during these months.

OCTOBER MILK PRODUCTION in Texas is estimated at 275,000,000 pounds. This is eight per cent above October a year ago and two per cent above the previous month.

Milk production at 860 pounds per cow showed a significant increase. Production per cow averaged 80 pounds more this past October than a year ago and it was up 20 pounds from September.

Preliminary farm prices for all wolesale milk for October was estimated at \$11.20 per hundredweight.

Wayland College Homicide Class Beginning Soon

The Texas A&M University System's Engineering Extension Service will offer a three-day homicide seminar on the Wayland Baptist College campus here on December 6-8.

The special seminar will be held in cooperation with Wayland, the Lubbock County District Attorney's Office, the Harris (Houston) County Medical Examiner's Department, and two Lubbock County justices of the peace. The 20-hour seminar is directed toward those persons who are responsible for the investigation of suspected homicides, suicides, and other questionable deaths.

Ira E. Scott, chief of Texas A&M's Law Enforcement and Security Training Division, explained that the seminar's purpose is to provide these persons with an opportunity to meet together to upgrade their knowledge, techniques, and skills in performing their duties in a more professional manner. "In addition to a structured lecture program from nationally and internationally known experts,

participants will have opportunity to exchange information relative to homicides, or other questionable deaths."

Keynoters include Dr. Joe Jachimczyk, pathologist for Harris County; Alton Griffin, Lubbock district attorney, and Judge Wayne Lecroy, Lubbock, plus representatives of the Texas A&M staff. Additional information may be obtained by writing Texas A&M University, F.E. Drawer K, College Station, 77843, or its West Texas Regional Training Center, Box J, Floydada, 79235.

ATTEND THE CHURCH OF YOUR CHOICE

THE SPLENDOR OF THE Snow

Snow falls and puts a beautiful white blanket over the mountains, and even before this one is gone, others will fall. It will become deeper and deeper until the spring, when it begins to melt and provides life giving waters to many streams. These streams meet with others and become rivers and provide water for irrigation and lakes throughout our land.

Our Lord, Jesus has said that He will give to any that seek Him... "a well of water springing up into everlasting life." — John 4, 14

EVERYONE IN THE CHURCH THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Veterans Q & A

Editor's note: Following are representative questions answered daily by VA counselors. Full information is available at any VA office.

Q -- I will soon be drawing unemployment compensation. Will this have any effect on my receiving veterans educational allowance?

A -- Income is not considered in the payment of education allowances. Rates of payment are based generally on hours of attendance or the cost of the course.

Q -- A veteran's educational assistance may be apportioned in behalf of his dependents. Does this include dependent parents?

A -- N. Educational assistance may not be apportioned for dependent parents.

Q -- If a widow receiving Dependency and Indemnity Compensation becomes employed, does she lose her right to this benefit?

A -- No. Income is not a factor for DIC.

Friona Upset 'A' Team Mulettes

On Monday, November 22, the "A" team traveled to Friona with a lot of enthusiasm and spirit. All of the girls were a little bit nervous for their first game of the season.

The game started off with Kathleen Patterson jumping against Friona. The girls were really nervous in the first quarter, but, they began to settle down and look better in the second half. The first half went really fast.

At half time, Coach Flowers talked to the girls and then let the forwards shoot. In the second half, the defense did a good job of hustling and bringing the ball down the court. Kathleen Patterson made 18

points and Shelli Hawkins made four. Kathleen did a good job of shooting in the game, the only problem was not shooting enough when she was open. We hope to get more help from the other forwards in the future.

Considering that this was their first game against a team that has played a full year, our girls really didn't do that bad. It will take more game experience; but, they will come along with a lot of push.

Their next game will be Monday against Olton.

'A' Team Falls To Friona

On Monday, November 22, the Muleshoe eighth grade "A" team played their first game of the season against the Friona Chieftans.

The Chieftans won the game in the final three seconds of the fourth quarter. The score ended with Friona coming on top with the score 29-28.

The following players scored points for the Mules: Felix Norman scored 10 points, Wesley Rasco with six, Charles Walker and Micky Long tied with four points each, and Carrol Precure with one point. Their next game is against Olton. The game will be played at Olton. The starting time will be at 5:00.

Player Of The Week

This week's player of the week for eighth grade is Wendy Stice. "Last week we didn't have a player of the week because we had a short week and with this week being short also, the coaches decided to combine both of them together. During this time, Wendy has shown a tremendous amount of improvement. She has put out an extra

WENDY STICE

effort each day to be more competitive when running sprints, as well as on the defensive end. In the game Monday night against Friona, she put this desire in action. We're expecting a great deal from her in the future games." CONGRATULATIONS!!!

Happy Birthday

The Journalism Staff would like to wish the following students a happy birthday!!!

- November 25 - John Orozco.
- November 26 - Ronnie Angley.
- November 27 - Mike Huerta.
- December 1 - Greg Williams.
- December 3 - Jessie Beversdorf and Ricky Vaughn.
- December 4 - Greg Harrison.
- December 6 - Michael Foss.
- December 7 - Mary Alice Orozco and Gracie Olivas.
- December 8 - Marvin Lewis.
- December 9 - Joey Carpenter.

If you can have but one possession, character is still your best bet.

Mules Fall To Friona By 22-20

Last Monday, the Muleshoe Mules "B" team lost to Friona by a score of 22-20. The scoring for the Mules went like this: Michael Davenport, 10; Raymond Cabrera, four; Brad Poyner, two; Greg Harrison, two; and Benton Glaze, two. This was the first game the Mules have played this year. Coach Goodin said that they played real well, but they were going to work hard this week to get ready for Olton next Monday.

At the end of the first quarter, the Mules were behind 10-4, but in the second quarter the Mules outscored the Chieftans making the score 14-12 in favor of the Chieftans at halftime.

MJHS Group

In Austin For Meeting

On Thursday, November 18, four Student Council members and their two sponsors went to the Regional Texas Associations of Student Councils Convention in Austin. They left at 6:30 a.m. and arrived ten hours later at the Villa Capri Hotel in Austin. Later, the six, Clifford Watson, Leslie Wagnon, Benny Pena, Denise Evetts, Mrs. Mary Scoggins, and Mike Richardson went to a nice restaurant called the Magic Time Machine, ate and went back to the hotel.

Friday morning, the six registered into the Convention. After registering, they all went and took a tour of the Texas State Capitol. After making the tour, they got to meet the Speaker of the Texas House, Bill Clayton, who is from Springlake. They all really enjoyed visiting with him. They then returned to the hotel, and went to the first meeting of the Convention. After two more meetings, and then eating, they all went to the L.B.J. Library and enjoyed it. After returning to the hotel, and going to the rest of the meetings, the four members and two sponsors went to the Highland Mall, ate, shopped around, went back to the hotel and went to a dance sponsored by the Convention. They then returned to their rooms.

Saturday, they all went to the closing sessions, and started back home at about 11:30 a.m., and arrived back home at about 9:30 p.m. They all really enjoyed the Convention, but were glad to get back home.

In the third quarter, both teams scored six points making the score 20-18 with the Chieftans on top. Then in the fourth

'B' Mulettes Slip By Friona

On November 22, 1976, the 'B' team Mulettes played the Friona Maidens at the Friona Junior High Gym. At 5:00 the game began with Keva Roming jumping for the Mulettes. Starters for the Mulettes were Keva Roming, Michelle Agee, and Minerva Martinez for the forwards and Estolia Gonzales, Kathy Rodriguez, and Anna Martinez on the defensive end. Beatrice Garcia had 13 points to lead the eighth grade 'B' team. Michelle Agee scored eight points and Keva Roming had two points.

Coach Scott's comments on the game were, "I was very proud of the way the girls came from behind, with a score of 11-2, to take a victory of 23-21. We had trouble with fouls but we hope to be able to control this in the future games. The girls showed lots of enthusiasm and hustle which helped us to get back into the game after being down 11-2 at the end of the first quarter."

Rebounds, stolen balls, and hustle were all a big help to the victory. Fouls, 3-seconds in the lane, and line violations need to be worked on. The next game will be on November 29 at the Muleshoe Junior High Gym with the 'B' team starting at 5:00. The Mulettes would like to encourage the Muleshoe fans to come and help support them to a winning season.

Mary De Shazo Honor Roll

Three answers to corn head smut.

1.

UC 9451

This heavy-yielding, tall, robust, full-season hybrid scored 96% freedom from corn head smut infestation in the Texas A&M studies near Dimmitt this summer. First report, 1976 yield: 150.00 bushels of #2 corn, Castro County.*

2.

UC 6601

This short-stalked, medium-maturity hybrid rated 98% freedom from corn head smut. First report, 1976 yield: 169.64 bushels of #2 corn, Hale County.*

3.

UC 8801

Scored 93% freedom from corn head smut infestation. Our biggest seller, this hybrid is well adapted to the High Plains. First report, 1976 yield: 178.57 bushels of #2 corn, Floyd County.*

Get the facts!

Corn head smut can slash profits because each diseased plant yields virtually nothing. The ACCO SEED hybrids listed here showed excellent freedom from this new soil-borne disease. Each is adapted to High Plains growing conditions. But the most popular competitive hybrid tested in the same field, showed corn head smut damage in more than half of its plants! There is a difference! We urge you to get all the facts before you buy seed corn for 1977 planting.

*Names and addresses of yield reports available on request.

Coming on stronger than you thought!

Plainview, Texas 806-652-3312

We have the corn hybrids you're looking for.

Former Resident Funeral Service Held Saturday

Services for Jessie May Waldrop, 67, of Morton, formerly of Muleshoe, were held at 10 a.m. Saturday in the First Baptist Church in Morton with the Rev. Paul McLung, pastor, officiating.

Burial will be in Bailey County Memorial Park under the direction of Singleton Funeral Home.

She was pronounced dead at her home Thursday about 1:15 p.m. by Justice of the Peace Roy Tilley, who ruled death from natural causes.

She had been a resident of Morton since 1963, and had previously lived in Muleshoe, where she operated a beauty shop for many years.

Survivors include a son, Don Lamar of Morton; two sisters, Mrs. C.B. Jones of Morton and Mrs. Luine Robinson of Big Spring; two brothers, J.D. Anderson of Big Spring and L.C. Anderson of Lubbock; four grandchildren and three great-grandchildren.

Fall Application Of Fertilizer Considered

A soil chemist for the Texas Agricultural Extension Service says farmers applying fertilizers this fall should know the properties of both the fertilizer materials and their soil if they expect top yields next year.

"Fall application of fertilizers is becoming more common in the hardland areas of the Texas High Plains," says James Valentine, who heads the Extension Service soil laboratory at Lubbock. "Fertilizers applied this fall can be expected to give excellent yield responses in 1977. However, for farmers to achieve efficient crop use of this material and hold their costs down, they must understand the nature of fertilizer materials and the characteristics of their soil."

First, Valentine says, producers should keep in mind the properties of nitrogen fertilizers for which West Texas crops have the heaviest demand.

"There is ample research showing comparable yields from like amounts of properly applied nitrogen, regardless of which carrier is used," he says. "However, these carriers have different chemical and physical properties which should be considered with respect to method and time of application."

"All nitrogen fertilizers whether dry, liquid or gas are sold with a guaranteed total nitrogen content," the Extension specialist explains.

"Anhydrous ammonia is the initially manufactured material from which all nitrogen fertilizers are made. It is the most concentrated fertilizer available and may be applied 'as is', or in water solutions. Positively charged ammonium ions attach to negatively charged soil clay particles on application and are not subject to leaching until they have been oxidized to the nitrate state by micro-organisms. This nitrification process proceeds fastest at about 85 degrees, slows down at soil temperatures of 50 degrees and ceases almost entirely when temperatures approach the freezing point. Soil temperatures are usually around 50 degrees by November 1, which means ammonia and ammonium fertilizers can be safely applied by that date with little concern for leaching throughout the winter season."

Valentine points out that application can best be made when moisture conditions are favorable for cultivation, frequently the case in the fall. It can also be applied in dryer soils; however,

deeper placement is generally required and greater attention must be given to covering. There should be no ammonia odor over the chisel furrow, he says.

Other commonly used materials in descending order of their nitrogen concentration are urea, ammonium nitrate and ammonium sulfate, says Valentine. These may be applied as materials or in combination with various blends of other materials.

"Urea is a readily soluble substance that does not, as such, enter the root system. Through enzymatic activity and chemical reaction, it is changed first to ammonia. Therefore, to insure best utilization, urea should be covered with soil or moved into the soil by water soon after application. Ammonium nitrate is the more stable of these materials under prolonged exposure on the soil's surface."

He adds that nitrogen in ammonium sulfate and in ammonium phosphates may on prolonged exposure be lost to volatilization when surface applied to calcareous or high lime soils. Like urea, they should be incorporated soon after application.

Phosphorus, the second most limiting plant nutrient in High Plains soils, stays near the point of placement and is not subject to leaching, Valentine emphasizes.

"The reactions of phosphatic fertilizer in soils are quite complex. Phosphates must be incorporated into the root zone to be effectively utilized, and fall application works well. Growers should remember that many soils still have sufficient native phosphorus. Others, deficient in native state, are now relatively high because of recent phosphate application. Then there are many that are severely deficient."

Turning to other nutrients, the

 Stop worrying about what your neighbor does and you might be able to take better care of yourself.

More Damaged Cotton Follows Recent Snow

More Spotted and Tinged cotton was classed this week compared to previous weeks, according to Paul R. Dickson, in charge of the Lubbock Cotton Classing Office. Early freeze or extensive hail damage are often causes of spotted or tinged grades. Crop progress is slowed or stopped before cotton can mature, Dickson said.

The USDA's Agricultural Marketing Service reported cotton trading was moderate to active the week ending November 19. Growers offered cotton in moderate volume.

Mixed lots of mostly grades 52, 43, and 53; staples 30 and 31; mikes 3.5 through 5.2 brought 63.50 to 66.50 cents per pound. Growers sold mixed lots of mostly grades 41, 42, and 52; staples 30-32; mikes 3.5 through 4.9 for 67.50 to 70.00 cents.

Cotton prices finished the week in a firming trend, and demand was good, Dickson said. Prices paid growers for cottonseed ranged from \$80 to \$10 per ton.

Grades 32, 42, 33, and 43 were predominant in classings at Lubbock this week. Grade 32 was 15 percent, grade 42 accounted for 27 percent, 33 made up 13 percent, and 43 claimed 17 percent. Bark reduction was assigned to 32 percent of the samples classed.

Predominant lengths were staples 30, 31, 32, and 33. Staple 30 was 27 percent, 31 accounted for 25 percent, 32 - 18 percent, and staple 33 - 12 percent.

Mike readings in the desirable 3.5 - 4.9 range amounted to 63 percent of the total. Mikes 5.0 - 5.2 registered four percent, 3.3 - 3.4 was 10, 3.0 - 3.2 accounted for 14 percent, and 2.7 - 2.9 claimed six percent.

Pressley tests indicated 59 percent of samples tested had breaking strengths 80,000 pounds per square inch or better. Average at Lubbock was 81,000 psi.

About 80,000 samples were classed by the Lubbock Cotton Classing Office during the week ending November 19. Season's total stands at 128,000 compared to 122,000 on this same date a year ago.

From The Pastors Desk by Rev George Green

The history of man seems to be one long continuous road, leading from one calamity to another. Trouble and vexation are always present to every generation. History repeats itself over and over again. A nation rises to power only to be crushed at the hand of another. Prosperity, famine, wars of destruction, disease, floods, pestilence of all kinds are not strangers to any generation. All these oppositions keep men struggling to gain, but never achieving, the height of his ambitions. Man's sense of value so often becomes clouded and darkened. Sometimes we loose our vision all together. We are prone to put great emphasis on one

thing, and completely forgetting something else of far greater importance. (Ps. 100:3) Know ye not that the Lord He is God. It is He that made us, and not we ourselves: we are His people, and the sheep of His pasture. The Psalmist writes again -- "Whither shall I go from Thy spirit? Or whether shall I flee from Thy presence? If I ascend up into Heaven, thou art there: If I make my bed in Hell, behold thou art there." (Ps. 139:7-8) No man in any generation has ever escaped the all seeing eye of God, our creator. Nothing is able to hide you from His presence. And He knows the secrets of your heart. The Lord is the alpha and omega of our lives and destiny. Then it is only reasonable that He (God) would expect something from the man He created. To place emphasis on what God expects of men, let's review the past. Gen. 3rd chapter is quite revealing. God has placed Adam and Eve in the garden to

dress and keep it. Leaving them a few instructions -- not to touch or eat of the tree of knowledge of good and evil. Adam's sense of value was darkened and clouded by what he saw and heard. He did not place enough emphasis on what God said. God certainly expects man to follow instructions. The words -- where art thou -- were not so much as to inquire of his location as they were of his condition. There was guilt and condemnation and he could not face his Lord. Must I repeat -- there is nothing that will hide you from the Lord. Fig leaves of our own making, excuses, or placing the blame on someone else, will never cover your naked condition, before a righteous God. How strong did God place emphasis on what He expected? Notice the judgement placed on each. The serpent, Eve and Adam. Let me ask, were the instructions beyond reason? Was it such a hard task? Did it take some special talent? Not

They were just plain simple instructions. Do not touch -- or do not eat. From this scene could we learn, may we remember, that God not only expects but demands our strictest attention and observance of all things what so ever He has commanded. (Matt. 28:20). In the garden where we are placed: (this dispensation) our church age, was bought at a very high cost. It was brought about by one called Jesus. The suffering, pain and agony, beating and torture of His flesh, along with many cruel, hard and blasphemous words, and finally death on an open cross. Brought to you and I a redemptive plan -- whereby we can have remission of sin, and eternal life. At such a supreme sacrifice on His part. It is only reasonable that He would expect something from the sheep of His pasture. I mean more than just a confession or acknowledgement. Or a few promises we never intended to keep. What about some real dedicated lives? Some real dedications made by praying until we are able to keep our

commitments and vows made to Him. What about applying and following the instruction given to us as Guide Lines conducive to Christian living? What about our instructions? Are they so hard we cannot follow them? Do they seem to be unfair? No, it doesn't take any special talent. They are in easy reach of everyone. How strange it seems, that so great a salvation is in reach of anyone and yet the Lord spoke these words: "Enter ye in at the straight gate: for wide is the gate, and broad is the way, that leadeth to destruction, and many there be which go in thereat: because straight is the gate, and narrow is the way, which leadeth unto life, and few there be that find it." (Matt. 7:13-14). DECEMBER GOLD SALE The International Monetary Fund, which recently auctioned 779,200 ounces of gold at an average price of \$117.11, will hold its fifth gold auction on Dec. 8, the agency said.

The Sandhills Philosopher

Editor's note: The Sandhills Philosopher on his Johnson grass farm on Sandy Creek examines the British economy this week, sort of. Dear editor: According to several articles I've read recently, England is in serious economic trouble and the experts don't seem to know what to do about it. I saw something on television the other night that may indicate the source of the trouble. The Queen was shown riding in her royal carriage pulled by prancing white horses, and I got to studying the carriage itself. Did you know it's the same carriage England has been using for generations? The British haven't come out with a new model in maybe 200 years. What sort of prosperity can you have with that kind of slow-down in carriage production? You let U.S. car manufacturers

all just one year to come out with a new model and the economic index would nose-dive. What would happen if they waited 200 years? Also, there's another blind spot I've noticed in the British notion of what prosperity is based on. For example, one of the key signs of how the U.S. economy is doing is the rate of new housing starts. Do you know what the rate of new castle starts in England is? Why, most of the castles over there are upwards of 1,000 years old and here hasn't been a new one built in most men's recollection. To wonder the castle building industry is blighted and its workers idle. You put these things together along with some more I don't know about and no economy can long endure. You won't catch the U.S. airline into that situation. New

models every year, that's the key to success, but we don't just stop there, we don't overlook any possibilities for more jobs, for example, even before industry comes out with a new appliance, it already has trained their people how to repair it. Actually we've slipped up in only one industry. That's the lumbering industry. It's been sleep. Think how much business could be generated if the lumbering industry was as smart as the car industry and persuaded people they ought to change their models every year. Why hasn't it been asking, Do you want your guests to see our still using year-before-last's bathtub. Don't you know what is out this year and green in? You want the U.S. to go the way of England? Yours faithfully, L.A.
