Trustees Approve Amended Budget

Mules Football Season Opens Sept. 5 Increases \$12,280 Due To Federal Funds

Kick Off At 8 p.m.
Mules Vs Dimmitt

Friday, September 5, is the big day for all Muleshoe football fans. At this time, the Mules will go up against Dimmitt, for the first game of the season.

Kick-off time is 8 p.m. The game will be played in Muleshoe at the Benny Douglas Stadium, and Coach Chuck Stout says the players are hoping to see the stands full, with

City Council Gives Agenda

On the agenda for Tuesday September 2, City Council meeting are the following items: Jeff Peeler of Southwestern Public Service to present an amended street light agreement as the Council requested; Letter from E. R. Richardson, District Manager General Telephone, concerning time table for the improvement of long distance service; an ordinance and quit claim deed closing an alley for the First National Bank; a quit claim deed closing a 140 foot long section of Avenue G adjacent to West Plains Medical Center; an ordinance revising the terms of Park Board members, and a letter from Joe King, chairman, Parks and Recreation Board.

Under general discussion will be the SPAG General Assembly, Tuesday, Sept. 9 in Lubbock; TML Annual Meeting at Houston Oct. 26-28 and the Community Civil and Agricultural Center. The meeting will begin at 8:30 a.m. and is open to the public.

standing room only.

"In the top three grades, we have 38 players out," said Coach Stout. "We also have a good turnout of freshmen," he said. Thirty-three or 34 freshmen came out for football this season. There are 14 returning seniors and the same number of juniors, out this year, the coach said.

The starting lineup is not yet decided and will be announced before the game on Friday.

After 21 practice sessions to date, "the team is in pretty good shape at this time," said Stout. Workouts began on August 11, with two-a-day practices before the start of school. Cont. on Page 12, Col. 1

Booster Club Views Film Of Scrimmage

"A nice group of people attended the Athletic Booster Club Supper, Tuesday, August 26 in the High School Cafeteria," said a Booster Club spokesman.

During the course of the evening, introduction of the high school athletes, both boys and girls, was made, along with the coaches and cheerleaders. Families and friends were welcomed to the event.

A film of the Mules vs. Tulia scrimmage which was held last Friday in Tulia, was shown. Cont. on Page 3, Col. 2.

MULESHOE FRESHMEN WORKOUT . . . The Muleshoe High School Freshman Football Team got a workout Thursday afternoon about 4 o'clock, as the coaches ran them through some

plays. The first varsity football game will be held at home on September 5 and will be played against Dimmitt. Game time is 8 p.m. and it is hoped that the stands will be full.

Creston Faver, C. P. A., from Willaus, Faver, Sudduth and Company, presented the amended budget to the Trustees of the Muleshoe Independent School District during a special meeting held at 6:30 a.m. Thursday, August 28. The Trustees approved the amended budget.

The budget as presented, reflected the total expenditure for the year was \$1,789,686. This was \$12,280 more than was a result of Federal Title I E.S.E.A. programs that were not funded until the middle of the school year. This had no effect on the State and Local Fund expenditures. Of the total expenditure, \$1,379,527 was in salaries for school

employees. The total revenue was \$1,898,741. The estimated revenue a year ago was \$1,730,661. This is \$168,080 more than was estimated a year ago. Of this, \$20,568 is accrued delinquent receivable taxes, not cash on hand. Fifty-eight thousand dollars of this increase was the Governors Emergency Aid that was not received until March of 1975.

Title I E.S.E.A. contributed \$71,877. These were programs that were approved during the school year and funds carried over from prior years that were funded so late that they could not be used in prior years. (Receivables, not cash Cont. on Page 3, Col. 1.

Governor Comments On Back-To-School

Governor Dolph Briscoe released a statement today in regards to the beginning of the school year. Briscoe issued an appeal for "an accident free school year."

"This school year, 10,894,006 students will be returning to Texas classrooms. And, as we all know, education is the key to insuring a successful future for our youth. But, we must remember that in addition to providing these students of Texas a good educational opportunity, we must also allow them the opportunity to not be killed or injured in a senseless traffic accident. During 1974, 533 people under the age of 18 were killed in traffic accidents. These youngsters were in the prime of life: starting their education or beginning their lives as productive citizens. And yet, we accept these deaths as a common occurrence.

Therefore, as Governor of Texas, as a citizen and as a parent, I ask that our youth

be given the opportunity to have an accident free school year. In addition, I ask that every Texas citizen, make themselves aware of the need for safe and

Myasthenia Clinic Set For Sept. 5

The Northwest Texas Chapter of the Myasthenia Gravis Foundation, announces the forth-coming MELBA BANDY MASTERS MEMORIAL CLINIC for Myasthenia Gravis patients, Friday September 5, 1975, beginning at 8 o'clock in the morning, at the Hi-Plains Hospital, Hale Center, Texas. This free patient clinic is being funded by a Trust given by the E. E. Masters family of Cotton Center, in memory of Mrs. Melba Masters who was a victim of myasthenia gravis. It is hoped that the fund will be maintained through donations, enabling this free clinic to become an annual event and hopefully semi-annual. The trust fund is set up at the First National Bank of Hale Center, and memorials or contributions may be made directly to the account at the Bank.

For the fifth time, Dr. J. E. Tether of Indianapolis, Indiana, will be in Hale Center to conduct the all day clinic. Assisting him will be the Medical Staff of Hi-Plains Hospital, Dr. Tether is a noted authority on the diagnosis and management of myasthenia gravis, having

Cotton Hit By Aphids

"Heavy infestations of cotton aphids are causing producers considerable concern. As you are aware, this is an unusual situation which we have

not experienced before," said Spencer Tanksley, Bailey County Agent. "Therefore, we do not have an economic threshold established on which to base control recommendations. However, damage to the cotton crop does not appear significant at this time. Heavy

infestations causing severe leaf damage and premature leaf drop may result in a reduction in yield and lower fiber quality. However, this situation appears to exist only in spotted areas within fields and is not widespread. The presence of honeydew is not likely to cause any

significant damage to the plants unless disease organisms develop on the honeydew and cause excessive leaf shed," he pointed out.

"We should make it clear to producers that we are not saying that the aphid infestation

Sunflower Farmers Asked To Take Part Payment

The announcement that Farmers who contracted sunflowers with Plains Co-Op Mill in Lubbock, will be asked to take 10 cents per pound now and wait until March of next year for a nickel, will not bother the farmer, a local sunflower farmer stated. He also said he did not feel those raising a crop not under contract will not be affected adversely either, since they knew at the time they planted they were planting for open market and the open market price is said to be up to about the same price as the contract price.

Directors of the Plains Co-Op Mill, which has contracted about 225,000 acres of sunflowers throughout the Texas Panhandle, voted Wednesday to ask for help in financing the crop. Farmers are to be asked to carry a nickel of the 15 cents per pound guarantee until March 31, 1976, under terms of the proposal which came about 10 days after the Mill's executive committee dismissed their general manager, John Herzer, over contract disagreements.

A promissory note is in

cluded in the package, at eight per cent interest, from the date of delivery until paid on or before the March due date.

A spokesman for the cooperative said, arrangements can be made if farmers want a deferred payment on the crop until next year. The cooperative operates the world's largest cotton oilseed mill.

"If farmers cannot help in financing the crop," the spokesman said, "we will pay in the regular manner, per the original contract. We are confident that most farmers will be willing to help finance the marketing of the new crop."

Wayne Martin, interim manager, who has been with the

INCENTIVE AWARD. . . Employees of the Bailey County Farmers Home Administration office were presented with a Certificate of Appreciation from the U.S. Department of Agriculture Farmers Home Administration Incentive Awards Program for outstanding performance by all personnel which has involved the overcoming of exceptional and unusual difficulties in handling a high volume of emergency farm operating loans for the 1975 crop year. Making the presentation was J. Lynn Futch, State Director of Farmers Home Administration from Temple, Texas, (l), to Mack Ashmore, assistant county supervisor; Mrs. Dorothy M. Scott, county office assistant and John C. Kennedy, county supervisor (l-r). Along with the certificate Kennedy was awarded a check in the amount of \$200 and Mrs. Scott, one for \$160. Futch stated that usually these certificates only go out to four or five offices per year for the whole state. However, approximately 12 certificates were presented this year, mostly in the West Texas Cotton Country, due to the cotton crop loss earlier this season.

Local Men Show Char-Swiss

The first open competitive showing of Char-Swiss Cattle ever held in the world will be

Public Health Clinic Set

The Texas Department of Health Resources will hold a public health clinic at the Old Green Hospital Building, 122 Ave. C in Muleshoe, on September 2, 1975. The time for his month's clinic will be from 10:30 a.m. until 6:00 p.m. Preventive health services Cont. on Page 3, Col. 5

at the Curry County Fair, Clovis, N.M., September 2 through 7, 1975. Judging will be Thursday, September 4. Two local breeders, Benny Splawn and Bailey County Judge Glen Williams will enter some of their cattle. Other breeders entering stock will be Jim Paul, Seminole; Blair and Son, Plains; Howard Fowler, Levelland; Bob Lockety, Lubbock and others. "Char-Swiss is a relatively new breed, but is becoming increasingly more popular," said Judge Williams. There are several hundred breeders throughout the United States and several thousand cattle registered in the National Association. A West Texas Association is currently being

formed to promote and improve the breed, the Judge pointed out. Williams explained that

Char-Swiss cattle are a cross, being three-quarters Charolais and one-quarter Brown Swiss. They are produced by crossing

Charolais with Brown Swiss, and then back crossing to produce the three-quarter mixture. Cont. on Page 3, Col. 4

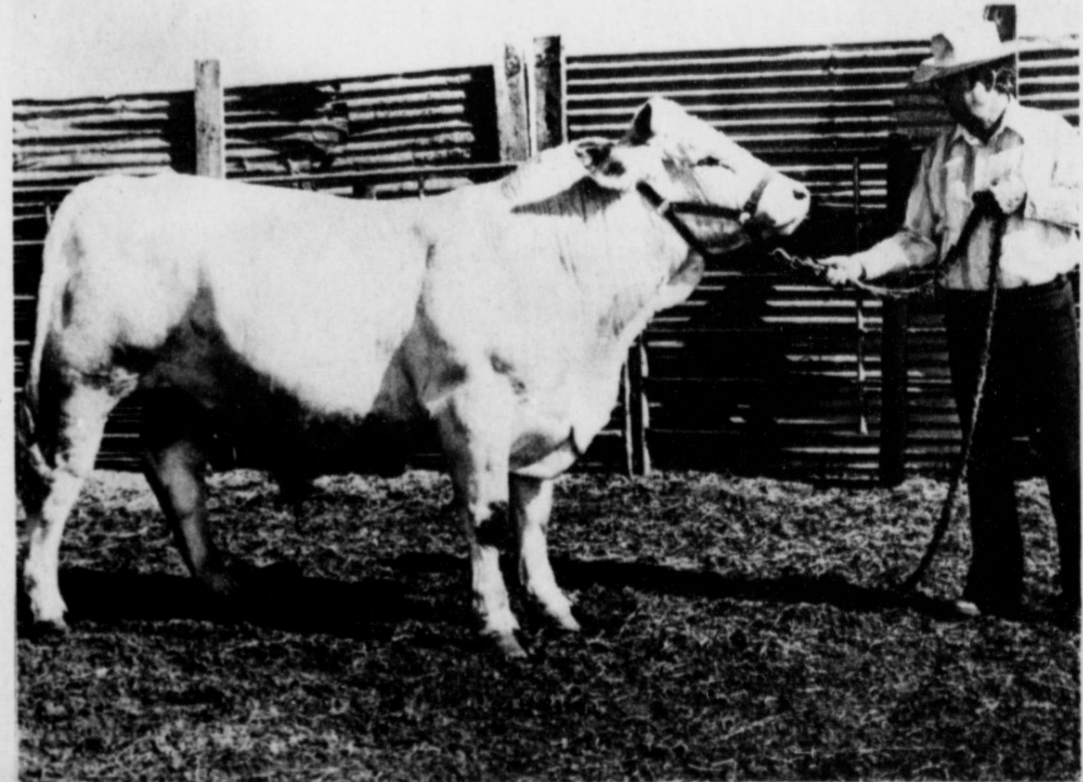

Progress 4-H Open Horse Show Slated For Sept 6

The Progress 4-H Open Horse Show will be held September 6 at the Muleshoe Roping Arena on Highway 84 in Muleshoe. Books open at 8:30 a.m. and the show starts at 9:30 a.m. and the show starts at 9:30.

Several classes have been scheduled, including Halter, Western Pleasure, Reining, Pole Bending, Flag Race, Barrel Race and Goat Race. This year, there have been some changes made in classing. Now, Registered Mares, regardless

of their age will be entered in one class as will Grade Mares, Registered Geldings and Grade Geldings.

Entry fee is \$3, per event. 4-H'ers participating will be entered in the following age Cont. on Page 12, Col. 1

CHAR-SWISS BULL. . . Is shown by Bailey County Judge Glen Williams, and will be at the Curry County Fair in Clovis.

Trustees...

Cont. from Page 1.
 A copy of the Amended Budget is on file in the School Business Office.
 The Trustees discussed the Women Teachers Dress Code and how it correlated with requirements of Title IX Civil Rights Act. No action was taken and the matter was tabled until more information can be obtained.
 Changes in the emergency personal leave from three days to two days was approved during the meeting. This is leave

Cotton...

 will not result in some plant damage and reduction in yield and/or quality. However, producers must be made aware that the use of insecticide to control aphids may also result in a bollworm outbreak. It is most likely that even a moderate bollworm infestation will result in much more loss and greater expense than will result from the aphid infestation. I am outlining a few items which should be considered when making decisions on aphid control," said the county agent.

1. Stage of Plant Growth. Older more mature cotton with a good boll set is less likely to be adversely affected by aphid damage. Late planted cotton may be more affected by the aphids but is also more susceptible to bollworm damage.

2. Determine if the Aphid Population is Increasing or Decreasing. Many producers attempt to determine the degree of infestation by the appearance of honeydew on the leaves and fail to evaluate the aphid population itself. In many fields the aphid population is being greatly reduced by predators and parasites. In our test plots, honeydew is still present but the aphids are almost gone due to beneficial insect activity. Before treating, the producers should be sure that the aphid population has not already been controlled by beneficials.

Bollworms. Before treating check for bollworms, bollworm eggs, and worm damaged squares. If bollworms are present there is a very good chance that the destruction of beneficial insects will result in increased bollworm damage. "We are now experiencing more bollworm pressure than we have seen for several years," he said.

Plant Damage. In most instances plants in aphid infested fields appear vigorous and show little leaf curling or abnormal leaf drop in spite of the presence of aphids and honeydew.

"We have received reports stating that in some fields (especially with determinant type varieties) excessive leaf shed is occurring," stated Tanksley. "However, our cotton physiologists point out that at this time of year cotton plants are entering senescence and a natural leaf drop of 20-25% is not abnormal. Dr. Jack Gipson says that the first leaves to shed are those attached to the main stem of the plant. At this time of the season, the loss of these leaves is not critical since they do not function in fruit development. Leaves on the fruiting limbs are involved in seed and fiber development and excessive loss could cause some yield reduction and lower micronaire.

I think that the overall appearance of plants is one of the best guidelines in making control decisions.

"As a rough guide you may consider that leaf shed of 20-25% is normal. If aphid infestations are heavy and leaf drop in excess of 25% is occurring control might then be justified," he explained.

Control. "In instances where control is considered necessary, I would recommend a low rate of Demeton (Systox) 0.125 lbs/acre, this should control the aphids with minimum damage to the beneficial population. Bidrin, methyl parathion at 0.1 lbs/acre should give good control but will be more harsh on beneficials.

"If aphids are still present and honeydew is evident on the leaves after bolls start to open, I would recommend control. Honeydew in the lint reportedly causes a problem at the mills. I suggest that we keep a close watch on this aspect and make sure that we do not encounter problems with spotted lint. After bolls start to open the bollworm pressure will be largely over and should not influence our control decisions," the agent concluded.

over and above the regular Sick Leave Policy. Under the plan, each employee will be allowed two days non-accumulative leave each year for personal reasons for the cost of a substitute which will be deducted from the employee's salary, as the days are used, whether or not a substitute is employed.
 When the two days personal leave is expended, a full day salary will be deducted for each additional absence. Superintendent Neal Dillman explained that an excess accumulates in this fund, it will be used to pay substitutes for a teacher who attends special workshops or professional meetings during a school day.

Dillman said, there will be no deduction for substitutes for jury service, provided that the employee reimburses the school for the amount earned for service on the jury.

The superintendent pointed out that prior approval by the principal and or Superintendent of schools must be obtained for personal business and professional meetings.

"This is not a sick leave policy," explained Dillman, "it is simply a total of two days per year that an employee can be absent for personal reasons for the cost of a substitute, \$20." Examples are: Sick child or relative and funerals not covered by the State Policy.

Emergency personal business; emergency professional meetings.

This plan covers all full time employees, both certified personnel and auxiliary personnel. The plan was approved by the Board of Trustees on August 13, 1973; amended by the board on July 8, 1974 and again on August 28, 1975.

The non-smoking Policy in Public Meetings, as a result of a new law passed by the 64th State Legislature, was approved during Thursday's meeting.

The law reads: Smoking is prohibited in all public primary and secondary schools, except for designated areas, by a State Law that goes into effect September 1, 1975. "Smoking Prohibited" signs will be posted at all the entrances to all the school buildings and must have the following information: "Smoking Prohibited - State Law, fine not to exceed \$200."

"Smoking Permitted" signs will be posted in areas where smoking is allowed, such as teacher lounges; vestibules or gym, cafeterias, and auditoriums; and designated offices.

There being no further business, the meeting adjourned until the next regular meeting, Monday, September 8, 1975 at 8 p.m.

Supt. Dillman noted the current student enrollment as of the third day of school, August 27, 1975, is as follows: Enrolled at Senior High School this year are 485 students, while there were 506 enrolled at this time last year, making a difference of 21 fewer students enrolled. At Junior High, there are 438 students, while there were 439 last year, making one less student this year than last. Mary DeShazo Elementary enrollment is 435 students this year, with 424 last year, making 11 more students this year than last year. Richard Hills Primary enrolled 380 students this fall, 33 fewer students this year than last year's total of 413. Eighteen students were enrolled in Special Education this year, five less than last year's enrollment of 23.

Total number of students enrolled in all local schools this year is 1756. Last year there were 1805, making 49 fewer students enrolled this year than last year.

Local...

Cont. from Page 1.
 Every breed of cattle known was developed by cross-breeding, and, in cross-breeding, there is a point at which cattle will reach maximum efficiency in hybrid vigor, conformation, fertility, milk production, gainability, and other qualities. Char-Swiss peak at the three-quarter, one-quarter cross.

Charolais Cattle are known as being one of the largest, and one of the most popular of the beef breeds. Brown Swiss is the largest of the dairy breeds, and hold's the world's record for milk production. Brown Swiss are known for fertility, for ease of calving, and they have exceptionally good feet and legs. Williams pointed out, "Thus it follows," said Williams, "that a cross of the two, using choice foundation stock, should produce one of the best and most productive beef animals in the world. This cross combines the best qualities with the best qualities of milk production, and utilizes the maximum efficiency of both.

Char-Swiss are large, gentle, beautiful and fertile cattle," said the Judge. They are fairly uniform in color, and are good milkers. They will adapt to any climate, and will convert feed to beef with an efficiency unexcelled by any other cattle - which is the ultimate test. Char-Swiss calves weigh from 600 to 700 pounds at weaning age, and under fair conditions, they will gain at the rate of 100 pounds per month to maturity.

"Only choice, pure-bred, individually selected cattle are accepted as foundation, which insures the quality of Char-Swiss cattle. Char-Swiss is the only patented breed of cattle in the world. The name is

patented in each of the 50 states, so no one can use it except those who have registered stock. The Association will close September 30 of this year, so that from then on, no one can breed up Char-Swiss Cattle from foundation stock. All Char-Swiss Cattle, from that date forward, will have to come from the charter herds or their descendants. Char-Swiss Cattle should therefore be quite valuable in years to come," Judge Williams explained.

Splawn and Williams have high quality cattle, considered by many as being among the finest in the nation. They have three outstanding herd sire not related. "Enero" is the first Char-Swiss bull calf ever born in the world from a Char-Swiss bull. "Pedro" placed above a bull named "Bona Fide" at a Texarkana show. "Bona Fide" sold for \$22,000, and then re-sold for \$28,000. "Judge 125" was purchased as a weaning calf. He weighed 712 pounds at 180 days of age.

Junior bulls and senior bulls, junior heifers, senior heifers, and cows will be shown at the fair in Clovis, N.M., September 2 through 7.

Myasthenia...

Cont. from Page 1.
 Myasthenia Gravis is a neuromuscular disease characterized by varying weakness of the voluntary muscles of the body. It is aggravated by exertion, emotion, infection, or any kind of stress. It is relieved, in part, by rest and anticholinesterase drugs. Onset may be insidious or sudden. The initial symptom may only be unusual fatigability. This may be accompanied by aching in the neck, back, or legs in milder cases. Ptosis of one or both eye lids, blurred vision due to difficult focus, or actual diplopia are the most frequent early signs and symptoms. Slurring, nasal tones, jaw weakness, and fatigue on chewing may occur early in more severe cases. Many complain of arm fatigue on reaching up, as in care of hair or in shaving. Legs tire on stairs or short walks and may collapse without warning.

If you are a victim of Myasthenia Gravis, or an interested person, you are urged to attend the Myasthenia Gravis Free Patient Clinic, Friday, September 5, 1975 beginning at 8 o'clock a.m. at the Health Center at the Hill Plains Hospital, Hale Center Texas.

Mrs. Jo Anne Head, Public Health Nurse representing Public Health Region 2, will be conducting this clinic. She asks that parents of pre-school age children take special note of the immunization services available and be sure that these youngsters are all up-to-date on their immunizations. Any record the parent has concerning immunizations the child has received should be brought to the clinic. It would also be helpful if adults receiving immunizations would bring any immunization records they might have.

 offered through this clinic will include immunizations, tuberculosis skin tests and diabetic screening. All Bailey County residents are encouraged to utilize these services at no charge. This preventive health effort is made available through the Texas Department of Health Resources in cooperation with your community.

Mrs. Jo Anne Head, Public Health Nurse representing Public Health Region 2, will be conducting this clinic. She asks that parents of pre-school age children take special note of the immunization services available and be sure that these youngsters are all up-to-date on their immunizations. Any record the parent has concerning immunizations the child has received should be brought to the clinic. It would also be helpful if adults receiving immunizations would bring any immunization records they might have.

Sunflower...

Cont. from Page 1.
 Mill for 18 years, said, although about 225,000 acres are under contract, between 50,000 and 75,000 acres were grown on the Plains with no contract. By figuring 200,000 acres of production and a 1,000 pound per acre yield, the 100,000 tons of sunflowers, based on the Plains Co-Op's contract with farmers at 15 cents per pound, would be worth \$30 million.

The crop will cost even more, if farmers elect to take two-thirds of the contract price now and carry five cents at eight per cent until next March.

Though there is no contract as such, with any buyer, most of the sunflowers will be marketed as oil and some will be exported, primarily to European markets.

In an effort to explain the board's proposals, several board's proposals, several meetings are scheduled by Plains Co-Op Oil Mill and Growers Seed Association, also of Lubbock, which deals with grain elevators on the North Plains.

Rep. Earle Named Coordinator For New Constitution

Robert W. Calvert, Chairman of Citizens for the Texas Constitution, today formally announced the appointment of Ronald Earle, a state representative from Austin, as the statewide campaign coordinator for

Mardis-Ellis Win Belt Buckles

Eddie Mardis and Don Ellis who recently participated in the Perryton Tri-State High School Rodeo, brought home trophy belt buckles for their efforts.

Eddie took first in tie-down roping and Don placed third in ribbon roping.

Both boys placed fifth in team roping.

The rodeo was held at Perryton on August 21-23.

'Big' John To Present 'Sermon In Song'

Youthful in heart yet appealing to all ages, John Hall is fast becoming one of the most outstanding gospel singers of our day. From his native and much beloved state of Texas, "Big" John walks right into your heart with a musical ministry that combines excellence of true spiritual radiance. He will be appearing at the First Assembly of God Church in Muleshoe, Sept. 3-5 at 8 p.m. for a "Sermon In Song."

the passage of a new Constitution for Texas.

The information and education program that Earle will head will be financed exclusively by citizen contributions. Calvert was joined in making the announcement by House Speaker Bill Clayton, of Springlake, Lt. Governor William P. Hobby, Jr., and Texas Attorney General John Hill. In a joint statement, the three top officials said the Earle appointment "marks the beginning of an all-out effort to inform the people of Texas about the need to update the antiquated document and to bring Texas government into the 20th century."

Clayton said that after working with Earle for the past two years, "I feel he is a particularly fine choice for the very demanding duties of coordinator. I know Ronnie is as totally committed to the passage of the new document as I.

"A new Texas Constitution will give Texans a guarantee that their state government will be truly responsive to the people of this great state. The new document preserves the best of the present Constitution, written in 1876, while

providing additions that are necessary now that our state has come of age," Clayton said.

Lt. Governor Hobby said, "The proposed Constitution which is being presented is a good basic document. It is not perfect, because we are not perfect. But, it is an admirable and impressive Constitution. Its adoption will free our

government from the shackles it has worn for almost 100 years. It will give our government the tools it needs to maintain our state's tradition of independence."

Attorney General Hill commented, "I am a strong supporter of the new Constitution in its entirety. If its supporters will continue to take a

constructive, positive approach and give the public the facts, I am confident the people will approve the new document."

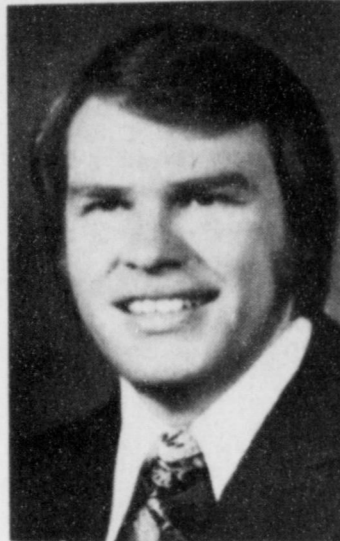

Calvert, former chief justice of the Texas Supreme Court, said, "We have a very strong obligation to the people of Texas to concentrate our efforts on distributing all the information possible about the new Constitution, so that Texas

voters may base their decision on the document will all the facts before them."

Earle, 32, begins his duties as coordinator immediately. A former judge of Austin's Municipal Court, Earle served as chief counsel to the Texas Judicial Council before his election to the Texas House in 1973. In 1967-69, Earle worked as a budget analyst for

then-Governor John Connally. A native of Fort Worth, Earle practices law in Austin in addition to his duties as a Texas legislator.

Joining Earle on the campaign staff will be Mercy Kutcher who will act as officer manager during the campaign. Ms. Kutcher is a veteran of San Antonio politics and a former legislative aide.

JOHN HALL

To this man of unusual talent, singing is not his profession - it is his life. His songs are heart melodies - from his to yours, which linger long and continue to produce new music from the hearts of his listeners. This is in perfect harmony with the Biblical injunction of Ephesians 5:19, "Singing and making melody in your heart to the Lord."

This outstanding ministry in music has been heard and appreciated by countless numbers across the United States and Canada and around the world in evangelistic meetings, sacred concerts, conferences, conventions and through the media of radio and television.

Blended together: one big Texan, one rich bass voice, large measures of warm affection and friendship, generous amounts of spiritual anointment.

Local Boys Take Honors At Rodeo

Three local boys went to Sunray, Texas to participate in the Tri-State Rodeo August 14-16, and brought home honors. Don Ellis, son of Mr. and Mrs. Frank Ellis was named Reserve Champ All Around Cowboy and received 500 pounds of horse feed. He also won a first place trophy belt buckle in tie down and calf roping. Waylon Barker, son of Mr. and Mrs. Buster Kittrell placed fourth in bare-back riding and Eddie Mardis, son of Mr. and Mrs. Clifford Mardis and Don Ellis, placed second in team roping.

The best way to win an argument is to exhibit patience and self control.

ON ECONOMY

The drop in the unemployment rate for July signaled that the jobless rate over the long term will be lower than the administration originally expected, President Ford's top economic adviser reported.

ing, versatility in style and magnetic communication with his audience; when mixed together in audiences big or small young or old, you have one of America's best loved gospel singers - JOHN HALL!

Theta Hall, John's devoted wife, is also an outstanding musician and singer in her own right. She often accompanies her husband in his musical ministry, and is heard in many of their gospel records and cassette tapes.

The Halls have been married ten years, and have two children - daughter Suzanne, 6 years of age, and son John Christopher, age 2.

TEXAS TALK
by RAY DAVIS

Complaining about the cost of food has been an ardent avocation of man ever since Adam found out the price of an apple. Just how much are we paying compared to the rest of the world? Samplings made earlier this year showed when steak was \$1.69 a pound here it was \$3.15 in Rome, \$2.92 in London, \$4.73 in Stockholm and a whopping \$16.00 in Tokyo. What about the price of eggs in Brussels you say? 90-cents there, \$1.29 in Copenhagen, 83-cents in Mexico City while we were paying 74. Our cost of butter was 89-cents a pound compared with \$1.73 in Paris, \$1.36 in Brasilia and \$1.57 in Bonn. Adding bacon to the breakfast table was costing \$3.41 cents in Paris when we were paying \$1.56. At the same time, bacon consumers in Copenhagen were complaining about the price of \$2.71 and the gumballing figure in The Hague was \$3.08. Fact is, we obviously have a pretty good deal when it comes to food prices.

The Program of the Year isn't on TV. It's in the Air Force ROTC.

Look into the Air Force ROTC. And there are 4-year, 3-year, or 2-year programs to choose from. Whichever you select, you'll leave college with a commission as an Air Force officer. With opportunities for a position with responsibility...challenge...and, of course, financial rewards and security.

The courses themselves prepare you for leadership positions ahead. Positions as a member of an aircrew... or as a missile launch officer...positions using mathematics...sciences...engineering.

Look out for yourself. Look into the Air Force ROTC programs on campus.

Put it all together in Air Force ROTC.

Mrs. David Allan Faver

Miss Ann Castleberry Bride of David Faver

An arch of candles flanked by spiral candelabra entwined with wild smilax lighted the marriage altar where Miss Jean Ann Castleberry and David Allan Faver were wed Saturday evening in the Hill Chapel in Canyon. Performing the double-ring ceremony was Burel Block of Lubbock.

The bride is the daughter of Mr. and Mrs. Lawrence Castleberry of Vernon. The bridegroom is the son of Mr. and Mrs. Creston Faver of Muleshoe.

Also decorating the front of the sanctuary were tall columns holding Grecian urns with arrangements of gladioli, Killian daisies and baby's breath. The pews were marked with hurricane lamps in brass holders, with garlands of wild smilax and satin bows.

Mrs. Ronnie Proctor of Friona served her sister as matron of honor while Mark Barnes of Canyon was best man.

The bride's sister-in-law, Mrs. Larry Castleberry of Weatherford served as bridesmaid. Other bridesmaids were Mrs. Mike Matus and Miss Jill Johnston, both of Canyon and Miss Sandra Faver, sister of the groom, of Portales. Groomsmen were Ronnie Parker, Dennis Parker and Gary Lackey, all of Muleshoe and Paul Faver, brother of the groom of Portales. Ushers were John Colburn of Canyon and Dean McGee of Friona.

"Bridge Over Troubled Water", "Annie's Song", "For Bobbie", and "The Lord's Prayer" were vocalized by Linda Reed and Walter Buice, prior to the traditional wedding procession.

Given in marriage by her father, the bride wore an empire styled gown with overlay of lace silk organza sleeves, ending in wide cuffs, with heart shaped pearl buttons. Wide organza ruffles accented the

hemline of the dress. A long chapel length train fastened of tulle, with bands of Chantilly lace trim and was enhanced by clusters of seed pearls.

Carrying out a family tradition, the bride wore two gold ruby bracelets, given to her by a great aunt. This tradition has been handed down through the years with every bride of the family wearing the heirloom bracelets, accented with a cascade of pink roses, white daisies, stephanotis and baby's breath.

Bearing colonial nosegay with pink roses, white daisies and baby's breath in a bouquet, tied off with long streamers of pink satin accented the bouquet. The bridal attendants wore floral empire waistline dresses in pale blue with cape collars and accents of pink roses. Pink velvet ribbon accented the waistline and the collar.

The reception was held at the University Church of Christ with Mrs. Pat Hort of Amarillo registering the guests. Mrs. Carl Vesta of Quanah and Mrs. Wayne Byrd of College Station and Miss Brenda Clifton of Vernon served.

An arrangement of Killian daisies, pink roses and baby's breath in silver epergne, lighted with a memory candle encircled with sprenger fern, daisies and baby's breath placed on the register table.

For a wedding trip to Ruidoso, New Mexico, the bride wore a blue dacron suit with white trim.

The newlywed couple will be at home in Canyon after September 3. The bride is attending West Texas State University in Canyon, where she will be a Senior this fall. The groom is a student at W. T. S. U. also.

A luncheon was hosted by Mrs. Garland Johnston of Vernon for bridal attendants. Special guests were Miss Jill Johnston.

The bridesmaids luncheon was hosted by Mrs. Garland Johnston of Vernon, Miss Jill Johnston and Mrs. Mike Matus, both of Canyon, to honor the bride and her attendants. The rehearsal dinner was an informal outdoor bar-b-que held in the home of Mr. and Mrs. Troy Don Collier of Canyon.

Progressive Club Plans Sale

The Progressive Homes Club met with Tais Norwood at Tri-County Community Room, August 19. There were eight members attending and one visitor, Mrs. Bessie Myres.

Plans were discussed about the rummage sale coming up and the advertising posters that are to be made for the sale. The sales will go for the benefit of the Boys Ranch at Pettite.

Lucille Harper won the, hostess gift and Mrs. Jewel Blackwell furnished birthday refreshments for Mrs. Bessie Myres. The other members joined in, with Mrs. Myres, on the refreshments.

Those attending were Wenona Gibson, Katie Roubenek, Vera Engleking, Lucille Harper, Lois Norwood, Zulice Mae Black, Norene Thomas and Black, Norene Thomas and Rozie Hoover, the reporter.

Elementary P T A Hosts Coffee

The Muleshoe Elementary P. T. A. will host the annual get acquainted coffee at Richland Hills cafeteria, September 3, 4, and 5, from 9 to 10 a.m. each day. The parents are invited to come and meet their children's teachers and become more familiar with the years program.

Wednesday, Sept. 3, from 9 to 10, parents of the Kindergarten, will meet. Thursday, Sept. 4, parents of the first graders will meet and Friday, Sept. 5, parents of the second grade and Special Education children will meet.

Every parent is urged to attend and meet their teachers for a better working relationship.

Diabolical
"Why's your car painted blue on one side and red on the other?"
"It's a terrific scheme. You should hear the witnesses contradict each other."

Spencer Todd Evins

Mr. and Mrs. Terry Evins of Sudan are the proud parents of a new baby boy born August 24, 1975 at 12:30 p.m. in the Littlefield Hospital. The baby weighed seven pounds and was named Spencer Todd.

The maternal grandparents are Mr. and Mrs. U. J. King of Sudan. The paternal grandparents are Mr. and Mrs. Frances Evins of Fieldton. Great grandmothers are Mrs. Ora King of San Antonio and Mrs. Evins of Littlefield. Great great grandparents are Mr. and Mrs. Warren of Need and Mr. and Mrs. Irwin of Lawton, Okla.

Matthew Wayne Williams

Mr. and Mrs. Wayne Williams of Texico are the proud parents of a new baby boy born August 25, 1975 at 10:51 p.m. in the West Plains Memorial Hospital of Muleshoe. He was named Matthew Wayne and is the couple's second child.

Lagoberto Areas

Mr. and Mrs. Jesus Areas of Friona are the proud parents of a new baby boy born August 27, 1975 at 6:12 a.m. in the West Plains Memorial Hospital of Muleshoe. He was named Lagoberto and is the couple's fourth child.

Girl Scout Program To Begin Soon

The Girl Scout program provides opportunities for girls to experience, to discover and to share girl-planned activities that meet their own needs and interests. Founded in 1912 and incorporated in Washington, D.C. in 1915, it was chartered by the Congress of the United States in 1950.

Invitations to join the Girl Scouts in Muleshoe will be issued to all girls, 1st through 12th grades on Tues., Sept.

2, 1975. Information meetings for parents will be held on Wed, Sept. 3, 1975 at Richland Hills Cafeteria and Mary DeShazo Cafeteria after school, according to Mrs. Don Martin.

Caprock Girl Scout Council, supported by United Way, sponsors a complete training pro-

TCTA Has Get Acquainted Supper

The local Muleshoe TCTA will have a covered dish supper on Thursday, Sept. 4, 1975, at 7:30 p.m. in the Richland Hills Cafeteria.

This will be a get acquainted fellowship to honor all of the new teachers in the school system, for this coming year. Mrs. Evelyn Northcutt, the Publicity Chairman comments, "there will be lots of good eats and entertainment."

All teachers and aides are urged to attend. Wives, husbands and guests are invited to attend also.

Enochs H D Club Has Zucchini Relish

The Enochs Home Demonstration Club met in the home of Mrs. Dale Nichols, August 26 at 2:30 p.m. Mrs. Dorothy Nichols, president, presided over the meeting.

Mrs. Winnie Byars secretary-treasurer, called the roll and each one answered by telling some of their experiences this summer.

We plan to have a work day at the Enochs Cemetery soon. Bob Newton, manager of the Enochs Co-Op Gin has offered to set up a date for the club to tour the Cotton and Textile Mills at Lubbock.

Those attending were Mrs. Elnita Key, Mrs. Winnie Byars, Mrs. Wilma Petree, Mrs. Lillian Fort, Mrs. Dorothy Nichols, Bonnie Long, Mrs. Rose Nichols, the hostess and guest, Mrs. Marie Adams, guest

Mrs. Marie Adams, guest

for the meeting, brought a sample of her home made Zucchini Relish for each of us to taste. Her recipe is as follows:

Zucchini Relish
10 cups grated or chopped Zucchini
4 cups of chopped onions
5 T. salt
Let set 10 minutes, drain and rinse with cold water and drain.
Then Add:
2 chopped red or green peppers,
1 tsp. celery seed
1 tsp. tumeric
1/4 tsp. pepper
2 1/2 cups vinegar
5 1/2 cups sugar (or substitute)
6 tsp. cornstarch
Cook 30 minutes and put in sterilized jars and seal.

Meeting Held For Rushees

The Sudan Chapter of ESA met Thursday, August 14 at 8:00 p.m. for their model business meeting. The meeting was held in the home of Mary Kay Baker.

After opening the meeting, Nancy Davis turned the program over to Kathy Gatewood, who explained ESA to the prospective rushees.

Business was discussed and the chapter voted to take charge of the Heart Fund Drive in Sudan. Plans were also made for "Girls night out" Tuesday, August 19. Everyone will play miniature golf and eat pizza, in Lubbock.

The meal was served by hostesses, Mary Kay Baker and Kathy Gatewood.

Prospective rushees present were Beverly Scott, Susan O'Rear, Lou Boyles, and Nancy Baker. Members attending were Jan Brown, Angela Eicke, Nancy Davis, Felice Bryant, Felice Bryant, Peggy Lowrance, Tanya Hanna, Connie Fisher, Kathy Gatewood and Mary Kay Baker.

Control Insect Pests In Stored Beans and Peas

Housewives can become extremely irritated upon finding insect damaged foodstuffs. Such infestations can be difficult problems and may require a combination of procedures to gain control.

"Good sanitation and food storage practices will often prevent general infestations from developing in the home, but precautions should be taken to prevent introduction of the pests," says Spencer Tanksley, county agent for the Texas Agricultural Extension Service.

Infestations can develop after the foodstuffs have been brought into the home or they can originate from outside sources. An infestation of stored product pests may be recognized not only through the presence of insects, but by holes in packages or containers, by webbing in the food material and by insect feces.

The present costs of garden vegetables have created a keen interest in storing beans, peas, cowpeas and similar foods for subsequent human consumption or for seed. "The primary pests of these products are small, mottled, brown to olive-brown bruchid weevils. Some of these weevils attack beans and peas only before harvest, while certain others are capable of attacking prior to harvest and then continuing their activities in storage," Tanksley points out.

"When storing beans and peas, take adequate steps to provide the least favorable conditions for insect development," the agent advises. "Temperature and moisture are the two most important factors in the ecology of stored product insects. Up to certain limits their rate of development and moisture content of the products. Storage temperatures above 95 degrees F. are not favorable for development of most of these insects: conver-

sion of human consumption." Beans and peas held for future use as food can be protected from significant insect damage by cold or heat treatments. Cold treatment can be employed for small quantities by storing the products in a freezer at or near 0 degrees F. Or, beans and peas spread in a shallow pan and placed in an oven heated to 150 to 160 degrees F. for about 30 minutes before storage in airtight containers should be insect-free.

Small quantities of dried beans and peas to be used as seed can be protected from insect damage by cold treatment or by insecticide protectants. (The moisture content of seeds can be lowered by sealing them in airtight containers with, but not touching,

sely, temperatures below 65 degrees F. or 12 per cent moisture content retard their development."

Clean, sound, dry beans and peas should be stored in airtight containers that will resist puncture by insects present at the time of storage, control or corrective treatments are required for infestations that develop before preventive measures can be applied, or when such measures have been inadequate. These treatments may include chemical fumigation, the application of an insecticidal spray or dust, or the use of controlled heat or cold.

"When considering treatments to control insect infested beans and peas prior to final storage, the ultimate use for these products must be established," Tanksley cautions. "This is because treatments for seeds are different from those used for foodstuffs intended for some calcium chloride. Use enough of the chemical so that the moisture absorbed from the seeds will not produce a visible change in the calcium chloride).

Cold treatment can be administered to dry seeds by storing them in a freezer at or near 0 degrees F. Coatings of malathion or methoxychlor will also prevent extensive damage of the seed. The insecticides can be most effectively applied by slightly wetting the surface of the seeds, and evenly mixing 2 ounces active ingredient of malathion or methoxychlor dust per bushel of seed.

"If large quantities of seed beans or peas are to be protected, fumigation methods may be more effective. The only chemical registered for fumigating beans and peas is methyl bromide. Fumigants are extremely poisonous to humans and should not be used by

inexperienced persons or without proper safety equipment," cautions Tanksley. "Before using any insecticide or fumigant, read and follow all label directions and precautions."

To keep your friends, be less than frank.

Sudan News

By Mrs. Wayne Doty

Mr. and Mrs. Bobby Jack Markham and Lee returned home Monday from visiting relatives, in Longview.

Mr. and Mrs. Jim Bob Hargrove returned home recently from vacationing, at Toledo Bend.

Randy Scott recently returned from visiting in Abilene, with Mr. and Mrs. Bruce Fulcher and family.

Mrs. Jessie Wiseman is a surgical patient in the Littlefield Hospital this week, where she underwent surgery, Tuesday.

Gary Ham was recently in Abilene to visit friends.

Mr. and Mrs. Ken Minyard and Mr. and Mrs. Pat Minyard and Monica were in Lubbock Saturday, to attend the reunion of Lubbock Air Base, held at Reese Air Force Base.

It has been reported that Mrs. G. W. Davis of Littlefield and formerly of Sudan has suffered several falls recently at her home. She received only bruises and soreness as a result.

Recent visitors, in the home of Mr. and Mrs. Henty Clarke have been her sister, Mr. and Mrs. Alfred Spell of Kenett, Mo. and her nephew and his wife, Mr. and Mrs. Erlin Gresham of Levelland. They all were in Ruidoso for a few days rest and vacation. Spell is the pastor of the Pentecostal Holiness Church in Kenett.

Roger Swart, son of Mr. and Mrs. Wayne Swart, is in Washington, D.C. attending a political class with other students from ACC, of Abilene. They will also be doing some sight seeing.

Mr. and Mrs. John Williams and family, Deanna Flowers and Joey Ballar vacationed at Quanah and Lake Brownwood last week. Mr. and Mrs. Bill Adams and girls of Saginaw met them at Lake Brownwood for a visit.

When TOPS 634 met Monday, August 18 at the Community Center, there were 5 members present. Roll call was answered by number of pounds lost or gained. There were no losses. The Pledge was repeated in unison and the meeting dismissed.

Recent visitors in the home of Mr. and Mrs. Dick West were their daughters and sons-in-law, Mr. and Mrs. Gary Kelley of Dallas and Mr. and Mrs. James Snyatsch of Lubbock. They visited with them for several days and also visited their grandparents, Mr. and Mrs. Earl Chester, of Littlefield and other relatives.

Shawn Chalke, son of Mrs. Maxine Chalke, returned to his home in San Antonio Saturday, after spending the past three weeks here with his grandparents, Mr. and Mrs. Milton Wiseman. They also visited in Platoro, Colorado while he was here.

The Waiser family reunion was held Saturday and Sunday Aug. 23 and 24th at Ceta Glenn Canyon. Those attending were Mr. and Mrs. O. O. Baker, Mr. and Mrs. Calvin Baker, Mr. and Mrs. Dexter Baker, Mr. and Mrs. Deck Baker and children, Mr. and Mrs. Larry Baker, Mr. and Mrs. Pete Lance, Steve Edwards and Monty, Mrs. Robin Davis and Mandy, Bo Lance, Donna Gillett, Blake Laceywell, Mark Baker Shane and Fawn.

Mr. and Mrs. Roy Graves were in Atoka, Okla. recently, to visit relatives and while they were there, their daughter, Mr. and Mrs. Bruce Snook and Chris, of Bossier City, La. met them in Atoka, for a visit.

Recently visiting in the home of Mr. and Mrs. Claud Kropp were her mother Mrs. Virgie Warren, of Crosbyton, her sisters, Mrs. Jewel Stone, of Slaton, Mrs. Ruth Webster of Lubbock and Mr. and Mrs. John Kropp and children, of Hart.

Rev. Hazel House is to be Lubbock, Friday where she will see Dr. Dunn, for a final check up after having undergone recent back surgery.

Weekend visitors in the home of Mr. and Mrs. Jay House in Andrews were their sons and family, Mr. and Mrs. Dal-

ton Wood, Von dell and Juanel, Capt. and Mrs. John Wood of Lewisville and Mr. and Mrs. Roy Mahan of Monahan. They attended church services at the Wesley Methodist Church. Other visitors were Mr. and Mrs. Jim Claunch and Mr. and Mrs. Marvin Drake, of Bula.

Mr. and Mrs. John Burnett were in Brownwood recently attending a family reunion.

Mr. and Mrs. Acie Daniels recently returned from vacationing in Georgia and in Nashville, Tenn. where they visited Opryland and other points of interest. They also have been to Red River, N.M. recently.

Lt. Radey Fisher of Phoenix, Ariz., visited last week with his parents, Mr. and Mrs. Lee Roy Fisher & Missy.

Mrs. J. S. Smith fell recently at her home and was hospitalized at the Amherst Hospital with a back injury.

David Doty and Debbie Phillips of Lubbock visited Thursday, in the home of Mr. and Mrs. Wayne Doty, and returned to Midland, Monday.

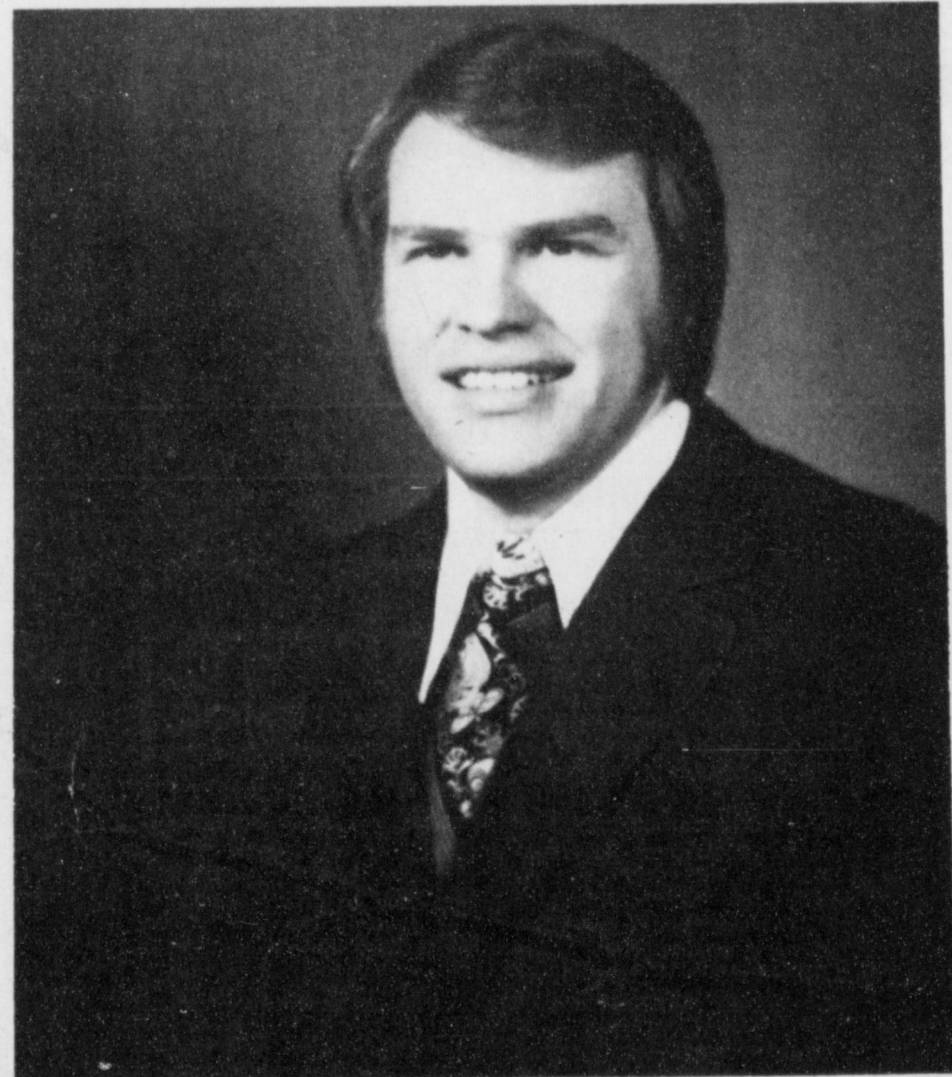

An Art Class will begin Tuesday, Sept. 2, at Dood's Custom Frame Shop on Main Street with Billy Homer of Friona, as instructor. This course is on Tuesday of each week, for five weeks. Another class will be available soon.

Mr. and Mrs. Jeff Lynskey of Lubbock visited over the weekend, in the home of her parents, Mr. and Mrs. Kenna Sue Richards, daughter of Mr. and Mrs. Kenneth Richards. She has been visiting her grandparents, Mr. and Mrs. John Underwood in Amarillo, while her parents attended the General Assembly Church of God of Prophecy, in Cleveland, Tenn. Others attending from Sudan were Mr. and Mrs. Wesley Brannan, Vesta Richards, Melba Richards and Alvin Richards, Jr.

Mr. and Mrs. Green Underwood visited recently in Amarillo with his parents, Mr. and Mrs. John Underwood.

Green Underwood returned recently from Summer Guard Camp, in El Paso.

Editorial Labor Day

The first man to suggest a day be set aside in honor of labor—the working man and the spirit of industry in the nation—was probably Peter McGuire. He was President of the United Brotherhood of Carpenters and Joiners of America in 1882 when his suggestion was adopted by the Central Labor Union in New York.

The first Labor Day, then, was observed in 1882. In 1884 the Federation of Organized Trades and Labor Unions, which later became the American Federation of Labor, adopted the suggestion and states (Oregon was the first) began to declare the first Monday in September a holiday. McGuire had chosen September because it was about midway between July 4th and Thanksgiving.

By 1894, when Congress declared the day a holiday in all federal offices and territories, some thirty states had acted to make Labor Day a legal holiday. After Oregon, Colorado, Massachusetts, New Jersey and New York were the next to declare the holiday.

One good feature of Labor Day, the traditional last weekend of summer in many areas, is that it always falls on a Monday, thus creating a long weekend.

This year Labor Day is on the 1st. As on other holidays, there will be many accidents; in observing this year take care to see that you live to observe other Labor Days.

What Price Agreement

Columnists and commentators are waxing euphoric over the prospect of a new interim agreement between Israel and Egypt. The celebrating is premature. The United States is buying another brief Middle East respite at the cost of huge new air programs, plus being committed to the defense of peace in the area.

Generally speaking, the American people oppose being tied to the bitter religious conflict in the Middle East by an alliance, treaty or military obligation. The price Israel is asking for another short withdrawal from Egyptian territory is excessive—and the cost is to be borne almost entirely by the U.S. taxpayer.

The Israelis want several billions of dollars in military and economic aid. They want, in addition, U.S. personnel sent into the area between Israeli and Egyptian forces. They want the United States to pay for the cost of building a new defense line to replace the forward line they are to retire from.

They want the United States to reimburse them for the production of oil from Egyptian wells they would evacuate—for years to come. They want long-term aid commitments, so that Washington will lose its leverage over Israeli policy. And they want more.

Obviously, that price is too high. The United States must not be unofficially committed to any future conflict by having personnel in the area. Nor should the U.S. taxpayer reimburse Israel for oil from Egyptian wells, to be evacuated; certainly, not for years to come.

McAuliffe's One-Word Reply, "Nuts" Becomes American Folklore

The recent death of General Anthony McAuliffe brought to mind to many who served in World War II, and others, the greatest battle ever fought on the continent of Europe by an American army.

The Battle of the Bulge began on December 16th, 1944, and was Hitler's last offensive of the war. It lasted only a few short weeks, but it was a very costly action costing tens of thousands of dead and wounded on each side.

The U.S. command had strung out four divisions on an eighty-mile front which was thought not to offer the Germans an offensive temptation. But Hitler personally conceived and directed a 26-division surprise attack on that front. It penetrated some sixty miles; at one time, between December 18th and 20th, the situation was grim for the Allied command.

General McAuliffe was, by chance, in command of the 101st paratroop division (as second in command to General Maxwell Taylor, who was in Washington when the battle opened). The 101st was rushed to Bastogne and soon surrounded—because the Germans by-passed the little Belgian town on both sides in order to keep to prearranged schedules.

They demanded surrender and McAuliffe replied, "Nuts!" The garrison held the town throughout the larger battle, which was a battle of desperate fighting, heroic actions, some less admirable (large-scale U.S. surrenders in some cases), and one in which air power turned the tide when the skies finally cleared on Christmas Eve and Christmas Day.

Three books, Robert Merriam's "Dark December," John Toland's "Battle" and Peter Elstob's "Hitler's Last Offensive," chronicle the winter struggle of 1944 and 1945, and those who wish to know how it was in the toughest battle in Europe in World War II can find much of interest in them. Elstob's is the latest and therefore the most enlightening.

McAuliffe's cocky, confident reply became a piece of American folklore which will endure for many generations. And "Old Crock" (as he was called by his soldiers) was there only by chance, never suspected at the time his one-word answer would make him more famous than anything else he ever did. Fate plays such games with generals and admirals in war.

Maybe!
When you feel dog-tired at night, it may be because you growled all day.
—W.O.W. Magazine.

TOWER TALKS by U.S. Senator for Texas JOHN TOWER

Food Weapon?

WASHINGTON—Will the United States ever use its abundant food basket as an international weapon?
That is a question being asked more and more as American supremacy in military and industrial strength continues to slip.

No one doubts American supremacy in food production. According to an official government study, the whole world has become dependent upon America for grain. The U.S. now supplies nearly three fourths of the net global exports. Trends in population, food production and climate indicate that American supremacy in food production will become even greater in years to come.

What should U.S. policy toward the rest of the world be when our country becomes the sole exporter of food? One alternative is to use food as a weapon for political blackmail of other countries. But this is something we should not do.

First, any decision to withhold food probably would stimulate production in other countries which could potentially cut into our own export markets. Other countries could produce more food if they were willing to pay the price.

Second, if the U.S. chooses to withhold food as a tool of national policy, what happens when the "needy" countries become the Soviet Union, China, or other, developed, but food-scarce nations? As long as the U.S. is dealing with clearly inferior military powers, it would perhaps be possible to use food as a "weapon" to exact diplomatic concessions. But it could be very dangerous to use such tactics against a nation that is as strong militarily as ourselves.

If food becomes so scarce that the major military and industrial powers are threatened, the world could see a forced migration to food producing areas, backed by military force and nuclear threats. The instability and resultant chaos in urban centers would make traditional civilized methods of problem-solving unworkable.

Another reason for rejection of a policy that would turn food into a tool of international diplomacy is moral. We would be turning our back on the proud record we have set of selfless aid to other nations which desperately need it.

In the event of world food shortages of such magnitude that the U.S. has a life-or-death power over the neediest countries, we would be false to ourselves to withhold the bread of life from starving peoples. I cannot think of any political advantage we could gain that would compensate for the sacrifice of our best impulses as a people and as a nation.

WASHINGTON NOTES

TO BAN PESTICIDES
The government has decided to suspend two widely used pesticides—heptachlor and chlordane—because of potential cancer risks.

Texas Taxes

Austin—Retailers operating illegally without a sales tax permit give us as many problems as permit holders

who are delinquent in sending in the tax money they collect from their customers. The sales tax permit is a

green certificate issued without charge by the Comptroller to anyone going into the business of selling anything subject to the sales and use tax.

There are some 225,000 retailers holding valid sales tax permits at any given time. It's amazing that about 40,000 new permits are issued each year and another 40,000 permits go out of effect every year as retailers get out of business or change

their name, location or legal status.

We have no way of calculating how many people might be operating without the permit, but we discover new ones week in and week out.

In some cases we discover retailers operating without a permit are charging sales tax to their customers and simply putting the money in their pockets. In other cases we find that non-permit holders

are not charging the tax.

But in either case, when we discover them the retailer is responsible under the law for all the back tax money he either has collected or should have collected.

I know that in a good many cases the retailer operating without a permit is doing so in honest ignorance of the law. Perhaps he thinks what he is selling is not subject to the tax or that the customers to whom he is

selling are tax-exempt.

Anyone going into the retail selling business of anything should settle these questions at the start by checking with the nearest field office of the Comptroller's Department. We have 35 offices located across this state, and anyone who can't find their nearest office can get their questions answered by calling our headquarters in Austin. Retailers who are in

business without the permit are playing with fire. Operating without a permit is a misdemeanor and is punishable by a \$500 fine for every day you operate without a permit.

The law requires that the green permit be displayed conspicuously in the retailer's place of business.

Any retailer who isn't—or can't—display the green permit is pretty apparently not sending sales tax money

to the state even if the retailer is collecting it from his customers.

I don't think the buying public is too cheerful about forking over their nickels and dimes and quarters and dollars to an operation which is doing anything with the money but sending it in.

Goldwater says Nixon wants G.O.P. role.

PIGGLY WIGGLY

The Consumer Alert

by John L. Hill
Attorney General

AUSTIN—As prices continue to rise for many consumer goods, more and more shoppers are taking care to see that they get all they pay for.

And a problem that is increasingly disturbing to some consumers is that they are paying more for some items and finding out that they are getting less of them than indicated on packages.

Perhaps because of this, consumer complaints about deceptive or misleading pack-

aging, short weight, and short count have been on the increase throughout the country.

Our Attorney General's Consumer Protection Division reports that cautious consumers are checking and questioning packages that contain fewer items, or a lower weight, than indicated.

Some consumer groups in other states have even organized members into crews to canvass local stores and weigh and count goods. Their findings in some cases were

surprising, and, in several cases, contradictory.

In one instance, articles packed by weight were generally found to be accurate, while articles packed by count were often short.

A survey in another state, however, revealed that many products packed by count there actually contained more of an item than indicated on the package.

Weights and measures inspectors in a western state discovered nearly 12,000 items

in a store were short-weighted. Bulk meat sold for home freezers was consistently found to be short-weighted in another state. And, in North Carolina, a supermarket meat manager was sent to jail by a judge for short-weighting meat items.

But, in California, a judge ruled that while meat must meet labeled weights when it is packed, reweighing at individual retail stores need not indicate precisely the same weight.

"Slack filling" is another packaging problem that seems to be surfacing more these days, according to reports. This is the practice of packaging so the consumer thinks the item inside is larger than it is in reality.

Boxes that are slack filled also often have oversized illustrations of the items inside, contributing to the impression that consumers will be getting more than they do.

The Federal Trade Commission has been investigating the

practice of slack filling, and recently ordered a manufacturer of do-it-yourself craft items to stop putting small hobby parts into extra-big boxes. The FTC claimed that the boxes contained mostly "filler" with only a few small parts.

Such wide variations in findings would seem to indicate that while certain manufacturers or stores may engage in deceptive trade practices regarding packaging, no blanket statements can be made about an entire industry.

Damron's Granddaughter Enjoys Theatre Work

Greta Reese, granddaughter of Mr. and Mrs. Joe Damron of Muleshoe and an apprentice at the Globe of the Great Southwest's summer festival, has found summer working with professional actors "a marvelous experience."

Miss Reese, who lives in Odessa said, "they are really marvelous about helping with your parts. They help in any way they can."

Under the apprentice pro-

GRETA REESE

gram, Miss Reese and about 13 other aspiring actors work in various capacities at the Globe, but do not receive any pay.

"They can't promise us any money," she told Robert C. Borden, writer for the Odessa American, "but we do get six hours (college) credit." All apprentices taking college credit courses during the day are involved in a course dealing with Shakespearean theatre and drama. They are studying the Globe, a replica of Elizabethan theatres, and Shakespeare's best-known play, "Hamlet."

Charles D. McCally, director of the Globe and originator of the first summer Shakespeare festival in Texas when he was at Victoria, is teaching the course.

Miss Reese says the apprentice program "gives us a chance to work with professional actors and see what a professional repertory company goes through."

She hopes to incorporate some of the different attitudes of professionalism she has seen in the actors into her own life. "I see what I don't want to do, but I also see what I want to do, I want to be a

better actor and better person," she said. "I have learned patience," she noted, adding, "I have learned different techniques."

At the end of the summer festival, August 24, Miss Reese returned to Austin College in Sherman to finish work on her bachelor of communications arts. She expects to receive that degree in December and immediately begin work on a masters in education, teaching drama and speech. She hopes to finish her masters in December, 1976.

Miss Reese moved from Muleshoe to Odessa when she was two years old. She began dance lessons at four and has been involved with theatrics ever since, going on stage for the first time at the age of seven. She starred in a play while in junior high school. Though she was not involved in school drama during high school, she did participate in a number of plays at Permian Playhouse, including "Annie Get Your Gun," "Gypsy" and Kaleidoscope Company productions.

Her father, Jim Reese, has also been involved in numerous productions at the Playhouse. He has been stage manager and is chairman of the board of the Globe of the Great Southwest board.

Deciding on her own to audition and tryout for an apprentice, she has proved that she does not need her father's help on stage. She has roles in all four summer productions. She was first exposed to classical theatre at Austin College.

After completing her work at Austin College, Miss Reese hopes to teach high school drama and speech. "I don't feel I want to teach only," she said. "I still want to act." She said, "I feel like if you're going to be a good teacher, you've got to keep up with your acting."

Speaking Frankly

For some strange reason Americans tend to confuse frankness with rudeness.

-Herald, Anthon, Ia.

The Sandhills Philosopher

Editor's note: The Sandhill Philosopher on his Johnson grass farm reflects on last week's grain crop estimate, we think.

Dear editor: At 3 o'clock one day last week the whole world near about was on needles and pins to hear what the Agriculture Department estimated the U. S. grain crop will be for this year.

That is, everybody but the Russians; they apparently already knew and had stocked up on U.S. grain at a satis-

factory price a few weeks ahead of time. I guess if the CIA hadn't had all its men tied up trying to overthrow governments in other countries it could have spared a few to check up on weather conditions in Russia and find out that the Soviets would be in the market for grain and let's see if we can't out-trade them just this once at least. Looks like somebody sometime would think of swapping some of our grain for some of their oil, but the trouble is they buy our grain in the summer time and it's not

till winter time we find out we're short of heating oil.

But what I started out to say was that crop estimating, which makes the farmer's grain market go up or down, ought to be applied to other things. Why should farmers and ranchers, not counting the speculators, be the only ones to grab a newspaper or listen to the radio every morning to find out whether the price of their crops and livestock has gone up or down over night?

For example, the government ought to estimate the number of cars and pickups coming out this year, so the manufacturers could wake up in a sweat

every morning wondering what the market price on cars is today. The same ought to apply on estimates of oil production, tractor production, etc.

Say, I notice somebody in Washington has found a bureau costing \$70,000 a year which has acted only twice in seven years, and there's an outcry to abolish it. Be the worst thing you can imagine. Any time you've got a set of bureaucrats you hear from only twice in seven years, I say that's the kind we need more of.

Yours faithfully,
J.A.

Summer Vegetable Harvest Good Despite Wet Weather

AUSTIN—Despite the usual vagaries of the weather, vegetable production throughout the state should be sufficient to help Texas maintain its dominance in this area of agriculture, Texas Agriculture Commissioner John C. White reports.

Wet weather earlier in the year caused lateness of many crops including watermelons and cantaloups.

Harvest of cantaloups is underway in North and East Texas now as well as the irrigated crop in Pecos state.

Watermelon harvest is finished in South Texas, and is now underway in other parts of the state. The crop is late in Central Texas, and heavy rains in East Texas reduced stands in some fields and are expected to reduce average yields.

Tomato production and harvest has peaked in the southern half of the state. Yields were reported about fair in some sections, but were extremely low in East Texas due to heavy rains. Harvest is underway in northern portions of the

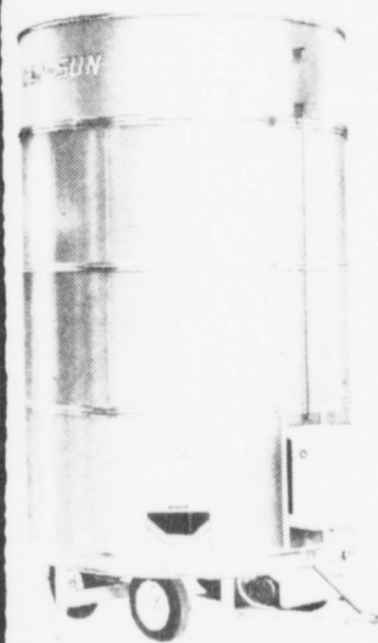

Cucumber harvest is also continuing in the state. Some acreage had to be replanted due to hail and heavy rains. Some growers will plant cucumbers on onion land as soon as that crop is harvested, but harvest of these fields will not get underway until September.

Summer onion production in the state will be down as will yields. Harvest is underway on the High Plains.

Summer potato production on the High Plains will be down 20 percent from a year ago. Harvest is underway, and supplies are expected to be available through November. Heavy rains in East Texas resulted in some fields not being planted; however, existing stands are in good condition.

Texas ranked first in 1974 in the nation in production of cabbages, watermelons, and spinach. It was second in onion, cantaloupe, and carrot production. Texas rated third in total fresh market vegetable production and is fifth in the nation in total vegetable production.

SAFE AND SECURE

How confidently he sleeps. Mother and Daddy are in the next room. Teddy Bear is right beside him.

We also desire a feeling of confident security. We want to do good and live with honor in this life, free of the fear of falling into sin. God wants this for us, too. And He sees and knows how hard we try.

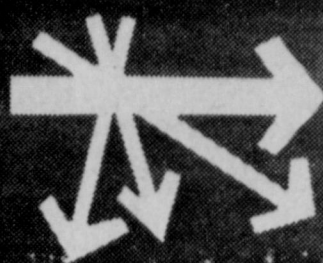

In the New Testament, Jude writes: "God is able to keep you from falling, and to present you faultless before the presence of His glory with exceeding joy."

Pledge yourself to Him and attend church this week.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Public Notice

Sealed bids addressed to the City of Muleshoe, Texas will be received at the City Hall until 8:30 a.m., September 16, 1975, and then publicly opened and read for furnishing all plant, labor, material and equipment, and performing all work required for installing a butyl rubber lining in the 1.0 million gallon concrete reservoir. Bids shall be submitted in sealed envelopes upon the blank form of the proposal attached hereto and marked in the upper left hand corner. All proposals shall be accompanied by a cashier's check or certified check upon a national or state bank in the amount of five (5%) percent of the total maximum bid price payable without recourse to the City or a bid bond in the same amount from a reliable surety company, as a guarantee that bidder will enter into a contract and execute performance bond within ten days after notice of award of contract to him. The bid security must be enclosed in the same envelope with the bid. Bids without check or bid bond will not be considered.

The successful bidder must furnish performance and payment bonds upon the forms which are attached hereto in the amount of 100% of the contract price from an approved surety company holding a permit from the State of Texas to act as surety or other surety or sureties acceptable to the Owner. The right is reserved to reject any and all bids and to waive any informality in bids received. Plans, specifications and bidding documents may be secured from the office of the City Manager or at the office of Bill R. McMorries & Associates, Inc., 6300 Canyon Dr., Amarillo, Texas 79109, on deposit of Twenty-five (\$25.00) Dollars per set which sum so deposited will be refunded, provided: (1) All documents are returned in good condition to Bill R. McMorries & Associates, Inc. not later than 48 hours prior to the time for receiving bids; or (2) The Contractor submits a bid and all documents are returned in good condition to Bill R. McMorries & Associates, Inc. not later than five days after the time that bids are received.

Sorghum Producers Set Election

LUBBOCK -- Grain sorghum producers in the High Plains area will elect four members to the Texas Grain Sorghum Producers Board on Oct. 16. Nominations will be accepted through Sept. 16 at TG SPB offices, 1708-A 15th St., Lubbock, Texas, 79401. Directors whose terms will expire are Ralph Mabry of PETERSBURG, C.P. Smith of Hale Center, K. B. Parish of Springlake and Larry Witten of Olton. All are eligible for re-election. Persons in the 29-county TGSPB area who produce grain sorghum and pay the board assessment are eligible to vote and seek election. Any person wishing to be nominated for membership should make application by Sept. 16. The application must be signed by the nominee and 10 other eligible voters. Eligible voters who do not receive ballots by Oct. 2 may obtain one from a county agent. Counties in the Texas Grain Sorghum Producers Board area are Armstrong, Bailey, Briscoe, Carson, Castor, Cochran, Crosby, Dallam, Dawson, Deaf Smith, Floyd, Gaines, Hale, Hansford, Hartley, Hockley, Hutchinson, Lamb, Lubbock, Lynn, Moore, Oldham, Parmer, Potter, Randall, Sherman, Swisher, Terry and Yoakum. Delinquency rate on home mortgages growing.

 hool. The first week the boys worked out in shorts, then received their pads.

They have experienced only one injury since the start of the season. Rick Groggin received a muscle tear around the pelvic bone the first Saturday the boys were in pads, said the coach. However, this is not considered to be a serious injury, through very painful. The coach believes Rick will be ready for play by September 5.

The Mule coach stated that the players are "a little smaller" this year than in the past, but they will be quicker, so this shouldn't make much difference. He feels their quickness will make up for their size. "The boys all have a good attitude," said the coach, "and this will be a big help."

On the coaching staff, working with Coach Stout are Rodney Murphy, Raymond Schroeder, Robert Hayes and David Lynn.

Coach Stout is looking forward to a good season and urges fans to come to all the home games as well as many out-of-town games they can make and support their team.

The Muleshoe High School Football Schedule for 1975 is as follows:

- September 5, Dimmitt, here 8 p.m.
 - September 12, Olton, here, 8 p.m.
 - September 19, Friona, there, 8 p.m.
 - September 26, Littlefield, there, 8 p.m.
 - October 3, Portales, there 8:30 p.m.
 - October 10, Morton, here, 7:30 p.m.
 - October 17, is an open date, with no game scheduled.
 - October 24, Perryton, here 6 p.m.
 - October 31, Levelland, here at 7:30 p.m.
 - November 7, Canyon, there, 7:30 p.m.
 - November 14, Dumas, there, 7:30 p.m. -- Final Game.
- Muleshoe is in District 1 AAA, which includes all schools from 520 to 1134 enrollment.

Progress...

 groups: Pee Wee, eight years old and under; Young Junior, nine through 12; Junior, 13 and 14 and Senior, 15 through 19 years of age.

Several awards will be presented to the winners, and will be belt buckles for the High Point boy and girl in each age group; tack to those who place First through Third; ribbons to Fourth through Sixth place winners; trophies to Grand and Reserve Grand Halter Classes and a trophy will be given for High Point Visiting County. A hard luck award will be given for each age group. Entrants are expected from 11 different counties.

The Progress 4-H Open Horse Show is open to any youth 19 years of age and under as of January 1, 1975. The age for each contestant will be determined according to the contestant's age on January 1, 1975.

All registered horses need to have the registration papers for age verification.

Mares and geldings will only be allowed to enter. No stallions will be allowed. Members of the same family may use the same horse provided they are in a different age group. Participants may use more than one horse, but only one in each event.

State 4-H Horse Rules will be used for judging except for the special rules above stated.

Entries and fees must be returned to Mr. and Mrs. Ronnie Spies, Box 328, Muleshoe, or Spencer Tanksley, County Extension Agent, Muleshoe.

ON CIGARETTES
 LONDON--The British government reports it was ready to introduce tough laws to regulate the manufacture and promotion of cigarettes.

REFUGEES QUIT JOBS
 PENSACOLA, FLA.--Thirty-nine Vietnamese refugees given jobs as peach harvesters in South Carolina quit their jobs saying the hours were too long and work too hard.
