Business Manager Election Contested

Training Director's Talk To Highlight Show Today

The 34th annual Science and Engineering Show continues today with a speech by Brig. Gen. John McNabb, director of the X-15 training program at Randolph Air Force Base.

McNabb, who will discuss the engineering problems, training of pilots, performance and development of the X-15 rocket, will speak at 2 p.m. at the Industrial Engineering Building. In the event of bad weather, he will speak in Lubbock Municipal Auditorium.

X-15 Rocket

The X-15 rocket has been flown faster than 4,000 miles per hour and has been taken to an altitude of more than 314,000 feet. The YLR-99 rocket engine, powerplant for the X-15 aerospace craft, is the main attraction of the Air Force ROTC display.

Due to rainy weather, the skydivers could not jump Friday. They are scheduled to parachute onto Memorial Circle at 1 p.m. today, weather permitting.

In addition to the speech and the skydiving, Tech's Science and Engineering Show features exhibits from various departments on campus and from the Lubbock area.

The chemistry department is featuring a hypothetical trip to space. The space project will include all aspects from spacecraft construction to air-regeneration in space to re-entry to earth.

Architecture Department

The major project of the architecture and allied arts department is a multi-colored cloth structure

in the Architecture Building courtyard. The structure umbrellas a rectangular pool of gravel and a non-objective work in welded steel.

The structure, which is 32 feet high, is placed to attract the public to the array of student displays inside the Architecture Building.

The mechanical engineering department is featuring a dynamometer, Mach interferometer and a Schlieren system.

The civil engineering department is featuring a future model interchange at 19th St. and College Ave.

Electronic Advances

Recent advances in the field of electronics is the project of the electrical engineering department. Among their exhibits is a "shot gun microphone" much like those used by radio and television for sports coverage.

The chemical engineering department is featuring a nuclear level controller to keep the level of liquids in tanks even.

A 15-minute film on the advances of nylon will be shown continuously in room 101 of the Chemical Engineering Building.

Ash trays made on the spot for the public from a phenolic resin will be given away.

The petroleum engineering department is featuring a gas chromatograph that analyzes the components of natural gas.

Cotton Process

The textile engineering department is showing an exhibit on the processing of cotton from the

bale to the bolt with guided tours through the laboratories.

The industrial engineering departments' main exhibit is a force platform. The platform can tell the exertion on a worker while he is operating equipment.

The agriculture engineering department is showing a pictorial panorama of the evolution of farm machinery in room 105, Textile Building.

High School Trackster Dies

A McCamey youth, Marvin Bankston, was found dead yesterday morning in a Lubbock motel.

Bankston was in Lubbock to participate with his McCamey high school team in the Region I Interscholastic League Track Meet.

Bankston reportedly awoke yesterday complaining of a headache. About 30 minutes later an ambulance was summoned, but Bankston was dead on arrival at a local hospital.

Teammates of Bankston said he had been strenuously preparing for the meet for two weeks. He was to have run in the mile relay and the 100-yard dash.

He previously had been clocked in 51.2 seconds in the quarter mile, and 10.1 in the 100.

BILL BEUCK

GARY ROSE

Texas Tech students Friday elected Bill Beuck, Gary Rose, Karen Kitzman and Johnny Walker as executive officers of the 1966-67 Student Association.

Beuck will serve as president, Rose as vice president, Miss Kitzman as secretary and Walker as business manager.

However, the business manager election was protested Friday afternoon by Lyn McClellan, president of Men's Dorm No. 9, on the basis of campaign literature placed under dormitory doors.

Protest Filed

McClellan filed the protest with Executive Secretary Sara Cox, chairman of the Elections Committee, at 1:45 p.m. Friday.

Miss Cox, contacted in Amarillo late Friday night by The Toreador, said that the Elections Committee would meet at 3 p.m. Monday to consider the protest.

If the protest is upheld, Walker will be disqualified from the election, leaving the position to Max Blakney, the only other person running for that office.

Chief Justice of the Supreme Court Bob Fillpot said any de-

(Continued on Page 3)

ELECTION RESULTS

President:

Bill Beuck—4,067.
Jerry Rawls—1,837.

Vice President:

Gary Rose—5,281.

Secretary:

Karen Kitzman—3,163.
Lynn Melton—2,696.

Business Manager:

Johnny Walker—3,031.
Max Blakney—2,846.

Boy Cheerleaders:

Rex Wood—3,137.
Ronald Todd—1,959.
Mike Canon—1,924.
Alvie Burdine—1,904 (alternate)
Ted Swigart—1,171.
Pete McKay—1,151.
Mike Searcy—1,058.
Dennis Rawls—1,037.
Keller Smith—958.
Neal Myers—670.
Sonny Moore—286 (write-in).

Girl Cheerleaders:

Marcie White—2,388.
Kay Hayden—1,752.
Leslie Duckworth—1,666.
Diane Shackelford—1,617 (alternate).
Carolyn Case—1,326.
Sally Easterwood—1,295.
Julie Parkinson—1,239.
Betty Jane Brown—1,162.
Bea McCoy—881.
Donna Duke—788.
Sandra Coggins—737.
Kathy Arledge—388.

KAREN KITZMAN

Senatorial Race Set

Sara Cox, Student Association secretary, said Friday that candidates in the senatorial race should check the Association list of candidates to make sure that their names are on the list as they want them on the election posters and to make sure the student office has not overlooked anyone running for the Senate.

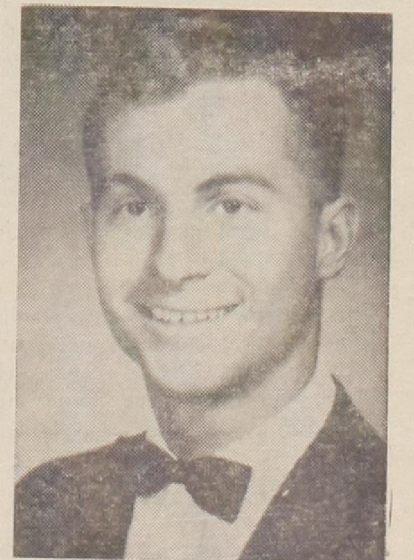

Miss Cox said that any corrections to the list must be done at the Senate office by noon Monday. The senatorial elections are scheduled for Friday.

Candidates on the Student Association list are:

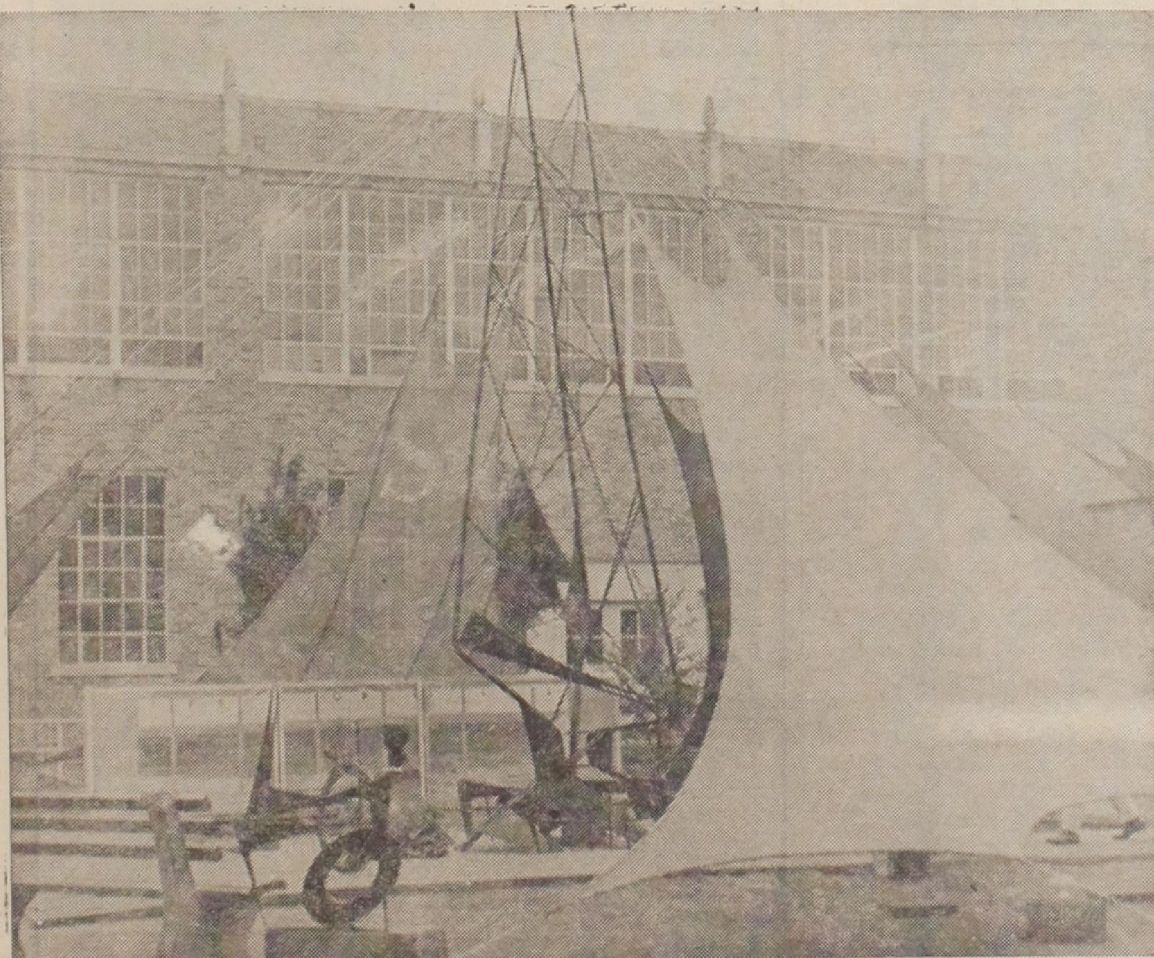

Agriculture

David Boston, Calvin Brints, Fe Busby, C. W. DeWitt, Richard Edwards, Mike Ligon,

JOHNNY WALKER

ENGINEERING SHOW—Among the many exhibits at the 34th annual Science and Engineering Show today is this multi-colored cloth structure built by students of Tech's architecture and allied arts de-

partment for the show. The structure was the winner of an inner-department contest among students of the department.

(Staff Photo)

4-H Students Compete

SWEETHEART — Miss Marcie White of Kappa Kappa Gamma was elected Sweetheart of Phi Kappa Psi at their annual Dinner Dance Saturday.

Four hundred-fifty junior and senior high students will be judged today at Tech in the 4-H Club District Elimination Contest.

The students, from 20 counties surrounding Lubbock, will compete in 28 different contests, including livestock judging, public speaking, beef cattle business demonstrations, community improvement demonstrations, field crop judging, and soil judging.

The contests, from 9 a.m. to noon in 28 different places on campus, will determine the winners of the awards given at 1:30 p.m. today in the Student Union Ballroom.

Winners of the district meet will go to College Station, June 8, for the state contest.

MORTAR BOARD

Mortar Board will initiate new members Sunday at 2 p.m. in the Union Blue Room.

AWS

Tickets for AWS Women's Day Banquet will be on sale Monday through Saturday and May 2 until noon. Tickets may be purchased in the dorms, the office of the dean of women and the Union. All women students and faculty members may attend.

ACTIVITY INCREASES
NORFOLK, Va. (AP)—Secretary of the Navy Paul H. Nitze said today Russia is increasing its naval activity in the Mediterranean area. He made the comment while discussing "new challenges at sea" posed by the Soviet Union. Nitze, in a speech at Norfolk's Azalea Festival, said Russia has the largest submarine fleet in the history of the world.

Master Of Flamenco Montoya Plays Here

Carlos Montoya, the world famous master of the flamenco guitar, will be heard in concert at Municipal Auditorium Tuesday at 8:15 p.m.

A Spanish gypsy born in Madrid, Montoya was a musical prodigy, achieving national renown by the age of fourteen, when he played the "cafes cantantes" during the popular era of flamenco singing and dancing. His debut as a concert artist was preceded by years of accompanying such distinguished dancers as La Argentina, Vicente Escudero and Argentinita.

Montoya is the first flamenco guitarist ever to perform in a solo concert. He has been hailed by aficionados as one of the truly great masters of our time, known for his advanced technique, his flair for creative innovation, and his infinitely varied repertoire.

Flamenco has very strict rules of rhythm and certain characteristic chord patterns. Before one can attempt to improvise one must be a complete master of the rigorous discipline inherent in the form itself.

Nevertheless, the essence of flamenco is the improvisation and experimentation as the artist moves along. It comes from the Spanish gypsy tradition that spawned flamenco music itself. "If you stop to think about it when you are playing," says Montoya, "the spirit just disappears."

Montoya draws upon a tremendous knowledge and on excellent musicianship, but he remains a man who must be free in his art. The essential creative element of flamenco is added when he plays, for he never plays the same way twice.

Ex-Students Association To Take Orient Tour

Members of Texas Tech's Ex-Students Association have been invited to participate in a 22-day Orient tour beginning in July, Ex-Students Executive Director Wayne James said Friday.

Ex-Student President Don Anderson of Crosbyton will serve as

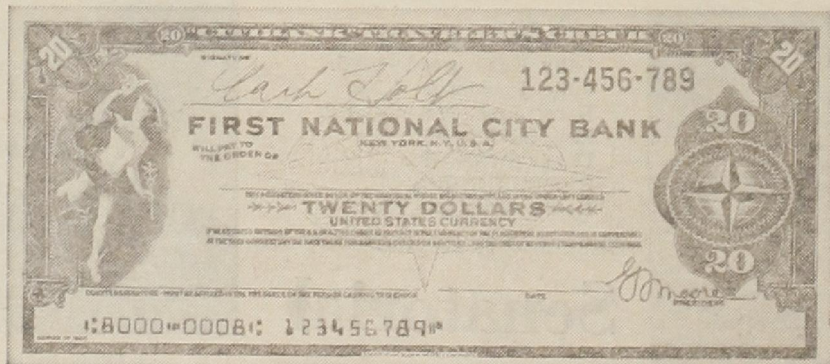

tour host, which will include visits to Alaska, Japan, Hong Kong, the Philippines and Hawaii.

Anderson said the tour is "an opportunity to visit new and exciting places and become better informed about the rapidly changing world."

Heading for the beach this vacation? Don't bring losable cash. Bring First National City travelers checks. You can cash them all over the U.S. and abroad. But their big advantage is a faster refund system.

Other travelers checks are every bit as good as First National City Bank's

...until you lose them!

Other leading travelers checks, like First National City travelers checks, can be cashed all over the world.

But if you think all travelers checks are alike, you may be in for a rude shock if you should lose your checks.

With other leading travelers checks, elaborate and time-consuming inquiries often have to be made. It may be days—even weeks—before you get your money back. Who wants to wait?

But, if you lose First National City travelers

checks, you don't have to worry. There are more than 20,000 places around the world authorized to give you a fast refund—right on the spot!

First National City travelers checks come from the leader in world-wide banking, and have been in use over 60 years. They are known and accepted in more than a million shops, hotels, restaurants, air terminals, etc., the world over.

Next time you travel, insist on First National City travelers checks.

They cost just one cent per dollar.

First National City Bank Travelers Checks

Sold by banks everywhere

SECESSION—Mike Wimberly surrounded by his Kappa Alpha brothers reads the KA secession proclamation as the fraternity began its "Old South" celebration Friday with a parade through

the campus followed by the secession message in front of Dook Hall. The celebration continues today with the formal "Old South" ball and the crowning of the KA Rose.

Heather Attends Meet

Dr. George Heather, Dean of Texas Tech's School of Business Administration is in San Diego this week attending the 50th anniversary meeting of the American Association of Collegiate Schools of Business. AACSB was founded to promote excellence in higher education for business. The association is the official accrediting agency for collegiate business schools in the United States.

BEUCK ELECTED...

(Continued from Page 1)

cision made by the Elections Committee could be appealed to the Court either by McClellan or Walker.

The action apparently means that the protest will ultimately end up in the Tech Supreme Court.

Other Protests

Other protests were filed, but they will not be considered by the Committee because Walker was the only winning candidate filed against.

"There were a great number of violations of election laws," McClellan said Friday night. "If we are going to have rules, we have to follow them. Some corrective measure definitely is needed."

The Elections Committee will vote on the protest by secret ballot. Walker will be allowed to defend his position before the committee, but only the information

filed in the protest will be considered for the plaintiff's side.

Elected as male cheerleaders were Rex Wood, Ronald Todd and Mike Canon, with Alvie Burdine as alternate. Female cheerleaders will be Marcie White, Kay Hayden and Leslie Duckworth, with Diane Shackelford as alternate.

A total of 5,904 votes were counted as valid in the election, as compared to 5,154 last year. The number of invalidated ballots was not available.

Beuck Wins

Beuck defeated Jerry Rawls, his only opponent in the presidential race, by a vote of 4,057 to 1,837. Rose was unopposed on the ballot, receiving 5,281 votes.

Miss Kitzman polled 3,163 votes to defeat Lynn Melton with 2,696. Walker outpolled Blakney by a count of 3,031 to 2,846.

Election returns were completed at approximately 9:30 p.m. last night. Results were temporarily delayed because write-in ballots had to be counted by hand and the remaining IBM ballots had to be key-punched.

Our View On:
University Happenings

Campaign Comments...

NOW THAT THE QUIET following the election storm has arrived, it is time to see what happened.

At the time this is being written, we don't know who won the major offices, but we have faith that the voters selected the student leaders best qualified for the jobs. The thing to do now is to get behind these new officers and give them even more support next year than was given during all the hectic campaigns.

There are several things we liked about this election that we haven't seen in previous elections here:

More persons seem to be taking active parts in the campaigning. True, this action may have been in the form of "circus" stunts or attention-getters too much of the time, but at least we know that the energy is there and can be channeled in other directions—if the students ever see the need for taking many of the elected posts out of the personality bracket and put them on higher levels.

The little tags that said "I have voted" are the greatest things since orange juice. Not only do they protect the voter from the swarms of placard-bearing enthusiasts, but they also encourage other students to go in and vote—especially when it is easy to see who hasn't, just by looking at the tags they have pinned on.

However, several questions have to be asked about the elections, also:

Is the \$50 limit on campaign expenditures in the rules for looks, or is it supposed to mean something?

We think that the Election Committee and/or the Student Senate need to look into this question seriously and either make the figure more reasonable, or enforce it.

It obviously wasn't enforced during this election.

In connection with Friday's campus elections, North Texas State University at Denton has a program which Tech might do well to imitate—absentee voting.

The Campus Chat, student newspaper, pointed out that many students are unable to vote on election day because they commute and do not have classes on that day, they student teach and are unable to get free, or for some other reason do not plan to be on campus for elections.

The senator who proposed absentee voting at North Texas State commented, "This is an important step in providing additional voting opportunity for commuters and other students whose schedules ordinarily would not permit them to vote."

It might be a wise idea for next year's Student Senate to look into the possibility of absentee voting.

Students of Portland State College in Portland, Oregon, plan a month-long campaign to show the college's economic importance in the community.

The plan: get two-dollar bills into the hands of PSC students who will in turn get them into the hands of downtown merchants. "Hopefully this will show that poor as PSC'ers may be, they are still an important economic force in the community," The Vanguard said.

Student instigator Dave Josephson hopes to get all money used by PSC students changed into two-dollar-bills. The college food service, the co-op bookstore and a downtown bank have already promised to help with the program. The bank has agreed to open a special window for serving students and faculty who want to change their currency into the symbolic bills.

Josephson urges all students to

abstain from using credit cards when shopping downtown. Instead he wants them to use the \$2 bills.

"We are an important economic force in the community," Josephson said, "but it is evident that merchants are not recognizing us as such. This campaign will get us that recognition because its effect will be clear and decisive," he said.

Josephson also added that he

thought the possibility of embarrassment produced if such a campaign were to fail after being publicized was a risk Portland State College would have to take.

The proposed plan is scheduled to get underway May 1. Interestingly enough, the \$2 bills will have more symbolism than is readily visible. PSC's colors are green and white.

Maybe Tech should get some black and red bills. Something needs to be done to make downtown Lubbock realize Tech is here and is an important part of the community, not to mention the economy.

The views of THE DAILY TOREADOR are in no way to be construed as necessarily those of the administration.

THE DAILY TOREADOR, official student newspaper of Texas Technological College, Lubbock, Texas, is regularly published daily, Tuesday through Saturday.

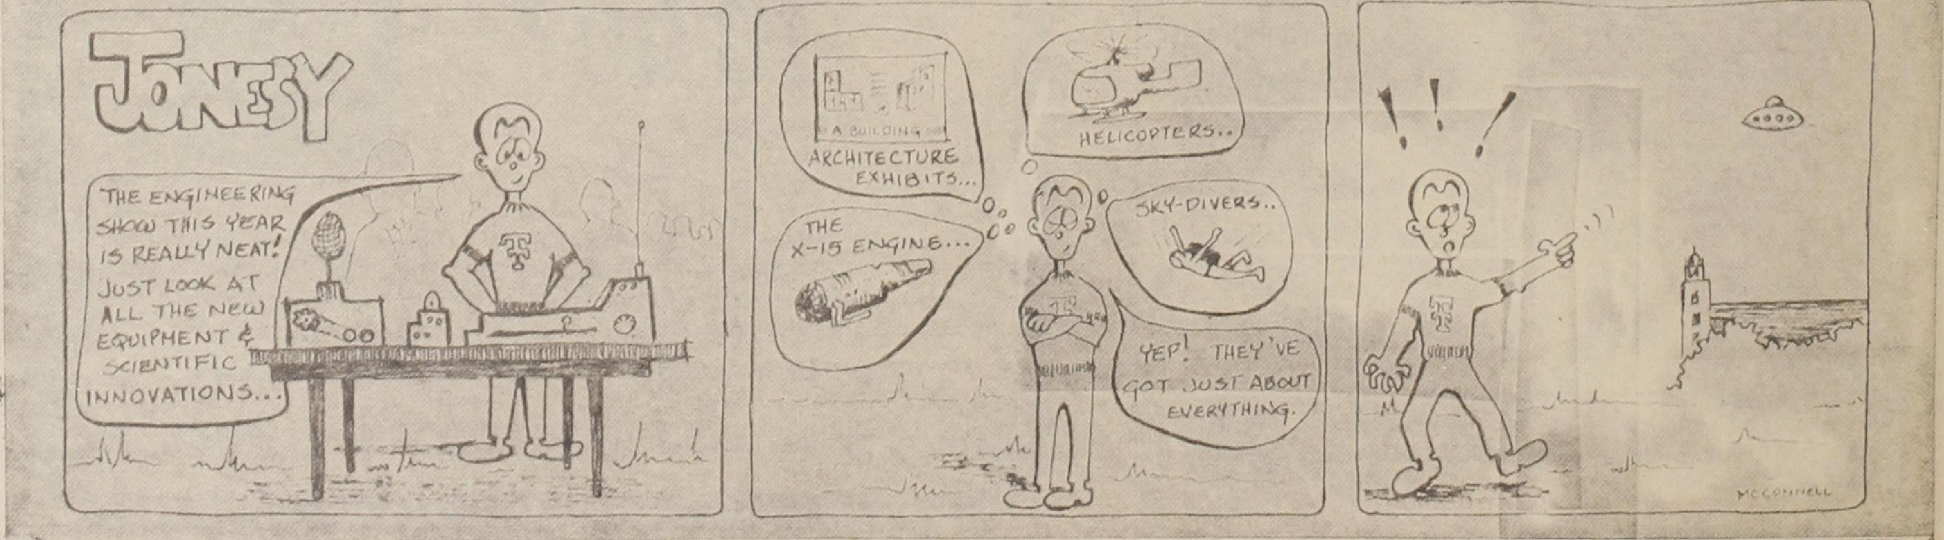

The University of Texas is still having some difficulty getting an editor for the 1966-67 Daily Texan.

First, they had a student election for editor, then they had a run-off election, then charges were filed in the Student Court contesting the validity of the run-off election, and finally the Student Court's decision was appealed to the Appellate Court which upheld the Student Court's decision for a new run-off election.

So another run-off election will be conducted, possibly April 27, between Gloria Brown, winner of the first run-off, and John Economidy.

The Court ruled that the run-off must follow general election procedures. The Election Committee will provide 25 polling places with voting lists of schools and colleges in the new run-off. Absence of polling lists was one count on which the Student Court threw out the March 17 run-off election.

The Appellate Court cited absence of 1,603 affidavits, discarded by an Election Commission member before counting of ballots, as the deciding factor in its unanimous decision.

ALSO AVAILABLE IN CANADA.

Raiders Host Triangular

Another "first" will be recorded by the Texas Tech track team today as the Raider thinclads host Texas A&M, paced by world record holder Randy Matson, and Baylor in a triangular meet on the Tech track.

The meet, which begins at 5 p.m., will mark the first time an all-Southwest Conference field has competed on the Tech track in a triangular.

According to Tech Coach Vernon Hilliard's predictions, the Aggies

should rake in the most points with the Bears close behind and Tech finishing third.

Hilliard's prognostications are based on past performances of the individual athletes.

Featured Event
A featured event will be in the

shot put where Matson will meet his No. 1 agitator, Tech's Ed Mooney. The pair will also meet in the discus event.

Mooney has been 56-3 1/2.

Mooney could have a better chance against Matson in the discus. Matson's best spiral has been 191-6 1/2 and Mooney has gone 175-1 1/2.

Hilliard thinks, however, that on a given day, Mooney could overtake Matson in the discus.

Mooney Has Chance?
"I have all confidence that Matson will eventually break the world record in the discus," Hilliard said recently. "But Randy is not consistent in the discus and on one of these days, Mooney could win with a good throw."

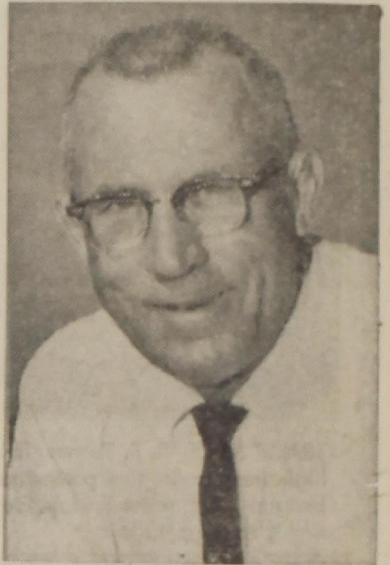

Including Matson, there will be defending SWC champions in five events.

Matson is the standard holder in the shot put and discus and teammates Mike Schrider and Dan Meadows were winners last year in the high jump and javelin respectively.

Tech's Ronnie Davis represents the other winner for his three-mile victory in the conference meet last spring.

Possible Records
Matson, in his specialties, Schrider

VERNON HILLIARD

ED MOONEY

On Campus

with Max Shulman

(By the author of "Rally Round the Flag, Boys!", "Dobie Gillis," etc.)

ROOMMATES REVISITED

This morning's mail brought a letter from a student at a prominent Western university (Princeton). "Dear Sir," he writes. "In a recent column you said it was possible to get along with your roommate if you try hard enough. Well, I'd like to see anyone get along with my roommate! Mervis Trunz (for that is his name) practices the ocarina all night long, keeps an alligator, wears knee-cymbals, and collects airplane tires. I have tried everything I can with Mervis Trunz, but nothing works. I am desperate. (signed) Desperate."

Have you, dear Desperate, *really* tried everything? Have you, for example, tried a measure so simple, so obvious, that it is easy to overlook? I mean, of course, have you offered to share your Personna® Super Stainless Steel Blades with Mervis Trunz?

To have a friend, dear Desperate, you must be a friend. And what could be more friendly than sharing the bounty of Personna Super Stainless Steel Blades? Who, upon enjoying the luxury of Personna, the nickless, scrapeless, tugless, hackless, scratchless, matchless comfort of Personna, the ease and breeze, the power and glory, the truth and beauty of Personna—who, I say, after such jollies could harden his heart against his neighbor? Nobody, that's who—not even Mervis Trunz—especially not today with the new Personna Super Blade bringing us new highs in speed, comfort, and durability. And here is still a further bonus: Personna is available both in Double Edge style and Injector style.

No, dear Desperate, your problem with Mervis Trunz is far from insoluble. In fact, as roommate problems go, it is pretty small potatoes. Compare it, for example, to the classic case of Basil Metabolism and E. Pluribus Ewbank.

Basil and E. Pluribus, roommates at a prominent Eastern university (Oregon) were at an impassable impasse. Basil could study only late at night, and E. Pluribus could not stay awake past nine p.m. If Basil kept the lights on, the room was too bright for E. Pluribus to sleep. If E. Pluribus turned the lights off, the room was too dark for Basil to study. What to do?

Well sir, these two intelligent American kids found an answer. They got a miner's cap for Basil! Thus, he had enough light to study by, and still the room was dark enough for E. Pluribus to sleep.

It must be admitted, however, that this ingenious solution had some unexpected sequelae. Basil got so enchanted with his miner's cap that he switched his major from 18th Century poetry to mining and metallurgy. Shortly after graduation he had what appeared to be a great stroke of luck: while out prospecting, he discovered what is without question the world's largest feldspar mine. This might have made Basil very rich except that nobody, alas, has yet discovered a use for feldspar. Today Basil, a broken man, squeezes out a meagre living as a stalagmite in Ausable Chasm.

Nor has E. Pluribus fared conspicuously better. Once Basil got the miner's cap, E. Pluribus was able to catch up on his long-lost sleep. He woke after nine days, refreshed and vigorous—more vigorous, alas, than he realized. It was the afternoon of the Dean's tea. E. Pluribus stood in line with his classmates, waiting to shake the Dean's hand. At last his turn came, and E. Pluribus, full of strength and health, gave the Dean a firm handshake—so firm, indeed, that all five of the Dean's knuckles were permanently fused.

The Dean sued for a million dollars and, of course, won. Today E. Pluribus, a broken man, is paying off his debt by walking the Dean's cat every afternoon for ten cents an hour.

© 1966, Max Shulman

We, the makers of Personna Blades and the sponsors of this column, will not attempt to expertize about roommates. But we will tell you about a great shaving-mate to Personna—Burma Shave®! It soaks rings around any other lather; it comes in regular and menthol.

Reds, Whites Battle In 'Semi-final' Scrimmage

Tech's spring training football force takes a change of pace from its usual workout routine at 7:30 tonight when the Reds take on the Whites in the semi-final spring scrimmage in Jones Stadium.

It'll amount to the No. 1 offense whacking heads with the No. 1 defense with the No. 2s filling in occasionally.

"This game condition scrimmage will go a long way in determining what kind of team we'll have next year," Head Coach J T King said. "We'll be looking for the boys who are willing to put forth the effort necessary for a winning team."

Balanced Offense

King is looking to the scrimmage with fingers crossed.

"We're hoping to have a more balanced offensive unit this year," he said. "And we certainly hope the defense proves strong enough to meet the competition."

Several players will miss the scrimmage because of minor injuries, King said. "We don't have anything serious, but we just don't want to take any chances."

Watching from the sidelines will be: tackles Jimmy Arnold and Ronnie Sowell; fullback Charlie Graham; safetyman, David Baugh;

Track...

(Continued from Page 6)

er and Baylor's Darrel Ward represent possible record-breaking performances on the Tech track. Ward has soared 14-6 in the pole vault.

According to Hilliard's scribbles, the Aggies should win with 65 5/6 with the Bears second by a hair and Tech a decided third, with 37 1/6.

On the basis of these predictions, Baylor should win seven first place ribbons, A&M four and Tech three and Baylor and A&M tying for the other two.

Admission will be \$1 for adults and 50 cents for all others except Tech students, who'll be admitted on their activity cards.

end Terry McWhorter and guard Marc Bryant.

Dual-Quarterback Role

The hotly contested battle for starting quarterback chores will again be split equally between Guy Griffis and John Scovell. Griffis will operate the No. 1 offense during the first half and Scovell will take over for the final two periods.

Neither player has cinched the starting berth, King said, and the No. 1 tag probably won't be known until next fall.

"After spring training we'll evaluate both players as to who had the best spring training," King

said. "But we're going to watch them both this summer to see who works the hardest, then make a decision next fall."

King is moderately pleased with the progress of the quarterback position and says the passing phase is doing "pretty good."

"I think it's safe to say we won't pass as much next year as we did last year," King said. "What we're hoping for is a more balanced attack."

Less Passing

"We won't be able to pass the ball as well as Tom (Wilson) did last year, but Griffis and Scovell can both run better than Tom and

we're hoping this will make the difference."

"But whoever gets the No. 1 quarterback position, the other will start at strong safety," King said. "So they're both tabbed for starting duty whatever happens at quarterback."

Defensive end, an Achilles heel for the Raiders last season, still has King doubtful.

"We think in (Richard) Campbell and (George) Cox, we will have adequate replacements for (Joe Hurley) and (Pat) Knight," King said.

Can't Predict

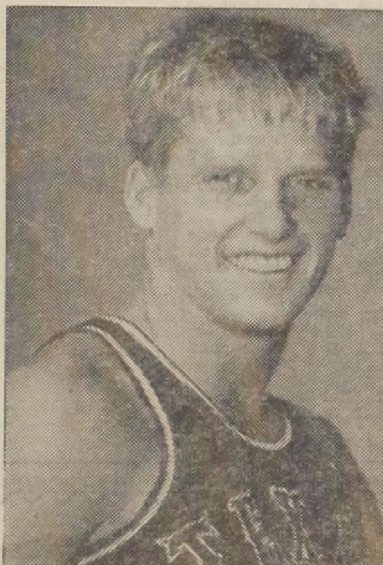

"Both of these boys are capable of playing good SWC ball, but you just can't predict what a young player is going to do," King said. "They can't expect to be a Shipley or Anderson right off, so it just depends on how much they're willing to work to become capable."

Starters on the No. 1 defensive unit include: ends, Hurley and

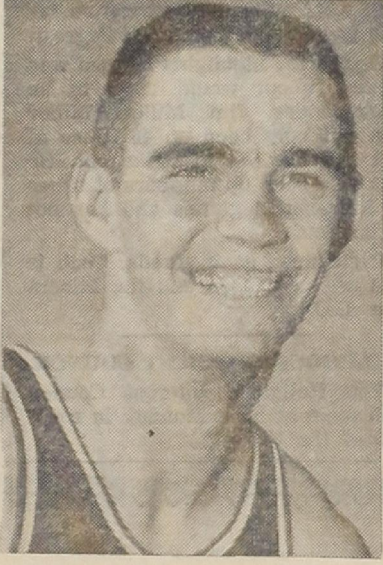

Knight; tackles, James Wheat and Leon Lovelace; linebackers, Bill Doane, Jimmy Moylan and James Henkel; strong safety, Gary Romans; weak safety, Larry Bufkin and halfbacks Jimmy Edwards and Gary Seat.

Their opposition will be: ends, Terry Scarborough and Larry Gilbert; tackles, Stanley Edwards and Phil Tucker; guards, Don King and Ronnie Pack and center, Jerry Turner; quarterback, Griffis and Scovell; fullback Kenny Baker; halfbacks, Mike Leinert and Jerry Lovelace.

The Raiders will wrap up spring practice next Saturday with a final game condition scrimmage.

Weather May Cancel Diamond Play

By GARY TILORY
Staff Writer

After driving 350 miles from El Paso the Texas Western Miners may have traveled in vain.

Scheduled to play the Raiders in a double-header baseball game Friday the two teams fell victim to the weather.

According to coach Burl Huffman the city ground crews are trying to get Mackenzie Field ready for play today. If the city crews work the somewhat awesome task, the two teams will square off today at 1 p.m. in a hopeful doubleheader.

"The games will have to be just rained-out games if the groundskeepers can't get it (Mackenzie

Field) in shape. This field (Huffman) is just too bad to play on," commented Huffman.

"We have a game Tuesday with West Texas here and two here Saturday with Abilene Christian. Then the following Saturday we play Abilene Christian there in a doubleheader. That takes us down to two days before dead week. I just don't see how we can fit them (Texas Western) in our schedule as it stands right now," noted Huffman.

For the Raiders it will be more likely mound ace David Callarman going in the first game. If the weather holds probably Eldon Fox or Bob Weber will be on the mound for the Raiders in the second

game, said Huffman.

Being rained out gives both teams an extra breather. For Tech it may be a needed one, since in their last outing they didn't score a run in 24 innings. This breather may just be the thing they need to get them started on the scoring and winning road again.

"This series is likely to be the turning point in the whole season for us. It will more than likely be the game that will decide whether or not we will have a successful season or not for the year. In more ways than one we have had a somewhat successful season so far this year," said coach Kal Segrest.

One of the highlights Segrest was talking about would have to be centerfielder Jim Miller. Miller has officially been up 46 times at bat and has yet to strike out. He has also been up numbers of times in intra-squad games and has not struck out.

Right now, as it stands, Tech is 6-11 on the season and the Miners are 11-9.
