

'Maid' Judging Ends Tonight

by DON JONES
Toreador Staff Writer

Some 25 vivacious young ladies will vie for an all-expense paid trip to the National Maid of Cotton Contest tonight as final judging gets underway at 7:30 in Municipal Auditorium.

Included in the 25 contestants will be 18 Tech coeds.

Preliminary judging for the contest began Monday at 9 a.m. The preliminary rounds will end at noon and contestants will rehearse at 1:30 p.m. today for the contest tonight.

The winner of tonight's contest will succeed Joan Weinke Weaver, last year's winner and a former Tech student.

A luncheon at 11:45 a.m. Monday, sponsored by the Plains Cotton Growers Assn., honored the judges and contestants.

Highlight of Monday's activities was the annual ball in the Colonial Room of the Pioneer Hotel, with music furnished by the Joe Reichman Orchestra.

Monday the contestants and their escorts were honored at a dinner by the Maid of Cotton Committee of the Lubbock Chamber of Commerce. Judges will be honored at a pre-ball dinner by the Plains Cotton Enterprises.

Wayne Underwood, vice president of the Student Assn. and campus coordinator for the Maid contest, said that the total of 18 Tech girls in the annual contest was the largest number ever to enter from the Tech campus, although Tech girls have won the contest on several occasions.

Underwood said several individuals and organizations on the campus had been instrumental in promoting the contest.

"I want to extend special thanks to the Tech coeds who entered. I feel we have a very good chance of having a winner from the Tech campus again this year—at least I hope so," Underwood said.

The South Plains Maid will receive an all-expense paid trip to Memphis, Tenn., to participate in the national contest, plus a \$1,000 all-cotton wardrobe and a trip to the Cotton Bowl on Jan. 1 to participate in the Cotton Bowl Parade.

Should the South Plains winner win the national honor, she will ride a special float heading the parade and present the Southwest Conference Sportsmanship Trophy at halftime in the New Year's Day game.

The winner of the National Maid of Cotton contest will reign for the year. She will receive a tour of Europe, Canada and the U.S. as a goodwill ambassador for the cotton industry.

Girls entered in the contest are Beverly Ann Alexander, Big Spring, a junior home economics major at Texas Tech; Markay Reynolds, Lubbock, a sophomore commercial art major at Tech; Jan Barton, Matarador, a sophomore home economics major at Tech; and Juanita Carrell, Lamesa, a graduate of TCU and a student at Methodist Hospital School of Nursing.

Other entries are Carol Nicholl, Plainview, a junior interior design major at Tech; Carol Naylor, Littlefield, a junior elementary education major at Tech; Judy Fiedges, Lubbock, a sophomore bacteriology major at Tech; Carnetta Eurgel, Shallowater, sophomore elementary education and speech major at West Texas State; and Lynn Warren, Lubbock, a sophomore speech therapy major at Tech.

Also entered are Annette Sweatt, Denver City, a junior business education and music major at Tech; Latrice Teague, Brownfield, a freshman speech major at Tech; Roselinda Stowers, Lubbock, a student at Methodist Hospital School of Nursing; and Janice Vise, Tulia, a junior elementary education major at Tech.

Other hopefuls in the contest are Cindy Parker, Hale Center, a sophomore music education major at Tech; Bobbie Claire Owen, Lubbock, a school teacher at Bozeman; Libby Malley, Lubbock, a junior English major at Tech; Jodi Conway, Lubbock, sophomore government major at Tech; and Susan Lee Cross, Plainview, a sophomore English and history major at Tech.

Also Patsy Jo Thompson, Lubbock, senior secretarial administration major at Tech; Nadyne Faulkenberry, Seagraves, a junior home economics major at Texas Tech; Helen Bennington, Lubbock, employed by Southwestern Bell Telephone; and Denise Rose, Morton, a junior elementary education major at Tech.

"YES, YOU WON!"
Gene Price, emcee at Club Scarlet, assures Ben Faulkner that he really is Tech's Most Handsome Man.

Nightclubbers Elect Faulkner As Tech's Handsomest Man

Ben Faulkner, senior from Big Spring, is Tech's Most Handsome Man. Faulkner was elected Saturday at the annual Theta Sigma Phi Club Scarlet.

Pi Beta Phi collected top honors for the second consecutive year in the Skit Row with "Lubbock Is My Home." The skit depicted Lubbock's often humorously questionable attributes over those of other Texas cities.

Faulkner, sponsored by his fraternity Sigma Chi, was elected from a field of seven finalists by

those attending the mock nightclub. Other contestants and their sponsors were Bill Allert, Sigma Kappa; Jim Head, Kappa Sigma; Tom Link, Pi Beta Phi; Cary Marshall, Horn Hall; David Rankin, Knapp Hall; and Robbie Robinson, Delta Delta Delta.

Sigma Chi took second in the skits with "The Golden Age of Comedy," a scene from the silent movies complete with flickering lights, jerky movements of the actors and the inevitable broken film.

Delta Gamma was third with "Big Handsome Man on Campus." The skit displayed the extremes of Tech's varied male student population.

Adding to the nightclub atmosphere, Gene Price of KDUB radio, emceed the program going forth with typical nightclub jokes.

Saturday's Club Scarlet was the "best ever" according to Freda McVay, president of Theta Sigma Phi, national women's journalism fraternity.

"We want to thank everyone who worked on skits and attended Club Scarlet," Mrs. McVay added, "and a special thanks to the men who entered our Most Handsome contest."

The President expressed her regret that many spectators had trouble finding seats Saturday, explaining that the turnout exceeded all expectations.

"We will try next year to choose a larger building for the club, but one that is not so large as to destroy the nightclub atmosphere," she added.

CFA Approves Loan For New Tech Dorm

Dr. R. C. Goodwin, Tech president, told the Toreador Monday that he had received wires from Senator Ralph Yarborough and Representative George Mahon confirming the approval of loans for Tech's new women's residence hall.

A loan of \$3,816,000 was appropriated by the Community Facilities Administration.

The dormitory, a six-story project that will house over 800 coeds, will be located on 19th Street west of Boston Ave. It is scheduled to be completed for the opening of the fall semester of 1963.

Lange Tops Speakers At Wichita Tournament

Mike Lange, Tech freshman from Houston, won top speaking honors in the junior division of the annual University of Wichita forensic tournament Saturday.

Lange was presented an engraved gavel. He was judged first over approximately 70 speakers.

Cleo Haston, Plainview, advanced to the finals in oratory. Others from Tech competing in the meet were Wynette Johnson, Genie Joyner, Arthur Skibell and Hac Brummet.

Arthur Skibell and Mike Lange had a 4-2 won-loss record and Hac Brummet and Cleo Haston had a 3-3 record. This gave Tech an overall 7-5 record placing the team in sixth place.

Kansas State Teachers College placed first in the meet with a 9-3 won-loss record.

Tech debate teams will enter two debate tournaments Dec. 1 and 2.

Dr. P. Merville Larson, head of Tech's speech department, will take two teams to the Southwest Conference meet at Texas A&M. The teams attending will consist of Kip Glasscock and Mike Pollard and Arthur Skibell and Mike Lange.

Robert C. Dick, Tech debate coach, will take four teams to the meet at the University of New Mexico.

The teams entering the University of New Mexico meet will consist of Jim Porter and Richard Estran, Cleo Haston and Wynette Johnson, Hac Brummet and Dixon Healy and Jane Nugent and Dave Doyle.

(See picture, page 8.)

Talented Techsans Audition For Annual Raider Rambles

Lights! Cameras! Action! Talented Techsans, you're on stage!

With the opening of the 1961 "Curtain Call" Raider Rambles, Tech's annual talent show, will present an array of entertainment brought straight from our own campus.

The show will be staged in the Tech Union Ballroom Dec. 15 and the winning act will be auditioned by a talent committee at Texas A&M for competition in the Intercollegiate Talent Show there next spring.

Any Tech student is eligible to

enter Raider Rambles, according to Pat Holt, member of Tech Union Entertainment Committee.

Sign-ups for the event are now being taken in the lobby of the Union and will continue through Nov. 28. The best acts will be chosen during an auditioning period Nov. 29 and 30.

All colleges in Region IX will participate. Out of these entries the ten top acts will be chosen for competition.

Last year's Tech winner was Clyde Bateman, whose singing act was selected for the Intercollegiate Show.

Her very best suit is trumps.... if it's from

Guys And Dolls Show Styles In Campus Fashion Parade

Toggerly ranging from warm from outstanding organizations on rugged ski clothes to light bright the campus will model the latest holiday wear will be featured in styles in the "Guys and Dolls" Tech Union's first big style show set for 7 p.m. Nov. 29.

Holiday decorations will lend an Coeds and college men picked atmosphere of fall and winter to

the event which will be moderated by Mrs. Jean Neel of the Traditional Shop.

Free door prizes will be awarded to the punuc who may come to the show in the Union Ballroom with no admission.

A special note for the guys in the ski set will be the showing of bold warm ski sweaters and colorful ski jackets. Sports clothes for campus wear will also be featured.

For the girls there will be a bright array of party clothes in autumn tones and casual dress-wear such as wool skirtwaists in orange, red or magenta.

Clothes will be furnished for the show by the Tradition Shop and Doms Ltd. of Lubbock.

Sorority Honors National President

Six pledges were initiated into Delta Gamma Sunday at the First Christian Church.

The new members are Kay Robison, Connie Oliveros, Jeanette Ethridge, Sallie Tatum, Gloria Horton and Suzanne Dudley. One pledge, Miss Ethridge, was awarded the best pledge plaque at a paddle party last week.

The Delta Gammas honored their national president, Mrs. Robert W. Preston, with a tea Nov. 19 at the Lubbock Women's Club. Mrs. Preston visited the Gamma Xi chapter of Delta Gamma on her return from the National Panhellenic Conference at Chandler, Ariz.

19 Girls Hostess SAE Rush Parties

Six new members of Little Sisters of Minerva received their pins in ceremonies at the SAE lodge Monday night. These new members will join thirteen other girls in generally promoting the aims and purposes of Sigma Alpha Epsilon as well as acting as hostesses at rush parties.

The new members are Jo Alice Blanton, Houston; Carol Foster, Hale Center; Mabel Ann Crosssett, Amarillo; Vicki Derrick, Breckenridge; Betty Isham, Ft. Worth; and Janie Mead, Lubbock.

Raider Roundup

AMA

All members of the American Marketing Assn. are urged to attend the general business meeting at 7 p.m. today. The meeting will be in the Anniversary Room of the Tech Union, and coffee and doughnuts will be served.

MUSEUM

The Museum will be closed for the Thanksgiving holidays beginning 5 p.m. Wednesday. It will re-open at 8 a.m. Nov. 28.

TOWN GIRLS

The Town Girls' Club will meet at noon Wednesday in the Union Ballroom. Girls are asked to bring clothing or cans of food for the Thanksgiving contribution to a needy family.

WSO

WSO will not meet until Nov. 29 due to the Thanksgiving holidays.

THANKSGIVING DANCE

There will be a Thanksgiving Dance at 7 p.m. today in the Union Ballroom. The Ad Libs will furnish music.

SCRIPT-WRITING COMMITTEE

The script-writing committee for the La Ventana beauty pageant will meet at 7:30 p.m. today in the newsroom of the Journalism Bldg.

LIBRARY

The Library will be open until 5 p.m. Wednesday, but will be closed Thursday, Saturday and Sunday. Friday it will be open from 8 a.m. until 5 p.m.

KAPPA ALPHA MU

Photographers! Eta Chapter of Kappa Alpha Mu, photo fraternity, will meet at 5 p.m. today in Rm. 202 of the Journalism Bldg.

LOST AND FOUND

Lost: A silver Rolex Oyster watch with a white face and a silver expansion band. Anyone finding this watch is asked to contact Rex Tackett at 353 Bledsoe Hall. A \$5 reward is offered.

Tech Ski Club Plans Trip To New Lodge

Arapahoe Lodge at Arapahoe Basin, Colo., will be the site for the Tech Ski Club's annual between-semester ski trip.

The area, with a new lodge and nine lifts, is located 68 miles west of Denver, on U.S. Highway 6.

The next meeting of the club will be 7 p.m. Dec. 12 in the Tech Union Ballroom Lounge. Movies will be shown at the meeting.

Cost of a ticket is \$57 and includes bus fare, room and board, equipment, lift, lessons and yearly membership fee.

Tickets are available from Norman Kinzy, Rm. 409 in Carpenter Hall; Jackie Blachly, Rm. 235,

Carpenter Hall; and at the next meeting.

Kinzy said each member making the trip should bring \$10 to \$15 along to cover meals in transit and personal entertainment while at the lodge.

Photographer Sells Club Scarlet Photos

Pictures taken at Club Scarlet may be obtained from Michal Ramsey in the Journalism Bldg. beginning Wednesday.

The photographs are 50c each and will still be on sale after the Thanksgiving holidays.

Zeta Pledge Class Prepares Basket Of Food For Family

The Zeta Tau Alpha pledge class is preparing a basket of food for a needy family this Thanksgiving. Each pledge is to give two cans of food to help make up the basket. A turkey or ham will also be added and will be purchased with money from the pledge class treasury.

Officers of the pledge class this year are president, Lynn Warren; vice president, Beverly Waggoner; secretary, Karen Gaston; and treasurer, Suzanne Chaney.

The chapter recently received a visit from Mrs. Duchess Hanley, national first vice president of Zeta Tau Alpha.

Bell Woodcraft

SH 4-5245 3104-33rd

Your job is providing communications of all kinds, wherever needed—whether in the northern snows to flash word of possible enemy missile attack, or in your home or college, or in serving the nation's business.

When we can't fill a need off the shelf, then we start fresh and create the answer to the problem. We've done that hundreds of times.

We began transatlantic radiotelephone service in 1927. Then we developed the

world's first undersea telephone cables to speed calls between continents.

We handled the world's first telephone conversation via satellite. And we have started development of an important world-wide communications system employing satellites.

When industry and government needed a way of gathering huge amounts of coded information from distant points, we were ready with our vast telephone network and Data-Phone, which can

transmit mountains of data at extremely high speeds.

And so it goes—Long Distance service, Direct Distance Dialing, the Transistor, the Solar Battery—a succession of firsts which goes back to the invention of the telephone itself.

Universal communications—the finest, most dependable anywhere—are what we deliver. Inside: for home, office, or plant. Outside: on land, under the sea, through the air.

(EDITOR'S NOTE:—In an effort to clean out our letter file before the Thanksgiving Holidays, we are publishing numerous letters today. We weren't able to get them all in—at least we tried.)

Tech Student Body,

Realistically, everyone knows that the best way to build school spirit is by having a winning athletic team.

Naturally, we cannot have this winning team unless we are able to get outstanding, qualified players. We, the students at Tech, can aid Coach King and his staff in this area by instituting a more effective recruiting program.

Last year this was started, but this year we can perfect it by putting personal rush on each of these high school athletes. Being honest and sincere to these young men will be the best way to make them feel at home at Tech.

Many groups on campus will be having parties, which they could be invited to. Some might like to talk with their future department heads, and many might like to go to church with some of us. The main thing is to let them realize how much each of us will do for our school, and then, they will feel that they could also use their talents for the betterment of Texas Tech. We will then have that winning team, and school spirit will naturally improve.

The position of the student body is of vital importance when the victory belongs to the opponent. The morale of the athletic teams is often diminished rather than improved solely as a result of general student attitudes. A group whose members display enthusiasm consistently in the presence of all their associates will, without fail, have an unmeasurable bearing upon those with whom they come in contact. If a body of students all take personal initiative, a spirit of competition will be aroused in great many indifferent persons each day, and by so doing, they will not fail to produce an improved spirit of loyalty and desire to succeed.

Let each one of us strive this year to aid the recruiting program and display enthusiasm consistently.

Sincerely,

Bob O'Neal (Gordon Hall)

Dear Mr. Carpenter:

The Amarillo Chapter of Texas Tech Ex-Students would like to express our appreciation to the student body and those student organizations who helped make Homecoming such a fine success.

It may be hard to realize how much we, as ex-students, enjoy returning to visit with old friends and see the excellent progress made by our school. A great deal of this progress is the result of the tremendous spirit and loyalty being exhibited by the present student body.

Please accept our congratulations for a job well done.

Sincerely,

Andrew S. Behrends, President
Amarillo Chapter Texas Tech Ex-Student Association

Dear Sir:

As president of the Pecos Valley Texas Tech Ex-Student's Association, I would like to take this opportunity, in conjunction with all Ex-Students in this area, in thanking the student body and student organizations that prepared the floats and other activities that made this 1961 Homecoming one of the finest in the history of the college.

We fully realize the time and effort that was expended by these

students on the various projects and we would like for them to know that this work is greatly appreciated by all of the Texas Tech Ex-Students in this area, and, I am sure, by the Ex-Student's throughout the nation, and that these projects contributed a major portion towards the success of the 1961 Homecoming.

Looking forward to visiting the campus in 1962 for another successful Homecoming event.

Very Truly Yours,

Jack L. McClellan
President

Pecos Valley Texas Tech
Ex-Student's Association

Dear Mr. Carpenter,

My wife and I are both ex-students of Texas Tech, and we attended the homecoming activities this year.

We were both proud of the effort and work put in by the members of the student body, its leaders and student organizations in the parade, decorations, coronation of the queen and all other homecoming activities. We realize what a tremendous effort is required of the students of Texas Tech in connection with a successful homecoming celebration, and we want to express our appreciation for the fine homecoming this year.

Very truly yours,
G. R. Close

Dear Sir:

Please allow me to convey to you and through you, to the members of the student body, my sincere appreciation for the hard work and earnest effort put forth to help make "Our" Homecoming a success.

The many Floats, Class reunions, registration booths, Pep Rallies, Queen Coronations, etc. were quite expertly handled and helped to make each one of us proud that "Our" Alma Mater is being cared for and her spirit matured by such a fine group of students.

Very truly yours,
C. Ralph Blodgett,
Class of '41

Dear Editor:

The Homecoming celebration was great. I'm sure all former students thoroughly enjoyed the festivities and the visit to the College.

Every phase of campus activity seems to improve as the years go by, and every alumnus likes to see the progress being made. The parade was delightful, the band was better than ever, and the Saddle Tramps were outstanding. We also enjoyed reading the Homecoming issue of the TOREADOR and want to thank you for bringing us up to date with all that is happening on the campus. The Homecoming Executive Committee did a tremendous job in planning the activities for the entire weekend.

Would you please convey to the members of the student body and especially to the members of the campus organizations our congratulations for a successful Homecoming. The alumni in East Texas thank all of you for your efforts in making this important event a memorable occasion.

Sincerely,

Bill F. Bales
President,
East Texas Exes

Dear Editor:

As foreign students and Arabs, we would like to say that Sam Bou-Said's opinion in the article entitled "Tech Foreign Students Give Ideas On Anti-Americanism," are certainly not shared by all the Arab students at Tech. As for his statement concerning the "coolness and disinterest towards the foreign students," this is an extremely ill-thought and ungrateful assertion, especially in light of Lubbock's excellent International Hospitality Committee. These people generously welcome us into their homes and hearts throughout our college years. Their only reward is our gratitude.

Having met hundreds of Americans during years in this country, we can say without reservation that the majority of these people have welcomed an opportunity to obtain firsthand knowledge of the economic and political situations in our countries and were eager to learn how they could help us.

When we return to our countries we will be armed with trust and confidence in the American people and sure of the good intentions of their government. It is indeed shocking that any foreign student here at Tech cannot find many Americans interested in their problems.

Very truly yours,

Fuad R. Khorshul
Engineering & Math student from
Kuwait
and all Arab Tech students

Dear Mr. Carpenter:

I had a wonderful time a couple of weeks ago when I came back to Texas Tech for Homecoming. It was a wonderfully handled week-end. A production as big as this has become can be handled only with the wholehearted support of student organizations as well as the very efficient efforts of Wayne James and our Alumni Ex-Students Association.

I had the honor of being President of this Association in 1934. I very vividly recall that that year we had our first Homecoming parade which consisted of a few decorated cars and I believe a 32 piece Texas Tech marching band. Naturally I thoroughly enjoyed the wonderful parade that Texas Tech and its friends put on through the streets of Lubbock.

I have kept in close contact with Tech the 18 years since I left there but I had to spend a couple of days on the campus doing nothing but visiting with old friends and attending Open Houses and meetings to realize the fantastic growth during these years. Texas Tech is now truly a first class University. I believe actually the biggest treat of the week-end was seeing our wonderful band in action. We also have a fine football team but Rice was up there and they were just too much for us.

Thanks to the many organizations that contributed to the overall success of this Homecoming I am certainly looking forward to next year's Homecoming as a result of the big time I had this year.

Yours very truly,

Mart G. Pederson

Carlyle Smith

News and Views

FIESTA COMMITTEE

Chairman—Bob Tinney
Members—Don Roper, Judy Stewart, Karen Moore (Union)
Peggy Maloy, Carlyle Smith (Council)
Jerry Parsons (B.S.O.), Ken Abraham (Engineering Show), Johnny Grist and Wendell Barnett (Sr. and Jr. Class)

Stimulus behind the formation of this committee was supplied by petitions circulated by Jay Mullin and Joe Barnhart of Carpenter Hall. These petitions, signed by about 1500—2000 Tech students, requested signatures of those in favor of the school having a "Fiesta" week similar in nature and scope to the "Roundup" week at Texas U. When presented to the Student Council late last spring, these petitions were considered by the Council to present a program that might:

1. Serve as a semester break for the school
2. Coordinate many of the events which seem to disrupt the campus during the spring.
3. Assist the events that appear to be losing money and student interest.

On the first point, the committee was, academically speaking, the limiting choice between a week of activity on the campus, or the present Spring Holiday Week. Our existing situation, by the way, is the result of a four or five year evolution of a program somewhat akin to the "Fiesta" idea—which was conceived in order to perform the "break" function, but which, even at its peak, never approached the release offered by the holidays. The committee therefore felt that any plan that would sacrifice the Spring Holidays, or any part of them, would draw negative reactions from the student body.

Because of this view, the committee was resultingly narrowed to the review of a weekend possibility. Upon the attempt at scheduling events into such a short period, it was found impossible to avoid conflicts that would offset any advantage to be gained by such a plan. It was also noticed, that since a majority of these events depend on organization participation, a group that usually entered these competitions would be extremely overburdened and unable to perform successfully. This again was reason for the committee to believe that the grouping of activities would be as detrimental as helpful.

The third consideration has been resolved to an extent since the close of the previous semester. For example—upon request, the Union had agreed to sponsor the Coronation Dance, which had been a losing financial battle for the sophomore and junior classes. Also other projects of similar difficulty were under strong evaluation programs. It seemed unnecessary to build an entire weekend around the few remaining troubled events.

With these opinions as a basis, the committee recommended that a report negative to the feasibility and advisability of such a program be submitted to the Student Council.

Personally, I would like to have seen some coordinative effort combining the various, schedule-upsetting events that string out over the last semester; however, after serving on the committee, I do feel that it decided wisely and honestly in the better interest of the students at Tech. I was particularly pleased with the manner in which this entire question was handled. The petitioning, presentation, Council consideration, and committee action; were all carried on in an unbiased, mature fashion under an atmosphere containing the idea of the general improvement of the school and students uppermost.

A Council member suggested that I might mention President Kennedy's idea of driving with your lights on in the day time during a holiday season. It's not a bad idea at all—it doesn't cost the driver anything, and it might cause some people to think twice.

LITTLE MAN ON CAMPUS

"AFTER LOOKING OVER THESE TEST PAPERS - I'D SAY SOME OF YOU COULD WELL AFFORD TO PAY MORE ATTENTION IN CLASS."

2,000 Applaud Michael Rabin At Second Symphony Concert

by BILL McGEE

Toreador Amusements Editor

Warming up both instruments and audience with a drum roll and a stirring "Star Spangled Banner", the Lubbock Symphony Orchestra last night gave its second concert of the season.

About 2,000 people attended at the Municipal Auditorium.

The highlight of the evening was violinist Michael Rabin, playing the Brahms D Major Concerto.

The young virtuoso received repeated applause—even between movements—for his performance.

The first (Allegro) movement saw him fly from triple-stops to soaring trills, as the woodwind section of the orchestra proved its competence.

In the cadenza of the second (Adagio) movement, Rabin brought new life to the rich concerto.

He encored with two difficult Caprices by Paganini (9 and 13) and the stately Adagio from Bach's A Minor Sonata.

The orchestra responded well to William A. Herrod's sensitive baton in Borodin's "Overture to Prince Igor." Staccatos were clean and fortes were solid, and a pass-

age of rapid trumpet interplay showed the brass section to be superior.

A thoughtful rendition of Smetana's wonderfully descriptive "Moldou" followed.

"Prologue, Aria and Dance," composed and conducted by Ramon Zupko, received its world premiere during the concert.

Citing several members of the

orchestra, including Alice Cooke for her beautiful oboe solo during the Brahms Concerto, Herrod introduced the final number:

"... and now we will render—meaning to tear apart—'Chiapanecas,' arranged by Carmen Dragon."

And the orchestra had, a good time doing it too.

Lubbock's 90-piece symphony orchestra made its season debut Oct. 23 with mezzo-soprano Blanche Theobom.

For its next concert, duo-pianists Whittemore and Lowe are scheduled to appear Feb. 26. Traditional "Pops" night is set for April 30.

About one-fourth of the orchestra's members are Tech music students.

A&M Hosts Conference

Ann Marie Wilking and John C. Parrish will represent Tech at the Seventh Student Conference on National Affairs.

The conference will be at Texas A&M College Dec. 6-9. Arnon Burton was selected as alternate.

Miss Wilking is a senior majoring in government. Her activities include: secretary-treasurer of Pre-Law Club and treasurer of Young Democrats; membership in Pi Sigma Alpha, government honorary society, Phi Alpha Theta, history honorary society and Tau Beta Sigma, professional Women's Band, 1958-59. Miss Wilking has also won a Lubbock Bar Auxiliary Assn. scholarship.

Parrish is also a senior government major. He is chairman of the Friday Noon Forum; a member in the Masonic Lodge, Young Democrats, Tech Marching Band and Tech Symphony Orchestra, the latter two being from 1958-60.

Burton is a junior majoring in history. Among other activities he is a member in Phi Delta Theta, Saddle Tramps, Board of Student Organizations and Campus Religious Council.

Harbinger Sets Later Deadline

The Harbinger will continue to accept student entries until Dec. 1.

All Tech students are eligible in any or all of the four categories: poetry, short story, informal essay and formal essay. Each piece of material submitted will be judged by faculty representatives, with first and second place awards in each division.

The Harbinger is published twice yearly by Sigma Tau Delta, national English honorary fraternity. Dwain Fuller, president of the fraternity, urges students to present their work for possible acceptance.

The purpose of the Harbinger is to encourage beginning writers and to provide a quality literary periodical for Tech.

Mrs. Dingus Speaks To Demos

Mrs. Wm. Dingus, former member of the United Nations Council, will speak on "Why I Am A Democrat" at 7:30 p.m. today in First Federal Bldg., 34th and Ave. W.

Membership fee is \$2 per person or \$3 per married couple for a year's membership.

Van McVay, president of the young Democrats, said that all awarded the winner of the contest will include three days of planned for the all-expense paid trip to Washington, D.C., must turn one day of free time.

WE'RE THANKFUL...

for the privilege of serving you, the students of TEXAS TECH.

Professor Reads Paper To Society

Dr. Lowell L. Blaisdell, associate professor of history, is in Mexico City this week to read a historical research paper.

Dr. Blaisdell's paper deals with United States policy toward the 1911 Revolution in Baja California. The reading will be presented at the Congreso de Historia, sponsored by the Colegio de Mexico, a Mexican educational society.

His reading will be taken from a part of his book, "The Desert Revolution, Baja, California, 1911," to be released next month by the University of Wisconsin Press.

Pat Weaver, National College Queen

What does this lovely College Queen want in her diamond ring?

Miss Pat Weaver, America's National College Queen, revealed her feminine taste as well as her practical sense when asked about diamond rings. She selected as her favorite the lovely Artcarved Evening Star—one of Artcarved's award-winning designs. Why did she choose it? Because of its breathtaking beauty and guaranteed quality. You see, every Artcarved ring is guaranteed in writing for all the years to come by America's most respected ring maker. You buy it with confidence—wear it with pride.

Visit your local Artcarved Jeweler and see why Artcarved diamond rings have been the choice of millions for more than a century. Perhaps you can start hinting for yours now!

Anderson Tops Picador Statistics

Halfback Donny Anderson from Stinnett dominated individual statistics in the Texas Tech Picadors' season this year, leading in six of the eight departments.

The Picadors played their final game of the season Friday, defeating North Texas State "B" team, 21-6. Friday's win gave Tech a 3-2 record for the year.

In other games they beat Hardin-Simmons "B", 23-7, and West Texas State "B", 55-14, and dropped decisions to the Arkansas freshmen, 14-7, and the Rice freshmen, 7-0.

Anderson led in scoring, rushing, pass receiving, punting, punt returning and pass interceptions. All totaled, 15 players figured

in the scoring parade for the Picadors, who outscored their opponents over the year, 106 points to 48 points.

Anderson was the only player to score more than one TD, however, accounting for five to give him a seasonal total of 30 points. Runnerup in the scoring column was Kenneth Gill, who was succes-

ful on 13 of 15 conversion attempts and kicked one field goal for 16 points.

Anderson gained 266 yards over the year to pace the rushers, although the top average was claimed by James Zanios. Zanios carried for 22 times for 147 yards and 6.7 yards per carry. Anderson's total was accumulated through 54

tries, giving him a 4.9-yard average.

Top passer over the year was James Ellis who connected on 16 of his 41 efforts for 278 yards and three touchdowns. Bob Black was second in this department, completing 4 out of 11 for 51 yards and one touchdown. Larry Anderson completed 1 of 3 for 11 yards as the third top passer.

Tommy Doyle shared the lead with Anderson for most pass receptions with four, but Anderson claimed the best yardage total. Anderson made 105 yards and two touchdowns on his catches while Doyle made 43 yards. Charles Gladson made one touchdown with a pass reception. Gill pressed Anderson for the punting leadership. Both kicked 13 times, but Anderson's went for 473 yards and a 36.4 average. Gill's total was 433 yards with a 33.3 mean.

In kickoff returns, James Zanios led, returning two kicks for 28 yards. Ronnie Reeger also returned two, but netted 20 yards. Top averages in this category belonged to Henry Hammons and Max Gatlin, who carried kicks back for 26 and 24 yards, on one return each.

Statistics on punt returns found Anderson tops again, returning 8 for 143 yards. Four other players each had three returns credited to them.

Again, Anderson topped the pass interception column, swiping two for nine yards.

Sneed Hall Seizes All-College Crown

Sneed Hall defeated both fraternity and independent league champions over the weekend to become the new all-college touch football champions at Texas Tech.

Meredith Is Out

DALLAS, Tex. (AP) — Quarterback Don Meredith of the Dallas Cowboys has a shoulder separation that will keep him out of action for at least three weeks and Buddy Humphrey, former Baylor star, has been called up as a replacement.

Meredith suffered the injury in Sunday's National Football League game with Washington.

Sneed had earlier won the dormitory title to win the right to participate in the playoffs.

They defeated the Misfits, independent champs, 14-6, Friday, and then turned back Pi Kappa Alpha by the same score Sunday to take the overall title.

Pi Kappa Alpha was the fraternity and defending all-college champion, and Sunday's game was only the second time in two years the Pikes had been scored upon.

The championship became official after a hearing Monday afternoon of a protest submitted by Pi Kappa Alpha following the loss to Sneed.

The protest was in regard to an official's judgement on a pass play and was denied.

"Tareyton's Dual Filter in duas partes divisa est!"

says veteran coach Romulus (Uncle) Remus. "We have a saying over at the Coliseum—"Tareyton separates the gladiators from the gladioli". It's a real magnus smoke. Take it from me, Tareyton delivers de gustibus—and the Dual Filter does it!"

SCARLET Scatterings...

By CHARLES RICHARDS
Toreador Sports Editor

Texas Christian's 6-0 defeat of Texas Saturday is just another example of the wacky play in the Southwest Conference.

Just when it appeared that the Longhorns were going to sweep to a perfect season and take with it the national championship, along came Abe Martin with his Horned Frog team that had managed only two wins of seven through the season.

It was a tough break for Darrell Royal's crew, who discovered that a pair sometimes beats a Royal Flush. The pair in the Saturday game were TCU's Sonny Gibbs and Buddy Iles, who teamed together on the 50-yard pass-run scoring play that spelled doom for the Steers.

It would have been an unusual, but pleasant, experience to bring the national title to a SWC member. As it is, the conference is rated no higher than third or fourth in the nation, with Big Ten, Southeastern and Big Eight conferences getting all the publicity as the "better" teams.

One consolation is that it's almost always another member of the conference and rarely ever a team from another conference that takes a SWC team out of the national rankings.

Despite the loss of prestige, it's another example of how tough the Southwest Conference actually is. There isn't a team in the conference that isn't capable of upsetting one of the other teams on a given weekend.

The upset dropped the Longhorns into a tie for the lead with Arkansas, 21-7 victors over SMU Saturday. The situation probably doesn't lend any weight to the Red Raiders' chances against the Porkers in Little Rock Saturday.

Should Texas A&M follow the pattern set by TCU in the annual Thanksgiving game between the Aggies and the Longhorns in College Station, Arkansas would be hard to contain.

Another Texas loss would put the Razorbacks into the lead with only Tech to play in the season's finale. Should Texas win, Arkansas would be out to win a share of the title. The Raiders have never beaten Arkansas, and playing in Arkansas territory, the outlook isn't too favorable for the Scarlet and Black this Saturday.

Just off hand, we'd say the Raiders didn't have any more of a chance to beat Arkansas than Purdue did against Michigan State, Utah against Georgia Tech or TCU against Texas.

Comparative scores never lie when it comes to picking a favorite. Texas beat Arkansas, Baylor and Tech—all of whom beat TCU—and Arkansas beat Rice, Texas A&M and SMU—all of whom beat Tech.

Arkansas knows the Raiders can't beat them, and the fans that go to the game or listen by radio Saturday know the Big Red can't win. Look at the record. Arkansas has only lost to two teams all year, and both were in the top five of the nation last week. Surely the Raiders can't ignore the facts.

Maybe it would be better for the Raiders not to even show up for game, since they're out of the conference race anyway. Maybe they can't punch their way out of a paper bag, like the Arkansas sports writers say. It might be better to let the Razorbacks have an easy game to close out the season. We can always say "Our boys have played good, but wait 'til next year!"

Back to a serious tone, for Larry Mullins, Pat Holmes, Bob Wittucki, Richard Stafford, Bake Turner, Dickie Polson and George Fraser, there won't be any "next year." For them, and for Texas Tech as a big-time institution, as a member of the Southwest Conference, the defeatist attitude above has no place.

We don't feel that we're by ourselves in believing that the Raiders will work out this week, not with idea of just finishing out the schedule, but of beating the Razorbacks in Little Rock Saturday.

It would be wishful thinking to expect a victory for J T King and his team, but it would be Texas Tech spirit to hope for one.

Illegal Draft Enrages Martin

Did AFL Jump Gun?

DALLAS (AP) — Evidence grew Monday that American Football League owners jumped the gun with a player draft of collegians more than two weeks before the end of the college football season.

Reports of a draft prompted Abe Martin, coach of giant-killing Texas Christian, to tell the pros, in effect, to keep their hands off his players until the end of the football season.

Particularly he told the pros to keep away from Sonny Gibbs, his gigantic quarterback who threw the pass Saturday that upset a Texas team then ranked No. 1 in the nation.

Three newspapers reported over the weekend that the AFL owners held a secret draft by telephone last week, selecting 48 players.

Joe Foss, league commissioner, said he knew nothing about such action. The San Diego Union quoted an unnamed official confirming that the draft was accomplished without Foss' knowledge.

Erner Pushes Aggies To Cross Country Title

DALLAS, Tex. (AP) — Texas A&M won the Southwest Conference cross-country meet Monday by taking three of the first five places.

E. L. Erner of Texas A&M was first in 14:11.8 over the 3-mile course with Jan Ahlberg of Southern Methodist, twice champion, second in 14:20.1. Ihan Bilgutay

of Texas A&M was third in 14:31.9.

Erner won a stretch duel from Ahlberg, taking the lead in the last 20 yards and scoring with a stronger kick.

Texas A&M had 27 points, SMU was second with 39, Texas third with 73 and Arkansas fourth with 78.

Maryland Accepts Gator Bowl Offer

COLLEGE PARK, Md. (AP) — The University of Maryland was offered Monday and will accept an invitation to play New Year's Day in the Gator Bowl at Jacksonville, Fla., if it beats Virginia in football next Saturday.

A closing victory over Virginia as a prerequisite was set by the bowl officials. Maryland has won seven of its nine games.

Speech Clinic Has First Meet For Parents—Therapists Today

"Speech Therapy—A Mutual Effort for a Common Goal" will be the theme of the first parent-therapist meeting of the Tech Speech Clinic. The meeting, beginning at 7 p.m., will be in Bldg. X-18, north of the Ad. Bldg.

Purpose of the meeting is to give the parents of the students in the clinic a better understanding of how the clinic operates and exactly what can be expected from its activities.

Miss Hinda Kahn, speech therapy major from Lubbock, is chairman of the meeting and has announced that all portions of the meeting will be conducted by speech therapy majors at Tech.

Miss Jan Langley, Lubbock, will discuss techniques used in the clinic by the therapists and the purpose of each technique.

Miss Jane Crockett, Dallas, will handle the psychological portion of the program by explaining what parents can expect from their children and how they can help their child to want to overcome his problem.

Speech therapists' qualifications will be explained to the parents by Miss Susan Craig of Houston.

"A question and answer period will follow the program along with time for personal conferences between parents and therapists," said Miss Kahn.

Tech Union Starts Tourney Signups

Students may sign up for the Tech Union billiards tournament today through Thursday at the concession stand in the Union. All Tech students are eligible to participate in this tournament.

The tournament will officially begin Nov. 27, and the first round will last through Dec. 3. The second round will last through Dec. 5 and each round thereafter will last two days.

Opponents will be responsible for getting in touch with each other. If a challenger fails to notify his opponent, he forfeits the round. In cases of misunderstandings or contesting of games, Mrs. Nan Williamson in the Rec Hall will make the final decision.

WINNING SPEAKER — Mike Lange, freshman from Houston, topped approximately 70 speakers in the junior division of the University of Wichita forensic tournament Saturday. (See story, page 1) (Staff Photo)

New Club Elects Reynolds President

Jim Reynolds of Payne Springs was elected president of the newly organized Henderson County Students at Texas Tech club Sunday.

Other officers elected were Don Geddie, vice president; and Ronald Burgamy, secretary. The meeting was in the home of John Morrison and Ronald Burgamy of Lubbock.

The purposes of the club are to supply prospective students from Henderson County with information about Tech and to form a closer union of Henderson County students at Tech.

Other members of the club are John and Bill Morrison of Black Hack, Robert Ayers of Ralls and formerly of Athens, Ronald Hood of Murchison, Allen Tarrant of Athens and Joe Bob Bollinger of Athens.

what's pure research?

Distinguished from that which has practical application, pure research is concerned with the discovery of fundamental knowledge to widen man's understanding of himself and the universe.

Ford Motor Company's Scientific Laboratory in Dearborn, Michigan is dedicated to the pursuit of knowledge in the physical sciences. On its staff are scientists of national and international reputation who conduct independent basic research programs of an extremely broad nature.

Why does Ford Motor Company support research which seemingly is unrelated to the manufacture of its products?

It is our view, and a pioneering concept in our industry, that entirely new approaches to automotive development can come only from unhampered scientific investigation. Deeper understanding of matter itself, and of the conversion and storage of energy—aside from widening man's primary knowledge—may have practical application in tomorrow's vehicle design.

Thus knowledge wrested from nature by scientists will be taken by technologists and applied to serve practical needs and desires. Another example of Ford's leadership through scientific research and engineering.
