## Raiders Trample Daniel Baker On Matador Field

### Students Hold Dorm Election For Semester

#### Residents Of Dormitory Name Connerly Head Of Association

PRESTON Connerly of Clarksville was named president of the men's dormitory association at an election held in the lounge under the supervision of Leon Ince, president of the Student Council, Wednesday night.

Other officers elected were: Bob Harding, Dallas, vice-president; Joe Eider, Cuero, secretary; George Carrithers, Brady, treasurer; John Montgomery, Amarillo, historian and Leon Crutcher, Lorraine, parliamentarian.

Cast 217 Votes  
A total of 217 votes were cast. For president Connerly received 183 votes and Charles Cosgrove, Cleburne, 34; vice-president, Harding, 175 and Rufus Ryan, Lubbock, 37; secretary, Eider 83, and J. R. Earnest, Lamesa, 72 and Morris Laine, Spur, 60; treasurer, Carrithers, 110 and Joe Welch, Floydada, 89; historian, Montgomery, 141 and James Alexander, Breckenridge, 57; parliamentarian, Crutcher, 116; Clement Tyschewitz, Lubbock, 57 and Wilson Banks, Brownfield, 43.

### Pioneer Dies After Illness

#### Rev. Z. B. Pirtle, Father Of Tech Professor, Is Buried Yesterday

Rev. Z. B. Pirtle of Levelland, pioneer West Texas minister and the father of Miss Ruth Pirtle, head of the speech department in the college, was buried yesterday in Memorial Park.

After serving 46 years in the Methodist ministry throughout West Texas, Reverend Pirtle died Thursday afternoon at 4 p. m. in a local hospital following an illness of three weeks. He would have been 70 years old October 1.

Funeral services were held at the First Methodist church with Dr. L. N. Lipscomb, pastor. Dr. W. M. Pearce, presiding elder, Rev. C. E. Fike of Levelland and Rev. J. T. Howell officiating.

Reverend Pirtle was apparently on the road to recovery after a surgery until he suffered a heart attack Wednesday.

Survivors include: the widow; three daughters, Miss Ruth Pirtle, Mrs. Vestal Loft of Amarillo, and Mrs. Carl George of San Angelo; three sons, R. C. of Throckmorton; Tom of 2115 Twenty-sixth street, and J. S. of Roswell, New Mexico; and two step children, Donald Turner and Mrs. Frank Leddy.

### Wind Thru the Sallyport

Due to the absence of SALLYPORT senior, the Toreador editor was forced to turn to the notes of SALLYPORT JUNIOR for a few REMARKS this week-end. Here's what was discovered in JUNIOR'S notebook:

JOHN T. RHODES, are you ever going to GROW UP and act your AGE?

Caught BRICK SMITH in the library studying this week.

Congratulations MUR CONNERLY. Here's HOPING your head doesn't swell and that YOU REALIZE the RESPONSIBILITY of your position.

A SLAP on the BACK to ROY RIDDLE for assisting in circulation of THE TOREADOR.

J. B. WILSON has been CHRISTENED an AGGIE.

SHOULD you studies see two men walking about the AGGIE? See SALLYPORT pp 4

### Classes Select Leaders At Gymnasium Tuesday

#### Toreador Prints Cartoon Feature

FLASH! A new, strictly collegiate cartoon makes its first appearance in this issue of The Toreador. The feature is to be printed each week.

Do you know at which university the co-eds use their cars to haul men to and from the fraternity houses on "Taxi Days?" Toreador readers will find out as the student publication begins its new editorial feature, "Campus Camera." Scores of other almost unbelievable facts will come to the attention of Tech students through the "Campus Camera" medium. The features bring disclosures from every leading university campus in the country.

### Many Events For Weekend

#### Clubs Continue Affairs As First Rush Week Comes To Close

Tech's social calendar is brim full this weekend and will continue to be for the next ten days with every club on the campus entering rush week and guests, and preparing plans for the year in their respective organizations.

Hotel Lubbock this afternoon at 1 o'clock, followed by a matinee dance in the ballroom until 6 o'clock this evening.

Autumn flowers will decorate tables. Favors are to be given the rushers. Stags and dates arrive at 3 o'clock for dancing. Corsages of yellow and orchid flowers are to be given each guest.

College Club Gives Dance  
This evening from 9 until 12 o'clock members of the College Club entertain with a dance in the Hilltop Hotel ballroom. Rushes of the club and several guests will attend.

Ned Bradley and his orchestra plays for the semi-formal affair. Dr. Bradford Knapp, president, members of the student council and the administrative council will be hosts at an annual reception for all students Saturday evening from 8 until 10 o'clock in the lounge of the women's residence hall.

Dahlias and other fall flowers will be used to decorate the Yellow House ballroom, 2423 Broadway, Sunday afternoon when members of Las Leales club, a fellowship organization, are hostesses at an annual tea honoring freshmen women.

Mrs. Mary W. Doak and Miss Margaret W. Weeks, sponsors, Ruth Senter, Eleanor Jungman, Virginia Black, and Katherine Leigh, officers, will be in the receiving line.

The house party will include the following members: Kay Hudman, Mary Melcher Howell, Hermona Shadle, Emmajean Douglas, Roberta Hunt, Pauline Hooser, Pauline Coe, Beatrice Payne, Allie Eason, Ruth Lewis and Eleanor Hodges.

Walter Hicks has been selected as master of ceremonies for a See MANY EVENTS pp 4

### Club Gathers At Dingus Residence

The Latin club, S. P. Q. R., will meet Tuesday evening at 7:30 o'clock in the home of the sponsor, Mrs. William Dingus, 2502 Twenty-Second street.

The plan of the program committee is to co-operate with other students interested in the celebration of the birth of Horace. This theme will probably prevail throughout the year's program.

Novelle Bussey and Elizabeth Stokes will be in charge of the recreation program. All student interested are invited.

### Tech Student Undergoes Appendicitis Operation

Melvin Grigg, 1828 Eighth street, was operated on for appendicitis Wednesday afternoon at the West Texas hospital. According to Superintendent Ruby Gilbert, his condition is satisfactory.

Grigg is a junior in the division of arts and sciences.

### Zorns Names Annual Staff For This Year

#### Editor Appoints Reeves As Assistant; Jones Is Art Director

BRUCE Zorns, editor of La Ventana, announces the appointment of the annual staff for this year.

The staff includes: assistant editor, Winston Reeves; art editor, Esther Jones; sports editor, Larry Messersmith; assistant sports editor, John R. Cummings; features, Wayne Sellers, Eleanor Jungman and Margaret Wetzel; junior editor, Anna Letha Hamilton; sophomore editor, Jean McGee; society editors, Josephine Powell and Sara Sue McWilliams; activity editor, Mary Howell; administration editor, Elizabeth Stokes; snap shots, Garland Nystel; typists, Lela Mae Zorns and Dorothy Walker and mounting of pictures, Don Miller and Mary Pickett.

Positions Open  
There are still several positions to be filled later. Any student interested in working on La Ventana should see Zorns as soon as possible.

Sale of books have already exceeded those of any previous year during the school history. Up to the present there have been 1135 annuals sold. This year, for the first time, La Ventana will be distributed to the students by May 15.

The view section has already been sent to the engravers. All work that can be finished within the next two weeks is being rushed to completion in order that the engravers can send back the proofs.

La Ventana for 1936 will be the same size as the 1935 book, but will contain more pages. The feature section will be enlarged to include an informal representative view of the student body.

There will be a staff meeting in the La Ventana office Tuesday at 5 o'clock. All staff members are urged to be present. This will be one of the most important meetings of the year, Zorns stated.

### Livestock Wins Fair Awards

#### Tech Holstein Bull Takes Championship In Grand And Senior Events

Texas Tech's Holstein bull won the grand and senior championship honors in the annual judging yesterday at the Panhandle-South Plains Fair as Tech won ribbons in almost every other class of the livestock division.

Professor R. C. Mowery, acting head of the animal husbandry department, completed the judging of all livestock late Thursday. All judging was done inside the livestock farm due to inclement weather.

M. L. Landwer, Tech, made his first appearance in the show with an entry in the Holstein bull division and won an award.

First Senior Event  
Tech was first in the senior yearling and junior calf awards in the Holstein-Friesian male division. The senior champion and grand champion of this division was also entered by the college.

Cow, two years old and older; first, second, Texas Tech. Junior See COLLEGE LIVESTOCK pp 4

### Block And Bridle Club Makes Plans For Aggie Affair

The Block and Bridle club met in a called meeting Monday night to discuss plans for "La Remuda," which is the new name for the annual Aggie Rodeo. The proceeds of the show held on October 25 at the Tech stadium will go toward sending the livestock judging team to the American Royal and the International Livestock Expositions.

Features of this year's program will be: crowning of the Aggie queen, livestock exhibitions, and other features to be decided on later.

Mr. A. L. Darlow, formally with Oklahoma A. & M. now connected with the University of Wisconsin gave an instructive talk on livestock judging, stressing the advantages it develops and the necessity of extensive training to win a contest.

### Botany Group Schedules Next Meeting Monday

The Botany club meets Monday afternoon in room 217 at 7 o'clock in the chemistry building. Officers of the club met Monday for a business session and final plans are to be made at the next club meeting.

John Marr, Lamesa, is president of the club. Martha Cox, Lehman, is secretary-treasurer and Maxine Langford, Lubbock, is reporter.

Harvey Bond, '35, of Plainview, was a visitor on the campus yesterday.

### New Professor

#### Y Organizations To Hear Morgan

Miss Mildred Morgan, lecturer on student personal problems, will probably be the first of a series of speakers to appear here under the auspices of the YMCA, YWCA, AWS, Forum, Las Leales, and other campus clubs.

Further plans for the YM and YW will be discussed in their first meeting of the fall semester in room 220 of the Administration building Monday evening at 7:30 o'clock. Representatives from each club who were elected last year are expected to be present.

At the final meeting of the organizations last spring, which was at a steak fry in Dean Mary W. Doak's home, 30 members, including club representatives discussed the plan to bring lecturers to the campus. A monthly all-campus mixer was proposed. These plans and other business will be furthered Monday evening.

### Students And NYA Employees Repair Textile Machines

All machines in the textile department are undergoing thorough cleaning and repair before actual weaving starts. Students in the department as well as NYA employees of the college are doing the work.

It is necessary that the machines be thoroughly cleaned before they are put into operation. After the cleaning has been completed new repairs, or foundations for weaving, must be laid. This requires three distinct finger movements for each of the 2400 strands on each loom. For this reason the machines will not be in full operation for about two months.

Laboratory classes in the department are being conducted in weaving rooms, and students in those classes are assisting in the cleaning. There are more than fifty students enrolled in the department, all of whom are helping with the repairs. Additional work is being done by students employed by the National Youth Administration.

### El Paso Tech Club Chooses Officers

Ten members of the El Paso Tech club plan to be in Lubbock for the Decennial celebration, according to plans made at the meeting of the club September 20.

The club met at the Hilton hotel in El Paso where plans were made for the coming year. The officers elected for this year are Riley A. Alexander, president; Boman Dorsey, vice-president; Miss Jimmie Jenkins, secretary-treasurer and Sidney Knowles, publicity agent.

### Noted Texas Composer Visits Campus To Hear Tech Band Play March

John F. Victor, nationally known composer of Abilene, visited the college Thursday and had the band to play an original composition of his own which will be known as "The Texas Centennial March."

The Tech band was the first to play the number.

Mr. Victor author of a band method book, has promised to give the Matador band all of his original manuscripts.

### Press Group Schedules First Meeting Of Year

Press club officers will be elected at the first meeting of the year in room 214 Monday night at 7 o'clock. Forrest Weimhold, president, is to officiate until a new president is named.

All journalism majors and students interested in writing and newspaper work are invited to become members of the club.

### HART GETS JOB

Jim Allee Hart, journalism graduate of Tech in 1933 has been employed in the high school faculty at Crane. He will leave Monday to take over his new duties.

Hart will instruct classes in journalism and English and have supervision over the high school paper.

### Many Demand Night Classes

#### Extension Department Receives Requests For Courses

Requests have come to the Tech extension department for night my, accounting, business English, chemistry, curriculum, German, zoology, sociology, Texas history and geology. It is improbable that classes in all of these courses will materialize. A demand made by at least ten citizens will secure a course.

The general requirement is that ten persons who are interested in a common college course may have it arranged for them. Hence, local citizens and teachers who may be interested in any course listed above are invited to notify the extension department of their choices.

Those interested will be kept informed as to the time and place of meeting for class organization.

### Home Economics Freshman Finds Deafness Slight Handicap As She Studies To Be Hospital Dietitian

"I GUESS I just might as well be deaf as to hear. If I ever hear again I will be in another new world just as a new world came to me one day before. Life has its ups and downs. I am ready to face it."

The optimistic speaker is Edna Davis, first year student in the home economics department of Texas Tech. The day on which the first "new world" came to her was in February, 1932, when she awoke from anesthesia after an emergency appendicitis operation to discover that she had lost her hearing. During that period of nearly four years she has

courageously met and overcome many obstacles that would have discouraged less handicapped people.

Refused High School Credits  
From the moment when she discovered the doctors and nurses at her bedside were not whispering, but that she was totally deaf, she has been adjusting herself to the soundless world in which she lives. It was a few weeks later, when she tried to walk, that she found she had lost her sense of balance; cheerfully, she set about the task of learning to walk again. Within three months the task was completed. See FRESHMAN FINDS pp 4

### Tech Grid Machine Hits On All Four Cylinders In Last Period To Score Three Times

#### Howard, Baker Halfback, Punts 95 Yards As Game Feature

MORE than 4500 fans watched Coach Pete Caython experiment with his entire squad last night as the Red Raiders romped over the Daniel Baker Hill Billies 27 to 6. One Matador team didn't stay in the game long enough to get steamed up good, but they combined efforts to roll up 20 first downs while the opponents were making 2.

It was the first home game for the locals, and the fans saw an exhibition packed full of unusual happenings. The Hill Billies didn't come out on the big end of the score, but they contributed two of the games most exciting moments. A 95 yard punt by halfback Howard in the third period was one for the books. Standing on his own 5 yard line, he booted the ball high over Charley Duval's head and it hit the ground ten yards from the goal line and rolled over.

Hill Billies Score  
In the second quarter, Whittaker, big Daniel Baker tackle intercepted a lateral pass on the four yard line intended for J. V. Beauchamp, and raced the length of the field untouched for the first tally of the game.

The locals had little trouble in solving the Hill Billies offense, and their driving power plays rolled up 20 first downs and gains amounting to a couple of hundred yards. Soon after Whittaker made his long run, the Raiders went right back into scoring territory again, and a faked right See RAIDERS TRAMPLE page 4

### W. A. A. Elects New Officers

#### Association Of Women Plans Selection Of Leaders Tuesday

At a called meeting of the Women's Athletic association Thursday night, officers to fill places made vacant by students not returning to school were nominated. Election of these officers takes place Tuesday at 5:00 o'clock at the regular meeting of the W. A. A. in the gymnasium.

Officers to be elected are vice-president and ping-pong, archery, horse-back, riding and volleyball chairmen.

At the regular meeting of the association Tuesday in the gym a sports program was presented and accepted by the sports committee. On Wednesday and Friday section one is to have tumbling, on Fridays section four has basketball, and on Thursdays section seven is to have skating.

Section five has archery on Monday, horse-back riding on Tuesday, tennis on Wednesday, ping-pong on Thursdays and basketball on Fridays.

THE first president of Texas Tech, the late Dr. Paul W. Horn, expressed the wish that Tech would always be a democratic college with equal rights for everyone.

Led by the student council, the students of last year voted to let no one have a voice in the school elections who did not purchase the activity ticket.

Do not understand us to be advising that students do not buy the activity ticket. Each person that buys the ticket will receive full value and will be showing school loyalty in supporting the band, Toreador, and all school sports.

Why should we depart from a custom that was born with the college and has been a big factor in making Texas Tech the second largest school in the state and gained recognition for it over the United States?

AN investigation made by the student publications at Texas university of what students really think of their professors started reverberations echoing throughout the contemporary collegiate press.

Professor, is a bit contemptuous, titled your grade papers, "What, That Again." Others wondered shyly what such a survey would uncover on their own campuses.

- 1. He must be thoroughly humane, which means that he must have a sympathetic understanding of the human personality, and must bear in mind that his responsibility is not to subjects but to human beings.
2. He must be a teacher, not a taskmaster.
3. His purpose must be to develop, not to indoctrinate.
4. He must have knowledge, not only information.
5. He must be educated; he must see his specialty in the light of knowledge as a whole.
6. He must be intelligent, he must be imbued with a zeal for growing knowledge.
7. As far as possible he must not feed his students with rehearsed mental food, but strive to send them to the springs of knowledge, to the great original minds of the ages, through whom they might be inspired with the spirit of knowledge, the spirit of searching and investigation.

Today's Thought

Keep as much as possible to the even tenor of your way. Do not squander, do not hoard, live your steady, normal life.—Prof. Frank W. Taussig.

Fish, Stand By Your Guns!

UNIVERSITY statistics show that the casualties among the freshmen exceed those in other classes. Many first year students withdraw even before the opening semester is completed.

Discouragement is the principle reason for these withdrawals. The majority of these students are good college materials. But they find it difficult to adjust themselves to an environment which they do not understand.

All of which is very foolish. It takes time and courage to appreciate new things. Everyone in the college office felt the despondency which many Tech freshmen are beginning to feel.

Freshmen, stand by your guns! Your dean, professors and fellow students will be glad to assist you when hard problems look you in the face. And as the months pass, you will feel the charm, friendliness, democracy, and gaiety of Texas Tech taking possession of you until at last the triumph of graduation will be mixed with regret that your school life is finished.

Somewhat Literary

Heroic Mold—1935

HAIL to thee, blithe economist,
And hail, thrice-happy scientist!
The world hangs on your words and deeds,
And no one, these days, stops and reads
The brand-new books, the latest verse—
The arts have gone from bad to worse.
Time was when Dickens' last success
Rocked England, France and the far U. S.;
When some one mentioned Byron's faults,
And ladies grabbed the smelling salts;
When people stopped and nudged and peered
As Longfellow passed with his shirt-front beard,
Or shook their heads over Edgar Poe,
With many a "fiel" and "I told you so."
But now if you speak of some writer's fame,
Folks say "Beg pardon—what was the name?"
FOR he who ranks among modern men
Can do few tricks with ink and pen;
The hero of the present day
In lab or bureau makes his way;
He plans a thought-transfer machine,
Or checks the hives with a new vaccine;
He speaks of sharing the nation's wealth,
Or better yet, of combining health
Or proves we all can't grow by health.
By voting a different kind of tax.
A scientist, or a shark is he
In political economy.
Then hail again, blithe scientist,
And hail, deep-browed economist:
The world is yours in slavish fetters,
Successors to the man of letters!
—Francis C. Cook

Student Forum

Editor's Note: The Toreador invites the writing of student editorials and letters to the editor for publication on this page. Although the name of the writer will not be used, all correspondence must be signed and pertain to campus problems. The editor reserves the right to reject any and all articles. Contributions of 200 words or less will receive preference in our column.

STUDENT PLAYS FOOTBALL SCHEDULE

To the Editor:
Next year Tech will have a new stadium which will accommodate almost twice as many spectators as the old one. It will be the duty of every student and faculty member to exert every possible means in filling the new stadium to capacity.

We have grown out of the class of the small college and only discredit our record by competing with them. They cannot afford the strong competition that local fans desire and we are entitled to seeing. For Tech to run up a big score against a school like Hardin-Simmons means nothing recognitionally. The student body and fans cannot be expected to be loyal to the team when the Raiders do not play enough opposition to make the game interesting.

If we would have our college to continue to grow and become more widely recognized we will hesitate to play small colleges against which victory is an obvious and expected result. Games with larger and stronger schools will be one of the greatest factors in the progress and development of Tech. They will draw more students, fans and scribes and bring more recognition to the institution. Why don't we all protest for them?

F. L.
A Matador Supporter.

The Toreador Recommends

That you get into something. The campus has its activities and organizations. No matter what your interests are, BE ACTIVE!

I've been more bossed by my fortune than it has been bossed by me.—John P. Lippett.

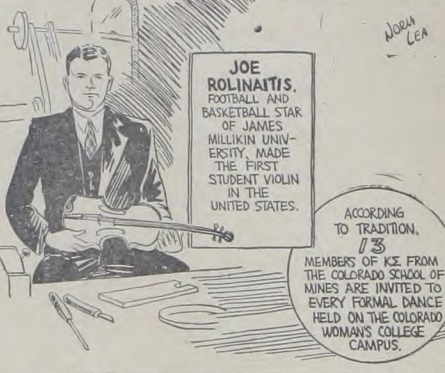

California produces vast quantities of minerals. Other products are grapes and letters from Hollywood asking the old folks for fare home.—W. P. Rowley.

The only power now ruling the United States is the purchasing power.—DuPont Lee.

From Other Campi

By JAMIE McNEILL

A 1934 statistical survey showed there were more students from Harvard in nudist colonies than from all other American colleges put together. And just to think that they are one of the fashion plates of the world!—Daily Texan.

A list of rules for freshmen at Duke university contains such small items as: They must carry matches enough to supply upperclassmen any time they may ask for a match; they must not wear a mustache; they must come to the dining room fully dressed; they can't take dates to football games; they must memorize each university yell; they have to keep off the grass; they must be prepared to deliver a three minute speech at the orchestra in the lobby after the evening meal.

The dean of women at Wisconsin university whose job it is to approve restaurants and night clubs for the university's list, visited what she thought was a tea-room. Liking the service the dean placed the tea-room on her list of places where students might visit. What the dean didn't find out until later, however, was that the "tea-room" was one of the worst spots in town and that the waiter, upon recognizing her, had walked a mile down the road for her cup

of tea. Nothing so mild was served there.

When a North Dakota State college co-ed went into a drug store to buy a pack of her favorite cigarettes, the clerk squelched her with a sentence. It was, "Have you a note from your mother?"

Love at first sight is the greatest uninvited time saver according to the Ohio State Lantern. It might be except that it hardly ever stops at first sight, exploding the theory.

Do you think that the poll tax clause of the combination activity ticket is unjust?

Hollis Blackwell—It is very unfair.

Virginia Brown—Yes it is. Such a clause isn't in keeping with our democratic spirit.

Demp Cannon—Under conditions of the almost compulsory student activity requirement, I believe it is just.

Morris Laine—There should be some voting qualification, perhaps the clause is the thing we need.

Mildred Chappell—Sure it's not unjust. Indeed I think the clause is fair enough.

Lillian Heard—No, I think one should conform to the clause if he or she intends to vote.

Do You Know?

Probably not half of the Tech students know that located west of the Administration building and south of the chemistry building is the college greenhouse. Caretaker of the greenhouse, Foy Pribble, is there at all times and extra work is done by students.

The building is 25 feet in width by 75 feet length, containing many interesting plants.

Chrysanthemums, calendulas, stocks, clarkia and a number of other varieties of common flowers are grown and sold locally. Date palms, ferns and two varieties of rubber plant as well as several kinds of tropical plants are grown for decoration. Orchids grow in a box which is kept at tropical temperature throughout the year. Several years are required for an orchid to bloom after it is planted in the greenhouse.

The greenhouse contains a good collection of cactus.

Over 6,000 students have registered at L. S. U. for the fall semester.

DUST

From Archives Of The Toreador

By Morris Laine

NINE YEARS AGO—The incentive to buy the 1926 student activity ticket as carried in The Toreador follows: "To the student offering the best collection of yell and songs of real Tech spirit, a prize of one student activity free will be given. Bring your collection to school with you."

SEVEN YEARS AGO—Over 1000 feet of movie film were taken by Tech students on a geology field trip to Glacier National Park, Devil's Tower, Great Salt Lake and Royal Gorge. The pictures were shown to students during the year.

THREE YEARS AGO—One boy enrolled for a girls' physical education class. Nine girls made up the class with the male attendant. The class was listed as "Technique of Plays and Games." It was open to boys but only the one mentioned above dared to face the feminine competition.

TWO YEARS AGO—The 1931 graduating class requested that first year students not sit on the Double T bench, their donation to the college. In 1933 the request was made by upperclassmen again. During ceremonies presenting the gift which is located south of the Administration building it was emphatically stressed that no freshmen use the bench. (Let this be a warning to 1935 frosh.)

# Picadors Schedule Opening Game With Wayland College

By BOB CANNON Sports Editor

AFTER hurdling the first two warmup humps successfully, the Red Raiders publicity grind starts next week against intersectional opposition that is tough in some places and rather lean in other localities. Wichita university is first on the card, and we could not swear just what they have, or where they have been in the football world.

In case you have never heard of Wichita university, and I doubt if some of you have, it is located in Wichita, Kansas, and is owned and operated by the local city government. The enrollment this year hasn't reached the 2,000 mark yet, but like Tech they are expecting more than they'll ever get. It is more or less an outland school, depending on what you term as an outland institution, but we understand that they are plenty tough, or have been. The Shockers, as they are literally called, didn't have an overflow of veterans returning this fall, so Coaches A. J. Gebert and Nurdy Hoffman began scanning the woods early in the summer for dissatisfied hopefuls at other schools. We don't know whether or not they use the same "go out and get 'em" system that is used in this state, but they returned home late in the summer with four promising backfielders from other institutions.

## Reap Harvest In Backs

From Nebraska they induced one of the Shockers' mentors to bring a bruising 200 pound fullback that could really tear up tierra-firma. He was tired of living in the mountains, so they brought him back to Kansas. At Oklahoma A. & M. where material is supposed to be plentiful this fall, Gebert swiped a halfback that is reported to be a scream, and last but not least, they completed their backfield by picking up a discouraged blocker at Pittsburg Teachers college, where ever that is, and now he'll be shocking the heck out of Wichita's opponents.

Both Gebert and Hoffman are "sons of Notre Dame" so you can imagine what kind of system they matriculate with. We haven't seen one of their schedules, but from what we can learn they do most of their football business within the state against Kansas teachers colleges. Another tip was hinted that they belonged to some conference. But we raked our memory concerning the Missouri Valley, Big Ten, Big Six and the rest of the seven's, eight's and nine's, but we couldn't recall of having heard on what football fields the Shockers did their harvesting.

## Shockers Have Big Squad

Our grapevine telegraph wires that the Kansans had more than 80 out for the initial practice session some weeks ago. Apparently Gebert made a clean sweep of the "left overs" in the mid-Western football circles. If that is so, we'll be bringing an adding machine to the game with us to keep score.

Out in California the movie makers have their football guns trained on the Red Raiders. The coast public has forgotten about the annual California-Stanford classic and the Washington-USC tussle, they see DOUBLE T, p. 4

## Freshmen Battle Jack Rabbits On Foreign Soil

### Freshman Squad Boasts Many Former High School Stars

COACH Berl Huffman's aggregation of Picadors, freshmen football aspirants to all those who have never heard of the freshmen Matadors, introduce themselves to college football Thursday night when they open their frosh schedule in Plainview against "Brack" Barksdale's Wayland junior college Jackrabbits.

The adding of the Wayland team to the Picador calendar was announced by Coach Huffman yesterday. The frosh coach had been negotiating with Panhandle A. & M. for a game next week, but the Aggies were booked.

**Rabbits Unknown**  
The Jackrabbits are an unknown quality and probably not so many in quantity, but they should give the Picadors plenty of trouble before the night is over.

The Picadors have been at work officially for the last two weeks, but most of them began practice on their own accord several weeks before. More than eighty were present for the first few days of official workout, but the squad had been trimmed down to approximately 40 at the last counting. Each day finds one or two less as Coach Huffman has been putting the fish through the mill since the varsity has gotten down to business for their intersectional campaign that opens next week.

**Huffman Hopeful**  
Coach Huffman has talked none too optimistic about the prowess of the Picadors, but their initial test should give the staff some knowledge as to what they have. Against the varsity, the fish have given fair demonstration of their antics at times, and at other times they haven't met the requirements of good cannon fodder. However, Coach Huffman claims that the fish have plenty of talent stored in their backs and should develop into material by the gross and without uniforms for most of them.

The Picador line should be a meany. Including two husky tackles that tip the scales at 200 pounds or more, a couple of mid-guard, two bruising ends, and a well proportioned center, the freshmen will give the Jackrabbit backfield something to worry about Thursday night.

**Husky Tackles**  
At center the Picadors will depend on a big fellow by the name of Little, from Ballinger, who can really get around backing up the line. He will get the first string call Thursday night. The tackles are something the varsity has been worried with. They are two big 200 pounders, Red Murphy of Beaumont and Leonard Latch of Cisco, who have had plenty of all kinds of experience. The guards are well manned by a stubby little guard, Shorty Cook of Chillicothe, and Tom Collins of Midland. The ends expected to start are Cecil Pattock of Syre, Oklahoma, and Joe Slaton of Sherman. Both are big and show excellent defensive capabilities.

In the backfield the Picadors will boast a flashy combination that includes some former high school stars. Joe Hext of El Dorado and Rufus Ryan of Lubbock, are slated to divide time in the signal calling chores. Edward See FRESHMEN BATTLE, p. 4

## Picador Gridders Wrestle And Box Before Fair Fans

Members of Coach Berl Huffman's Picador football team gave the South Plains Fair fans a real thrill Wednesday and Friday nights when they put on a wrestling and boxing show at the fair grounds arena.

A large crowd watched the fist-cuffs, and grunt and groan show between the collegians that was well received regardless of the methods employed by the contestants.

Picadors who took part in the amateur matches were Allen Plummer, Red Murphy, Anlee Todd, Lawrence Cook, Dener Roe, Edward Scott, Joe Hext, "High Kick" Hext, "Chief" Tarbock, Jack Jones, Howard Slaton, Tom Collins and Joe McKown.

Matty Bell terms the S. M. U. gridders as a "perfect team".

## Wichita Preps For Struggle With Raiders

### Shocker Mentors Bring Strong Aggregation To Tech Field

(Editor's Note: This is the third of a series of stories concerning the Red Raiders football opponents for this year. A story concerning DePaul university appears next week.)

WICHITA, Kan., Sept. 28.—With one game in the bag, the Wichita university Shockers are preparing for their invasion of Texas next Friday night when they meet the Texas Tech Matadors of Lubbock. The Shockers opened their season last night with a decisive victory over the Alva State Teachers college.

The loss of seven regulars by graduation last spring set the Shockers in a difficult position for experienced hands although 15 let-termers were to return. But transfers have bolstered the Shockers roster and Coaches A. J. Gebert and Nurdy Hoffman will have one of the strongest teams in Wichita's history.

**Four Experienced Backs**  
While the Shockers have lost many veterans, they have been fortunate enough to receive such men as Brill, of Nebraska; DeHon, formerly of Pittsburg; Harris, of See WICHITA PREPS, p. 4

Step into any good store selling pens, and see it. The Parker Pen Company, Janesville, Wis.

## Additional Watts Make Tech Field Best Lighted Gridiron In Southwest

By installing 12 additional reflectors, each having 1,500 watt capacity, the Matadors play under the most powerfully lighted field in the Southwest this fall. The new lights were used for the first time last night when the Raiders and Daniel Baker played.

From a total power of 60,000 watts coming from 10 poles on either side of the playing field, the wattage of the lighting system has been raised to a total of 78,000 watts with the installation of the 12 new reflectors on the three middle poles. Each of the six poles have an additional 3,000 watt power.

# DON'T START TO CLASSES Without School's Finest Tool!

**The Parker Vacumatic—Invented by a University Professor to replace pens that suddenly run dry in Classes and Exams**

Holds 12,000 words of ink—102% more than old style... When held to the light you can see the Ink Level—see when to refill!

THE marvelous new Parker Vacumatic is no more like the pens of yesterday than your 1935 car is like a '25 model.

It's the identical pen you've often said that someone ought to invent. Scores of inventors tried to—fully 250 success pens were patented before this miracle writer was born. But none found a way to surmount the mechanical faults of squirt-gun piston pumps, valves, etc.

Then a scientist at the University of Wisconsin conceived the Vacumatic. And Geo. S. Parker, world's leading pen maker, agreed to develop it because it contained no rubber sac or lever filler like sac-type pens—no piston pump as in ordinary sacless pens.

That's why Parker can—and DOES—guarantee the Vacumatic MECHANICALLY PERFECT!

Because there is nothing else like it, the United States and foreign countries have granted Parker patents.

FREE! Send a Post Card for NewInk That Cleanses Any Pen As It Writes  
Parker Quink—a remarkable new ink—contains a harmless ingredient that dissolves sediment left in pens by ordinary inks. Ends clogging. Get it from any store, or send your address for small bottle to try, FREE. Address, Dept-711.

# Cawthon's Rambling Raiders Of Texas Tech

FROM the stalwarts in this squad, the Texas Tech fans are looking forward to a successful inter-sectional football campaign.

Front row, left to right: Hitchcock, ass't manager; Green, guard; Garrett, center; Guthrie, center; Davis, guard; Thorton, center; R. Hale, end; West, end; Walker, center; Owen, guard; Lofland, end; Klein, student manager.

Second row, left to right: H. Thorton, ass't manager; Holcomb, tackle; L. Browning, tackle; Kattola, tackle; Wimberly, tackle; Williams, tackle; Brown, tackle; Barlow, tackle; Prim, end; J. Browning, tackle; Curfman, end; McWilliams, guard; Baker, ass't coach.

Third row, left to right: P. W. Nichols, guard; R. T. Smith, line coach.

Fourth Row, left to right: Cannon, quarterback; Turn, guard; Betts, tackle; Wilson, tackle; A. Owens, guard; Doherty, center; L. Jones, guard; S. Jones, end; Chapman, halfback; Chernosky, halfback; Williams, quarterback; May, guard; Beauchamp, quarterback; Gilmore, end.

## At Seaman Hall

### Homer Brumley Marries Elizabeth Montfort Sunday Morning

Miss Elizabeth Montfort and Homer Lee Brumley, 1935 graduates of the division of agriculture, will be married at 6:30 o'clock Sunday morning in Creighton chapel, Seaman hall, with the Rev. Marshall E. Hew, Methodist minister at Leuders, officiating with the ring ceremony.

Autumn flowers will be decorations in the hall and chapel. During the ceremony, Miss Beulah Dunn, violinist, will play "Traumerel." Miss Artie Rogers is to sing "At Dawning," accompanied at the piano by Miss Mary Dunn, before the nuptials.

**Ushers Named**  
The bride will wear a crepe ensemble of devon green trimmed with ivory satin. She is to carry harmonizing autumn flowers. Her father will give her in marriage. Miss Christine Anderson, who will wear a tailored brown crepe dress has been chosen maid-of-honor, and Jot Smythe, Jr., is to be best man.

Frank Montfort, Jr., James Long and Paton Price are to be ushers.

Miss Montfort, who has lived in this city most of her life, graduated from Southwest High school in Kansas City, Kas., in 1931. While in Tech, she was a member of Alpha Chi, Junior Council, Y. W. C. A., Forum, Aggie club, and was a charter member of the Botany club. Last spring she was recognized in the annual Women's Recognition services for being an outstanding student. She is a daughter of Mr. and Mrs. F. W. Montfort, 1916 Fourth street.

**Popular Student**  
The son of Mr. and Mrs. G. W. Brumley of Hereford, Mr. Brumley was high point man of the Tech livestock judging team which won first place at the Chicago Livestock exposition in 1934. He was manager of the 1934 college annual rodeo and has held offices in several campus clubs.

The engagement was announced when the bride-elect's mother entertained Monday evening in her home. Thirty guests called. Guests pieced together a jig-saw puzzle on which was written the details of the wedding.

Mrs. R. A. Studhalter was hostess with a supper and kitchen shower Wednesday evening in her home, 2317 Seventeenth street.

After a two-weeks honeymoon in Santa Fe, the couple is to be at home in Hereford where Mr. Brumley is in business with his father.

## Bewilderment

### Carpenter Tools Find Place In Chemistry Laboratories

The chemistry building is in a turmoil. Carpenters are rushing about like freshmen trying to get to their first class. Students are trying to make experiments in rooms filled with lumber, tools and sawdust. A concentrating chemist reaches for a beaker and picks up a hammer instead.

All this excitement is being caused by the remodeling of the chemistry laboratories. There has been a large increase in chemistry students, necessitating the improvements. New equipment has been bought and new lockers are being installed. Old lockers are being moved to make more room.

## College Livestock Win Prizes At Fair

(Continued from page 1)  
yearling, second and third, Texas Tech. Senior calves, second, Texas Tech.

Calf herd, get of sire: Texas Tech, second. Produce of dam, M. L. Landwer; third, Texas Tech.

**Tech Wins**  
Only a few classes in the Guernsey division had competition in the show. R. O. Hamill and Texas Tech were the competitors, Hamill winning the senior and grand championship in the female class.

Tech had the junior bull champion and Hamill the senior cow champion.

Guernsey awards were:  
Aged bull, R. O. Hamill; junior bull, Texas Tech; junior champion, Texas Tech.

Senior calf, Texas Tech; senior champion, R. O. Hamill; junior champion, Texas Tech; grand champion, Texas Tech.

All boys interested in entering a library training class preparatory to possible future employment as student assistants in the library are requested to report to the library Saturday afternoon at 5 o'clock.

Freshmen will be admitted to the class, but only sophomores and juniors of high scholastic standing are to be considered for immediate employment.

The Aggie club meets Tuesday night Arvel Elliott, president of the club, announces. Changes in meeting dates are to be discussed and rules will be revised.

All the faculty members of the agricultural division will attend.

## Wichita Preps For Matadors

### Red Raiders Tangle With Shocker Aggregation Friday Evening

(Continued from page 3)

The Oklahoma Aggies; and Wuerley of Denver.

Brill, a halfback and triple threat man, was recognized last season as one of the best freshmen in the Big Six conference. DeHon, three year man of the Pittsburgh Teachers, will be remembered by Shocker fans for the splendid running ability he displayed here two years ago. Harris is big and fast and a remarkable ball carrier formerly of the Oklahoma Aggies. In Wuerley the Shockers have gained a large plunging full-back who has had much experience.

**Running Combination**  
With this quartet of new material added to the veteran backfield, Wichita has a powerful running combination. There is some doubt as to the strength of the line, however.

The end position will be well taken care of by Nye, Rosenbaum, Eikermann, and Hofer. Dugan and position. The tackle and guard posts are short of reserve strength.

The actual strength of the Shockers is somewhat of an unknown quantity. A strong backfield and an untested line make things look rather uncertain, but then again, Wichita has backs to burn and may make up in speed what they lack in line power.

## Raiders Trample

(Continued From Page 1)  
end run that would up being pass the left side from Cannon to Red Ramsey was good for a touchdown. Gaines Davis kicked goal as the half ended.

Coach Cawthon sent in another team as the second half got under way. The Raiders kept their rampaging offense going at full speed.

With the ball on the Hill Billies sixteen yard line an attempted punt was blocked by Gaines Davis, and J. W. West, Raider left end picked up the ball and scampered to the one yard line. Win Baze pounded the ball over on the first try. Davis' kick was wide. Score: Tech 13, Daniel Baker 6.

**Matadors Start Again**  
At the change of the quarter, the Matadors were touchdown bound again. With the shockers handling the ball, another rally ended up on the Hill Billies 32 yard line. Coach Cawthon rushed the first stringers in, and Byrd, Baze and Beauchamp took the ball down to the six yard line on five plays. With the ball on the 4 yard line, Win Baze plunged over for the Matador's third contact. Davis kicked goal from placement. Score: Tech 20, Daniel Baker 6.

Near the end of the game, after an exchange of punts, the Raiders held the ball on the Daniel Baker 32 yard line. Neill and Beauchamp contributed two lunges at the Hill Billies line for a first down, and Chernosky, playing halfback for the Mats, sprinted off tackle 20 yards on the next play for a touchdown. Puckett kicked goal. Score: Tech 27, Daniel Baker 6.

## Freshmen Battle Junior College Grid Machine At Plainview Next Week

### Under Double T

(Continued from page 3)

are looking forward to the night in October that Coach Pete Cawthon runs his Texans on Gilmore stadium sod. From the looks of things, Tech fans have another thought coming when they start regarding Arizona as the team to beat. Quite so, but there's Loyola. The Matadors want to tie into the Lions with all four barrels loaded. A win in California this year means more to Tech than all Abyssinia means to Mussolini. Detroit is another hot shot that needs whetting on the Red Raiders publicity grind stone.

Here's a sample of the regard Tech has on the Pacific coast:

"Pete Cawthon's wild 'n' wooly Tech giants from Lubbock (Texas) travel to Los Angeles later in the season to dilly-dally with our Lions hands on this colorful contingent either in the vanguard or reserve strength. Behind an invulnerable forward wall are Win Baze, Jay Beauchamp, Jim Neill and Chuck Duval, a sharpshooting quartet whose piggskin antics does the Lone Star State proud. . . with four pullman coaches filled to capacity with their customary wild rosters, the equally wild and wooly Texas Tech Red Raiders roll into town and present themselves as Loyola's formidable opponents. In their visit last year the Texans showed one of the most colorful outfits this coast has ever seen. The score, 12-7, with Loyola scoring in the final minutes of play, speaks well for the kind of a game the fan may expect to see. . ."

## Sallyport

(Continued from page 1)  
SCHOOL displaying SOPHISTICATED LOOKS, may we REMIND you that THEY ARE THE BIG SHOTS—JOHN MANNING and WINBURN McALLISTER. Ask them about their NEW NAMES.

Fritz Hanson, star back of North Dakota State last year is playing professional rugby at Winnipeg, Canada.

## Wayland Jackrabbits Are Unknown Quality For Year's Campaign

(Continued from page 3)

Scott of Iraan and Cotton Neely of Syre, Oklahoma are the halfbacks. Scott is a ball carrier and Neely a blocker.

**Plummer To Be Heard From**  
At fullback the Picadors have a great find in Allen Plummer, a pile driving fullback from Beaumont who is not only a classy football player but a boxer, wrestler, and most anything else in the athletic cycle. He carries the mail like an express train, and will be heard from plenty before he graduates. Plummer tries the scale at 190.

The frosh are not overburdened with reserve material, but what they do have has its merits.

## Former Students Wed This Month

Miss Billy R. Rhodenbaugh of Plainview and Alvin E. Kotrola of Taylor were married September 10, in Dawson, N. M., according to word received on the campus by friends of the couple.

The couple are former students of Texas Tech. Mrs. Kotrola, a freshman student last year, was president of Las Pecos club. Mr. Kotrola, a senior, played tackle position in the Matador football team.

Mr. and Mrs. Kotrola are on a honeymoon in New Mexico.

Word has been received here of the birth of a daughter to Mr. and Mrs. Roy C. Lindley of Dublin, both former Tech students. Mrs. Lindley, the former Miss Finis Cook, graduated from the home economics division, Mr. Lindley has a degree from the agricultural division.

**CLASS SKETCH FAIR SCENES**  
Prof. F. A. Kleinschmidt, head of the architectural department, met his life drawing class at the Fair grounds last Thursday night to do some sketching from rural life.

## Freshman Finds

(Continued from page 1)  
and Edna had successfully overcome her first major difficulty.

After being refused credits from Jayton high school, Miss Davis entered the Grogan Wells sanitarium in Sweetwater, where she was in training three months in 1933. Then she enrolled in the Texas School for the Deaf at Austin. During her two years there Edna was secretary of the Blue Bonnet club, secretary of the Christian Endeavor society and organizer of the girl scout troop.

**Likes Texas Tech**  
In the school at Austin Miss Davis learned the sign language, but she has entered Tech this fall because she feels that lips can be read better than she can understand the language of the deaf. Her courses are applied arts, clothing, ergometry, and English. She attends classes and takes notes as well as her classmates who can hear as she reads the lips of the instructors with little difficulty.

Miss Davis plans to come back to Tech next summer so that she can be a sophomore when the long session opens come a hospital dietitian. Her deafness little hinders a deep appreciation for music, for she hears the musical notes by feeling and sound vibrations.

Edna is adjusting herself and her handicap to the conditions at Tech in a bright, cheerful manner, as she has in all other adverse circumstances. Miss Davis says, "The teachers and students are so nice to me that I know I shall like Tech more and more as the weeks go by."

**NEW PIANOS**  
There has been a great increase in the number of students enrolled for applied music. Several rooms on the third floor of the Administration building are equipped with new practice pianos.

PHONE 1900! for candies, cold drinks, school supplies, cosmetics, etc. NINETEENTH ST. PHARMACY. Free delivery. Adv.

Miss Carrie Hodges, instructor in the foods and nutrition department of the home economics division, is studying at the University of Iowa during a year's leave of absence.

## Many Events Found On College Card For Week-End As Social Clubs Have Various Entertainment For Rushees

(Continued from page 1)  
breakfast to be given by members of the Kemas club Sunday morning at 9 o'clock in the ballroom of the Hilton hotel.

With Roscoe Clark, president, and T. C. Root, sponsor, making talks, an interesting program is planned.

There will be 37 rushees and 21 members attending the breakfast. The club gives a dance Tuesday evening from 7 till 9:45 o'clock at the same place. Ned Bradley and his orchestra furnishes music for the informal affair.

**Ko Shari To Have Dance**  
Ko Shari club entertains Monday evening in the Hilton hotel ballroom with a dance from 6 until 10 o'clock. Bradley and his orchestra are to play.

During intermission, supper is to be served on the mezzanine floor to guests. The refreshment table and the ballroom are to be decorated with autumn flowers.

In a setting of white, Sans Souci club members were hostesses with a formal dinner in the Hilton hotel ballroom Thursday evening.

White dahlias in blue bowls were placed at ends of the table at which the guests sat. Favors were small bottles of perfume. White tapers in gold candelabras burned during the meal.

There were 18 rushees and 20 members present. Mary Genece Hardberger presided. Ned Bradley's orchestra furnished music.

**Keys Give Dance**  
After the Tech-Daniel Baker football game, the Silver Key club was host with a dance in the ballroom of the Hilton hotel. The club and football motif were used in decorations of black and silver. The organization's insignia was placed above the orchestra stand occupied by Ned Bradley and his orchestra.

Rushees of the Wrangler club attended a smoker at the club house, 2323 Thirteenth street, before the game, with members and special guests present.

## Physics Club Names New Heads At Next Meeting

The Physics club meets Tuesday at 7:30 p. m. in the physics room of the Chemistry building. Officers for the year will be elected.

All physics students, or those interested in physics, are invited. Freshmen students are especially urged to attend.

A program will be given by last year's Physics club officers.

Coach Morley Jennings is

## Absent-Minded Professor

### Cop Overlooks Traffic Violation By Prof With Excuse

Seldom will a traffic officer accept alibies; usually he rejects them. When an officer has a fondness for the absent-minded professor jokes, however, the order is reversed.

R. W. Fowler, associate professor of English, had that experience. He failed to notice a stop light until he was in the middle of an intersection; he reasoned that to pull around the corner and stop would be the best plan.

A policeman came over to the car and asked, "Why did you run that light?"

"I didn't notice it," the Tech professor replied.

"Maybe you don't reside here," the policeman questioned.

After replying that he had lived here for sometime, Mr. Fowler was asked if he taught at Texas Tech.

Finding that he did, the cop asserted, "Well, all professors are absent-minded, I'll blow my whistle the next time I see you approaching a stop light."

And with appreciation of his own joke, the cop excused the professor.

## Membership Of Choral Club Shows Big Increase

The membership of the choral club has increased 100 per cent over that of last year, states Julian Paul Blitz, head of the music department. Sixty-five students reported for the first rehearsal Monday night. Students are still signing up for this course which, if followed through four years will count eight credits on a degree.

The music that is used in this course will be furnished free to the students this semester.

The chorus meets one hour on Monday night.
