

**MILITARY QUEEN**—Jean Conger (second from left) was named queen at the Military Ball Saturday night in the Student Union Ballroom. Surrounding the queen are (left to right) Nick Kohn, Tyrian Rifles commander; Peggy O'Neil, sweetheart and Roy Mason, executive officer.

## Tentative O.K. Given To 1.0 Rule Repeal

by **MARJIE SANDERS**  
**Toreador Staff Writer**  
 The Council of Deans Tuesday tentatively approved the Student Council's request to repeal the 1.0

rule on school trips for the remainder of the semester. The move was announced Tuesday night at Council meeting by President Bill Pfleger.

**REASONS** for the tentative basis were to give the Deans' Council more time to further investigate the rule and review its history. It had formerly banned students with less than a 1.0 the previous semester from going on any official school sponsored trip.

Also at the Council meeting, Eldon Steelman led a discussion on establishment of a Tech Union Station near the Engineering Buildings.

Steelman pointed out that an initial survey indicates that approximately five per cent of the engineers presently use the Tech Union, but 25 per cent would patronize a snack bar if it were convenient to the engineers.

A **SIMILAR** classroom survey in the Classroom and Office Building revealed that 30 per cent of the business administration majors would frequent this station.

Nelson A. Longley, Tech Union director, was contacted by the Special Projects Committee. He said he would favor a branch of the Tech Union on this section of the campus but that space is a primary obstacle.

Marshall Pennington, vice president and comptroller of Texas Tech, objected to the idea. He explained that a Tech Union station of this sort would further segregate the engineers from the rest of the campus and that other campus departments might demand similar stations.

**PENNINGTON** also expressed concern about available space. He suggested that a coffee and snack bar might be set up in the Bookstore Annex.

A deadline of March 14 was set for petitions of students interested in running for a Student Council office. Filing begins March 8.

Officers will be elected March 24 and Council representatives and Tech cheerleaders will be elected March 30.

## Tech Ends Season With Owls Tonight

by **RALPH W. CARPENTER**  
**Toreador Sports Editor**

The Texas Tech Red Raiders, the smell of fourth place in their nostrils, will meet the lowly Rice Owls tonight in their last game of the season.

A win over the Rice five would mean a 7-7 record in conference play and a possible fourth place tie with Arkansas for fourth place.

The game will close out the college careers of three Tech seniors. Gene Arrington, James Wiley and Dale McKeenan will not return to the fold next season.

Del Ray Mounts, sophomore whiz for the Raiders, also has something at stake in tonight's game. If he can score 23 points against the Owls he will be the first Raider cager to score more than 400 points in one season since Jim Reed. Reed set the record in 1955-56.

The Rice team is mired in the SWC cellar and will be primed for an upset win over the upstart Raiders. If the Raiders pull it out it will be the third time that they have finished with a 500 record or better since joining the conference in 1957.

Rice is expected to start Butch Craig, Steve Smith, Mike Maroney, Roger McQueary and Roland Burris, the latter a newcomer to the Rice starting five.

Robison will probably start James Wiley, Gene Arrington, Dale McKeenan, Roger Hennig and Mounts, Mac Percival and Steve Lee will also get in on the action.

A Raider win would give the Tech leads a 10-14 record for the season.

### 375 ON HONOR ROLL

## 43 Make 3.0 Point

Forty-three students made 3.0 grade averages for the fall semester in comparison with thirty-three students who made the same average in the fall of 1958.

There were 375 names on the honor roll for 1959 compared with 410 for the preceding fall.

Membership on the Honor Roll is based on undergraduate students enrolled for 12 semester hours or more and who ranked in the upper five per cent of the student body in their schools.

**THE SCHOOL** of Agriculture had six with 3.0 point averages and 31 ranking from 2.31 to 2.94 grade point averages.

The School of Arts and Sciences had the most students with a perfect average; the total was 23. They were joined by 130 who had from a 2.56 to a 2.94 average.

Four in the School of Business Administration made 3.0 averages and 77 fell between 2.25 and 2.92.

**ONE HUNDRED** and fifteen engineering students ranged between 2.33 and 2.92 and eight had perfect averages.

Only one in the School of Home Economics made a 3.0 while 22

ranged between 2.44 and 2.94. Students from the School of Agriculture with perfect marks were: Jimmie L. Eschle, Wm. S. Gill, Michael D. McDonald, James D. Marshall, James K. Pettit and Merrill C. Swanson.

**THOSE FROM** the School of Arts and Sciences with three point averages were: Mary Sue Black, Dahlia Brazell, Carol A. Burrow, Wm. E. Clark, Sandra P. Cox, Leona Ford Dale, Linda J. Dennis, F. Jeanette Duncan, Gayle E. Emmert, Dwain G. Fuller, Marjorie Lins, Anne McElheny, Jane Merritt, Norman S. Morris, Robert B. Palmer, Dorcas A. Pettigrew, Sarah Alice Pinson, Roger G. Sewell, Billie S. Smith, Ray Reed Vinson, Jr., Carolyn G. Watkins, Alida I. Weathers, Evangeline Young.

The four from the School of Business Administration were: Frank Burke, Lenora K. Copeland, Franz L. Helbig, Wesley McCree.

**THOSE** listed with three point averages from the School of Engineering were: Charles Buchanan, Don L. Cannon, Walter Carl Cooley, R. Dell Greer, Robert W. Gross, H. Norman Kinzy, James Leon Ward, and Kaylon Boyd Whitman.

The lone-three pointer in the School of Home Economics was Lynn E. Fouts.

### TECH STAGES OWN OLYMPICS

Small-scale winter olympics were conducted on the Tech campus early Wednesday morning during the ice storm.

About 1 a.m. Sneed Hall residents gathered at College and Eleventh to play ice hockey. Some 15 players armed with improvised hockey sticks of brooms, tennis rackets and mops battled a shoe-polish can "puck" into goals scored in the ice. Car headlights provided light for the game.

### MUSICAL'S WARDROBE

## Costs \$25,000

by **KATHY McMURTRY**  
**Toreador Staff Writer**

Authentic costumes from their \$25,000 wardrobe will add color to the Jose Greco show at 3 p. m. Sunday in the Municipal Auditorium.

Tickets are on sale in the Tech Union lobby for 50 cents for students and teachers, 75 cents for Lubbock high school students and \$2.00 for others.

**IN REGARD** to the costumes Greco says, "Ours are made in Spain, Italy and North Africa, and are authentic as to design, texture

See picture page 2

and color, as may be demanded by the character of the dance for which they are used." All dancing footwear for the troupe is custom-made in Madrid and Seville. Greco alone uses almost 200 pairs of assorted boots, dancing shoes, leather leggings, etc.

Greco has admitted many new

artists to his troupe this year to make this company the largest he has ever presented to American audiences. According to Greco, these new artists were selected on annual talent searches he conducts in all of the cantinas, coffeehouses and gathering places in Spain where Flamenco artists are known to perform.

**AMONG THESE** new performers are Pepita Arcos, who has been called "the Spanish answer to nuclear fission"; Luis Montero, who is making his first American appearance this year; and Francisco Espinosa, the solo guitarist also making his American debut with the Greco company. Other additions to the troupe include Maria Del Rocio, Carmen Dominguez and Juan Esquinata.

Greco says, "Careful programming is the keynote of success." By including dances of sadness and deep tragedy, humor, satire and pantomime, Greco tries to show the true scope of Spanish dancing. The program is designed to provide the widest possible range of

mood, tempo, pattern and character.

**FOLLOWING** A recent European tour, Greco and his company returned to Spain where they appeared in Walt Disney's production of "Dances of Spain." This was their first motion picture assignment since "Around the World in Eighty Days."

Unlike other dance companies, Greco's troupe must do all rehearsing before the tour begins. Since they average about 2500 miles a week, their itinerary does not permit time for daily rehearsals while on the road. "The only exception we make is when we have occasion to program a new number. In such a case we have to manage to find time to rehearse it," Greco explains.

**A NATURALIZED** American, Greco was taken to live with his mother's family in Seville, Spain when he was seven. While he was there, he spent most of his spare time around the inns and cafes absorbing the techniques of the traditional Flamenco dances.

## Wednesday's Election Sees Nine Get Posts

Returns of yesterday's elections show one new class officer, three run-offs and election of eight members to the freshman council.

Sandy Hamilton was elected to the post of senior secretary by defeating Polly Greene. The run-offs will be for the election of sophomore vice president, freshman AWS representative and one spot on the freshman council.

**BILL SKEETERS** faces Woodie Wood for sophomore vice president while Sharon Cacy vies with Marilyn Galloway for freshman AWS representative in the run-off election on Friday.

Elected to the freshman council were Joe Barnhart, Beverly Brown, Lynn Buckingham, Ginger Forrest, Betsy Kaiser, Lynda McIntosh, Kakkie Shaughness and David Wight.

**IN THE** run-off election for the ninth spot on the freshman council are Betsy Baker and Jackie Curry.

Approximate total vote by classes was freshmen, 370; sophomore, 355; junior, 349; senior, 277.

Selection of Mr. and Miss Texas Tech will not be revealed until Friday night at the coronation dance.

JOSE GRECO PRESENTS FAMED SPANISH DANCE TROUPE SUNDAY . . . has thrilled audiences around the world

## Mr., Miss Texas Tech To Be Crowned Friday

Will this year's Mr. and Miss Texas Tech become Mr. and Mrs. as did last year's? Donnell Echols and Sharla Pepper were married during the summer.

**VYING** for the honor of Miss Texas Tech are Gail Petersen and Sandra Hendrix, and for Mr. Texas Tech are Ken Talkington, Dub Heffington, and Bob Dyer.

Winners of this contest and those of class favorites will be presented at the Coronation Dance 8-11:30 p.m. Friday at the Lubbock Coliseum. Paul Neighbors and his orchestra featuring Paul Neighbors Trio will play.

Neighbors and his orchestra have just finished a four-months engagement at the Shamrock Hotel in Houston. They have played at the Roosevelt Hotel in New Orleans, the Baker Hotel in Dallas and the Flamingo in Las Vegas. Neighbors features musical arrangements of yesterday's favorites as well as the top tunes of today.

**MR. AND MISS** Texas Tech are chosen for their service to the school, unselfish leadership, and friendliness. They are the best all-round representatives of Tech.

## Twenty Pledge Mu Phi Epsilon

The Epsilon Pi Chapter of Mu Phi Epsilon, national professional music fraternity for women, pledged 20 students Tuesday.

Officers of the pledge class are: Shirley Stephens, president; Linda Hart, vice president; Linda Lucus, secretary; Josephine Malacara, treasurer; Marilyn Campbell, chorister; and Linda Kester, reporter.

Other pledges are: Helen Anderson, Claribel Biggs, Jane Giles, Lutine Harris, Judy Henry, Karen James, Peggy Kenney, Judy Kinney, Carol Lewis, Kay McLaughlin, Deanna Muldrow, Carla Jean Newsom, Janis Richardson and Carol Wilson.

## Balance Sheets Signify Pledges

Spring pledges of Beta Alpha Psi, national professional accounting fraternity, are wearing balance sheets around their necks this week containing signatures of fraternity members.

Membership qualifications include a 2.0 average in six hours of accounting courses numbering 300 or over and a 1.8 overall average.

Spring pledges are Jackie Anz, Clifford Mars, Don Mason, Ed Winchester, Frank Burks, Coyt Webb, Rob Hill, and E. W. Cecil.

## The Midnight Miss

c. j.

Some wear them up, some wear them down and some wear them in between. Socks, I mean.

**NOTICE** sometime the way campus coeds wear their socks. Better yet, try to figure it out.

I've been trying and nobody seems to know. Sole conclusion arrived at is that Tech coeds agree white is the color. Any girl around here who wears red socks

to class probably goes home feeling like Hester Prynne of Scarlet Letter fame.

As to whether socks should be rolled down to the heel or short and pulled up, darkness reigns. Observations reveal the division to be about 50-50, excluding those few who wear them at the halfway mark with small roll at the top.

**PERSONALLY**, we go for the up style, a trait probably lifted from friends at SMU and the University where it seems to be a necessary part of the campus costume.

The interesting thing to note is that three years ago all the gals wore the bulky "bobby sox" rolled down at least three times. How 'cum some have traded in their old sock habit for a new style?

The new style can probably be attributed to the Ivy League trend. For some reason short up-socks (Bonnie Doon Raquets) are supposed to be more ivy-ish.

**ACTUALLY**, Tech is a little late in picking up this trend. But then camels move slowly (with apologies to M. Shulman.)

For years, collegians in the North and East have worn their socks in the up-style, generally wool ones. But since wool is not always suitable for our climate, or rather, our climate isn't always suitable for anything, including wool socks, the Texas type feminine ivy leaguers wear cotton socks which stand up.

Try as we may to encourage the ivy league look, Tech still has no penchant for joining the ranks of the Harvard and Vassar dressed—evidenced by the everlasting life of the almighty blue jean. (Beware men, we're likely to take this subject up in its entirety on another occasion.)

**AND, MEN**, if you're wondering about seeing tennis shoes on the feet of your female companion plodding across campus, she isn't necessarily on her way to PE. Its just another Eastern (and Western, as tennis are very popular in California) trend getting down our way.

But back to the socks. One strong point we've heard for the up socks is that they cut down on wash time. They don't have to be unrolled before throwing into the machine.

**UP SOCKS** also tend to have a slenderizing effect so we've been told, or so we're kidding ourselves into believing. Oh, the long graceful leg.

Just a closing word to the gals—wear them as you will, we just want you to look your sexiest.

★ ★ ★

Formal fraternity rush is cutting down somewhat on the social activities for the weekend. So until March 11 it's every man for himself.

**SORORITIES**, however, are not abstaining. Tech-style Matt Dillons can grab Chester Ann and attend the Kappa Alpha Theta Cowboy Cabaret from 8 to 11 p.m. Friday at Hillcrest Country Club. Clyde Hankins and his western band will play for the dance which is open to the campus. Thetas and dates will have a chuck wagon supper at 6:30 p.m.

Phi Mu will celebrate founder's day at the Woman's Club from 7 to 11 Friday night.

**LONE EVENT** on Saturday's social calendar is the Kappa Kappa Gamma paddle party, 5:30-7:30 p.m. in the Kappa lodge.

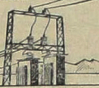

A chili supper is scheduled by the Tri Deltas for Sunday night, 5-7 p.m., at the Delta lodge.

NOTES SCRIBBLED WHILE TRYING TO THAW OUT FROM THE LONGEST, COLDEST WINTER WE'VE SEEN SINCE COMING TO TECH:

Believe it or not, the flood of letters the Editor has received during the past two weeks has been gratifying and enlightening.

Even though the majority have been against us, it is refreshing that students do have opinions on subjects. We had begun to wonder if Tech was populated by students who didn't care what happened or was said. Speaking for this column, our main goal is to make students think. We do not necessarily believe in all ideas we put forward; however, we do say things which, we hope, will stimulate some thought.

So, if something galls you in The Toreador, think about it and evaluate your thoughts. The thought process is the only thing that separates man from lower animals.

Well, thank Mecca for little favors. The Dean's Council Tuesday voted to abolish the 1.0 rule requirement for school sponsored trips for the remainder of the semester.

This rule, which prohibited students with less than a 1.0 from making such trips, was an outdated, ill-enforced law and looked upon with disfavor from most campus organizations. Any student may now go on school sponsored trips, with the stipulation that the organization head turn in the names of the students going.

To the Student Council, which initiated the proceedings to abandon the rule, and to the Dean's Council, we say thank you, and hope that other "Mickey Mouse" rules can be eliminated in the near future.

Speaking of letters as we were before, one crossed our desk last week that was priceless. It was written in the manner of the sob sister columns and was quite prophetic . . .

Dear Abby:

I have two brothers. One went to Texas Tech and the other was sent to the electric chair for murder. My mother died of insanity when I was three years old and my father sells narcotics to high school students.

I have recently met a girl who was just released from a reformatory where she was serving time for smothering her illegitimate child to death. I want to marry her. My problem is: If I marry this girl, should I tell her about my brother who attended Texas Tech?

Confused

Dear Confused:

What, and break up a beautiful romance?

And, a final note to all those "kind" people who have made it a point to remind me that Borger defeated Midland, 56-55, in overtime last week to advance to the state tournament.

We never knew there were so many sadists in one school. Despite all the foul things we can say about the Borger officiating, (as anyone can tell you who has ever played basketball in Borger or Pampa), we wish the Panhandle Bulldogs well. Maybe their luck will hold out in Austin.

A THOUGHT FOR TODAY — To be or not to be, that is the question.

—W.S.

## School Spirit Commended

The student body of Texas Tech should be commended for their fine support of the Red Raider basketball team this year.

The spirit and enthusiasm shown at the home games have been spectacular. They have backed the Raiders — although not in contention for a championship berth — to the hilt.

Techsans have shown a great desire to keep Tech in the ranks of respectable school spirit.

All comments in regard to this spirit this season, however, have not been in praise. The student body has been criticized in some circles for booing and other actions when the tension was high.

But, it cannot be expected of any group of fans to cheer when everything's rosy and then not show corresponding reaction when the breaks all seem to go to the other side.

The basketball coaching staff — and they're the ones who should know — have time and time again expressed their appreciation for the spirit and team support.

There has also been criticism of Tech football players sitting behind the Texas A&M bench when the Aggies were in Lubbock. It should be noted that this was a retaliatory measure, not an instigated one. Anyone who has been to College Station and attended Aggie basketball games knows the treatment there is not all peaches and cream.

Some may say two wrongs don't make a right but then who really knows? Hats off to Texas Techsans and other fans for a job well done.

RALPH W. CARPENTER  
Sports Editor

## Techsans Expound On Recent Columns

Editor:

Congratulations on your fine editorial page! For the first time in almost three years at Tech I find it most stimulating reading.

Let me remind those who condemn the various writers of your columns for their opinions that the free and open interchange of opinions and ideas is the life-blood of the democratic system of freedom of speech and of the press and that no subject, whatever its nature, should be barred from discussion by a truly free and educated society.

I believe that Tech students have both as much right and as much ability to form considered opinions as any group in the country, and I commend The Toreador for providing a place where these opinions and ideas may be expressed. "I may not agree with what you say, but I will defend to the death your right so say it."

Marion P. Lynch

★ ★ ★

Editor:

I have been intending for some time to write a letter expressing my opinion of certain disgusting articles recently appearing in The Toreador, notably, the "Ghost Writer" and the "Spastic." However, the March 1st issue contains a letter written in defense of the anonymous "Ghost" which, in my estimation, sorely requires comment at this time.

The letter was authored by a Mr. David M. Richmond, "University Pastor," a fact which was less surprising after a close study of the letter than at first reading.

Mr. Richmond began with a very noble dissertation on freedom and the right of the press to speak. This is very good, Mr. Richmond, but if you really feel so strongly about the basic principles of freedom, why do you, in the very next para-

graph, give your blessing to attempts by pressure groups to have some religious bodies barred from using the radio networks to exercise their right to speak. After all, the ministers to whom you refer as "definitely offensive" and "so-called religious" no doubt feel that they have something of vital importance to say to the public, and what right have you, the "Ghost Writer," or the "National Council of Churches" to say that these ministers cannot speak by whatever media they choose and can afford?

If you can't bear to hear a radio sermon which does not meet your standards, try turning your radio off. And speaking of the National Council of Churches, isn't that the organization declared communist-infiltrated by a recent Air Force manual?

Well, continuing with the letter, Mr. Richmond undertakes to classify "quite possibly a majority" of the Sunday morning radio sermons as "very low quality, in addition to being in bad taste." By what authority, Mr. Richmond, do you purport to be a judge of the quality and taste of a sermon, to say nothing of whether it may accomplish a good purpose?

Also, you seem to forget the possibility that newspaper articles such as the one you defend are offensive to perhaps a greater per cent of the reading public than radio sermons are to the listening public.

In a time when religion and patriotism are the prime targets of ridicule by so many people throughout the country, and, for example, by several individuals on our own college newspaper staff, it is impossible to imagine how defense of ridicule of either can be justified, especially since our country, now embattled from within and without by the forces of communism, needs God-fearing

patriots more urgently than it has since conception.

Of course, if one has decided that Godless communism, with its mass enslavement and liquidation of all who are not useful to the "party," offers a better life than the freedom and hope that is America, such a person might well ridicule that which is more far-reaching than missiles, and more powerful than nuclear weapons — our faith in God, and our love for our country.

Bob Hancock  
★ ★ ★

Editor:

After reading the letters to the editor in Saturday's Toreador I must register my vote with Brown, Jackson, Bryan, et al. The "Epistle" of the Second Baptist Church was by far the most ridiculous thing I've read in a long time. It's obvious that the reverend Hearn must have studied propaganda techniques along with his religion.

I heartily agree that the majority of Tech students aren't religious fanatics, but I might add, at the risk of being trampled under a wave of indignation that it appears (although cal data) that the majority of Tech's religious fanatics are citizens of Lubbock.

The possibility of the combined forces of the "American Mercury" and J. Evetts Haley and his witch-hunters descending upon Tech should not be overlooked, and the addition of a religious clause to our loyalty oath would be in keeping with Lubbock and the policy of the administration.

Ernie Ebell  
★ ★ ★

Ghost Writer:

If taking advantage of every opportunity to win someone to Christ is being an opportunist, then Bob Hearn is an opportunist. We just wish there were a thousand more opportunists like him in Lubbock.

Signed by 41 Tech Students

CECIL AYERS, CROP TEAM COACH  
... 12 years: 15 firsts, 8 seconds and 1 third

CECIL AYERS IS COACH

# Team Wins Honors

by JIM WALSH  
Toreador Issue Editor  
Combining a fatherly friendliness with an instinctive understanding for getting the best out of his students is Cecil Ayers, whose crop-judging teams have returned to Tech with plaques and loving cups from every contest entered.

Ayers, a stocky-built ex-farm boy from Chillicothe, now in his forties, has coached the Tech crop-judging team since 1947. Out of the 24 contests his teams have entered, they have won 15 firsts, 8 seconds and one third.

**THE TEAM** competes in two contests a year: the National Intercollegiate Crop Judging contest in Kansas City and the International Intercollegiate Crop Judging Contest in Chicago. These are held a few days apart in November.

In these contests, Ayers and his boys have met teams such as Minnesota, Oklahoma State, Oklahoma, Arkansas, South Dakota, Texas A&M and Pennsylvania State. Of 12 possible records set dur-

ing the history of the two meets, Tech holds ten and is tied for another. Of the six highest scores set with the contests combined, Tech holds four and is tied for a fifth.

Coach Ayers, now associate professor of agronomy, taught agriculture courses in high schools after he graduated from Tech in 1936. In 1942 he returned to Tech as an instructor in freshman agronomy, plant breeding and cotton courses. Today his teaching covers genetics, plant breeding and seed technology besides training the crop teams.

**TRAINING FOR** the fall contests begins with a spring-semester course in judging and identification of crops. Positions for the team are vied for on a competitive basis; grades being the deciding factor. Only four students may go — three team members and an alternate.

"I don't enlist any boys," Coach Ayers says. "It's strictly on a voluntary basis. You can't expect a student to do his best unless he asks to."

**"YOU HAVE** to treat each member as an individual," he adds.

"Some you have to ride to get the best, out of them. Others do their worst using the same technique. I've taken 44 boys on these trips with me and have never found two alike."

"You have to train each boy individually and then have them work as a team."

The students must learn identification of samples and diseases of over 300 different kinds. Both Latin and common names are memorized and identified. Students seeking berths on the team are new each year since no contest can be attended by the same student twice.

**PRACTICE ON** the contest continues up to "game time." Five boxes of grain samples are taken along on the train to keep the students' minds on the contest.

To offset night before jitters the coach asks them, "Are you going to judge the contest now or tomorrow?"

Competition is held indoors at coliseum with trays of samples laid out for the examinations. Judges score the student by their proper identification or classing of crop samples.

**POINTS ARE** given on the basis of individual and team performance.

Ayers has become known nationally as an expert in his field. He has judged six years at the International Grain and Hay Show in Chicago. He was the judge picked to choose the champion grain sorghum winners at the National Corn Picking Contest in Cedar Rapids, Iowa, was one of the two judges for the National DeKalb Sorghum Show and for many years judged at the South Plains Fair.

He has been written up in "Who's Who in the Southwest and in "American Men of Science."

## Lucky Strike's Dr. Frood is asked

# Why Are Today's Students More Serious, Dedicated, Industrious?

**Dear Dr. Frood:** In your day, college students were all rah-rah and raccoon coats. Today's student is more responsible, more dedicated, more industrious. What accounts for this big change?  
*Studios*

**Dear Stu:** Today's world is more complex, more challenging. Ideologies clash. Our planet grows smaller. The cold war strikes fear into our hearts. There is a shortage of raccoons.  
*Studios*

**Dear Dr. Frood:** Why doesn't everybody smoke Lucky Strike?  
*Lucky Smoker*

**Dear Lucky:** Why doesn't everybody get straight "A's"?  
*Senior*

**Dear Dr. Frood:** Grandfather's will provided a rather handsome allowance on the stipulation that I showed "the courage and strength of character" to stay in college. Frankly, however, I am tired of college. I have been here 40 years. Is there any way I can quit and still collect?  
*Senior*

**Dear Senior:** Your question brings up a considerable number of legal problems, with interesting technical ramifications. Having given the matter much thought, I have this suggestion: enter Law School.  
*Practical*

**Dear Dr. Frood:** I am disgusted with my classmates. All they think about is women and parties. How can I get them to talk about important things?  
*Serious*

**Dear Serious:** Throw a large party. Invite plenty of women. Then, around midnight, say something important, like "We're out of beer."  
*Old-Fashioned*

**Dear Dr. Frood:** Modern girls go to college for four years. Then they get married and don't even know how to change diapers. What is this leading to?  
*Old-Fashioned*

**Dear Old-Fashioned:** Self-sufficient babies.

**Dear Dr. Frood:** Here are two portraits of Beethoven. One was done by an old master. The other by a student. Which is the masterpiece?  
*Art Lover*

**Dear Art:** The one on the left is the master's work. The stroke is deft, clean, authoritative. Every detail is authentic Beethoven, even the gesture of keeping his composing hand warm.  
*Practical*

**Dear Dr. Frood:** Has college ever really helped anyone in business?  
*Practical*

**Dear Practical:** Of course. Think how college has helped the people who make pennants, footballs, fraternity pins.

## COLLEGE STUDENTS SMOKE MORE LUCKIES THAN ANY OTHER REGULAR!

When it comes to choosing their regular smoke, college students head right for fine tobacco. Result: Lucky Strike tops every other regular sold. Lucky's taste beats all the rest because L.S./M.F.T.—Lucky Strike means fine tobacco.

**IRAN DISCUSSED**

**Panel Speaks On Country**

Political and religious ideologies and the customs and traditions of Iran were a few of the topics discussed at the Cosmopolitan Club meeting by a panel of five Iranian students. Members and visitors were told that Iran (Persia) had around 6,000 years of history. The five panel members: Ebrahim Gharacoulchian, sophomore engineering major from Shiraz; Mehdi Vossoughi, junior engineering major from Tehran; Ali Akbar Afsharian, freshman engineering major from Shiraz; Gholi Bahmani of Shiraz and Hossein Karimi, formerly of Teheran, also remarked about the history, industry, education, agriculture and religion of their country.

"HANDWORKING is one of the highlights of the Iranian's life," asserted Karimi. Iran, a large exporter of hand-made carpets, employs from 15 to 20 women on one run which requires 30 to 40 days of hard work. Karimi stated that "the younger girls can make the best rugs because they can tie the smallest knots."

Education through primary school is compulsory in Iran. Karimi pointed out that the university education is taken mostly from the English and French systems, and that the courses are chosen for the student. He went on to say that the colleges were limited in their facilities, and that the sixth year of high school is the pre-professional school.

**Weather Hurts Grain Meeting**

Inclement weather and dangerously slick roads reduced the attendance of the first session of the sixth annual Grain Drying and Storage Conference yesterday.

The expected attendance of 300 dropped to 225, according to Ira L. Williams, professor of agricultural engineering.

Grain drying, aeration, and storage structures were among the topics discussed by guest speakers from Nebraska, Oklahoma, Missouri, Kansas and Texas.

The concluding speech of the session will be given at 2:15 p.m. today by C. N. Moseley, whose topic is "Warehouman's Relations With Commodity Credit Corporation in 1960." A question and answer period under the direction of Dr. N. W. Kramer will follow.

**Applications Ready For Talent Show**

Applications for Skit Row, annual talent show, must be turned in to Weeks Hall Box 143 by noon Friday.

Try-outs will be Monday from 6 p.m. to 8:30 p.m. in the Aggie Auditorium.

Skit Row, sponsored by the junior class, is scheduled for March 23 in the Lubbock Municipal Auditorium.

 WASHING GREASING  
 We Give S&H Green Stamps

Soccer, weight lifting and wrestling are perhaps the favorite sports in Iran. Iranians participate in almost all sports except football. Entertainment facilities are similar to those in the United States.

IRAN IS ALSO a large producer of oil which is shipped mostly to western European countries. The main agricultural crop is wheat. Other crops include sugar beets and cotton. Farming is done in various ways with Iran having both big land owners and small land owners. "Some of the ranch-

es in Iran are much larger than those here in Texas," stated Ebrahim.

Various articles and pictures of Iran were displayed at the meeting. The flag of the country is green, white and red which symbolizes the fertility of the country, peace and happiness, respectively. On front of the flag is a lion holding a sword and a yellow sun. This represents "guarding the country" and the "rise of a new day." Other objects displayed were teapots, a Persian rug and an Iranian dictionary.

**BSO Delegates Attend Retreat**

Board of Student Organizations delegates will board a bus at 8 a.m. Friday and journey to Cloudcroft, New Mexico, for the group's annual retreat.

The purpose of the three-day event is to compare leadership problems of different campus organizations and to coordinate student-faculty relations.

John A. Brown, assistant to the president of Temple University in Pennsylvania, will be featured as guest speaker. He will present case studies on various campus problems and suggest solutions.

**AC SPARK PLUG, THE ELECTRONICS DIVISION OF GENERAL MOTORS**, has IMMEDIATE openings for permanent positions in MILWAUKEE and FLINT for engineers and designers on Thor and Mace missiles as well as other advanced projects. If you have a BS, MS or Ph.D. degree in EE, Physics, Math or ME, you may qualify for one of the positions listed below.

You can exploit your talents to the fullest degree at AC. For every AC engineer has access to the finest equipment . . . at all AC facilities.

AC and GM gladly assist your career progress through financial assistance for graduate study at first class engineering schools in nearby locations. In addition, you will have the opportunity to take exclusive on-the-job course work on the advanced state of the art.

**DIGITAL COMPUTER ENGINEERS**—Logic design of special purpose computers . . . Pulse Circuit Design . . . Airborne Digital Computers . . . Memory Design . . . Analog-to-digital and digital-to-analog conversion. **Milwaukee**

**TRANSISTOR APPLICATION ENGINEERS**—Applied development in the field of transistor circuitry. **Flint and Milwaukee**

**GYRO ENGINEERS**—Work on floated, integrating gyroscopes and gyro-accelerometers for inertial guidance systems for missiles. **Milwaukee**

**INFRA-RED DEVELOPMENT**—Development of the theoretical concepts that will advance the state of the art of infra-red system applications. **Flint**

**SYSTEMS ENGINEERS**—Systems design, analysis and instrumentation of inertial guidance. **Milwaukee**

**OPTICS**—The development of optics and optical instrumentation. A general knowledge of military optical systems and commonly used optical and mechanical components is required. **Flint**

**PRODUCT DESIGN ENGINEERS**—Design, development and test of electronic components, servos and circuits. **Flint and Milwaukee**

**TEST ENGINEERS**—Design and development of production test equipment . . . environmental test instrumentation and data reduction . . . ground support equipment. **Flint and Milwaukee**

**FIELD ENGINEERS FOR FOREIGN AND DOMESTIC ASSIGNMENTS**—Electronics technicians or recent technical graduates may qualify for top training on inertial guidance, bombing navigational systems, gyro computers, etc.

**TECHNICAL WRITERS**—Electro-mechanical or electronic writing experience. Must be able to work with engineers in the writing of service manuals. **Flint and Milwaukee**

## Tech Coeds Compete For Magazine Awards

Mara Jolene Caffee, Lubbock senior, and Donna Sue Christopher, Brownfield junior, will repre-

sent Tech this year on Mademoiselle's national College Board.

They are competing with 817 students from 314 colleges for the 20 guest editorships to be awarded by Mademoiselle the end of May. As part of the competition each girl must complete an assignment to determine her interests and abilities in writing, editing, fashion, advertising or art.

The guest editors will spend four weeks in New York next June helping to write, edit and illustrate Mademoiselle's 1960 college issue to be released in August.

In addition to this work, they will interview outstanding men and women in their chosen fields and visit fashion showrooms, publishing houses and advertising agencies.

## Positions Still Open For Union Execs

Applications for executive positions of the Tech Union will be accepted until 5 p.m. Saturday. Applicants write letters to Robert Rogers, president.

The offices open are president, vice president, secretary, treasurer, director of personnel, and director of public relations.

Letters should outline what position is wanted and why it is wanted. The major, grade point, number of hours enrolled for, and a short philosophy of the Union program should be included. Union experience and other organizational experience should be stated.

## Prof Leaves On Italy Tour

Koy L. Neeley, assistant professor of animal husbandry, left Friday for Rome, Italy. The information gained on this trip will strengthen the teaching and research programs at Texas Tech.

While in Italy, Neeley will attend conferences with college and nutrition groups, feeders, and dairymen.

From Feb. 29-Mar. 11, he will be with the American Feed Grains exhibit at the 62nd International Trade Fair at Verona, Italy, acting as a dairy nutrition consultant. Neeley will observe agriculture practices and experimental research work and help to set up research in livestock throughout Italy and the Island of Sardinia.

His travel is sponsored by Grain Sorghum Producers Association and the United States Department of Agriculture, for an agriculture service.

## A PHIO Picks New Officers

Alpha Phi Omega officers for the spring semester are Leroy Tillery, president; Bill Riley, first vice president; Jerald Bell, second vice president; Don Mason, executive secretary; Jim Lindley, treasurer.

New pledges for the semester are Dennis Richardson, Troy Newton, Charles Harrison, Freddie Davis, Jerry Thomas, Herman Hill, Jack Arthur, Edward Green, John Briggs, Harris Phillips, Gerald Heath, Marco Gutierrez, George Wynn, Joe Gearheart, Jim Henderson, Dick Biggs, Phil Howard.

Also R. C. Guenther, Donald Holt, Pember Rocap, Don Geddie, Winston Allison, Carl Newsom, Roy Hinkley, Dick Wyatt, Paul Beisenherz, Tox Kennedy, Gene Todd, Leon Meador, Joe Harmon, Oscar Velasco, Joe Passmore, Clark Bennett, and Frank Vaydik.

Alpha Phi Omega is a national service fraternity.

ON COLORADO TRIP

# Swimmers Improve

by MIKE BONE  
Toreador Sports Writer

The Texas Tech varsity swimming team, readying itself for the Southwest Conference Championships, is still wet behind the ears from a trip to Colorado last week.

ALTHOUGH THE swimmers finished with a 2-2 record, Coach James McNally had this to say, "I think we did very good, especially with consideration of the bad weather, the high altitude, and the rough schedule. I was very surprised at the improvement of several swimmers, and the

scores, especially that of the Air Force meet."

The trip opened at the University of Colorado Wednesday, where Tech took a 55-40 victory. Tech's Jim Tom Davis, outstanding sprinter, took first place honors in the 50 and 100-yard freestyle events.

GLENN ANDERSON, one of the surprise swimmers, splashed his way to a victory in the 200-yard butterfly contest. The Red Raiders swam to other firsts in the 400-yard medley relay, the 200-yard individual medley, the 200-yard breaststroke, and the 3 meter diving, where Ken Hall, a standout on the trip, began a string of victories. Tech received five second-place ribbons.

The following day the Red Raiders went to the University of Denver for two meets. In the morning the boys from Denver squeaked out a 48-43 victory. Tech took six firsts and two seconds. The swimmers took the same first place honors as the day before, with the exception of the 200-yard individual medley.

DURING THE afternoon the Raiders snatched a decisive victory from the University of New Mexico, 66-25.

Bret Bayne took first in the 200-yard backstroke which contributed to Tech's total of nine firsts.

The Raiders paddled their way to victories in distance swimming in the 400-meter medley relay and the 400-meter freestyle relay.

DAVIS again picked up first place points in the 100 and 440-yard freestyle contests. Other firsts were in the 220-yard freestyle, the 200-yard individual medley, the 200-yard butterfly, and the 200-yard breaststroke. Tech pulled in five second-place honors.

The surprise meet of the trip was at the Air Force Academy, where the Falcons edged a 49-46 victory from the under-dog Red Raiders. The visitors were boosted by a stellar performance on the three-meter board by Ken Hall, who set a new pool record in the competition with a total of 246.30 points.

DAVIS AGAIN won the 100-yard freestyle, and Bill Farrar, for the third time, took a first place in the 200-yard backstroke contest. The Red Raiders racked up seven second place honors.

McNally commented that he thought the team was ready for the last regular meet of the season against rugged Rice.

March 10, 11, and 12 mark the Southwest Conference Relays which will determine the conference champion. They are to be held in the Tech gym.

# Co-captains Named For Practice Game

Co-captains have been appointed for Texas Tech's spring football game in Odessa Saturday night.

Leading the Reds will be end Don Waygood of Sundown and split back Dan Gurley of Fort Worth. All-America center E. J. Holub of Lubbock and quarterback Glen Amerson of Munday will head the Whites.

Game time, in compliance with a request of the Texas Sport Writers Association last Decem-

ber, will be 7:30 p.m. The TSWA in urging all high schools and colleges to follow an earlier kickoff time, pointed out that better coverage would be possible and the traffic safety should be improved.

# Bandits Drop 8 'B', 79-48

The Chinese Bandits, undefeated champions of the Independent No. 1 League, rolled into the semi-finals of the all-college championship tournament last night.

WITH JOHNNY Lovelace and Harvey Klinkerman leading the way with 17 points each, the Bandits easily conquered the B Dormitory League leaders, Dorm 8 79-48 in the initial game of the tournament. Neal Hendricks took top honors for Dorm 8 and the game with his 25 points.

Sneed Hall controlled Dorm 7 in a 3-minute overtime in their contest to defeat Dorm 7 66-61 and become the champ of the A Dormitory League. Charley Flanagan ripped the cords for 34 points to lead the victors to their championship.

FOR DORM 7 Bert Williams had 23 and Charley Richards 16. The score was tied 59-all after regulation play.

Bledsoe Hall finished their season victoriously with a 63-49 decision over Dorm 8. Bill Watson hit for 17 in the win with John Drake backing him up with 12. Mac Marcom tallied 20 for the losers.

The Sports Club won their league title Monday, outscoring the Trojans in a close contest 43-39.
