

Tech Exes Pick James For Post

Wayne James has been appointed executive secretary of the Tech Ex-Students Association effective April 1, Jack Hinchey, association president announced Saturday.

James was selected from four applicants at an executive board meeting Saturday of the Ex-Students Association. He will replace L. C. Walker.

James attended high school in Whiteface and is a 1957 graduate of Texas Tech where he majored in education and journalism. He did graduate work at Tech in audio-visual education. While a student at Tech, he was editor of the TOREADOR, a member of the Student Council, president of Sneed Hall, vice president of Saddle Tramps, a member of the Student Union Executive Board, and director of public relations of Circle "K."

He was membership chairman of the Press Club, publicity director of the Future Teachers of America, and a member of the Men's Inter-dorm Council and Board of Student Organizations. He received all-college recognition for leadership and was Tech's representative on the Southwest Conference Sportsmanship Committee 1955-1957.

"The primary function of the Ex-Students Association," James said, "is to carry on public relations with the alumni." Activities include the homecoming festivities in the fall, and Tech Day, which has been scheduled for May 14. The association also publishes the "Texas Techsan" and "Tech Talks," which are mailed regularly to Tech graduates. James said that he hopes to strengthen the organization and "build a Southwest Conference-type Ex-Students association."

WAYNE JAMES GIVES THE SMILE THAT EVERY GOOD SECRETARY SHOULD HAVE
... he is now executive secretary of the Tech Ex-Students Association.

Film Explains Moving Of Tech Grid Stands

The American Society of Agricultural Engineers were shown a film Monday night explaining the moving process which is expanding Jones Stadium for Southwest Conference play.

Ed Peschau, who is moving superintendent for La Plant-Adair Co. presented the film and commented on the intricacies of the moving operation.

According to Peschau, a five inch cable and a 30,000 pound winch is being used to pull the sections back.

Theoretically the stadium should

be moved back without stopping however, due to the wind and dust several stops had to be made to put the stadium back on course.

Peschau pointed out that on the first day of moving several stops had to be made because of spectators throwing nickles and dimes on the track.

Originally parts of the stadium were one to two inches lower than other parts. In the moving process the lower parts were jacked up making the stadium even.

Building Opening Rumor Circulates

Rumors from some who should know were circulating at Texas Tech Monday that the new classroom building would be occupied in about three weeks.

One economics professor commented in class that he expected that section to change rooms by that time.

Nolan Barrick, Tech's supervising architect, refused to comment on the matter until 1:30 p.m. Thursday.

LAWYER PAYS FEE

AUSTIN (AP) — Houston lawyer Don Yarborough paid his \$600 filing fee in cash today to get a place on the ballot against Lt. Gov. Ben Ramsey.

Yarborough asserted he was "making the race to stop bossism in Texas."

Paper Gets Drop Boxes

Toreadors can now be obtained in new pine plywood drop boxes which have been placed in campus buildings.

The new boxes have the name "Toreador" silk-screened on the front. They were made by Professor Arne W. Randall, head of the applied arts dept., during the Christmas vacation. The 50 boxes will hold approximately 150 papers each.

The drop boxes were put up last Saturday by Alpha Phi Omega, men's service fraternity. Leroy Tillery was in charge of putting them up.

Council Votes Festival Out

The Student Council decided Monday night that the Spring Festival will undergo a severe cutback this semester because it has in the past failed to fulfill its purpose as a spring break.

Most of the activities will be retained, Vice President Dub Heffington said, but they will be spread throughout the semester and there will be no spring festival as such.

The Council decided to continue sponsoring the bicycle race; however, the remaining functions will be sponsored by other organizations.

Prof Leads Park Study

Prof. E. J. Urbanovsky, head of Texas Tech's department of horticulture and park management, is directing the Southwest Park and Recreation Training Institute at Lake Murray State Park near Ardmore, Okla.

The institute began yesterday and will continue through Thursday. Assisting Urbanovsky is William M. Gosdin, Tech superintendent of care and maintenance of grounds, who is serving as program chairman. Approximately 15 Tech horticulture students are attending the institute, where they are discussing common problems of their field as well as making contacts for future job opportunities.

The Institute is sponsored by the American Institute of Park Executives, the Southwest Park and Recreation Training Institute, and the Oklahoma Planning and Resources Board. The purpose of this session is to provide an opportunity for members of small park departments to meet and discuss mutual problems with men who handle large state and national recreation centers.

Mrs. Perryman Buried Sunday

Funeral for Mrs. C. C. Perryman, 54, wife of a member of the engineering faculty at Texas Tech, was conducted Sunday afternoon.

A graduate of Texas Tech, she died Saturday in a Lubbock hospital. She had lived in Lubbock since 1931 and had been active in civic affairs and charitable organizations.

Reason for the revision in the program was that the activities are not reaching the students who would benefit. Also it is taking too much of the Council members' time in work, and was overloading the students who are socially active.

Heffington pointed out that, with the Spring Vacation, the need for the festival has been diminished.

THE TEXAS TECH Student Supreme Court received new emphasis when the Council adopted a revised plan of action submitted by James Adams, Chief Justice.

By this plan, the court would be authorized to deal in matters of controversy regarding question on the student Constitution having to do with legality of council actions.

THE PLAN authorizes complaints from students to be filed with the Court in the manner prescribed in the Student Assn. Constitution. Details can be obtained in the Council office.

The Council also acted on a proposal to improve intramural athletics at Tech. An Intramural Committee was approved to aim at major student satisfaction with the intramural set-up.

By the proposal intramural athletics would culminate in the spring with a championship night in the Coliseum. At this time the championships would be decided in boxing, wrestling, and other sports.

Editorships Open

Tech students desiring to work on next year's "La Ventans" or "Toreador" should make their applications by letter before March 1. The letters containing information of qualifications and experience should be submitted to the Student Publications Director, Phil Orman, in Journalism 100.

Thompson Gets Nod As Tech Assistant

Jess Thompson, University of Tulsa first assistant coach, has been appointed an assistant coach at Texas Tech, athletic director and head coach, DeWitt Weaver announced Monday.

THOMPSON, five years a Tulsa aide under Bobby Dobbs, has coaching experience dating back to 1931, including nine seasons as head coach at Cameron Junior College, Laeton, Okla., where he compiled a 71-19-2 record.

"I really appreciate the oppor-

tunity to join Coach Weaver's staff at Texas Tech," Thompson commented.

COACH WEAVER said, "We are fortunate to obtain the services of a man of Coach Thompson's caliber. He has excellent all-around coaching ability."

Two assistants, Joe Kerbel and Joe Moss, resigned recently to go to West Texas State, and Weaver indicated that the other replacement would be named shortly.

A NATIVE of Sunset, Tex., in Montague County, Thompson graduated from Temple, Okla., High School in 1927. He holds B.A. and B.S. degrees from Central State College where he made all-Oklahoma at center, graduating in 1931, and a Master's from Phillips University.

Thompson coached at Seminole and Comanche, Okla., high schools before becoming an assistant at Cameron College, 1934-36. He coached Jet High School one season, then became head coach at Cameron for the 1938-41, '46 and '51-54 seasons. He was at Centenary in 1947 and Mississippi Southern in 1948-49.

After four years in the navy, Thompson attained the rank of lieutenant commander while participating in three major Pacific landings. In his first 18 months as a navy officer, he was an instructor in the V-5 physical fitness program for pilots.

JESS THOMPSON
... new Tech assistant

LEROY TILLERY DISPLAYS THE NEW TOREADOR DROP BOXES
... the boxes will hold the Toreadors to keep them off the floors.

Love for Sale Penny a Minute

At last the long-awaited night is here when all the girls living in dormitories can stay out one hour later than usual — for a price.

Thursday night has been designated by the AWS as the first penny-a-minute night of this year. On this special night girls may stay out late for one penny for each minute spent out of the dorm past the regular sign-in time.

Just 60c will allow a senior to stay out until midnight. Juniors, sophomores and second semester freshmen can stay out until 11 p.m. and entering freshmen can stay out until 10 p.m.

Jr Council Honors Transfers at Tea

Members of Junior Council are sponsoring a tea for new women transfer students, from 2-4 p.m., Sunday, in the Tech Union work-room.

Purpose of the tea is for new women students to meet other Tech coeds and to acquaint the new students with Tech traditions.

MEMOS.

TECH ACCOUNTING SOCIETY
Ed Merriman, Lubbock CPA, will speak to the Tech Accounting Society at 8 p.m. Thursday in the Union workroom. Spring officers will be elected and La Ventana pictures will be made.

DOUBLE T ASSN.
Double T Assn. members must have La Ventana pictures made at Wallace Studios before 5 p.m. Friday.

THETA SIGMA PHI
Plans for Tech Tips will be made at the Theta Sigma Phi luncheon in the Journalism Conference Room at noon today. Mid-year reports will also be given.

LA VENTANA STAFF
La Ventana editors will discuss deadlines and set up work schedules with all members of the La Ventana staff at 5 p.m. Wednesday in the Journalism Conference Room. All section editors must attend, or leave word in the L-V office.

WHISKEY REVENUE DROPS
AUSTIN (AP) — State taxes collected on sales of cigarettes and whiskey dipped in January, the state treasurer's office reported Monday.

Pi Phi's Elect Spring Heads

New officers for Pi Beta Phi, social sorority, were elected Wednesday for the spring semester.

KAREN O'BRIEN is president; Chris Christopher, vice president; Alice Ann Peters, recording secretary; Linda Barnhill, corresponding secretary; Nell Quain, treasurer; and Margaret Snider, pledge trainer.

Gail Pfluger is historian, Carol Curry and Sue Springer, censors; Ellen Fuller, music chairman; Diana Winslow, social chairman; Barbara Underwood, Senior Panhellenic Representative; and Nonnie Sue Blocker, athletic chairman.

Katherine Roshton is A.W.S. representative; Anne McElheny, scholarship chairman; Ann Kerr, house chairman; Jo Anne Dobbs, efficiency chairman; Celeste Ulrich, activities chairman; and Barbara Buchanan, program chairman.

JO ANNE CRAVER is senior representative to Executive Council; Cheryl Crawford, junior representative to the council; and Suzanne Robinson, sophomore representative.

UNION RATS, Inc.

by **JEANNE HOOVER**
Toreador Staff Writer

Due to the promotion of former columnist Pat Porter to a "higher and more gracious position" on the Toreador, Union Rats now has a new editor, namely me, Jeanne Hoover, who, as most freshmen, has become well acquainted with the SUB during one semester at Tech.

HERE'S A HEARTY farewell to finals and the first semester, and a hello to the herds of students now drifting back into the SUB. To begin the spring calendar, a Western dance featuring Jimmy Mackay and his Orchestra, is set for Friday in the Rec Hall, 8:30 to 11:30 p.m.

Other upcoming events are posted in the calendar of events that is being distributed in the Union. This calendar, now folded rather than in two pieces, is a new style making it easier to handle.

Mrs. Jane Patterson, program director, announces that over \$100 of new records have been added to the record-lending library. Most of the records are of musical

shows and mood and popular music, rather than the classical bought in the past, as a result of increased demand for these types. Some of these new albums are in stereo.

HAIL THE new celebrities on campus, winners of the Rats contest. Dr. Gene Hemmler is high up there on the list of Union Rats. In the contest held late last semester, Pat Porter, Mike Armstrong, Richard Estes, Larry Dehay, Ken Warren, and Dr. Hemmler were elected as the 1960 Union Rats. This entitles these to "fabulous winnings," and they should stop in the Union office soon and see Mrs. Jane Patterson for their free coffee tickets.

At the Student Union Leadership Workshop held last weekend, final plans for the Expansion Program were presented to the group by James Wimbish, associate director. Final loan approval for the million-dollar expansion will be discussed by the board in their February meeting.

See you in the SUB.

FEW TICKETS LEFT

'Picnic' Nears Sellout

The production of William Inge's "Picnic" by Texas Tech's speech Dept. was a sellout for the first three performances. Only a few tickets remain for performances tonight and Wednesday.

RESERVATIONS can be made by calling Ext. 356 or tickets can

Music Instructor Presents Recital

Richard Tolley, a first year music instructor, will be presented in a faculty recital at 8 p.m. next Tuesday in the West Texas Museum Auditorium.

Selections on the trumpet will be accompanied by pianists Marjore Magness, Richard LaMar, and John Price.

be purchased at the speech dept. box office from 9 a.m. until 8:15 p.m.

The play, directed by Ronald Schulz, takes place in a small Kansas town in a yard shared by two husbandless, middle-aged ladies, Hal Carter, a young man played by Ronald Butler, arrives in the little town much to the ladies' delight.

Others involved in the action of the play are the invalid mother of one of the ladies, the two maturing daughters of the other and a spinster school teacher boarding with one of the ladies.

Late permission for girls living in the dormitory will not be granted unless attendance is required by an instructor.

In such cases a letter should be sent by the instructor to the Dean of Women with the names of the girls to be granted late permission.

Gerald Thomas Attends Ag Meet

Dr. Gerald Thomas, Tech Dean of Agriculture, will represent the Texas section of the American Society of Range Management at the Board of Directors meeting today through Thursday in Portland, Ore.

Dr. Thomas is past state president of the association.

Musicians Initiated

Phi Mu Alpha Sinfonia, national music fraternity, and Kappa Kappa Psi, honorary band fraternity, have recently initiated new members.

New initiates of Phi Mu Alpha are Jerry Godbey, Jerry Hering, Bill Peters, Bill Scott, Taylor Sims, Jim Sudduth, and John Lewis, who was initiated earlier this fall.

New Kappa Kappa Psi initiates are Bob Breckenridge, Art Sayers, James Morgan, and John Fairchild.

Workers Sign In Union Lobby

Students interested in signing up for any of the eleven Tech Union committees should do so today, Wednesday or Thursday between 8 a.m. and 3 p.m. in the Union lobby, announced Dan Webster, Union Program Council personnel director.

Members of the council will be available for information concerning the various committees which include building decorations, dance decorations, western dance, world travelers, special entertainment and lectures, Friday night dance, hospitality, games and tournaments, music and exhibits, movies, and Tuesday night dance.

Do You Think for Yourself?

(DIAL IN THESE QUESTIONS AND SEE IF YOU'RE IN FOCUS*)

If you saw a full-rigged sailing ship in the middle of the desert, would you say (A) "Long time no sea!" (B) "Wish they'd invent talking mirages," or (C) "Anything can happen in Las Vegas!"

A B C

When a man says, "Brevity is the soul of wit," he means (A) he's about to make a long speech; (B) wise thoughts come in short sentences; (C) "Shut up!"

A B C

You're caught in a pouring rain—and you're offered a lift by a pal whose driving is dangerously erratic. Would you (A) tell him you enjoy walking in the rain? (B) say, "Sure—but let me drive"? (C) accept rather than hurt his feelings?

A B C

In choosing a filter cigarette, would you pick one that (A) says the filter doesn't count, only the tobacco; (B) is designed to do the best filtering job for the best taste; (C) gives you an enormous filter but very little taste.

A B C

When you think for yourself . . . you depend on judgment, not chance, in your choice of cigarettes. That is why men and women who think for themselves usually

smoke Viceroy. They know only Viceroy has a thinking man's filter—the most advanced filter design of them all. And only Viceroy has a smoking man's taste . . . the full rich taste of choice tobacco.

*If you have checked (C) in three out of four questions, you're pretty sharp . . . but if you picked (B), you think for yourself!

Familiar pack or crush-proof box.

The Man Who Thinks for Himself Knows— ONLY VICEROY HAS A THINKING MAN'S FILTER...A SMOKING MAN'S TASTE!

The Ghost ? Writer

A THOUGHT FOR TODAY — In how many lives does Love really play a dominant part? The average taxpayer is no more capable of a "grand passion" than of a "grand opera." —I. Z.

Having made it a personal duty to buy my books from other stores rather than the Texas Tech Bookstore, I scouted around Monday to see what the prices were on the same books at the other two book outlets on College Avenue.

The findings were not so much frightening as they were revealing. On nine books, ranging from Journalism to Spanish with a couple of English texts thrown in for good measure, the college book store charged \$1.50 more than another text head-quarter, located adjacent to a campus drugstore. The campus bookstore ran \$1 more than the third outlet.

Before continuing, I might add that I checked used book for used book and compared next texts also.

Some will say — including the Tech store — that \$1.55 isn't much difference. But multiply that difference by the 8,000 students who have — and will — enroll in Tech this semester. The total comes out to a tidy sum of \$12,400 more per semester, so the difference adds up quickly.

I am not asking for a student boycott of the campus bookstore; this would gain nothing except ill will between the bookstore and the students. However, I would like to see ALL stores follow the same policy in the pricing of textbooks.

Something that would be different and also work to the advantage of the student body as a whole would be the formation of a cooperative book store, where books would be bought and sold on a prorated basis. That is, if a student returns an \$8 book in excellent condition (and heaven knows many texts are never cracked), then the student would receive resale money accordingly, say \$6.

A flat price of half the original cost when the book is sold puts no premium on keeping the text clean and useable. The store could then resell the book the second time for \$7, making a profit of a dollar or \$8,000 overall) and still save the student a dollar. Complicated no, feasible, yes.

Granted the campus bookstore does its good deed by putting money into the Tech Union. This is commendable and is appreciated by many of the Tech students. However, I don't need an air-conditioned building with piped-in music to buy my books. All I want is a fair deal on the books I purchase.

And, in conclusion, if there is any one sentence which gratifies our nerves, it is the one, "Sorry, but that book isn't being used next semester." With this sentence all chances of monetary gains are lost. It's a sinking feeling that only a letter from my draft board can equal.

COMPARATIVE PRICES

Campus Bookstore	Course	Book & Stationery Center
\$4.90	Journalism 433	\$4.90
\$5.00	Journalism 233	\$5.00
\$4.00	Sociology 335	\$3.20
\$1.60		\$2.00
\$1.95	English 331	\$1.95
\$8.95		\$2.95
\$2.05		\$1.90
\$2.10	Spanish 334	\$2.10
\$1.70		\$1.70
\$97.25	Totals	\$25.70

For Class Schedules

More Revealing System Is Needed

Gracing The Toreador's editorial pages in the past few weeks has been a series of stories on the problem of including the names of teachers on class schedules beside the courses they will teach.

The conclusion we have reached is that there are many department heads who don't want to implement this procedure.

The reasons may be simple, if viewed in a realistic light. Such a move would start a mad stampede for the instructors most preferred by the students of Texas Tech. It would leave the incompetents in a somewhat conspicuous light.

We have talked to some of the teachers who are sometimes classified by students as difficult or "hard" but still considered "good" and they, for the most part, don't seem to mind.

The registrar's office does, however, as do many department heads.

It seems possible that trying to plan far enough ahead to come up with a non-flexible schedule might not be quite feasible in the efforts of department heads.

But it isn't important where these names and sections appear as long as some sort of adequate system of communications to the student is implemented.

Bulletin boards are plentiful at Texas Tech — they are all over the place. It seems that sometime, shortly before registration, department heads could post lists with all the information desired.

This has been done by the government department and has proved quite satisfactory. It could easily be accomplished by all the other departments.

We cannot see any reason that would hinder such a plan. It does not seem too much to ask that the students be given a break in registering each semester.

This problem will not be solved, however, if it is now. The Student Council has done some work on the subject; nevertheless if anything is to be done, it will have to come from the higher powers that be at Texas Tech.

This year has proved beneficial to Texas Tech students; it has been truly unique. The whole problem is to let students make their own decisions. Secrecy will not solve anything.

In Algiers

De Gaulle Must End Rebellion

by J. M. ROBERTS
Associated Press News Analyst
The next step for French President Charles de Gaulle in Algeria is to end the Arab rebellion.

De Gaulle won more than one battle when the Algerian French insurgents started moving out of their barricades in Algiers Sunday.

They had been the prime movers in the agitation which brought him back to leadership of France two years ago. De Gaulle proved he was no colonialist die-hard. He adopted a democratic policy of self-determination which the Europeans in Algiers feared eventually would permit the Arabs to drive them out. The Europeans rejected his policy.

But in the meantime the World War II hero had rallied the people at home and built up a considerable body of sympathy

abroad for his methods. For a time after the insurgents took to the barricades the loyalty of the army was in doubt. De Gaulle won that battle.

For a time, civil war was feared. De Gaulle, instead of forcing it, gave the insurgents time to reconsider. He won that battle.

If civil war had occurred, or if the army had created anarchy by refusing the commander in chief's orders — another impending crisis which he did not force — there would have been grave world repercussions.

His efforts to regain for France a leading position in world councils would have been crippled. This spring's summit conference might have been delayed or called off. Newly-begun efforts to establish for NATO a better coordination within and

a stronger front without would have been futile.

Instead, De Gaulle's government is showing a strength not seen in France since World War I. The political aspects of this strength will not be clear until his demands for special powers have been presented to the recalled Parliament.

If he can put down the Arab rebellion — by force or through negotiation — the final battle for Algeria can be undertaken.

That battle will be to convince the Moslems that they can be French and still be Arabs. De Gaulle has allowed four years of it, after a cease fire.

In that battle, De Gaulle will find the odds more greatly against him. But the Algerian French have fought their physical battle and lost. The Arab rebels are not winning.

LITTLE MAN ON CAMPUS

Secretary Slams Attack Claims

By FRED S. HOFFMAN
WASHINGTON (AP) — Secretary of Defense Thomas S. Gates Jr. Monday disputed as unrealistic the Strategic Air Command's estimate that the Soviet Union could demolish U.S. strike-back ability in 30 minutes with 300 missiles.

The estimate, made by Gen. Thomas S. Power SAC commander, in a recent speech, was thrown before Gates by Sen. Stuart Symington (D-Mo.) while the defense chief was being questioned

by a Senate Appropriations subcommittee about the new \$39,335,000,000 military budget.

Symington, who contends the Eisenhower administration is letting the Soviet Union pull steadily out front in missiles, wanted to know why the Pentagon was asking for only 15 per cent of what Gen. Power declared would be needed to keep some of his long-range nuclear bombers aloft and ready at all times.

Gates told Symington that Power's views were thoroughly con-

sidered by the Joint Chiefs of Staff and the chiefs do not agree with the SAC commander.

"I don't want to be disparaging of Gen. Power," the defense secretary said, but we do believe his mathematical probability is unrealistic in relation to the facts."

The Joint Chiefs do not feel it necessary now to start an airborne alert, Gates said and noted the budget contains 90 million dollars to get ready for such a found-the-clock bomber alert, if and when needed.

HITS IN PACIFIC

Russia Fires Rocket

by STANLEY JOHNSON
MOSCOW (AP) — The Soviet Union wound up its mid-Pacific rocket tests Monday with the announcement that a second missile had landed in its ocean target area. Unlike the first one, there was no hint of how close it came any bull's eye staked out in advance.

"MEASUREMENT data again confirmed the high precision of the rocket flight guidance," the official announcement proclaimed. Tass distributed the bulletin around the world, the Moscow Radio broke into its programs with trumpet flourishings and stirring marches.

THE BULLETIN, coinciding with the start of a top-level Communist-bloc meeting here for maximum political effect, showed one major difference from the announcement of the first test held on 20.

That announcement said the rocket had landed only 1.24 miles from its predetermined target after a flight of 7,760 miles. Top speed was listed as 16,250 miles an hour.

SUCH INFORMATION was

omitted Monday, and there was no indication why.

Moscow has never disclosed the launching site of its mid-Pacific rockets. It is believed to be east of the Caspian Sea, however, where similar range missiles could reach almost any point in the United States.

TASS SAID that the second rocket, fired Sunday night, landed "in the target area in the Pacific." The announcement did not say whether it had hit a pinpoint target, if there was one. The entire target range covered 44,000 square miles, about 1,000 miles southwest of Hawaii.

The final stages of both shots are believed to have been spotted by Western airplane pilots. A U.S. Navy patrol plane reported seeing what looked like a missile entering the atmosphere over the target area Sunday. Similar observations of the first shot were made by U.S. military sources. An Australian airline pilot also reported sighting the first one.

Tass reported that Sunday's firing "completed the present stage of development work." Thus the

area, originally marked off for a month starting Jan. 15, was reopened about two weeks ahead of schedule.

Two Chinese Try Rocketry

JOHORE, Malaya (AP) — Two Chinese were arrested here because they tried to launch a space rocket they had made from directions given in an American science fiction magazine. Authorities estimated the 4-foot-long wood and steel rocket would have traveled about a quarter of a mile if it had been fired. The students charged with possessing explosives, were freed with a warning after a plea that their scientific initiative should not be discouraged.

KACIR IS BELL DA

AUSTIN (AP) — Gov. Price Daniel Monday appointed Stanley Kacir of Temple district attorney of the 27th District of Bell, Lampasas and Mills counties.

Graham Is Big Success In Moslem Nigeria

LAGOS, Nigeria (AP) — Stunned by the success of Billy Graham's crusade in Lagos, leaders of Nigeria's Moslem faith are stepping up efforts to counter his campaign and touch off a religious squabble.

Graham left today for Ibadan, Nigeria's largest city, 70 miles northeast of Lagos, after drawing a crowd of 40,000 persons Sunday night, the biggest so far of his African tour. After preaching in Ibadan, Graham goes to the Moslem cities of Kaduna and Jos.

After Graham's revival meeting packed the Lagos race course Sunday night, the Moslem Ahmadiyya movement distributed posters and pamphlets challenging the American evangelist to a public debate.

The posters charged that Graham had said at one of his meetings, "You can read the Koran from cover to cover and not find a word concerning the future of mankind."

Nassem Saifi, chief Moslem missionary in West Africa, declared the issue should be discussed in the public interest. Neither Graham nor the Christian Council of

Nigeria is accepting the challenge. Similar handbills were passed around on Saturday.

Algiers Leader

PARIS (AP) — Officials at the Paris Palace of Justice tonight said a military plane is flying Pierre Lagailarde, a leader in the abortive Algiers rebellion, to France for judicial proceedings.

Officials indicated that the plane already is on its way. No information was available on where the plane would land. Informants said the pilot would be given instructions only at the last moment.

A warrant also was issued for the arrest of Joseph Ortiz, the other top leader in the revolt.

Flown to Paris

VANDENBERG AIR FORCE BASE, Calif. (AP) — Plans to launch satellite rocket Discoverer IX today were postponed for undisclosed technical reasons.

Rock' May Still Enter

CONCORD, N.H. (AP) — Vice President Richard M. Nixon's New Hampshire campaign chief said today New York Governor Nelson Rockefeller apparently is still interested in the republican presidential nomination.

"Mr. Rockefeller perhaps has removed himself as firmly as I have supposed after his announcement of withdrawal," Gov. Wesley Powell said.

The Republican chief executive of New Hampshire was asked at news conference whether he expects "a fight from Rockefeller backers" at the GOP convention. In his reply, Powell said Rockefeller's participation in a recent nationwide "Dinner with Ike" program and "his failure to mention the vice president would seem to indicate some continuing interest on his part."

Summer jobs often lead to rewarding careers at Du Pont

THIS SUMMER...

ON-THE-JOB TECHNICAL TRAINING AT DU PONT

Pictured are a few of the many Du Pont plants and laboratories across the country where selected technical students roll up their sleeves during summer vacation and put their college training to practical use.

Most of the assignments are similar to work the employees are likely to do after graduation. Next summer, for example, a chemical engineering student may go to work on a catalyst recovery project. A mechanical engineering trainee may become engrossed in a challenging hydraulic study. A promising young chemist may tackle a problem in organic chemistry.

In short, each man is given a regular plant or laboratory assignment commensurate with his education to date. And, as with permanent employees, the student's training is personalized and tailored to fit his background and interests... even to the location he prefers, as far as practical.

This program has proved of benefit both to students and to Du Pont. It gives stu-

dents an opportunity to increase technical knowledge and to learn how to put college training to use in industry. It gives Du Pont a chance to observe men who will soon be graduating in science and engineering. Many of these summer associates are stepping stones to rewarding careers with this company.

Juniors, seniors and graduate students will be given technical assignments. Opportunities are in chemical, mechanical, electrical and metallurgical engineering; also in physics and mathematics. Candidates should write at once to E. I. du Pont de Nemours & Co. (Inc.), 2420 Nemours Building, Wilmington 98, Delaware. Openings are, of course, limited.

There are opportunities also for men who have completed their freshman and sophomore years, as laboratory assistants or vacation relief operators. They should apply direct to the Du Pont plant or laboratory location of their choice.

Scholarships are Renewed

Lawrence D. Bell memorial scholarships may be renewed by sophomore engineering students this spring. Only sophomore students expecting to complete degree requirements by June or August of 1962 are eligible.

Applications should be made at the office of the Dean of Engineering by Feb. 8.

Two annual scholarships of \$500 each have been established by the Bell Helicopter Corporation of Fort Worth.

These scholarships are available to freshmen engineering students who are subject to renewal yearly. Merit, scholarship achievement and character are the bases for award of the scholarships. Students must have a 2.0 average to qualify for renewal.

Algerian Uprising Dies Hard Bomb Scare Stops Plane

by GODFREY ANDERSON
ALGIERS (AP) — The French insurrection in Algiers ended ingloriously Monday with one of the two leaders in custody and the other in flight.

THE LAST diehards marched out of the barricades after getting a harsh army dictate to form a unit with the French Foreign Legion to fight Algeria's Moslem rebels or go home and face possible trial for subversion.

Moving firmly to end the eight-day uprising, President Charles de Gaulle's government laid down the unbending alternatives. They were relayed to the insurgents by a paratroop colonel at a meeting behind the barricades Sunday night.

A GOVERNMENT spokesman said 420 of the insurgents who surrendered with their goateed military leader, Pierre Lagaille, agreed to serve with the Legion as a special unit. Gen. Jean Crepin, Algiers corps commander, said they would fight the Algerian nationalists who have been in revolt

against French rule for five years. Lagaille, 29, a deputy in the French Parliament, was in the hands of the authorities, and his fate apparently will be considered separately.

JOSEPH ORTIZ, the saloon keeper who was political boss of the insurrection, fled as his comrades filed out of the barricades to surrender. The spokesman had no news of his whereabouts.

The spokesman said all the men with Lagaille had been told they could return to their families but that if they did so they faced investigations.

THESE investigations would be made by authorities sent from Paris, not local officials who might be sympathetic. Those insurgents would be tried who were found to have participated in an "attack on the internal security of the state," the spokesman said.

The investigations also apparently apply to all the men who were in the barricades at one time or another during the uprising.

THE SETTLERS' rising that began Jan. 24 with a street battle in which 20 died collapsed without another shot fired.

The insurgents were loaded into army trucks and taken to a camp near Algiers.

DOWN CAME THE insurgents' barricades of paving stone and rubble-bristling symbols of their defiance of President de Gaulle's policy of self-determination for Algeria's nine million Moslems.

After De Gaulle's speech Friday commanding the army to restore order, the Algiers generals brought up overwhelming force Sunday. They cordoned off the insurgent camp in the center of the city from direct support of the civilian population.

WHEN THE showdown came, the screaming mobs who had cheered the insurgents with cries of "Algeria is French" were nowhere in sight.

Left in isolation, bombarded with leaflets and loudspeaker broadcasts, the defenders of the

barricades gave in. **IT WAS** estimated that in all about 1,000 Frenchmen had marched out of the barricades. The rest slipped away during the night. At one time it was estimated that the men behind the barricades numbered 5,000 men.

Territorial guards, who had thrown in their lot with the insurgents, were the first to crack. They started leaving the barricades Sunday. Some marched out in groups. Others vanished into side streets.

The organized insurgent units were taken to a camp at Zerelda, 20 miles from Algiers. All visitors to the camp were turned away, including the mother and father of Lagaille who drove out from the city as soon as their son's whereabouts became known.

With men who know tobacco best—it's women two to one.

Freshman: They must be pigs—we're too far south for moose.

AMARILLO (AP) — A TWA Constellation airliner with 42 passengers aboard landed here today after its pilot radioed that a bomb was reported aboard.

The plane was en route from Phoenix to Chicago.

It landed at about 1:15 p.m. CS and the passengers were taken an Air Force bus away from the airliner. A team of experts from the Amarillo Air Force Base started searching the plane, which was taxied into the middle of the field. Nothing was reported found in the first hour's combing.

The Amarillo AFB and civilian planes use the same airport facilities.

Names of the crew were not disclosed.

Prof Tests Teenagers

Dr. Robert Anderson, associate professor of psychology at Texas Tech, will direct the testing of West Texas high school students chosen "by machine" to take part in Project Talent.

A national survey of the talents of American youth, Project Talent will study 25 areas of knowledge and aptitude including English and math comprehension, mechanical and clerical abilities and creativity.

Results of the tests will be released to the schools to help their planning, and to report to the students participating in the study.

Class Teaches Faster Reading

Do you have trouble reading at a rate of speed greater than a snail's pace? If so, Tech's new non-credit speedreading course should interest you.

This course, dealing with reading comprehension, is held one day a week in the Ad. Building.

Registration is at 9 a.m. to 6-8 p.m. and 8-10 p.m. on Mondays, and from 6-8 p.m. and 8-10 p.m. on Thursdays.

Instructors will be Dr. James Kuntz, director of the Testing and Counseling Department, and William G. Neville, assistant university pastor of the Presbyterian Center. Cost of the course is \$25 to be paid at registration.

Only 120 students will be allowed to take the course which is offered on a "first come, first served" basis.

Movers Slide More Section

Workers are readying cables and heavy machinery to slide another section of Jones Stadium this week.

Another section, the last of the largest one, is scheduled to be moved by Feb. 25. The stands will be moved back approximately 226 ft.

Excavation of the playing area which will be a 25 ft. bowl, is underway. Seats are to be built 11 ft. from the playing field to the present stands.

Contractors expect to begin work on the new seating area within a month. The seating capacity will be increased from the present 26,701 to 53,155.

But you ain't.

IBM WILL INTERVIEW FEB. 15

IBM invites candidates for Bachelor's or Master's Degrees to discuss opportunities in Applied Science, Marketing and Product Development... positions throughout the United States.

Laboratories and manufacturing facilities are located in Endicott, Kingston, Owego, Poughkeepsie, Yorktown, N. Y.; Burlington, Vt.; San Jose, Calif.; Lexington, Ky.; and Rochester, Minn. Corporate headquarters is located in New York, with 192 branch offices in cities throughout the United States. The IBM representative will be glad to discuss with you the type of career of particular interest to you. IBM offers:

- Leadership in the development of information-handling systems.
- New applications for data processing and advances in computer technology.
- Favorable climate for continued career growth.
- Opportunities for a wide range of academic backgrounds and talents.

Contact your College Placement Officer to arrange an appointment for a personal interview with the IBM representative.

If you cannot attend the interview, call or write:

Mr. C. B. Hanson, Jr., Branch Manager
IBM Corporation, Dept. 868
1412 Texas Avenue
Lubbock, Texas
PO 3-1981

N AP POLL

Bearcats Still No. 1

A second week of midseason activity and low point production by Oscar Robertson, plus strong support for Ohio State at the polls, didn't hurt Cincinnati's standing in the national college basketball rankings.

THE BEARCATS and the Big again topped the Associated Press poll by a big margin Tuesday with more than half the voters naming Cincinnati No. 1 team.

Bradley and California held the second and third spots after a week when mid-year examinations limited the activity of most of the leading teams. Ohio State ousted West Virginia from fourth place and the Mountaineers, losers to Illinois and Mary in the week's upset, barely held on to take fifth from Georgia Tech.

AFTER THOSE six came Utah, Villanova, Utah State and Texas A&M, all in the same positions they held a week ago.

Cincinnati, a 64-43 winner over the Citadel in its only game last

week, was first on 90 of the 174 ballots cast by sports writers and broadcasters. Ohio State drew 32 first place votes, California 22 and Bradley 18.

IN THE POINT tabulations, based on 170 for each first-place vote, none for second, etc., it was Cincinnati 1,612, Bradley 1,390, California 1,304 and Ohio State 1,198.

West Virginia dropped from the Southern Conference lead for the first time in years after a 94-86 whipping by William and Mary Saturday. The Mountaineers had won 56 straight conference games before that shocker.

MEANWHILE, OHIO State handed Michigan State a 111-79 Ten victory.

Georgia Tech, 7-0 in the Southeastern Conference, thumped runner-up Kentucky and last-place Alabama last week but couldn't quite muster enough voting support to pass West Virginia, although the difference was only 24

points. California and Villanova were the other two-game winners among the top 10.

Miami of Florida, bouncing back from last week's loss to whip Oklahoma City, remained the leading contender for a top ten ranking but failed to overtake idle Texas A&M.

LCC Five To Play Tech Frosh Tonight

Lubbock Christian College's first basketball game with Texas Tech's freshmen will be played in the Coliseum at 6 tonight.

The game will precede the Red Raiders' Southwest Conference contest with University of Arkansas.

LCC Coach Lester Perrin is expected to start James Teague of Floydada, Larry Rogers of Daljou, Jay Sherrard of Andrews, Norman Preston of Shallowater, and Rusty Childs of Bluegrove.

Tech Track Season Will Begin March 5

The Texas Tech track season will begin March 5 with Red Raider's entry in the Border Olympics at Laredo, Texas. Don Sparks, Raider coach stated Monday.

TECH HOPES this year are resting on the shoulders of 8 returning lettermen plus 5 sophomores. Among the men returning are James Pettit and James Leonard, Southwest Conference champs in low hurdles and pole vault re-

spectively. These men will be backed by Bob Swafford, high hurdles, and Richard Swafford, quarter miler.

The Raiders will also feature Delbert Shirey, Howard County Junior College transfer, who last year competed in the pole vault and jumping events of that school.

COACH SPARKS expressed hope that 1960 would be Tech's finest season in history.

QUOTE OF THE WEEK

DEWITT WEAVER

"We feel fortunate to obtain a fine coach like Jess Thompson. I have known him for many years and know he can do an outstanding job for Texas Tech. His fine record speaks for itself."

A Campus-to-Career Case History

Dick Petzold discusses time charges for a customer's telephone installation with an administrative assistant.

How to avoid a "dead end" career: read Dick Petzold's story

While a senior at the University of Maryland, accounting major Richard G. Petzold made some definite decisions about his future. "I wanted to work for an established company," he says, "but I didn't want to get lost in a 'dead end' job."

Dick joined the Chesapeake and Potomac Telephone Company in Washington, D. C., right after graduating in June, 1956. Following three months of orientation, he became a supervisor in Revenue Accounting, where he continued training in a productive capacity, with 15 people reporting to him. Here, he suggested a number of methods improvements which were adopted.

Far from a "dead end" career, Dick's took him into many operating areas:

- to General Accounting, where he handled market research projects, includ-

ing a Customer Opinion Survey for four Bell System companies...

- to Disbursements Accounting, for IBM-equipment training and, later on, the supervision of Payroll Deduction procedures...

- to Personnel Relations, where he coordinated a special, four-company "absence" study and presented findings to an important, top-level conference...

- to Disbursements Accounting again, where he is now Supervisor, Labor and Material, with an administrative assistant and 10 clerks under his guidance.

"The telephone company brings out the best in you," says Dick. "I've developed new skills, acquired self-reliance, and learned how to supervise and work with people. What's the opposite of a 'dead end' career? Well, I've got it!"

Dick Petzold earned a B.S. degree in Accounting while in college. He's one of many young men with varied college backgrounds who are finding rewarding careers with the Bell Telephone Companies. Learn about opportunities for you. See the Bell interviewer when he visits your campus—and read the Bell Telephone booklet in your Placement Office.

UNIVERSITY OF
HAWAII
1960 SUMMER SESSION

SUMMER TOURS
by J.D. HOWARD

58 DAYS **\$529** Plus \$9.00 Tax
TOUR PRICE—ONLY

THE ORIGINAL COLLEGE TOUR TO HAWAII

Price includes steamship travel to Hawaii, return to West Coast via scheduled airlines, living accommodations, and all major sightseeing drives on Oahu—Circle Island, Mt. Tantalus, Koko Head, Pearl Harbor, and City Tour. It also includes an extensive beach program—a catamaran cruise, outrigger canoe rides, glass bottom boat excursions, and a visit to the aquarium. Social events highlight the tour. These include introduction parties where new friends are met, welcome dinner and floor show at Hawaiian Village Tapa Room, fashion show dinner at Reef Hotel, a special "Night in Japan" party, formal dinner dance and floor show at Royal Hawaiian Hotel, and farewell "Iaui" native feast at Queen's Surf—to all which events military officers and college men are invited. Beach dressing rooms and lockers are provided, major movies weekly, tips, transfers, and many other extras are also covered by tour price. Roundtrip steamship travel is available at adjusted tour rates.

HOWARD TOURS TWELFTH ANNUAL

1. WILCOX HALL, CAMPUS RESIDENCE: This is Hawaii's original college tour. It is an educational-social program requiring University of Hawaii summer session enrollment. For college girls only. Tour price as indicated above.

2. APARTMENT RESIDENCE AT WAIKIKI: Residence is in beach hotel apartments at Waikiki. Includes complete hotel service, plus kitchen facilities, daily maid service, etc. University enrollment is optional. Separate tour units for college girls, young school teachers, and other adults. Tour price only \$569 plus \$10 tax.

 ... "we'll carry your books again if Tech beats Arkansas tonight!"

Cagers To Go Against Rugged Hogs Tonight

by JOHN PETTY
 Toreador Sports Writer
 It'll be Hog killing time in Municipal Coliseum tonight at 8 when

the Red Raiders try to render the high flying University of Arkansas Razorbacks down to size.
COACH FOLK ROBISON and

his cage crew will have to contend with big Clyde Rhoden, the Porker hot shot artist, who has scored 98 points in conference play to lead the league. Also in the Arkansas lineup will be Pat Foster who has been on the sick list up until tonight's game.

The Raiders will counter with 6-4 Gene Arrington who has racked up 77 points in conference play—good enough for a second place tie. Nipping at Arrington's heels in the scoring columns is sophomore Del Ray Mounts with 71 points.

"IT WILL be a real tough game," Coach Robison said. "They (Arkansas) are big and rough. On the boards, they are really rugged. Rhoden and Foster are two of the best shooters in the conference. It'll be a much tougher game than TCU."

This will be the first meeting between the Porkers and the Raiders this season. Over the past two seasons, Tech has won two from Arkansas—both in Lubbock—while losing the same number to them in Little Rock. In tournament play, the two clubs have a 1-1 record to give them a clean split of games played.

IN THE CONFERENCE standings, the Razorbacks are tied for second place with Southern Methodist with a 3-1 record. The Red Raiders are in fifth place with a 2-2 standing.

The only common opponent the two teams have met this season is Baylor. The Hogs squeezed past them 90-83 in a double overtime while the Raiders lost to the Bears 71-60.

ROBISON is expected to go after his third conference win with a starting lineup of Arrington, Mounts, Roger Hennig, James Willey and Steve Lee or Mac Percival.

by
RALPH'S
RAMBLINGS
 by
 Ralph W.
 Carpenter

The Razorbacks from Arkansas come to town tonight, and the Raiders have another chance to improve their record. The Hogs are always rough and tough when the chips are on the table. It should prove to be another great night for basketball fans.

—RWC—
 The game of basketball in the Southwest Conference is no longer the slow, easy-pace, non-contact game we used to know. Now, though one doesn't have to be a football star to be able to play and stand up under rough treatment, he does have to be able to take an awful lot of hard knocks.

A player in the SWC must expect to be shoved, pinched, hit, slapped, elbowed, tripped, kicked and just plain clobbered. He must also be able to take "friendly advice" throughout the season. Heck, that's just the way it is and it probably won't be changed.

The easy way, as in every day life, is to simply give your temper free-rein and duck. Hurting yourself and your team at the same time. The most difficult, and possibly sometimes an impossible thing to do, is to suck in the ole gut, your pride and your right hook and hold your temper. The ability to hold temper is the mark of a great basketball player.
 Now, this doesn't mean you have

to play "patty-cake" with the opposing players. Far from it. As Dutch Meyer once said: "You can be a good loser but you should always bleed a little."

—RWC—
 Arthur Mayhew, the sometimes controversial column writer for this sheet, has been raising "ole billy" with me all during the basketball season. Mayhew is a Midland product and is high as a kite on Midland's high school basketball team. He points to their 25-0 record and gloats like a man who has found a bar in a dry town.

Mayhew says that we haven't plugged this fine cage crew in our column and he wants something done about it. Well, to keep peace on the Toreador staff and the Spastic in the right frame of mind we will say this:

Midland has a great basketball team, and we sincerely hope that the entire team decides to cast their lot with Tech. OK, Arthur?

—RWC—
 With one assistant coach already named by Coach Weaver the Tech coaching situation appears to be well on the road to being settled. One other assistant will be named shortly. You can bet that he will be an advocate of the pro-type offense the Raiders are running now.
