

Students Meet To Discuss Plans On Beautification

Three Preliminary Plans To Be Carried Out Before Action

Members of student committee on campus beautification met Tuesday to discuss its plans for improvement of our campus. Chairman Jim Humphreys presided.

Three preliminary plans must be carried out before any tangible action can be taken: (1) a definite plan must be drawn up for expansion of Tech in order that there will be no doubt in the minds of students or faculty members where buildings are to be built or where landscaping must be done; (2) the plan must be put into effect and carried out so that fifty or sixty years from today it will still be practicable and available; (3) students must be acquainted with both the plan and the need of the plan.

Before any of the above can be done students and faculty members must meet and decide how and by whom a landscape architect is to be selected to draw up the plans for Tech's campus. A joint meeting will take place next semester of the committees involved, according to Humphreys.

There is no definite plan being followed at present. The original lay-out has been overlooked in many instances. Also at present supplies necessary for improving the campus are unavailable or too expensive for our funds.

No money is appropriated in the state of Texas for campus beautification; therefore school fund is open at all times for contributions.

Students may contribute to the fund each semester by allowing 50¢ of their breakage deposit to be used for Campus Beautification. In September, 1945, students contributed \$1,011.69. Students are encouraged to offer suggestions or attend the regular meetings with the committee which take place on the first Tuesday of each month at 1 o'clock p.m. in the board room of the Agriculture building, says Humphreys. Action will be taken in the spring to promote what beautification can be done at present and to contact an architect to draw up plans for the campus. Alpha Phi Omega is having "Keep Off the Grass" signs printed at the present time.

Bob Clark, president of the service organization and member of the beautification committee.

Double T Men Will Receive Awards Tonight

Certificates of award will be presented to the boys who lettered in football this year at the annual Double T Association dance tomorrow in the Tech gym. Decorations will center around the lighted Double T sign and Buddy Arnett's orchestra will play for the formal dance.

Members and their dates will be: Jay Kerr, Lometa Hodge; Jim Humphreys, Norma Lee Thornton; Tom Douglas, Hollis Holt; Mr. and Mrs. Ed Robnett; Floyd Lawhorn, Pat Smith; Gene Hardey, Joe Ann Bailey; Chester Jackson, La Juana Leibfried; Clyde Black, Dorothy Brown; Otis Turner, Nancy Rea; Mr. and Mrs. Jack Dillion; T. M. Cox, Betty Harrell; Arthur Shahan, Lou Burns.

Other members are: Joe Snodgrass, Cecil Norris, Bernie Wrinkler, and Walter Schlinkman.

Guests and chaperons will be Mr. and Mrs. Dell Morgan; Mr. and Mrs. Morley Jennings; Mr. and Mrs. Polk Robison; Mr. and Mrs. George Langford.

A Story Of Mice And Women In Girls Dorm

By BILLIE BURRELL Staff Writer

This is not a story of Mice and Men, but of Mice and Women. Shortly after the end of the Christmas holidays a family of mice was discovered on the first floor of Women's Dormitory I.

One of them managed to get into the automobile owned by one of the girls and as she was going down the street at a questionable rate of speed, the little creature made his presence known. When the owner noticed the mouse, she stopped the car, after injury to her nervous system, and refused to drive until the mouse was removed.

The second little mouse was discovered in Room 132. Six girls began to hunt for him; each girl declaring that the sight of a mouse made her weak. A trap was set that night; but the mouse left the cheese alone and climbed up in the girls coat and nibbled on the Hershey bar in the pocket. The next

ROSARIO AND ANTONIO

Rosario and Antonio On Artists Course

Rosario and Antonio, Spanish dancers from the Metropolitan Musical Bureau, will be presented at Lubbock High school auditorium Monday evening, Feb. 4, at 8 o'clock, under the direction of the Tech Artist course, according to R. A. Mills, director.

"The Kids from Seville," as Rosario and Antonio are sometimes called, began dancing at the ages of seven and six. Their dancing talents were first displayed in the market places. The youngsters took to tagging after an organ grinder as he cranked out the melodies of their native Andalusia, inventing spur-of-the-moment dances to his music. When Antonio and Rosario's parents realized that their natural flair for the native flamenco was truly a talent, the children were placed under the tutelage of Realito, head of Seville's dancing academy.

After six years of training in the Academy, and many appearances at private recitals, the pair were chosen to represent the folk dancing of Spain at an International Exposition in Liege, Belgium.

Leaving Seville under the strict chaperonage of Donna Julia (Rosario's mother) they danced through all of Spain. From Spain Rosario and Antonio went to London and Paris, and later they made a tour to South America which lasted three years.

At the Copacabana in Rio de Janeiro, they renewed their contract's original tenure. It was there that Toscanini saw them, and is reported to have exclaimed: "These youngsters are the soul of Spain." After meeting Toscanini Rosario and Antonio came to the United States. They danced in the Sert Room of New York's famous Waldorf-Astoria hotel, and in Carnegie hall. Last spring they were stars of "Concert Varieties" at the New York's Ziegfeld theatre, and then returned to the concert stage.

Rosario and Antonio, at 22 and 21 renowned as "the world's greatest flamenco dancers," have a company which maintains their standards of superb artistry. Silvio Masciarelli, musical director for the group and the husband of Rosario, is a young pianist-composer-conductor. Masciarelli created the musical arrangements to which Rosario and Antonio dance. He will be at the piano for their numbers and also for solos. With the company is another musician, Geromino Villario, who plays the guitar in true Spanish style.

Besides this dance group next semester, the Tech Artist course will present William Kapell, celebrated pianist, on April 4.

General admission and reserve seat tickets are now on sale at South Plains Music Co., 1214 Broadway. Student tickets will be \$1.50 and adult tickets will be \$1.80.

Astronomy Will Be Offered This Spring

Astronomy III under the instruction of Prof. R. S. Underwood will be offered during the spring semester. Astronomy is a non-math course recommended for all students from freshman classification to senior standing. The class will meet at 9:00 a.m. each Saturday.

B BAND SCHEDULED

Prof. D. O. Wiley, Tech band director, has announced that a regular B band will meet next semester at 5:00. The class has been scheduled all during the war, but there have not been sufficient students to fill the class.

night the trap was baited with a piece of Hershey and all other pieces thrown away. That mouse was caught in the trap, and was buried in the trash chute.

The third little mouse was last seen in Room 133; but when he returns some rat poison will greet him instead of Hershey candy.

Application Is Filed For Tech Use Of LAAF

Over 1,000 Veterans Have Applied For Entrance To College

Application to use empty barracks at Lubbock Army Air field to house veterans wishing to attend Texas Tech has been filed with the Federal Housing authority, according to Dr. Wm. M. Whyburn.

Already over 1,000 veterans have applied for enrollment in Tech for the second semester. "The number accepted next semester will depend on the number of living quarters we can find for them," President Whyburn declared.

Tech and city officials are working together in attempting to locate additional housing for students in Lubbock homes.

A campaign is being conducted by the Veterans Civic Service committee, composed of two representatives from American Legion, Veterans of Foreign Wars, Lubbock Federated Women's clubs, Red Cross and the Chamber of Commerce, on behalf of Tech, to obtain housing for students in Lubbock residences.

An appeal from the committee to Lubbock citizens will be made for more homes to be opened for prospective students as a temporary arrangement for the spring semester. It is hoped that housing shortages will be worked out more satisfactorily by next fall.

"Howdy Dance" Is Set For Vets

A "Howdy" Dance, sponsored by The War Veterans Association of Texas Tech, will be held on Friday night, Feb. 1, 1946. The dance will start at eight o'clock and end at twelve midnight, with Buddy Arnett's orchestra furnishing the music.

Everyone is invited!!! Those attending will be charged the small fee of sixty cents. Date or stag.

This dance, sponsored by the TWV Ass'n, will be the first dance of the new semester. The main purpose of this dance will be to welcome back all students, especially the veterans of this war.

30 Yearlings Are Sold Monday

Thirty yearling steers were sold Monday, Jan. 7, by the department of Animal Husbandry and Swift and Company of Fort Worth, through their local representative, Henry Lawson. The steers represented ten head each from lots one, two and three that had been fed experimentally since Dec. 14, 1944.

The initial weight of these steers averaged 490 pounds. Final market weight was 996 pounds. The steers were slaughtered Tuesday, Jan. 8, and W. L. Stangel, dean of the Division of Agriculture personally obtained the slaughter data.

All steers were graded on foot by the packer buyer. Lot one, which had been fed potato silage, had four choice and six good steers. Lot two, fed on sorghum silage had three choice and seven good steers. The animals from lot three, which were fed cottonseed hull, were graded as one choice and nine good.

When all slaughter data is in, dressing finishing by lots as well as carcass grades will be obtained, and a complete result of the tests will be published at an early date.

Tech Band Ends Semester Jan. 9

The Texas Tech band ended its activities for the 1945 fall semester Wednesday, Jan. 9 at a meeting at the Lubbock High school auditorium sponsored by the American Legion.

John Stelle, National Commander of the American Legion, spoke, and the band offered a 25-minute musical program.

The Tech band played for the ex-students' rally Monday, Jan. 7, to raise funds for the new Tech stadium. A B-band, composed of freshmen band members and band majors, played for the Red Raiders-Buffalo basketball game Tuesday, Jan. 8 and is to play for the basketball game tomorrow night.

Put Away The Razors . . . they have found it most uncomfortable when they get to kiss the winner. Then they know what it was like in Grandma's day!

Dead Week Is Here

The women on the campus have found it extremely difficult to adhere to the rules and regulations set up for them to follow during Dead Week. The men may exhibit their beards with certain pride, but a campus lassie has little pride in colorless eyebrows and lashes and straight hair. The Tech co-ed has learned that she must make herself attractive to the opposite sex, and a man finds little attraction in that dead "morning after" look. Too, 'tis most embarrassing when the best boyfriend walks past with no sign of recognition. It could be that he doesn't want people to know what he is intimately acquainted with that haggard creature or that he honestly doesn't recognize his flame without her war paint. With the coming of short skirts, the female of the species has taken to various methods of hair removal from certain limbs of the body. IT's most uncomfortable, they say, especially when Dead Week rolls around. Dateless Dead Week is encouraged, and those who date are frowned upon. This rule, too, has not been strictly applied by the alert Tech co-ed. A date in these days of shortages is not to be refused regardless of the week—Dead or otherwise. Dating might be extremely uncomfortable to the girl if the fellow is virile, and she is not adverse to a kiss or so goodnight. If you are willing to suffer the consequences, go ahead and date your Bluebeard!

Dr. Kent Dies Monday

Deadline Is Set To Raise Bonds

Deadline set for the Alumni Association to raise one-third of the \$50,000 needed to build the new Tech stadium is set for Feb. 15.

An ex-student rally was held at the Gym Monday night with Elmer Tarbox, former Red Raider star, as chairman. A big feature of the evening was given by A. B. Davis, manager of the Chamber of Commerce when he outlined how to proceed in the drive and contributed some ideas for raising the fund. He also stated that the Chamber of Commerce has raised \$46,500 among the first 20 persons contacted.

The program included talks by Morley Jennings, athletic director, Mrs. Holt Waldrep, wife of a former Tech athlete who was killed in service, Burl Huffman, returning coach, Davis, and others.

Polk Robison introduced the 1945 Red Raiders and the Tech band played for the rally. The college basketball team engaged in a 30-minute scrimmage.

The main feature of the rally was to secure more funds through small contributions by the ex-students of Tech.

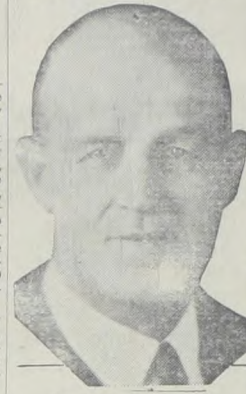

700 Veterans Seek Entrance

The Tech Office of Veterans' Affairs reports that already seven hundred veterans have been through that office alone. Of that seven hundred, thirty per cent live here in Lubbock, leaving the balance to find housing facilities.

Mr. H. L. Kipp, Coordinator for Veterans' Affairs, said that four or five hundred more returning veterans will probably go through his office before next semester. Which will make over one thousand veterans seeking to enroll in Tech. He also added that if there were definite places for them to live, a possible 2000 would try to enroll.

Plas has been made to the people of Lubbock to house as many veterans as possible. Houses, rooms, tents, wigwags, or foxholes would be greatly appreciated! Even bed-rolls are now in order.

Educator Passes---

DR. HARRY L. KENT

Faculty Members To Attend Meet

Several representatives from Texas Tech will attend the annual meeting of the Texas Agriculture Workers association to be held today and tomorrow, January 11 and 12, in Dallas at the Baker Hotel.

Those attending the meeting include Dean W. L. Stangel, from the division of Agriculture, L. G. Harmon, representing the department of Dairy Manufactures, Dr. Mina Lamb, from the department of Foods and Nutrition, and Miss Francis Urban, assistant professor of Home Management.

Dean Stangel, president of the Association, will preside at the meeting. Dr. Lamb and Miss Urban will appear on the home section program.

Also attending from Lubbock will be Jason O. Gordon, Lubbock County Agent, and O. L. Byrd, manager of Purina Mills. Mr. Byrd is chairman of the animal industry section and Mr. Gordon will appear on the program of that section.

Appeals Made For Old Clothes

An appeal is now being made to everyone in the city of Lubbock to continue to the Victory Clothing Collection for overseas relief.

Mrs. Morley Jennings, local chairman for Lubbock, has set the goal for this city as 50,000 garments.

"Tech's goal in this drive is an average of one garment from each student and faculty member on the Campus," says Troy Caldwell, Caldwell and Mary Jean Webb are in charge of the collection here in Tech.

Summer clothes are being accepted but woolens, bedding and shoes are especially needed, now. All students are urged to lay aside any such garments that they do not need.

Boxes for donations can be found in each of the dormitories and in the Administration Building.

Carpenter Will Be Honored

Judge Louis Carpenter, Dallas attorney will be honored at a semi-formal dinner Wednesday, Jan. 15, at 7:00 p.m. at the Tech Social Center given by the Texas Technological Art Institute.

Judge Carpenter was president of the steering committee in the House of Representatives which had to do with the legislative act creating Texas Tech. He is presenting a portrait rendered by Victor Laflair of Dallas to the college.

Arriving with Carpenter on the noon plane from Dallas Tuesday will be his daughter-in-law, Mrs. Thomas Carpenter. Prof. E. A. Kleinschmidt, president of the Art Institute, says he has written all original board members, and those who aided in passing the legislation creating the college. Among those invited are Gov. and Mrs. Hobby. Governor Hobby was originally on the committee to promote the establishment of Tech.

The portrait of Judge Carpenter will be presented at the dinner Wednesday night and will hang on display in the Social Center for several weeks.

India Students Take Extension

India has been added to the list of countries which have students interested in taking correspondence courses from Tech. The Extension department has recently received a letter from the King George's Modern College, Delhi, asking for information about courses and fees arranged for students abroad. The Delhi students are interested in radio, chemical and electro-chemical engineering and medical-chemical degrees.

Assistant To President Has Brain Embolism

Dr. Harry L. Kent, 66, administrative assistant to the president of Texas Technological college, died suddenly at his home, 2435 Twenty-second, Monday afternoon, of a brain embolism. The funeral will be this afternoon (Jan. 10) at 4:00 at the First Presbyterian church.

Dr. Kent, a member of the First Presbyterian church, was a pioneer in college education in Southwestern New Mexico and had been administrative assistant at Tech since 1937.

Dr. Kent's long career in college work took him from a position as professor of education at Kansas State college, agriculture Manhattan, Kas., to presidency of New Mexico Agricultural and Mechanical college at Las Cruces, N. M., to the post he held under three presidents of Texas Tech.

In recognition of his outstanding work in New Mexico agriculture, Dr. Kent was honored in 1938 when New Mexico university conferred on him the degree of Doctor of Laws.

Born in Belleville, Kas., Dec. 27, 1879, Dr. Kent was educated at Emporia Normal and Kansas State college, receiving bachelor and master's degrees in science at the latter, and taught there from 1913 to 1919. From there he assumed duties as superintendent of the Fort Hays, Kas., Experiment station, and in 1921 he became president of the New Mexico college.

During his 16 years at New Mexico A. and M., the college expanded rapidly and its influence in agricultural and ranching activities was felt throughout the state. Dr. Kent was a leader in the New Mexico Wool Growers and New Mexico Cattle Growers associations, as well as in civic clubs. He considered the college he served as president as his life's work when he left Las Cruces in 1937 because of ill health.

Coming to Texas Tech, to take the post of administrative assistant under Dr. William Kinnear, who served under Dr. Clifford B. Jones and Dr. W. M. Whyburn, present president of the college. His duties were varied. He took care of selective service problems arising at the college, counseled veterans, worked with faculty committees, surplus property, handled many student problems, and saw that many programs initiated by higher authorities were carried to the desired ends.

Dr. Kent was an active Mason, a member of many civic clubs and organizations. He was first president of the Rotary club at Las Cruces and was well-known for his active work as a Rotarian. He was a member of the Board of Directors of the Rotary club in Lubbock, and was a former president of the Knife and Fork club here.

Dr. Kent is survived by his wife, Mrs. Ursula Bailey Dickinson Kent, four sons, Harry L. Kent, jr., professor in mechanical engineering, Texas A. & M. University, Austin; Dr. G. C. Kent, professor of plant pathology at Cornell University, Ithaca, N. Y.; Lt. Col. Richard F. Kent, in New York City, preparing to return to Germany; and Ensign Robert W. Kent, New Orleans, La.; a daughter, Mrs. LoRee Taggart of Lubbock; and a sister, Mrs. Axel Norland of Belleville, Kas., and a brother, Frank Kent of Rock Hill, Mo.

Capt. Lehr Added To Textile Engineering Staff

Capt. Theron Lehr, 1906 Main, Lubbock, Texas, now on terminal leave from the army, has been added to the staff of the textile engineering department as an instructor in dyeing and finishing work. He filled the vacancy left by Lloyd H. Jackson, and assumed his duties Jan. 1.

Lehr received his degree in textile engineering from Tech in 1942 and went directly into the army. He served 39 months overseas with the army engineers.

WILEY TO ATTEND CLINIC

Prof. D. O. Wiley, Tech band director, has received an invitation from Frank Wentz, Big Spring High school band director and Tech graduate, to attend a band clinic at Big Spring, Feb. 15 or 22. Bands from the Big Spring area will attend the clinic.

COLLEGE CALENDAR

Friday, Jan. 11, 1946
Double T Formal Dance, gym, 9-12 p.m.

Saturday, Jan. 12, 1946
AAUW—1 p.m. Centaur Formal Dance, Lubbock Hotel, 9-12 p.m.

Sunday, Jan. 13, 1946
A.P.O. Ad. 220, 3 p.m.
Fireside Forum, Aggie Aud., 2 p.m.

Monday, Jan. 14, 1946
Dead Week begins.

Toe Treading . . .

Doubtless The Toreador tread somewhat heavily on the toes of a certain "Buzz" down Austin way in an editorial on the Southwest Conference a few weeks past. The editorial of the Daily Texan stresses the fact that it is all a myth about the fabulous wealth of that institution. When we read in the papers about a 67 million dollar building fund in the hands of the University we would like to know about the definition of the word "myth." In almost the same breath Daily Texan editorial writer goes on to state that "Instead of being proud that there is within the state one institution endowed sufficiently to be of high standing in the nation, many Texans—of regional or personal interests—have become jealous and have sought to divide the University's wealth to make every state school equally poor."

While on the subject of the University's standing among colleges of the nation, we are under the impression that the American Association of Universities and Colleges no longer recognizes that great University. Of course this is probably inconsequential and has no reference to the subject except that the University is not so highly rated in the nation as students and friends of that college would have a person believe.

The Daily Texan editorialist states "Because many citizens of the State think that if the University and A. and M. or the University and Tech compete on the gridiron then the schools must also compete in the field of education. It simply is not so." Perhaps the writer of the editorial is a little confused. It is a well-known fact that the size of the student body and the quality of the athletic teams advance hand in hand. Arguments are good for both sides on whether the college builds the team or vice versa. The point is: Tech has advanced in the education and athletic field along with other schools in the southwest conference and hence deserves recognition.

Since the editorial offices of the Texan are located very close to the capitol, writers for that paper are and should be better informed on goings on there. However, much could be written concerning lobbyists at work there interested in the University or A. and M. Many heated debates have been given with reference to restricting the state, which in a way has to do with the fact that West Texans are paying many taxes for things they do not receive because they haven't enough representatives in Austin.

The Daily Texan is to be commended upon its very idealistic view-point when he says "This is the time for the state's schools to work together, and confine their rivalry to athletic competitions. Football is a great game, but it shouldn't be played in classrooms and administrative offices."

Wouldn't it be wonderful if all the schools in the state had this same attitude, and we would like to include the University as one school that doesn't. Texas University, oil-rich, ivy-towered, is interested mainly in Texas University—ideologically, she would like to be a benefactor and big brother to Tech—that is, idealistically.

Dead Week . . .

The college calendar designates January 14-20 as a week of restricted social activities for several good reasons.

First, dead week is a boon to those who have floated through the semester unconscious of scholastic endeavor. Such students may start cramming January 14 and achieve more knowledge of the course and a "less beat" up appearance than if they wait until the night before the exam to begin work.

Then, the week of restricted social activities gives serious students a chance to review. They can dip their minds into the corners of a course and find small details which were forgotten during the Christmas holidays.

Thirdly, dead week is designed to slow down the student's busy existence early enough in the evening for him to get his quota of sleep. The latter is based on the theory that finals are tough enough when the student is at his best physically.

So, mark January 14 on your calendar. That week is set aside for you to do the things you haven't had time for all semester. Bridge fiends of the wee-hour type may sleep. Studious souls may go to the movies, and social butterflies may cram. That is what dead week is for. Why not use it?

We are in favor of seven days of restricted social activities. They have helped Techsans' grades in the past. They may help yours—D.H.W.

Suggestion Presented . . .

In an effort to keep people, with an emphasis on students, from having to pry the foot of a best friend out of the door to their room, here is a suggestion. An old problem presents itself again as Dead Week makes its ghastly appearance: How do you remain a good old Joe and still get any studying done in the dormitory?

First of all it may be that studying in the library will overcome a great deal of the confusion but the library is fast becoming a social center at Tech due to lack of discipline and students who are unthoughtful of the minority who wish to study. Then, during this strategic time many must study past the hours that the library remains open. One may get comfortably arranged for long hours of study in his room only to have his friends choose this exact hour for a small period of visitation. How are those students who are not fortunate enough to have a sledgehammer used to get these persons out of the room?

Why doesn't some service organization with the backing of the Student Council do something about this? One way which has been tried and found successful at other schools is this: Cards are printed which state that occupants in the room upon which the card is tacked are studying. Anyone disturbing persons in the room while this card is up are subject to call by house senate.

Sure it is more governmental control but it is to the protection of everyone. It keeps the mass in line rather than leaving it to individuals to sweep their best friends out of the room so studying may proceed without interruption. Besides it stops the person before he has ever entered the room.

Time is valuable and studying is important. Why isn't this problem solved before the next semester has reached Dead Week?—J.W.

Life With Exes

Lt. Jean Burwell Jeffers of Plainview, 1934 engineering graduate of Tech, has been placed on the Navy's inactive list after 29 months overseas with a construction battalion. He was an employe of the Texas highway department when he entered service in 1942.

Announcement has been made of the marriage of Geraldine Kennedy of McKinney to Loren Ray Odle, ARM 1-c of the Navy, former Techsian.

News has been received on the campus of the marriage of Katie Stith of Tullia and John L. Sims of Plainview, who holds bachelor and master's degrees in history from Tech. The bridegroom served three and a half years in the Army in Iceland and Europe.

Pvt. Robert L. Harbour, former Tech student, has been released by the Marines after two years in the South Pacific. Carleen Clark of Robert Lee and Lt. Bill F. Craddock of Colorado City were married recently. The bridegroom recently was discharged from the Army. He is a 1941 graduate of Tech.

Staff Sgt. Lyman York McGehee, 1941 science graduate of Tech, was believed killed when a Superfortress crashed in Tokyo Bay May 26, friends in his unit have written. He was radar operator on the B-29.

Announcement has been made of the marriage of Juanita Boman of Vernon to Maj. J. M. Crowell, Tech graduate of Crowley. The bridegroom is field representative of the Memphis Production Credit association and was recently discharged by the Army.

Mary Lou McIver, former Techsian, was married recently in Brownwood to Melvin R. Storm, also of Brownwood. Mrs. Storm is a former Tech student. Her husband is a war veteran of 34 months with the Marines in the Pacific.

Romayne Dodson of Chillicothe, and Fred M. Byrd of Ardmore, Okla., former Techsians, were married in December. Chillicothe's Mrs. Byrd was a member of DFD and has a bachelor of arts degree. Her husband, former Red Raider, recently returned from overseas.

Announcement has been made of the marriage of Frances Marie Lewis of Herleigh to Keith Dale Hess of Pylon. Hess is a former Tech student.

Josephine Houston, former Techsian, and Curtin Hancock were married recently in Stanton. The bridegroom recently returned from three years overseas.

News of the marriage of DeOnne Middleton, graduate of Tech in January, 1944, to David L. McCain of Slaton has reached the campus. The bride on the campus was a member of Sigma Tau Delta, honorary English Fraternity.

Announcement has been made of the marriage of Iris Walton and Gerald Wherry, both of Dumas. Mr. Wherry holds a chemical engineering degree from Tech and is chief chemist of the Shamrock Oil and Gas corporation at Dumas. Maj. Philip Johnson, 1942 graduate in geology at Tech, recently paid a visit to the campus after returning from combat duty in Europe.

News has reached the campus of the marriage of Christine Thomas of Lorraine, former Techsian, to Herbert Mearse, veteran of two years service with the Army in Europe. John R. Sanderson, holder of bachelor and master's degrees in government from Tech, is manager of the Social Security board in Amartillo, following 17 months of sea duty as a junior lieutenant in the Navy.

In the little Church of the Flowers near Glendale, Calif., Katy Lynn Humphries, Tech graduate and former Crosbyton high school teacher, was married recently to Robert L. Blum of Alhambra, Calif., engineering designer.

Col. Charles Bates Thornton, former Techsian who rose from second lieutenant to colonel in the air corps in a single year, has been

Atomic Bombs Is Discussed By Pre-Law Club

Various phases of the Atomic Bomb question were discussed Monday evening at a meeting of the Pre-Law-I.R.C. club by four members of the faculty in a program designed to emphasize the international Relations interests of the club.

Vice-president Patti Hall presided during the round table discussion. Speakers were Dr. C. C. Schmidt, professor, and head of Tech's physics department, who discussed the scientific phase of the bomb and its development; Dr. T. Earle Hamilton, assistant foreign language professor, who spoke of its effects upon the people of the world as a whole; Dr. Jules deLaunay, physics professor, presented possibilities in the future of the use of atomic energy; and Dr. D. D. Jackson, professor of education, emphasized the role education will have to play in the future of the atom.

Dr. Schmidt gave a preliminary account of the theory of the bomb, the parts of the atom, how they cause such an explosion, chain reaction, how atomic energy might be stored, and the impossibility of keeping our bomb a secret.

Dr. Hamilton advocated a form of world government in spite of its loss of sovereignty among individual nations and potency of the central controlling force, but he explained how this would be more desirable than destruction of one or more nations who was first to foster a war waged entirely by atomic bombs.

Dr. deLaunay discussed opinions set forth by two eminent scientists, Dr. Oppenheimer who was one of the major workers on the experiment performed in New Mexico and Dr. Oppenheimer, one of the leading British authorities on atomic energy, in an attempt to prove that the scientists point to the impossibility of keeping the bomb a secret and the necessity of "pooling scientific knowledge."

Dr. Jackson said, "We can wipe out poverty or the human race," after the speeches, members of the club asked questions. A brief business meeting followed at which time it was decided to break pre-war tradition, which was disbanded during the war, by allowing new members to join at mid-term.

ELECTED FELLOW
Dr. M. A. Stainbrook, professor of geology at Texas Technological College, was recently elected a fellow in the Paleontological Society of America.

discharged from service and is assistant to Henry Ford II, president of the Ford Motor company. He is holder of the Legion of merit.

S. D. Strasser, Tech graduate with a mathematics major, is teaching math in the Post high school. Master Sgt. Jesse N. McAllister of Stamford, former student of Tech, is taking a liberal arts course at Oxford university, England. The course is made possible as a part of the Army education program. Overseas since November, 1943, Sergeant McAllister has seen action in six battle campaigns and has been awarded the presidential unit citation with an Oak Leaf cluster.

News of the marriage of Mrs. Virginia Morehead Hunt, former Techsian, to Lt. Lee L. Talbot of Fort Bliss has reached the campus. Lt. Granville O. Byron of Trent, former Tech student, was awarded the Distinguished Flying Cross for his part in sinking the Jap battleship Hyuga in the inland seas while flying a carrier-based Hellcat attached to Fighting Squadron 87. He is a veteran of 20 combat sorties for the Navy.

Willson Lectures Are Established

Establishment of the Willson lectures at Texas Technological College and gift of \$10,000 to support them has been announced by Dr. W. M. Whyburn, president of Tech.

The \$10,000 has been given by J. M. Willson, Floydada lumberman, and his family, including his mother, Mrs. D. M. Willson, his son, J. M. Willson, Jr., and daughter, Louise Willson.

Under terms of the gift the money is being sent to the Board of Education of the Methodist church, with offices in Nashville, Tenn., for investment and the income will support the lectures on Technology or Science of Religion. A prominent religious leader will lecture annually on the Tech campus.

The first lecturer, it was announced, is to be Rev. Roy L. Smith of Los Angeles, one of the nation's leading Methodist ministers, writer of a syndicated weekly sermon and author of many books, brochures and articles. He is to appear at Tech in February, 1947.

New Books

A List of New Books This Week In The College Library

Benda, W. T. Masks. 1944. A book on masks, how their illusions are produced, how they are made, and a brief history of their use. Entertainingly written and profusely illustrated with pictures of the more famous Benda masks. The Best Plays of 1944-46. 1945. A history of the theater in New York, Chicago and San Francisco, with excerpts from the ten best plays of the year. Includes Harvey, The Late George Apley, and A Bell for Adano.

Browne, Lewis. The Wisdom of Israel. 1945. An anthology of Jewish literature, beginning with the Bible and the Talmud and ending with contemporary Jewish writers.

James, Henry. Stories of Writers and Artists. 1944. One of several collections from the works of Henry James published since the centennial celebration of his birth. Edited by F. O. Matthiessen, who published in 1944 Henry James: The Major Phase.

James, Tikhon Ivanovich. Tolstoy and His Wife. 1945. A comprehensive biography of Tolstoy, with an incidental interpretation of the life and character of his wife.

Quillen-Couch, Sir Arthur Thomas. Memories and Opinions. 1945. An agreeably written autobiography, covering the first twenty-four years of the author's life.

ELECTED VICE-PRESIDENT
Dr. Archie J. Bahr, associate professor of philosophy at Texas Technological College, has been elected vice president of the Southwestern Philosophical conference. Dr. Bahr has served as secretary-treasurer of the organization for the last two years.

Telephones on Wheels and Afloat

The Bell System plans an extensive trial of two-way radio in providing telephone service to vehicles in a number of large cities. Connections with other telephones will be made through the nearest of several receiving and transmitting stations operated by the telephone company. It is generally similar to the existing ship-shore radio telephone service for vessels in coastal and inland waters. The main job right now is making more telephones available for those who have been waiting for regular service. But as soon as the new equipment can be built the Bell System will begin extending telephone service to vehicles.

Four Bowl Teams In '46 Schedule

Four teams which participated in New Year's bowl games again will be featured opponents of the Texas Tech Red Raiders on the 1946 football schedule, Morley Jennings, director of athletics at Tech, announced.

Jennings said the Oklahoma Aggies, winners in the 1946 Sugar Bowl, New Mexico university, winners in the Sun Bowl; and Denver university, Sun Bowl loser, will invade Tech, while Tulsa, loser in the Oil Bowl, will be met in Tulsa. Also on the 1946 schedule are four Southwest conference teams, SMU, Rice, Baylor and Texas A. and M.

Tech last fall met five Southwest conference teams, TCU, Texas, Texas Aggies, Rice and Baylor, and four 1945 bowl teams, Tulsa, Oklahoma Aggies, TCU and Southwestern.

The Red Raiders next fall are expected to present a much stronger front, with many former lettermen back from the armed forces, numerous other ex-servicemen who have not competed in college athletics, and many high school stars of 1945 on hand to bolster the squad.

The 1946 schedule announced by Jennings includes:

- Sept. 21—West Texas State at Lubbock.
- Sept. 28—Texas Aggies at San Antonio.
- Oct. 5—Southern Methodist at Dallas.
- Oct. 12—Tulsa at Tulsa.
- Oct. 19—Baylor at Lubbock.
- Oct. 26—Denver at Lubbock.
- Nov. 2—Rice at Houston.
- Nov. 9—New Mexico at Lubbock.
- Nov. 16—Oklahoma Aggies at Lubbock.
- Nov. 23—Arizona at Tucson.

TO REPRESENT TECH

Dr. R. C. Goodwin, Dean of Arts and Sciences, will represent Texas Technological College at the American Conference of Academic Deans in Cleveland, Ohio, Jan. 6-13.

Centaur's Lead Men's Social Club Teams

After last week's results in the men's social club football tournament the Wrangler and College Club Elevens were given an up-bid by the Centaurs and Sociis.

Centaurs are now leading the race with two wins and no losses with the Sociis taking second place with one win and one loss. The Wranglers and College Club are tied for third with one loss and one tie each.

Sociis defeated the College Club 8 to 0 Sunday while the Centaurs plowed the Wranglers under for the biggest defeat of the season by a score of 18 to 0.

Although the College Club has a strong line and a heavy backfield they were unable to compete with the fast and rangy Sociis Eleven which seemed to keep the College Club boys in the cold.

As for the Wrangler-Centaur game—there was no comparison between the two teams. The Centaurs went and came when they pleased and with little effort. Their passing and running ability were outstanding.

Sunday the Wranglers will meet the Sociis Eleven and the outcome is still a question. At any rate the Wranglers will have to do some quick improving if they expect to take this game home. Also this Sunday the Centaurs will battle the heavy but slow College Club. The Centaurs should win this game if they can keep the form and speed of their T formation in order.

VISITS COLORADO

A. S. Gaylord, librarian of Tech, is visiting in Boulder, Colorado, this week to inspect library facilities at the University of Colorado.

Raiders Defeated In SMU And TCU Games Dec. 12-15

The Red Raiders were handed a bitter defeat at the hands of the SMU and TCU teams Dec. 12, 13, 14, 15, in Dallas and Ft. Worth respectively.

The SMU Mustangs defeated the Raiders 50-27 on the 12, and it is said the Raiders just weren't in form after the first half. Up to this point they kept up to the Mustangs by a close margin but as the minutes went past the Mustangs went in front by larger margins. The Raiders battled the Mustangs the following night but again met with defeat by a score of 57-43.

After the Raiders' unsuccessful attempt to out-do the Mustangs they journeyed to Ft. Worth and clashed with the TCU Frogs where they met the same answers only not so loud. The Frogs fought a hard and bitter battle to nose out the Men in Red by a score of 46-42. In the Raiders' second attempt to defeat the ever improving Frog Cagers they were in the running until the final minutes of the game with Jackson and Hardey doing some fine playing for the Raiders. Despite the hard efforts of the Raiders the Frogs nosed their way to a 53-43 victory.

The Raiders returned to Lubbock the 16th. Despite four straight defeats their spirits were still high.

Raiders who made the trip were Kerr, Barton, Hardey, Sneed, Jackson, Dellar, Kelley, Putnam, and Roberts.

Varsity Show Plans Started

Clubs and organizations on the campus have underwritten the Varsity Show of '46 for \$275 of the approximate \$500 needed for production. Several other clubs have pledged a definite amount, it has been reported to the Student Council.

Appointment of Jodie Wofford, Tom Douglass and Jamie Trainer as chairman and production committee marked the beginning of the work on this year's show. Tech's last Varsity Show was in '32. Shows discontinued because of the war.

Date for the production has not been named, but it will take place in the spring, provided there is enough money, interest, and talent available on the campus. Tech's Chairman, Jody Wofford is a senior speech major; Tom Douglass, former Red Raider, is studying industrial engineering; Jamie Trainer is a band major.

Dr. A. J. Bahm Publishes Article For Young Folks

Young people who are concerned and unsure about the occupations, marriage, or education, will find counsel in "What's Ahead for Me," a pamphlet written especially for Senior high school students and college freshmen.

Dr. Archie J. Bahm, associate professor in the department of philosophy and sociology at Tech, is the author of the pamphlet which is being distributed by the Hogg Foundation of the University of Texas.

"This is the first time a pamphlet has been written especially for young people," said Dr. R. L. Sutherland, director of the Foundation, "and we believe it will be used widely in high schools and orientation courses for freshmen in college."

Miss Frances K. Urban, assistant professor of home management at Texas Technological College, will address a meeting of the Texas Agricultural Workers association in Dallas Jan. 11-13. The subject of her lecture will be family relationships in rural homes.

Raiders Lose 43-48 Game to Buffaloes

By IVAN TUCKER

Tuesday night the Raiders met the strong West Texas State cagers in what turned out to be a basketball thriller at the Tech gym. The final score was 43-48 for the Canyon team.

With twelve minutes left in the first half the score was twelve up, but soon the Buffs got loose to tally 6 points making the score 18-12.

Jackson then sparked the Raiders when he blocked a Buff pass and sunk it. However, this failed to hold the Teachers for long as they ran the score up to 23-17. Hardey received a free shot for another Raider score: 18-23.

Hardey committed his fourth foul the game giving the Buffs two extra points.

Sneed came back for the Raiders on a long shot which spun out of the basket but was sunk when Kerr pushed it through the net for the Raider score.

After the game became fast and wild. The ball was exchanged seven times without either team making a count. This ended the first half with WTSTC out in front 25-20.

In the second half the Buffs got off to a fast start for two points but Kerr made one out of two free shots, and Sneed sunk a long one for the Raiders making it 27-23 in favor of the Buffs. The Canyon lads wasted no time in coming back to make four more points.

After a Raider time out the Buffs again made the count for two points, but Kerr came back for the Raiders to sink one from the floor after receiving a foul thus giving him a free shot which put the score at 33-26 still in favor of the Buffs.

The next few minutes of the game was all for West Texas, as they scored two baskets for one of the Raiders. Fouls on the part of the Raiders were also high throughout the remainder of the game.

With only nine minutes left to play and the score at 31-42 favor of the Buffs things began to spark on the part of the Raiders. The Teachers wanting to hold their gain began to hold the ball as though it were gold. Buff coach, Jess Miller, made a technical against his team for coaching from the bench.

From this point on the game was all Raider with Jackson leading them. With the score at 31-43 favor of the Buffs Jackson sunk a long one for us followed up by Barton for another basket. The Buffs then scored a basket but was again followed by two more Raider baskets made by Jackson and Kelley.

With only two minutes left to play the buff's were scared to let the ball get loose. However, Jackson got the ball and sank a long one after which the Buffs received a free shot making the score stand 46-41 favor the Buffs. Jackson again let another long shot go which found its mark, but again the Buffs came back with another basket ending the game 43-48 favor the Buffs.

George O. Elle Is In Manila

Lt. George O. Elle, writes, "I have been moved up the line to Manila to be assigned to G-1, Hq. Base X, and have the title of Asst Chief of the Inspection Branch. The job is quite white collar and involves a neck of work, but is giving me a lot of personnel experience."

"Since the recent legislation on the education Bill of the G. I. Bill of Rights, my plans have changed a bit. I have definitely decided to finish my education. I do not intend to make application for a fellowship for I don't want to be obligated in the least during the first year. I will be absent from Tech at least two years after my separations from the Army."

Years ago deserters from the army were branded with the letter "D" in irremovable ink or gunpowder two inches below the left armpit.

Carmen Sylva was the pen name of Elizabeth, former Queen of Rumania.

Tech Receives Surplus Goods

Surplus war goods with a declared value of more than \$30,000 has just been received by Texas Technological College from the Douglas Aircraft Company, Inc., of Oklahoma City. The shipment includes 72 separate items, all in good condition or practically new.

Principal items are woodworking machinery, some metal working machinery, painting equipment, engineering testing machinery, welding equipment, including a very valuable spot welding machine which weighs 9,000 pounds.

Some big sewing machines for sewing coarse fabrics are included. There are also battery chargers along with many other items. One piece of very desirable equipment, according to college officials, is an expensive ferroscope which is used for testing metals.

Previous shipments of surplus war goods to the college amounting in value to \$55,000 have been received.

Theron Lehr, has been named instructor in the textile engineering department at Texas Technological College succeeding Lloyd H. Jackson who resigned. Lehr, a '42 Tech graduate, served 39 months with the Army engineers in the European theatre.

Mary Kathryn Cook, Tech graduate with a home economics major, is assistant home demonstration agent in Wichita Falls, following employment in the Eighth Naval Reserve office in Dallas. She is supervising 4-H club work for girls, in addition to other duties.

Wanda Kimbrell, former home economics student, is home demonstration agent of Carson county. She served two and a half years in a similar capacity in Lipscomb county previously.

New Spinning Frames Received

Six new long-draft spinning frames, the very latest in spinning equipment, has been received at Texas Technological College for use in the cotton fiber and spinning research project.

These machines complete the laboratory equipment, and full operation will begin by the end of January. A full staff, composed of nine persons, will begin spinning work as soon as the installation is completed. Prior to this time good progress has been made in fiber work, and a number of cottons from various sections of the country has been received and tested.

Purpose of the cotton fiber and spinning research project, conducted at Tech, is to make fiber tests on raw cotton, manufacture it into yarns and find the relationship between fiber properties and spinning performance.

Cotton fiber and spinning investigations are directed by George W. Pfeifferberger, cotton research supervisor of the Chicopee (Cotton) Manufacturing Co. of Chicopee Falls, Mass. The Chicopee company furnishes the research staff and operational expenses of the project. Physical facilities of the textile engineering department are utilized.

Cleavinger Awarded Home Ec Scholarship

Mrs. Norma Lucille Cleavinger, senior home economics student from Hart, has been awarded the Borden Company Foundation scholarship in Home Economics for the year 1945-46.

The scholarship, awarded for the first time this year, is a gift of the Borden Company Foundation, Inc., and is to be presented annually for five years to the senior student in Home Economics who has achieved the highest average grade in all college work preceding their senior year, and who has included two or more courses in foods and nutrition.

Meade Writes Thesis On "Blanca Fauna"

"The Blanco Fauna," a study of the West Texas formations at Mt. Blanco near Crosbyton, is the subject of the doctor's thesis of Grayson E. Meade, associate professor of paleontology at Texas Technological College. The article is being published by the Bureau of Economic Geology at the University of Texas.

Mr. Meade will receive his doctor's degree from the University of Chicago at the June commencement.

Wesley Players Are Recognized

The Alpha Eta chapter has been recognized as the outstanding member of the National Society of Wesley Players for 1945 and the war years.

The outstanding chapter is chosen by a consideration of reports which are sent to headquarters by the local college chapters.

Wesley Players is a national society with chapters on local college campuses which has as its purpose the discovering and developing of new methods of presenting religious truth.

Sock And Buskin Present Play

Sock and Buskin, dramatic club, met Tuesday, Jan. 8, in the Campus Playhouse. The title of the play presented was "Why Move to Town."

Helen Bell directed the play. Senior speech majors are directing all of the plays which are given.

The next meeting will be Tuesday, Feb. 5, and the play to be presented is "The Last Straw" under the direction of Jodie Wofford.

Those wishing to try out membership in Sock and Buskin for the Spring semester may sign up now in the speech office, 205 Ad. building.

Home Ec Club Has 12th Night Party

Home Economics club held its annual Twelfth Night party Tuesday evening. Ruth Keith served as general chairman for the occasion and Mrs. New Eavoussent, instructor of foods and nutrition, as faculty sponsor.

Following this the group was served cake and "Wassail," the traditional Twelfth Night spiced punch. The evening was climaxed by the crowning of the Twelfth Night queen, Audrey Melton.

The party ended with the burning of the Christmas tree, signifying the end of the holiday season.

Phi Upsilon Omicron Holds Last Meeting Of September

Phi Upsilon Omicron held its last meeting of this semester Wednesday night. The purpose of the meeting was to honor January graduates Una Hart Abbott, Helen Pope, Kathryn Verner, and Evelyn Cook.

The meeting was held at the home of Miss Margaret Weeks, dean of the division of home economics, and Miss Mabel Erwin, professor of clothing and textiles.

Oranges are grown in seven states in the USA, in southern Alabama, California, Florida, Georgia, Louisiana, Mississippi and Texas.

Capa y Espada Hear Lecture

Capa y Espada presented Mrs. Maria Libby, mother of Mrs. A. E. Strehl, Tuesday night. She lectured to members and guests about the carnival in Panama, popular customs and other matters of interest.

Mrs. Libby was guest speaker at a meeting of the club last year. She was presented by Dorothy Cliff, president of the Spanish club and Miss Mabel Smith, sponsor.

Forty-seven Get Alpha Chi Award

Forty-seven students were elected to Alpha Chi, national scholastic honorary at Tech. Initiation for the new members will be held at 5 p.m. Friday, Jan. 11, in room 220 in the administration building.

Seniors elected included: Ann Barker, C; Dorothea D. Barrett, AS; Lyndell Baugh, C; Edward Cartwright, E; Norma Cleavinger, HE; Pauline Cherry, C; Billie Cohea, AS; Mary E. Duntley, AS; Lois Nell Finley, AS; Maxine Ford, AS; Jean Freeman, E; Anita Hale, AS; Charlene Jordan, AS; Ben F. Logan, E; Kathryn Millsap, HE; Joan Marsh, C; Melba Slater, HE; Mary Jean Webb, C; Dorothy Williams, AS; Kathryn Witchehead, AS.

Junior students elected were: Imogene Bagwell, AS; Jane Burns, AS; Panze Butler, AS; Maisie Carter, AS; Sylbe Carter, AS; Dorothy Cliff, AS; Betty Jo Crisler, HE; Frankie Lou Day, C; Johnnye Sue Hamilton, AS; Maxine Harp, HE; Ava Harty, C; Maxine Hoppersdorf, AS; Eugenia Hopper, AS; Thelma B. Hudson, AS; Margaret Huffaker, AS; Naomi Langford, C; Alta Plemmons, AS; Willis P. Phillips, AG; Betty Renner, HE; Elizabeth Schmidt, E; Willa Mae Stacy, AS; Miriam Turrentine, AS; Walter James Wanner, E; Peggy Wells, AS; Barton Willingham, AG; Connie Wright, AS.

REPRESENTS COLLEGE

Dean R. C. Goodwin left Monday for Cleveland, Ohio, where he will represent the college at the American Conference of Academic Deans.

He will return to the campus Monday, Jan. 14.

NO TREADOR NEXT WEEK

Due to final examinations which will be given Monday through Saturday, Jan. 21-26 the Treador will not be published for the next two weeks. The next issue will be published Friday, Feb. 1.

R. L. Chick, who had five years of military training in high school, added 38 months to his experience while helping Uncle Sam invade North Africa, Italy, France and Germany. Chick, a member of the telephone communication division, liked the "fellows" he met better than any other part of his army life.

Petroleum refining is the leading industry in Ohio.

Ernest W. Gibson Makes CPA During Holidays

Ernest W. Gibson, assistant professor of Economics and marketing, was notified last week that he had passed the state examination for Certified Public Accountant. The examination was held in Austin Nov. 8. Only 13 to 14 per cent of the applicants for C.P.A. affiliation are successful in passing the test.

Gibson has been an instructor in the accounting department for the past two years.

VISITS CAMPS

Harry Patterson, Athens, Texas, textile engineering major who last attended Tech in 1938, was a recent visitor on the campus. He plans to return to Tech next semester.

Thompson & Harris

Barber & Beauty Shop 1311 College Ph. 2-1561

Former Textile Student Plans Return To Tech

S/Sgt. Billy Joe Mallard, former textile engineering student from Hillsboro, served with 131st Field Artillery when it went into Java. He was a prisoner of war for four years, and is planning to return to Tech. Wade Webb, also former textile engineering student, served in the same outfit and was a prisoner with Mallard.

Paul Revere practiced dentistry along with his other trades.

Major-Minor Club To Visit Agua Pildra Lodge

Resuming a peacetime tradition of the Major and Minor club, physical education major's honorary, 25 women students at Texas Technological College will visit Agua Pildra lodge in Tres Ritos, New Mexico, Jan. 27-29.

Before the war the project was an annual club activity. Skiing, ice skating and other winter sports will be featured recreation for the young women.

Centaur Formal Will Be Held

Decorations for the Centaur dance will center around the club colors, gold and purple. The formal dance will be in the Lubbock hotel ballroom Saturday night from 9 until 12. Buddy Arnett's orchestra will play.

Members and dates are: Emory Payne, Sharon Melver; Doug Record, Margery Read; Randy Rutledge, Neil Anthony; Buddy Williams, Earlyne Reid; Charles Bal- lew, Alice Birdwell.

Alumni and dates: Olen Monk, Beth Adler; Benoyd Gattis, Ruth Anthony; and Elwood Wright, Virginia Towns.

Pledges and dates will be: Lewis Wald, Bobby Childers; Jack Sams, Pat Robinson; Lawrence Jester, Barbara Klaus; Hardy Scott, Jean Price; Marshall Pullen, Francis Dalmasco; Fred Martin, Mary Frances Alexander; Bill Easter, Gloria Holleyman; Neil Walker, Claudia Sue Fort; Winfred Hooper, Anita Oliver; Bill Bucy, Amy Sue Way; Jack Huckabee, Jean Holt. Chaperons will be Mr. and Mrs. L. J. Powell and Mr. and Mrs. Robert Newell.

French Club Has Program Tuesday

A Twelfth Night program was presented by the French Club at the home of Dr. Charles B. Qualia, head of the foreign language department, last Tuesday evening. Members and guests who met were given a small placard on entry on which was written one-half of a French proverb. At the height of the party, they were supposed to guess the other half.

The other half of the program was a talk on the celebration of Twelfth Night in France. The game known as La furet, a special French parlor variety, was played during this meeting.

Bunker Hill Monument is 221 feet high.
