

WIN, LOSE OR DRAW — no matter the status of Tech football fortunes, these charming young ladies always make a good showing during football games. Marching with the Tech band during halftime of the Tech-Baylor game will be, left to right, Leta Merle Roberts, Dorothy Adkins, Peggy Blackmore, Sylvia Meade, Betty Alice Lovelace, Benni Dunn, Jill Flynt and Gail Davis.

Classes Vote Today In Run-off Election

First class runoffs of the 1957 school year will take place today when Tech students go to the polls to vote for their choices to fill remaining class positions.

Positions to be filled are president, vice president, secretary and AWS of the freshman class; president, secretary and AWS, sophomore class; secretary and AWS of the junior class; and the secretary of the senior class.

FRED BAKER will run against Dan Williams and Jerry Sorseth for the Freshman presidency to decide the winner of the closest race in the regular election last week. Baker had 162 votes, Williams, 160, and Sorseth, 159.

In the other freshman runoffs will be Johnny LaGrange, Mike

Montgomery and Dick Toll for the vice presidency; Mary Lynn Peveto and Lynn Richards for secretary; and Nancy Hectors and Carol Simpson for AWS.

KEN TALKINGTON and Bill Dean are in the runoff for sophomore president. In the regular election Talkington polled 219 votes to Dean's 141. Carolyn Porter and Leta Merle Roberts will be in the race for sophomore secretary; and Mary Etta McDuffie and Donna Pearson for AWS.

Juniors competing in the runoffs are Toni Bannister and Wanda Murray for secretary; Kay Adkins, Jean Brown and Ann Groves for AWS.

Joan Roberts, Pat Curry and Mary Massey are competing for senior secretary.

Float, Queen Entries Set for Homecoming

by **MARY ALICE ATCHISON**
Toreador Copy Editor

Deadlines for float entries in the Homecoming parade and submission of names for queen candidates have been set according to Jess McIlvain, Homecoming chairman.

Monday is the deadline for float entries. Entries may be turned in at the Ex-Students Office in the east wing of the Administration Building.

ORGANIZATIONS ENTERING floats will draw for parade positions Tuesday at 5 p.m. in the Tech Union workroom. Any organization not having a representative present to draw for a position will be placed at the end of the parade.

Questions on the rules for the floats, parade route, and other details will be explained at this time. No specific theme was chosen for this year's parade.

DEADLINE FOR the submission of names for queen candidates by the organizations sponsoring them is Friday, Nov. 1. Names should be turned in to Double T West Hall. After this deadline no entries will be accepted. Qualifications for candidates state that a girl must be single,

of junior or senior standing, a fully enrolled student and have an overall 1.00 grade average.

PRELIMINARY eliminations are scheduled for 2 p.m., Nov. 3, in the Tech Union ballroom. Ten girls will be chosen by a representative panel. Each organization entering a candidate will have one member on the eliminating panel who will vote for ten entrants. Preliminary eliminations will be open to all students.

Final eliminations will be in the form of a campus-wide election Thursday, Nov. 7. The candidate receiving the most votes will be crowned Homecoming Queen at the bonfire and pep rally Friday, Nov. 8. The four girls receiving the next largest number of votes will act as the Queen's attendants.

THE QUEEN WILL reign over the football game and will take part in the half-time activities. All ten girls will be presented at the pep rally and in the parade Saturday, Nov. 9.

The girl chosen as Homecoming Queen will also represent Texas Tech in other Southwest Conference activities such as the Cotton Bowl Game, Jan. 1. The Queen's attendants will be representatives of Tech in SWC festivities which the Queen is unable to attend.

Special Honors Planned For Three Tech Fathers

by **JOAN ABEL**
Toreador Staff Writer

Three fathers of Tech students will be honored during annual Dad's Day activities Saturday between halves of the Tech-Baylor football game. Special recognition will be given the oldest dad, the father who came the greatest distance for Dad's Day and the father with the most children attending Tech.

Another highlight of Dad's Day, sponsored by the Association of Women Students and Alpha Phi Omega, men's campus service club, will be the organization of a Texas Tech Dad's Assn.

Dads will form the association and elect officers during a 5:30 p.m. dinner in Tech Union ballroom.

DR. W. H. GORDON of Lubbock, chairman of a temporary committee of interested Tech

dads, said that the purpose of the organization is to give fathers information on Tech's program and to seek their counsel and support concerning Tech's needs.

Also on the committee are Ed Merriman and Earl Collins, both of Lubbock and fathers of Tech students; Dean of Student Life, James G. Allen; Adrian Vaughan, director of public information, and Assistant Dean of Women, Dorothy Garner.

THE ANNUAL Dad's Day program will begin at 1:30 p.m. with registration of visiting parents in the Rec Hall. Nancy Carlock, sophomore from Honey Grove, is in charge of registering visitors.

An informal coffee, under the

direction of Arlette Arnett, senior from Lubbock, will be held in the Rec Hall during the afternoon. Parents are also invited to attend open house in Tech dormitories at that time.

A SPECIAL SECTION is being reserved for dads at the Tech-Baylor football game, scheduled at 8 p.m. in Jones Stadium. Fathers can reserve seats in this section through the athletic department. Tickets are \$3.50 each.

Half-time activities at the game, which will include recognition of three special dads and introduction of the newly-elected officers of the Dad's Assn., are being arranged by Dad's Day co-chairmen Janet Reaves, senior from Plainview, and Bob Ford, senior from Amarillo.

DURING THE ORGANIZATIONAL dinner of the Dad's Assn., mothers will be guests for supper in the dorms of their son or daughter. Students wishing to make reservations for their mothers were to have done so by noon Wednesday, according to the dean of women's office.

Members of the committee in charge of sending some 6,500 invitations to Tech dads were Sandra Shields, junior from Waco; Diana Smith, junior from Lubbock; Betty Byerly, sophomore from Houston; Sammie Fowler, senior from Seagraves; and Sue Jo Cole, senior from Levelland. Publicity chairman is Catherine Nelson, senior from Brownwood.

Turkey Gets Threat From Russia, Syria

DAMASCUS, Syria, Oct. 16 — The Damascus radio and press today again charged Turkey with building up troop concentrations on Syria's border and declared the Soviet Union had prepared world opinion for Russia intervention if Turkey attacks.

The Soviet Union, through repeated warnings is now "obliged to Syria and world public opinion to prevent Turkey from carrying

out any aggressive action in the Middle East," said the government. **PAGE 5, AP HIGHLIGHTS . . .**

LaVentana Sets Picture Deadlines

Final deadlines for all freshman, senior and graduate student class pictures for the 1958 La Ventana are October 30, Pat Cullum, editor, has announced.

Also, sophomores and juniors are urged to have their pictures made as deadlines will be announced soon.

Shooting schedule of class pictures is far behind at this time, and individuals are asked to go as soon as possible to either of Koen's Studios, 2222 Broadway or 1311 College, and have their pictures made, Miss Cullum said.

Persons who purchased La Ventanas and paid the seven dollar fee will not have to pay an additional amount for the picture. Students who have not already paid will have to pay a one dollar deposit and six dollars when they purchase their yearbook.

Math Fraternity Seeks Candidates

Students interested in becoming part of a new honorary mathematics fraternity at Tech, Kappa Mu Epsilon, are invited to make application by Nov. 2. Blanks are available at the math office, Ad 215, according to William Perel, faculty sponsor.

Requirements for membership include a 2.2 overall grade point average, along with a 2.5 average in math at Tech. Also, students must have completed two 300 or above Tech math courses.

New Supreme Court Officers Named, Contest Planned At Council Session

New members to the Tech Supreme Court were announced Tuesday night by the Student Council.

Derry Harding is Chief Justice for the court. Other representatives are Neil Pipkin, Engineering; Jacky Brooks, Home Economics; Glenda Keith, Arts and Sciences; Blake Baugh, Business Administration and Ted Carthel, Agriculture.

ALSO AT THE regularly scheduled council meeting, vice president Wick Alexander stated plans for having a naming contest for the spring festival slated tentatively for April 16-19. Further plans on the contest will be announced in the Toreador.

Plans have been tentatively set for a dinner Saturday evening in the Student Union for the Baylor Student Council. The dinner is scheduled for 6 p.m. in Room A.

AN ELECTION COMMITTEE report was given by Pat Rainer, council secretary, on the seven candidates eliminated at committee meetings Oct. 8 and 15. Six were eliminated because of failure to submit expense accounts and one for lack of sufficient grade average.

Three motions were passed concerning elections:

1) All protests concerning elec-

tions should be reviewed by the Elections Committee.

2) Any protests that seem to have justification or possible justification, **COURT OFFICERS . . .**

Naming Contest For Festival Begins

The Student Council is sponsoring a contest for naming the spring festival which is tentatively scheduled for April 16-19 and will be patterned after University of Texas "Roundup" week.

Any Tech student may enter the contest, and entries should be mailed to the Student Council office, Box 4177, Tech Station, according to Wick Alexander, council vice-president.

"**THIS FESTIVAL** could become a very important tradition-making event," stated Alexander. "The name for it should be snappy, such as 'Red Raider Week.'"

Entries will be judged on the basis of originality, and in case of a tie the entry with the earliest postmark will be the winner, and no campus mail will be accepted.

Deadline for the contest is Saturday, Oct. 26 at 5 p.m.

The winner will be awarded a prize by the Student Council.

used in past years by the sororities except for last year.

The presentations will be scattered throughout the year and given by each sorority at its preferred time. Some sororities will present their pledges this fall and others plan to wait until after they initiate their pledges and present them as new members, according to Ann Graves, Panhellenic.

ALPHA PHI will be the first to have presentation as they will present their pledges Saturday night. They also plan to present all the sorority and fraternity presidents at their ceremony. This is the first time that has been added to a presentation, Miss Graves added.

Presentation last year was just a mass ceremony. It was just before the Christmas holidays and a Christmas theme was used. Frankie Carle and his orchestra provided music for the dance which followed in the Municipal Coliseum.

Nine Sophomores Get Scholarships

Nine Texas Tech students have been awarded 1957-58 Sophomore Scholarships made available from funds annually diverted from the Student Emergency Loan Fund.

The winners are Glenn C. Blacklock, high school Honor Graduate Scholarship; Clyde, Donald R. Hayworth, Granbury; Jane E. Sullivan, Houston; John W. Harrison, Kuykendall Foundation Scholarship; Kenneth Thomas Cummings, Kuykendall Scholarship; Lubbock; Billie Jean Stroehle, Honor Graduate Scholarship, Memphis; Judy Dianne Roberts, Zeta Tau Alpha (social sorority) Scholarship, San Angelo; and Ann E. Denny, Wichita Falls.

James G. Allen, dean of student life, announced the grants on behalf of the Tech Committee on Scholarships and Awards.

Toreador to Announce Results

First results of today's runoff election will be announced in Saturday's issue of The Toreador, election officials stated. Read the Toreador, and you will be first to know!

Around the Circle

by Carolyn Mimms
Campus Editor

With Sputnik still zooming around in the stratosphere and Tech students and faculty preparing for the Dads and Bears this weekend, the eds and coeds around the circle are keeping the social party line buzzing.

Phi Kappa Psi and Kappa Alpha Theta will kick off the activities tonight with a mixer in the Phi Psi lodge at 6 p.m.

Knapp and West Halls will also entertain their residents tonight with a mixer in Knapp's dining hall from 7 to 8:30. Knapp will furnish the refreshments and the Ad Libs will provide the music.

TECH WOMEN will have a chance to learn a little about charm and poise tonight at the free introductory lecture starting the Charm Course which is sponsored by the Home Economics Club and Phi Upsilon Omicron, home economics fraternity. The lecture is from 6:30 to 8:30 in the Aggie Auditorium.

Also today, Pi Omega Phi will have a coffee meeting in the Union from 3:30 to 4:30 p.m.

Alpha Phi will begin pledge presentations tomorrow as they will present their pledges in the Palm Room at 7 p.m.

Junior Council, honorary organization for junior women, will

begin its activities at its first meeting at 5 p.m. today in Room B of the Union, according to an announcement by president Carol Crews.

SIGMA TAU DELTA, national English honor society, will hold its fall initiation at 7:30 p.m. today in Ad 217.

Dr. Kline Hall will discuss the "Dead Sea Scrolls" in a talk following the ceremony. The group will then go to the Union where refreshments will be served. Plans will be discussed for the organization's upcoming activities.

Phi Gamma Delta will continue the fraternity formal rush parties in the Rec Hall with its rush party from 7:30 to 9:30 p.m. tomorrow.

SERENADES HAVE begun and the New Dorm's first serenade between a sorority and fraternity was Tuesday night between Sigma Kappa, social sorority and Phi Mu Alpha, music fraternity.

Pat Worley, a member of Sigma Kappa, was serenaded. She is engaged to Phi Mu member John Montgomery.

The serenade was on the College Ave. side of the dormitory.

Saturday, Phi Delta Kappa has scheduled a dinner meeting in the Union from 5 to 7 p.m.

Pi Kappa Alpha will have a sports dance after the football game Saturday in its lodge. It is for members and their dates only and music will be by record.

ARMY ROTC CADET and officer wives met at a tea for new members Tuesday night in the Union. Approximately 10 cadet wives and 5 regular officers' wives attended.

They meet every two weeks and the next meeting will be Oct. 29 in the Union. Every wife of an Army cadet or officer is eligible for membership and is invited to the meeting. President of the club is Rowena Jackson.

Sunday Zeta Tau Alpha and Pi Kappa Alpha will have a mixer at 7:30 p.m. in Pi Kappa Alpha's lodge.

GARGOYLE SOCIETY will have a picnic in Mackenzie Park Sunday from 3 to 6 p.m.

Also Sunday an organizational meeting of the Channing Club will be conducted at 7 p.m. in the Union.

The Channing Club is a religious organization for liberal youths. It is sponsored by the Unitarian Church, and membership is open to all Tech students.

That's it for this week. See you next time.

Yusuf A. Yoler joined General Electric's Missile and Ordnance Systems Department in 1955, after receiving his B. S. in E. E. from Roberts College, Istanbul, Turkey (1949), and his Ph. D. from the California Institute of Technology (1954).

"In a big company, a young man can get to tackle big jobs"

"The thing that has impressed me most in my two years at General Electric," says 28-year-old Yusuf A. Yoler, manager of Aerodynamics Laboratory Investigations, "is the challenging opportunity open to young people here. My field is guided-missile research — the nation's top-priority defense job. Because of the scope of the company's research and development program, I've had the opportunity to work with technical experts in many related fields. And I've seen at first hand the responsibility which General Electric has given to younger men — proof to me that in a big company a young man can get to tackle big jobs."

The research being done by Dr. Yusuf A. Yoler is significant not only to himself, but to General Electric and the security of the nation as well. At present, the company is participating as a prime contractor on three of the four long-range ballistic missiles pro-

grammed by the U. S. government. Yoler, who is playing an important role in this work, directed the design and development of the world's largest hypersonic shock tunnel — a device which will "test-fly" missile nose cones at speeds over 15,000 mph.

Progress in research and development — as well as in every other field of endeavor — depends on how well young minds meet the challenge of self-development. At General Electric there are more than 39,000 college graduates, each of whom is given the opportunity to develop to his fullest abilities. In this way, we believe, everybody benefits — the individual, the company, and the country.

Phi Delta Theta Re In Fraternity's Har

The Texas Epsilon Chapter Phi Delta Theta at Tech has been awarded second place in the fraternity's Harvard Trophy award.

Harvard Trophy recognition goes to chapters showing a degree of campus activities scholarship. Campus activities include intramurals, class and campus offices held, positions held, other social, scholastic or departmental organizations, Who's Who on the campus and in America.

Cosmopolitan's Features Speake

The Cosmopolitan Club will meet tonight at 7 p.m. in the Union and highlighting the meeting will be a speech by Mrs. M. Strout, English instructor, on her recent trip to Europe.

Mrs. Strout toured Europe last summer with twelve students and her husband, A. L. Strout, English professor.

The organization has members from Western Europe, Asia, a South, Central and North America. All Tech students interested in meeting foreign students, a learning about their government way of living and customs are invited to this meeting.

Techsans Sick

Tech students are starting to infirmity buzzing with activity again but not overflowing with the Asian flu epidemic as it was the first of last week. Only seven students were listed on the infirmity list as of yesterday afternoon.

These students are:

- Brenda Harmel
- Charles Aguilar
- Roy Koehler
- Walter Harry
- David Hart
- Wayne Hewitt

Phi Delta Theta Receives Second Place In Fraternity's Harvard Trophy Award

The Texas Epsilon Chapter of Phi Delta Theta at Tech has been awarded second place in the fraternity's Harvard Trophy award.

Harvard Trophy recognition goes to chapters showing a high degree of campus activities and scholarship. Campus activities include intramurals, class and campus offices held, positions held in other social, scholastic or departmental organizations, Who's Who on the campus and in America

and also off-campus recognition.

The award was made during this summer at the fraternity's conference for advisors and general fraternity heads in Oxford, Ohio. This is the first conference of its kind held by national fraternities.

JOHN E. HARDING, Texas Epsilon advisor, represented this area.

Texas Epsilon has also received an award of second for participation in Community Service Day last April 6 when the Phi Deltis took over the job of repairing and landscaping the Lubbock Training Center and Lubbock Children's Home.

These awards were won in competition with 120 Phi Delta Theta chapters throughout the nation.

Cosmopolitan's Features Speaker

The Cosmopolitan Club will meet tonight at 7 p.m. in the Union and highlighting the meeting will be a speech by Mrs. Mary Strout, English instructor, on her recent trip to Europe.

Mrs. Strout toured Europe last summer with twelve students and her husband, A. L. Strout, English professor.

The organization has members from Western Europe, Asia and South, Central and North America. All Tech students interested in meeting foreign students and learning about their governments, way of living and customs are invited to this meeting.

Course Introduced With Free Lesson

Improve your charm—a girl's best trait — and attend charm school.

Mrs. Bess Rotham, former instructor at John Robert Powers Modeling School will teach the class with a free introductory lecture tonight in the Aggie Auditorium.

The course, consisting of five lessons each two hours long, is sponsored again this year by Phi Upsilon Omicron, home economics fraternity, and the Home Economics Club.

Highlights will be instruction in modeling procedures, improvement in hair techniques, social graces and make-up.

The class will meet each Monday for the next five weeks and classes will be from 3 to 5 p.m. and 7 to 9 p.m. Students who took the course last year may take an advanced charm course which meets from 8 to 10 a.m. each Monday.

Assn. of U. S. Army Sets Organizational Meeting

An organizational meeting of the Association of the United States Army is scheduled for 7 p.m. tomorrow in Building X-10.

The organization is open to all M.S. ROTC cadets, regardless of classification. This meeting will include the following: election of officers, discussion of objectives, appointment of committees, and adoption of by-laws of the Association.

A PETITION, submitted last year and signed by 28 cadets for the establishment of the AUSA Company at Tech, was approved.

Alpha Phi Pledges Select Executives

Alpha Phi pledges elected new pledge class officers at their first meeting.

Officers include Nicki Perkins, president; Sue Schneider, vice president; Glenda Griffiths, secretary; Earlene Anderson, treasurer; Kathryn Fincher and Carol Devant, Jr. Panhellenic representatives.

Gay Douglas was appointed correspondent by Bunny Watson, pledge trainer and Nicki Perkins was elected "Pledge of the Month" by her pledge sister.

Pledges also set tomorrow as the night for their presentation.

according to a letter from Neil M. Wyatt, acting secretary of the AUSA.

AUSA was organized for several purposes. One was to provide information to cadets about the many various military activities which they will be confronted with in the regular service.

ANOTHER IS to provide a medium whereby cadets can become more familiar with the military way of life. Also discussions of problems of national defense, and united efforts toward a more effective security system through unofficial action are on the club's roster.

Plans for the organization to incorporate the other Army ROTC

organizations, the Infantry Club and the Signal Club, have not as yet been approved by the members of these clubs.

Whar's Ma Jeans It's Levi Friday

Tech "dudes" and "cowpokes" will join forces Friday to help bolster school spirit as the Vets Club unveils its fourth annual "Levi Friday."

The day will be capped by a pep rally at 7 p.m. Friday on the eve of the clash in Jones Stadium Saturday between the Red Raiders and the Baylor University Bears.

Even the femmes of the campus will get into the style as rules against the "jeans" or levis are shelved temporarily. Coeds may wear levis on campus Friday, but Bermuda shorts are "out", Vet Club officials stated.

Men, too, are urged to surrender Ivy League trousers or khakis for the more traditional West Texas apparel.

Site of the pep rally, actual highlight of the event, will be in front of the Science Building.

Honored guest will be John C. White, State Commissioner of Agriculture, who was a Tech cheerleader in 1945 and is a '46 graduate.

Other plans include the awarding by the veterans of two plaques for the dorm, sorority or fraternity displaying the most school spirit and furnishing the most yelling.

Featured entertainment will include a program by the Tri-Delt sorority, the Red Raider band, and the cheerleaders.

Dolphins Schedule Luncheon Meeting

The Dolphins, Tech swimming fraternity, will have a noon luncheon meeting today in the workroom of the Tech Union to select the club's candidate for Homecoming Queen.

All club members and pledges are urged to attend the meeting.

BY WALT KELLY

TECHSANS TALK BACK

Les' Holler

The residents of Sneed Hall wish to congratulate the members of Kappa Alpha Theta and the members of Doak Hall for the fine showing they made against us at the pep rally last Thursday night. We wish to make special congratulations to Kappa Alpha Theta; for when thirty girls can outyell eighty men from Sneed Hall, it is a job well done. We at Sneed cannot understand why Kappa Alpha Theta was not awarded the trophy; for they beat Sneed Hall; and if they beat Sneed Hall, they must have beaten Doak Hall; for it is common knowledge around the campus that "Sneed can beat Doak anytime in anything."

We of Sneed, at this time, wish

to personally challenge Doak Hall to a yelling contest at the next school pep rally, October 18, 1957. We ask for no trophy; we ask only to be given a fair chance to prove who has the loudest yelling dorm on this campus. We do make one request, however; and that is that the remainder of the student body act as judges for the contest. Come on, you fly-by-night champions and take part in a real yelling contest.

Respectfully submitted,
Members of Sneed Hall
Dan Alexander
Sneed Hall Dorm Assn.

(Editor's note: Sorry we couldn't run the 140 signatures that came with the letter. Space limitations. But we're looking forward to the noise.)

Tech Prof Works On Space Travel

With Russia's "sputnik" traveling around the world every few minutes, the question occupying the minds of most people these days is, "When will we fly to outer space?"

Although this question has just been brought to the minds of the more "common" people of the United States, Prof. Jack Powers, Texas Tech mechanical engineering department head, has been giving some practical thought to space flight for some time.

LAST SUMMER he worked for Litton Industries in Beverly Hills, on a project under contract with the U. S. Air Force's office of Scientific Research.

The project was to build a space simulation chamber. One of the questions that the chamber will answer is "How do you put things together in a vacuum?" When answered scientists will know how men sent into space will be able to build a platform that will be the base for launching an object farther into space.

LITTON INDUSTRIES currently has a chamber that will produce a vacuum equivalent to the altitude a missile would fly through when 250 miles high.

Powers' job was to design a bigger chamber that would simulate even higher altitudes. The purpose of the project is to put a satellite in an environment similar to outer space and to place a scientist inside a vacuum where he can study conditions as they exist in outer space.

POWERS POINTS out that the space simulation chamber is just part of the basic viewpoint of United States scientists who want to protect the lives of those who do hazardous research. They take all possible precautions to protect the men who eventually will be sent into space.

Powers' personal viewpoint is that while our safety devices in research take time, as long as we don't violate the laws of nature, there is no end to what we can do in space experiments, if we want to spend the time and money.

"How soon we do it depends on how much we want to do it," he said. He observed that Russia's satellite has probably reactivated interest in space research that previously was lagging and holding back the full project.

On Campus with Max Shuman

(By the Author of "Rally Round the Flag, Boys!" etc.)

CLOTHES MAKE THE BMOG

Last week we passed along some fashion hints for coeds. Today we will do the same for college men.

The most important thing to remember, gentlemen, is to dress with verve, with dash, with inventiveness. Don't be imprisoned by the traditional conservatism of men's clothing. Brighten up your appearance with a single earring, or a cavalry saber, or a gold derby.

Guard Against Gaudiness

However, guard against gaudiness. If, for instance, you are wearing a gold derby, do not also wear a cavalry saber. This is too much. Wear a dagger instead, or, for formal occasions, a bowie knife.

Let us turn now to a persistent rumor that a garment called the "suit" is on the verge of making a comeback. Some of you older students may remember this "suit." It was an ensemble consisting of a jacket and trousers, both of which—this'll kill you—both of which were made out of the same material!

The last "suit" ever seen on an American campus was in 1941—and I ought to know because I was wearing it. I was an undergraduate then, and in love—hopelessly in love with a beautiful statistics major named Harry Sigafoos. (She is one of the two girls I have ever known named Harry. The other one is her sister.)

I loved Harry madly, though her expensive tastes were the ruin of me. Bit by bit I sold off my belongings to pursue this costly courtship—first my books, then my clothes, until finally I was left with nothing to wear but a "suit". One night I came calling for her in this garment and she, of course, slashed me across the face with a riding crop and sent me from her door.

I slunk home and lit a Marlboro and sat down to think. I always light a Marlboro when I sit down to think, for their good mild flavor is a great aid to cerebration. I always light a Marlboro when I don't sit down to think, too, because Marlboro is my favorite cigarette, and I know it will be yours, too, once you make the acquaintance of that filter, that flavor, that flip-top box. As the man says, you get a lot to like with a Marlboro.

Well, sirs, smoking and thinking thus, my eye happened to fall on an ad in a campus newspaper which said: "WIN A COMPLETE WARDROBE! Touhy's Toggery, the campus's leading men's store, announces a contest to pick the best-dressed man on campus. The winner will receive absolutely free a complete new wardrobe!"

Struck by a sudden inspiration, I took pen in hand and wrote a letter to Mr. Touhy of Touhy's Toggery: "Sir—I see by the paper that you are giving a complete new wardrobe to the best-dressed man on campus. What a ridiculous idea!"

"Obviously, to be the best-dressed man on campus, you must first have a lot of clothes, and if you have a lot of clothes, what do you need with another wardrobe?"

"Touhy's Toggery should give a new wardrobe to the worst-dressed man on campus. Me, for instance. I am an eyesore. There isn't a crow in town that will come near me. Three times this month the Salvation Army salvage truck has picked me up. Esquire has canceled my subscription."

"I submit that a vote for me is a vote for reason, a vote for equity, a vote for the American way!"

With a flourish I signed the letter and sent it off, somehow feeling certain that very soon I would be wearing a complete new wardrobe.

And I was right—because two weeks later I was drafted.

Always fashionable, always correct for any occasion, is the bright red and white flip-top box of Marlboros, made for your pleasure by the sponsors of this column.

MS ROTC Cadets Need Five Flyers

Tech MS ROTC Cadets must lose the opportunity to get Class I Pilot licenses if the quota of five graduating seniors in ROTC Flight Training Program is not met by Friday.

Seniors who are going to graduate this spring and who have already finished their ROTC courses, said Maj. John F. Henry, are also eligible for this quota. Seniors who have already passed the Class I physical.

Tech was given a chance to enter this program of light-wing aircraft training when LSU could meet the entrance requirement. Any seniors who meet the above requirements are asked to contact Major Henry as soon as possible.

Bill Faces Rough Road

AUSTIN, Oct. 16 — A long rough road appeared inevitable for the administration's lobby registration bill today after a Senate committee pointed out numerous loopholes. There's not a lobby bill the you can write that somebody can get around... there's plenty of ways of going around this bill, wearily admitted Sen. Crawford Martin, who was fired question on his bill for about two hours.

Texas Death Toll Rises

Texas Wednesday counted 12 deaths from violent and flood producing weather stretching back to Sunday.

Eight persons perished in auto mobile smashups on rain-slicked highway during the period. Three others drowned. Four of the traffic deaths occurred Wednesday.

Nixon Shows Concern

SAN FRANCISCO, Oct. 16—Vice President Nixon said today the United States is concerned over the possibility a "miscalculation" could start a spreading war in the Middle East.

"An exchange of rifle or machine gun fire across a border followed by bringing in heavier weapons and then involvement of affected countries and their neighbors in large-scale fighting is the thing we fear in this situation," Nixon said at a press conference before flying back to Washington.

Tech Dairy Judging Team Competes Monday At International Contest

Tech's four-man dairy industry judging team left Tuesday for the 23rd Collegiate Students' International Contest in Judging Dairy Products in San Francisco where it will compete against 19 other teams from all over the nation Monday.

Members of the team are Max Miller, Dan Addison, Marlin Ferguson and J. B. Baccus Jr., all seniors. Coaching the team is Dr. J. J. Willingham, dairy industry department head at Tech.

FELLOWSHIPS OF \$1,800 and \$1,650 will be offered to the schools of the two highest ranking teams. Co-sponsoring the annual contest are the American Dairy Science Assn. and Dairy

... Court Officers

fication should be referred to the Student Council president who shall appoint a person or persons to represent the Student Council in presenting the protest before the Tech Supreme Court.

3) The above motions should in no way be construed to in any way change the requirements for a Supreme Court hearing as set forth in the student body Constitution.

IN NOMINATIONS for council faculty sponsor Mr. Ernie Kiesling was re-nominated and Ronnie Averyt was nominated.

A motion was passed stating that the Student Council grant the Student Union permission to approve its own publicity. A motion giving responsibility for publicity approval to the Student Union Program Director assistant died for lack of a second.

On the out-of-town trip, Alexander reported that work is continuing, and the Santa Fe Railroad has been notified and is working on plans.

Industries Supply Assn.

In the contest, ten samples of milk, butter, cheese and ice cream are judged by each contestant.

Texas and California will have the largest number of students competing in the contest, according to the Dairy Industries Supply Assn. Texas will be represented by the Texas Tech team and one from Texas A&M.

Scholarship Goes To Jean Schepers

A Tech sophomore home economics education major, Jean Schepers of McGregor, has been awarded a \$250 Texas Concrete Block Scholarship for 1957-58.

Announcement of the award was made by Dr. S. M. Kennedy on behalf of the Committee on Scholarships and Awards at Tech. Selection of Miss Schepers was based on scholarship, character and citizenship.

Her grade point average for the spring semester of 1957 was 2.75 and she tied with another girl for having the highest grade average in Tech's Home Economics School.

Miss Schepers' activities during her freshman year included social chairman of the Home Economics Club, a member of the varsity show, captain of her dormitory and member of Pi Beta Phi social sorority.

The Texas Concrete Co. of Lubbock awards the scholarship each year.

Picadors Clash Tonight With West Texas State 'B' Team

by MITCH MAYBORN
Toreador Sports Writer

Tech's freshman football team, the Picadors, tangle with the West Texas State "B" tonight at 8:00 in Jones Stadium.

Last week the Picadors received a 39-0 drubbing from Tyler Junior College in Tyler. Freshman coach, Tom Hamm stated, "I wasn't disappointed in our boys, Tyler is the 10th ranked junior college team in the nation."

The West Texas "B" was smothered by Hardin - Simmons University in their only game so far this season.

Center E. J. Holub of Artesia, New Mexico, left end, Mike Seay of Andrews, and left half, Jim

Williams of Sudan have all turned in top notch performances.

Admission to the game will be \$1.00 for adults and 50 cents for children. Tech students are admitted free with their I. D. cards.

Picador Starting Lineup

LE	Mike Seay	Andrews
LT	Dale Robinson	Stanford
LG	Kim Koulikos	Artesia
C	E. J. Holub	Artesia
RG	Mike Nichols	LeFors
RT	Kelly Gilbert	Oklahoma City
RE	Tom Turner	Fort Worth
	or Jim Brock	Fort Worth
QB	John D. Bryant	Hereford
LH	Jim Williams	Sudan
RH	Fred Calcutt	Belaire, Md.
FB	Howard Bradford	LeFors

Tom Hamm

Sports Briefs

NEW YORK, Oct. 16 (AP) — Ted Williams of the Boston Red Sox won his ninth American League slugging championship and Willie Mays of the New York Giants his third National League title in 1957. Williams' .731 average was the highest for the majors in 16 years.

Williams collected 307 bases in 420 times at bat, figures compiled by The Associated Press disclosed today. Among the 39-year-old outfielder's 163 hits were 28 doubles, 1 triple and 38 homers. Ted, who also won his circuit's batting crown, had the previous high slugging percentage—.735 in 1941. The big league record is .847 set by Babe Ruth in 1920. Williams also finished on top in the slugging competition in 1942, 1946, 1947, 1948, 1949, 1951 and 1954.

Mays slugged .626, edging Stan Musial of St. Louis and Hank Aaron of Milwaukee. The Giants' centerfielder had 366 total bases in 585 trips.

CLEVELAND, Oct. 16 (AP) — Hank Greenberg was fired today as general manager of the Cleveland Indians. The board of directors of the baseball club served notice at a special meeting this afternoon that his contract would not be renewed.

DALLAS, Oct. 16 (AP) — Southern Methodist disclosed today it is negotiating with Notre Dame to play next year's game in the Cotton Bowl in Dallas to kick off the huge state fair of Texas.

Swimmers Begin Without New Pool

Texas Tech's swimming team has been conducting workouts for the past three weeks without the benefit of a swimming pool.

The pool in the new Tech Gym is not ready for use so the swimmers are holding a pre-conditioning program of exercise which includes weight lifting, pulley work and body conditioning. This will continue for two more weeks.

THE VARSITY team this year will be the first to compete in the Southwest Conference for title. The team consists of 22 men.

Bill Lewis

The returning lettermen are Bill Lewis, Jess McIlvain, Bill Pittman and Chuck Strehli. Charles Brown, Carl Cannon, Harry Van Horn and Norman Womack are the returning freshmen from last year.

The varsity prospects are freestyle, Brown and Paul Sikes; breaststroke, Van Horn and Carl Cannon; and diving, McIlvain and Strehli.

There are 19 trying out for the freshman team, the largest that Tech has had. Prospects are freestyle, Jim Davis, Moe Jones and Bill Jones; backstroke, Paul Cooper and Tex Long; breaststroke, Bill Nogueira and Dick Phillips; and diving, Eugene Holt and Bill Smith.

Coach R. W. Kirelis will pick the relays for both teams after he has seen them in the water.

The varsity will swim twelve teams this year. Their first meet will be the Southwest Conference Relays on Dec. 21.

During the rest of the year they will swim dual meets with Rice Institute, SMU, Texas University, Texas A&M, Houston University, and New Mexico University.

The varsity will end their season swimming the Southwest Conference Meet at a site to be determined later.

WICK ALEXANDER will be assisting Tom Hamm in the Picadors opening home game against West Texas "B" here tonight. Alexander started the season as one of the leading contenders for Raider quarterback but suffered an injury and had to give up football.

Baylo
The Bears have been slow-starting, just as they were last year. With two wins in four starts, the season nationally ranked Baylo hasn't accomplished much.
Last year they barely got on with four victories while dropping two close decisions to top-ranked Texas A&M and Texas Christian University. They made many costly punting mistakes in the season but that first half of the season bore fruit shifting into high gear for the last half of the season.
Once they got rolling, they were on to defeat the Volunteers in Tennessee 15-7 in the Sugar Bowl. Despite being held to a net 13 yards rushing by Miami's new
whelming defense, the Bruins have averaged 3.8 yards per punt in play through four games so far this year. There have been few long runs to bolster the average.
Two hundred-ton pound fullback, Larry Hickman roars through the middle of the University of Houston line for one yard carry. Quarterback Lee Humphrey contributed a 33-yard dash against Villanova.
Other than those two play most Baylor ground sorties have been of the grind-it-out under 10 yards variety. There has been no Del Shofner at hand to make that breakaway runs of last season.
Punting, supposed to be a Baylor weak point with the graduation of the Southwest Conference's top kicker, Shofner, has thus far been anything but weak.
Larry Hickman and the No. 1 fullback, Bill Dennis have given Baylor a 413 team punting average to date. Hickman is 6th in the nation with a 42.3 average for the season. Dennis averaged 46.3 on three punts last Saturday night against Arkansas. He has a 39.3 average for the season.
Doyle Traylor leads the Southwest Conference in passing. So far this year he has attempted 57 completed 24, three of which scored. Five have been intercepted. However, he has a 471 percent completion and those that connected have averaged 10 yards each, for a net gain of 239 yards. Traylor was the leading passer against Arkansas last weekend.

Baylor Power Still Unleashed

The Bears have been slow-starting, just as they were last year. With two wins in four starts, pre-season nationally ranked Baylor hasn't accomplished much.

Last year they barely got out with four victories while dropping two close decisions to top-ranked Texas A&M, and Texas Christian University. They made many crippling mistakes in the games of that first half of the season before shifting into high gear for the last half of the season.

Once they got rolling, they went on to defeat the Volunteers of Tennessee 13-7 in the Sugar Bowl. Despite being held to a net 19 yards rushing by Miami's over-

22 tries, he completed 6, and had one intercepted. However, he threw two touchdown passes.

Starting for Baylor at left end will be Earl Miller, 190 pound senior from Belton. Miller is third in the Southwest Conference in total number of passes received. He has caught 8 and gained 146 yards. This gives him an 18.3 yds. average per pass caught.

Against Arkansas Miller caught only one. However, that was a 46 yard touchdown play. This gives him two touchdown passes completed this year.

Bob Jack Oliver fills the left tackle slot. Oliver weights in at 223. The senior from Abilene has

earned two letters at Baylor. He has figured in 29 tackles this year.

Pulling at left guard is Dick Pyburn, 196 pound junior from Shreveport, La. At right guard is Clyde Letbetter, 218 pound senior from Conroe. Letbetter is backed up at right guard by Charles Horton of Waco.

Center post is filled by Larry Cowart, from San Antonio, two-year letterman on the Baylor squad. As line-backer, Cowart has figured in 34 tackles.

Charles Bradshaw, right tackle, has figured in 18 tackles unassisted, with credit for 20 assists.

Starting at right end will be Jerry Marcontell. Marcontell has

been on the receiving end of quarterback Traylor's passes more than anyone to date, having snared nine. He has scored once and has gained 57 yards through the air, for a 6.3 average.

Last week, against Arkansas, he caught two, one of which scored. Traylor will start at quarterback. The 180 pound senior is a dangerous opponent and passes with accuracy. He is running a 47.1 average of passes completed and he throws a lot.

Left half, Dick Clark, 186 pound junior from Waco, has carried the ball 27 times for a total of 110 yards gained. He has a net average of 4.0 yards per carry. Clark intercepted one pass.

Right half Bobby Peters has carried 19 times for a total of 59 yards gained. He returned one kickoff 12 yards.

Fullback, Larry Hickman, hails from Kilgore. He leads in net yards gained with 227. He has carried 52 times for an average of 4.4 yards per carry. The longest running play this year was turned in by Hickman when he tore off 41 yards against the University of Houston.

As far as Tech is concerned, the "good old days" were exactly that in its rivalry.

Tech sported a 4-3-1 margin over Baylor in its sporadic series through the 1946 engagement, but the last seven Bear teams to meet the Red Raiders have been successful. Currently, the bulge is 10-4-1 in Baylor's favor.

Baylor grabbed a 14-7 victory in 1942 and settled for a 7-7 tie in 1945 before Texas Tech took its last win in the rivalry, 13-6 in 1946.

After that '46 victory came the deluge of these Baylor triumphs: 1947-32-6, 1948-13-0, 1949-28-7, 1950-26-12, 1951-40-20, 1952-21-10, 1956-27-0.

Long Runs Featured in Past Games

With the coming of the Baylor-Tech game Saturday night, the Raiders of the past can remember quite a few times that their mates and the Braves have broken loose on long scoring plays. Probably no other series in the history of Tech has produced as many long dashes as the Baylor series.

The longest run was Bill Coleman's 91 yard punt return for Baylor in 1942 with the Bears winning 14-7. From scrimmage the lengthiest sprint was by Tech's Bobby Cavazos on his 88 yard dash in

Baylor's 40-20 victory in 1951. Other long runs for the Raiders were Bobby Close's 76 yarder in 1950 and D. M. McElroy's 72 yard dash in 1934.

For Baylor, other long sprints have been turned in by L. G. Dupre, on his 60 yard romp in 1952, and a 50 yard pass from the hand of Traylor to All-American Shofner last fall. Bobby Jones made a fine 56 yard punt return for the Bruins last fall but did not hit the promised land.

COACH SAM BOYD

whelming defense, the Bruins have averaged 3.8 yards per running play through four games so far this year. There have been few long runs to bolster the average.

Two hundred-ten pound fullback, Larry Hickman roared through the middle of the University of Houston line for one 41-yard carry. Quarterback Larry Humphrey contributed a 33-yard dash against Villanova.

Other than these two plays, most Baylor ground sorties have been of the grind-it-out under 15 yards variety. There has been no Del Shofner at hand to make the breakaway runs of last season.

Punting, supposed to be a Baylor weak point with the graduation of the Southwest Conference's top kicker, Shofner, has thus far been anything but weak.

Larry Hickman and the No. 2 fullback, Bill Dennis have given Baylor a 41.3 team punting average to date. Hickman is 6th in the nation with a 42.3 average for the season. Dennis averaged 49.3 on three punts last Saturday night against Arkansas. He has a 39.3 average for the season.

Doyle Traylor leads the Southwest Conference in passing. So far this year he has attempted 51, completed 24, three of which scored. Five have been intercepted. However, he has a 47.1 percent completions and those that connected have averaged 10 yards each, for a net gain of 239 yards.

Traylor was the leading passer against Arkansas last weekend. Of

Super Sub!

It's been said that the atomic submarine "Nautilus" stays submerged so long that it only surfaces to let the crew re-enlist.

Perhaps for this reason, the Navy has taken valuable space aboard the "Nautilus" for the only soft-drink vending machine in the entire submarine fleet.

Naturally (or you wouldn't hear about it from us) it's a Coca-Cola machine. And not unexpectedly, re-enlistments are quite respectable.

Rugged lot, those submariners. Great drink, Coke!

RECIPE FOR MUD

Mud pies and oil wells have one thing in common—mud.

If Suzy tries to bake her pie it either gets hard or crumbles. The same thing can happen to drilling muds which are used to lubricate bits and to carry away rock cuttings.

The deeper you drill, the hotter it gets, the greater the pressure. Three to four miles down into the earth, temperatures often exceed 400°—twice that of boiling water. In such heat, drilling muds used to break down, solidify. Drilling stopped—wells had to be abandoned.

Mobil scientists worked years on the problem—part of the company's \$1.5 million-a-month research program. Now the answer—a mud that stays muddy at higher temperatures and greater pressures than ever before.

This Mobil Recipe for Mud made it possible to

complete the world's deepest well—four and a quarter miles, enabling America's oil men to tap heretofore inaccessible petroleum.

Chemical research is only one of many professions represented on the world-wide roster of Mobil personnel. We also employ nuclear physicists, geologists, mathematicians, engineers of every type, marketing analysts, marketers . . . people prepared to handle more than 100 different positions.

If you qualify, the Mobil companies offer you an opportunity to build a career through training that will utilize your talents to the fullest . . . constantly challenge your ingenuity . . . reward you with a lifetime of richly satisfying work.

For more information about your opportunity with the world's most experienced oil company, see your College Placement Officer.
