Tech Board Votes Bond Sale

\$2,600,000 Will Finance Buildings; West Hall To Be Athletic Dormitory

By JAMES F. SMITH
Toreador News Editor

Tech's Board of Directors has authorized the issuance of \$2,600,000 in bonds on a nine-year basis for financing the college's building program.

The board voted the sale at a Monday meeting during which it also approved the recommendations of the building committee in regard to pressing needs for new construction and okayed the establishment of West hall as an athletic dormitory.

Decision concerning the sale came after representatives of two bonding firms had given the board information on interest rates and present bond market conditions. The two men—Charles Wyatt, representing Emerson, Roche and company, and Garrett and company, San Antonio, and Fred Deaton, representing Central Invest-

ment company, Dallas,—were of the opinion that the bonds could be marketed at this time at an interest rate of between 1.50 and 2 percent, the rate being lower at present than it is likely to be in the fall.

Both representatives said it would be advantageous to Tech to market the bonds independently of other schools.

Further discussion on preparation of the bond record and sale was to be undertaken at a 9 a. m. breakfast yesterday in the Navajo room of the Hilton.

In line with the decision on the sale of the bonds came the board's approval of the recommendations of the building committee concerning priority of new construction.

The three-man committee, composed of Chancellor E. Weymouth, Amarillo, chairman; Leon Ince, Houston, and Robert B. Price, El Paso, made its recommendations after a comprehensive study of the present and anticipated needs for classroom, office, and laboratory space.

Some 16,000 square feet of classroom space is required immediately, the committee found. The quickest relief will come with the completion of the museum which will contain five classrooms.

The committee advised that the first of the anticipated construction should be the addition of two three-story wings to the Administration building, two wings to the engineering building, and some additions to the Home Economics building.

All three should be considered as one unit and should be constructed at the same time, the committee said. This program would alleviate existing crowded conditions and provide for handling an enrollment which is expected to reach \$100 in 10 years.

The committee recommended that the A3 and Engineering building wings be built at a probable cost of \$700,000 per building. Weymouth emphasized that this figure was only an estimate.

The next consideration of the committee is expected to be the construction of a pure science building and some aid the agriculture division, said Weymouth.

The board's approval of the establishment of West hall as the athletic dormitory followed presentation by Ince of three possible choices for setting up a residence hall for athletes. Other suggestions were creation of a new dormitory and use of two floors of Deak hall.

As discussed by the board, two floors of West and approximately one-third of the dining room would be set aside for use by the athletes. The dining room would be partitioned.

See ADDITIONS Page 5

ALL WET—Lubbock residents weren't the only ones bothered by flooding during the recent downpour. Tech also got its share, as indicated by the picture above. Workmen, directed by George Long, superintendent of buildings and grounds, pump water from the basement of the Library building. Flooding was only partial, covering the shipping room and a portion of the stacks. Resulting damage was slight. (Photo, Margaret Allen.)

Students Will Vote Tomorrow On Constitutional Amendments

Three amendments to the Student Constitution will be presented to the student body for ratification tomorrow in one of the most important elections of the year. Clint Formby, president of the Student association, has announced.

Students may vote in all divisional buildings from 8 a. m. to 12 noon. Voting booths will not be open in the afternoon. The Student Council will supervise the election.

The first two amendments concern

the method of electing the editors of The Toreador and La Ventana. Students who drew up the amendments are Orlin Brewer, The Toreador editor; Lloyd Greenwood, Student Council representative from the engineering division; Roy Trice, representative from arts and sciences division; Jerry Wilson, chief justice of the Supreme Court; and George Wilmoth, student chairman of the publications committee.

The following is proposed to amend Article VII, Section 704, of the constitution:

"The editor of The Toreador will be chosen jointly by the following student and faculty members of the publications committee:

1. A student representative from each division.
2. Student chairman of the publications committee.
3. Faculty sponsor of The Toreador.
4. Faculty chairman of the publications committee who is granted a vote if necessary to attain proper majority.

Not less than two weeks before April 1, formal notice must be made in The Toreador inviting applications for the position of editor.

The current editor of The Toreador shall submit three names of potential candidates whom he considers best qualified. The faculty sponsor of The Toreador shall submit three names of potential candidates whom he considers best qualified. Names of the suggested candidates and letters of application from all candidates, including those suggested candidates who desire to be considered, shall be received not later than April 1. The editor of The Toreador shall be selected before the expiration of thirty days following April 1. Five votes shall be required to elect with a quorum of seven members present.

The second amendment is worded the same as the above with the exception that the words La Ventana are substituted for The Toreador. It proposes to amend Article VII, Section 705, of the constitution.

Floyd Camp, graduate student drew up the third amendment with the advice of Formby, after obtaining 910 signatures to a petition requesting that graduate students be given the right to vote. The Supreme Court recently ruled that graduate students could not vote in campus elections under the present wording of the constitution when Camp contested the election rules of the April 12 primary. Camp was refused voting privileges in the election.

The following is proposed to amend Article I, Section 101, of the constitution:

"The Student Association shall consist of all undergraduate students who are duly enrolled in Texas Technological college. Any graduate student, who is enrolled for at least six hours of graduate studies, shall be entitled to vote but shall not be entitled to hold any office."

These amendments will go into effect if they are ratified by a majority vote tomorrow and are approved by Pres. D. M. Wiggins.

AN EDITORIAL

Tech Needs Proposed Amendments

Tomorrow two questions of the utmost importance confront the student voter. These questions are: (1) should the present method of electing the editors of The Toreador and La Ventana be changed, and (2) should graduate students be granted the privilege of voting in campus elections?

In the general spring election, only one person was declared eligible to run for editorship of La Ventana, and no properly qualified person made the effort of entering the race for the Toreador post.

Under the present constitution, any political opponent with nine hours of journalism, and a petition signed by 300 students, could have become editor of next year's Toreador by writing a letter of application to the Publications committee. Whether he had any aptitude for the job would have made little, if any, difference.

If the amendment passes, this situation could not recur. Who is better qualified than the Publications committee to choose editors? The choice will remain in the hands of students, and the committee will be able to make a thorough investigation of potential candidates.

The third amendment, if passed, will correct the old case of taxation without representation. Graduate students pay student activity fees and are governed by the same regulations as those that apply to undergraduates. The graduates should be entitled to a voice in their government.

These amendments are an insurance against future mistakes, and there is only a slight doubt that they will fall to pass. The important thing is that you, the intelligent voter, vote and make your voice heard.

La Ventanas Will Be Delivered Here Early Tomorrow

La Ventanas are scheduled to arrive on the campus early tomorrow morning according to latest word received from the delivery company Bob Williams, editor, has announced.

Distribution of the annual will begin at 1 p. m. in the basement of the journalism building. Only one annual will be allowed for each person, Jack Thompson business manager of the yearbook, said.

No cash will be necessary to procure an annual, Thompson said, though each student will be required to present identification.

Seventy-five extra copies of La Ventana have been printed and will be sold on a first come first serve basis after general distribution is complete. These books will probably go on sale the first part of next week.

Four lines, two for veterans and two for non-veterans will be set up at the distribution desk, Thompson indicated. To save confusion, each individual is asked to get in the proper line he said. The lines are also divided alphabetically, with those whose names fall between "A" and "L" forming one, "M" and "Z" forming the other.

Anyone desiring to pick up an annual for a friend must present a letter of permission in order to do so, Thompson said.

Two Students File For Editor's Office

Two applications have been submitted to the Publications Committee for summer Toreador editor, Dr. A. B. Strehl, chairman of the committee stated Monday; he refused to reveal names of the applicants, however.

Deadline for applications for editor and business manager at 5:00 this afternoon, Strehl said, no qualifications had been submitted to the committee by anyone desiring to be business manager for the summer publications.

These officers will be selected in a business meeting of the Publications Committee, Monday at 5:00, Strehl said. Sponsors of La Ventana and Toreador for the ensuing year will be selected also. R. A. Mills, professor of English, and Clark Schooley, assistant professor of journalism, respectively, are filling these posts at present.

Judgers To Enter Kansas City Meet

Tech's dairy cattle judging team will leave Saturday to participate in the American Royal Intercollegiate Dairy Cattle Judging contest, being held Monday in Kansas City, Mo. Roy Neely, lecturer in animal husbandry, said Monday.

Members of the judging team are: Tommy Hawlett, Paul Jones, William Krueger and George Piller. Neely will accompany the team as advisor.

This is the first intercollegiate dairy cattle judging contest to be held in Kansas City, Mo. Schools that are expected to participate in the contest are: Kansas State, Oklahoma A&M, Texas Tech, Texas A&M, Missouri University, Arkansas A&M and possibly Minnesota.

NO SENIOR DEAD WEEK

Seniors graduating May 30 will not observe any dead week and will not be required to attend any classes on or after May 19, date when senior final examinations begin, Dr. E. N. Jones, vice president, announced yesterday.

APPLIED ARTS MEET

Applied Arts Workshop will meet 5 p. m. tomorrow in X-26, said Mrs. Ethel Jane Bellier, assistant professor of applied arts.

Plans for a picnic, scheduled for Sunday afternoon, are to be discussed. Applied Arts staff and their families will be guests.

Top Women Students Awarded Pennants By Forum

Mary Findley Wins Music Award; Barbara Hazelwood Is High Soph

Mary Findley and Barbara Hazelwood were presented recognition awards and 15 new members of Forum were introduced at the Association of Women Student's May Day Luncheon Saturday.

Miss Findley, music major in piano, received the Mu Phi Epsilon achievement pennant for being this year's outstanding senior woman music major. She holds a 2.75 grade point average and is a member of Alpha Chi, honorary society for juniors and seniors, and Sigma Delta Pi, honorary Spanish fraternity. The presentation was made by Mrs. Margaret W. Walker, dean of women and national president of Mu Phi Epsilon, honorary music sorority. This is the first time such an award has been made.

Miss Hazelwood's 2.81 grade point average entitled her to the Forum pennant given annually to the sophomore woman who makes the highest grades during her freshman year. Miss Hazelwood is a member of Freshman Honor society and Kappa Phi Kappa club. Anita Oliver, Forum president, presented her the award.

New members of Forum, women's service organization, are: Pat Allgood, Margy Bullen, Joyce Byron, Margaret Clark, Elizabeth Craig, Billie Harvey, Alice Hix, Janet Moore, Sue Ann Roberts, Jane Skinner, Jeannine Smith, Rosemary Stubbs, Glenna Winston, Katherine Witty, and Marjorie Woods.

Qualifications for membership are that a woman have a scholastic average of B- or above, that she has completed 50 hours or more at the beginning of the semester when selected for membership, and that she has leadership abilities, high moral character, spirit of service, and general ability.

Purposes of Forum are to promote all worthy undertakings of the college, to create an unselfish interest in the welfare of the college, and to give every woman a part in extra-curricular activities. Miss Sue Rainey, assistant profes-

or of physical education for women, is sponsor.

"Women Yesterday, Today, and Tomorrow" was the subject of the main address delivered by Mrs. Walker.

The origin, growth, and progress of women through the ages was outlined by Mrs. Walker. She told the graduating seniors that they might not be able to do exactly what they want, but if they can't save what they want, to want what they have. In turn she reminded the women who will be in Tech next year of their interest in the college and the example they make of incoming students will measure and determine women's progress in Tech.

Mrs. Walker said that the leadership of the dean of women's office is only successful in what it can do for women on the campus.

Supper Tonight To Fete Soucis

Patronesses and alumnae of Sans Souci social club will be honored with an informal supper tonight, and members and pledges will be guests at a coffee given by the club's sponsors Friday.

The combination informal supper and garden party given by the club will begin at 7 p.m., at the home of Miss Judy Pierce, 3124 Twenty-first street.

The annual coffee given by Mrs. F. N. Michie and Mrs. Ray L. Chapelle will be from 4 to 6 p.m., at the Michie home, 2110 Seventeenth street.

DOUBLE T PICNIC

The annual Double T picnic will be held at B. F. Falls Lake Sunday at 11 o'clock, announced Marshall Getty, president of the association.

Graduating Seniors To Be Interviewed For Various Jobs

G. W. Carr, representative of Carr Geophysical Co., will interview June graduates with geology and petroleum engineering majors. Mrs. Jean A. Jenkins, executive secretary of the Placement office announced Monday. Carr prefers geology majors with extra courses in mathematics and petroleum engineering majors with a geology or geophysical option.

Business administration students will be interviewed Friday by M. H. Hall of the Burroughs Adding Machine Company for positions as salesmen with that company.

Students interested in either of these interviews may schedule individual interviews at the Placement office.

Stanford-Slaughter Gasoline Plant—A representative of the Stanford-Slaughter Gasoline plant, E. R. Wagner, will interview June grads Wed., in chemical and mechanical engineering and petroleum engineering with a production option, Mrs. Jean A. Jenkins, executive secretary of the Placement office, announced Friday.

Jack Rowe of the General Geophysical company will interview June graduates Thursday in the following departments: geology, mathematics, physics and petroleum engineering with a geology option. Mrs. Jenkins has announced. Qualified students may schedule personal interviews at the Placement office.

Soil Conservation Service—Seniors interested in the soil conservation service may hear Marshall Howard, district supervisor of the Soil Conservation service who will conduct a general meeting at 10 a.m. Thursday in the Aggie auditorium. W. L. Stangel, Dean of Agriculture announced Monday.

The meeting is for all seniors in the division of agriculture and all who plan to attend should file their names in the dean's office.

Exams For Non-Graduating Students To Begin May 26

Final examinations for students, exclusive of graduating seniors, will begin at 8 a.m. Thursday, May 25, and end at 10 p.m. Wednesday, June 1.

Examination hours for classes with laboratories will be based on the lecture hours rather than the laboratory hours, except in case of conflict when the laboratory hour may be used, stated the Schedule committee which arranges the examination hours. If the course is wholly laboratory, the hour for the examination will be one of the laboratory hours.

If there is any class not scheduled a petition must be made to the Schedule committee to place the examination at a definite time. Any change in the schedule which would affect a group of students must be approved by the schedule committee. Requested changes in the schedule of an individual student will be considered by the dean of the division in which the student is registered, the committee has stated.

Assembly For School Heads Slated At Tech July 11-16

A conference for public school administrators is slated at Tech July 11-16 under joint sponsorship of the college and Lubbock public schools.

The plan of the conference is to give men and women practical assistance in everyday school problems, stated Dr. E. N. Jones, vice president and spokesman for the conference. The date of the conference is set for the last week of the first summer school session.

SOCIOLOGY CLUB

New officers for the Sociology club are: Barbara Scott, president; Corine Thomas, vice-president; Ruth McMinn, secretary and Thala Foster, treasurer. The officers were elected at the regular meeting last week.

Seniors Decide Commencement Procedure At Monday Meeting

Members of the senior class have voted to receive their diplomas individually at commencement exercises May 30.

Because of the large size of the graduating class, the question had arisen as to the feasibility of allowing each graduate to receive his diploma individually.

This year's graduating class is estimated at 1,243, but it is expected that 900 will attend the ceremony, James G. Allen, dean of men and chairman of the convocation committee in charge of commencement, said at the senior class meeting Monday afternoon.

Dean Allen told the students they had the choice of receiving their diplomas one by one, or being awarded them en masse. He estimated that the entire ceremony, as approved by the students, will last one hour and 40 minutes, one hour being allowed for presentation of diplomas.

The students also voted not to receive dummy diplomas during the exercise. The use of the dummy diplomas was proposed to prevent embarrassment arising from the unexpected appearance of seniors who have previously completed their college work but who have not participated in a graduation exercise. In such an event, a diploma would not be available for the returning student. Dean Allen said he would inform the registrar of students decisions. In case dum-

mies are presented, the diplomas will be mailed to graduates within a few weeks after commencement, he explained.

Instructions concerning commencement will be released to students this week, Dean Allen said. Steps will be taken to assure each student of receiving this information.

Senior invitations have arrived at both bookstores and caps and gowns will be available three to five days before graduation, Dean Allen added.

Plans to construct a fountain on the campus as a senior gift were abandoned by the class when it was learned that the \$1,077.34 received from the senior carnival would be insufficient to cover the cost of such a project.

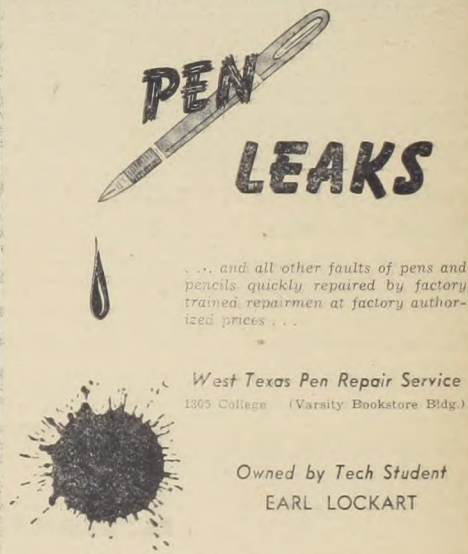

Francis Brockman, president of the class, asked that suggestions for use of the money be given to himself, Jack Noyes, Milton Butler, LaDot White, or Ed McElroy, members of the senior gift committee.

Scholarship Plan Seen For Women

A scholarship program has been devised for Women's Dorm IV in an effort to improve grades of residents, Cheri Hannis, chairman of the scholarship committee, said.

Two study rooms are being prepared on the second and third floors of the dorm and will be equipped with tables, chairs, waste baskets, curtains and bulletin boards. These rooms will be used only for study halls, Miss Hannis said.

Names of approximately 30 residents who have been chosen for high grades in their particular field will be posted on the bulletin boards in the study rooms and any one desiring help may contact one of these women.

The plan is already underway and will be active to aid residents in preparation for exams, Miss Hannis said.

Newman Members Select O'Connell

Tim O'Connell will be installed as president of the Newman club at its first regular meeting next fall, Bill Luke, current president, said Monday.

Other officers for the fall semester are: Sam Destefano, vice president; Sammie June Lanham, recording secretary; Matt Sweeney, corresponding secretary; Herbert Wilde, treasurer; and Matt Garcia, reporter.

The new officers were elected May 2, Luke said.

Activities for the club include a sport dance from 9 to 12 Saturday night in Parish hall of St. Elizabeth's church, said Luke. Music will be furnished by records.

The club will also have a picnic at 4 p.m. Sunday in MacKenzie park.

Language Profs Attend Banquet

Professors of foreign languages attended the banquet given Saturday night in the Hilton hotel by members of Llano Estacado chapter of American Association of Teachers of Spanish and Portuguese.

Dr. C. B. Qualia, head of the foreign language department spoke on "Cervantes, Soldier and Humanist."

Other faculty members at the dinner were Mrs. Eunice Gates, professor; Dr. A. B. Strehli, assistant professor; and Dr. T. E. Hamilton, associate professor.

Teachers of Spanish attending the banquet were from colleges and high schools as far east as Rotan and as far north as Canyon, Dr. Qualia said.

Drane Hall Elects New Fall Officers

Emma Jewell Morrison was elected president of Drane hall for the fall term, Lucille Sorrells, president, said Monday.

Other officers are: Ruth Willis, vice president, Imogene Schrank, secretary; Jane Stovall, finance chairman; Pat Noland, A.W.S. representative; Margaret Brown, junior representative; and Gloria Watson, sophomore representative.

There will be a run-off between Su Mallow and Billie Freeman for the office of senior representative, Miss Sorrells said.

A handful of patience is worth more than a bushel of brains. —Dutch proverb.

Kemas Social Club Installs New Officers At Meeting

New officers of Kemas social club were installed at the organization's regular meeting recently.

Installed were Thurman Reynolds, president; Howard Hayes, vice president; George LaRoe, secretary; Hooper Sanders, treasurer; Gene Thomas, pledge trainer; Joe Fleming, athletic director; and ex-

ecutive council members David Leaverton, Howard Schmidt, Paul Ward and Boyd Webb.

WESLEY PICNIC

The Wesley players initiation and picnic will be at 5:45 p.m. Friday in Aggie Grove, Mrs. Cecil Matthews, hostess of the Methodist Student center, said.

Forum will be lead by Mrs. Matthews at 7:15 p.m. tonight in the

student center. Subject of discussion is "Friendship, Courtship, and Marriage".

CENTAUR BREAKFAST

The annual Mother's day breakfast of the Centaur social club was held Sunday morning, Oscar Allen, club reporter said. Guests were the member's mothers.

Those present attended services at the First Presbyterian church after breakfast. President D. M. Wiggins and Dr. and Mrs. E. N. Jones were special guests of the club.

DORM PROGRAM

The Four Techsans, male quartet, presented an after-dinner program Sunday in Women's Dorm IV, Lavora Manning, social committee chairman for the dorm, said.

The Techsans sang: "After Dark", "The Animals A'Coming", "Honey Gal", "Mood Indigo", "Dry Bones", "I Won't Kiss Katie", "Coney Island Baby", and "Little David, Play on Your Harp".

H. E. Installation Slated Tomorrow

New officers of the Home Economics club are to be installed in a meeting 7:15 p.m. tomorrow in annex G. New officers are: Marjion Woods, president; Joy Williams, vice-president; Elizabeth Craig, secretary; and Patsy Stout, treasurer, stated Miss Woods.

Retiring officers are: Martha Lewis, president; Thelma Zimmerman, vice-president; Mary Welch, secretary; and Ruth Ann Fehl, treasurer. Mrs. Mabel D. Erwin, professor and head of clothing and textiles is the faculty sponsor.

The program is in honor of graduating seniors.

Margaret W. Weeks, dean of the division, will present American Home Economics Association certificates to the seniors.

Billy Harvey, Nettie Jean Shear, Elizabeth Craig, and Jeannine Smith will give talks revealing the club's expectations of the seniors. Virginia Barrow is to deliver a farewell poem she has written.

Miss Woods said that girls are requested to wear white or light colored dresses.

SETS THE PACE IN SPORTS

Should Education Stop When Schooling Ends?

In this day in which getting a college education has become the accepted practice, one needs to pause occasionally and ask the value of such an undertaking.

Most everyone today has come to realize that the great American myth is just a myth—the story of a phenomenal rise from rags to riches which often greets the ear is taken with a grain of salt. Rapid accumulation of wealth, is not possible through honesty, perseverance and hard work, many Americans tell themselves. Persons who accomplish such feats today are either lucky, or happen to have the right answer on a radio quiz program.

The man who is to prosper must rely on his wits. He must be capable of accepting responsibility; he must be prepared, so he enrolls in college. This has been his answer to the Horatio Alger type of success. He has come to feel that he needs a practical basis on which to build his future, and this basis is formal education.

Dwight Allison, managing editor of the San Antonio Light, left a thought with those who attended the student session of the Southwestern Journalism congress here recently, that might lead one to doubt the validity in many instances of getting a college degree. He was asked how college trained students, with which he had come in contact, compare with those who begin work as reporters immediately after graduation from high school.

He indicated that the college trained man, for a four or five year period, was able to produce better results in the newspaper field than those who had never attended an institution of higher learning. After that time, he said, they tend to level off, and one can tell very little difference in their abilities.

Whether his answer was a simple indictment of the schools of journalism over the state, or of a liberal arts college education, we do not profess to know.

That the college trained man does have an edge in the initial stages, Allison readily admitted. But why after a time, does the college man lose this advantage?

We believe that it is due to a feeling of complacency and security that the college man accepts all too readily. Men who are forced to miss extensive formal education are able to compensate through constant study and awareness of their shortcomings.

In an effort to get ahead of his fellowman, the average student of yesterday started out to get his college education. Today, the college diploma has come to be the style, and in the struggle for the diploma, the student is apt to forget more important elements.

The college man is losing his advantage, first, because he has more college trained competitors, second, because he is prone to feel that he has "achieved education" simply by going to school an additional four years. He has forgotten that education is a life-long process, that education in its truest sense ends only at the grave.

When the graduate faces the world, he has two great advantages. The first naturally, is that he is often better educated than his fellowman. Second, because of this education, he expects and demands more from life.

It is often this point that false thinking is apt to start. Society as we know it is extremely competitive, and though the college graduate may find it easier to get a job because of his degree, he may discover also that it aids him little in making a success of that job once he has it.

His college education has given him historical facts, a basic knowledge of economics, of language, perhaps even a philosophy. If, however, that philosophy is one that tells him he has a running start on the world, he may be wrong.

He may feel like a hare at the beginning of the race, but if he rests on his laurels, forgets his education gymnastics and fails to keep in top condition by following current events and world developments, he may find after all that the turtle has won the race again.

Ideas are like stars; you will not succeed in touching them with your hands, but like the seafaring man on the desert of waters, you choose them as your guides, and following them, you reach your destiny.—Carl Schurz.

"It is astonishing with what little wisdom mankind can be governed, when that wisdom is its own."—Dean Inge.

BY FRANK McNEILL

Crumbs Of Wisdom

In keeping with my standard practice of working for the welfare of the students, I am going to discuss a subject which might possibly be of interest to someone in this great college.

It has been called to my attention that there are a number of budget cutting methods whereby a student can live for less than \$450 per month. If you are paying more than \$200 rent per month, you had better move. There are several places that are less expensive: the city jail, one of Lubbock's two underpasses, or one of the towers of the Ad building. You might possibly live in a tent. A nice central location like the middle of the circle would give you more sack time as you wouldn't have to leave for class quite so early.

You can eat for less than \$250 too. Try eating hamburgers made of dog food and broiled over a slow radiator. They're delicious. Other dishes that are inexpensive and easy to prepare are water-cress ala mud, fried horned toad, roast pigeon (which you have done in with your little sling shot), and basted hemstitch.

Clothes are an easy item to cut down on. You can make dandy items of wear from flour sacks, sackcloth, and worn out bedding. If you aren't too good at sewing, you

can economize by wearing the same clothes all the time. If the clothes happen to get dirty, wear them in the shower when you take a bath. Sleep between the mattress and the bedsprings for a fine press job. Clothes that wear out aren't had to patch. If you haven't a needle and thread, use glue to hold the patches on. If you think it might rain, use water proof glue.

There are a few items that you may have to pay a little money for at times, but by shopping around you can usually find a store that doesn't charge excessively high prices. Lubbock Sales is one of the stores. Some people claim that the stuff that they sell is a little old fashioned, but so is a delightful drink. When I know how to make. Besides, just look at the comeback that long skirts made. You might bring back the straw hat, pegged trousers, and sleeve protectors if you try hard enough.

School supplies may run up to a considerable amount if you aren't careful in watching your expenses. Personally, I find that a slate and a piece of chalk are entirely satisfactory. Chalk can be bought in economy carload sizes, and the slate can be used over and over again. When it gets covered with writing, you can either lick it off or wipe it with your sleeve.

The College Teacher

If he's brand new at teaching, he lacks experience.

If he's been teaching all his life, he's in a rut.

If he dresses decently, he's trying to be a fashion plate.

If he thinks about something besides clothes, he's a bum.

If he seldom admits a mistake, he's arrogant.

If he ever admits a mistake he ought to go back to bricklaying.

If he plants an occasional joke in his lectures, he's a comedian.

If he never condescends to an academic nifty, he's duty dull.

If he goes to chapel with regularity, he's a hypocrite.

If he shies at sermons, he's a heathen.

If he writes books, he's neglecting his teaching.

If he never publishes, he never had thought worth printing.

If he hands out plenty of high grades, he has no standards.

If he hands out plenty of low grades, he's a butcher.

If he uses notes, he's unoriginal.

If he gets along without notes, he's an ad-libber.

If he sticks to his specialty, he's got a one-track mind.

If he tours the encyclopedia, he's a show-off.

If he can't identify Fritzie Zivich and Jack Kramer, he isn't human.

If he listens to sports broadcasts, he's illiterate.

If he gets paid for outside work he's greedy.

If he does outside work for nothing he's a sucker.

If he stands up while teaching, he's oratorical.

If he sits down while teaching, he's feet hurt.

If he's young, he needs more seasoning.

If he's old, he's been better days.

If he gives a lot of quizzes, he's a slave-driver.

If he seldom gives a test, he's too lazy to read papers.

If he gets his name in the newspaper, he's publicly mad.

If he never appears in the public prints, he's so much deadwood.

If he takes an active part in faculty business, he's a politician.

If he never serves on a committee, he's a work-dodger.

If he's on good terms with the president he's a sycophant.

If he doesn't wear out the stairway from the Ad building, he's disloyal.

—Harold Larrabee

The opportunity to do mischief found a hundred times a day and that of doing good once a year.—Voltaire.

A bingo party was included in the fun night program of the Recreation hall last night.

Friendly Advice On How To Run Paper Is Low

By ORLIN BREWER

MARRIAGE MILL is a term often hurled at modern day colleges. Off hand, one gets the impression from the current idea of the M.R.S. degree, that the college student will marry more quickly than his contemporary who never pursues education further than high school. Investigation reveals, however, that it's the people we leave in the home town that head for the altar first.

Not satisfied with the girls next door, the other young men dash off to college, wait three or four years and marry the girls next door to someone in a different town. They may not be a nicer or better girl than the ones back home. But after all, each knows less about the other and nothing enhances romance as much as . . .

MYSTERY of every school year is what goes with the first fifteen and one half weeks. With only time left in this semester for shouting, most of us find that everything else is still left undone. We know one graduating (?) senior who this week is reading a novel, doing three term reports, completing a correspondence course, helping illustrate an issue of a magazine with pictures yet to be taken. All this he must have completed by Saturday or his diploma isn't going to be worth a plugged nickel. Besides, he is carrying a full load of . . .

EXTRA CURRICULAR ACTIVITIES seem to be the boon of everyone during the dead-week period which is about to begin.

Close observers may find more than two philosophies prevalent during this week in which everything but rigor mortis sets in. This observer, not being very close, in years past has never been able to find students who thought dead-week was worth much for studying. It's a wonderful week for making trips to Hobbs, Big Spring or Amarillo. But what good does it do to cram during dead-week? If you learned it during the year you don't need to, of you didn't it's too late. Everybody who says this is just a big procrastinator, however, for come the night before that rugged final, he doesn't play poker or bridge or haunt the avenue. He just busts that book . . .

WIDE OPEN—We've been that way for letters in the Letters To The Editor column for a week or so now. With the semester about to leave its last sigh, we find less and less people interested in the way we run this newspaper. The Luthcrans are still complaining about Mr. Alschuler Potpourri, but they wrote Mr. Alschuler, not the editor. The last letter we received was from a fellow who wanted to give marriage-minded aggie some . . .

FRIENDLY ADVICE—on how to put out a paper without newsprint may be in order for this issue. As a matter of fact, we're writing this column in good faith. The last time we talked to Wayne Kittley, superintendent of Tech press, he had no more paper nor too many ideas about where he might get some.

Varsity Show Cast Will Present Acts In Tahoka Today

Members of the 1949 Varsity show, "Milestones in Melody," will make appearances in Tahoka and Lamesa today on their second road tour.

The troupe is scheduled to present a performance at 1:30 p.m. in Tahoka High school and a second show at 4 p.m. in Lamesa High school, Frank Junell, assistant to the president, said Monday.

The students have previously appeared in Seminole and Seagraves. They will go on their third and final out-of-town tour Tuesday.

Robbins To Head Engineering Group

Earl Robbins, junior electrical engineer from Santa Fe, N. Mex., has been elected president of the Engineering society.

Other officers chosen by the members at a Monday afternoon meeting include: Travis Tadlock, junior civil engineer from Amarillo, vice president; Allen Orr, junior chemical engineer from Lubbock, secretary; John Jackson, junior industrial engineer from Dallas, treasurer.

Horace Crawford, retiring president, said Monday that the society is to have a picnic at 2:30 p.m. Saturday at Mackenzie park. All engineers and their dates are invited, and no charge is to be made for the picnic, he said.

The championship softball game of the Engineering league is to be played at 2:30 p.m. Saturday at the park.

Double T Association To Sponsor Howdy Dance

The Double T association was granted sponsorship of the semi-annual "Howdy Dance" for next fall in the final meeting of the Student Council Monday night.

The association has sponsored the affair since its inception. Other organizations seeking to sponsor the dance were Phi Eta Sigma, freshman honor society for men, and the Tech Rodeo association.

Twenty Women Students Seek Part-Time Positions

Employment reports from the dean of women's office show that 20 women are seeking part-time jobs.

Nineteen women were employed through the office during April. Miss June Hanson, assistant to the dean of women said. The largest number received jobs in campus offices.

Twenty-five women did not find work during March and 17 new applications were received in April, she said.

of approximately \$12,000 for utility installations and remodeling incidental to the conversion.

Advantages given for the selection of West were that it is nearer the athletic field and that it would be more closely under supervision of the coaches.

Steve Matthews, city manager, and Clarence K. Whiteside, city commissioner, met with the board Monday afternoon to explain a proposal of the city to furnish water to the college at the regular commercial rate.

After W. T. Gaston, college business manager, had given the board facts about the water shortage at Tech last week, Matthews said that the city commission met Saturday and agreed to supply the campus with water at the regular

industrial rate.

The board, after hearing Matthews' explanation, authorized Gaston to enter into formal agreement with the city of Lubbock to furnish water to the college on a year-to-year basis as established commercial rates and in compliance with state health requirements.

The rate scheduled, under a contract, may be changed if and when the rate in the city is changed, and the city of Lubbock is not to be held liable should it be unable to supply water to Tech in the future, Matthews said.

Matthews stated that approval of the contract between the city and the college would mean that Tech would abandon use of its own campus water wells except for its boilers.

The board authorized Charles C.

Thompson of Colorado City, chairman, to execute contracts for storing part of this year's wheat crop in buildings located on the Panlex Ordnance plant grounds.

Weymouth estimated that the Panhandle wheat crop this year will be about 45 to 50 million bushels. Perhaps 16,500,000 bushels of wheat could be stored at the plant, figures indicate.

A sum of \$5,000 from the unappropriated funds of the college was voted by the board to be added to the \$5,000 in the Pantex fund to be used in temporary maintenance work and hiring of additional personnel for the plant.

The board approved the appropriation of \$5,000 for completion of the beef cattle barns and the appropriation of \$2,336.91 for salaries of student assistants in the

Library during the summer session. The latter sum comes from the unappropriated balance. Appropriation was also given to some \$2 leaves of absence for faculty and administration.

Attending the meeting were Thompson; Weymouth; Ince; Price; Mark McGee, Fort Worth; Charles W. Woodbridge, Dallas; A. B. (Pat) Mayse, Paris; O. B. Ratliff, Lubbock; Dr. D. M. Wiggins, president; Dr. E. N. Jones, vice president; W. T. Gaston, secretary to the board; and Frank Junell, assistant secretary. Absent was Kyle Spiller, Jackboro.

Most of the board members remained in Lubbock yesterday to attend the inauguration of Doctor Wiggins as fifth president of Tech. The board will meet again May 29 at Tech.

A SPECIAL OFFER TO THE GRADUATING CLASS ... JUNE '49

You May Be Accepted for an Early U. S. Air Force Aviation Cadet Training Class

If you are a college graduate, married or single, between the ages of 20 and 26½ and physically and morally qualified, you may be accepted for assignment in the U. S. Air Force Aviation Cadet classes starting in late summer or early fall.

You get a well-planned course, valued at \$35,000 . . . this includes about 275 hours of flight training, and the finest aviation education and executive training in the world.

Win your wings and then start a career with a future . . .

College men are today's leaders of the U. S. Air Force. With new and complex aircraft and equipment being developed, scientific research becomes more and more important, increasing the need for college-trained men.

As a college graduate you will have an unlimited future in aviation fields of personnel management, operations, matériel, supply, research and development.

It's a year of learning, flying and time for recreation with a hand-picked top-string team of Americans.

Upon assignment to an Aviation Cadet class you will be sent to one of the U. S. Air Force bases

in Texas for the world's finest aviation training.

Here you will receive about 175 hours of flying instruction in the Texan T-6 trainer plus an extensive course in aviation education and executive training. Navigation, fuels, weather, radio and radar are some of the subjects you will take.

During this training period you'll find plenty of hard, fast action to keep you fit and trim . . . the best athletic facilities are available. Upon completion of training, you will win your silver wings and receive a Reserve commission as second lieutenant in the U. S. Air Force. Outstanding graduates receive Regular commissions upon graduation.

OFFICER CANDIDATE SCHOOL FOR COLLEGE GRADUATES

If you can meet the high standards required of candidates for officer training, there's a real future for you in the U. S. Air Force. Capable young executives are needed for positions of responsibility in non-flying assignments . . . management, communications, engineering, research and other fields. That is why the Air Force is offering qualified, ambitious men and women with college training an opportunity to prepare for leadership in the air age.

WIN YOUR WINGS

U. S. AIR FORCE

Single or married men with two years of college (or who can pass an equivalent examination) between ages of 20 and 26½ with high physical and moral qualifications, act now! Get full details at your nearest Air Force Base or Recruiting Office or write: Chief of Staff, Headquarters United States Air Force, Attention Aviation Cadet Branch, Washington 25, D. C.

Border Meet Set Friday, Saturday

Dr. J. W. Davis Slated To Head Faculty Representatives Group

Dr. J. William Davis of Texas Tech is scheduled to be elected president of the Border conference faculty representatives Friday at the annual meeting in Albuquerque.

Dr. Davis, chairman of the department of government, was named chairman of the Tech Athletic Council and representative of the college at conference meetings last spring. Under conference organization the presidency rotates by colleges. Dr. E. J. Knapp of Texas Mines is retiring president this spring.

Tech will have several officials at the meeting in Albuquerque, including Dr. Davis, Morley Jennings athletic director; Dell Morgan, head football coach; Folk Robinson, basketball coach; Maxey McKnight track coach; Dean W. L. Stangel, former chairman of the Athletic Council; and Clark Schooley, sports publicity director.

Important Issues

Faculty representatives will decide several important matters, including whether conference teams taking part in bowl games share a lot of a portion of income from such events to the conference treasury.

Also expected to be considered is whether a limit shall be placed on bowl games in which teams may participate. Last fall, Hardin-Simmons played in three bowl games and officials at some other schools have raised objection, expressing the belief that one such contest is enough.

Faculty representatives again are expected to face the problem of Negro participation in Border conference athletic events. The three Arizona schools—the University of Arizona and Arizona State at Tempe and Flagstaff—have been using Negroes as members of their teams. Tempe, especially, has been insistent that these athletes be permitted to take part in all contests. Texas members have declined to let the colored boys participate on their campuses. The issue has been before the conference at every annual meeting for the past several years.

Various other problems also are expected to arise in Albuquerque, including whether the commissioner shall draw up the basketball schedules and whether he shall assign basketball officials. At present the commissioner, Dr. E. L. Larson of the University of Arizona faculty, assigns officials for the conference football games, but each school selects its own basketball officials.

Referee Problem

A proposal to have assigned basketball referees has been put forth by several schools. The problem of proper schedules also has been prominent during the past couple of years and faculty representatives have been thinking of mak-

ing this a responsibility of the commissioner.

The faculty meeting will be held in connection with the annual spring track, tennis, golf and swimming meet at the University of New Mexico. Tech will be represented in track, tennis and golf, with Arizona, Texas Mines and New Mexico expected to be the only entrants in swimming. Last spring only Arizona sent a swimming team.

Netters Begin Friday

First event of the weekend will be drawings for the tennis tournament at 7 p.m. tomorrow night in the New Mexico gymnasium. The tennis tourney will get underway at 8 a.m. Friday with each of the conference schools entering teams. The contests will continue through Saturday, with singles and doubles champions to be decided, as well as the best team.

A practice round for golfers is scheduled for 8 a.m. Friday also, with the 18-hole tournament set to begin Friday afternoon.

Business sessions to transact business, revise rules and care for other matters are set to begin at 9 a.m. Friday in the New Mexico Student Union building. All faculty representatives, athletic directors and coaches are to assemble at 9 a.m. in a general meeting, followed by separate meetings for athletic directors and football coaches, track coaches, basketball coaches, and publicity directors.

The faculty even will assemble again in the afternoon to consider proposals from coaches. The publicity directors will consider a proposal to set-up a Border conference press association under a plan which provides for annual competition between student publications of the member schools, Texas Tech, Hardin-Simmons, West Texas State, Texas Mines, New Mexico, New Mexico A & M, Arizona, and the two Arizona States.

Preliminaries in track are scheduled to begin at 2 p.m. Friday in the New Mexico stadium, with finals set for 2 p.m. Saturday on the same track.

The University of New Mexico will be host to all visiting college officials at a Smorgasbord dinner in Hotel El Fidel at 6:30 p.m. Friday.

The Texas Tech delegation is scheduled to leave Lubbock shortly after noon tomorrow, traveling by special bus.

PERSONALITY PIECE

Curtis Cup golfer (Texas-born) Polly Ann Riley started her athletic career as a female football player, but her mother forced a switch to the links to protect the family name.

Big shots are only small shots who keep shooting.

DR. J. W. DAVIS

Former Raider Grid Star Dies

James Hubert (Jim) Neill, former Raider football star and Lamesa grid coach, died at the Scott-White hospital in Temple at 3 a.m. Saturday morning following a cranial operation.

Funeral services were held Sunday at Lamesa. Neill completed his high school education at Brownfield in 1933 and entered Tech in the fall of that year.

He lettered at Tech for three years, 1934-35-36, playing halfback, and was largely responsible for Tech defeating Sammy Baugh and TCU, 7-0, in 1936.

After being graduated from Tech, Neill played professional football with the New York Giants for one year. In 1938, he played professionally for the Detroit Lions but resigned to accept a position as coach at Pecos, Texas. In 1940, Neill left his position in Pecos to accept an assistant coaching job with Lamesa High School where he stayed until he volunteered for the Army Air Corps in 1941.

Upon receiving an honorable discharge from the service, he accepted the post of head coach at Lamesa in 1946, a position that he held until the conclusion of the 1947 football season. Since 1948, Neill operated a gas and oil service station in Lamesa.

Third Place Win Seen For Raider Trackmen

Bad weather during the entire spring will be a major factor in destinies of the Tech track team this weekend in the Border conference meet in Albuquerque, most fans believe.

Tech for the past few years has been a major spring by wind, cold and a wet track and have found it difficult to get in shape for the tough competition scheduled for Friday and Saturday.

Ed Clepper, Tech's senior, however, is expected to be high point man for the meeting, with points in both hurdles events, the high jump and broad jump. Clepper's time in competition this spring has been better than that of any other man in the circuit. He has leaped 6 feet, 4 inches in the high jump, a height better than any other. He also has been broad jumping as far as any other. If the schedule gives him a 'break', Clepper should be a potential winner in all four events.

Charles Pinnell, sophomore, also is expected to come through with many points. He has been chasing Clepper to the tape this spring in both hurdles and has finished second to him in the high jump. In addition, Pinnell's height in the pole vault is as good as any in the Border conference.

Ben Wilson in the half mile and Costin Burkin in the quarter mile are seen as strong contenders and possible winners. Both will run on the mile relay team.

Charles Reynolds, Tech senior, is defending champion in the 100-yard dash, but this spring he has been injured most of the time and has had difficulty getting into shape. Whether he can repeat is one of the major questions of this weekend.

However, James Mullins, sophomore, and Seth Murphy, senior, have been turning in good times in both the 100 and 220 and are expected to finish well up in the money, possibly one or the other out in front. Reynolds will compete in both the 100 and 220 and

run anchor on the mile relay team. Claude Freeman, Tech junior, won the two-mile conference in 1947, but was not in school last year. Some track fans expect him to come in as winner this year and to place in the mile, also. Freeman, it is said, has been improving each week this spring.

Jim Elliott in the javelin, Ted Peabody and Gerald Davis in the weights, and Ed Wilson and Edgar Hawkins in the distance races also are seen as possible point winners.

Around the conference it is generally expected that Arizona will win the track meet Saturday afternoon at the University of New Mexico, with Arizona State of Tempe as second. Both schools have been aided by good weather all spring for workouts.

Track Coach Tom Gibbings of the University of Arizona will take 19 men to the Albuquerque meet. Two 1948 event winners, Cecil Crouch, who holds the conference record in the 440, and anchored the record-setting mile relay team, and John Smith, who won the 220 and placed third in the 100, will be missing from the Wildcat lineup because of leg injuries.

Top track performers for the Wildcats are expected to be Gale Bell, who tied for first in the pole vault in 1948; Parker Gregg, who already this spring has added nearly 10 feet to his 1948 record-setting discus throw; Joe Hippie who placed second and fourth in the high and low hurdles, respectively, in 1948, and Bob MacCaa, second in the half mile last year.

New Mexico is expected to finish fourth, with Texas Mines, West Texas State, Flagstaff, New Mexico A&M and Hardin-Simmons to come in that order.

Highlights of sports from SPORTS EXTRA's city desk: the Indians chalked up 243,904 admissions in 35 exhibition contests this spring

Brownie management now provides roaming troubadours for musical interludes between innings... latest in wrestling congnoms: Gorgeous Nature Boy... could be coincidence, but Jimmy Demaret has slipped from golfing headlines ever since Ben Hogan had his unfortunate accident.

Tech Netmen Set For Meet; Ivy Believes Chances Good

By OTICE GREEN
Toreador Staff Writer

Tech's tennis team leaves tomorrow morning for the Border conference meet in Albuquerque Friday and Saturday.

The netsters, like all branches of Tech's outdoor athletes, have suffered greatly from the weather. Coach Glenn Ivy said that the tennis team has had more of a chance to practice than the track team but the workouts have been few and far between.

Tech will send a four man team with Jake Broyles and Carl Schmidt in the number one and two singles events and Ivy and David Hester as numbers three and four. Schmidt and Hester will team up for the number two doubles and Broyles and Ivy will play as number one.

The Wildcat team, coached by C. Z. Lesher, will defend the conference title it has won in each of the eight years it has been awarded. The Arizona team will go to the conference meet with a 1949 spring record of three victories and three defeats. The four-man Wild-

cat team will be led by Tom Van Fleet, 1948 conference class "A" singles champion. Other players will be Steve Vidal of Albuquerque, Ken Drummond and Frank Iacino. Van Fleet and Vidal will play in class "A", and Drummond and Iacino in class "B".

Tech has a record of six victories and three losses for the season. Tech netsters downed Southern Methodist 4-2, Hardin Simmons 6-0, Abilene Christian 6-0 and 5-1. New Mexico fell 4-2 to the Raider "B" team and 6-0 to the "A" team. Texas University beat the Raiders 5-1. University of Houston edged them 4-2 and Texas Christian took them 5-1. Coach Ivy believes that the team's record this season gives good reason to believe that Tech will take at least a second place in the Border conference.

The team won three matches at the nationally-recognized River Oaks tournament in Houston. Five of the nation's top amateur tennis men participated in the tournament. Jake Broyles was beaten by the nation's third ranking amateur, Bob Talbot.

The team will leave tomorrow morning with the track team.

Golfers Have Little Chance Against Border Opponents

Tech's golf team faces the Border conference meet with one victory under its belt for this season. The team grabbed their only victory from the New Mexico Aggies here last Friday with 141 1/2 points to the Aggies' 31 1/2. John Trout, James Cook, Zac and Bud Henderson won each of their matches against the Aggies.

In the Border conference meet Friday and Saturday Raider golfers will be up against the Arizona university team, coached by Fred

Enke, and the New Mexico university team, Arizona and NMU will be defending a co-championship won in 1948.

Arizona will be shooting for its seventh undisputed title and will hold the favorite spot in view of a recent 27 1/2 to 14 1/2 victory over the Lobos in a dual meet.

The Wildcats have won six meets and lost three during their 1949 spring schedule. The four-man Arizona team will undoubtedly include John Rudolph, Don Byrd, John Cobhill and Blake Johnson.

Indians Will Dance At Ko Shari Affair

Dan Antonio Lujan, husband of the well known writer, Mrs. Mabel Dodge Lujan, and a group of Indian boys, all of Taos, New Mexico, are to be present at the annual Ko Shari club patroness picnic at 6:30 tonight at the Mackenzie State park barbecue pit.

The group will include the hoop and eagle dance among their numbers and the rest of the program will be given by the new members. The picnic is in honor of all active Ko Shari members. Club sponsors, Dr. and Mrs. W. C. Holden and Mr. and Mrs. W. D. Moore, and husbands of patronesses will be present as guests.

Weddings

Mrs. Jim Bledsoe of Lubbock announced the marriage of her daughter, Betty Helen, to Luke F. Tannery, son of Mr. and Mrs. Z. Z. Tannery of Lubbock, which took place April 30, at First Nazarene church with Rev. A. F. Laing officiating.

The couple is at home here following a wedding trip to New Mexico. Mrs. Tannery attended Stephens college in Columbia, Mo., Tech and Draughtons Business college. Mr. Tannery who is in business with his father, attended Lubbock high school and Tech.

CIRCLE 8 OFFICERS

Election of new officers of the Circle Eight club, square dance organization, will be at 7:15 tomorrow night at the gym. Jerry Sides, president, announced.

He stressed that the presence of all members is necessary to make the last meeting a success and this meeting will be the last square dance of the year.

alschuler's POTPOURRI

The Scotchman said that he liked blonds because of the lighter overhead.

Drink, said the preacher, is the greatest curse of the country. It makes you quarrel with your neighbors; it makes you shoot at your neighbors; and it makes you miss your neighbors.

A lovely young girl named Anne Henser declared that no man could surprise her. But a fellow named Gibbons united her Blue Ribbons. And now she is sadder Bidwaiser.

Sure, dock your lower limbs in pants. They are your limbs, my sweetling. You look divine as your advance. Have you seen yourself retreating?

Intramural Track Meet Is Cancelled

Second annual Tech track meet, scheduled for Saturday, has been cancelled. George Philbrick, intramural sports director, has announced.

Approximately six inches of water on the track would not dry before dead week, he said, and no facilities are available to pump the water off the track.

Approximately six inches of water on the track would not dry before dead week, he said, and no facilities are available to pump the water off the track.

Competition and interest had built up for the meet with 13 teams and close to 200 men entered for the 14 events. Four independent teams, six MCCC teams, and three dorm teams had entered the meet.

Riley V. Carlton Elected Military Engineer Head

Riley V. Carlton was elected president of the Society of American Military Engineers at the society's meeting Monday night, Dan Bee, reporter has announced.

Other officers elected were Ward Killingsworth, vice president; Billy C. Koy, secretary; Johnnie McClellan, treasurer; Lloyd Doud, corresponding secretary; Traut Enloe, parliamentary; Joe D. Kenworthy, engineering society representative, and Bee, reporter.

Tech Keglers In Top Spots As WT-NM Tourney Closes

Tech students led the scoring at the close of the West Texas-New Mexico bowling tournament Sunday.

The Arthur Lay and Co. team, paced by Techsans Jay O'Keefe, junior arts and sciences major; Ben Brown, junior engineer; T. I. Brown, senior journalism major, led all the way to take the class "A" team event with a total of 2967 pins. Doyle Vanby and George Tate, the other two men on the Arthur Lay squad are ex-techsans.

New Mexico teams who bowled last weekend were unable to better the 1247 pins garnered by Ben Brown and Jay O'Keefe which took the winning place in the class "A" doubles.

T. I. Brown got fourth place in the Class "A" singles. Ben, the other of the Brown brothers, took fifth. Tate, took first place honors in the class "A" singles with 710 pins.

The Brown brothers held the two first places in the class "A" all-events. Ben rolled into first place with 1962 pins, another new record for the tournament, while T. I. topped 1919 for second. Bill Klattenhoff took first place

in the class "B" singles events with a 629 pinfall.

C. D. Wickson kept his second place in the class "C" singles with 567 pins and won first in the class "C" all-events with 1621.

All the Class "A" records of the tournament were broken this year with the exception of the doubles events.

Next year's West Texas-New Mexico bowling tournament will be held in Albuquerque.

'Club Finale' To Be Held In Tech Band Hall May 13

"Club Finale", Kappa Kappa Psi's final dance of the year, will be held Friday night, May 13, in the band hall. Wayne McDonald, president of the national honorary band fraternity, said Monday.

A night club theme will be used for the semi-formal date dance and a floor show consisting of a magician act from Plainview will be presented, McDonald said.

Mrs. C. B. Qualls left Friday for Paris, France to visit relatives whom she has not seen for twenty years.

JOHNNY DELIGHTS DOLORES WITH VERTIGINOUS VISTAS OF RHAPSODIC RECOGNITION!

CAN THIS DISMAL SHARD BE THE ONCE-RADIANT ROSEBUD WE WERE THINKING OF PICKING AS QUEEN OF OUR JUNE BALL?

SHE CERTAINLY IS A GORGEOUS GORGON! DOLORES, WHY NOT SNAP OUT OF IT AND BE FAIR TO YOURSELF?

O PLEASE, RAE. MY THROAT FEELS LIKE A DESICCATED NUTMEG AND MY MOUTH'S ALL STALE AND SMOKED-OUT

I CAN HELP IF I FEEL LIKE THE LAST ROSE OF SUMMER FROM STUDYING AND SMOKING SO MUCH?

I FEEL TERRIBLE... BUT I'LL TRY THEM...

DOLORES, THERE'S NO CIGARETTE HANGOVER WHEN YOU SWITCH TO PHILIP MORRIS! WHY NOT GIVE THEM A TRIAL?

PLEASE DO DOLLY! PHILIP MORRIS IS THE ONE CIGARETTE PROVED DEFINITELY LESS IRRITATING!

TIME AND PHILIP MORRIS WORK WONDER!

DOLORES, THAT DIVINE GOWN MAKES YOU LIKE THE BREATH OF SPRING ITSELF... AND YOU LOOK SO HAPPY... AND YOU CONGRATULATE JOHNNY! THANKS TO HIM IT'S NO CIGARETTE HANGOVER FOR ME ANY MORE!

THAT HANDSOME ALL-AMERICAN FOOTBALL STAR CERTAINLY FINDS NEPENTHE IN OUR DOLORES!

NO WONDER! PHILIP MORRIS AND THAT SETTING HAVE METAMORPHOSED HER COMPLETELY!

NO CIGARETTE HANGOVER
when you smoke
PHILIP MORRIS

PROVED DEFINITELY LESS IRRITATING
than any other leading brand!

Use These Words with Tongue-in-Cheek!
(Plan to use ONE every week!)

DESICCATED (des-ik-a-ted)—dried-up.

GORGON (gor-gon)—a mythical sea-monster with snakes for hair.

METAMORPHOSED (met-ah-mor-fosed)—transformed.

NEPENTHE (neo-pen-the)—a potion to banish pain or misery.

NO CIGARETTE HANGOVER—no stale smoked-out taste; no tight dry feeling in your throat due to smoking.

RHAPSODIC (rap-sod-ik)—charged with emotion, usually of delight.

SHARD (shard)—a broken piece or fragment.

VERTIGINOUS (vur-tij-in-us)—giddy, dizzy.

Gardens, Crops Damaged By Hail

The hail storm Friday night destroyed most of the sudan grass and student gardens planted in mid-April. Dr. A. W. Young, head of the department of plant industry, said Monday.

At least 30 per cent of the wheat and small grain crops was lost during the storm with some damage to the roofs of farm houses.

Repairs on the agricultural engineering building, which was damaged by fire March 26, have been continuing favorably. The Board of Directors approved having the building and equipment replaced at its April 11 meeting in Austin. Damage to the building and equipment amounted to over \$8,000. It is hoped that all equipment lost by the fire will be replaced by next year, Dr. Young said.

Tech Military Science Personnel Will Undergo Two-Day Inspection

The Texas Tech Military Science department will undergo its ninth Federal inspection tomorrow and Friday with all personnel, both student and administrative, participating in the annual proficiency inspection, Lt. Col. L. C. Adams, head of the military department, reported.

The inspection party, composed of commissioned officers from the Texas Military district, from the Fourth Army headquarters, and from twelfth Air Force headquarters, will evaluate the administrative, academic, and military status of the local unit.

The inspection team will attend

regular classes and will have the opportunity to observe and comment on instructing procedures. Normal classroom schedules will be followed, Colonel Adams said.

ROTC drill and parade will highlight inspection activities tomorrow afternoon. During this time each cadet will be given personal inspection and awards for military and academic ability will be presented to the outstanding junior and senior cadet in the Tech unit.

Cadet Lt. Col. Sam S. Bates, ROTC senior and Air Force cadet group commander, will be presented an engraved saber by Colonel Young, of the South Plains chapter

of the Reserve Officer association.

Cadet First Sgt. Elbert E. Gilder, junior infantry student and commander of the Sam Houston rifle unit, will be given an engraved identification bracelet, an award given annually by the Tech Military Science department. Colonel Adams will make this presentation.

Concluding inspection plans will be an informal luncheon, given at noon Friday at the Lubbock Country club in honor of the visiting officers, followed by a conference in the office of Pres. D. M. Wiggins, at which time inspection results will be discussed.

President Honored By Band Concert

The annual president's concert by Tech band and Tech Glee club was presented at 8 p.m. Monday in the high school auditorium.

Dedicated to Pres. and Mrs. I. M. Wiggins and Vice Pres. and Mrs. E. N. Jones, the concert featured Tschalkowsky's "Symphony No. 4 in F Minor". George Rhoads, senior band major, made the band arrangement for the first movement of the symphony.

Tech Glee club sang "I Won't Kiss Kety", "Dry Bones", and "Romany Life from 'Fortune Teller'".

Director of the band is D. C. Wiley and assistant director is Joe L. Haddon. Richard Richards directs the Glee club.
