General Election Petitions Ready Next Wednesday

Petitions for student offices for next year may be taken out starting Wednesday, Clint Formby, president of the student association, revealed Thursday.

The petitions may be obtained in the Student Council office, Ad-323, and must be returned to that office not later than March 30, Formby said.

Offices to be filled in the general election Tuesday, April 12, are: president, vice president and business manager of the Student Council; editor and business manager for *The Toreador*; editor and business manager for *La Ventana*; boy and girl cheer leaders; and Student Council representatives from all divisions.

A run-off election is scheduled for Wednesday, April 20. These election dates are set forth in the student constitution.

Information concerning qualifications for office and the number of Student Council representatives for each division will be published in the Wednesday issue of *The Toreador*.

WSSF Director To Discuss Drive

Miss Barbara Brady, regional director of the World Student Service Fund, will be on the campus Monday to lay groundwork for a WSSF drive here, Clint Formby, president of the student association, has announced.

The presidents or appointed representatives of all campus clubs are requested to see Miss Brady Monday in the Student Council office, Ad-323, concerning the drive, Formby remarked. She will be in the office from 9-12 a.m. and from 1-5 p.m.

Miss Brady is from Dallas. Purpose of the drive is to raise money for needy students in foreign countries to aid them in their education. Nearly every college in the country conducts such a drive, Formby said.

Marion Baumgardner, junior agriculture student, has been chosen chairman of the drive to be held late in April.

Wiggins May Okay Student Members On Discipline Body

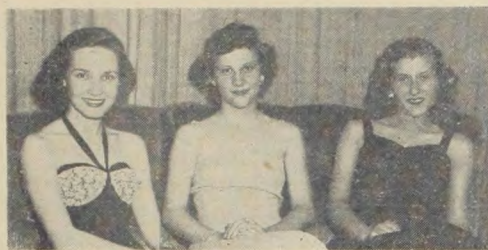

Dr. D. M. Wiggins, president, indicated Thursday that he would approve student representation on the college disciplinary committees.

"If the Student Council wishes to have student representatives on the disciplinary committees, it may have them, as far as I am concerned," he said.

The Council voted at its Monday night meeting to recommend to Doctor Wiggins that the administration adopt a measure to put students on the committees. No request for the change had been received by Doctor Wiggins Thursday.

EVE CURIE SPEAKS

Eve Curie, author of the biography of her mother, Madame Curie, will speak at 8 p.m. Wednesday at the Recreation Hall, Troy Enis, director, has announced.

ONE IS QUEEN—One of the above girls, chosen queen of the Sophomore Hodge Podge at a March 16th meeting of the class, will be crowned tonight at the annual Hodge Podge Sports Dance in Tech Gym. The winner, not to be announced until the dance will be attended by the remaining nominees. Left to right, the nominees which were approved by the student council election committee are: Mary Hartgraves, Jane Duncan and Louise Leftwich.—(Photo by A. J. Bishop)

Last Copy For '49 La Ventana Sent To Publisher Thursday

Compilation of the largest *La Ventana* in the 24-year history of Tech has been completed. The last pieces of copy for the 500-page annual were sent to the printer in Iowa City, Thursday, announced Bob Williams, editor. These were the sports section and student index.

All deadlines were met on schedule, said Williams. Copy was sent in a month earlier than last year and the engraving, two months earlier. The editor estimates that the *La Ventana* should be ready to give to the students sometime near May 16 — if nothing happens.

Engravers in Dallas are slower this year because of moving from one location to another. "But it should not cause any delay in publication — we hope," Williams stated. The editor will go to Iowa City the first week in April to proofread and approve color processing plates.

Williams described some of the finer points of the annual. A color picture will be on the cover which will be bound in black. The opening section and pictures of the beauties will be on 52 pages of special pebbled paper. Some sections will carry special revivals of ink, and some pages will be in two colors in addition to regular black and white.

Date Bureau Aids Female-Shy Males

Date bureaus were formed in Men's Dorms III and IV to help men in women-shy classes arrange dates, Hilary Fry, supervisor in Men's Dorm III, said.

Men who desire a blind coke or coffee date consult their supervisor, give him vital statistics concerning themselves, such as physical description, age, type of date wanted, major, whether he dances or not, classification, interests and hobbies.

The supervisor phones senior counselors, Miss Trudy Miller in Women's Dorm III and Miss Catherine Burkstresser in Women's Dorm IV. They find women who want a blind date, call back to men's dorms so the supervisors there may tell the men arrangements are complete, Fry said.

The men, themselves, call the women to set the time and place for the date, Fry said. The system is not working on a very large scale, but all counselors and supervisors consider it successful.

Dr. Banister Named For Baccalaureate

Dallas Church Of Christ Minister To Deliver Grads' Sermon May 29

Dr. John H. Banister, minister of the Church of Christ at Sears and Summitt streets in Dallas, is to deliver the baccalaureate sermon to this year's graduating class, Pres. D. M. Wiggins said yesterday.

The baccalaureate service is scheduled for 8 p.m. Sunday, May 29, in Jones stadium. Commencement exercises are to be held at 8 p.m. May 30 in the stadium.

Doctor Banister has long been associated with educational work in high schools and colleges in Oklahoma and Texas. He has preached baccalaureate and commencement sermons to high schools in both states. In 1946, he delivered the commencement address at Abilene Christian college.

In 1948, Doctor Banister was chief lecturer at ACC in its annual lectureship. He is a member of the planning board of that institution, and he was instrumental in establishing Central Christian college, which is to open this fall in Bartlesville, Okla.

Doctor Banister was born and reared in Thalia, Ford county, where he was graduated from high school and where he later returned to teach school for three years. He is an alumnus of Harding Christian college in Searcy, Ark.

For the past 21 years, he has been a minister of the Church of Christ. He has held ministries in Nocona and Memphis, Tex., and in Elk City, Okla. Doctor Banister was for 11 years minister of the Culbertson Heights Church of Christ in Oklahoma City.

In September, 1948, he left that ministry and moved to Dallas to become minister of the Sears and Summitt Church of Christ. In addition to his work at the church, Doctor Banister broadcasts each Sunday over station KRLD in Dallas.

Each year he conducts five to six revivals among Churches of Christ over the United States. His schedule for 1949 includes revivals in Baltimore, Los Angeles and Oklahoma City. He has conducted similar meetings in Tulsa, Detroit,

DR. JOHN H. BANISTER

Big Spring, Topeka, Washington, D. C., San Antonio, Wichita, San Angelo, Baltimore, Pampa, and Amarillo.

Bates Thornton, former Tech student who is an executive with the Howard Hughes Aircraft corporation in California, will deliver the commencement address.

VESPER SERVICE

"Similarities of Judaism and Christianity" will be the subject of the vesper service at 6:30 p.m. tomorrow in the Fellowship hall of the First Presbyterian church, W. F. Rogan, director of Westminster house, said.

Eleanor Miller will discuss the similarities and Charlotte Black-burn the differences of the two religions, Rogan said.

AWS Officer Nominations Are Slated Monday; Election To Be Friday In Ad And HE Buildings

Officers for the Association of Women Students will be nominated at a 5 p.m. convocation for campus women Monday in the Aggie auditorium, said Lois Cone, AWS president.

In accordance with the AWS constitution, any woman student may make nominations from the floor at the convocation, provided those nominated have a 1.5 grade average, Miss Cone explained. The constitution further states that nominees shall have been enrolled in Tech for at least one semester before being nominated or elected. It also recommends that at least two of the elected officers shall have served on the AWS council previous to their election.

The election will be conducted all day Friday. Ballot boxes will be placed in the Ad and Home Economics buildings, Miss Cone said.

Qualifications and duties of each officer will be read at the meeting by Lou Lawson, AWS secretary.

Names of the candidates for each office will be posted after the convocation on the Student Council bulletin board located in the Ad building rotunda.

Nominations may be made for the offices of president, vice president, secretary, treasurer, and reporter. The AWS constitution was recently amended to include the office of reporter.

The AWS nominating committee made up of the council's senior members have nominated the following students for office: Lavora Manning, president; Kathrynne Witly, vice president; Joyce Byrom secretary; Mary Stanford, treasurer; and Guida Miller, reporter. Nominations made Monday will be added to this list.

Each of the five AWS nominees are members of social clubs. Miss Manning is a sophomore arts and sciences student from Amarillo; Miss Witly, a junior engineering major from Hamilton; Miss Byrom, arts and sciences junior from

New Mexico; Mary Stanford, a sophomore arts and sciences student from Waco; and Miss Miller, an arts and sciences sophomore from Amarillo.

AWS members and Miss June Hanson, assistant to the dean of women and AWS sponsor, are to be introduced at the convocation. Miss Ruth Hudson, assistant to the dean of women, will also attend. All officers of women's organizations are asked to attend by Miss Cone. She will preside at the meeting.

The new president and vice president will accompany Miss Cone as official delegates to the AWS convention, April 13-16, in Albuquerque, N. Mex.

As stated in the AWS constitution, the purpose of the organization is to "discuss matters of interest to women students for mutual help and benefit and to help promote on the campus of this college all worthy undertakings, organizations, movements, etc., of the student body."

Dedication Of New Social Center Slated Tomorrow

Dedication of the new St. Elizabeth's school and social center, on Main near Avenue W, will be conducted at 3 p.m. tomorrow, Rev. William F. Blakeslee, pastor of St. Elizabeth's church, said.

Arrangements for the ceremonies are in charge of a special committee composed of representatives of all parish organizations and headed by Paul G. Schaefer, grand knight of the Lubbock council Knights of Columbus.

The dedication ceremony will be followed by a musical program at 3:30 p.m. given by Dr. Julien Paul Ditz, accompanied by Mrs. Blutz. Open house will be from 4 to 5 p.m., Rev. Blakeslee said.

Erection of St. Elizabeth's school and social center, begun last July, was completed at a cost of \$100,000. The building contains an auditorium with seating capacity for more than 300 persons.

The St. Elizabeth's social center will serve as a regular meeting place for the Newman club students of Tech. All socials, meetings and lectures will be conducted in the main auditorium.

SKATING PARTY

Gamma Delta, Lutheran society, will sponsor a skating party at 2:30 p.m. tomorrow at the roller rink on the Slaton highway, Don Roby, president, said.

Chaperones will be Earl Wuknash, assistant professor of electrical engineering, and Miss Livia Remmler, instructor of foreign languages.

DFD TEA

DFD, women's social club, will honor patronesses and alumni with a tea from 3:4-3:30 p.m. tomorrow at the Hilton hotel. Program will be presented by the members and pledges. Sponsors, Misses Ina Bacon and Kate Rogers, will be present.

HONORARY GROUPS MEET

Alpha Lambda Delta and Phi Eta Sigma, national honorary organizations for women and men, respectively, held a joint meeting Tuesday night in Aggie auditorium, Sue Holmes, president of the women's organization, announced Thursday.

Miss Jane Watson, journalism instructor, showed movies of her South American trip.

At a recent meeting of Alpha Lambda Delta, Barbara Hazlewood was elected secretary to replace Barbara Williamson.

WEEKEND VISITOR

Miss Joan Conley, who attended Tech last semester, is a visitor here this weekend. Miss Conley came especially to attend the Sans Souci gypsy dance tonight.

COSMOPOLITAN CLUB

Horace Gearhart, president of the Lubbock Junior Chamber of Commerce, was guest speaker at the regular meeting of the Cosmopolitan club Tuesday night, stated Emil D'Acosta, reporter for the club.

Gearhart spoke on interest the Junior Chamber of Commerce organizations have created in cities over the world, stressing the work of the Jaycees in cities outside the United States.

ARTISTS COURSE

Barber of Seville, with a complete cast of actors and musicians, is scheduled as the final Artist course of the season Wednesday night in the Lubbock high school auditorium, R. A. Mills, sponsor, has announced.

PROFS TO JUDGE SHOW

Three faculty members of Tech's agricultural division will judge livestock at the South Plains Junior Fat Stock Show, Monday, Tuesday and Wednesday, Ray C. Mowery, professor of animal husbandry, said Thursday.

The show will be held at the Lubbock fair grounds. Future Farmers and 4-H club members will enter the livestock for judging.

W. L. Stangel, dean of agriculture, will judge calves, John Baumgardner, assistant professor of animal husbandry, will judge pigs; and Ray C. Mowery will judge lambs.

ENGINEER TO SPEAK

Frank Lee, chief engineer for station KCBQ and former associate professor of electrical engineering at Tech, will speak at 7:30 p.m. Monday in the engineering auditorium to members of the student branch of the American Institute of Electrical Engineers, Jack Volter, program committee chairman, said yesterday.

COLLEGE CLUB BREAKFAST

Members of College Club will honor their pledges with a "Big Brother-Little Brother Breakfast" at 8 a.m. tomorrow at Hector's, Bob Williams, reporter of the organization said.

Afterward, all members and pledges will attend services at the First Methodist church.

PHI GAMMS ENTERTAIN

Prospective pledges of Phi Gamma Nu, national honorary business administration sorority, were entertained with a werner roast Thursday afternoon in Aggie grove.

Mrs. Ethel Terrell and Miss Cureton Harris, club sponsors, chaperoned the outing.

SENIOR MEETING

Seniors are to meet at 5 p.m. Monday in Ad-220 for discussion of the senior carnival which is to be held March 26 in the Administration building.

TECH GRAD

Jim Warner, 1947 Tech graduate, is now employed with the Texas Power and Light company in Dallas. Warner was a member of Socii, men's social club.

ALPHA CHI

Officers were elected and plans were made for the annual spring banquet at a meeting Wednesday afternoon of Alpha Chi, national honorary scholastic fraternity.

Bill Adair, junior engineering student from Lubbock, was chosen president. Floyd Rector, junior arts and sciences student from Lubbock, was selected as vice president, and Sue Anne Roberts, junior arts and sciences student from Memphis, was elected secretary-treasurer.

These officers are to be inaugurated at the banquet, which is set for 7:15 p.m. April 12 at the Hilton hotel. Key permits and sashes, if available, will be presented to new members at the banquet. Program for this annual affair is to be announced later.

At the Wednesday meeting, R. A. Mills, faculty sponsor, made a brief talk on the history and activities of the fraternity.

SMU Mixed Choir Will Sing Monday In Local Church

Southern Methodist university's 38-member mixed choir will sing at 8 p.m. Monday, in the First Methodist church, Duncan Elliott, church publicity director, said.

Bernhardy Tiede, assistant professor of voice in SMU's school of music, will direct the choir composed of 19 men and 22 women.

During its annual spring tour, the choir will visit Clovis, Roswell, and Carlsbad, N.M. Texas cities on the schedule are Childress, Pampa, Amarillo, Plainview, Lubbock, Littlefield, Muleshoe, Odessa, Midland, Colorado City and Sweetwater.

Carey May of Lubbock is president of the choir; Bob Hays, former Tech student, is also a member of the organization.

Leo Schneider, dean of the school of music at Instituto Porte Alegre, Brazil, and special student at SMU, will be piano soloist with the choir, Ellison said.

The 17th annual Engineering show and Home Ec open house are set for April 22-23.

Accident Victim's Condition Reported Good By Hospital

Condition of Jack Kaler, 26, junior agricultural student from Sabinal, who was injured in an automobile collision at Broadway and Avenue X Wednesday night, was reported "good" by West Texas hospital attendants late Thursday night.

Kaler underwent surgery Thursday on his right kneecap, which was fractured in the crash. He also received a laceration of the left knee and cuts and bruises.

Injured in the mishap with Kaler were three other Tech students, all of whom were dismissed after emergency treatment at the hospital.

Frank Claborn, 17, freshman agricultural student from Seagraves, received cuts on the forehead and a bruise of the left thigh.

Gaston Freeman, 24, junior physical education student, was treated for a dislocation of the left wrist and facial cuts.

Vestal C. Shipman, a sophomore whose address is listed as 2414 North Third, received bruises on the head and arm and minor cuts.

Both vehicles were reported badly damaged.

Seniors To Be Interviewed By Bell Telephone Company

W. J. Hancock, traffic personnel supervisor for Southwestern Bell Telephone company, and three other representatives of the company will interview graduating seniors Wednesday and Thursday, Mrs. Jean Jenkins, executive secretary of the Placement office, said Thursday.

These representatives are interested in seniors with the following majors: accounting, economics and management, marketing, electrical and mechanical engineering. Students who are interested in the Bell System are also invited for interviews.

Individual interviews may be scheduled at the Placement office beginning at 1 p.m. Friday.

Carolyn Cole, George Eitz; Tommie Ann Campbell, Tim Hatch; Betty Colquitt, Bill White; Loy Anderson; Louie Wester; Betty Joyce Gerald, Charlie Hunter; Sheila Jondahl, Bill Robinson; Pat Johnson, C. H. Keeton; Patricia Lindsey, Robert Pfluger; Pat Page, Jerry Williams.

Betty Peavy, Doug McSwain; Betty Ramsey, Jim Nash; Billie Ruth Yant, Edwin Cozzy; Ludonna Berry, Bill Sylvester; Betty Hudson, Leon West; Jeannetta Lewis, Aubrey Thompson; Bobbie Manning, Ross Bell; Mary Ramirez, Jimmy Stockwell; and Kathryn Berryhill, Don Crow.

Annual Spring Sport Dance Of College Club Presented

Honoring new pledges and members, College Club entertained with their annual spring sport dance last night at the Lubbock hotel, Bob Williams, club reporter, said.

Decorations featured a spring motif with improvised smalllock vine and flower covered archways. The club crest was displayed and crepe paper streamers of pink, green, and white were draped from the archways to picket fences encircling the ballrooms.

Those members and their dates who attended were Dean M. Allam, Betty Jenkins, William Smitherman, Marjorie Wilson; Gene Gouch, Doris Brooks; Loy Wylie, Frances Gibbons; Elwood Carruth, Jean Garnett; Duane Dawkins, Peggy Davis; Jim Nash, Pat Elkins; Vernon Evans, La Vaughn Bearden; Robert Pfluger, Patricia Lindsey; Tommy Morris, Martha Harris; Gene Probasco, Peggy Garrison; Allan Dunbar, Loriet Plummer.

Jack Wilborn, Helen Moore; J. A. McWhorter, Frances Eubanks; D. C. Stubblefield, Betty Stewart; Roland Drake, Duane Wilson; Bill Bates, Mary Lou Moore; Gene Bates, Betty Hancock; Winston Roberts, Jane Parsons; David Pilcher, Betty Faye White; George Rouse, Delores Thompson; James Hargrove, Marcia Martin; Bob Cunningham, Jo Forbes; Boh Terry, Doris Bell; John Gellespie, Jan-

Howard; Roy Butler, Lou Lawson, Ray Butler, Sue Lawson; Bob Williams, Jo Ann Hamilton; Spencer Street, Carol Sherrod; Robert H. Norris, Louise Baumann; Larry H. Pledge, Joan Cobb; Bobbie Lewis, Paty Exum.

Messrs. and Mesdames Allen Elsik, Sterling Emens, Ernest W. Babb, Ed Slagle, Paul King, Billy Brassell, Lewis Welch.

Pledges and their dates who attended were Lyman Bell, Diane Wimberley; Jack Bockman, Deanie Griffin; Curtis Coxon, Juselle

Taylor; Dick Whiteley, Jo Ann Williams; Jack Douglas, Joyce Wood; Jack Shelby, Marilou Williams; Don Gidden, Gayle Walters; Tommy Jamison, and Dixie McGehee.

Paul McCulley, Jean Riggs; J. A. Foster, Catherine Davis; Charles Orren, Genevieve McLain; Charles Johnson, Jane Loffin; Sidney Burleson, and Grace Garrison.

Chaperons were Mr. and Mrs. John Harding, Miss Jane Watson, Mr. Douglas Moore. Sponsors of the club are Jack Powers and William Whittington.

Signal Club To Hold Annual Dinner Dance Tonight At Aztec

Signal club will have its annual dinner-dance from 8:30 to 12 p. m. tonight at the Aztec inn, Rex Brown, president of the organization, said.

Members and dates who will be present are: Robert W. Benham, Loraine Sparks; Clare Foreman, Dorothy Duke; Ernest Archambeau, Jean Padgett; Thomas Moss, Betty Jean Robinson; Charles Pendergraft, Dorothy Roundtree; James Rider, Joan Chapman Messers, and Mesdames Joe Roper, Harold Taylor, Rex Brown, Nolan Rhodes, Ray Self, J. D. Hunter, Carl Perry and John P. Lilly.

Other members who will be present are: Doss R. Miller, Clifton Penn, Thad Brown, Lloyd M. Huffman, Ted Austin, Robert Wolf, George Hewitt, William Adair, Robert Fisher, Stan Berry, and T. C. Root.

Major W. L. Curils and Capt. W. Neubauer, sponsors, will be present. Col. L. C. Adams will be a guest.

Dance To Be Given By Home Ec. Club

Tickets for the second annual spring semi-formal party-dance of the Home Economics club will be on sale from 8 a. m. to 3 p. m. Monday and Tuesday in the main hall of the Home Economics building, said Ella Katherine Keith, chairman of the publicity committee.

All home economics girls are eligible to buy tickets which are \$1. The dance will be held from 9-12 p. m. March 26 at the Lubbock hotel to honor graduating seniors in this division.

A spring theme will be carried out in decorative displays. Music for dancing will be furnished by Ted Crager and his orchestra. The group will participate in directed games as well as dancing.

KAM PARTY

Kappa Alpha Mu pledges gave a party for the members Monday night. A western theme was carried out in costumes and program.

Billye Hopping welcomed the members and gave a double-talk explanation of the intricate workings of a box camera. A Bob Wills pantomime orchestra played two numbers, followed by the KAM orchestra featuring singer, Jim "Sinatra" Sanders. A trio composed of Bob Duke, Sanders and Bill Creagh rendered "You Are My Sunshine".

After the program a business meeting was held, and refreshments were served.

RUSHING ATTENDS MEET

Dr. Reginald Rushing, professor of accounting and finance, is to attend a joint meeting of the Texas Society of Certified Public Accountants and the Texas Association of University Instructors in Accounting June 4-8 at the Rice hotel in Houston.

An Assurance Of Freedom

Recommendations made last month by President Wiggins, asking for a special fund earmarked to bring "at least a half dozen distinguished professors" to Tech leaves us facing a question which we consider pertinent.

We in no way wish to condemn this move for better teachers. Such a plan could bring nothing but praise from any student source. We think, however, that this action will be of value to us only in proportion to the amount of academic freedom we can assure these "distinguished professors." As a matter of fact, certain of our present faculty which are outstanding in many ways, might well produce better results with their instruction if given assurance they would not be placed in jeopardy for teaching what they believe to be the truth.

From reliable sources in the school, we have learned that faculty members at Tech have not always been able to proclaim the truth as they see it. People in the town, during the past when teachings conflicted with certain religious dogmas, have agitated to such an extent that members of the faculty were dismissed.

What academic freedom is and just where it ends or begins is a matter of controversy. Recent rumblings from such schools as the University of Washington, Oregon State and Olivet colleges have given the term a coloring it does not deserve. These particular cases have been tinged with the teaching of "ultra-liberal views" and Communism. We do not intend to bring Communism into the picture, for we do not believe it to be a subject of importance at Tech.

We dismiss it in our plea for assurance of academic freedom with a statement by Sidney Hook, New York university philosopher:

"The question of whether the Communist party is legal or illegal is beside the educational point," Hook is quoted by Time magazine as saying. "The point is that Communist professors are under specific orders to violate academic freedom (by injecting the communist philosophy into their teachings on party orders); when they do, they forfeit the right to enjoy that freedom themselves."

What we would like to stress is the necessity for protection of the college professor from such minority pressure elements as might be represented by limited religious or political groups.

The pursuit and dissemination of knowledge, after all, is the purpose of any college or university. We need to come to learn the meaning of tolerance in education as well as in other fields of life. And where this tolerance cannot be achieved, we need to erect barriers which will protect us from the intolerant.

A Call For Consistency

Inconsistency has come to be a term used with the slightest provocation, to prove ineptness of thought or lack of devotion to duty. We seldom go far without seeing inconsistent practices or having charges of inconsistency thrown in our faces.

It never seems to bother us much until we see it cause specific harm or infringe upon individual rights. The instance we have in mind is the manner in which eligibility to hold office or represent the school is determined.

In any election in which the student council takes part, we find that careful checks are made as to the grade point averages of the candidates in question. For the student association constitution plainly sets forth an "overall 'C' average" requirement for college representation.

It seems to us that the holding of any campus club or organizational office constitutes "representing" the college. Perhaps a supreme court ruling on the subject would help clarify matters.

Until something besides whim is used to determine who is a college representative, however, we can see no justice in depriving one individual of an office and allowing others to reign unmolested. Let's have a decision on the matter, then enforce the ruling with consistency.

Letters To The Editor

Dear Editor,

As I glanced in your last issue for a bit of wit, I was quite let down. When I read the explanation I was further let down. As for the number of people who read Pot, I would be willing to wager that nine out of 10 people who venture into the folds of the Toreador read Pot for the humor. If Pot was not intended for such, I see no use for it.

By reading between lines I might well guess that "The Inquisition" has met, discussed and decreed. With one decisive blow of the gavel, brave Pot was struck down. If our Pot cannot be revived, let us hope for a replacement capable of arousing a subtle chuckle.

If our simple Techsians are not capable of differentiating fact from fiction, moral from immoral, perhaps it is best that we are shielded from the immorality which Pot represented. Think what a world this would be if our tender suggestive minds were protected from these facts which the knowing ones have declared taboo.

Sincerely,
Dale Russell.

Dear Editor,

Two weeks ago I lost my purse in one of my labs. I did not become too alarmed because I suspected someone had taken it by mistake. Now, however, it appears there was no mistake. The purse contained my activity ticket, library card, Artist course ticket, symphony ticket, drivers license and social security card. Perhaps I shouldn't have carried all this with me. But these do not serve me unless I have them when I need them.

The purse also contained approximately two dollars, about which I am not concerned. I am concerned about the cards and tickets. I have no identification. I cannot check out a book or cash a check.

Perhaps I should not feel too badly about missing sports activities and Artist course programs but I had them in mind when I bought the tickets.

I realize there are undesirable, dishonest people in the world and one of them is on Tech campus.

Sincerely,
Betty Gerald.

BY FRANK McNEILL

Crumbs Of Wisdom

This is a new column. That's why you didn't see it here last time. Its purpose is to enlighten students on leading questions of the day (Hell, read further, you might like it).

In this space, I am going to try to contribute to your education. I am going to raise your cultural level whether you like it or not. (My, but that sounds nice.)

In beginning, I should point out that there are two kinds of stupid people, the type who know they are stupid and try to do something about it, and the type who enjoy being stupid and don't give a damn. I am going to try to help you enjoy it.

This is going to be a different kind of column. First, I am going to write about something different about each issue. If I get tired of the name of the column, I will change that. If the editor gets tired of the column he will change the columnist. Get the idea? It's going to be different.

Since I have already stuck my nose out on the culture enjoy angle, I might as well follow through (at least until next week). I shall have something real gone for you kiddies then. Whether you are interested or not, I am going to discuss aardvarks. I did not pick this subject because it was one of the first ones I found in the dictionary. I knew that some character with a low, suspicious mind would immediately think of that, so I am going to clear it up right now. The reason that I am going to write about aardvarks is

that college students know all too little about these mysterious creatures. (Aardvarks don't mean to be mysterious, they just can't help it).

No doubt all of you have had someone approach you on the street and ask, "What's with aardvarks", or perhaps with better diction, "Is it true what they say about aardvarks?"

Unless you happen to be an aardvarkologist, you probably didn't know. You were either forced to admit that you didn't know much about them or you tried to look glib while saying that you hadn't kept up with them. (It's quite easy to keep up with aardvarks; they are extremely slow).

Now that you know how ignorant you are of this vital subject (vital to aardvarks), you are probably eager to begin with your first lesson. Many of you would probably like for me to tell you about them right now so you won't be embarrassed any longer by your ignorance of the subject. But what's the rush? We can go into it next week if I'm still around. And it isn't what you're thinking either. I know plenty about them if I just wanted to talk. I just don't believe in rushing things. That's all.

Meanwhile, I would appreciate it if any of you who know some of the inside intimate stuff on the aardvark would submit a short essay of not more than 15,000 words on the subject. After all, that's not too much to ask, is it?

By ORLIN BREWER

El Toro Grande

A current funny (as far as we're concerned) came in the Toreador mail a few days ago. It read:

Mr. Brewer,

There will be a special meeting of Sigma Delta Pi on Monday, at 5 p.m. to discuss plans for initiation. Read the Toreador for the details of the last meeting . . .

Gripes, whether warranted or not, have been the custom in college dormitories and army mess halls since time immemorial. All sorts of names from "pretty good chow" down to the lowest obscenities have been used to describe the food. Greatest advantage given the chronic complainers, to our knowledge, came recently in one of the campus dormitories when the supply of napkins was temporarily exhausted. An enterprising waiter took care of the shortage by placing toilet tissue on the counter.

"What've I been telling you all along," mumbled one of the dissatisfied boarders. "Even the dietitian is admitting it now."

WHAT'S WRONG WITH THE GIRLS BACK HOME?—The British have not always been noted for planting seeds on barren soil, but the following letter, sent to Georgia Tech, might indicate their talents are improving.

B Squadron,
4th Queens Own Hussars,
c/o B.P.O. Kuala Lumpur,
Malaya.

The Girls Club
Georgia Institute of Technology,
Atlanta Georgia,

Dear Miss,

I hope you will not take this letter as impertinent, I can assure you that it isn't meant to be.

We are, as you can see by the address, British soldiers situated in Malaya and we would like very much to correspond with some girls in your school.

With all the talk about the East we have found very little glamour and in fact it leaves us quite bored and very lonely, except of course when we go on patrols.

Although we do not get a great deal of spare time, what little we have is difficult to enjoy as the only legitimate pleasure is that which we can make ourselves.

Well, I guess that is all so we will sign off in anticipation.

Sincerely yours,
Tpr. Melvyn Jackson 161
Tpr. Warden Leonard 431
Tpr. Brian D. E. Kemp 235
Tpr. Beacham James 942

We don't know if the boys still wait in anticipation. One thing we do know: Georgia Unfortunate Tech has no women students.

THE TOREADOR

THE TOREADOR, student newspaper of Texas Technological college, is published every Wednesday and Saturday on the Campus of Texas Technological college at Lubbock by the associated students of the college.

Entered as second class matter, October 31, 1925, at the postoffice in Lubbock, Texas, under an Act of March 3, 1879.

Tales Of Cowboys Lured Tech Instructor

By JANET SWINDLER
Toreador Staff Writer

The inspiration received from reading German translations of books written by such American novelists as Zane Grey and Max Brand was the motivating force which brought Theodor Walter Alexander to Texas Tech, first as a student and later as an instructor.

"The greatest moment of my life was when I received my citizenship papers in 1942," says the Austrian-born Alexander. This lifelong ambition began materializing when he left Austria in 1937 to attend Textile Engineering college in Reichenberg, Czechoslovakia, where he studied German literature, freshman sciences and the Czech language for one year

The German invasion of Austria prompted him to join an older brother in Boston, Mass., instead of returning to his native homeland, and plans to come to America were realized in 1938.

Alexander's interest in drama was begun while attending Boston University in 1939, where he also studied English composition and history. His second summer in America was spent in Atlanta, Ga., studying play production and direction. In Tech he has founded the German dramatic art group and has produced and directed four plays; the fifth, "Die Wette", will be presented this summer. He also founded the German conversational group which operates as a subdivision of the German club. In 1941, Alexander came to Tech

where he studied geology. In 1946 he received his BS degree and the following year his MS even though he was teaching elementary and scientific German. He married the former Beatrice Witte, French instructor at Tech, in the fall of 1947.

Alexander was born of eminent parents. His father was a professor in the Vienna Medical school and his mother held a doctor of philosophy degree. When both parents died in 1932, his desire to join his brother in the U. S. increased.

Study of features of glaciation while skiing in the Alps stimulated his interest in geology. While attending the Engineering college in Czechoslovakia, he became a member of the horseback riding

academy in Reichenberg. In America dramatics have taken the place of these two hobbies, skiing and horseback riding.

Alexander, who has "found it thrilling to teach students a language and see them use it on a stage," will teach German this summer as well as his regular geology courses. His article, "A Scientist Views Scientific German", was published in the last issue of the Modern Language Journal and was read at a meeting of the South Central Modern Language association. He is now working on "Picture Methods in German Literature Courses," which will be read at the next fall meeting of the association; and "Petrographic Analysis of the Granite of the Sangre de Cristo mountains".

DEAN W. L. STANGEL

Versatile Career Gives Background To Dean Of Aggies

BY JACK WALKER
Toreador Staff Writer

Educator, livestock expert, discoverer and builder has been the career of Dean Wenzel Louis Stangel since becoming a professor of animal husbandry at Tech in 1925.

Born in Stangelville, Wis., a small community named for his parents, who operated a general merchandise store and post office, Dean Stangel came to Texas with his family when he was seven years old. He developed a great interest in cattle, which is today his favorite class of livestock. He has missed only one performance of the Southwest Exposition of the Fort Worth Fat Stock show since 1913.

Stangel started his successful teaching profession at Texas A & M in 1916 as an instructor in animal husbandry. When World War I came, he was sent to the field artillery training school at Louisville, Ky. He returned to Texas A & M and soon became associate professor in animal husbandry. Since coming to Tech in 1925, he has kept a close watch on the primary economic changes that confront present day farmers.

"The distribution of electricity by the Rural Electrification Administration will cause more farmers to use electrical equipment in the operation of farms," he says. "Electricity will also be more valuable to the farmer's wife. A successful farmer must know something about markets, machinery, insect controlling, economics, weather, and soil conservation."

It is probably the building attribute of Dean Stangel's life that has made Tech one of the best agricultural schools in the Southwest. One of the latest achievements made during his administration as dean of agriculture is the completion of the \$65,000 beef cattle barn.

The nurse cow unit is now under construction, and when plumbing is completed, all holding pens will be installed with gates. He has placed 160 acres of land, now assigned to the plant industry department in cultivation, to produce crops adapted here for dry and irrigation practices. Trees were planted for beautifying the campus farm. He has added the artificial insemination project, a new method of breeding, for dairy cows from Lubbock, Hale, Hockley, Lamb and Wilbarger counties. Through this service the college is improving dairy cattle. "But," says Dean Stangel, "the ability of our graduates to make success as agricultural leaders is the best asset for Tech."

With livestock as his chief interest, Stangel has solved a method of fattening lambs by using calcium supplements in rations of sorghum feeds. This method has cut down the losses of lambs. As director of the 5,000 acre Pan-Tech farm leased near Amarillo, he hopes better progress will be made to prevent cattle losses due to wheat poisoning. Sheep, rabbits, and cattle are being used in the study.

Smoke a LUCKY To feel your LEVEL best!

Ex-Raider Sends Schoolboy Stars To Visit Campus

A 1931-33 Raider tackle, Truett "Juicy" Owen, present coach at Arlington Heights High school, Fort Worth, has been doing justice to his alma mater by sending members of his 1948 City Conference State champions to visit Tech. Gene Doss, a quarterback for two years at Arlington Heights, and first string quarterback on the championship squad, has already enrolled at Tech and is out for spring training.

Robert Snow, left half, and Marland Ribble, left tackle, both on the same state schoolboy squad, were visitors on the campus last weekend, where they watched the first 1949 Raider scrimmage of spring practice. The boys seemed to be impressed with what they saw.

Two more boys of the same squad are to visit on the campus in the near future, line coach G. B. Morris, said. They are Bob Thomas and Bill Georges, right end and right tackle, respectively. There is no doubt that these boys would prove to be a valuable asset to the Raider squad and we are hopeful of securing their services, Morris said.

Jimmy Williams, brother to Don and Bobby Williams, has also been a guest at Tech. Elaboration on the Williams brothers is useless since they have gained a reputation that speaks for itself.

Malouff and McGuire, both from Post, have also been on the campus as visitors.

TEXAS EXES TO MEET

Arrangements are being made for members of Tech's football team to be guests at Texas U Exes Club tonight in the ballroom of the Lubbock hotel. Blair Cherry, head coach of the Texas Longhorns, will be the principal speaker, and movies of the 1949 Orange Bowl Game between Texas university and the University of Georgia will be shown.

OWNED AND OPERATED BY EX-G.I.'S

Dormitory League Champions

DORM CHAMPIONS—Winning six out of seven games, the West Hall Eagles recently were crowned champions of the Dormitory intramural basketball league. It is the second successive championship for the Eagles. A trophy, their second, will be presented by Joe Holmes of the Sports Center sporting goods store of Lubbock. There were no playoffs this year between winners of

the Dorm, Independent, and Social Club leagues. The Filthy Five quint of Men's dorm IV took second place in the league with five wins and three losses. Left to right, back row, are Frank James, Bill Shelton, Ben Street, C. G. Gray, and Bob Cox. Front row, left to right, are Bo Barkowsky, Glen Chapman, Jimmy Cusenbary, Jim Griffin, and Van Welch. (Photo by Wendt).

Softball Diamonds Being Completed South Of Rec Hall

Softball diamonds for women students are being completed south of the Recreation hall, said Frank Junell, assistant to the president.

Bases for the three diamonds are being constructed under the supervision of George Long, supervisor of buildings and grounds. The possibility of providing back stops is also being considered, Junell said.

The diamonds are being constructed primarily for the women students in this area close to the women's dormitories, Junell explained.

THE CLUB RUN-OFF

A run-off will be held Tuesday to elect a president and treasurer for the Home Economics club.

Marrion Woods and Angela Rattan, senior home economics education majors, are nominees for the presidency. Betty Malone and Fatsy Stout, who are competing for office of treasurer, are junior home economics education majors. Club members may vote in the lobby of the Home Economics building.

Officers will be announced March 26 at the Home Economics club party and dance.

Tech Tracksters Leave For Meet In Fort Worth

Tech's track team left yesterday morning for the Twenty-Sixth Annual Southwestern Track and Field meet to be held in Fort Worth Friday and Saturday.

Though the Tech team has been somewhat hampered by inclement weather in its efforts to practice regularly, it is hoped that the team will do as well as or better than the 1948 team who underwent the weather conditions and still walked off with third place.

Jim Elliott is the only man Track Coach Maxey McKnight took who will enter the field events. Elliott has been throwing the javelin well in practice, with his best distance being 180 feet.

Charley Reynolds, Seth Murphey, and Moon Mullins are 100-yard dash men that went to Fort Worth. None of these men have cracked the 10-second mark, but under the pressure of competition, there is a possibility that they may better it.

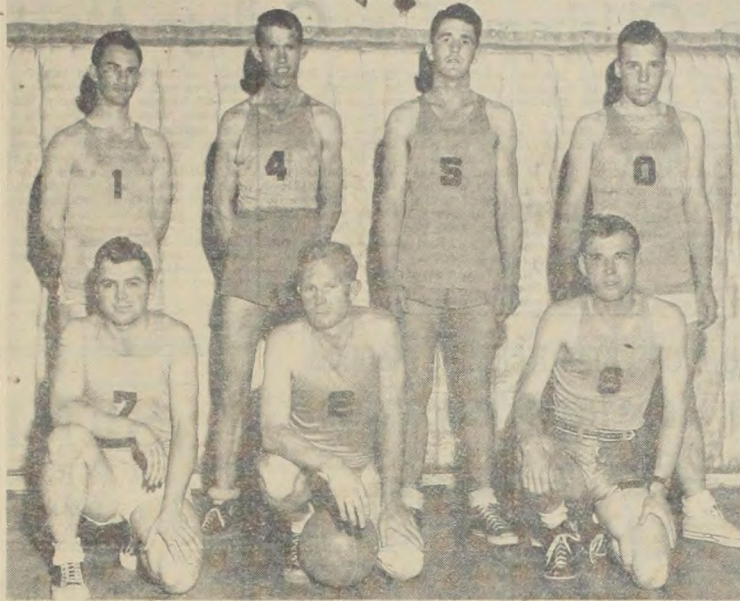

Murphey went as the 220-yard dash man, Ben and Joe Wilson and Gustin Bufkin are the quarter-mile representatives. Harold Barber will handle the half-mile event and Edgar Hawkins will handle the mile event.

Charley Pinnell, Joe Overton and Ed Clepper went to handle the hurdles and broad jump events. Earl Hutcheson, Norm McNeill, Charlie Ritchie, John Shinn, and Albert Stanford represented Tech's freshmen at the meet.

NEW GOLF SCHEDULE

Morley Jennings said today that instead of playing SMU Friday, the Tech golf team will play them Wednesday. The schedule formerly placed TCU Thursday and SMU Friday, but it has been found more convenient to play SMU before going to Fort Worth.

Independent League Champs

INDEPENDENT CHAMPS—The Dusters won the independent intramural basketball league championship for the second time recently. By defeating the Pelicans 24 to 19 Feb. 28, the Dusters clinched the lead place they had held throughout the season. They

were undefeated this year and lost only one game last year. Joe Holmes, owner of the Sports Center sporting goods store, will present the team with its second championship trophy. Shown above, left to right, in the front row, are James A. Cunningham, Billy J. Whit-

field, William J. Bryan. In the back row are Royce Laycock, W. B. Gibbs, Donald Bradley, and Cecil Gooch. Team members not pictured are Horace Bains, Emery Goodin, George Waters, Henry Bean, and Billy Mitchell, team captain. (Photo by Wendt).

40 Teams Signed For Mural Ball; Play Set Monday

Intramural softball season is scheduled to open Monday afternoon, announced George Philbrick, director of intramural sports.

A total of 40 Dormitory, Aggie, Engineering, MICC, and Independent league teams have registered to play, he said.

Eight engineering and seven independent softball teams are registered in intramural play. Seven MICC and eight Aggie teams have registered, but their schedules will not be posted until next week, he said.

How Modern can Jazz get?

Listen to Skitch Henderson's latest waxing of "CRAZY RHYTHM"—a Capitol Recording... and you'll know the answer!

One of the hottest of the oldies, "Crazy Rhythm", comes back with a sock, the way Skitch and his band revive it! Skitch Henderson is great at putting a smooth-modern touch on an old favorite. And when it comes to cigarettes, Skitch has another long-time favorite—Camels! Here's how Skitch plays it: "Camels are mild and full flavored. I've smoked Camels for years."

How Mild can a cigarette be?

SMOKE CAMELS FOR 30 DAYS
—and you'll know!

In a recent coast-to-coast test of hundreds of men and women who smoked only Camels for 30 days—an average of one to two packs a day—noted throat specialists, after making weekly examinations, reported

NOT ONE SINGLE CASE
OF THROAT IRRITATION

due to smoking—

HOW MILD CAN A CIGARETTE BE? WELL, SKITCH, THE CAMEL 30-DAY TEST CONVINCED ME THAT CAMELS ARE THE MILDDEST CIGARETTE I'VE EVER SMOKED!

I'VE KNOWN THAT FOR YEARS, NANCY! AND I GO FOR CAMEL'S FULL, RICH FLAVOR, TOO!

It's real harmony when Skitch Henderson and lovely Nancy Reed, his featured vocalist, get together and sing the praises of Camel mildness.

Money-Back Guarantee!

Try Camels and test them as you smoke them. If, at any time, you are not convinced that Camels are the mildest cigarette you've ever smoked, return the package with the unused Camels and we will refund its full purchase price, plus postage. (Signed) R. J. Reynolds Tobacco Company, Winston-Salem, North Carolina.

CAMELS

Engineer Show's Cover And Poster Designs Selected

Designs for the front cover of the Engineers' show program and for the placards, which are distributed throughout Lubbock and neighboring towns have been selected, Dick Wolff, assistant publicity manager, reported yesterday.

Drawings to be used for this year's show were submitted by commercial art students enrolled in Architecture 3211-a. Five were chosen out of twenty drawings. The ones selected were drawn by James Block, Don Burnett, Ray Collier, A. L. Moore and T. W. Womack.

Collier's drawing will be used on the programs, and Burnett's will appear on the placards.

In producing his drawing, Burnett said that he tried to include some object which would represent each department of the engineering division. He also stated that he just imagined everything which went into his drawing. He spent 24 hours rendering his drawing, 12 in class and twelve outside of class.

Collier asserted that he spent many hours going through technical magazines before he finally got the idea for his drawing from a miniature steam engine which was being displayed in the engineering building for the purpose of announcing a meeting of the American Society of Mechanical Engineers. Actual work on the drawing took twelve hours after he decided upon the design.

Tech Students To Attend Convention Of KME Clubs

Kappa Mu Epsilon, national honorary mathematics fraternity, has chosen delegates to attend the convention of KME clubs to be held April 9-12 at Topeka, Kansas. Emmett Hazlewood, head of the mathematics department, announced Thursday.

Tech students to attend the meeting are Bill Adair, KME president, who will preside over a forum and Kenneth Hancock, vice president, who will give a paper called "Mathematical Codes."

DEAN ALLEN SPEAKS

James G. Allen, dean of men, was after dinner speaker last night in the lounge of Drane hall. Mrs. Elizabeth Young, social director, said.

Dean Allen reviewed the book, "Heat of the Day," by Elizabeth Bowen.

Judging Team Takes Two Firsts In Oklahoma City College Meet

Texas Tech's livestock judging team won first place in hog and quarter horse judging at the Intercollegiate Livestock show in Oklahoma City, Okla. Stanley E. Anderson, assistant professor of animal husbandry and team coach, said Wednesday.

Three team members were among the high ten of the entire contest. William Krueger, Jr. was rated third, John Dwyer, fifth, and Robert Fee, eighth in the contest. Paul Jones acted as alternate.

James Heath and Robert Fee tied first place in the contest in

quarter horse judging. Krueger was second in judging sheep. Dwyer was second in cattle and fourth in hog judging. Ewing McEntire was second in hog judging and sixth in cattle judging.

Oklahoma A & M won first place in the entire contest with 4,285 points. Texas A & M placed second with a total of 4,252 points, while Texas Tech came out third with 4,237 points. Kansas placed fourth place, and Arkansas won fifth place.

Tech was awarded a gold colored rotating trophy for being the high team in quarter horse judg-

ing. The trophy stands two feet high. Fee and Heath received silver belt buckles from Larry Wilcox, horse judge of the contest.

In addition to winning first place in the hog and quarter horse contest, Tech placed second in beef cattle judging, and third place in sheep judging. This was the third contest in which Tech has participated.

Leonard Jansen, who received his B.S. from Tech and formerly an instructor in the biology department here is working on his Ph.D. at the California Institute of Technology where he has a fellowship.

Grant Is Named Congress Head

Franklin P. Grant, jr., business manager of The Toreador, was elected president of the Southwestern Journalism congress in a special election Wednesday in the Journalism building.

Around 30 journalism student cast ballots in the election. Clio Formby, Student Council president, said.

Grant will serve as student president of the congress when it convenes at Tech April 29-30. He replaces Ray Cook, senior journalism student, who resigned from the office. Cook was elected to the office last year when the congress met at the University of Texas.

Revisions; Improvements Planned For Saddle Tramp Pledge System

Further revision of the pledge system of the Saddle Tramps is being planned for next year, Curtis Sterling, president, said Thursday.

Improvement of the system, which was begun last fall, is planned by four changes suggested by members and the executive committee, he said.

The proposed changes are as follows:

1. Men who cannot attend meetings regularly shall not be accepted for pledgeship.
2. One pledge captain is to be assigned to a group of 15 pledges.
3. Each pledge group shall elect two officers to act as president of that group and one pledge to serve as secretary-treasurer.
4. Prospective pledges may submit a letter of application to the president or vice president during the spring semester.

"This year for the first time we are urging that all prospective pledges submit letters of application during the spring semester in order that they may be given special consideration for becoming pledges next fall."

"This is being done to facilitate an earlier start next year on organized club activities. All men who have 31 hours, or will have at the end of the current semester, are eligible to submit letters," said Sterling.

Officers are to be elected at a meeting at 5 p.m. Thursday in Ad-220, he said. Installation of officers will be immediate in order that they may "become familiar with their positions and responsibilities so as to facilitate an earlier entrance into club activities next fall," Sterling said.

Nominations are to be made from the floor. All members are asked to attend the meeting, he stated.

"As in the past, the Saddle Tramps will sponsor the yell leaders by the sale of booster tags during the football season. The fund from these sales and membership dues is used for campus-wide constructive purposes," he explained.

Expressing appreciation for the cooperation of the student body during the past year, Sterling said that "as always, the aim of the Saddle Tramps is to direct and support, but not monopolize, the encouragement of school spirit among the students."

Approximately \$60 Donated In Tech Red Cross Drive

Approximately \$60 was donated to the Red Cross in its drive for funds on Tech campus Monday and Tuesday, Cherri Hannis, chairman of the college branch, has announced.

Booths attended by members of the college branch of the Lubbock County Red Cross office were placed in the Administration building, Engineering building and Recreation hall to collect contributions, said Miss Hannis. The college donations will be contributed to the regular Red Cross drive that is in process this month.
