Council Elections Slated Tomorrow

IRC Regional Meet Here Friday

Visitors Expected From Seven Schools

By CARROLL SANDERS
Toreador Staff Writer

Approximately 100 students from seven colleges and universities in Texas and New Mexico are expected to be at the Texas Tech campus Friday and Saturday for the annual West Texas-New Mexico regional International Relations club meeting, Leon Griffith, publicity director, has announced.

Featured speakers for the two day meeting will be Miss Glasfira Orrego, secretary of the Good Neighbor Commission of Texas who will fly from Santiago, Chile for the event, Dr. J. W. Marshall, president of Wayland college and St. Eugenio V. Pesqueria, Mexican consul from Amarillo.

Miss Orrego will address the delegates at a general session in the Aggie auditorium Friday morning. Dr. Marshall will speak at a banquet for visitors in the Tech museum Friday evening and Sr. Pesqueria is scheduled to discuss the migrant worker situation in this area at noon Friday.

Studied in Denver

The featured speaker, whose home is in Santiago, first became interested in social work in that country. Miss Orrego came to this country in 1946 on a competitive scholarship offered by the institute of International Education. After studying at the University of Denver for two years she re-

See VISITORS Page 6

'Saudi Arabian Oil' Will Be Discussed By Dean Thursday

W. H. Carson, dean of the college of Engineering at Oklahoma University will talk to engineering students at 7:30 p.m. tomorrow in the Engineering auditorium.

"The subject of my talk will be oil operations in Saudi Arabia and observations made during the International Technical Congress in Cairo, Egypt. In connection with the talk will be an illustrated travelogue," he said.

Dean Carson was the official delegate of the United States to the International Technical World Engineering congress in Cairo, representing the Engineers Joint council which is the coordinating body of all technical societies.

He spent some time in Saudi Arabia visiting the Arabian-American oil operations, and went to Beirut, Lebanon, where he inspected the American university there and talked to officials in regard to the engineering curricula.

The trip took him through England, France, Switzerland and Italy. Dean Carson joined the staff at University of Oklahoma in 1925 as a member of the mechanical engineering department. He became dean of the college of engineering on the retirement of the incumbent dean.

"Dean Carson is one of the foremost engineering educators in the Southwest." W. L. Ducker, head professor of petroleum engineering, stated. "Although the speech is primarily for engineers, students from other divisions are invited to attend."

GLASFIRA ORREGO

Peerce To Open Artists Series Tomorrow Night

By SUE HOLMES
Toreador Staff Writer

Jan Peerce, noted Metropolitan Opera tenor, will open the spring Artists course program when he sings at 8 p.m. tomorrow night in Lubbock High school auditorium, R. A. Mills, Artists course director, said.

The program, which is divided into five parts with intermission after the third part, will include "There's Not a Swain on the Plain," by Purcell; "Love Has Eyes," by Bishop; "Sound an Alarm from Judas Maccabeus," by Handel; Schubert's "Der Doppelganger" and "Ungehduld"; Aria from "Lucia di Lammermoor" and selections by Puccini, Von Flotow, Rachmaninoff, Quilter, Levitski, Speaks, Faure and Fourdrain.

Peerce is recognized as a master of the Italian operatic style, although he is American born and educated. He is a veteran of more than 800 appearances within the last 10 years and is known as Conductor Arturo Toscanini's favorite tenor. More than a dozen times Peerce has sung with Toscanini. In addition to his opera and concert dates, Peerce is well-

Museum's Future Will Be Discussed Over Radio Series

A series of programs concerning the Museum is being presented on local radio stations.

Mrs. H. F. Godeke, chairman of the Museum membership committee, will speak on educational advantages for children and underprivileged groups and the special offering to members of the Museum at 2:25 p.m. today over KFYO. She is to speak at 7:15 p.m. tomorrow on KCBD.

Dr. W. C. Holden, director of the Museum, and Charles A. Guy, editor and publisher of The Lubbock Avalanche-Journal, is to speak on the special programs to be presented by the Museum during the year at

See MUSEUM Page 6

Nine Students To Vie For Three Seats From Arts And Sciences, Business Ad

A general election will be held from 8 a.m. to 12 noon and from 1 to 5 p.m. tomorrow to fill three vacancies on the Student Council, said Margaret Clark, council secretary. There are two business administration posts and one in arts and sciences.

Both booths are to be operated in the east rotunda of the Administration building. The three representatives are to be chosen only by students from the divisions which they are to represent. Runoffs will be held Tuesday.

Four new petitions have been taken out, Miss Clark announced Monday. Two new candidates from business administration are Bill De Jernett, sophomore, Dallas, and Betty Peavy, sophomore, Sander-son. Additional candidates seeking election as the arts and sciences representative are Fannie Beth Allen, junior, Loop, and Buddy Maner, junior, Lubbock.

Five Announce Earlier

Five students announced for the race last week, Miss Clark stated. They are, Keith Schier, junior, Houston; Douglas McSwane, junior, San Angelo; John Huckabay, senior, Lubbock and Darrel Freeman, junior, Odessa. All are running for the business administration posts. John Tom Baker, junior, Denison, had previously announced his candidacy for the arts and sciences vacancy.

At Toreador press time Tuesday no additional candidates had filed petitions for election to student council positions.

Students are being nominated by petition. Miss Clark pointed out. Each petition bears the signatures of at least 100 students as prescribed in the constitution. Deadline for turning in petitions was 5 p.m. yesterday.

Qualifications Listed

Qualifications for candidacy are: (1) a student at the time of election must be enrolled for at least 12 hours of residence credit courses; (2) he must be registered in the division from which he is elected; (3) he must have attained a 1-point grade average in all work taken during the semester.

Princeton Pastor To Deliver Four Willson Lectures

Dr. E. G. Homrighausen, professor of Christian education at Princeton Theological seminary, Princeton, N.J., has been chosen as the Willson lecturer to deliver a series of talks on the campus Mar. 13-16. Dr. E. N. Jones, vice president, has announced.

The Willson lectures were instituted by an endowment set up by Mr. and Mrs. J. M. Willson of Floydada. Each spring, a lecturer of national renown in the fields of science and religion is brought to Tech for the series of four speeches. In 1949, Dr. Louis Hadley Evans, minister of the First Presbyterian church, Hollywood, Calif., was the lecturer.

Doctor Homrighausen will speak at 10 a.m. Mar. 13-14 and at 11 a.m. Mar. 15-16. The lectures are to be held in the gym, James G. Allen, dean of men, said.

Doctor Homrighausen, who is married and has six children, has served as minister, lecturer, conference delegate, church officer and author.

Has Five Degrees

Educated in Iowa public schools, he received the degree of bachelor of arts from Mission House college, Plymouth, Wis., in 1921 and that of bachelor of theology from Princeton Theological seminary in 1924. His other degrees include master of arts from Butler university, master of theology and doctor of theology from the University of Du-Quinoe. He has done graduate study at Geneva, Rutgers, Dubuque, Butler, Iowa and the University of Chicago.

He was a minister for 13 years, serving five years in Freeport, Ill. and eight years in Indianapolis.

Tickets To School Of Square Dancing Will Be Sold Soon

As it has been every year for the past 10 years, the annual square dance school sponsored by the department of physical education for women is to be held on the campus Mar. 20-25.

Jimmy Clossin of El Paso, nationally-known caller and instructor, is to conduct the school. Clossin has directed these schools at Tech since 1940.

The school is to be open to the public. Pre-sale of tickets for student and faculty members will be Mar. 10-11. Sale of tickets to the public is to be held Mar. 13-18. Tickets, at \$2 each, may be purchased at the departmental office of women's physical education.

The classes are to be conducted in the Tech gym, with both beginning and advanced square dancers participating. Beginners' classes are scheduled from 7:30 to 9:30 p.m. Mar. 20, 22 and 24. Advanced classes will be held at the same hours Mar. 21, 23 and 25. A class at 9:30 a.m. daily will be open to anyone having a ticket.

THEY WANT YOUR VOTE—Eight of the nine candidates seeking election to three seats on the Student Council, are pictured above. Potential office holders, with the divisions they hope to represent, are top row, left to right: Fannie Beth Allen and John Tom Baker, both arts and sciences; Darrel Freeman and John Huckabay, both business administration. Bottom row, left to right: Douglas McSwane, business administration; Buddy Maner, arts and sciences; Betty Peavy and Keith Schier, both business administration. A picture of Bill De Jernett, the sixth business administration candidate, was not available. (Photos by Koen studio.)

Churches Fight Communism

Lubbock today has the strongest weapon there is against Communism—rapidly growing churches.

Communism and churches have always mixed like dynamite and fire. Marxism is strictly atheistic and believes there is no reality beyond this world. Religion is not considered an essential part of man's being, but merely a proof that social conditions are in a bad state and must be changed. Marx called religion "the opiate of the people" which is used in a society where there is an exploited class and exploiters—mainly capitalistic countries. "For Marxism, reality is the producing society sufficient for itself," Lenin explained.

Reactions of churches in a country being invaded by Communism are in direct contrast to those of Lubbock. Construction of many large new church buildings is in progress in Lubbock and several new churches have been organized in the last few years. When Communism was over-spreading Russia, churches there were stripped of property and buildings.

Lubbock churches pay their pastors with church funds and offerings from the members. Priests in Russia were paid by the state. Lubbock churches and Tech bring eminent and well-educated religious leaders to speak here. Russian clergy were degraded, persecuted and put in an inferior class. They were not allowed to earn money to supplement meager donations; they paid higher rents and taxes, and their children were deprived of education in secondary schools and universities. More student centers and more Bible classes have recently been opened in Lubbock and at Tech. Religious training was denounced and prevented in Russia.

As long as church offerings are taken up each Sunday morning, as long as Bible courses are offered at Tech, and other American colleges, and as long as churches outgrow themselves and need new buildings, we will know the fingers of Communism have not yet closed about the neck of our nation. . . . D. A.

Unnecessary Class Absence Harmful

Administrative ruling that students of junior and senior classification are no longer subject to the 16-cut limit, which has the penalty of negative hours, does not mean that indiscriminate cutting is either expected or sanctioned.

Regulations as they presently stand are representative of a privilege extended older and more mature students, who will not abuse their right, but rather will be encouraged to work harder. Professors find their responsibility considerably greater under the new set-up, for they are expected to assess necessary penalties on students who cut excessively.

Those who miss classes when it is not absolutely necessary are taking advantage of a rule designed to allow them more freedom to arrange their own studies and differentiate between useless cutting and missing class to do things important.

Unless the trend is indicative of a better attitude toward the rule it might be possible that the administration would withdraw it. All students will probably be benefitted in future rule-making if we make a better showing of maturity in this experimental test in citizenship.

Freedom is a thing to be proud of, like recognition that we are coming of age. Let's not misuse that new-found freedom. . . . O. H.

THEY'VE SURE GOT FAST-TALKING SALESMEN

Smithy's Forge

By JAMES F. SMITH

By 5 p.m. tomorrow, we shall have elected three new representatives to the Student Council.

Two of the three will have been chosen by students in the division of business administration, the other by those in arts and sciences.

Total enrollment in business administration is 749. Arts and sciences boasts 1,920 registrants. The two divisions together have 2,669 students—only 60 short of half the entire number of persons attending Tech this semester. By 5 p.m. tomorrow, how many of that 2,669 will have voted for council representatives?

Not many, judging by past elections. The majority of you students apparently does not care who is holding office, because the majority of you rarely vote. Records of previous elections will show you that the percentage of students who vote is always small—pitifully small, when you consider how large the registration is.

Casting a ballot can be done in such a short time. Five minutes is enough for marking your preferences—but five minutes for voting just can't be spared by hundreds of you, can it?

The election tomorrow will be followed within a few weeks by the general spring voting. Students who want to serve you and Tech will be asking for your support and your confidence. Will you offer them your support and your confidence then?

Probably not, just as you probably will generally ignore the election tomorrow. And yet, all you will need to do is give a few minutes to checking a ballot. If you've never voted before in an election at Tech, then here is your opportunity. If you have voted previously, then continue to pick someone for a vacancy.

You have nothing to lose by electing interested, willing workers to office. You—and Tech—have everything to gain.

Stray shots: With the aid of slippsticks, calculus, tape measures, and adding machines, someone has figured out that there are about six miles of halls in Tech's dormitories. Twice on weekdays and once on Sundays, those halls are swept. They are regularly mopped, and their walls are washed free of spots and smears. Did you say something about having trouble keeping your dorm room clean? . . .

Although the picture has been banned elsewhere in Texas, "Stromboli" has been showing in Fort Worth and Austin. In Cowtown the much-publicized movie had "world premiere engagements" at five theatres simultaneously. No report on how the film is doing at the box office. . . .

Remember last winter when this area was hit by an ice storm? Remember January, 1947, when the thermometer one morning registered nine below? Makes this unseasonably mild weather all the more

unusual, doesn't it? Already a drought year is predicted by some oldtimers because of the lack of wintertime moisture. Looks as if we may as well get ready for a blustery, sandy spring. . . .

A hauteuous Amarillo lass named Cherry Blair was recently named queen of the 1950 Aqua-Carnival show at the University of Texas. The Daily Texan, campus newspaper of UT, published a cheesecake shot of the gorgeous gal receiving congratulations from Yaleta Leissenner, winner of the title last year. The Daily Texan reports Cherry is 18. Her vital statistics? 36-22-85. . . .

Nomination for two of the coldest spots on the campus when the wind is blowing: Engineering drive between the Press building and XI; the footwalk on the water tower. . . .

Archie Leonard, associate professor of agricultural economics, will speak to the Morton Lions club today and to a combined group of three classes of agriculture for veterans tonight on the subject "Agriculture's Stake in the Free Enterprise System."

alschuler's
POTPOURRI

The last drought in the mid-west was so bad that the trees were going to the dogs.

A lady was riding on the train with her son. The conductor came by, and she said, "A fare for me and a half for the boy." The conductor looked at the boy, and said, "Lady, that boy is wearing long pants." "In that case," said the lady, "a full fare for the boy, and a half fare for me."

Pa: It's two o'clock, about time Mildred's boy friend went home.
Ma: Now Pa, remember how we used to court.
Pa: That settles it—out he goes!!

A man answered his telephone, and after listening a moment said, "I'm sorry, but you'll have to call the weather bureau about that," and hung up.

His wife asked who called. He replied, "I don't know. Some dern fool wanted to know if the coast was clear."

Book Of Poems By Dr. E. A. Gillis Published Recently

"Sunrise in Texas," a book of poems about the men who made Texas by Dr. Everett A. Gillis, has been published by a San Antonio firm.

Doctor Gillis, associate professor of English, dedicated the new book to his mother, Mrs. Earle A. Gillis, Fort Worth. Mrs. Gillis was selected as "Texas Mother of the Year" and "National Mother of the Year" in 1949.

Poems in the booklet include "Parson John," "Sam Houston," "Bigfoot Wallace" and "Davy Crockett."

Doctor Gillis also wrote two earlier books of poetry. "Hello from the Tech division for a non-war poems, 'Who Can Retreat?'" (1944).

A-Bomb Story Told By Extension Films

Civilians interested in knowing more about atomic energy, a-bombs, and the theories behind the construction of a hydrogen bomb can get their knowledge in pleasant doses from the film library at Tech's extension division.

Director J. H. Millikin says the library has several recent films on atoms and energy which institutions and organizations may rent from the Tech division for a nominal fee. They include "Atomic Energy," "Electrons," "Energy and Its Transformation," and "The Theory of Molecular Matter." A silent, color film of the atomic bomb tests on the Bikini atoll is also available.

Longhorn Stamp Club Plans Auction For Friday Night

A stamp auction will be held at 7:30 p.m., Friday in E-212. Sponsored by the Longhorn Stamp club, members will sell stamps to the highest bidders at the regular meeting.

"These small pieces of gummed paper will be bought at prices ranging from five cents to \$2," F. A. Kleinschmidt, head of the architecture department and president of the club, stated. The club receives 10 per cent of all sales.

SOCIETY

Fifteenth Annual Socii Orchid Dance Set For Friday At Lubbock Hotel

Socii, men's social club, will hold its fifteenth annual orchid dance from 8:30 to 11:30 p.m. Friday in the Lubbock hotel. As is the tradition, members will present dates with orchid corsages. Ted Crager's orchestra will provide music for dancing.

Modernistic borders hung with maroon drapes will frame large orchids in two corners of the east ballroom. Multi-colored revolving spotlights will complete the decorations.

Members, pledges and dates attending will be Dickie Buckles, Jacques Birdwell; Durwood Crawford, Mary Harral; Lynn Duncan, Billie Jean Hogg; Bill Hankinson, Dixie McGehee; Myron Harris, Thelma Dee Keck; Johnny Hill, Dorothy Barnes; Jack Loring, Sue Baker; Boosty Morris, Stella Ruth Herte; John Murry, Marcia Martin; Jerry Payne, Loraine McCloud; Don Reeves, Betty Jo Corcoran; Austin Rose, Helen Acker; Hank Spaulding, Mary Lou Moore; Tito

Troost, Marjorie Wilson; Travis Tadiok, Jo Bullock; Buddy Ward, Patsy Ater; Wade Yandell, Georgia Porter; Bill Velvin, Mary Alice Mitchell;

Oscar Cooper, Carolyn Schaeffer; Cliff McMillen, Jo Ann Cobb; Zack Reynolds, Martha Lou Smith; Chris Daugherty, Barbara McGee; Cherry White, Peggy Davenport; Andy Griffin, Mary Turner.

Others attending will be Messrs. and Mrs. Leo Southern, Albin Rippstein, Robert Craig; and Gene Hamilton, John Hall, Tommy Riggs, Bill Wilson, Jimmy Whitaker, Bevis Hanna, John Coombes, Jack Miller, Holmes McLish, Sammy Hale, Howard Brown, Jimmy Easley, Clint Fornby.

Sponsors for the organization are Mr. and Mrs. Byron Bennett and Major and Mrs. W. L. Carrick.

Circle Chatter

Joe France, '49 journalism graduate, is back in Lubbock and has been seen on the campus often. Joe is a former member of Centaur social club.

Barbara Williamson, ex-Tech student and member of Ko Shari, was a campus visitor over the weekend. She attended the Wrangler George Washington dance with Dub Duff Friday night.

Men's social club rush functions end tonight with the Wrangler party from 7 to 9 p.m. in the Hilton hotel. Preferential signing is from 4:45 to 6:15 p.m. tomorrow in the engineering auditorium.

Audrey Thompson, another former Tech student, attended the Wrangler dance Friday night. Her date was Bill Solley.

Sophomore class meeting has been called for 5 p.m. this afternoon in Ad-220.

Mary Anne Kelley, sophomore journalism major and Tech beauty, has recently been elected to the office of secretary-treasurer of Women's Inter-Club council.

Kappa Alpha Mu, national honorary photography fraternity, will initiate eleven new pledges at 5 p.m. Monday in J-211. Those to be initiated are Jack Shelton, who has been elected as pledge captain, Savannah Tunnell, Carroll Sanders, Sue Holmes, John McAleer, Floyd dean Wilburn, Guida Miller, Pat Johnson, Jean Woodrum, Janet Swindler and Aubrey Carothers.

Sigma Delta Pi, honorary Spanish fraternity, will present Kodachrome slides on Mexico at 7:30 p.m. Monday at the aggie auditorium, said Bill Bufkin, president.

Dr. T. L. Hamilton, associate professor of foreign languages, will show the slides taken on previous trips to Mexico by students at Tech as a course in Spanish.

Dr. Doyle D. Jackson, professor of education and psychology, will speak at the County Teacher's meeting at Morton this evening, on the "Pro's and Con's of Federal Aid to Education."

Tattered Text Turns Ohio Student To Seeking Correspondence From Tech Coed

By BETTY WRIGHT
Toreador Staff Writer

Have you ever wondered what happened to your old text books that you have discarded throughout your years at Texas Tech?

When you were laboring over your economics book, for instance, did you think about some other poor student who would perhaps be reading those same pages and even worrying over the same exams as you have done? If you are the type of student who writes his name and address in his text books, you may find yourself in a situation similar to that of a student on this campus.

Mary Alice Mitchell, senior business student from Tahoka, recently received the following letter from Oxford, O.

Used Same Text.

Tom Long, a student at Miami university, used the same economics book that Miss Mitchell used a few years ago. Finding her name and

address on the inside cover, Tom proceeded to strike up a correspondence with the former owner of his economics book. He wrote: " . . . This salutation may sound a little forward, but that is only because you don't know how much we have in common. We both used the same economics book by Tarshis. I thought it was a wonderful book, the kind that one doesn't have to learn anything from. If you can't learn anything from a book there is no use reading it, so the book is just the same now as it was when you last used it.

Doesn't Know Tech

"Now you know why we have so much in common. If you don't understand what I have been saying so far, don't quit reading out of courtesy to the effort that I have put into this masterpiece of composition.

"I don't have the slightest idea where Texas Tech is, but I was in Fort Worth once. Is that good or bad? About now my roommates think I'm nuts, but they can't understand the strain I'm under. Just think, I am using the same book that a girl once used. . . . I also am a student, Miami university. I hope this will be beneficial in keeping you from worrying about the whereabouts of your old eco book. I assure you that I am taking loving care of it."

Engineers' Banquet Is A National Affair

When the annual engineers' banquet is held on the campus March 11, Tech engineers all over the United States will have banquets at approximately the same time.

These banquets have been adopted by engineers from Tech living near each other as a fellowship medium through which they can meet to discuss common engineering problems during an evening of planned entertainment. In each city, engineers who were once Techsians elect chairmen to supervise activities and make arrangements for the affair. The banquet is then held on the same day as the one on the campus.

Although the dinners for the past two years have been held on the second Saturday in March, traditionally they were on the first, and some of the ex-Techsian engineers are trying to revert to the original date.

D. M. McElroy, executive secretary of the Ex-Students' association, has received word that banquets will be held for engineers in the Dallas-Arlington-Port Worth area, Houston, Atlanta, Ga., and New Hyde Park area in New York. Formerly banquets have been held in Schenectady, N.Y. and Washington D.C., so McElroy said he believes that banquets will be held there also.

Raider Hoopmen Meet 7th Place Miners Here Tonight

Texas Tech's Red Raiders tangle with Texas Western's Miners at 8 tonight in Tech gym.

The Raiders, back from an unsuccessful road trip in Arizona where they won from Flagstaff and lost to Tempe and Arizona, are in fourth place in the Border loop. The Miners, whom the Redmen defeated earlier in the season in a close tilt, occupy seventh place.

Arizona's Wildcats have virtually sewed up the Border conference basketball championship. Boasting Leon Blevins, the league's leading scorer, they have a conference record of 11 wins and no defeats.

Conference Standings

Four of Tech's starting five have gained positions in the top twenty scorers of the conference. Jiggs Jackson, senior guard holds fourth spot, Gene Gibson, eighth place, Jack Alderson, ninth, and Charles Pinnell, nineteenth position.

The conference standings:

Team	W	L	Pct.	Pts.	OP
Arizona	11	0	1.000	761	599
Harline-Simmons	7	2	.773	496	493
Tempe	7	4	.638	679	645
Texas Tech	6	4	.605	626	605

Conference games this week:

Tonight—Texas Tech vs Texas Western; New Mexico A & M at West Texas; New Mexico at Arizona; Thursday—New Mexico at Tempe; Texas Western at West Texas; Friday—New Mexico at Flagstaff.

Raider Net Stars Leave For Arizona

Texas Tech will send four tennis players to Tucson today for competition in the weekend University of Arizona invitational tournament.

Jake Broyles, Lamesa, co-holder of the Border conference doubles crown, will head the Tech delegation and team with Emil Beck, Lubbock, in the men's doubles, Nell Quattlebaum, Amarillo, former state girls' high school singles champion, and Harriet Moltz, Seguin, are to play in the women's doubles. Both are sophomores.

Scout Fraternity Elects Officers; Paul Post Chosen New President

Paul Post, engineering senior from Borger, was elected president of Alpha Phi Omega, national boy scout fraternity, at a meeting Thursday night.

Other officers elected were Donald Shipley, freshman agricultural student from Hereford, secretary; Wilson Youngblood, business administration student from Tulla; Bob Sloan, business administration student from Alice, sergeant-at-arms.

Mar. 8 is the last day on which students may file a petition to drop a course without grade penalty.

Progress reports on freshmen are due in the registrar's office Mar. 3, the college catalog states.

Tryouts For Golf Team Scheduled For Today At Local CC

Qualifying rounds to select members of the Texas Tech golf team will be shot Wednesday afternoon on the Lubbock Country club course, Coach Morley Jennings has announced. Winners will represent Tech Feb. 28 in the opening match against the University of Arizona here.

One letterman, John Trout of Lubbock, is back this season and other good prospects will shoot Wednesday, Jennings said.

The Feb. 28 matches will be part of a Tech-Arizona sports day. The Wildcat tennis team and basketball team will be in Lubbock that date, also, for competition with the Red Raiders. Tennis matches are scheduled for 1:30 p.m. and the basketball game that night in Tech gym.

Will Conduct Discussions

Miss Martha Graves, instructor in home economics education, will conduct discussions for two Parent-Teacher association study courses.

One course, consisting of 12 lessons, is to be taught every Thursday in Plainview for the city council of PTA units. The other course, which started Friday, is being held in Petersburg.

ACROSS THE DAM

This excerpt from an October, 1933 edition of The Pampa News proves that fumbling the pignisk is not a recent innovation in football:

"Texas Tech Matadors are not confining their leather lugging to the gridiron these days. Strangers on the Tech campus are wondering what kind of initiation is going on. Observations show members to be football fullbacks—fumbling fullbacks, also quarterbacks and halfbacks. They go from dormitory to the classroom and from Administration building to electrical engineering class with footballs under their arms.

"It's part of Coach Pete Cawthon's suggested cure for fumbling.

"So every fumbling backfield man on the Tech squad is learning how to carry the ball on the gridiron by practicing in polite society."

Gym To Be Site Of High School Cage Tourney

Texas Tech sports fans will have the opportunity not only to see some good basketball games, but will be able to see a great deal of their home towns in action when the former district champions and new district champions compete Friday in the Texas Tech gym in the annual Region I, Class B basketball tournament, rated the top tourney of the state.

Back as district winners in the Texas Interscholastic league setup are Shallowater, last year's regional winner, Roaring Springs, Dimmitt, Ropesville and Samnorwood. All are rated as strong contenders.

Two games are scheduled Friday morning, with 4 that afternoon and 3 Friday night. Semi-finals are set for Saturday afternoon, with finals that night. However, after teams arrive, the Saturday afternoon contests may be shifted to morning in order to give players more rest before the final test at night.

The schedule announced by Morley Jennings, tournament director, puts Paint Rock, winner of District 10, against Quitaque, winner of District 4, in the opening game, starting at 10 a.m. Friday. At 11:15 a.m., Canadian, District 2, meets Shallowater, District 7.

Play resumes at 1 p.m. with Roaring Springs, 8, meeting Dimmitt, 5. Other games are: 2:15—Ropesville, 9, vs. Spade, 6; 3:30—Knox City, 12, vs. Gruver, 1; 4:45—Dawson, 10, vs. winner of Paint Rock-Quitaque game; 7 p.m.—winners of Canadian-Shallowater and Roaring Springs-Dimmitt; 8:15—Samnorwood, 3, vs. winner Ropesville-Spade; 9:30—winners Knox City-Gruver and Adrian, 11.

The Region I tournament has been enlarged to include 13 teams instead of the former 11. Serving as officials will be T. L. Gilley, Amarillo; A. C. Hamilton, Lubbock;

Undefeated West Hall Team To Try Sneed In Intramural Game Tonight

By BILLY YOES
Toreador Sports Writer

West Hall Eagles, undefeated in intramural basketball competition, meet the Sneed hall Hot Rods at 9:20 p.m. tonight in Tech gym.

Three games will be played tomorrow night. Included in these are Alleycats vs Wesley Wildcats at 7 p.m. Dairy Club vs ASCE at 8 p.m. and GDI's vs Quintessence Quintet at 9 p.m.

In Dorm league I competition, the Sneed Ball Hawks beat the Cuspidors from Men's Dorm III by a score of 23-18. Joel Wilson was high point man for the Ball Hawks with 8 points. Doug Shelton garnered 6 points for the Cuspidors to gain high point honors.

Doak Red Devils won an easy 37-19 victory over the Poslokes. David Moorhouse dunked in 18 points to lead the Devils, but was pushed by teammate Bob Ebel who scored 17 points. "Master Detective" Nick Carter of the Poslokes scored 6 points to pace his team.

Cuspidors Beat Drane

The Cuspidors, in their second outing of the week had better luck as they won a hard fought victory over the Drane hall team with a score of 37-33. Frank Brame dunked in 4 field goals and 3 gratis shots to lead his team in scoring. Teammate Lynn Leathers scored 10. Ralph Hawkins, Drane hall player, gained game scoring honors by hitting the bucket for 20 points.

Doak's Green Hornets had an easy time in winning over the Sneed Hot Rods by a score of 34-17. Gay Willingham led his team in scoring with 15 points while Jerry Church followed with 9. Bill Johnson paced the losers with 6 points.

Filthy Five Take Two

The Filthy Five eked out a 23-20 victory over the Dorm IV Rebels. Bill Bucy with 7 points and Bob Nease with 6 points led the Five in scoring. Travis Tadlock scored 6 points for the losers.

With Archie Campbell scoring 28 points, the West hall Eagles romped over the Dorm IV Rebels by a score of 44-20.

E. H. Wilkins, Levelland and Bob Greer, Plainview

Admission prices of 60 cents for adults and 30 cents for students have been set for each session.

57-29 score. The Filthy Five won out over the Third West hall team by a score of 24-19.

In Independent league II the Dairy club scored an upset victory over the Rodeo association 40-29. Clarence Darter made 10 points for the winners while teammate Jim Sawyer scored 8. High-point man for the Cowboys was Dan Cotton, who tallied 13 points.

Mulleneax Named As Freshman Coach At Texas Tech

Former Arizona Line Coach To Begin Job Here

By SAN ANDERSON
Toreador Sports Editor
Preparations for Tech spring football training got underway Saturday when Carl Mulleneax, former line coach at the University of Arizona, was added to the Raider staff.

CARL MULLENEAX

Mulleneax, engaged as freshman football mentor, will assist Head Coach Dell Morgan with the varsity grid squad until fall, when he will assume directorship of the frosh eleven. No formal date has been set for start of spring workouts.

The new freshman coach has been connected with football either as player or mentor for 20 years. He starred on teams of Phoenix Union High school for three years and was graduated in 1933. Mulleneax played three years for Utah state at end position and was placed on the Rocky Mountain conference team for two years. As a senior, he won a place on the second team All-America.

Played With Packers

He played in the annual East-West game in San Francisco following his final season with Utah, then became a professional with the Green Bay Packers and remained with them seven years. While performing in the National Professional Football league, he was selected as all-professional twice.

Naval service failed to sever the gridiron star's football affiliations, for he served as end coach at Great Lakes Naval Training station one year and as a player-coach at Bainbridge Naval station a year.

During the 1946-47 season, Mulleneax was coach of the University of St. Louis line. He moved to Arizona in 1947 to serve two years on the university staff.

Applied Arts Group Starts On New Projects Thursday

Miniature wooden animals will be made as the project of the applied arts workshop.

Designs will be submitted by all members at the next meeting, 7:15 p.m. tomorrow in X26, and the best will be chosen. Work will be carried on and completed at club meetings.

All those interested in joining the club may do so, said Gladys Haynes, club president. Applied Arts 131 or its equivalent is the only requirement for membership, she said.

SocII Holds Formal Ceremonies Initiating New Members Monday

SocII, men's social club, initiated five members in a formal ceremony Monday night at the Hilton hotel.

Those admitted into the fraternity were Oscar Cooper, sophomore engineering student from Midland; Eavis Hanna, junior arts and sciences student from Slaton; Bill Velvin, sophomore arts and sciences student from Midland; Jimmy Whitaker, junior aggie student from Hereford; John Coombes, junior business administration student from Hereford.

Sports Panorama

By SPORTS STAFF

The hottest basketball player in the Border conference at the moment is Jiggs Jackson, Texas Tech senior guard.

Jiggs has, during the last two weeks, leaped from 29th among conference scorers to fourth with 87 points in five games against Arizona competition. His upsurge gave him a total of 254 points for the 21-game season and 160 in the conference, an average of 12.1 points per game against all foes and 13.3 in the Border loop.

Jackson passed three teammates on his way up the ladder, moving Gene Gibson, senior center, into eighth spot in the conference and sophomore Jack Alderson into ninth spot, while Forward Charles Pinnell, out of action with illness the past four games, remains in 19th spot. For the season, Alderson, Lubbock, has 240 points; Gibson, Lakeview, 218, and Pinnell, Andrews, 124. Verdel Turner, Lubbock sophomore, moved to 165 points during Pinnell's absence.

Jackson's eye for free throws has been little short of miraculous. Out of 46 attempts, Jiggs has made 38 good for an average of 82.6 per cent. This average has been good enough to make him 10th on the National Collegiate Athletic Bureau bulletin in listing of highest national free throw percentages under the heading of small colleges.

The term "small colleges" brings to mind a touchy subject. Why are Border conference teams classed on a blanket basis as small colleges? Year after year, when statistics come pouring out of the National Collegiate Athletic Bureau, every Border loop team may be found listed as a minor college. Why? Is it because they play weak schedules? Certainly not! True, some of the Border teams are weak but this is no excuse for placing every team in the conference under the smaller college classification. Several of our schools are playing top-notch competition and holding their own. Tempe and New Mexico, this year took extended Eastern tours while West Texas and Arizona went West to meet some of the best western teams.

Arizona, which is leading the conference with an 11-0 record, has an all-season record of 20-2. It has met such top-flight competition as Texas A&M, Texas U., St. Mary's college, Loyola, Santa Clara and Beloit college. It has won 63 straight games on its home court against strong teams. Jack Gray, Texas U. basketball coach, believes there is not a team in the Southwest conference that would have reason to compete with Arizona for the right to go to the NCAA tournament.

West Texas consistently turns out fine basketball machines and has gained national recognition several times. West Texas beat Texas earlier in the season and has met several strong teams this year.

Texas Tech didn't take an extended eastern or western tour this year but plans are being laid for next season. Tech is counted as a major college in football but during basketball season its rating drops to that of a minor college.

Since Arizona and West Texas State consistently turn up good basketball squads, it seems they could both easily be counted as major colleges on a permanent basis. Tech is at least capable of being branded a major college on a yearly basis. But instead, some one year after year glances at a group titled "Border Conference Teams" and promptly rubber stamps the whole kit and kaboodle as MINOR COLLEGES.

There ain't no justice! —John Lee

NO CIGARETTE HANGOVER

when you smoke PHILIP MORRIS!

In just a few seconds you can prove
PHILIP MORRIS
IS DEFINITELY LESS IRRITATING
than the brand you're now smoking!

...light up a
PHILIP MORRIS
THEN, just take a puff—DON'T INHALE—and s-l-o-w-l-y let the smoke come through your nose. Easy, isn't it? AND NOW ...

2 ... light up your present brand
Do exactly the same thing—DON'T INHALE. Notice that bite, that sting? Quite a difference from PHILIP MORRIS!

NOW YOU KNOW WHY YOU SHOULD BE SMOKING PHILIP MORRIS!

Everybody talks about PLEASURE, but only ONE cigarette has really done something about it. That cigarette is PHILIP MORRIS!

Remember: *less irritation means more pleasure.* And PHILIP MORRIS is the ONE cigarette proved definitely *less irritating, definitely milder,* than any other leading brand. NO OTHER CIGARETTE CAN MAKE THAT STATEMENT.

YOU'LL BE GLAD TOMORROW—
YOU SMOKED PHILIP MORRIS TODAY!

CALL FOR PHILIP MORRIS

JAN PEERCE

Peerce—

(Continued From Page 1)

known to audiences through his radio appearances. He sang on "Great Moments in Music" for two years and has appeared on Lucky Strike, Coca-Cola, Ford, General Motors, Firestone, Gulf, Standard and American Oil programs. In a 1948 national poll of radio critics he was voted the favorite male singer.

Before making his debut with the Metropolitan in 1941, the musician sang in a special performance of Sergei Rachmaninoff's "The Bells" with the composer conducting. Later he sang in "La Traviata," which began his operatic career.

Awarded Honorary Degree
Recently, Peerce was awarded an honorary doctorate degree in music by the New York College of Music. He is the first singer in the 73-year-history of that school to receive the honor and now stands among violinists Fritz Kreisler and Jascha Heifetz, who also received the degrees.

All Tech students, regardless of business office receipt numbers, may attend this concert, R. A. Mills, chairman of the Artists Course committee, has announced.

Voice training for the tenor was preceded by a short violin career which paid his way through college. The Peerce family hoped their son would begin medical training, but he turned from science to music. He has justified to his family his switching of vocations since his first appearance with Toscanini, who recognized his talent.

Appears in Movies
Movie-goers have seen Peerce in "Carnegie Hall" and in "Something in the Wind" with Deanna Durbin. He has become internationally famous without leaving this continent through his recordings, which include "Bluebird of Happiness," released under the name of Paul Robinson. His Verdi recordings are his best-known, however.

The vocalist opened his current season at the San Francisco Opera, after a series of summer concerts including New York's Lewisohn stadium, Philadelphia's Robin Hood Dell, Washington's Watergate concerts and festivals at Montreal and Red Rocks, Colo.

Pastor—

(Continued From Page 1)

Ind. in the Evangelical and Reformed church. He attended the World Presbyterian Alliance in Belfast, Ireland in 1933; Universal Council on Life and Work, Fano, Denmark, 1934; Oxford and Edinburgh conferences, 1937; International Congress of Christian Education, Mexico City, 1941; Conference on Evangelism of the World Council of Churches, Geneva, 1947; Amsterdam Assembly of the World Council of Churches, 1948; and the World Alliance of Presbyterian churches, Geneva, 1948, as a delegate. He has also visited and lectured in the Near, Far and Middle East.

Doctor Homrighausen has preached at Cornell, Wellesley, Wells, Hood, Lafayette, Heidelberg, Bluffton, Princeton, Hamline, Pittsburg, Macalester, Whitworth and Wheaton, Mass. He has also been active as a Y lecturer and in summer conference work. The lecturer is a former president of Chicago Classis and Midwest Synod and also corresponding secretary of the general synod of 1926. He is a member of the Board of Trustees, Mission House College and Seminary, Board of Christian Education and the Reformed Church, U.S.

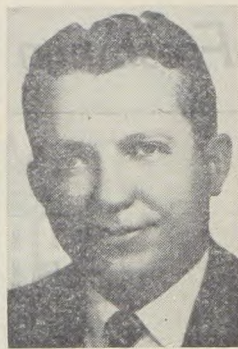

Active On School Boards

The speaker is active on the Princeton School board, Hood college Board of Trustees, Leadership Training Committee of the International Council of Religious Education association, National Conference of Family Relations, Princeton YMCA Board of Directors, Masonic Order, the program committee of World Convention of Christian Education, Toronto, 1950; Secretary for Evangelism, Reconstruction department, and the World Council of Churches, Geneva, 1948.

As an author, Doctor Homrighausen has contributed several articles and book reviews to various journals including "The Christian Century," "The Presbyterian," "Review of Religion" and "International Journal of Religious Education."

DR. E. G. HOMRIGHAUSEN

DR. J. W. MARSHALL

Visitors—

(Continued From Page 1)

turned to her native Chile and was appointed supervisor in the public School of Social work.

Dr. Marshall, the banquet speaker, has had a long career of young people's work. He became president of Wayland in 1947 coming to Plainview at that time from the Baptist Mission board in Richmond, Va.

Jones To Speak

Delegates to the regional convention will begin arriving here Thursday. Regional president James D'Acosta of Tech has announced the convention will officially get underway Friday morning at 8 a.m. when visitors and delegates will register in the east rotunda of the Administration building. The general session will open at 8:45 a.m. in the Aggie auditorium with D'Acosta presiding. A welcome address from the student body will be made by Marshall Gettys, president of Tech's student association. Dr. E. N. Jones, vice president of the college, will welcome the delegates for the college administration.

The response to the welcome will be made by Robert Hodges, regional vice president from New Mexico Military Institute. Dr. J. William Davis, head of Tech's government department, will then introduce the main speaker, Miss Orrego.

Following this session delegates will divide for three round table discussions. Students will lead the round table groups in their discussions of various world problems including "Effects of the Marshall Plan Cancellation" and "U. S. Foreign Policy Toward England."

Tour of Campus Planned

At noon Friday the visitors will attend a banquet in the Lubbock Hotel ballroom. Sr. Pasqueria will be the main speaker at the banquet.

That afternoon the delegates will see a film on the theme of the International Relations clubs. The clubs, of which there are chapters in all of the states and

Hawaii, were first founded in about 1927. Their purpose is to further relationships between people of this country and foreign nations in economics, trade and similar lines. Following the film the group will be taken on a tour of the Texas Tech campus.

Friday night they will be guests at a square dance in the Tech Rec hall and will also attend a talent show presented by the Tech International Relations club. Miss Fannie Beth Allen is in charge of the Talent show.

Officers Named

Saturday the convention will again convene in the Aggie Auditorium and divide again for roundtable discussions. At 10:30 a.m. a final business session will be held in Room 205 of the Chemistry building and following that the convention will adjourn. At that time a site for next years convention will be chosen.

Regional officers of the International Relations clubs attending the convention are D'Acosta, president, Tech; Robert Hodges, vice president, New Mexico Military; LeVora Manning, secretary, Tech; Jack Truan, recording secretary, New Mexico Western; Max Osburn, treasurer, Tech. D'Acosta has announced that the general sessions including Miss Orrego's talk will be open to the public.

Schools who are expected to send delegates are Wayland college, Texas Western college; Sul Ross college; New Mexico Western, Eastern New Mexico university and New Mexico Military Institute.

Museum—

(Continued From Page 1)

7:15 p.m. Mar. 3 and at 2:25 p.m. Mar. 4 on KCB D. They are to appear during the first week in March on a program originating from the studios of KSEL.

Dr. Clifford E. Jones, president emeritus of Tech, will speak over KSEL during the last week of this month. First of Doctor Jones' talks was given yesterday on KCB D with a discussion of the general plan of the Museum and the part it can play in the future of the people of this area. Jim Black, KCB D announcer, was interrogator.

Elections—

(Continued From Page 1)

preceding his election, the semester in which he takes office, and the time during which he holds office; (4) he must have attained a 1-point grade average for all college work prior to election; (5) he must have been a resident student in the semester preceding the election.

The elections are being held to fill vacancies caused by the assumption of the council vice presidency by Bill Trenfield, former arts and sciences representative, and by the January graduation of Robert Lee Craig and Bill McCasland, who were business administration students.

Tech String Band Gets Invitation To Snyder Meeting

C. T. McLaughlin, member of the Board of Directors, has asked the Rodeo String Busters to appear on a program of the Snyder Chamber of Commerce Friday, said Dr. Gene L. Hemmle, head of the music department.

The Rodeo String Busters, an organization of Tech students, were brought together this year under the direction of Bryan Boyett. Members of the band are Bobby and Horace Henley, Lorenzo, Bingo Breining, Lefors, and Boyett, Moran. Only non-student member of the quintet is Jack Mears, custodian of Men's Dorm IV.

RODEO STRING BUSTERS—Shown above is the group of Tech students who have been invited by a member of the Tech Board of Directors to play at a Snyder Chamber of Commerce meeting Friday. Right to left the band members are: Bingo Breining, Jack Mears, Brian Boyett, Horace Henley and Bobby Henley. (Photo by Stewart Phillips.)

Vaughn, Shearer Take Top Prizes At Home Ec Party

Nettie Shearer and Betty Vaughn won prizes for the most beautiful and most unusual boxes, respectively, at the aggie-home ec box supper Friday night in the Green room. Approximately 200 persons attended.

Miss Shearer's box was covered with brown crepe paper ruffled around the sides, and on the top, in gold, were a horseshoe and three horses.

Wayland Bennett, assistant professor of agricultural economics, paid \$3.50, biggest price of the evening, for the box.

Miss Vaughn's box, which was decorated with a miniature corral, was purchased by Vernon Evans.

Both Miss Vaughn and Miss Shearer are residents of the home management house.

R. C. Janeway, Tech Head Librarian Plans Expansion Of Book Collections

By CHARLOTTE BLACKBURN
Toreador Staff Writer

"I consider it a real professional opportunity to be connected with a young and growing college like Tech," said R. C. Janeway, who is in his first year as director of the library. He stated that he appreciates the freedom of expression allowed in his work.

Janeway came to Tech from the University of Kansas, where he served as assistant librarian from 1946 until September, 1949. Before going to Kansas he was librarian at Bradley Polytechnic at Peoria, Ill.

"I have always wanted to live in the Southwest as it is my favorite part of the country. That is one reason I am so pleased with my position here at Tech. Though I have lived in Oklahoma and Kansas I always wanted to be farther South and farther West," he said.

Janeway should be well able to choose which part of the country is his favorite for he has seen a great deal of it. He lived in 10 states between the ages of 9 and 12, while traveling with his father.

Likes Texas Courtesy
The people of Texas also appeal to the librarian. He thinks they have a basic courtesy which goes deeper than the usual social veneer. He describes it as a feeling of kindness and consideration.

His interest in library work began

in high school when he took a course in library science, which he said he believes was only a ruse to get the students to help clean up the library. This course made possible a job in the library at the University of Kansas which helped him work his way through school. Janeway had no idea of becoming a librarian when he first started to college. He intended to be an engineer, he explained. But a librarian he became and went to the University of Illinois to take professional training in library science. It was there he got his M.S.

Calls Square Dances

A look at the non-professional side shows a man interested in square dancing, his record collection and his unique home. Janeway is a trained square dance caller and has dances at his house every Saturday night.

He is very proud of his house which he describes as "barn red and darn cute." It is situated at 3704 Thirty-first street in a section of town fondly designated by its inhabitants as "Easter Egg Row."

Janeway believes an education consists not of knowing everything, but of knowing where to find it. He feels students at Tech need to learn to use the library efficiently. Along this line, he has planned a series of talks on the use of the library for the freshman English classes next year. These are to be accompanied with a tour through the Library.

Chance Vought Agent Seeks Spring Graduates In M.E.

Frank Coe, representative of the Chance-Vought Aircraft division of United Aircraft corporation, will be on the campus Monday and Tuesday to interview spring graduates in mechanical engineering, Mrs. Jean Jenkins, executive secretary of the Placement service, said.

The interviews will concern a 10-month engineering training program, the secretary stated. Students who are qualified and interested are asked to contact the Placement office, Ad-205, immediately for appointments.

Spring Engineering Grads Wanted By Westinghouse

May and August graduates in electrical, mechanical and industrial engineering who are interested in the Westinghouse Electric corporation's training program will meet at 5 p.m. Wednesday, Feb. 23 in the engineering auditorium, Mrs. Jean Jenkins, executive secretary of the Placement service, announced. E. R. Price of Westinghouse, will give general information about the program.

"Students interested should come by the Placement office immediately to make appointments for personal interviews which will be given Mar. 1," Mrs. Jenkins said. "Descriptive material about the training program and application blanks are available in this office," she stated.

Drilling Of Oil Well On Tech Campus Set For March; Engineers To Operate

By DOYL ADAMS
Toreador Staff Writer

Drilling of an oil well in the northwest corner of the campus will begin sometime in March, Paul S. Johnston, assistant professor of petroleum engineering, said.

"Texas Tech On Parade" Will Be On KSEL Tonight

"Texas Tech On Parade," Tech newscast program, will be heard at 7 p.m. tonight over KSEL. Phil Nickell will be the announcer and producer of the program. Students participating on the newscast will be Richard Alexander, Aubrey Thompson and Jeanne Battey.

Each week a new group will present the show with the exception of Nickell, who is permanent announcer and producer.

Speech Workshop Planning Series Of Radio Programs

Beginning next Monday at 7:15 the Speech Department Workshop will be presented over radio station KCBG.

There will be a series of programs on interpretation from members of Miss Cecilia Thompson's interpretation class. Monday night's will be done by Mrs. Shirley Cummings.

Announcer for the program will be Glenn Hatfield and organ music will be furnished by John Christopher, musical director for the program.

All of these programs will be produced by the Tech Broadcasting Club.

Architectural Conferences Will Be Held At Tech In '51

"The regional meeting of the Collegiate Schools of Architecture will be held at Tech in March, 1951," stated F. A. Kleinschmidt, head of the architecture department. The tentative program for next year will be the curricula and studios for the education of an architect.

Kleinschmidt, W. L. Bradshaw, Robert I. Lockard, and Richard K. Tracy, all of the architecture department have just returned from Houston where they attended this year's convention.

At 10:45 Saturday morning over radio station KFYO the Tech Public Information program will be heard. This Saturday, Prof. F. L. McRee of the Tech civil engineering department will be interviewed by Glenn Hatfield on traffic safety. Announcer for the program will be John Christopher.

The well is to be used by petroleum engineering students for pumping problems, bottom-hole temperature and pressure measurements, bottom-hole sampling and other oil field techniques.

"There will be no attempt to find oil, so we won't even drill the plug," W. L. Ducker, head of the department said. The bottom of the pipe will be closed off from any formation to protect water sands and other strata from adulteration by water from other levels, he added.

A jack-knife derrick with a regular rotary drilling unit will be used to drill 2,000 feet. When drilled and cased, the well will be cemented and cleaned. After tools are removed, a permanent steel derrick will be placed over the hole to run tubing and pumping rods into the hole. The derrick will be equipped with hoisting unit, gas lift and hydraulic pumping equipment. The petroleum engineering department also plans to have oil and gas separators, oil and gas treaters, and storage tanks that will contain oil to be used for experiments.

Over 3,000 feet of pipe to be used for drilling the well are on the campus. The pipe was donated by the Gulf Oil corporation, Honolulu Oil corporation, Sid Richardson Incorporated and Stanolind Oil and Gas company.

Pledges have been received from Humble Oil and Gas company and Skelly Oil company for additional equipment for the well. D and B Sucker Rod company has agreed to furnish a string of sucker rods, and George P. Livermore Incorporated will drill the well.

Students, Faculty Cooperate On Museum Exhibits

Photography Salon, Entrada Scheduled As Spring Shows

By BETTS DALTON
Toreador Staff Writer

Tech's new show window—the Museum—is going to be a place where students and faculty work side by side on exhibits.

Responsibility for planning shows is not to be placed on a permanent staff of experts largely unconcerned with the everyday operations of the college.

Instead, the persons who attend and teach classes will be the planners and advisers.

The Museum is to serve as a medium for displaying the work of students and faculty members and for showing the progress and development of this school. It will be equally as important as a means of providing general background material for classes and individuals.

Dr. W. C. Holden, director, has said this of the building's purpose: "The Museum at Texas Tech is an organization of service to broaden the cultural horizons of the people of the region and make them proudly conscious of a rich past upon which a vivid present and fruitful future can be built."

How Program Works

Just how is the program to operate?

Student assistants will help prepare exhibits of paintings, ceramics, textiles and photography shows of fellow Techsians. Working in an advisory capacity will be the staff of the architecture and allied arts department. Paleogeographic dioramas are to be set up with the aid of the geology department.

Dr. A. W. Young, professor and head of plant industry, is to counsel on agricultural exhibits and plantings in the Museum.

Miss Mabel D. Erwin, head professor of clothing and textiles, will advise on the preparation of textile displays. Stargazers are to be supervised by Dr. R. S. Underwood, professor of mathematics.

Special Shows Planned

Current events at Tech will be mirrored by staging of special shows. Pictures taken by photography students are to be on display Mar. 26. An entrada is scheduled for Apr. 15, with Dr. Ida S. Vernon, assistant professor of history, anthropology and sociology, acting as advisor.

For the forthcoming celebration of Tech's Silver anniversary, an exhibit of the history of the college is planned.

Student memberships in the Museum are being offered for \$1 per year. This fee entitles a member to all Museum publications; one ticket to all lectures, movies and musical entertainments; and a discount on Museum projects.

Annual faculty memberships are \$2.50 and have the same advantages as student memberships, with the addition of another ticket to all functions.

"The Museum is especially interested in student membership and believes that students will find the Audubon screen series and twilight music hours worth more than the investment made in an annual membership," Doctor Holden has stated.

Animal Husbandry Dept. Has Three Sheep Sales

Three sales of sheep by the college have been announced by Ray C. Mowery, professor of animal husbandry.

Tolby Coleman of Route 4, Lubbock, has purchased 10 Rambouillet ewes from Tech for delivery in July.

R. Keys of Yaleta has bought one Hampshire ram lamb from the spring lamb crop for delivery in the summer, and Walter A. Koemel of Lamesa has bought 10 Hampshire ewes for July delivery.

Roy C. Mowery, Tech Professor To Be Judge Of Livestock Show

Roy C. Mowery, professor of animal husbandry, will be at Stamford Saturday, where he will be a judge at the Jones County Junior Livestock show, Mowery said yesterday.

J. H. Baumgardner, assistant professor of animal husbandry, and Stanley Anderson, instructor in animal husbandry, will be at Crosbyton on the same date where they will judge at the Crosby County Junior Livestock show.

Mid-semester reports will be due in the registrar's office Apr. 6, the college catalog states.

Voting tomorrow? You need no poll tax receipt—just a few minutes of your time for checking a short ballot.

College Animal Husbandry Department Obtains Jersey Bull From Blackman Farm

Advancer Wonderful Sleeper, a five-star Jersey bull which has been officially classified as "very good," has been leased by Tech from Glenn Blackman of Shallowater and will be used in the college's artificial insemination program.

Koy Neeley, associate professor of animal husbandry, reports the Jersey stud is the son of Wonderful Advancer. The sire had 58 daughters with an average of 509 pounds of fat, and 69 daughters with an average of 87.79 on classification.

The dam was Dolly Golden Beauty, with a record of 587 pounds of fat. "Sleeper" was bred by the Marlu Farm, West Long Branch, N.J.

Neeley said "Sleeper" will be used

in providing daily direct service for dairy cattle owners with a 28-mile radius of Lubbock and indirect service to eight counties in West Texas and eastern New Mexico.

APO TO HAVE SMOKER

Alpha Phi Omega, national service fraternity for ex-boy scouts, is to hold a smoker at 8 p.m. Friday in the Yucca room of the Hilton hotel.

History, purposes and other facts about the fraternity are to be discussed, Paul Post, president, said yesterday.

Refreshments are to be served. All former members of the Boy Scouts may attend, Post said.

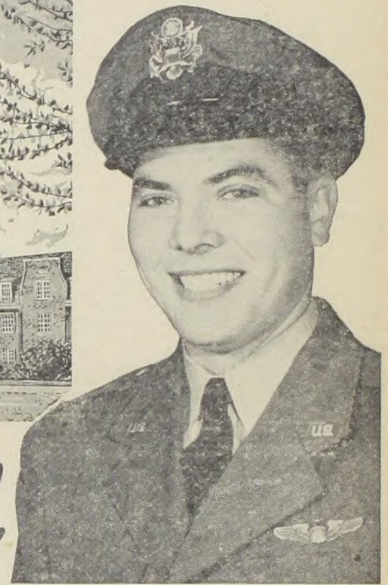

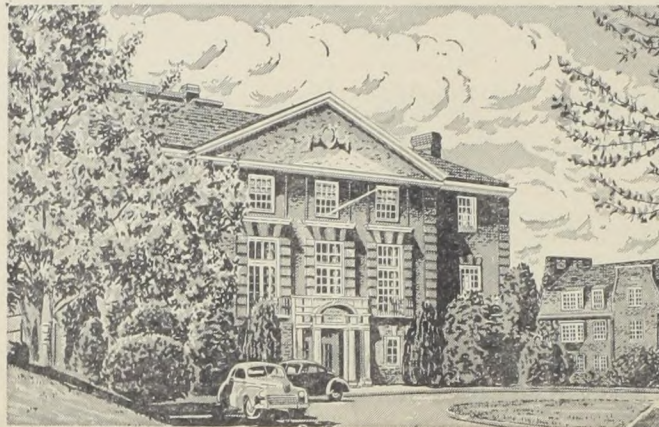

Tech Chapter Of Future Farmers Elect Edwin Sargent As Prexy

Edwin Sargent has been elected president of the Tech chapter of Future Farmers of America. Others who will serve during the spring semester are Delbert Timmons, vice president; Carlos E. Brooks, secretary; Cecil Gooch, reporter; Bill Henderson, treasurer; Clyde Wood, sentinel; and Clint House, historian.

L. M. Hargrave, associate professor of agriculture education, is sponsor of the group.

"Journalism as a Means of Recruiting for Home Economics" was the topic of a talk given by Mrs. Louise Allen, assistant professor of journalism, to the Home Economics club last night.

Major Bill Reynolds, Oregon '40 Pilot-Professor, U. S. Air Force!

Bill was an all-round athlete. He chose football as his favorite sport, made the varsity teams at Pomona Junior College and also at the University of Oregon.

A Theta Chi, Bill enjoyed campus social life. Found that it eased the pressure of rugged athletics and his heavy study schedule in Personnel Management.

Upon graduation, Bill chose a future in the Air Force. He "flew" his first Link trainer as an Aviation Cadet in 1940. By March, 1941, he had won his pilot wings.

The 1st Observation Squadron, Fort Riley, Kansas was Lieutenant Reynolds' first assignment. While there he met the future Mrs. Reynolds. They married a year later and now have two fine sons.

The Squadron moved to Panama, then to the Pacific. Bill advanced from pilot to operations officer to squadron commander. He came home a Major and qualified for a Regular Commission.

Recently commended for peacetime work—organizing and improving instruction techniques—Major Reynolds, a "Pilot-Professor", looks forward to a long and gainful career in the U. S. Air Force.

If you are single, between the ages of 20 and 26½, with at least two years of college, consider the many career opportunities as a pilot or navigator in the U. S. Air Force. Procurement Teams are visiting many colleges and universities to explain these career opportunities. Watch for them. You may also get full details at your nearest Air Force Base or U. S. Army and U. S. Air Force Recruiting Station, or by writing to the Chief of Staff, U. S. Air Force, Attn: Aviation Cadet Branch, Washington 25, D. C.
